

ASX ANNOUNCEMENT

10 August 2020

Trigg Mining to Participate in Resources Rising Stars Virtual Investor Forum

Trigg Mining Limited (ASX: TMG) (Trigg or the Company) is pleased to advise that its Managing Director, Keren Paterson, will be presenting to investors as part of the *Resources Rising Stars* Virtual Investor Lunch Series on:

Tuesday, 11 August 2020

The event, which features four ASX-listed resource stocks, will commence at:

12.30pm (AEST) / 10.30am (AWST) on Tuesday 11 August.

Shareholders and investors can participate in this event by registering online via the link below:

About Trigg Mining

Trigg Mining is looking to secure Australia's sustainable agriculture future through the exploration of essential potassium fertiliser, sulphate of potash (SOP), necessary for global food production and human nutrition. SOP provides essential macro nutrients for plant growth without any detrimental elements, such as chloride found in muriate of potash (MOP). In addition, SOP can be produced sustainably through the solar evaporation of potassium-rich hypersaline brine water, without the need for large open pits or waste-rock dumps.

The Trigg Mining SOP Projects are located nearby established energy and transport infrastructure for access to Australian and international agricultural markets, approximately 170km east of Laverton in WA including the high-grade discovery at Lake Throssell and a JORC Compliant Mineral Resource at Lake Rason (Figure 3). The Projects cover approximately 1,500km² and contain over 380km² of salt lake playa and 140km of interpreted palaeochannels (ancient underground rivers) all highly prospective for brine hosted SOP.
