## Intelicare Now Available in the Microsoft Azure Marketplace

- InteliCare's products now available through the Microsoft Azure Marketplace
- Microsoft Azure customers worldwide now gain access to InteliLiving by Intelicare.
- Global Microsoft sales team now directly incentivized to sell InteliCare's solutions
- Additional benefits include Microsoft technical and go-to-market strategy support

**InteliCare Holdings Ltd ("InteliCare" or the "Company") (ASX: ICR) an Australian technology company that has commercialised a predictive analytics hardware and software system for use in the aged care and health industries, announced the availability of its core application, InteliLiving, in the Microsoft Azure Marketplace, an online store providing applications and services for use on Azure.**

InteliCare's core application, InteliLiving, will now be available in the Microsoft [Azure Marketplace](#), an online store providing applications and services for use on Azure. Microsoft Azure customers worldwide now gain access to InteliCare to take advantage of the scalability, reliability and agility of Azure to drive technology development and shape business strategies.

By purchasing through the Azure Marketplace, customers can now easily purchase and quickly deploy InteliLiving through the marketplace, getting up and running quickly, easing the procurement process, and receiving a single bill from Microsoft for InteliLiving along with their other Azure services.

### **Jason Waller, CEO InteliCare commented:**

"Becoming available on the global Microsoft Azure Marketplace and acceptance to the Microsoft Co-Sell Program represents a major step forward in our relationship with Microsoft and an opportunity to reach more customers together."

### **Sajan Parihar, Senior Director Microsoft Azure Platform at Microsoft commented:**

"Through Microsoft Azure Marketplace, customers around the world can easily find, buy, and deploy partner solutions they can trust, all certified and optimized to run on Azure. Azure Marketplace helps solutions like InteliLiving reach more customers and markets."

## What is IntelliLiving?

IntelliLiving enables seniors and people with disability to live at home independently. It uses smart home sensors (not cameras) to gather information about activity in the home. The sophisticated system sends daily messages about conditions and activity within the home by learning an individual's daily routine. If all is okay, members of the care team (family, carers, or health care professionals) get a daily message letting them know. But, if it detects something out of the ordinary, an alert is sent to the care team on their smartphone or other device.

This means declines in physical and mental wellbeing can be detected through advanced analytics insights before emergencies happen. It allows the care team to focus on prevention, not just respond after the event.

Aged and Disability Care organisations can quickly identify issues and prioritise care to reduce the risk of an emergency. In this way, their clients and families feel safer, more confident and happier knowing that their service is supporting them and delivering the highest level of care.

By order of the IntelliCare board

### **About IntelliCare Holdings Limited**

*IntelliCare is an Australian technology company that has commercialised a predictive analytics hardware and software system for use in the aged care and health industries. IntelliCare believes Australians deserve to age with dignity and through its business-to-business (B2B) and business-to-consumer (B2C) solutions built on its proprietary internet of things (IOT) platform utilising smart sensors and artificial intelligence (AI), IntelliCare aims to enable people to stay in their own homes for longer while empowering healthcare providers to deliver higher quality, more efficient services.*
