8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

No. Helix in response to COVID19 announced on 26 March 2020, the Company has taken active steps to reduce expenditure, including cessation of field activities, the waiving of director fees and reduction of salaries, seeking rental reductions and other support measures offered by Federal and State Government agencies.

- Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company is actively seeking to monetise non-core assets and may consider its capital raising options in order to continue meaningful exploration after the COVID19 lockdown is lifted. The Company will also receive further payments following the closure of the quarter in relation to joint venture cash call payments on its Chile projects. These payments will cover a large portion of the capitalised exploration expenditure shown in item 2.1(d).

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Notwithstanding the effects of COVID19, as noted above, the Company's cost cutting measures, reduced field activities and additional cash calls from its Chile joint venture partner, will allow the Company to maintain a reduced level of operations. As COVID19 restrictions are lifted, the Company has a number of funding opportunities at its disposal, to facilitate a resumption to typical field and business operations when appropriate.
