Quarterly Business Review & Appendix 4C

Esports Mogul Limited (ASX: ESH) (**Mogul** or the **Company**), owner of the world's most advanced pure-play online esports tournament platform, is pleased to provide an update on the Company's operations as well as its Appendix 4C for the quarter ended 30 June 2020 (**Q2 2020**).

Highlights:

- Continuing exceptionally strong inbound interest in Mogul platform with COVID-19 boosting interest in the esports sector - including from LATAM.
- Mogul well positioned for current market: can meet demand for all-online esports event hosting and market need for stronger marketing and branding opportunities
- In the immediate term Mogul remains focused on enhancing the product offering, and targeting companies, publishers and advertisers to Mogul that have a propensity to pay Mogul
- The long-term aspiration and growth opportunity remains on organic B2C growth
- Approx. 35% reduction in net operating cash flow from the previous quarter

The Leading All-Online Esports Tournament Platform

With COVID-19 making in-person esports events and tournaments untenable for the foreseeable future, Mogul has been promoting its platform as an all-online solution. For event hosts and marketers, Mogul offers a strong marketing and branding platform packaged with its world class tournament hosting and resulting technology, whilst also significantly reducing the cost of administering and hosting these events.

The Company continues to receive significant inbound interest as a result of the pandemic related travel and gathering restrictions, and is well placed to attract and support companies, publishers and advertisers in establishing a presence on Mogul.

Having secured high profile partners including Razer, Mineski, Microsoft, Hasbro, and Team Secret within less than a year since launch of the Company's Branded Hubs offering, Mogul continues to work with multiple potential new global partners for launching on the Mogul platform, and looks forward to updating the market in due course..

A key benefit of the Mogul platform, particularly to global partners like Microsoft, is the Company's proprietary language localisation technology. Localised versions of Mogul's platform have been launched in Simplified Mandarin, Thai, Vietnamese, Indonesian, Japanese, Korean, Arabic, Portugese and now Spanish to better cater to the LATAM market. The intellectual property in these localisations is significant and goes far beyond a simple translation of menus and interfaces but rather towards creating a near-native user experience.

Board Renewal Continuing

As announced earlier this quarter (*ASX Announcement 27 May*) the Company is conducting a global search to continue to renew the board and bolstering the operational executive. The addition of Canva

co-founder Cameron Adams to the Mogul Board late in 2019 (*ASX Announcement 19 November*) has already delivered significant insights and value to Mogul. Being able to add similar talent in the short term will only serve to further enhance Mogul's position in the global esports ecosystem.

Well Funded for Continued Growth

As at the end of Q2 2020, Mogul's available cash was over \$2.4 million against a quarterly net operating cash flow of approx. \$489,000. This represents an approx. 35% reduction in net operating cash flow from the previous quarter. The Board continues to ensure funds are managed prudently to ensure that the Company does not need to seek additional funding from equity capital markets for the foreseeable future given current market uncertainties. In determining the action to be taken, the Board has sought to ensure that these reductions would not affect the Company's ability to service existing partners, continue to improve on existing or launch new product features, and to attract new revenue generating partners to the platform.

The Company notes that in Q2 2020, the Company paid \$78,834 to directors of the Company in fees and salaries, and \$22,813 to related parties in the quarter.
