# ASX ANNOUNCEMENT

## APPENDIX 4D AND HALF YEARLY FINANCIAL REPORT

Anteris Technologies Ltd (ASX:AVR) (Anteris or the Company) releases its Appendix 4D – Half Yearly Financial Report and commentary for the period ended 30 June 2020.

### HIGHLIGHTS:

- Significant progress on the DurAVR™ aortic valve replacement development program with first-in-human study and additional pre-clinical studies underway;
- Four patients successfully implanted with the proprietary ADAPT® 3D single-piece aortic valve;
- New data generated reinforces superior performance of the DurAVR™ 3D single-piece aortic valve – demonstrating normal hemodynamic function of a healthy human aortic valve;
- Total revenue for the half was \$3.9M, chiefly from manufacturing under the LeMaitre Vascular Inc. agreement; and
- Other income of \$3.3M was included \$2.2M in licence revenue of from 4C Medical Technologies Inc.

### COMMENTARY ON THE HALF

Anteris continues the development of its DurAVR™ 3D single-piece aortic valve with the commencement of several key studies.

In the first-in-human SAVR trial, four patients were successfully implanted with the DurAVR™ valve and demonstrated improved valve function and blood flow. Results from the 15-patient study are expected between Q1 and Q3, 2021.

Anteris also commenced an early TAVR animal feasibility study aiming to confirm DurAVR™ valve deployment and anchoring as well as provide further insights into valve performance.

#### Anteris Technologies Ltd

E: [info@anteristech.com](mailto:info@anteristech.com) W: [anteristech.com](http://anteristech.com)

In May 2020, Anteris initiated an anti-calcification comparison study against a currently marketed TAVR valve to highlight ADAPT<sup>®</sup> tissue superiority in addressing calcification issues - a leading cause of valve deterioration. Study results are expected in Q4 2020 or Q1 2021.

On 20 July 2020, Anteris hosted a TAVR KOL symposium with leading US cardiac surgeons and interventionalists discussing the latest trends in transcatheter aortic valve replacement (TAVR) surgery and next-generation technologies for younger, low-risk patients with aortic stenosis. At this event, Anteris presented new bench-test data on its DurAVR<sup>™</sup> valve demonstrating healthy hemodynamic valve function compared with inferior performance of existing prosthetic aortic valves used in the testing.

## **FINANCIAL PERFORMANCE**

Total revenue for the first half ended 30 June 2020 was \$3.9M, from manufacturing of the CardioCel<sup>®</sup> and VasculCel<sup>®</sup> patches under the LeMaitre Vascular Inc. agreement; and reflecting the Company's transition to focus on the development of novel structural heart products using its proprietary ADAPT<sup>®</sup> tissue.

Other income of \$3.3M included \$2.2M in the license revenue from 4C Medical Technologies Inc. on transferring the sterilisation method for use with Anteris' ADAPT<sup>®</sup> tissue.

Gross profit for the half was \$818K representing a gross profit margin of 21%. The margin largely reflects the manufacturing contract with LeMaitre Vascular Inc. and the wind down of the Infusion segment.

Selling, general and administrative expenses (SG&A) for the half was \$10.6M (\$17.2M for the 2019 previous corresponding period), primarily driven by lower employee, travel and conference costs associated with a significant reduction in global headcount.

The loss after providing for income tax for the period was \$6.0M (\$11.9M for the 2019 pcpr).

As previously advised, the impact of COVID-19 was minimal with a contingency plan for manufacturing and other risk mitigation strategies incorporated early.

## **CASHFLOW**

The net cash outflow for the period was \$2.5M reflecting:

- Operating cash out flows of \$9.2M, including \$2.2M for R&D expenses for ADAPT<sup>®</sup> and the TAVR project was partly offset by an Australian government R&D tax incentive receipt of \$735K;
- Investing cash inflows of \$6.9M, reflecting the maturity of a term deposit and partly offset by a deferred settlement payment in relation to the Regen acquisition and payments for plant and equipment; and
- Financing cash outflows of \$174K reflecting lease payments primarily related to property leases.

## IN SUMMARY

“These financial results reflect the Company’s transition to a sole focus on developing structural heart products, chiefly its DurAVR™ 3D single-piece aortic valve. This program is generating impressive data, reinforcing the superior durability and performance of this valve essential to addressing the growing need, for prosthetic valves lasting longer for use in younger, low-risk patients.

Furthermore, we continue to replicate hemodynamic results on the bench, in animals and in human’s superior to that seen in currently marketed aortic valves. Should we continue to see these results we will be well positioned to take significant market share in a \$US10 billion market with a valve that lasts longer and works better.

Despite the travel restrictions caused by COVID-19 we continue to engage with the industry and KOLs through a variety of digital conferences and anticipate several major presentations of our product in the latter half of 2020. These presentations are a critical component of our pre- commercialisation strategy,” Chief Executive Officer, Wayne Paterson, said.

More detailed commentary on the Company’s half year financial performance is in the Appendix 4D and Half Yearly Financial Report.

Yours faithfully,

Wayne Paterson  
Managing Director and CEO

## About Anteris Technologies Ltd (ASX: AVR)

Anteris Technologies Ltd is a structural heart company focused on delivering clinically superior solutions that create life-changing outcomes for patients. Its ADAPT® tissue platform, a next generation technology with zero DNA and zero glutaraldehyde, is the only bioscaffold to demonstrate zero calcification after 10 years of use in complex cardiac surgery. With these advantages, Anteris’ best-in-class ADAPT® tissue combined with its valve design has the potential to solve the problems associated with current aortic valve replacement options which are durability and preventing valve degradation.

\* On 26 February 2020 the Company held an Extraordinary General Meeting at which shareholders passed a resolution for the consolidation of every 100 securities into one new security. Comparative figure restated to a post-consolidation basis.

Refer to the Directors' report for a review of operations.

The subsidiary company Admedus Vaccines Pty Limited was placed into administration on 23 April 2019 and was deconsolidated at this time. The contribution of Admedus Vaccines Pty Limited to the Group loss for the period ended 30 June 2020 was nil (2019: \$2,920,576 loss, taking into account the impairment of intangible assets, partly offset by a gain on the derecognition of assets and liabilities from the Group's balance sheet.)

### **Independent Auditor's Review Report**

The consolidated interim financial statements on which this report is based have been reviewed by HLB Mann Judd Chartered Accountants. The Independent Auditor's Review Report is not modified but includes an Emphasis of Matter that a material uncertainty exists that may cast doubt on the entity's ability to continue as a going concern.

The condensed consolidated interim financial report does not include all the information required for a complete set of annual financial statements and should be read in conjunction with the financial statements for the year ended 31 December 2019.

## DIRECTORS' REPORT

### DIRECTORS

The Directors of the Company in office during the whole of the half-year and until the date of this report are as follows:

- John Seaberg
- Wayne Paterson
- Stephen Denaro
- Dr Wenyi Gu
- Dr Yanheng Wu

### PRINCIPAL ACTIVITIES

During the period, the principal activities of the Group consisted of:

- The manufacturing and sale of proprietary ADAPT® regenerative tissue products globally; and
- Continued research and development of regenerative medicine.

### OPERATING RESULT

The operating result for the period:

|                              | CONSOLIDATED         |                      |
|------------------------------|----------------------|----------------------|
|                              | 30-Jun<br>2020<br>\$ | 30-Jun<br>2019<br>\$ |
| Loss before Income Tax       | (5,970,032)          | (11,916,566)         |
| Income Tax (Expense)/Benefit | -                    | -                    |
| Loss for the Year            | (5,970,032)          | (11,916,566)         |

### DIVIDENDS

No dividend was paid during the period and the Board has not recommended the payment of a dividend.

### SHARE CAPITAL

5,910,304 ordinary shares, 2,370,648 listed options, 542,186 unlisted options and 105,688 unlisted warrants were on issue as at 30 June 2020.

### OPERATING AND FINANCIAL REVIEW

#### Group Overview

Anteris Technologies Ltd (formerly Admedus Ltd) is a structural heart company focused on delivering clinically superior solutions that create life-changing outcomes for patients. Its ADAPT® tissue platform, a next generation technology with zero DNA and zero glutaraldehyde, is the only bioscaffold to demonstrate zero calcification after 10 years of use in complex cardiac surgery. With these advantages, Anteris' best-in-class ADAPT® tissue combined with the unique design of its DurAVR™ valve, has the potential to solve the problems associated with current aortic valve replacement options which is to create a long-term durable solution that prevents valve degradation.

#### Review of Operations

- *Positive data and progress of ADAPT® and the TAVR development program*

Anteris continued to generate positive data and insights from pre-clinical studies focussed on its DurAVR™ 3D single-piece aortic valve development. In the first-in-human SAVR trial, the four patients successfully implanted to date demonstrated improved valve function and blood flow. Results from the study of 15 patients are expected between Quarter 1, 2021 and Quarter 3, 2021.

Anteris commenced an early TAVR animal study in the June 2020 quarter. This first feasibility study aims to confirm DurAVR™ valve deployment and anchoring as well as provide further insights into the valve's function and performance. The study is expected to finish by year end.

In May 2020, Anteris initiated an anti-calcification comparison study against a currently marketed TAVR valve material to highlight the superiority of ADAPT® tissue in addressing calcification issues of commercial (bovine and porcine) AVR valves, a leading cause of valve deterioration. Study results will be available in Quarter 4 2020 or Quarter 1 2021.

These studies are important steps towards the next phase of development and the pathway towards commercialisation.

## DIRECTORS' REPORT (continued)

### OPERATING AND FINANCIAL REVIEW (continued)

#### *Review of Operations (continued)*

- *Profit and loss review*

Revenue from ordinary activities for the six months ended 30 June 2020 was \$3,949,633 (six months ended 30 June 2019: \$10,702,248). The reduction reflects the impact of the sale of the distribution rights of CardioCel® and VasculCel® to LeMaitre Vascular Inc. in October 2019 plus the wind down of the Infusion segment.

Other income of \$3,264,177 was recognised, including licence income of \$2,157,627 (six months ended 30 June 2019: Nil) relating to contractual obligations from 4C Medical Technologies, Inc. associated with the validation of the sterilisation method for use with Anteris' ADAPT® tissue. The sterilisation method has been provided to 4C under license.

Gross profit for the Group for the 6 months to 30 June 2020 was \$817,845 representing a gross profit margin of 21%. The margin primarily reflects the manufacturing contract with LeMaitre Vascular Inc. and the wind down of the Infusion segment.

Selling, general and administrative expenses were \$10,553,877 for the 6 months to 30 June 2020, a reduction from the prior corresponding period of \$17,210,328 for the 6 months to 30 June 2019. This is primarily driven by lower employee, travel and conference costs due to a significant reduction in global headcount, the prior period impairment of the Admedus Vaccines intangibles, and favourable foreign exchange movements over the 6 months.

The loss for the Group after providing for income tax for the half year ended 30 June 2020 was \$5,970,032 compared to the prior period loss for the 6 months to 30 June 2019 of \$11,916,566.

#### **Financial Position**

The closing cash position for the period was \$6,895,651, down from \$8,968,389 at 31 December 2019. Net working capital (current assets less current liabilities) decreased by \$6,500,890 compared to 31 December 2019.

#### **Cash Flow**

The net cash outflow during the period was \$2,516,746 reflecting:

- Operating cash outflows of \$9,210,675 which included \$2,215,459 for research and development expenditure for ADAPT® and the TAVR project, and was partly offset by an Australian government R&D tax incentive receipt of \$734,899.
- Investing cash inflows of \$6,868,311 reflecting the maturity of a term deposit (that did not meet the accounting definition of cash and cash equivalents), and partly offset by a deferred settlement payment in relation to the Regen acquisition and payments for plant and equipment.
- Financing cash outflows of \$174,382, reflecting lease payments primarily related to property.

#### **Operating segments**

Following the restructuring of the core activities of the Group in 2019 including the partial sale and subsequent wind down of activities of the Infusion business, the sale of distribution rights of ADAPT® CardioCel and VasculCel products to LeMaitre Vascular Inc. and the liquidation of Admedus Vaccines, the operating segments of the business have changed. Management have concluded that activities of the business fall into two segments for the 2020 year:

- Operations - Bio implant ADAPT® operations; inclusive of manufacturing and sales;
- Projects – Transcatheter Aortic Valve Replacement (TAVR) using ADAPT® 3D technology plus other development projects across the Group; and the wind down of the Infusion segment (following the partial divestment of the business in May 2019 and subsequent novation of contracts in February 2020).

2019 comparative balances have been restated to fit into the new segmental structure.

## **DIRECTORS' REPORT (continued)**

### **EVENTS OCCURRING AFTER THE REPORTING PERIOD**

There has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the group, the results of those operations, or the state of affairs of the Group, in future financial years.

### **AUDITOR'S INDEPENDENCE DECLARATION**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is attached.

This report is made in accordance with a resolution of the Directors.

A handwritten signature in black ink, appearing to read 'J Seaberg', is written over a light blue rectangular background.

John Seaberg  
Chairman

Dated 20 August 2020

## AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the review of the consolidated financial report of Anteris Technologies Limited for the half-year ended 30 June 2020, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (b) any applicable code of professional conduct in relation to the review.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

## FOR THE HALF YEAR ENDED 30 JUNE 2020

### 1. REPORTING ENTITY

Anteris Technologies Ltd (formerly known as Admedus Ltd) (the “Company”) is a company domiciled in Australia. The consolidated interim financial statements as at and for the half year ended 30 June 2020 comprise the Company and its controlled entities (the “Group”). For the purpose of preparing the interim financial statements, the Company is a for-profit entity.

The consolidated financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of derivatives which have been measured at fair value through profit or loss.

The consolidated financial statements of the Group as at and for the period ended 31 December 2019 are available upon request from the Company’s registered office at Level 3, 9 Sherwood Rd Toowong Qld 4066 or at [www.anteristech.com](http://www.anteristech.com).

### 2. STATEMENT OF COMPLIANCE

The condensed consolidated interim financial report for the half-year reporting period ended 30 June 2020 has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. The condensed consolidated interim financial report does not include all the information required for a complete set of annual financial statements and should be read in conjunction with the financial statements for the year ended 31 December 2019 and any public announcements made by the Company during the half-year period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The consolidated interim financial statements were approved by the Board of Directors on 20 August 2020.

### 3. SIGNIFICANT ACCOUNTING POLICIES

#### Government Grants

Government grants including a Research and Development Tax incentive and Covid-19 incentives are recognised at fair value in the profit or loss where there is a reasonable assurance that the tax incentive will be received.

The accounting policies adopted in the preparation of the consolidated interim financial statements are consistent with those adopted and disclosed in the Group’s financial statements for the year ended 31 December 2019. These accounting policies are consistent with Australian Accounting Standards and International Financial Reporting Standards.

#### *Standards and Interpretations in issue not yet adopted*

The Directors have reviewed all Standards and Interpretations in issue not yet adopted for the period ended 30 June 2020. As a result of this review, the Directors have determined that there is no material impact of the Standards and Interpretations on issue not yet adopted by the Company, and therefore, no change is necessary to Group accounting policies.

### 4. ESTIMATES AND JUDGEMENTS

In preparing these consolidated interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements of the Group as at and for the year ended 31 December 2019.

#### *Intangibles*

The Group performed an impairment assessment at reporting date for the ADAPT® cash generating unit, with no impairment arising as at 30 June 2020.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

## FOR THE HALF YEAR ENDED 30 JUNE 2020

### 5. GOING CONCERN

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and realisation of assets and discharges of liabilities in the ordinary course of business.

As disclosed in the financial statements, the Group incurred a net loss of \$5,970,032 and had net cash outflows from operating activities of \$9,210,675 for the six-month period ended 30 June 2020. As at that date, the Group had a cash balance of \$6,895,651. The net working capital at 30 June 2020 was \$6,779,819.

The Directors believe that it is reasonably foreseeable that the Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- Retention of the manufacturing rights of ADAPT®'s CardioCel® and VasculCel® products for up to three years from October 2019 which includes a 20% margin over production costs.
- Continued product innovation led by the TAVR programme and other large market opportunities that are at varying stages of design development, regulatory clearance and user evaluation.
- New possible partnerships and alliances for TAVR products.
- Monitoring, containing and if required deferring operational costs, including R&D costs and capital expenditures.
- The Company has an established track record of successfully raising new capital and debt facilities.

Notwithstanding the above factors, should the options above not be subsequently available to the Company, there are material uncertainties as to whether the Company and the Group will be able to continue as a going concern and therefore, whether they will realise their assets and extinguish their liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not include adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that might be necessary should the Company and Group not continue as a going concern.

### 6. SEGMENT REPORTING

#### (a) Description of segments

Segment information is presented using a management approach, i.e. segment information is provided on the same basis as information as used for internal reporting purposes by the chief operating decision maker ("CODM", being the CEO that makes key strategic decisions). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Following the restructuring of the core activities of the Group in 2019 including the partial sale and subsequent wind down of activities of the Infusion business, the sale of distribution rights of ADAPT® CardioCel and VasculCel products to LeMaitre Vascular and the liquidation of Admedus Vaccines the operating segments reviewed by the CODM have changed. Management have concluded that activities of the business, as reviewed by the CODM, fall into two segments for the 2020 year:

- Operations - Bio implant ADAPT® operations; inclusive of manufacturing and sales;
- Projects – Transcatheter Aortic Valve Replacement (TAVR) using ADAPT® 3D technology (project includes research and development activities, regulatory and medical review, legal considerations and marketing); other development projects across the Group; and the wind down of the Infusion segment (following the partial divestment of the business in May 2019 and subsequent novation of contracts in February 2020).

2019 comparative balances have been restated to fit into the new segmental structure.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

- (1) Operations segment revenue was earned in the following regions, Australia \$2,866,337, North America \$225,699 (2019: North America: \$4,057,888, Europe: \$1,187,711 and Emerging Markets: \$468,212)
- (2) All projects revenue relates to the Infusion business in Australia that was previously disclosed as a separate segment.
- (3) Infusion profit for the half-year ended 30 June 2019 was \$2,839,490.

#### (b) Other segment information

##### (i) Segment result

The reconciliation of segment information to loss before income tax is as follows:

|  | CONSOLIDATED          |                       |
|--|-----------------------|-----------------------|
|  | 30 JUNE<br>2020<br>\$ | 30 JUNE<br>2019<br>\$ |
| <b>Segment loss</b>                                      | <b>(5,198,595)</b>    | <b>(6,794,679)</b>    |
| Unallocated:   |                       |                       |
| Corporate and administration expenses                    | (771,437)             | (2,201,253)           |
| Immunotherapies *  | -                     | (2,920,634)           |
| <b>Loss before income tax from continuing operations</b> | <b>5,970,032</b>      | <b>11,916,566</b>     |

Sales between segments are carried out at arm's length and are eliminated on consolidation.

\* The company has previously reported the Immunotherapies business (Admedus Vaccines) as a separate segment at 31 December 2018. Following the termination of the share sale agreement for Admedus Vaccines in April 2019, and with no other immediate source of funding available for ongoing operations, the Admedus Vaccines Pty Ltd board of directors appointed an administrator pursuant to section 436A of the Corporations Act 2001. Admedus Vaccines was subsequently placed into liquidation in June 2019. Consequently, it was deemed Immunotherapies no longer met the definition of a reportable segment. The amount reported within segment losses for Immunotherapies in the prior period has been included in the reconciliation above.

#### (iii) Segment assets and liabilities

Segment assets and liabilities are those that are directly attributable to a segment and the relevant portion that can be allocated to the segment on a reasonable basis. Segment assets include all assets used by the segment and consist primarily of trade and other receivables, property, plant and equipment and intangible assets. Segment liabilities consist primarily of trade and other creditors and provisions.

Reportable segment assets reconciled to total assets as follows:

|   | CONSOLIDATED          |                           |

- (1) On 13 May 2019 the Company announced to the ASX that it had entered into an agreement to sell part of its Infusion business to BTC Speciality Health Pty Ltd, a wholly owned subsidiary of BTC Health Limited (ASX: BTC) for \$6.3 million including working capital proceeds. The sale was completed on 31 May 2019. The gain on sale reflects the proceeds less the net assets and liabilities transferred to BTC. Assets and liabilities transferred included inventory, IT equipment and employee entitlements.
- (2) Relates to contractual obligations from 4C Medical Technologies, Inc. including USD1.0m associated with the validation of the transfer of the sterilisation method for use with Anteris' ADAPT® tissue and USD 440,000 for contractual progress payments previously received. The sterilisation method has been provided to 4C under license.
- (3) Government grants consist of Research and Development Tax Incentive \$734,899 (2019: \$nil) and covid-19 incentives \$50,000 (2019: \$nil).
- (4) Interest income includes \$94,016 (2019: \$14,143) in relation to cash held on term deposits.

(1) Following the termination of the share sale agreement for Admedus Vaccines in April 2019, the intangible assets of Admedus Vaccines were impaired, resulting in a charge of \$3,442,134 for the half year ended 30 June 2019. The Admedus Vaccines Pty Limited Board of Directors subsequently appointed an administrator pursuant to section 436A of the Corporations Act 2001 and the subsidiary's net assets and non-controlling interest were deconsolidated at this point.

(2) Net costs after reallocation of costs of production to cost of sales and inventory.

On 8 May 2019 the Company entered into a facility agreement with Sio Partners, LP (Sio) for a secured debt facility of \$1 million. The facility runs for a term of 18 months and is charged an interest rate of 12% per annum, compounded on a monthly basis and added to the loan balance. The facility incurred a one-off fee of \$125,000 which has been capitalised to the loan. The principal interest and facility fee are all repayable on maturity of the loan. If shareholder approval is obtained, the outstanding balance may at Sio's election by notice provided to the Company no later than 3 months prior to maturity be converted to ordinary shares in the Company. At an EGM held on 26 February 2020 shareholders did not approve the resolution to convert the loan into an issue of new ordinary shares.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 30 JUNE 2020

### 15. FINANCIAL INSTRUMENTS

The fair value of financial assets and liabilities and their levels in the fair value hierarchy are set out below. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value. The definition of the fair value levels are the same as those that applied to the annual consolidated financial statements for the year ended 31 December 2019.

|  | Level 1 | Level 2   | Level 3 | Total     |
|--|---------|-----------|---------|-----------|
|  | \$      | \$        | \$      | \$        |
| <b>Consolidated – 30 June 2020</b>     |         |           |         |           |
| <i>Liabilities</i>                     |         |           |         |           |
| Warrant                                | -       | 946,270   | -       | 946,270   |
| Total liabilities                      | -       | 946,270   | -       | 946,270   |
| <b>Consolidated – 31 December 2019</b> |         |           |         |           |
| <i>Liabilities</i>                     |         |           |         |           |
| Warrant                                | -       | 1,003,425 | -       | 1,003,425 |
| Total liabilities                      | -       | 1,003,425 | -       | 1,003,425 |

The warrant is valued using a Black-Scholes model and a discounted cashflow methodology.

### 16. CONTINGENT LIABILITIES

There were no changes in contingent liabilities in relation to the current reporting period.

### 17. SHARE BASED PAYMENTS

#### (a) Employee Share Option Plan

On 20 March 2020 following approval by shareholders at the Extraordinary General Meeting on 26 February 2020, the Company granted 350,000 options to Wayne Paterson (CEO), 60,000 options to John Seaberg (Chairman) and 25,000 options to Stephen Denaro (Non-Executive Director and Company Secretary) at an exercise price of \$11.20. These options are subject to the achievement of performance hurdles and will only vest on the completion of at least 12, 18 and 24 months service and corresponding increases in the Company's share price to \$16.80, \$22.40 and \$33.60 respectively. If share price hurdles have not been achieved within at least 36 months, the Board of Directors can exercise discretion to extend this for an additional period of up to 12 months.

The Anteris Employee Incentive Plan (EIP) was approved by shareholders at the 2017 Annual General Meeting and again at the 2020 Annual General Meeting. Eligible employees can participate in the Plan. The Company granted 4,250 staff options over ordinary shares in the Company under the EIP during the six months to 30 June 2020 (six months to 30 June 2019: 4,783,831). These were split as follows:

- the Company granted 3,750 options at an exercise price of \$3.50.
- the Company granted 500 options at an exercise price of \$7.58.

19,944 options were cancelled or lapsed during the period.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 30 JUNE 2020

### 17. SHARE BASED PAYMENTS (continued)

#### (b) Fair Value of Options Granted

The fair value of options awarded to employees under the EIP is determined at grant date using a Black-Scholes option pricing model that considers the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

Due to the performance conditions attached to the options awarded to directors and approved by shareholders at the Extraordinary General Meeting on 26 February 2020, the fair value of options under the EIP is determined at grant date under the Monte Carlo simulation model.

All tranches of options are granted for no consideration and vest in three equal tranches on the anniversary date of either the grant date or the employment start date based on the holder still being employed by Anteris Technologies Ltd over a three-year period. Vested options are exercisable for a period up to the expiry date. The expected price volatility is based on the historic volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information.

### 18. CONTRIBUTED EQUITY

|                          | SHARES    |             | \$          |             |
|--------------------------|-----------|-------------|-------------|-------------|
|                          | 30-Jun    | 31-Dec      | 30-Jun      | 31-Dec      |
|                          | 2020      | 2019        | 2020        | 2019        |

| Effect of 1:100 consolidation of shares |                 |       | (584,932,499)    |             | -                  |
| <b>Balance</b>                          | <b>30-06-20</b> |       | <b>5,910,304</b> |             | <b>137,757,528</b> |

On 26 February 2020 the Company held an Extraordinary General Meeting at which shareholders passed a resolution for the consolidation of every 100 securities into one new security. In the event that a multiple of pre-consolidation shares was not divisible by 100, holdings were rounded up to the nearest whole post-consolidation share. Comparative disclosures are stated on a pre-consolidation basis.

## **NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**FOR THE HALF YEAR ENDED 30 JUNE 2020**

### **19. DIVIDENDS**

No dividends have been declared or paid during the period.

### **20. RELATED PARTY TRANSACTIONS**

With effect from 23 March 2020 the base salary for Martha Engel (General Counsel) increased from USD 175,000 for a 30 hour week to USD 235,000 for a 40 hour week. A further 500 sign-on share options were granted. These options are exercisable at a price of \$3.50, expire on 17 April 2025 and vest in three tranches over periods of 1, 2 and 3 years subject to continuing employment. All other remuneration items remained unchanged.

In May 2020 it was announced that in response to Covid-19, directors and senior executives would be taking a 25% reduction in salary.

Other than the items noted above and the share option awards detailed in Note 17 there were no new significant transactions with related parties during the period.

### **21. EVENTS OCCURRING AFTER THE REPORTING PERIOD**

There has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the group, the results of those operations, or the state of affairs of the Group, in future financial years.

## DIRECTORS' DECLARATION

The Directors of the Company declare that:

1. The consolidated interim financial statements and notes are in accordance with the *Corporations Act 2001* including:
  - (a) complying with Accounting Standards, including Accounting Standard AASB 134: Interim Financial Reporting, the *Corporations Regulations 2001*, other mandatory professional reporting requirements; and
  - (b) giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and of its performance for the half-year ended on that date;
2. In the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
3. The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A of the *Corporations Act 2001* for the interim reporting period ended 30 June 2020.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

A handwritten signature in black ink, appearing to read 'J Seaberg', with a long, sweeping horizontal stroke at the end.

**John Seaberg**

Dated 20 August 2020

**INDEPENDENT AUDITOR'S REVIEW REPORT**

To the members of Anteris Technologies Limited

**Report on the Condensed Half-Year Financial Report***Conclusion*

We have reviewed the accompanying half-year financial report of Anteris Technologies Limited ("the company") which comprises the condensed consolidated statement of financial position as at 30 June 2020, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory notes, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Anteris Technologies Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

*Emphasis of matter - material uncertainty related to going concern*

We draw attention to Note 5 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

*Directors' responsibility for the half-year financial report*

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

*Auditor's responsibility*

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

HLB Mann Judd (WA Partnership) is a member of HLB International, the global advisory and accounting network.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
