

AUSTRALIAN SECURITIES EXCHANGE ANNOUNCEMENT

30 April 2020

## Quarterly Report for the quarter ended 31 March 2020

Mt Ridley Project, Albany - Fraser Range

### OVERVIEW

Mount Ridley Mines Ltd (ASX: MRD) (or “the Company”) is pleased to provide the following update of activities for the Quarter ended 31 March 2020.

Although there was no material information to report during the quarter, the Company has maintained the statutory requirements of its Mount Ridley licenses.

The review of the Mount Ridley Project (refer ASX release 2 Dec 2019) has been expanded and a full technical appraisal is underway. This includes the re-processing of existing geophysical data, re-logging historical diamond drill core, and the formation of a new technical database. This review is applying the most contemporary technology/methods available and is anticipated to be completed in May, 2020. The results of this review will dictate the way forward for the Mt Ridley Project which is prospective for magmatic nickel and copper sulphides. Given the Project’s location near Esperance, field activities can still be undertaken, despite the current COVID-19 travel restrictions.

### CORPORATE

On 23 January 2020, the Company announced the acquisition of Longland Resources Limited.

Following the end of the quarter, the Company advised that due to current market conditions the Board decided not to proceed with the acquisition of Longland Resources Limited.

The Company retains a strong balance of cash and listed investments to fund its activities, including the Mount Ridley Project in the Albany Fraser Range, Western Australia.
