## **DIRECTORS' REPORT (continued)**

The Company presents its financial report for the consolidated entity consisting of Protean Energy Limited (**Protean or Company**) and the entities it controls (**Consolidated Entity** or **Group**) at the end of, or during, the year ended 30 June 2020.

## **REVIEW OF OPERATIONS**

During the period, the Company achieved significant milestones in advancing its world-class vanadium and uranium project in South Korea via its 50% holding in Korea Vanadium Limited.

#### **Korea Vanadium Limited**

The Company, through its 50% holding in Korea Vanadium Limited (**Korea Vanadium**) with DST Co. Ltd (**DST**), holds the rights to three projects in South Korea including the flagship Daejon Vanadium Project (the **Project**).

During the period the Company provided an update on the Excavation License Application submitted in June 2019 to the Chungnam provincial office to convert the Daejon tenements into mining production status. The Excavation License Application had been initially reviewed by the Chungnam provincial office as well as consulting with the Korean Institute of Geoscience and Mineral resources (**KIGAM**). Korea Vanadium worked with the Chungnam provincial office in relation to responding to queries on the license application and the Chungnam provincial office extended its review period to allow time for the provision of additional information to 31 January 2020.

During the period DST advised that amid opposition from local residents to the mining plan and having regard to the depressed Vanadium commodity prices and requirement to commence mining within a finite period of time from grant, a request to withdraw the Excavation License Application had been accepted by the Chungnam provincial office.

Following the withdrawal of the Excavation License Application, the Company's 50% subsidiary Korea Vanadium Limited has been advised that the Daejon Group Tenements (refer tenement schedule on page 53) will expire on 30 September 2020. The Company's Gwesan tenement expires on 11 January 2022.

The Project's Mineral Resource Estimation (MRE), targeting 8.3km of known strike length is set out in Table 1 below. The MRE comprises a combined Mineral Resource Estimate (JORC 2012) of 76 Mt @ 0.3% V<sub>2</sub>O<sub>5</sub> (2,000ppm cut-off) and 110ppm U<sub>3</sub>O<sub>8</sub> was defined for a total of 490 Mlbs V<sub>2</sub>O<sub>5</sub> and 18 Mlbs U<sub>3</sub>O<sub>8</sub> (Figure 1 and Table 1).

		V <sub>2</sub> O <sub>5</sub> Resource with U <sub>3</sub> O <sub>8</sub> by-product					U₃O <sub>8</sub> Only Resource		
Cutoff	Classification	Tonnes	$V_2O_5$	mlbs	U <sub>3</sub> O <sub>8</sub>	mlbs	Tonnes	U <sub>3</sub> O <sub>8</sub>	mlbs
		mt	ppm	$V_2O_5$	ppm	U308	Mt	ppm	U3O8
	Indicated	3.6	3,000	24	140	1.1	0		
$V_2O_5 > 2,000ppm$ or $U_3O_8 > 200ppm$	Inferred	72	3,000	470	110	17	15	250	8.1
01 0308 × 200ppm	Indicated + Inferred	76	3,000	490	110	18	15	250	8.1

Table 1: September 2018 Daejon Mineral Resource Estimate. Indicated and Inferred categories may not sum due to rounding.

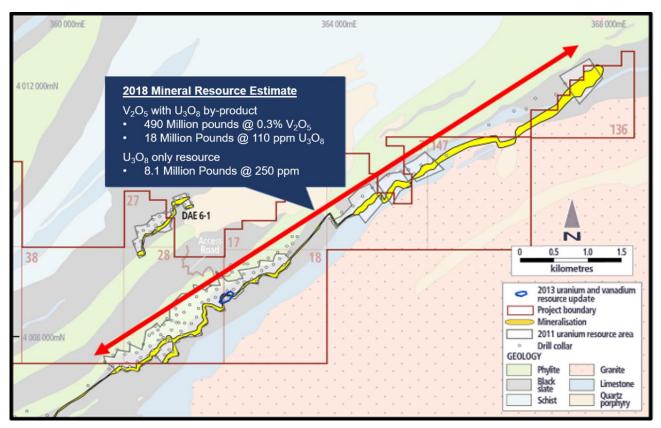

Figure 1: Strike extent of the 2018 Mineral Resource Estimate

## V-KOR Vanadium Redox Flow Battery

KORID Energy Limited (**KORID Energy**), which is 50% owned by the Company and DST, is currently in the second year of a project funding commitment of AU\$3.0M to install and run its patented V-KOR stack technology as part of a AU\$9.7M vanadium battery project in South Korea (**Funding Project**).

The Korean Institute of Energy Technology Evaluation and Planning (**KETEP**) is administering the Funding Project and the grant, where the patented V-KOR stack technology will be integrated with a 1MW/4MWh vanadium redox flow battery (**VRFB**), anticipated to occur in the third year of the Funding Project.

The V-KOR stack technology is an energy storage system that stacks a series of repeating cell frames to form a number of cells within the overall battery stack - improving battery performance and lowering manufacturing costs, compared to conventional VRFB technology.

KORID Energy will benefit directly from the project, which will enable the execution of further product improvements to scale the manufacturing and assembly process of V-KOR, particularly its 25kW stack.

The project aims to double the energy density of vanadium electrolyte, which could significantly reduce the physical footprint of the V-KOR battery solution.

The improvements to the 25kW could lead to substantial cost reductions as well as an enhanced assembly process - a key part of the KORID Energy's commercialisation strategy for large-scale utility applications, such as commercial and industrial use.

Over the course of the second year of the Funding Project, KORID Energy has made improvements to key components of the VRFB technology and integrated a new 50kW stack module that comprises two 25kW class stacks that can be installed in a 50kW/200kWh VRFB modular system.

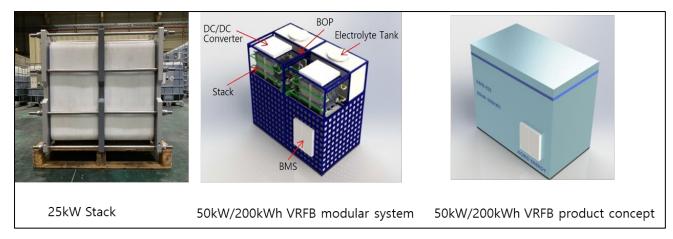

Figure 2: VRFB 50kW stack product concept.

#### **CORPORATE**

## **Board Changes**

During the period the Company advised that Mr Young Yu and Mr Wayne Loxton had resigned from the Board of the Company effective 31 December 2019.

The Company further advised that Mr Matthew Foy had been appointed Non-Executive Director of the Company effective 31 December 2019. Matthew has been Company Secretary of Protean since 2011 has over 12 years' experience in the securities, finance and mining industry. Matthew has completed a Bachelor of Commence degree at the University of Western Australia and is a Fellow of The Governance Institute of Australia. Matthew has a sound knowledge of ASX corporate governance guidelines, board process and the regulatory environment in which public companies operate.

## <u>COVID</u>

Thankfully, no positive COVID-19 (Coronavirus) cases have been reported amongst the Group's employee and contractor base and COVID-19 has not had a material impact on the Group. Protean are taking pre-emptive precautions to protect its employees, contractors, their families and their communities. The Board has implemented a work from home policy and limited travel. The Board believes that this decision is aligned and in the best interests of all the Group's stakeholders.

# **Competent Person Statement**

The information contained in this ASX release relating to exploration results and Mineral Resources has been compiled by Mr Kahan Cervoj of Optiro Pty Ltd. Mr Cervoj is a Member of The Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 editions of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Cervoj consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. Additionally, Mr Cervoj confirms that the entity is not aware of any new information or data that materially affects the information contained in the ASX releases referred to in this report.

## **DIRECTORS**

The names of Directors who held office during the year and up to the date of signing this report, unless otherwise stated are:

Bevan Tarratt Non-Executive Chairman

Matthew Foy Non-Executive Director appointed 31 December 2019

David Wheeler Non-Executive Director

Wayne Loxton Non-Executive Director resigned 31 December 2019
Young Yu Non-Executive Director resigned 31 December 2019

## **DIRECTORS' REPORT (continued)**

#### **PRINCIPAL ACTIVITIES**

The activities of the Group and its subsidiaries during the year ended 30 June 2020 comprised progressing its vanadium and uranium project in South Korea via its 50% holding in Korea Vanadium Limited and the commercialisation of vanadium battery energy storage systems.

#### **DIVIDENDS**

No dividends have been declared, provided for or paid in respect of the financial year (30 June 2019: Nil).

#### **FINANCIAL SUMMARY**

The Group made a net loss after tax of \$1,319,217 for the financial year ended 30 June 2020 (30 June 2019: loss of \$4,579,297). At 30 June 2020, the Group had net assets of \$656,212 (30 June 2019: \$1,975,322) and cash assets of \$763,956 (30 June 2019: \$1,290,583).

## SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

The significant changes in the state of affairs of the Consolidated Entity during the financial period and to the date of this report are set out in the review of operations above.

## **EVENTS SUBSEQUENT TO END OF THE REPORTING PERIOD**

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not impacted financially on the Company up to 30 June 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

There are no other events of a material nature or transaction, that have arisen since year end and the date of this report that has significantly affected, or may significantly affect, the Group's operations, the results of those operations, or its state of affairs.

## **INFORMATION ON DIRECTORS**

The following information is current as at the date of this report.

Mr Bevan Tarratt	Non-Executive Chairman (appointed 14 June 2019)
Qualifications	BA (Bus), SDIA
Experience	Mr Tarratt has an extensive background in the accounting industry primarily focused on small cap resource companies. This experience has allowed Mr Tarratt to develop an in-depth understanding of the resource sector within Western Australia and globally, allowing Mr Tarratt to systematically evaluate project and corporate opportunities. Mr Tarratt has extensive equity capital markets experience with Paterson's Securities Ltd.
Committee Memberships	Audit & Risk Committee
Equity Interests	1,941,496 ordinary shares 8,750,000 options over ordinary shares with an exercise price of \$0.037.
Directorships held in other listed entities	Current directorships:  - Non-Executive Director - Jacka Resources Ltd from August 2018  - Non-Executive Director - Ansila Energy NL from May 2018  Former directorships:  - Fenix Resources Ltd – from August 2015 to December 2019
	No other listed directorships have been held by Mr Tarratt in the previous three years.

Non-Executive Director (appointed 31 December 2019) Company Secretary					
Mr Foy is a contract Company Secretary and active member of the WA State Governance Council of the Governance Institute Australia (GIA). He spent four years at the ASX facilitating the listing and compliance of companies and possesses core competencies in publicly listed company secretarial, operational and governance disciplines. His working knowledge of ASIC and ASX reporting and document drafting skills ensure a solid base to make a valued contribution to Protean.					
23,333 ordinary shares					
None					
No other listed directorships have been held by Mr Foy in the previous three years.					
Non-Executive Director (appointed 16 May 2017)					
BA (Bus), SDIA					
Mr Wheeler has more than 30 years executive management experience, through general management, CEO and Managing Director roles across a range of companies and industries. He has worked on business projects in the USA, UK, Europe, New Zealand, China, Malaysia, and the Middle East (Iran). Mr Wheeler has been a Fellow of the Australian Institute of Company Directors (FAICD) since 1990.					
Audit & Risk Committee					
9,750,000 options over ordinary shares with an exercise price of \$0.037.					
Current directorships:  Non-Executive Director - Thred Ltd from August 2017  Non-Executive Director - Eneabba Gas Ltd from October 2017  Non-Executive Director - Ragnar Metals Ltd from December 2017  Non-Executive Chairman - Avira Resources Ltd from September 2018  Non-Executive Director - Tyranna Resources Ltd from October 2019  Non-Executive Director - Syntonic Ltd from November 2019  Non-Executive Chairman - Blaze International Ltd from March 2020  Non-Executive Director - Delecta Ltd from June 2020  Former directorships:  Ausmex Mining Group Ptd – from October 2014 to August 2017  Castillo Copper Ltd – from August 2015 to February 2018  333D Limited – from April 2011 to February 2018  Antilles Oil and Gas NL – from February 2016 to November 2018  Ultracharge Ltd – from December 2015 to August 2019					

Mr Wayne Loxton	Non-Executive Director (appointed 14 June 2019, resigned 31 December 2019)					
Qualifications	BSc Eng, MAustIMM					
Experience	Mr Loxton has experience spanning 30 years including formulating project development strategies, completing feasibility studies, conducting due diligence, executing capital raisings, mergers, acquisitions, asset divestments and introduction of best practices. In the resource sector Mr Loxton has corporate and operational experience in gold, base metals and bulk commodities incorporating both underground and open-pit mining operations. Mr Loxton has been involved in numerous project evaluations within Australia and overseas including the completion of strategic and commercial due diligence studies, bankable feasibility studies, project construction and the negotiation of offtake agreements.					
Directorships held in other listed entities	No other listed directorships have been held by Mr Loxton in the previous three years.					
Mr Young Yu	Non-Executive Director (appointed 1 July 2019, resigned 31 December 2019)					
Qualifications	B.Bus, MBA, CPA					
Experience	Mr Yu was previously the Regional Director/Representative for the Western Australian Trade and Investment Office in South Korea for four years. In that position he was responsible for Industry and Agribusiness, with his main areas of responsibility in the Clean Energy, Mineral & Resources and Investment sectors.					
Directorships held in other	Current directorships:					
listed entities	- Non-Executive Director – Xantippe Resources Limited from January 2019					
	No other listed directorships have been held by Mr Yu in the previous three years.					

# **Meetings of Directors**

During the financial year, three (3) meetings of Directors and one (1) meeting of the Audit and Risk Committee were held. Attendances by each Director during the year were as follows:

	Directors'	Meetings	Audit & Risk Committee Meetings		
	Number eligible to attend	Number attended	Number eligible to attend	Number attended	
B Tarratt	3	3	1	1	
M Foy (1)	2	2	-	-	
W Loxton (2)	1	1	-	-	
D Wheeler	3	3	1	1	
Y Yu <sup>(3)</sup>	1	1	1	1	

- 1 Mr Foy appointed 31 December 2019.
- 2 Mr Loxton resigned 31 December 2019.
- 3 Mr Yu resigned 31 December 2019.

## **DIRECTORS' REPORT (continued)**

#### **REMUNERATION REPORT (AUDITED)**

The remuneration report is set out under the following main headings:

- A. Introduction
- B. Remuneration governance
- C. Key management personnel
- D. Remuneration and performance
- E. Remuneration structure
  - Executive
  - Non-Executive directors
- F. Details of remuneration
- G. Share based compensation
- H. Other information

This report details the nature and amount of remuneration for each Director and key management personnel of Protean Energy Limited.

#### A. INTRODUCTION

The remuneration policy of the Company has been designed to align Director and management objectives with shareholder and business objectives by providing a fixed remuneration component, and offering specific long-term incentives, based on key performance areas affecting the Group's financial results. Key performance areas include cash flow management, growth in share price, successful exploration and subsequent exploitation of the Group's tenements and successful development and subsequent exploitation of the Group's battery technology. The Company believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best management and Directors to run and manage the Group, as well as create goal congruence between Directors, Executives and shareholders.

During the year the Company did not engage remuneration consultants.

## B. REMUNERATION GOVERNANCE

The Board retains overall responsibility for remuneration policies and practices of the Company. Due to the Company's size and current stage of development, the Board has not established a separate nomination and remuneration committee. This function (Remuneration Function) is performed by the Board.

The Board aims to ensure that the remuneration practices are:

- competitive and reasonable, enabling the company to attract and retain key talent;
- aligned to the Company's strategic and business objectives and the creation of shareholder value;
- transparent and easily understood, and
- acceptable to Shareholders.

At the 2019 annual general meeting, the Company's remuneration report was passed by the requisite majority of shareholders (100% by a show of hands).

#### C. KEY MANAGEMENT PERSONNEL

The key management personnel in this report are as follows:

Non-Executive Directors

- B Tarratt (Non-Executive Chairman) transitioned to Non-Executive Chairman on 14 June 2019
- M Foy (Non-Executive Director) appointed 31 December 2019
- D Wheeler (Non-Executive Director) appointed 16 May 2017

Non-Executive Directors - former

- W Loxton (Non-Executive Director) appointed 14 June 2019 and resigned 31 December 2019
- Y Yu (Non-Executive Director) appointed 1 July 2019 and resigned 31 December 2019

#### D. REMUNERATION AND PERFORMANCE

The following table shows the gross revenue, net losses attributable to members of the Company and share price of the Group at the end of the current and previous four financial years.

	30 June 2020 \$	30 June 2019 \$	30 June 2018 \$	30 June 2017 \$	30 June 2016 \$
Revenue from continuing operations	7,941	21,762	33,732	1,584	22,406
Net loss attributable to members of the Company	(1,319,217)	(4,579,296)	(3,669,481)	(7,107,731)	(4,718,084)
Share price	0.004	0.009	0.030	0.020	0.360

#### E. REMUNERATION STRUCTURE

## **Executive remuneration structure**

The Board's policy for determining the nature and amount of remuneration for senior executives of the Group is as follows. The remuneration policy, setting the terms and conditions for executive directors and other senior executives, was developed and approved by the Board. All executives receive a base salary (which is based on factors such as length of service and experience), superannuation, fringe benefits, options and performance incentives. The Board reviews executive packages annually by reference to the Group's performance, executive performance, and comparable information from industry sectors and other listed companies in similar industries.

Executives are also entitled to participate in the employee share option and performance rights plans. If an executive is invited to participate in an employee share option or performance rights plan arrangement, the issue and vesting of any equity securities will be dependent on performance conditions relating to the executive's role in the Group and/or a tenure based milestone.

The employees of the Group receive a superannuation guarantee contribution required by the Government, which is currently 9.50%, and do not receive any other retirement benefits.

#### Non-Executive remuneration structure

In line with corporate governance principles, Non-Executive Directors of the Company are remunerated primarily by way of fees and statutory superannuation. Non-Executive Directors fees are set at the lower end of market rates for comparable companies for time, responsibilities and commitments associated with the proper discharge of their duties as members of the Board. As the fees are set at the lower end of market rates, Non-Executive Directors are able to participate in the employee share option or performance rights plans. Non-Executive Directors of the Company may also be paid a variable consulting fee for additional services provided to the Company of \$1,000 per day inclusive of superannuation.

Non-Executive Directors' fees and payments are reviewed annually by the Board. For the year ended 30 June 2020, remuneration for a Non-Executive Director/Chairman ranged between was \$36,000 to \$48,000 per annum. There are no termination or retirement benefits paid to Non-Executive Directors (other than statutory superannuation). The maximum aggregate amount of fees that can be paid to Non-Executive Directors, which was subject to approval by shareholders as part of the replaced constitution at the annual general meeting which occurred on 26 November 2014, is \$250,000 per annum.

All Non-Executive Directors enter into a service agreement with the company in the form of a letter of appointment. The letter summarises the board policies and terms, including remuneration, relevant to the office of Director.

In addition, in order to align their interests with those of shareholders, the Non-Executive Directors are encouraged to hold shares in the Company.

#### F. DETAILS OF REMUNERATION

Details of remuneration of the key management personnel (KMP) (as defined in AASB 124 Related Party Disclosures) of the Company is set out below.

Remuneration of KMP for the 2020 financial year is set out below:

	Short-term benefits			Post-ei	Post-employment benefits			Takal
	Cash salary	Consulting fees	Non-cash benefits (1)	Super- annuation	Annual leave	Termination	Options	Total
	\$	\$	\$	\$	\$	\$	\$	\$
Non-Executive Dire	ectors							
B Tarratt	48,000	20,000	150	6,460	-	-	-	74,610
M Foy (2)(3)(4)	24,000	-	-	-	-	-	=	24,000
D Wheeler (5)	36,000	-	-	-	-	-	-	36,000
Non-Executive Dire	ectors –Former							
W Loxton (6)	24,000	-	-	2,280	-	-	-	26,280
Y Yu <sup>(7)(8)(9)</sup>	18,000	24,000	-	-	-	-	-	42,000
Total	150,000	44,000	150	8,740	-	-	-	202,890

- 1 Other benefits include the provision of a mobile phone allowance.
- 2 Mr Fov appointed 31 December 2019.
- 3 Mr Foy's fees are paid for the role of Non-Executive Director and Company Secretary.
- 4 Mr Foy is a Director of FT Corporate Pty Ltd, which received Mr Foy's fees during the period.
- 5 Mr Wheeler is a Director of Pathways Corporate Pty Ltd, which received Mr Wheeler's Director fees during the year.
- 6 Mr Loxton resigned 31 December 2019.
- 7 Mr Yu, transitioned from Executive Director to Non-Executive Director on 1 July 2019.
- 8 Mr Yu resigned 31 December 2019.
- 9 Mr Yu is a Director of MGM O'Connor Corporate Advisory Pty Ltd, which received Mr Yu's Director and consulting fees during the period.

The following table sets out each KMP's relevant interest in fully paid ordinary shares, options and performance rights to acquire shares in the Company, as at 30 June 2020:

Name	Fully paid ordinary shares	Options	Performance rights
B Tarratt	1,941,496	8,750,000	-
M Foy	23,333	-	-
D Wheeler	-	9,750,000	-

Remuneration of KMP for the 2019 financial year is set out below:

	Sho	ort-term bene	fits	Post-e	mployment	benefits	Share based payments	Total
	Cash salary	Consulting fees	Non-cash benefits <sup>(1)</sup>	Super- annuation	Annual leave <sup>(2)</sup>	Termination	Options	iotai

Total	437,500	18,000	4,330	24,463	8,526			492,819

- 1 Other benefits include the provision of an internet and mobile phone allowance.
- 2 The amount disclosed represent unused annual leave paid out on cessation of the executive director roles.
- 3 Mr Yu, transitioned from Non-Executive Director to Executive Director on 1 October 2018.
- 4 Mr Yu is a Director of JLC Corporation Pty Ltd, which received Mr Yu's Director and consulting fees during the period.
- 5 Mr Tarratt transitioned from Executive Chairman to Non-Executive Chairman on 14 June 2019.
- 6 Mr Loxton transitioned from Executive Director to Non-Executive Director on 14 June 2019.
- 7 Mr Wheeler, Non-Executive Director, is a Director of Pathways Corporate Pty Ltd, which was owed Mr Wheeler's Director fees during the period.

#### G. SHARE BASED COMPENSATION

During the year ended 30 June 2020 there was no share-based compensation provided to Directors.

Relative proportions of fixed vs variable remuneration expense

The following table shows the relative proportions of remuneration that are linked to performance and those that are fixed, based on the amounts disclosed as statutory remuneration expense for the 2020 and 2019 financial years:

	Fixed remuneration	At risk STI	At risk LTI	Fixed remuneration	At risk STI	At risk LTI
		2020			2019	
Non-Executive Directors – Current						
B Tarratt (1)	100%	-	-	100%	-	-
M Foy (2)	100%	-	-	-	-	-
D Wheeler	100%	-	-	100%	-	-
Executives – Former						
B Tarratt (1)	-	-	-	100%	-	-
W Loxton (3)	-	-	-	100%	-	-
Y Yu <sup>(4)</sup>	-	-	-	100%	-	-
Non-Executive Director – Former						
W Loxton (3)(5)	100%			100%		
Y Yu <sup>(4)(6)</sup>	100%	-	-	100%	-	-

- 1 During the prior year Mr Tarratt transitioned from Executive Chairman to Non-Executive Chairman on 14 June 2019.
- 2 My Foy appointed 31 December 2019.
- 3 During the prior year Mr Loxton transitioned from Executive Director to Non-Executive Director on 14 June 2019.
- 4 Mr Yu, transitioned from Non-Executive Director to Executive Director on 1 October 2018. On 1 July 2019, Mr Yu transitioned back to the role of Non-Executive Director.
- 5 Mr Loxton resigned 31 December 2019.
- 6 Mr Yu resigned 31 December 2019.

Reconciliation of equity instruments held by KMP

The following table sets out a reconciliation of each KMP's relevant interest in ordinary shares and options and performance rights to acquire shares in the Company:

	Balance at the start of the year/period	Granted/ Acquired	Exercised	Lapsed	Other changes	Balance at year end
Non-Executive Directors						
B Tarratt						
Fully paid ordinary shares	1,941,496	-	-	-	-	1,941,496
Options (1)	8,750,000	-	-	-	-	8,750,000
M Foy <sup>(2)</sup>						
Fully paid ordinary shares	23,333	-	-	-	-	23,333
D Wheeler						
Options (1)	9,750,000	-	-	-	-	9,750,000

	Balance at the start of the year/period	Granted/ Acquired	Exercised/ Vested	Lapsed	Other changes	Balance at year end
Non-Executive Directors – For	mer					
W Loxton (3)						
Fully paid ordinary shares	7,000,495	-	-	-	(7,000,495)	-
Options (1)	9,750,000	-	-	-	(9,750,000)	-
Y Yu <sup>(4)</sup>						
Fully paid ordinary shares	4,896,722	-	-	-	(4,896,722)	-
Options (1)	9,750,000	-	-	-	(9,750,000)	-

- 1 Options are vested and exercisable.
- 2 Mr Foy appointed 31 December 2019.
- 3 Mr Loxton resigned 31 December 2019.
- 4 Mr Yu resigned 31 December 2019.

None of the fully paid ordinary shares above are held nominally by the Directors or any other KMP.

#### H. OTHER INFORMATION

Unissued ordinary shares

Unissued ordinary shares under option at the date of this report are 85,000,000 and broken-down as follows:

- Share options issued to Directors, employees, consultants and vendors 85,000,000

Options over ordinary shares can be exercised at a price of \$0.037.

This concludes the Remuneration Report which has been audited.

#### **ENVIRONMENTAL REGULATIONS**

The Company's policy is to comply with, or exceed, its environmental obligations in each jurisdiction in which it operates. No known environmental breaches have occurred.

#### **INDEMNIFYING OFFICERS**

During the financial year, the Company paid a premium in respect of a policy insuring the Company's Directors, Secretaries, Executive Officers and any related body corporate against a liability incurred as such a director, secretary or officer to the extent permitted by the *Corporations Act 2001*. The policy of insurance prohibits disclosure of the nature of the liability and the amount of the premium. The Company has entered into Deeds of Indemnity, Insurance and Access with the Company's Directors, Secretary and Executive Officers.

The Company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Company or any of the related body corporates against a liability incurred as such an officer or auditor.

## PROCEEDINGS ON BEHALF OF COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of Protean, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of Protean for all or part of these proceedings.

No proceedings have been brought or intervened in on behalf of Protean with leave of the Court under section 237 of the *Corporations Act 2001*.

## **DIRECTORS' REPORT (continued)**

#### **AUDITOR'S INDEPENDENCE DECLARATION**

The auditor's independence declaration, as required under section 307C of the *Corporations Act 2001* for the year ended 30 June 2020 has been received and can be found on page 15.

#### **AUDITOR'S REMUNERATION**

During the financial period the following fees were paid or payable for services provided by related entities of BDO (Audit) WA Pty Ltd.

	2020 \$	2019 \$
Taxation services		
BDO Tax (WA) Pty Ltd		
Tax compliance services	7,365	7,650
International tax consulting and tax advice	3,966	700
Total remuneration for taxation services	11,331	8,350
Total remuneration for non-audit services	11,331	8,350

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

The Board of Directors have considered the position and is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the provision of non-audit services by the auditor did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed by the Board of Directors to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110
   Code of Ethics for Professional Accountants.

This report is signed in accordance with a resolution of the Board of Directors made pursuant to section 295(5) of the *Corporations Act 2001*.

## DECLARATION OF INDEPENDENCE BY JARRAD PRUE TO THE DIRECTORS OF PROTEAN ENERGY LIMITED

As lead auditor of Protean Energy Limited for the year ended 30 June 2020, I declare that, to the best of my knowledge and belief, there have been:

- 1. No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- 2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Protean Energy Limited and the entities it controlled during the period.

Jarrad Prue

Director

BDO Audit (WA) Pty Ltd

Perth, 28 August 2020

<sup>1</sup> During the current period expenditure relates to new project research. During the prior period expenditure incurred for research and development activities in relation to Protean ™wave energy convertor technology

<sup>2</sup> Research and development tax incentive relating to expenditure on research and development activities in relation to Protean™ wave energy convertor technology incurred in the 2018 financial year

<sup>3</sup> Fair value Loss from KORID Energy Co Ltd, investment in associate

<sup>4</sup> Share of loss from Korea Vanadium Limited, investment in joint venture

FOR THE YEAR ENDED 30 JUNE 2020

#### 2. SEGMENT INFORMATION

Management has determined that the Group has three reportable segments, being exploration in South Korea, investment in Battery Technology and Other exploration activities. During the prior year the Group also had an additional segment being investment in Wave Technology. The Group's exploration in South Korea is funded through its joint venture investment in Korea Vanadium Limited and exploration activity undertaken by the Group. The Group's development of Battery Technology is funded through its investment in associate and direct spend undertaken by the Group. This determination is based on the internal reports that are reviewed and used by the Board (chief operating decision maker) in assessing performance and determining the allocation of resources. The Board monitors the Group based on actual versus budgeted expenditure incurred by segment. This internal reporting framework is the most relevant to assist the Board with making decisions regarding the Group and its ongoing activities, while also taking into consideration the results that has been performed to date.

	Revenue from external sources \$	Reportable segment loss \$	Reportable segment assets (1)	Reportable segment liabilities \$
For year ended 30 June 2020				
Exploration – South Korea				
Investment in Joint Venture	-	(715,903)	-	-
Exploration activity	-	-	26,068	(385)
Battery technology				
Investment in Associate	-	-	-	-
Battery Technology	-	-	-	-
<b>Exploration Other</b>	-	(52,202)	-	(20,007)
Corporate activities	7,941	(551,112)	781,789	(131,253)
Total	7,941	(1,319,217)	807,857	(151,645)
For year ended 30 June 2019				
Wave Technology	-	(9,403)	-	-
Exploration – South Korea				
Investment in Joint Venture	-	(2,593,202)	715,796	-
Exploration activity	-	(169,204)	38,276	(33,385)
Battery technology

<b>Exploration Other</b>	-	(272,860)	-	-
Corporate activities	21,762	(1,488,951)	1,329,283	(74,648)
Total	21,762	(4,579,296)	2,083,355	(108,033)

<sup>1</sup> Corporate activities include cash held of \$763,956 for the year ended 30 June 2020 and \$1,290,583 for the year ended 30 June 2019.

FOR THE YEAR ENDED 30 JUNE 2020

## 3. TAXATION

	2020 \$	2019 \$
Income tax benefit		
Current tax	-	-
Deferred tax	-	-
Income tax benefit		-
Reconciliation of income tax to prima facie tax payable		
Loss before income tax	(1,319,217)	(4,579,297)
Income tax benefit at 30% (30 June 2019: 27.5%)	(395,765)	(1,259,307)
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Share based payments	-	2,339
Impairment of assets	201,440	482,058
Other permanent differences	67,570	620,109
Deferred tax assets relating to gain not recognised	126,755	154,800
Total income tax benefit	-	-
Unrecognised deferred tax assets		
Deferred tax assets and liabilities not recognised relate to the following:		
Tax losses	8,486,070	7,608,099
Other	75,591	93,166
Net deferred tax assets unrecognised	8,561,661	7,701,265

## Significant accounting judgment

## Deferred tax assets

The Group expects to have carried forward tax losses, which have not been recognised as deferred tax assets, as it is not considered sufficiently probable that these losses will be recouped by means of future profits taxable in the relevant jurisdictions. The utilisation of the tax losses is subject to the Group passing the required Continuity of Ownership and Same Business Test rules at the time the losses are utilised. Net deferred tax assets have not been brought to account as it is not probable within the immediate future that tax profits will be available against which deductible temporary difference can be utilised.

#### 4. CASH AND CASH EQUIVALENTS

	2020 \$	2019 \$
Cash at bank	763,956	1,290,583

## (a) Risk exposure

Refer to Note 15 for details of the risk exposure and management of the Group's cash and cash equivalents.

# (b) Deposits at call

Deposits at call are presented as cash equivalents if they have a maturity of three months or less. Refer Note 28(j) for the Group's other accounting policies on cash and cash equivalents.

FOR THE YEAR ENDED 30 JUNE 2020

## 5. CURRENT TRADE AND OTHER RECEIVABLES

	2020 \$	2019 \$
Other receivables	11,065	26,024
Prepayments	6,605	10,228
	17,670	36,252

The Group has no impairments to other receivables or has receivables that are past due but not impaired.

Due to the short-term nature of the current trade and other receivables, their carrying amount is assumed to be the same as their fair value.

Other receivables are generally due for settlement within 30 days and are therefore classified as current.

Refer to Note 15 for details of the risk exposure and management of the Group's trade and other receivables.

## 6. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

Financial assets at fair value through other comprehensive income (FVOCI) comprise of listed equity securities in KOSDAQ listed DST Co. Ltd (**DST**).

	2020 \$	2019 \$
Opening balance	-	1,899,226
Proceeds from sale of investment (excluding costs)	-	(1,437,479)
Revaluation loss recognised in other comprehensive income	-	(404,722)
Foreign exchange gain recognised in other comprehensive income	-	(57,025)
Closing balance	-	-

On disposal of these equity investments, any related balance within the FVOCI reserve remain within other comprehensive income.

## Significant accounting estimates, assumptions and judgements

Classification of financial assets at fair value through other comprehensive income

Investments are designated at fair value through other comprehensive income where management have made the election in accordance with AASB 9: Financial Instruments.

Fair value for financial assets at fair value through other comprehensive income

Information about the methods and assumptions used in determining fair value is provided in Note 12.

The financial assets at fair value through other comprehensive income is denominated in Korean Won.

#### 7. INVESTMENT IN ASSOCIATE

The investment is subsequently accounted for as an Investment in Associate as follows:

	2020 \$	2019 \$
Opening balance	-	-
Investment in Associate	-	407,101
Fair value loss of investment in associate	-	(407,101)
Closing balance	-	-

Refer Note 28(I) for the Group's other accounting policies on investments and other financial assets.

FOR THE YEAR ENDED 30 JUNE 2020

## 7. INVESTMENT IN ASSOCIATE (continued)

## Significant accounting judgments

Control assessment – as at 30 June 2019 and 30 June 2020

The Directors have determined that Group has significant influence and as a result, the Investment in Associates in the consolidated financial statements is accounted for using the equity method of accounting.

#### 8. INTEREST IN JOINT VENTURE

Protean has formal joint venture (JV) with DST Co. Ltd (DST). The JV was created via the sale to KORID of 50% of Korea Vanadium Limited.

	2020 \$	<b>2019</b> \$
Opening balance	715,796	2,847,045
Additional investment at cost (1)	-	204,950
Share of net loss of joint venture accounted using the equity method	(44,436)	(840,265)
Impairment (2)	(671,467)	(1,498,920)
Foreign exchange gain recognised in other comprehensive income	107	2,986
Closing balance	-	715,796

<sup>1</sup> The JV Agreement with DST requires that the Company and DST share the cost of Stage 2. Funding is provided by way of additional investment to Korea Vanadium Limited to accelerate the development of the Daejon vanadium and uranium project by conducting work to contribute to the preparation of a pre-feasibility study.

## Interests in joint venture

Set out below is the JV of the Group as at 30 June 2020 which, in the opinion of the Directors, is material to the Group. The entity listed below has share capital consisting solely of ordinary shares, which are held directly by the Group. The country of incorporation or registration is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

	Place of business/		% of ow inter	•	Quote valu		Carrying	amount
Name of entity	country of incorporation	Measurement method	2020 %	<b>2019</b> %	2020 \$	<b>2019</b> \$	2020 \$	<b>2019</b> \$
Korea Vanadium Limited <sup>(1)</sup>	South Korea	Equity method	50	50	N/A <sup>(2)</sup>	N/A <sup>(2)</sup>	-	715,796

<sup>1</sup> Korea Vanadium Limited is focused on accelerating development of the Daejon vanadium and uranium project by conducting work to contribute to the preparation of a pre-feasibility study.

<sup>2</sup> During the year the JV submitted mining plan application withdrawal request amid severe opposition from local residents and economic deterioration caused by a plunge in vanadium prices for the Daejeon tenements. As a result, the assets were considered to be impaired and an impairment loss has been recognised.

<sup>2</sup> As the entity is a private entity no quoted prices are available.

FOR THE YEAR ENDED 30 JUNE 2020

## 8. INTEREST IN JOINT VENTURE (continued)

## **Summarised financial information**

The tables below provide summarised financial information of the JV. The information disclosed below reflects the amounts presented in the financial statements of the relevant JV and not the Group's share of those amounts. They have been amended to reflect adjustments made by the entity when using the equity method including fair value adjustments and modifications for differences in accounting policy.

Summarised statement of financial position	2020 \$	<b>2019</b> \$

Dividends received	-	-

## Significant accounting estimates, assumptions and judgements

Carrying value of interest in joint venture

Given the underlying nature of the assets held by the JV, being exploration and evaluation assets, management have, in accordance with AASB 6: Exploration for Evaluation of Mineral Assets, performed a review of impairment indicators on the Investment in JV which included a review of rights to tenure, future expenditure and progress regarding the KIGAM core access. The future recoverability of the exploration and evaluation projects is dependent on a number of factors, including whether the Group decides to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale.

FOR THE YEAR ENDED 30 JUNE 2020

# 8. INTEREST IN JOINT VENTURE (continued)

## 30 June 2019

During the prior year the JV relinquished:

- Gwesan Group including Gwesan -125, -115, -124, -117, -118, -114, -126, -128 in total 8 tenements;
- Miwon Group includes Miwon -36, -46, -58, -37, -47, -57 in total 6 tenements; and
- Daejeon -27, -47, -57.

As a result of the relinquishment, the Group has processed an impairment of \$1,498,920. The impairment has been based upon the total hectares relinquished over the total hectare held prior to relinquishment.

#### 30 June 2020

During the year the JV submitted mining plan application withdrawal request amid severe opposition from local residents and economic deterioration caused by a plunge in vanadium prices for the Daejeon tenements. As a result, the assets were considered to be impaired and an impairment loss has been recognised.

#### Control Assessment

The Directors determined that they jointly control the JV. The Group has a 50% interest of the issued capital of this entity, with the other 50% being owned by DST Co. Ltd and BHI Co. Ltd. Each of the shareholder groups has 2 Board members representing their interests, with decisions around the JV being made jointly.

## 9. FINANCIAL ASSET AT FAIR VALUE THROUGH PROFIT OR LOSS

		2020	2019
	Note	\$	\$
Opening balance		-	-
Advance to Korea Vanadium (1)		-	254,018
Fair value loss	1	-	(254,018)
Closing balance		-	-

The JV Agreement with DST requires that the Company and DST share the cost of Stage 2. Funding is provided by way of additional loan to Korea Vanadium Limited to accelerate the development of the Daejon vanadium and uranium project by conducting work to contribute to the preparation of a pre-feasibility study. The joint funding of Stage 2 of the Korea Vanadium Ltd joint venture has been solely undertaken by the Group. The Group acknowledges that DST are to provide their share of the funding to the JV.

The Group determines the fair value of the advances in consideration of the investments in associates (refer to Note 7). Considering the advances were held at nil valuation as at 30 June 2019, and the status of the relevant opportunities and credit risk, there was no recognised fair value of the advances to associates.

## Significant accounting estimates, assumptions and judgements

Classification of loans receivable from associates at amortised cost to financial assets at fair value through profit or loss

The Company funds its share of costs associated with Korea Vanadium Limited and Stage 2 to accelerate the development of the Daejon vanadium and uranium project, which are interest free and repayable on demand. Upon commencement of Stage 2, in late 2018 the joint venture is still in pre- development stage, the repayment of the loans is not solely interest and principle and is linked to the relevant projects achieving commercial production. The loans do not meet the IFRS 9 criteria for classification at amortised cost as it fails the contractual cashflow characteristics of sole payments of principle and interest. As a result, the loans will be carried at fair value through profit or loss.

The Group determines the fair value of the advances in consideration of the investments in associates (refer to Note 7). Considering the value of investment, impairment loss recognised and the status of the projects, there was no recognised fair value of the advances to joint venture.

# **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FOR THE YEAR ENDED 30 JUNE 2020

## 10. TRADE AND OTHER PAYABLES

Trade and other payables are normally settled within 30 days from receipt of invoice. All amounts recognised as trade and other payables, but not yet invoiced, are expected to settle within 12 months.

	2020 \$	2019 \$
Trade payables	151,645	106,580

The carrying value of trade and other payables are assumed to be the same as their fair value, due to their short-term nature.

Refer to Note 15 for details of the risk exposure and management of the Group's trade and other receivables.

## 11. PROVISIONS

The current provision for employee benefits relate to annual leave which is provided for all employees of the Group in line with their employment. The measurement and recognition criteria relating to employee benefits have been included in Note 28(q) to this report.

	2020 \$	2019 \$
Employee benefits	-	1,453

#### 12. FAIR VALUES OF FINANCIAL INSTRUMENTS

This note provides an update on the judgements and estimates made by the Group in determining the fair values of the financial instruments since the last annual financial report.

#### Fair value hierarchy

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed under the accounting standards. An explanation follows. At 30 June 2020 and 30 June 2019, no such assets or liabilities were recorded at fair value.

There was no transfer between levels for recurring fair value measurements during the year. The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The fair value of financial assets and liabilities held by the Group must be estimated for recognition, measurement and/or disclosure purposes. The Group measures fair values by level, per the following fair value measurement hierarchy:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

<u>Level 2</u>: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The groups policy is to recognise transfers into and out of fair value hierarchy levels as at the end of the reporting period.

#### Valuation techniques used to determine fair values

The Group did not have any financial instruments that are recognised in the financial statements where their carrying value differed from the fair value. The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The carrying amounts of cash and short-term trade and other receivables, trade payables and other current liabilities approximate their fair values largely due to the short-term maturities of these payments.

Loans receivable from associates

The fair value of loans receivables is based upon the value of investment, impairment loss recognised and the status of the projects, of the joint venture.

FOR THE YEAR ENDED 30 JUNE 2020

## 13. ISSUED CAPITAL

## (a) Issued capital

	2020	2019	2020	2019
	Shares	Shares	\$	\$
Fully paid	311,437,245	311,437,245	34,953,095	34,953,095

Movements in ordinary share capital during the current and prior financial period are as follows:

Details	Date	Number of shares	Issue price/share \$	\$
Balance at 1 July 2018		304,312,341		34,918,095
Issue of shares on conversion of performance rights	2-Nov-18	2,816,666	-	-
Share based payment (Note 14(c) <sup>(1)</sup> )	26-Feb-19	4,308,238	-	35,000
Balance at 30 June 2019		311,437,245		34,953,095
Movement	-	-	-	-
Balance at 30 June 2020		311,437,245		34,953,095

<sup>1</sup> Share based payments have been made at fair value of services received for corporate advisory and geological services.

## (b) Accumulated losses

	2020 \$	2019 \$
Opening balance	(40,723,573)	(37,590,096)
Adjustment to opening balance (1)	-	1,445,819
Restated opening balance	(40,723,573)	(36,144,277)
Net loss attributable to owners of the Company	(1,319,217)	(4,579,296)
Balance at 30 June	(42,042,790)	(40,723,573)

As a result of the adoption of AASB 9, \$1,445,819 was reclassified from Accumulated Losses to the FVOCI Reserve (see Note 13(c)), reflecting impairment charges from prior financial periods recognised in Accumulated Losses in accordance with AASB 139.

## (c) Reserves

The following table shows a breakdown of the reserves and the movements in these reserves during the year. A description of the nature and purpose of each reserve is provided.

		2020	2019
	Note	\$	\$
Share based payments reserve			
Opening balance		8,681,110	8,672,604
Performance rights expense – directors and employees	14(b)	-	8,506
Balance at 30 June		8,681,110	8,681,110
Foreign currency translation reserve			
Opening balance		1,738	55,778
Currency translation differences arising during the year		107	(54,040)
Balance at 30 June		1,845	1,738

FOR THE YEAR ENDED 30 JUNE 2020

#### 13. ISSUED CAPITAL (continued)

	Note	2020 \$	2019 \$
Fair value through other comprehensive income reserve			
Opening balance		(937,168)	913,373
Adjustment to opening balance		-	(1,445,819)
Movement during the period	6	-	(404,722)
Balance at 30 June		(937,168)	(937,168)
Total reserves		7,745,787	7,745,680

#### Share based payments reserve

The share based payments reserve is used to recognise: (a) the grant date fair value of options issued but not exercised; (b) the grant date fair value of market based performance rights granted to directors, employees, consultants and vendors but not yet vested; and (c) the fair value non-market based performance rights granted to directors, employees, consultants and vendors but not yet vested.

#### Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entities are recognised in other comprehensive income as described in Note 28(d) and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

Fair value through other comprehensive income reserve

The group has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment.

## 14. SHARE-BASED PAYMENTS

Share-based payment transactions are recognised at fair value in accordance with AASB 2.

The total movement arising from share-based payment transactions recognised during the year were as follows:

		2020	2019
	Note	\$	\$
As part of share-based payment expense:			
Performance rights issued	14(b)	-	8,506
As part of administrative expense			
Shares issued	14(c)	-	35,000
		-	43,506

During the year the Group had the following share-based payments:

## (a) Share options

The Protean Energy Limited share options are used to reward Directors, Employees, Consultants, and Vendors for their performance and to align their remuneration with the creation of shareholder wealth through the performance requirements attached to the options. Options are granted at the discretion of the Board and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits.

FOR THE YEAR ENDED 30 JUNE 2020

## 14. SHARE-BASED PAYMENTS (continued)

The options are not listed and carry no dividend or voting right. Upon exercise, each option is convertible into one ordinary share to rank pari passu in all respects with the Company's existing fully paid ordinary shares.

Set out below are summaries of options granted:

	30 Ju 202		30 June 2019		
	Average exercise price per option	<b>G</b>		Number of options	
Opening balance	\$0.037	\$0.037 85,000,000		88,379,159	
Granted during the period	-		-	-	
Exercised during the period	-		-	-	
Lapsed during the period	-	-	\$1.79	3,379,159	
Closing balance	\$0.037	85,000,000	\$0.037	85,000,000	
Vested and exercisable	\$0.037 85,000,000		\$0.037	85,000,000	

				30 June 2020	30 June 2019
	Grant date	Expiry date	Exercise price	Number of options	Number of options
(i)	08-May-18 <sup>(1)</sup>	30-Jun-21	\$0.037	38,000,000	38,000,000
(ii)	08-May-18 <sup>(1)</sup>	30-Jun-21	\$0.037	47,000,000	47,000,000
				85,000,000	85,000,000
•	Weighted average remaining contractual life of options outstanding at the end of the year:		1.00 years	2.00 years	

<sup>1</sup> The securities were approved on the 8 May 2018 at the Company's General Meeting.

The fair value of option issued is measured by reference to the value of the goods or services received. The fair value of services received in return for share options granted to Directors and employees and consultants is measured by reference to the fair value of options granted. The fair value of services received by advisors couldn't be reliably measured and are therefore measured by reference to the fair value of the equity instruments granted. The estimate of the fair value of the services is measured based on a Black-Scholes option valuation methodology. The life of the options including early exercise options are built into the option model. The fair value of the options are expensed over the expected vesting period.

There were no options granted during the year or during the prior year. No expense has arisen from options during the reporting period (30 June 2019: nil).

## (b) Performance rights

There we no performance rights outstanding as at 30 June 2020 or 30 June 2019.

The total director, employee and consultant share performance rights expensed expense arising from performance rights recognised during the reporting period as part of share-based payment expense were as follows:

	2020 \$	2019 \$
Performance rights granted during prior periods	-	8,506
	-	8,506

FOR THE YEAR ENDED 30 JUNE 2020

## 14. SHARE-BASED PAYMENTS (continued)

## (c) Share capital to vendors

During the prior financial year:

- On 26 February 2019, 3,995,738 shares issued to CPS Capital Investments Pty Ltd in consideration for corporate advisory fees. The fair value of the shares recognised was by direct reference to the fair value of service received. This was determined by the corresponding invoice received which amounted to \$22,500 (excluding GST). This amount has been recognised in the Statement of Profit or Loss under administrative expense;
- On 26 February 2019, 312,500 shares were issued to The Tah Nean Chan Superannuation Fund in consideration for exploration services. The fair value of the shares recognised was by direct reference to the fair value of service received. This was determined by the corresponding invoice received which amounted to \$12,500. This amount has been recognised in the Statement of Profit or Loss under exploration expense.

## Significant accounting estimates, assumptions and judgements

Estimation of fair value of share-based payments

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using the Black-Scholes or Monte-Carlo model taking into account the assumptions detailed within this note.

Probability of vesting conditions being achieved

Inputs to pricing models may require an estimation of reasonable expectations about achievement of future vesting conditions. Vesting conditions must be satisfied for the counterparty to become entitled to receive cash, other assets or equity instruments of the entity, under a share-based payment arrangement.

Vesting conditions include service conditions, which require the other party to complete a specified period of service, and performance conditions, which require specified performance targets to be met (such as a specified Increase in the entity's profit over a specified period of time) or completion of performance hurdles.

The Company recognises an amount for the goods or services received during the vesting period based on the best available estimate of the number of equity instruments expected to vest and shall revise that estimate, if necessary, if subsequent information Indicates that the number of equity instruments expected to vest differs from previous estimates. On vesting date, the entity shall revise the estimate to equal the number of equity instruments that ultimately vested.

The achievement of future vesting conditions are reassessed each reporting period.

## 15. FINANCIAL AND CAPITAL RISK MANAGEMENT

#### Overview

The financial risks that arise during the normal course of the Group's operations comprise market risk, credit risk and liquidity risk. In managing financial risk, it is policy to seek a balance between the potential adverse effects of financial risks on financial performance and position, and the "upside" potential made possible by exposure to these risks and by taking into account the costs and expected benefits of the various risk management methods available to manage them.

General objectives, policies and processes

The Board is responsible for approving policies on risk oversight and management and ensuring management has developed and implemented effective risk management and internal control. The Board receives reports as required from the Managing Director in which they review the effectiveness of the processes implemented and the appropriateness of the objectives and policies it sets. The Board oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced.

FOR THE YEAR ENDED 30 JUNE 2020

## 15. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

These disclosures are not, nor are they intended to be an exhaustive list of risks to which the Group is exposed.

Financial Instruments

The Group has the following financial instruments:

	2020 \$	2019 \$
Financial assets		
Cash and cash equivalents	763,956	1,290,583
Trade and other receivables	11,065	36,252
	775,021	1,326,835
Financial liabilities		
Trade and other payables	151,645	106,580
	151,645	106,580

#### (a) Market Risk

Market risk can arise from the Group's use of interest-bearing financial instruments, foreign currency financial instruments and equity security instruments and exposure to commodity prices. It is a risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk), foreign exchange rate (currency risk), equity securities price risk (price risk) and fluctuations in commodity prices (commodity price risk).

## (i) Interest rate risk

The Board manages the Group's exposure to interest rate risk by regularly assessing exposure, taking into account funding requirements and selecting appropriate instruments to manage its exposure. As at the 30 June 2020, the Group has interest-bearing assets, being cash at bank (30 June 2019: cash at bank).

As such, the Group's income and operating cash flows is not highly dependent on material changes in market interest rates.

Sensitivity analysis

The Group does not consider this to be a material risk/exposure to the Group and have therefore not undertaken any further analysis.

The weighted average effective interest rate of funds on deposit is 0.27% (30 June 2019: 1.40%).

#### (ii) Currency risk

The Group operates in South Korea and maintains a corporate listing in Australia. As a result of various operating locations, the Group is exposed to foreign exchange risk arising from fluctuations, primarily in the Korean Won (KRW).

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Group manages risk by matching receipts and payments in the same currency and monitoring movements in exchange rates. The exposure to risks is measured using sensitivity analysis and cash flow forecasting.

The Group's had minimal exposure to foreign currency risk at year end (30 June 2019: none).

# (iii) Commodity price risk

As the Group has not yet entered into mineral or energy production, the risk exposure to changes in commodity price is not considered significant.

FOR THE YEAR ENDED 30 JUNE 2020

## 15. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

#### (b) Credit risk

Credit risk arises from cash and cash equivalents and deposits with financial institutions, as well as trade receivables. Credit risk is managed on a Group basis. For cash balances held with bank or financial institutions, only independently rated parties with a minimum rating of '-AA' are accepted.

The Board are of the opinion that the credit risk arising as a result of the concentration of the Group's assets is more than offset by the potential benefits gained.

The maximum exposure to credit risk at the reporting date is the carrying amount of the assets as summarised, none of which are impaired or past due.

## Exposure to credit risk

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk at the reporting date was:

	2020 \$	<b>2019</b> \$
Cash and cash equivalents	763,956	1,290,583
Other receivables	11,065	36,252
	775,021	1,326,835

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates.

	2020 \$	<b>2019</b> \$
Cash at bank and short-term deposits		
Held with Australian banks and financial institutions		
AA- S&P rating	763,856	1,290,485
A+ S&P rating	-	-
Unrated	100	98
Total	763,956	1,290,583

## (c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Through continuous monitoring of forecast and actual cash flows the Group manages liquidity risk by maintaining adequate reserves to meet future cash needs. The decision on how the Group will raise future capital will depend on market conditions existing at that time.

## Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

FOR THE YEAR ENDED 30 JUNE 2020

## 15. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

	Less than 6 months \$	6 - 12 months \$	1 - 5 years \$	Over 5 years \$	Total contractual cash flows \$	Carrying amount of liabilities \$
At 30 June 2020						
Trade and other payables	151,645	-	-	-	151,645	151,645
At 30 June 2019						
Trade and other payables	106,580	-	-	-	106,580	106,580

## (d) Capital risk management

The Group's objective when managing capital is to safeguard the ability to continue as a going concern. This is to provide returns for shareholders, benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Board monitors capital on an ad-hoc basis. No formal targets are in place for return on capital, or gearing ratios, as the Group has not derived any income from operations.

## 16. DIVIDENDS

No dividends have been declared or paid for the year ended 30 June 2020 (30 June 2019: nil).

#### 17. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This Note provides an overview of the areas that involved a higher degree of judgement or complexity and items which are more likely to be materially adjusted. Detailed information about each of these estimates and judgements is included in the Notes together with information about the basis of calculation for each affected line item in the financial statements.

## Significant accounting estimates and judgements

The areas involving significant estimates or judgements are:

- Recognition of deferred tax asset for carried forward tax losses Note 3;
- Classification of financial assets at fair value through other comprehensive income Note 6;
- Fair value of financial assets at fair value through other comprehensive income Note 6;
- Control assessment Note 7 and Note 8;
- Carrying value of interest in Joint Venture Note 8;
- Classification of financial assets at fair value through profit or loss Note 9;
- Probability of vesting conditions being achieved

   Note 14; and
- Estimation of fair value of share-based payments Note 14.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

There have been no actual adjustments this year as a result of an error and of changes to previous estimates.

FOR THE YEAR ENDED 30 JUNE 2020

#### 18. LOSS PER SHARE

	2020	2019
Basic and diluted loss per share		
Net loss after tax attributable to the members of the Company	\$ (1,319,217)	\$ (4,579,296)
Weighted average number of ordinary shares	311,437,245	309,449,874
Basic and diluted loss per share (cents)	(0.42)	(1.48)

#### 19. CHANGES IN ACCOUNTING POLICIES

This note explains the changes in the Group's accounting policies as a result of the adoption of AASB 16 Leases, the prior year financial statements did not have to be restated as a result.

#### (a) AASB 16 Leases ("AASB 16")

AASB 16 eliminates the operating and finance lease classifications for lessees currently accounted for under AASB 117 Leases. It instead requires an entity to bring most leases onto its Statement of Financial Position in a similar way to how existing finance leases are treated under AASB 117. An entity be required to recognise a lease liability and a fight of use asset in its Statement of Financial Position for most leases. There are some optional exemptions for leases with a period of 12 months or less and for low value leases.

Lessor accounting remains largely unchanged from AASB 117.

The entity has undertaken a detailed assessment of the impact of AASB 16 and the standard has not had a material impact on the transactions and balances recognised in the financial statements.

#### 20. COMMITMENTS

Significant capital expenditure contracted for at the end of the reporting period but not recognised as a liability is as follows:

	2020 \$	<b>2019</b> \$
Within one year	-	-
Later than one year but no later than five years	-	-
Later than five years	-	-
	-	-

# Korea Vanadium Limited

The Company also has an interest in vanadium and uranium exploration projects in Korea via a 50% ownership position in Korea Vanadium Limited. The Company executed formal joint venture documentation with DST for the sale of 50% of Korea Vanadium Limited. to DST (JV) on 28 July 2015. The joint funding of Stage 2 of the Korea Vanadium Ltd joint venture has been solely undertaken by the Group. The Group acknowledges that DST are to provide their share of the funding to the JV.

## KORID Energy Co. Ltd

Funding of the working capital for commercialisation and development activities will be funded on an ownership percentage. As at 30 June 2020 working capital had been funded on an equal basis.

FOR THE YEAR ENDED 30 JUNE 2020

#### 21. RELATED PARTY TRANSACTIONS

Transactions with related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

#### Key management personnel compensation

	2020 \$	2019 \$
Short-term employee benefits	194,150	459,830
Post-employment benefits	8,740	32,989
Termination	-	-
Long-term benefits	-	-
Share based payments	-	-
	202,890	492,819

Detailed remuneration disclosures are provided within the remuneration report.

# **Parent entity**

The ultimate parent entity and ultimate controlling party is Protean Energy Limited (incorporated in Australia).

#### **Subsidiaries**

Interests in subsidiaries are set out in Note 22.

#### Other transactions with related parties

At year end the Group owed \$18,150 to Dr Jaeho Hong, Director of Korea Vanadium Limited, a joint venture company of the Group, see Note 7, for ongoing operating expenditure of the joint venture (30 June 2019: nil).

#### 22. INTEREST IN OTHER ENTITIES

#### (a) Investments in controlled entities

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 28(a):

Name of entity	Country of incorporation	2020 Equity holding	2019 Equity holding
SK Energy Metals Pty Ltd <sup>(1)</sup>	Australia	100%	100%
Ginja Minerals Pty Ltd <sup>(2)</sup>	Australia	100%	100%
Protean Power Pty Ltd (3)	Australia	99.79%	99.79%
Protean Energy Australia Pty Ltd (4)	Australia	100%	100%

<sup>1</sup> Holding company of Korea Vanadium Limited.

# (b) Non-controlling interests

The Group did not have any material non-controlling interests during current financial year.

<sup>2</sup> Dormant subsidiary.

<sup>3</sup> Subsidiary acquired on 20 August 2015.

<sup>4</sup> Subsidiary acquired on 25 February 2016 and was the holder of the rights and trademarks to the Protean WEC Technology.

FOR THE YEAR ENDED 30 JUNE 2020

#### 23. CONTINGENCIES

The Group has no contingent assets or liabilities as at 30 June 2020 (30 June 2019: nil).

#### 24. EVENTS SUBSEQUENT TO END OF THE REPORTING PERIOD

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not impacted financially on the Company up to 30 June 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

There are no other events of a material nature or transaction, that have arisen since year end and the date of this report that has significantly affected, or may significantly affect, the Group's operations, the results of those operations, or its state of affairs.

#### 25. RECONCILATION OF LOSS AFTER INCOME TAX TO NET CASH INFLOW FROM OPERATING ACTIVITIES

	Note	2020 \$	2019 \$
Loss for the period		(1,319,217)	(4,579,296)
Add/(less) non-cash items:			
Depreciation and amortisation		13,768	13,942

# 26. REMUNERATION OF AUDITORS

The table shows the fees that were paid or payable for services provided by the auditor of the parent entity, its related parties and non-related audit firms, during the year.

From time to time the Consolidated Entity may decide to employ an external auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Consolidated Entity are important. These assignments are principally tax advice and due diligence on acquisitions, which are awarded on a competitive basis.

FOR THE YEAR ENDED 30 JUNE 2020

# 26. REMUNERATION OF AUDITORS (continued)

It is the Group's policy to seek competitive tenders for all major consulting projects. The Board is satisfied that the provision of non-audit services during the period is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

#### 27. PARENT ENTITY INFORMATION

The following information relates to the parent entity, Protean Energy Limited as at 30 June 2020. The information presented here has been prepared using consistent accounting policies as presented in Note 28.

# (a) Summary of financial information

The individual aggregate financial information for the parent entity is shown in the table.

# **(b)** Guarantees entered into by the parent entity The parent entity did not have any guarantees as at 30 June 2020 or 30 June 2019.

# (c) Contingent liabilities of the parent entity

The parent entity did not have any contingent liabilities as at 30 June 2020 or 30 June 2019.

# (d) Contractual commitments for the acquisition of property, plant and equipment

The parent entity did not have any contractual commitments for the acquisition of property, plant and equipment as at 30 June 2020 or 30 June 2019.

FOR THE YEAR ENDED 30 JUNE 2020

#### 28. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Protean Energy Limited (**Company** or **Protean**) is a company incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. Protean Energy Limited is the ultimate parent entity of the Group.

The consolidated financial statements of Protean Energy Limited for the year ended 30 June 2020 comprise the Company and its controlled subsidiaries (together referred to as the **Group** and individually as **Group entities**).

#### Statement of compliance

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Australian Accounting Group Interpretations and the *Corporations Act 2001*. Protean Energy Limited is a forprofit entity for the purpose of preparing the financial statements.

The consolidated financial statements of the Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

#### Historical cost convention

These financial statements have been prepared on an accruals basis and are based on historical costs and do not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

Critical accounting estimates and significant judgements

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires Management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed within Note 17.

New and amended standards adopted by the Group

The Group has adopted all of the new and revised Standards and Interpretations issued by the AASB that are relevant to their operations and effective for the current annual reporting period.

New and revised Standards and amendments thereof and Interpretations effective for the first time for the annual reporting period commencing 1 July 2019 that are relevant to the Group include:

- AASB 16 Leases
- AASB 2017-6 Amendments to Australian Accounting Standards — Prepayment Features with Negative Compensation
- AASB 2017-7 Amendments to Australian Accounting Standards — Long-term Interests in Associates and Joint Ventures

- AASB 2018-1 Amendments to Australian Accounting Standards — Annual Improvements 2015- 2017 cycle
- AASB 2018-2 Amendments to Australian Accounting Standards — Plan Amendment, Curtailment or Settlement
- Interpretation 23 Uncertainty over Income Tax Treatments.

The group had to change its accounting policies and make certain retrospective adjustments following the adoption of AASB 16. This is disclosed in Note 19. Most of the other amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

The adoption of all the new and revised Standards and Interpretations has not resulted in any changes to the Group's accounting policies and has no effect on the amounts reported for the current or prior years. However, the above standards have affected the disclosures in the notes to the financial statements.

New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2020 reporting periods and have not been early adopted by the group. The group's assessment of the impact of these new standards and interpretations is set out below. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

#### **Accounting policies**

In order to assist in the understanding of the financial statements, the following summary explains the principle accounting policies that have been adopted in the preparation of the financial report. These policies have been applied consistently to all of the periods presented, unless otherwise stated.

#### (a) Principles of Consolidation

**Subsidiaries** 

The consolidated financial statements incorporate the assets and liabilities of subsidiaries of the Company at the end of the reporting period. Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. Where a subsidiary has entered or left the Group during the year, the financial performance of those entities is included only for the period of the year that they were controlled. A list of subsidiaries is contained in Note 22 to the financial statements.

#### FOR THE YEAR ENDED 30 JUNE 2020

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated in full on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of financial position.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

#### Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit or loss, and the group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in Note 28(i).

#### Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Protean Energy Limited.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its

fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

#### (b) Going concern

During the year the consolidated entity incurred a net loss of \$1,319,217 (2019: \$4,579,297) and incurred net cash outflows from operating activities of \$526,627 (2019: \$1,684,776). The consolidated entity held cash assets at 30 June 2020 of \$763,956 (2019: \$1,290,583).

The ability of the consolidated entity to continue as a going concern is dependent on securing additional funding through equity and/or debt in order for the consolidated entity to continue to fund its operations.

These conditions indicate a material uncertainty that may cast a significant doubt about the consolidated entity's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Management believe there are sufficient funds to meet the consolidated entity's working capital requirements as at the date of this report.

The financial statements have been prepared on the basis that the consolidated entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- The joint funding of Stage 2 of the Korea Vanadium Ltd joint venture has been solely undertaken by the Group. The Group acknowledges that DST are to provide their share of the funding to the JV;
- management is in the process of evaluating the option to raise capital through either equity or debt.

Should the consolidated entity not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset

#### FOR THE YEAR ENDED 30 JUNE 2020

amounts or liabilities that might be necessary should the consolidated entity not continue as a going concern.

#### (c) Segment Reporting

Operating segments are reported in a manner that is consistent with the internal reporting to the chief operating decision maker, which has been identified by the company as the Board.

#### (d) Foreign currency translation

#### Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates ('the functional currency). The consolidated financial statements are presented in Australian dollars, which is Protean Energy Limited's functional and presentation currency.

#### Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency monetary assets and liabilities at the reporting date are translated at the exchange rate existing at reporting date. Exchange differences are recognised in profit or loss in the period in which they arise.

No dividends were paid or proposed during the year.

#### Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that Statement of Financial Position;
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange difference is reclassified to profit or loss, as part of the gain or loss on sale where applicable.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

#### (e) Revenue Recognition

Revenue is measured as the fair value of the consideration received or receivable. The Group recognises revenue when the amount of revenue can be reliably measured it is probable that future economic benefits will flow to the entity.

Revenue for other business activities is recognised on the following basis:

#### Interest income

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

#### (f) Income Tax and Other Taxes

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary

#### FOR THE YEAR ENDED 30 JUNE 2020

differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Protean Energy Limited and its wholly owned Australian controlled entities have implemented the tax consolidation legislation. As a consequence, these entities are taxed as a single entity and the deferred tax assets and liabilities of these entities are set off in the consolidated financial statements.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### (g) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flow arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

#### (h) Exploration and evaluation expenditure

The Group expenses exploration and evaluation expenditure as incurred in respect of each identifiable area of interest until a time where an asset is in development.

Exploration and Evaluation expenditure

Exploration for and evaluation of mineral resources is the search for mineral resources after the entity has obtained legal rights to explore in a specific area as well as the determination of the technical feasibility and commercial viability of extracting mineral resource.

Exploration and evaluation expenditure is expensed to the profit or loss as incurred except when existence of a commercially viable oil and/or gas reserve has been established and it is anticipated that future economic benefits are more likely than not to be generated as a result of the expenditure.

#### (i) Impairment of Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's values in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash generating unit to which it belongs.

When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

As assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had the impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at the revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

#### (j) Cash and Cash Equivalents

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand, cash in bank accounts, money market investments readily convertible to cash within two

#### FOR THE YEAR ENDED 30 JUNE 2020

working days, and bank bills but net of outstanding bank overdrafts.

#### (k) Trade and Other Receivables

Receivables are initially recognised at fair value and subsequently measured at amortised cost, less loss allowances. Current receivables for GST are due for settlement within 30 days and other current receivables within 12 months.

#### (I) Investments and Other Financial Assets

From 1 July 2018 the Group classifies its financial assets in the following categories:

- those to be measure subsequently at fair value (either through OCI or through profit or loss); and
- those to be measure at amortised cost.

For investments in equity instruments that are not held for trading, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

#### Investments in equity instruments

The group subsequently measures all equity investments at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Accounting policies applied prior to 1 July 2018

#### Available for sale financial assets

Available for sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available for sale if they do not have fixed maturities and fixed or determinable payments and management intends to old them for the medium to long term.

#### (i) Recognition and de-recognition

Investments are initially recognised at fair value plus transactions costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have

been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available for sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss as gains and losses from investment securities.

#### (ii) Subsequent measurement

Loans and receivables are carried at amortised cost using the effective interest method.

Available for sale financial assets are subsequently carried at fair value.

#### (iii) Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or Group of financial assets is impaired. A financial asset or a Group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

#### Loans and receivables

Loans and receivables are non-derivate financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the statement of financial position date which are classified as non-current assets. Loans and receivable are included in trade and other receivables in the statement of financial position.

#### (m) Property, Plant and Equipment

Plant and equipment is stated at historical cost less accumulated depreciation and any impairment in value. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

FOR THE YEAR ENDED 30 JUNE 2020

#### (n) Acquisition of assets

Where an entity or operation is acquired, the identifiable assets acquired (and, where applicable, identifiable liabilities assumed) are to be measured at the acquisition date at their relative fair values of the purchase consideration.

Where the acquisition is a group of assets or net assets, the cost of acquisition will be apportioned to the individual assets acquired (and, where applicable, liabilities assumed). Where a group of assets acquired does not form an entity or operation, the cost of acquisition is apportioned to each asset in proportion to the fair values of the assets as at the acquisition date.

#### (o) Share-Based Payment Transactions

Benefits to Employees and consultants (including Directors)

The Group provides benefits to employees and consultants (including directors) of the Group in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares or options ("equity-settled transactions").

The costs of these equity settled transactions are measured by reference to the fair value of the equity instruments at the date on which they are granted. The fair value of performance rights granted is determined using the single barrier share option pricing model. The fair value of options granted is determined by using the Black-Scholes option pricing technique. Further details of options and performance rights granted are disclosed in Note 14(c).

The cost of these equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled (the vesting period).

At each subsequent reporting date until vesting, the cumulative charge to the profit or loss is the product of: (i) the fair value at grant date of the award; (ii) the current best estimate of the number of equity instruments that will vest, taking into account such factors as the likelihood of employee turnover during the vesting period and the likelihood of non-market performance conditions being met; and (iii) the expired portion of the vesting period.

The charge to the profit or loss for the period is the cumulative amount as calculated above less the amounts already charged in previous periods. There is a corresponding credit to equity.

Until an equity instrument has vested, any amounts recorded are contingent and will be adjusted if more or fewer equity instruments vest than were originally anticipated to do so. Any equity instrument subject to a market condition is valued as if it will vest irrespective of whether or not that market condition is fulfilled, provided that all other conditions are satisfied.

If the terms of an equity-settled award are modified, as a minimum, an expense is recognised as if the terms had not been modified. An additional expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the recipient of the award, as measured at the date of modification.

If an equity-settled transaction is cancelled (other than a grant cancelled by forfeiture when the vesting conditions are not satisfied), it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new equity instrument is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new equity instrument are treated as if they were a modification of the original award, as described in the preceding paragraph.

#### Benefits to Vendors

The Group provides benefits to vendors of the Group in the form of share-based payment transactions, whereby the vendor has render services in exchange for shares or rights over shares or options ("equity-settled transactions").

The fair value is measured by reference to the value of the goods or services received. If these cannot be reliably measured, then by reference to the fair value of the equity instruments granted.

The cost of these equity-settled transactions is recognised over the period in which the service was received.

#### (p) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The carrying value less impairment provision of trade receivables and payables are assumed to approximately their fair value due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

# (q) Employee Entitlements

The Group's liability for employee entitlements arising from services rendered by employees to reporting date is recognised in other payables. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries, and annual leave which will be settled within one year, have been measured at their nominal amount and include related on-costs.

#### (r) Loss per share

Basic loss per share

Basic earnings per share is determined by dividing the operating loss attributable to the equity holder of the Group after income tax by the weighted average number of ordinary shares outstanding during the financial year.

# **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FOR THE YEAR ENDED 30 JUNE 2020

#### Diluted earnings per share

Diluted earnings per share adjusts the figures used in determination of basic earnings per share by taking into account amounts unpaid on ordinary shares and any reduction in earnings per share that will arise from the exercise of options outstanding during the year.

#### (s) Trade and other payables

Trade payables and other payables are carried at cost and represent liabilities for goods and services provided to the Group prior to the end of the financial period that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and usually paid within 30 days of recognition.

# (t) Contributed equity

Issued and paid up capital is recognised at the fair value of the consideration received by the Group. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

#### (u) Dividends

No dividends were paid or proposed during the year.

# (v) Parent entity financial information

The financial information for the parent entity, Protean Energy Limited, disclosed in Note 27 has been prepared on the same basis as the consolidated financial statements except as set out below:

Investments in subsidiaries

Investments in subsidiaries are accounted for at cost and subject to an annual impairment review.

#### **DIRECTORS' DECLARATION**

The Directors of the Group declare that:

- 1. The financial statements, comprising the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity and accompanying notes, are in accordance with the *Corporations Act 2001* and:
  - (a) comply with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (b) give a true and fair view of the financial position as at 30 June 2020 and of the performance for the year ended on that date of the consolidated entity.
- 2. In the Directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.
- 3. The Group has included in the notes to the financial statements and explicit an unreserved statement of compliance with International Financial Reporting Standards.
- 4. The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

#### INDEPENDENT AUDITOR'S REPORT

To the members of Protean Energy Limited

# Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Protean Energy Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss, the consolidated statement of other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Material uncertainty related to going concern

We draw attention to Note 28(b) in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

# Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material uncertainty related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

# Carrying value of investment in joint venture

# Key audit matter

As disclosed in note 8 of the financial report, the carrying value of the investment in joint venture has represented a significant asset of the Group. The asset was impaired to \$nil during the year.

Given the underlying assets held by the investment in joint venture relate to exploration and evaluation assets, management have undertaken a review of impairment indicators in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources (AASB 6). A trigger for impairment was identified which resulted in the Group recognising an impairment charge as disclosed in note 8.

The Group's policy for accounting for the investment in joint venture and significant judgements applied in the determination of the assets carrying value are disclosed in notes 8 and 28(i) of the financial report.

Due to the quantum of this asset and the subjectivity involved in determining whether its carrying value will be recovered through successful development or sale of its investment, we have determined this to be a key audit matter.

How the matter was addressed in our audit

Our procedures in respect of this area included, but were not limited to, the following:

- Holding discussions with management to obtain an understanding of the process they undertook in determining a trigger for impairment was present;
- Assessing the basis for determining the recoverable value of the investment; and
- Assessing the adequacy of the related disclosures in Note 8 and Note 28(i) and to the financial report.

#### Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2020, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

http://www.auasb.gov.au/auditors\_responsibilities/ar1.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 13 of the directors' report for the year ended 30 June 2020.

In our opinion, the Remuneration Report of Protean Energy Limited, for the year ended 30 June 2020, complies with section 300A of the Corporations Act 2001.

# Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

BDO Audit (WA) Pty Ltd

Jarrad Prue

Director

Perth, 28 August 2020
