

29 April 2020

Quarterly Activities Report 31 March 2020

Highlights

WA NICKEL PROJECTS

- Tyranna completed an internal review resulting in a revised strategic focus towards expediting exploring the Dragon & Knight Nickel Projects in Western Australia's nickel belt

EUREKA GOLD PROJECT (EGP)

- Discussions with prospective parties to optimise EGP are ongoing, comprising:
 - o Engaging a development partner to mine the project; or
 - o Straight cash sale
- Tyranna will provide an update to shareholders in due course

JUMBUCK GOLD PROJECT (JGP)

- Cash sale proceeding: Syngas (ASX: SYS), which paid a \$50k deposit on 18 November 2019, re-confirmed it remains committed to acquire JGP for \$950k in cash, with settlement expected this quarter

GOODSPRINGS COBALT AND BASE METALS PROJECT

- Tyranna is seeking expressions of interest (EOI) from third-parties to acquire or develop the project

CORPORATE

- Cash Position
- Capital Raising Completed

WA Nickel Projects

During the quarter, Tyranna undertook an internal review, focusing on fast-tracking value generation from the current asset mix. As announced subsequent to quarter end, following the review Tyranna's Board adopted a fresh strategic initiative on which projects to progress and optimise moving forward.

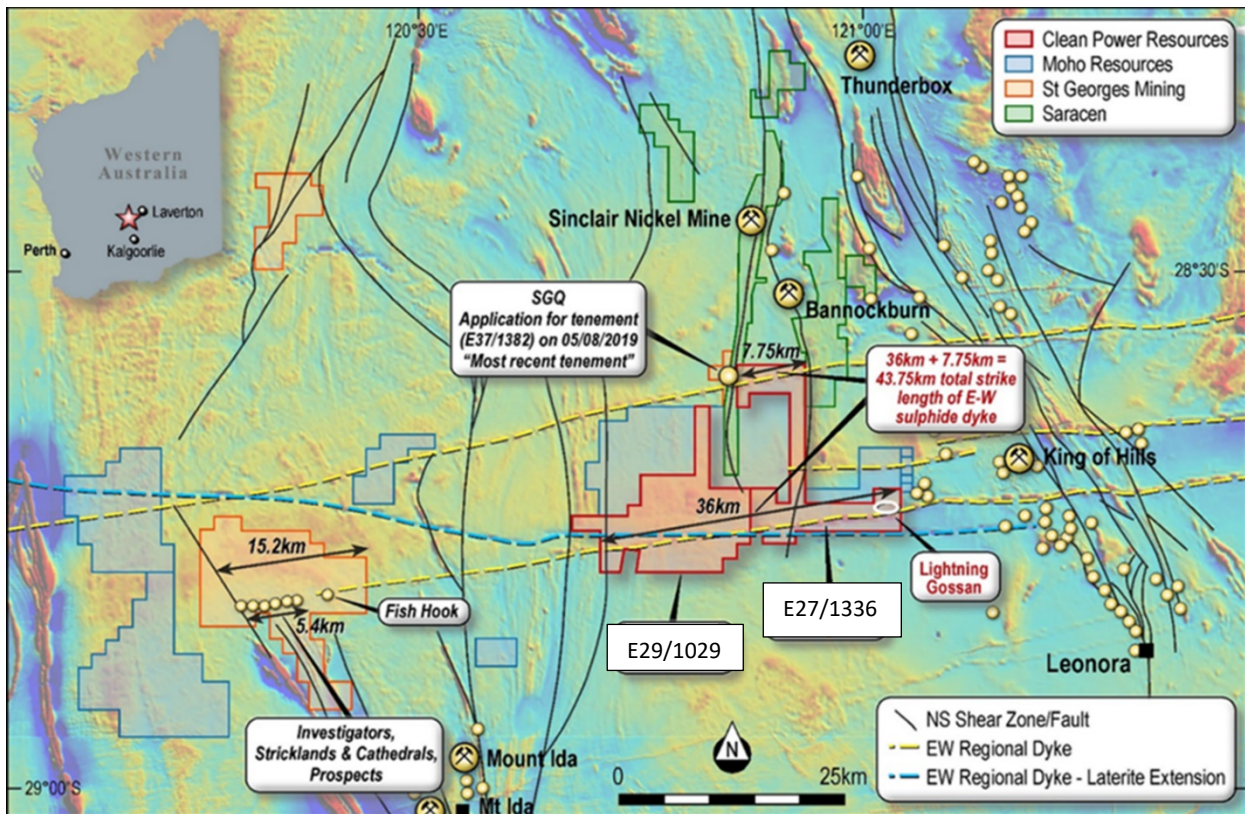

Tyranna's strategic re-focus is to raise adequate funds from disposing the historic gold assets to progress the Dragon & Knight Nickel Projects. The project comprises two granted EL's (E37/1336 and E29/1034).

In addition, the Board is cognizant the level of interest in the Central Yilgarn region remains high, resulting from recent discoveries, for instance, by St George Mining at its Mt Alexander Project⁴ (Figure 1).

Due diligence by Tyranna’s geology team verified the following:

- There are two parallel ENE trending regional dykes which appear to control nickel-copper sulphide mineralisation which intersect the projects in two separate strike lengths that are related to sheeted Proterozoic dykes; and
- The aggregate strike length is circa 44km – with the sub-components 8km & 36km respectively – and contains highly prospective targets for follow up exploratory work¹.

FIGURE 1: DRAGON & KNIGHT NICKEL PROJECTS

Source: TYR ASX Release – 30 October & 26 November 2019

A priority target identified was an area around the Lightning Gossan within the Knight Nickel Project (E37/1336). According to the geological interpretation, the underlying mineralisation is similar based on a review of extensive historic surface sampling at Lightning Gossan which included assay results up to **7,600ppm Ni, 5,700ppm Cu, & 1,140ppm Zn¹**. In addition, four shallow drill holes by CRA Exploration intersected Ni mineralisation with a best intercept of **4m @ 1,925ppm Ni from 16m including 2m @ 2,290ppm Ni¹**.

Jumbuck Gold Project (SA)

On 18 November 2018, Syngas announced that it had paid Tyranna a \$50k option fee, which legally bound the two parties to enter into a definitive share purchase agreement to proceed with acquiring the JGP in South Australia for \$950k².

With recent volatility in global stock markets, brought on by policies to mitigate the COVID 19 pandemic, Syngas’ Board has moved to re-confirm the following:

- Syngas remains fully committed to proceed acquiring JGP, with completion slated to be finalised shortly once all final regulatory approvals are secured; and
- Syngas will be in a position to pay the \$950k full and final settlement to Tyranna at completion.

Eureka Gold Project, WA Goldfields

The Board has decided to optimise the high-grade Eureka Gold Project – located on a granted mining lease 50km north of Kalgoorlie. Discussions with interested groups are presently underway which comprise either engaging a development partner to mine the project or straight cash sale. The Board will keep shareholders informed of developments once they materialise.

Goodsprings Base Metals Project (Nevada, USA)

The Goodsprings Base Metals Project, which is located circa 50km southwest of Las Vegas (Nevada, USA) comprises 329 mining claims covering 6,580 acres³. Previous geophysics surveys and geochemical work highlighted potential targets for copper-zinc-cobalt mineralisation.

Although Tyranna renewed its mining claims in late 2019 with the Bureau of Land Management in Las Vegas, the Board has decided to seek EOs from prospective parties to acquire or develop the project. Note, since absorbing the renewal expense late last year, the actual ongoing carrying costs are immaterial.

Weebo Gold Project

The Weebo Gold Project is located 70km north of Leonora in the Eastern Goldfields of Western Australia and was acquired in 2017. The Project comprises approximately 69km² of ground east of the Jaguar base metal mine. The Board is reviewing the project to assess options moving forward.

Pacific Express Ni Project

Tyranna acquired the Pacific Express nickel project in Late 2019. The project, located in northern NSW comprises a single licence (EL8733) for ~ 108 km. The area is prospective for lateritic Ni-Co mineralisation. Historical exploration has defined several target areas which require further investigation¹. No work was undertaken on the project during the period.

CORPORATE

Tyranna's cash position at 31 March 2020 was \$124,000.

On 14 March 2020, Tyranna issued 83,333,334 fully paid ordinary shares, priced at \$0.003 per share to raise \$250,000 from sophisticated investors (Placement). Subject to shareholder approval, Mr Joseph Pinto (a Non-Executive Director) will be issued 16,666,666 fully paid ordinary shares, priced at \$0.003 per share following his commitment to subscribe for approximately \$50,000 in the Placement.

The Board intends to raise additional capital via a placement to professional and sophisticated investors. The funds raised are expected to provide sufficient working capital for the next two quarters. Note, this includes the completion of the JGP sale whereby Tyranna will be entitled to receive \$950,000. The Company is currently in discussions with its Corporate Advisors to determine the best course of action in the current economic environment.

On behalf of Tyranna Resources

Joe Graziano
Director
