Blossomvale Holdings Ltd ABN 76 105 665 843 Suite 8, 110 Hay Street, Subiaco, Western Australia, 6008 (ASX: BLV)

29 June 2020

EXTENSION OF TIME TO LODGE AUDITED ANNUAL FINANCIAL STATEMENTS FOR THE PERIOD ENDING 31 MARCH 2020

Blossomvale Holdings Ltd (ASX:BLV) advises that the entity is relying on the ASIC Relief (Extended Reporting and Lodgement Deadlines—Listed Entities) Instrument 2020/451 to extend the lodgement date for its audited annual accounts and the other documents required to be lodged with ASIC under section 319 of the Corporations Act.

ASIC Relief extends the lodgement date from 30 June to 31 July 2020.

The entity will immediately make a further announcement to the market if there is a material difference between its unaudited annual accounts (attached) and its audited annual accounts.

This ASX announcement has been approved for release by Chairman Boon Wee Kuah.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 Statement of Significant Accounting Policies

The preliminary final report has been prepared in accordance with the Australian Securities Exchange Listing Rules as set out in Appendix 4E and in accordance with the measurement and recognition (but not full disclosure) requirements of the Australian Accounting Standards, *Corporations Act 2001* and other pronouncements of the Australian Accounting Standards.

As such, this Preliminary Final Report does not include all the notes of the type included in an annual financial report and accordingly, should be read in conjunction with the annual report for the period ended 31 March 2020 and with any public announcements made by Blossomvale Holdings Limited during the reporting period in accordance with the disclosure requirements of the Corporations Act 2001.

New Standards, Interpretations and Amendments thereof, adopted by the Group

The accounting policies adopted in the preparation of the Preliminary Final report are consistent with those of the previous period, except as except for the adoption of new standards effective for reporting periods commencing 1 January 2019. The Group has not early adopted any other standard, interpretation or amendment that has been issued but not yet effective.

The Group applies, for the first time, AASB 16 Leases from 1 April 2019, and has not restated comparatives for the prior period as permitted under the specific transition provisions in AASB 16. As required by AASB 134, the nature and effect of these changes are disclosed below.

AASB 16 "Leases"

AASB 16 supersedes AASB 117 Leases. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

Lessor accounting under AASB 16 is substantially unchanged from AASB 117. Lessors will continue to classify leases as either operating or finance leases using similar principles as in AASB 117. Therefore, AASB 16 did not have an impact for leases where the Group is the lessor.

The Group adopted AASB 16 using the modified retrospective method of adoption with the date of initial application of 1 April 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. The Group elected to use the transition practical expedients allowing a) the standard to be applied only to contracts that were previously identified as leases applying AASB 117 at the date of initial application, and b) the measuring the right-of-use asset on transition as being equal to the amount of the lease liability initially recognised on transition. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

The effect of adoption of AASB 16 as at 1 April 2019 (increase) is as follows:

| | \$000 |
|---------------------------------------|-------|
| Assets | |
| Prepayment | (45) |
| Property, plant and equipment | (321) |
| Right-of-use assets | 9,728 |
| Total assets | 9,362 |
| Liabilities | |
| Interest bearing loans and borrowings | (316) |
| Lease liabilities | 9,678 |
| Total liabilities | 9,362 |

Note 1 Statement of Significant Accounting Policies (continued)

New Standards, Interpretations and Amendments thereof, adopted by the Group (continued)

a) Nature of the effect of adoption of AASB 16

The Group has lease contracts for various items of property and equipment. Before the adoption of AASB 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability. In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in profit or loss on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under Prepayments and Trade and other payables, respectively.

Upon adoption of AASB 16, the Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The standard provides specific transition requirements and practical expedients, which has been applied by the Group.

Leases previously classified as finance leases

The Group did not change the initial carrying amounts of recognised assets and liabilities at the date of initial application for leases previously classified as finance leases (i.e., the right-of-use assets and lease liabilities equal the lease assets and liabilities recognised under AASB 117). The requirements of AASB 16 was applied to these leases from 1 April 2019.

Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and lease of low-value assets. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- · Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- · Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease

The lease liabilities as at 1 April 2019 can be reconciled to the operating lease commitments as of 31 March 2019 as follows:

| | \$000 |
|--|-------|
| Operating lease commitments as at 31 March 2019 | 9,951 |
| Less: discounting using incremental borrowing rate at the date of initial application* | (870) |
| Add: optional extension periods not recognised as at 31 March 2019 | 406 |
| Less: commitments relating to short-term leases | (125) |
| Add: reclassification from interest bearing loans and borrowings | 316 |
| Lease liabilities as at 1 April 2019 | 9,678 |

^{*}Weighted average incremental borrowing rate is 5.53%

Note 1 Statement of Significant Accounting Policies (continued)

New Standards, Interpretations and Amendments thereof, adopted by the Group (continued)

b) Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of AASB 16, which have been applied from the date of initial application:

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of that are considered of low value (i.e., below \$5,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional terms of one to five years. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

c) Amounts recognised in the statement of financial position and income statement

The Group's leases have been novated as part of the Share Purchase Agreement entered with MMA Offshore Limited (Note 2). As a result, depreciation and interest expense are classified under profit from discontinued operations in the income statement. Correspondingly, the carrying amount of the right-of-use assets and lease liabilities are \$nil as at 31 March 2020.

Note 1 Statement of Significant Accounting Policies (continued)

New Standards, Interpretations and Amendments thereof, adopted by the Group (continued)

c) Amounts recognised in the statement of financial position and income statement (continued)

Set out below are the carrying amounts of the Group's right-of-use assets and lease liabilities and the movements during the year:

| | Right-of-use assets | Lease liabilities |
|-----------------------------------|------------------------|-------------------|
| | \$000 | \$000 |
| As at 1 April 2019 | 9,729 | 9,678 |
| Additions | 445 | 461 |
| Depreciation expense | (1,236) | - |
| Interest expense | - | 241 |
| Payments | - | (1,306) |
| Foreign exchange | - | 8 |
| Disposal of subsidiaries (Note 2) | (8,938) | (9,082) |
| As at 31 March 2020 | - | - |

Note 2 Discontinued operations

On 24 July 2019, the Group publicly announced that it has entered into a binding Share Purchase Agreement ("SPA") for the sale of its operating businesses and assets to MMA Offshore Limited ("MMA") (the "Transaction") via the sale of the shares in certain subsidiaries ("Target Companies").

The list of Target Companies disposed include:

- 1. Neptune Asset Integrity Services Pty Ltd
- 2. Neptune Subsea Engineering Pty Ltd
- 3. Neptune Geomatics Pty Ltd
- 4. Neptune Subsea Stabilisation Pty Ltd
- 5. Neptune Diving Services Pty Ltd
- 6. Neptune Offshore Service (PNG) Ltd
- 7. Neptune Subsea Stabilisation Pte Ltd
- 8. Neptune Marine Pacific Pte Ltd
- 9. Neptune Offshore Services Ltd
- 10. Neptune Subsea Engineering Ltd
- 11. Neptune Subsea Inc.

On 21 October 2019, the shareholders of the Group approved the plan to sell. This followed the approval by the shareholders of MTQ Corporation Limited of Singapore, the parent company of Blossomvale Investments Pte Ltd, the Group's controlling shareholder on 1 October 2019.

The Transaction was completed on 7 November 2019. The Group receive the initial purchase consideration of \$18.5 million, which comprised \$5.0 million in cash and 67.655 million MMA fully paid ordinary shares valued at \$13.5 million in accordance with the SPA.

The final Completion Statement for determining the final purchase consideration was completed on 28 January 2020. The aggregate of the fixed assets and working capital amount is \$21.1 million, greater than \$18.5 million, by \$2.6 million. Accordingly, the Group receive a further cash consideration of \$2.0 million on the same day, with the balance of \$0.6 million to be received, subject to certain conditions being satisfied ("Deferred Contingent Payment").

As at 31 March 2020, the income and expenses of the Target Companies are presented separately in the consolidated statement of comprehensive income as "Loss after tax for the year from discontinued operations" for the years ended 31 March 2020 and 31 March 2019. The comparative results of the Group have been re-presented to report separately profit and loss items from continuing and discontinued operation.

Note 2 Discontinued operations (continued)

The summarised financial information of the discontinued operation is as follows:

| Income statement disclosures | Consolidated Group | | |
|--|--------------------|----------|--|
| | 2020 | 2019 | |
| | \$000 | \$000 | |
| Revenue from contracts with customers | 52,702 | 84,449 | |
| Other revenue – interest received | - | 1 | |
| Cost of sales and services rendered | (40,050) | (65,606) | |
| Expenses | (14,141) | (21,406) | |
| Loss on disposal of subsidiaries | (10,218) | - | |
| Other income | 477 | 929 | |
| Finance cost | (368) | (155) | |
| Loss before tax from discontinued operations | (11,598) | (1,788) | |
| Income tax expense | (178) | (285) | |
| Loss from discontinued operations | (11,776) | (2,073) | |

Cash flow statement disclosures

| Disposal of subsidiaries/businesses (Note 2) | (190) | | |
| Closing balance | | 342 | |
| Total Intangible assets | <u> </u> | 342 | |

The Group's intangible assets have been fully disposed to MMA Offshore Limited (Note 2) during the year ended 31 March 2020.

Note 9 Investment

The Group's investment relates to its interest in equity shares of MMA Offshore Limited as part of the purchase consideration received for the sale of its operating businesses and assets during the year (Note 2). The investment was irrevocably designated at fair value through OCI due to the Group's intention to hold these equity instruments for long-term appreciation. During the financial year ended 31 March 2020, the Group recognises a fair value loss of \$8,863,000 arising from the revaluation of its interest in the investment.

Note 11 Operating Segments

Identification of Reportable Segments

Since the financial year ended 31 March 2019, the management has undertaken a strategic review to identify opportunities to reposition its operating businesses. Consequently, the Group's management structure and reporting has changed from a product model to a function model. This has resulted in a change to the composition of the operating segments.

In accordance with AASB 8 Operating Segments, the Group has identified its operating segments to be the following two functions

Engineering and Offshore Services

Engineering and offshore services function relates to the Group's services provided to customers on a Offshore and Engineering basis in the oil and gas, marine and associated industries. The range of specialised services provided includes: commercial diving, inspection, repair and maintenance support, difficult and confined area access via rope access, tension netting and modular platforms, remotely operated vehicles (ROVs), subsea pipeline/cable stabilisation, protection, engineering, fabrication, assembly and testing, refurbishment, installation, maintenance, the patented NEPSYS® dry underwater welding technology, hydro graphic surveying, positioning and geophysical support, and project management. Following the disposal of its operating businesses and assets to MMA Offshore Limited (Note 2) during the year, this segment has been re-presented as discontinued operation.

Corporate

Corporate function, includes treasury, head office and corporate functions as well as regulatory and compliance activities associated with the investment holding companies that the Group has globally. Segment assets, including cash and cash equivalents, and investments in financial assets are reported in this segment.

The operating segments presented reflect the manner in which the Group is internally managed and the financial information reported to the Board of Directors in assessing performance and in determining the allocation of resources.

Note 11 Operating Segments (continued)

Comparative segment information has been re-presented to reflect the Group's new operating segments.

Accounting Policies and Inter-Segment Transactions

The accounting policies used by the Group in reporting segments internally are the same as those contained in note 2 to the Annual Report and in the prior period, except as detailed below:

Inter-entity sales

Inter-entity sales are recognised based on an internally set transfer price. The price aims to reflect what the business operation could achieve if they sold their output and services to external parties at arm's length.

The following table presents revenue and profit information for the reportable segments:

| | Corpora | ate | Engineering Services (Dis | | Tota | ıl |

Note 13 Events after the Balance Sheet Date

(a) <u>Distribution of MMA Offshore Limited ("MMA") shares</u>

On 6 April 2020, shareholders of the Company approved the in-specie distribution of the MMA shares. Given the closing price of MMA shares was \$0.084 per share as at 16 April 2020 (being the closing price of the last trading day prior of the distribution), the in-specie distribution will be undertaken as a Dividend Distribution given the Company has sufficient profit appropriation reserves.

| Total number of MMA shares to distribute to shareholders | 67,655,000 |
|---|------------|
| MMA shares distributed on the basis of 1.1 MMA shares for every 1 share in the Company (rounded down) | 67,585,037 |
| MMA shares retained by the Company | 69,963 |
| Dividend distribution per share – fully franked (being 1.1 x \$0.084) | \$0.0924 |

(b) <u>Declaration of a special dividend</u>

Following the sale of the Company's businesses to MMA (Note 2), the \$5m cash consideration was required to be locked up for a period of 6 months which expired on 7 May 2020. On 12 May 2020, the Company announced that it is now being able to declare a special dividend up to the balance of the Company's appropriation reserves. The details of the special dividend are provided in the table below.

| Dividend announcement date | 12 May 2020 |
|---------------------------------|---------------------|
| | |
| Ex date | 15 May 2020 |
| | |
| Record date | 18 May 2020 |
| | |
| Payment date | 28 May 2020 |
| | |
| Dividend amount – fully franked | \$0.10125 per share |

Note 14 Commitments

The Group does not have any contractual obligations to purchase plant and equipment at balance sheet date (2019: \$44,489). During the financial year ended 31 March 2019, the commitments are in relation to Diving equipment in Australia.

Audit Report

The preliminary final report is based on financial statements which are in the process of being audited.
