30 April 2020

#### **Quarterly Activities Report – Quarter Ended 31 March 2020**

**Caeneus Minerals Ltd** ("**Caeneus**" or "the **Company**") is pleased to provide the following report on its activities for the quarter ended 31 March 2020.

#### **Exploration Projects**

Yule River Project (E47/3857)

The Company's Yule River Exploration License is comprised of two separate blocks totaling 125 square kilometers in area.

The Yule River project, which is considered prospective for gold, platinum group metals (PGM's) and base metals, is situated some 40 kilometers southwest of Port Hedland with several all-weather tracks cross cutting the License. The tenement comprises sediments and volcanics of the Louden Volcanic Member, as well as the Constantine Sandstone. However, lithologies associated with the Boodarie Greenstone sequence and mylonitic rocks associated with the Sholl Shear Zone were the main focus of the Company's recent soil sampling program. All lithologies detailed above are buried under river wash and sand plain and were extrapolated from historical 1:250,000 government geological mapping.

During the quarter the Company collected 285 soil samples from 200-metre grid lines positioned across the Sholl Shear Zone, perpendicular to its north-easterly trend. Limited outcrop was observed in the field reconnaissance activities, however three float samples of brecciated mylonitic rock-types were collected for further petrological studies.

Following the end of the quarter, all soil samples were submitted for precious and base metal analysis the results of which were announced on 30 April 2020.

Pardoo Project (E45/4585 and E45/4671)

During the quarter the Company completed its review of its Pardoo nickel and base metals project, near Port Hedland, in the Pilbara region of Western Australia.

Initially, the Pardoo project consisted of 4 Exploration Licenses covering 200 square kilometers in area. Literature studies on past exploration activities carried out by previous explorers on E45/4279 were reviewed by the Company in 2019. However, the review indicated very limited exploration potential and insufficient impetus to carry out any further field activities, and the tenement was surrendered in December 2019.

On 10 February 2020, the Company advised that a forfeiture application was filed against its exploration license E45/4866. In 2018 and 2019, the Company focused its attention on E45/4866 where known uneconomic mineralisation had been identified by previous explorers at the Highway Prospect (Nickel, Copper and Cobalt) and the nearby Supply Well (Zinc) Prospect E45/4671. The Company conducted ground-borne geophysical surveys and reviewed previously flown airborne magnetic surveys, which culminated in a drilling campaign. This drilling program satisfactorily explained the source of the EM anomalism to be graphitic and pyrite/pyrrhotite conductors. Accordingly, after receipt of the forfeiture application, the Company decided not to apply for a further extension and instead filed a surrender.

Field reconnaissance and soil sampling activities were planned for the remaining tenements comprising the Pardoo Project, to commence after completion of the Yule River exploration activities. However, because of the impact of COVID-19 within Australia, and in particular the Western Australian State Government regional access isolation restrictions, the Pardoo fieldwork has been postponed.

The Company is aware that there is a high level of uncertainty around access into regional areas of Western Australia due to the health impacts associated with the COVID-19 pandemic and will monitor the prevailing circumstances with a view to recommencing operational activities at Pardoo as soon as practicable.

# Other Western Australian Projects

The Company's other Western Australian projects comprise two Exploration Licenses (E47/3846 and E45/5041) that remain at the application stage. In relation to both of these applications the Company is in advanced discussions with third parties to put in place access agreements to enable the grant of these tenements to proceed.

#### Nevada Projects

The Company continues to maintain its claims in Nevada USA and is in discussion with various parties who have expressed an interest in investing in those claims either by way of acquisition or farm-in.

# Capital Raising

On 18 February 2020, the Board accepted an offer to complete a capital raising via a placement of 800,000,000 fully paid ordinary shares ("Shares") at an issue price of \$0.0005 each for a total amount raised of \$400,000 to sophisticated and professional investors. The Company also issued a 1 for 1 attaching option exercisable at \$0.0025 expiring on or before 31 December 2024. All necessary approvals were obtained by the Company at the General Meeting held 7 April 2020.

Mr David Sanders and Mr Peter Christie, directors of the Company, also agreed to subscribe for shares and options on the same terms to raise a further \$25,000. All necessary approvals were obtained by the Company at the General Meeting held 7 April 2020.

The Company also accepted an offer to place a further 400,000,000 options exercisable at \$0.0025 expiring on or before 31 December 2024 at an issue price of \$0.0001 to sophisticated and professional investors to raise \$40,000, subject to Listing Rule 7.1. All necessary approvals were obtained by the Company at the General Meeting held 7 April 2020.

The placements approved by shareholders on 7 April 2020 were completed and shares issued on 23 April 2020 raising a total amount \$465,000.

Following the end of the quarter the Company also received the R&D Tax Incentive Rebate totaling \$200,250 as referred to the previous quarterly report.

For and on behalf of the board

#### Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
