

Body Composition Technologies signs definitive agreements with Active8me

MyFiziq Limited (ASX: BCT) (“**Body Composition Technologies**” or the “**Company**”) would like to inform shareholders that, in addition to the signing of definitive agreements with MyFiziq Limited (as announced to ASX on 28 April 2020), Body Composition Technologies Pte Ltd (“**BCT**”), MyFiziq’s 50% owned joint venture partner, has now signed definitive agreements with Active8me Pte Ltd (**Active8me**), which will see the integration of the BCT platform into the Active8me health and wellness platform.

The agreements are identical in nature with the exception of the differing business verticals BCT operates in being, insurance, medical and government research.

Summary of Material Terms of Contracts

Item	Summary/Details
Parties	Body Composition Technologies Limited (BCT) Active8me Pte LTD (Active8me)
Conditions Precedent	None
Contracts	BCT Commercial Contract BCT Software Development Kit End User License Agreement BCT Support Agreement BCT Data Processing Agreement
Description	<p>The BCT Commercial Contract is the main commercial agreement between the parties pursuant to which BCT agrees, inter alia, to grant a licence to Active8me to use BCT’s licensed software development kits and related intellectual property to integrate them into the Active8me platform/technology. In return, Active8me has agreed to pay certain user fees, data storage fees, support fees and incidental support fees to BCT.</p> <p>The BCT Software Development Kit, End User License Agreement, BCT Support Agreement and BCT Data Processing Agreement are support agreements related to the BCT Commercial Contract.</p>
Financial Impact	BCT does not expect any immediate material financial return as a result of entering into the contracts. However, as the Active8me platform (integrated with the BCT SDKs) is rolled out in Asia, BCT expects to start generating licence and other fees from the commercial arrangement (which cannot be forecast at this time).
Initial Term	1 year, which term shall be renewed for consecutive further terms of 2 years each (unless terminated at least 30 days prior to expiry of the term).
Termination	<p>The contracts may be terminated in the event that the counterparty is in material breach, suffers an insolvency event or sells its business or a majority of the shares in the counterparty (i.e. change in control).</p> <p>There is no termination for convenience clause.</p>
Governing Law	Singapore

The Active8me Mission:

We all have hopes, dreams and aspirations. We all want to be fit, healthy and happy. We all want to feel positive, confident and energetic. And we all want our lives to be purpose-driven and extraordinary.

Yet the day-to-day reality is often different. Life is busy. Making change isn't easy. Transformation doesn't happen overnight. We often take our health for granted only to realise too late that it is priceless.

At Active8me we're passionate about health and wellness and transforming lives. Our vision is to inspire, equip and activate millions of people to take charge of their health and live healthy, active lives. Healthy, active living. Simplified!

The Active8me app is available in the **Appstore** and **Google Play** now!

About BCT

Body Composition Technologies (BCT), a 50% owned joint venture company with MyFiziq, is focused on developing a cost effective, easily accessible and reliable smartphone-based body composition and anthropometric measurement tool for governments, insurers, medical organisations and the medical research markets.

We strive to deliver a private, cost effective and accurate method for our users to identify, classify and monitor some of the primary markers of chronic diseases such as type 2 diabetes, coronary heart disease and stroke. This early screening, assessment and long-term monitoring of the primary markers of chronic disease, is essential for reducing the spiralling healthcare costs and improving the quality of life for billions of people worldwide.

We work with our partners to give them better engagement and understanding of their consumer / populations whilst empowering them through our technology to make better health decisions which in turn will deliver better health outcomes and lower mortality rates.

*This announcement has been approved by the board of Body Composition Technologies Limited.
