Presentation Overview

COMPANY OVERVIEW

COVID19 EVENT - OUR RESPONSE AND OUR MARKET

FUTURE INDICATORS AND OPPORTUNITIES

HOW WE ARE GROWING OUR BUSINESS

OUTLOOK AND SUMMARY

COMPANY OVERVIEW

A leading global Mining-Tech company.

Enabling successful and cost-effective operations, from exploration to production.

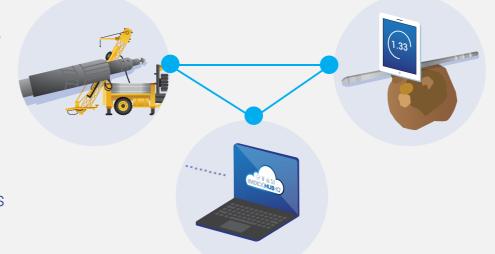

What Our Technologies Do Enable successful cost-effective operations

We develop cloud-connected sensors and drilling optimisation products to improve the process of identifying and extracting mineral resources globally.

Drilling faster & smarter

- Drilling productivity and rig alignment technologies
- Automated and remote drilling fluid testing technologies
- Data collection and paperless reporting software

Accurate subsurface data

- Downhole survey sensors
- Core orientation and gamma logging technologies
- In-field sampling and analysis technologies

Receiving real-time **Information**

- Secure cloud-based services
- Real-time subsurface visualization
- Interpretive software –

mining value chain

geological data **EXPLORATION &** MINING & **DEVELOPMENT PRODUCTION** Applicable across whole

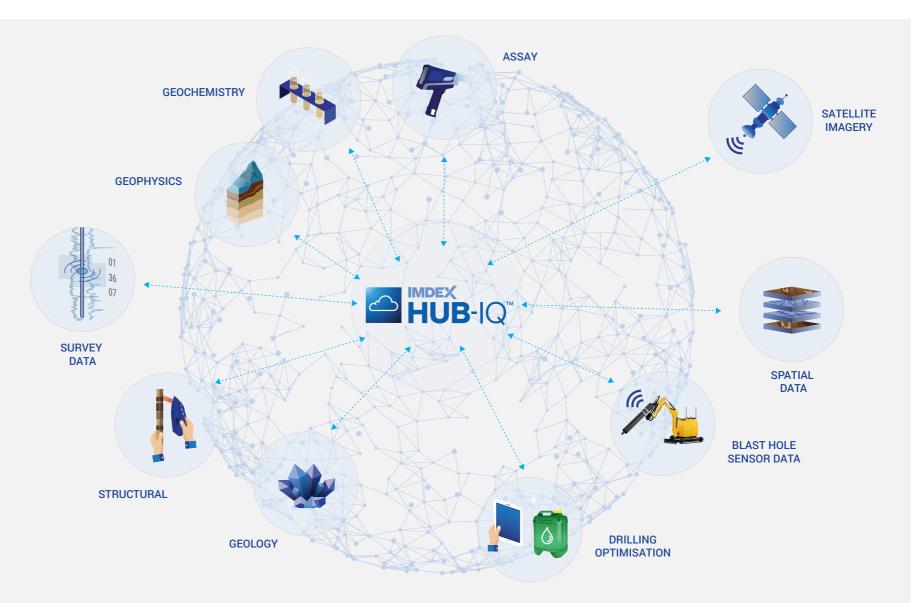

STRONG IP PROTECTION

LEADING TECHNOLOGIES

END-TO-END CONNECTED **SOLUTIONS**

GLOBAL PRESENCE

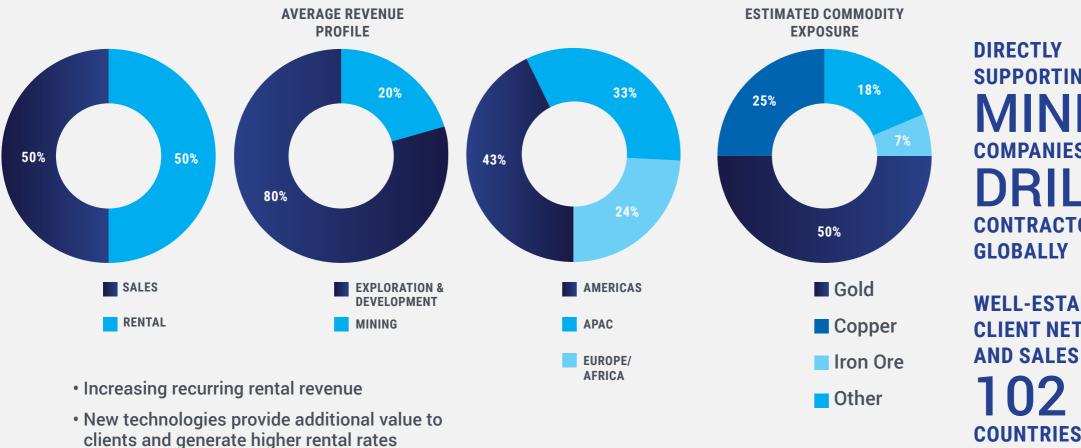

Business Model Revenue, client and geographic profile

Increasing revenue from mining

and production phase

SUPPORTING MAJOR **COMPANIES AND** DRILLING CONTRACTORS

WELL-ESTABLISHED CLIENT NETWORK AND SALES IN

A Leading Mining-Tech Company Building solid and sustainable growth

COVID-19 BUSINESS DISRUPTION APPEARS TO HAVE STABILIZED - LATE APRIL

HEIGHTENED DEMAND AND OPPORTUNITY

FOR TECHNOLOGIES THAT SUPPORT REMOTE WORKING

COVID19 EVENT

Our Response and Our Market

Our Response Two key commitments

Protecting our People

- Crisis Management Teams in frequent contact with clients
- Adhering to recommendations by WHO, Government and health departments – globally
- All employees and immediate families
 24/7 access to Employee Assistance
 Program
- Seamless transition to employees working from home, leveraging Digital Transformation Program investment

- No impact to supply chain
- Manufacturing and service levels maintained to meet demand
- 100% client support delivered
- Cost management benefiting from digital transformation, focus on supply chain and match-fit program
- Strong balance sheet and net working capital
- CAPEX correlates with client demand
- Maintaining R&D competitive advantage

Our Market Monitoring four key risks - current outlook positive

IMDEX COVID19 OPERATIONS CONTINUITY STATUS

	_		
No Lockdown	Individuals are encouraged to remain home as much as possible. Some restrictions apply, but IMDEX may continue to operate.		
Soft Lockdown	Individuals are ordered to remain home as much as possible, but do not require a lawful excuse to leave the home. IMDEX may be able to continue to operate.		
Hard Lockdown (exempted)	Individuals must remain at home, and require a lawful excuse to go out (e.g. traveling to work). IMDEX has an exemption to continue to operate.		
Hard Lockdown (not exempted)	Individuals must remain at home and require a lawful excuse to go out. IMDEX has no exemption and must close workplace operations other than care and maintenance		

COVID19 FOUR KEY RISKS

- 1. Government mandated restrictions impacting exploration and mining expected to be lifted in Q420
- 2. Company policy of clients
- 3. Response to secondary infections
- 4. Underlying mining industry fundamentals

External Response What our clients are saying

Clients intend to sustain operations and are finding ways to keep

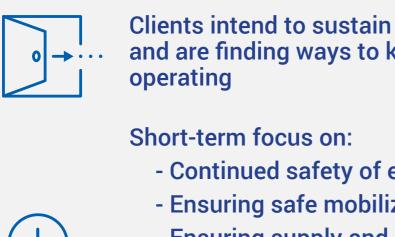

- Continued safety of employees
- Ensuring safe mobilization of teams
- Ensuring supply and business continuity
- Prioritizing near-mine and production projects - the majority of IMDEX's exposure
- Ensuring compliance with short-term **Government mandated restrictions**

Some junior resource companies are preserving cash — selective capital raisings still occuring

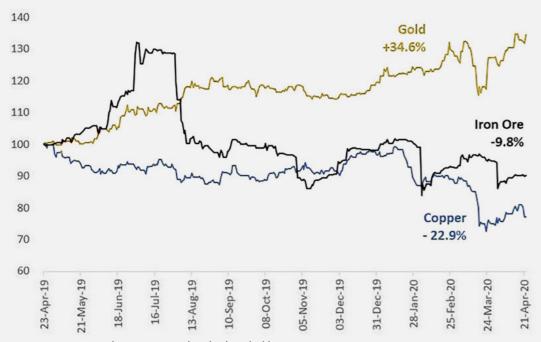

FUTURE INDICATORS AND OPPORTUNITIES

Future IndicatorsFundamentals unchanged

S&P REVISED SHORT-TERM FORECAST FOR EXPLORATION ACTIVITY IN DIRECT RESPONSE TO COVID19

- CY20 DOWN ~29% ON CY19 (PREVIOUSLY UP 0% - 5%)
- RECOVERY ANTICIPATED IN CY21

The fundamentals underpinning IMDEX's business growth continue to be strong

The major and intermediate resource companies have strong balance sheets

Reserves are being depleted at a faster rate than discoveries

New discoveries are likely to be under cover and at depth resulting in larger drilling campaigns

Resource companies are embracing innovation and new technologies to lower costs, increase safety and achieve greater productivity

Commodity exposure 80% gold, copper and iron-ore

www.macrotrends.net www.markets.businessinsider.com

Heightened Opportunities Accelerating positive structural change

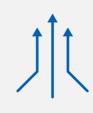

Demand for IMDEXHUB-IQ™ cloud-based technologies and software is increasing

Training via online learning platform IMDEX Academy

Solutions support clients to work remotely, efficiently, securely and safely – key components of IMDEX's value proposition

Establishing new efficient ways of working – internally and with clients – beneficial for the long-term

24/7 support via Customer Care Portal

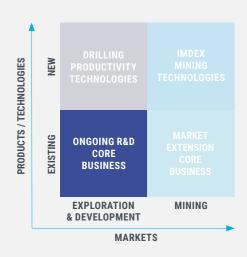

Lowering cost to manage business – gross and net margin improvement

HOW WE ARE GROWING OUR BUSINESS

58 OF TOP 100

CLIENTS ARE CONNECTED TO IMDEXHUB-IQ™ **UP FROM 49 AT JUNE 19**

IMDEXHUB-IQ™ CONNECTED CLIENTS GENERATE

60% MORE REVENUE

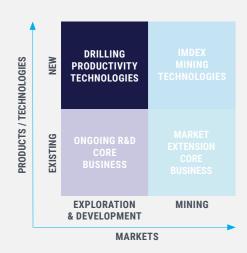

FOR IMDEX THAN NON-CONNECTED CLIENTS

IMDEXHUB-IQ™ CONNECTED **INSTRUMENTS** UP 53% ON PCP

Drilling Productivity TechnologiesProduct Extension

Client Benefits

- High frequency energy pulse assisted drilling for wireline coring
- >30% increase in productivity
- Up to 90% increase in penetration rates

Progress Update

- · Discretionary projects and trials currently on hold to limit external personnel on site
- Full pipeline of trials
- Supply chain remains on track

XTRACTA™

- Allows drillers to change the bit when core is retrieved – no need to pull rods
- The hole is always cased, maintaining hole integrity
- · Significant productivity and safety benefits

- Discretionary projects and trials currently on hold to limit external personnel on sites
- Continuing development
- IMDEX test site in NZ to re-start in May

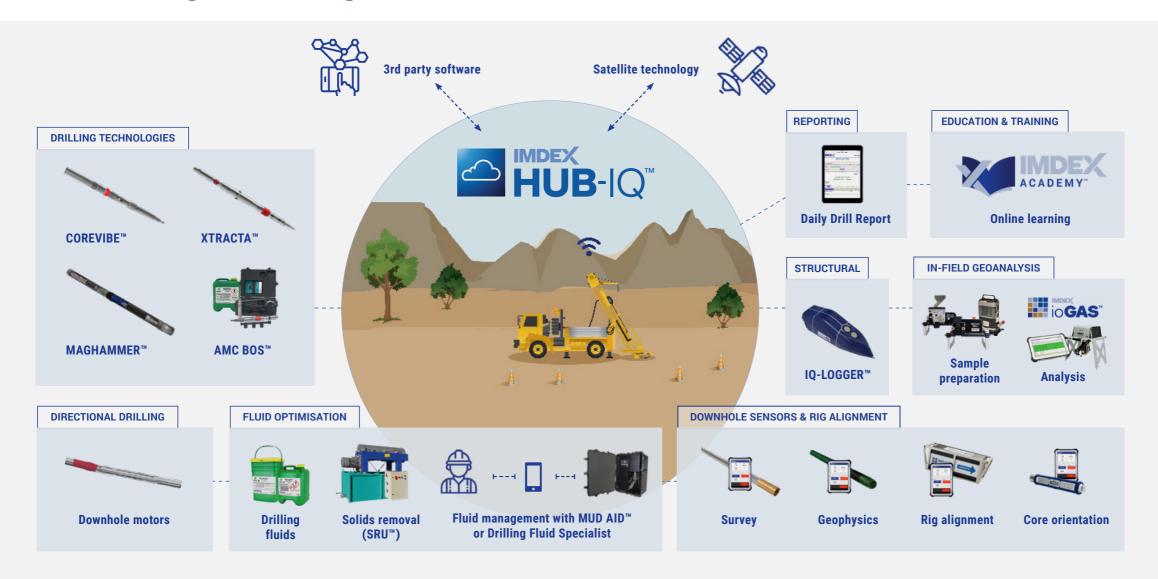

MAGHAMMER™

- Combines rotary diamond drilling with fluid driven percussive drilling
- Achieves high penetration rates compared to conventional coring
- · Significant safety, cost and environmental benefits

- Continuing development
- IMDEX test site in NZ to re-start in May

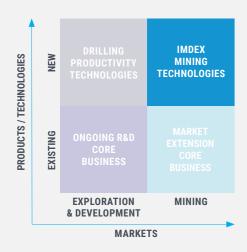

The Optimised Drill Site Delivering clients greater economic value

Mining Technologies Market Extension - BLASTDOG™

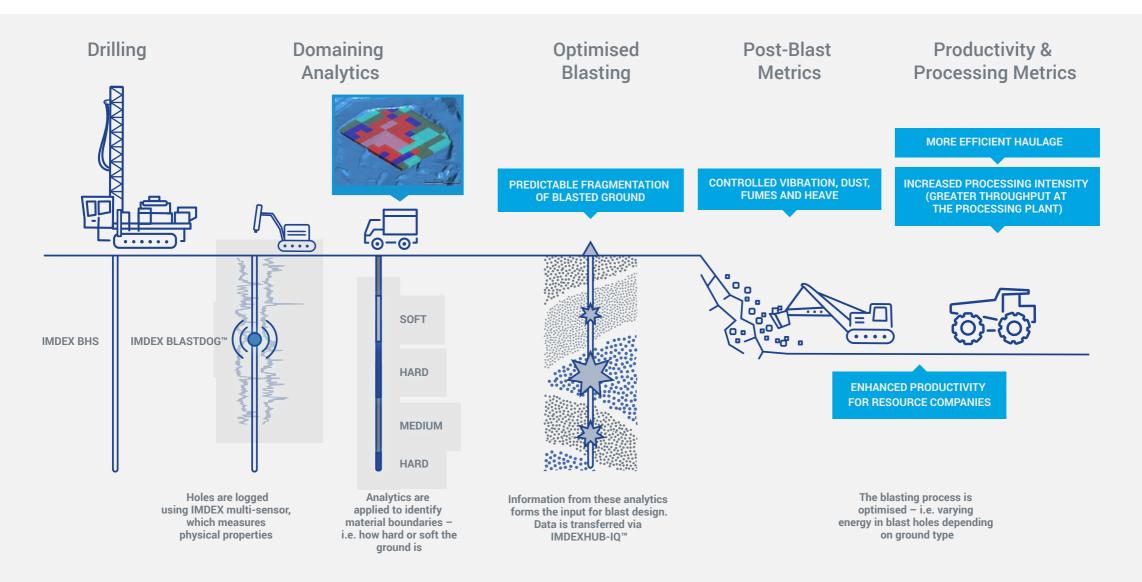

Optimising blasting outcomes based on high-resolution 3D material models and material tracking in pit

Client Benefits Progress Update Maximises revenue by increasing Set up test site near BLASTDOG™ mine to mill efficiency Brisbane Predictable fragmentation of Continuing to refine blasted ground sensors and undertake further testing Greater throughput at the processing plant Strong progress on automated data Less dilution integration and Controlled vibration, dust, fumes visualization and heave Enhances safety

Mining Technologies - BLASTDOG™ Optimised blasting and material tracking

Mining Technologies On track with development

IMDEX AMC BHS™

- STABLISES
 BLAST HOLES
- REDUCES COSTLY RE-DRILLS
- REDUCES DUST

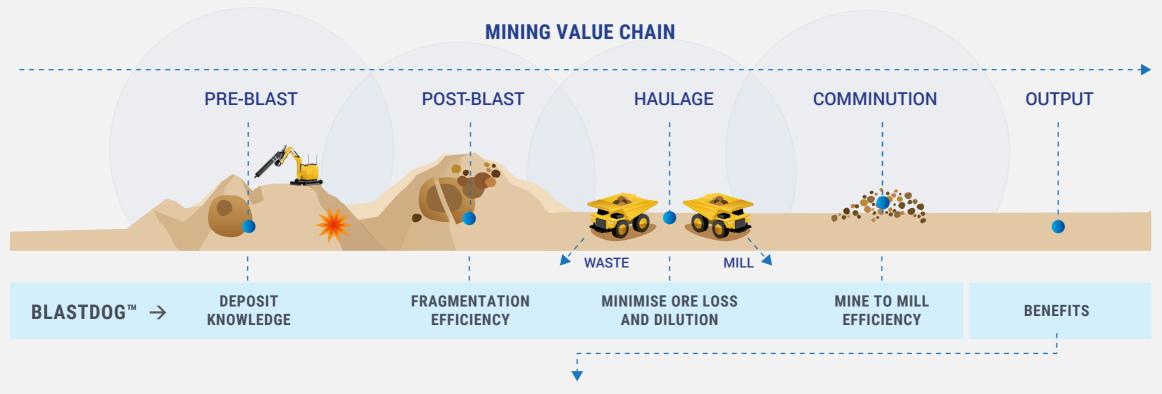

CURRENT TRIAL WITH IMDEX AMC BHS™

Mining Technologies - BLASTDOG™ Importance of total deposit knowledge

SIGNIFICANT PRODUCTIVITY, COST AND SAFETY BENEFITS INCLUDING A

↑ 15 − 20%

GAIN IN MINE TO MILL EFFICIENCY

OUTLOOK & SUMMARY

Positive Growth Outlook Solid underlying industry fundaments

Major and intermediate resource companies – strong balance sheets and focused on replacing reserves

Resource companies embracing technologies to find new ways of working

New discoveries under cover and at depth – more drilling and longer development times

Strong gold price

SummaryPositioned to deliver attractive returns

Strong balance sheet and platform to delivery recurring revenue Strong cash flow from operations

Compelling opportunities for long-term revenue and earnings growth – core business and market extension

Market leading patent protected technologies that act as a barrier to entry and position business for further growth

Established global company

– ability to leverage extensive
client network and achieve
economies of scale

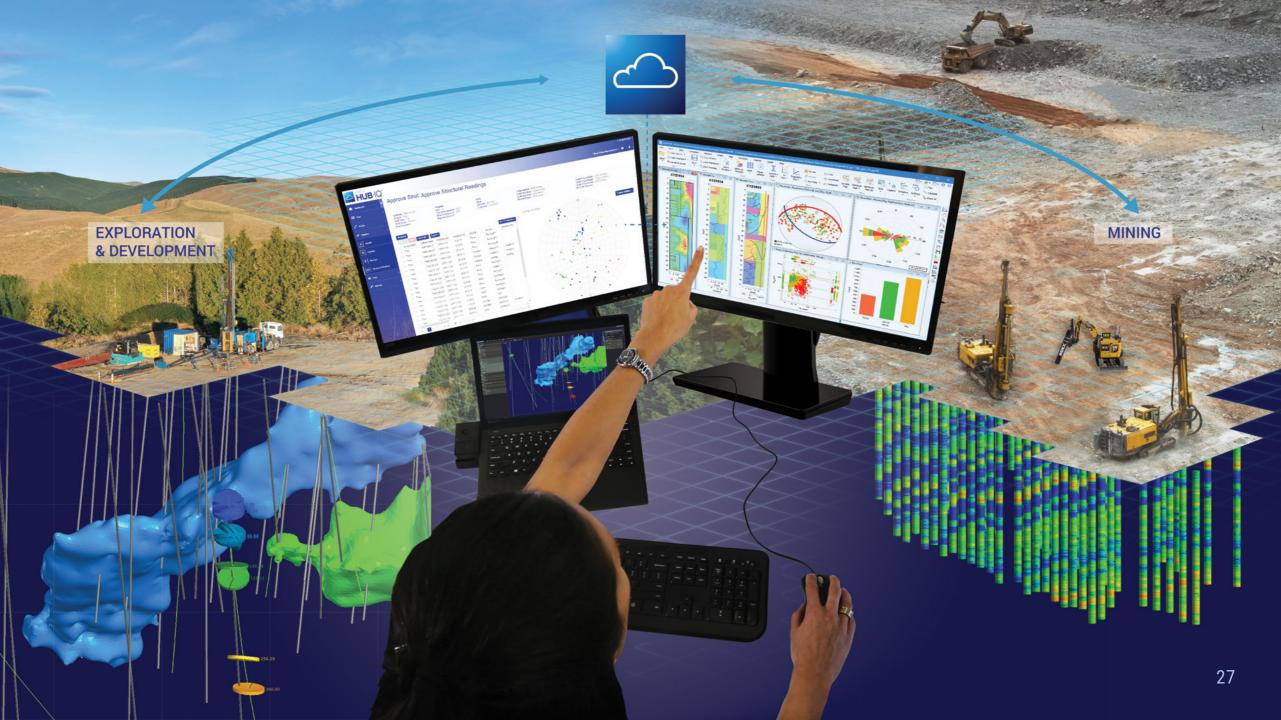

Expanding market share, driven by an unrivalled range of technologies and the benefits of being the first mover to cloud-enabled instruments

Strong leadership team

– successful track record of
developing and commercialising
technologies in all market
conditions

Thank you

STRONG MARKET PRESENCE ON

70%
OF MINERAL
DRILLING PROJECTS
GLOBALLY

102
COUNTRIES

ESGAchievements & Areas of Focus

SAFETY & QUALITY

- Improving safety performance
- Enhancing visible safety leadership
- Improving systems and compliance
- Implementing technology solutions iAuditor and risk software
- Enhancing employee training and education
- Maintained ISO 9001 certification

ENVIRONMENTAL

- Increasing number of solids removal units on rent –
 smaller site footprint and significant water reduction
- Marketing a range of bio-degradable drilling fluids
- Improving operational efficiencies for clients to reduce wastage and consumption

GOVERNANCE & ECONOMIC

- Developed Conflict of Interest Policy and process for disclosing and managing conflicts
- Annual employee ethics training and certification
- Annual employee anti-bribery and anti-corruption training
- Implementing revised risk, compliance and legal framework
- Updated employee Code of Conduct and annual training
- Updated Speak-Up policy and reporting app
- Achieved ISO/IEC 27001:2013 creditation

SOCIAL

- Implemented Supplier Code of Conduct to align with IMDEX's transparent, safe and ethical procurement practices
- Enhanced anti-bribery & anti-corruption framework
