This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 December 2019 and any public announcements made by Manas Resources Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

DIRECTORS' REPORT

Your directors submit the financial report of Manas Resources Limited ("Manas" or the "Company") for the half-year ended 30 June 2020. The directors report as follows:

Directors

The names of directors who held office during or since the end of the half-year and until the date of this report are noted below. Directors were in office for this entire period unless otherwise stated.

Alan Campbell Non-Executive Chairman
David Kelly Non-Executive Director

Susmit Shah Non-Executive Director and Company Secretary

Results

The loss for the half-year after tax was \$130,062 (six months ended 30 June 2019: \$371,343). The reduced loss for the half-year is primarily due to foreign exchange gains from a slightly stronger US dollar over the reporting period, a reduction in share based payments and a reduction in corporate and administration expenditure in response to the COVID-19 pandemic.

Review of Operations for the Half-Year

There has been continuing progress in Côte d'Ivoire, West Africa, with positive exploration results at the Mbengué Gold Project ("MGP") and the Eburnea Gold Project ("EGP") and the staking of the Tortiya Gold Project ("TGP") permits.

Review of Operations for the Half-Year – continued

MBENGUÉ GOLD PROJECT ("MGP")

The MGP covers 647km² and is located in the highly prospective Senoufo greenstone belt (Figure 1) of northern Côte d'Ivoire in close proximity to some of the region's largest mines. The Company is earning a 70% interest in the ~300km² Mbengué permit from Occidental Gold SARL (a 100% subsidiary of Perseus Mining Limited) through sole-funding exploration. In January 2020 the Company's 100%-owned Ivorian subsidiary was granted a new licence immediately adjacent to PR272. The new licence, called Dielle (PR0857), covers 347km².

The Company previously conducted a regional soil sampling programme over the Mbengué permit (PR272), discovering multiple gold-in-soil anomalies to 9km long which were later tested by aircore drilling (ASX release 21 August 2019). Anomalies are within 10km of Barrick's Tongon mine plant. In February 2020 the Company completed a gradient array induced polarisation ("IP") survey over a NE-SW oriented grid covering ~23km² – the "Main Grid" or "Tongon Shear Zone" (TSZ) Grid – refer to Figure 2. Six anomalies having strike lengths over 1km, with a maximum of 6km, were identified.

An auger drilling programme was initiated to test the IP targets and a total of 1,000m were drilled (of 4,000m planned) at the LVP Grid (refer to Fig 3) before works were suspended in late March 2020 due to the Covid-19 pandemic. On 23 April 2020, the Company announced results from this curtailed 1,000m program. Two mineralised zones >1.5km long were defined, with best assays including 2m @ 23.6g/t Au, 2m @ 9.1g/t Au and 2m @ 6.7g/t Au.

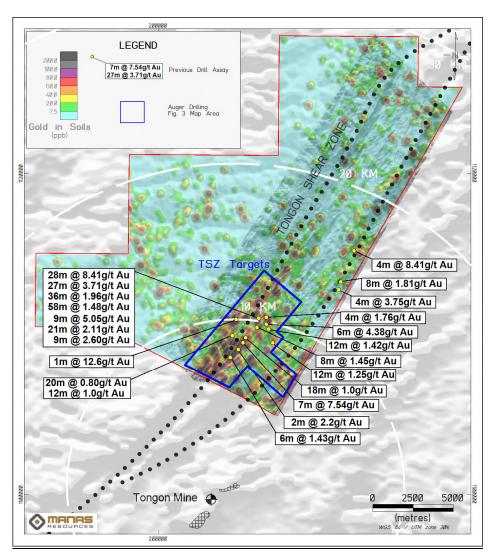

Figure 2: Mbengué Permit: regional soil geochemistry results showing distance from Tongon Mine in relation to drill results and the TSZ IP survey grid.

Review of Operations for the Half-Year - continued

Auger drilling activities resumed in May and finished in June. A total of 4,400m of widely spaced drilling (300m – 500m line spacing with 50m station spacing) was conducted in 735 holes. Final results were reported on 24 July 2020. A total of 7 large scale (strike length >600m) targets were identified – refer to Figure 3. Zones have been prioritised for follow-up RC drilling once the wet season ends.

In order to reduce costs and maximise exploration efficiency, Manas purchased its own power auger / hammer core (SPT) drill rig during the Half Year and commenced drilling with this machine at the MGP in August 2020.

At the Dielle permit (PR857), a soil sampling survey covering the whole of the licence area was completed and results were reported on 14 May 2020. Anomalies up to 16-km long with a peak of over 2g/t Au associated with large-scale regional shear zones were identified. Follow up activities commenced immediately and consisted of an IP survey to better define the source of gold mineralisation. An IP survey was conducted on a 25km² grid and a large coincident IP-gold-in-soil anomaly, the Mbengué shear zone target ("MSZ"), was announced following the end of the reporting period (refer to ASX release dated 13 July 2020).

Manas intends follow-up on these newly discovered anomalies at Dielle using regional auger drilling. This work, using the Company's own drill rig, will begin in September with the aim being to identify suitable targets for RC drilling later in the year.

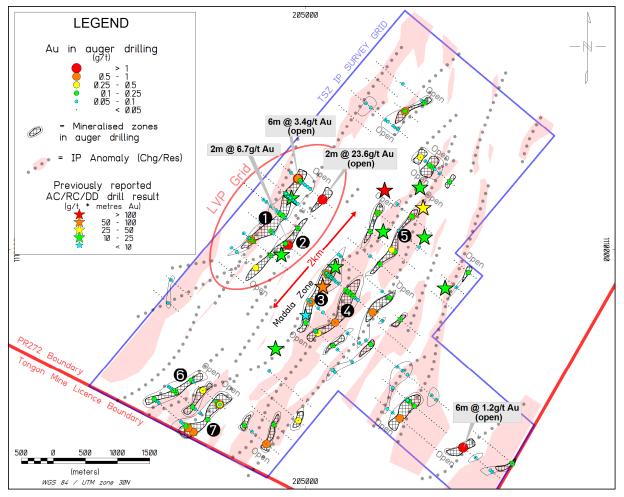

Figure 3: Mbengué Permit: IP maximum chargeability results with 7 large scale targets identified - Main Grid location plus previous surveys.

Review of Operations for the Half-Year - continued

EBURNEA GOLD PROJECT (EGP)

Manas has an 80% interest in the newly granted Bouake North permit, PR575 (ASX release dated 11 March 2020) which covers 385km² and is ~20km south of the Fetekro discovery of Endeavour Mining Corp. During the reporting period, the Company covered the whole of the Bouake North licence with a regional soil sampling programme to identify prospective targets for follow-up geophysical and detailed geochemical surveys. Results were reported on 4 August 2020. A total of 1,600 sites were sampled and samples were analysed by multi-element ICP.

Five large gold-in-soil anomalies with strike lengths up to 6km were identified. The newly discovered anomalies have a $Au \pm Ag \pm Bi \pm Cu \pm Fe \pm Mo$ geochemical association. All the anomalies are closely associated with volcanic units and intermediate intrusive bodies. One of the anomalies has a small area of artisanal mining at its SE extremity. Further exploration work is planned once the seasonal rains finish around October.

TORTIYA GOLD PROJECT (TGP)

Manas has applied for two licences covering 780km² over a 40km long shear zone in the central northern portion of the country. The TGP covers a large (>40km strike length) magnetic anomaly west of the town of Tortiya. Magnetic interpretation indicates that the greenstone belt rocks are more extensive than previously mapped. Throughout the Birimian of West Africa, major shear zones are conduits for hydrothermal fluid focus in the shears and surrounding rocks and are often associated with major gold deposits – e.g. the granitoid-hosted Ahafo mine in neighbouring Ghana (~13Moz Au) operated by Newmont Mining. There is no record of historical gold exploration in the TGP area but outcrop is rare and the shear zone is a postulated source of known alluvial gold occurrences to the NE and SE. Regional geochemical surveys are planned once the permits are granted.

Competent Person's Statement

The scientific and technical information contained within this Report is based on, and fairly represents information prepared by Mr. Christopher MacKenzie, a Competent Person who is a Chartered Geologist and a Fellow of The Geological Society of London.

Mr. MacKenzie is the Chief Executive Officer of Manas Resources Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr MacKenzie consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

The technical and financial information in this report that relates to the MGP has been previously reported by the Company in compliance with JORC 2012 in various releases between 8 August 2018 and 24 July 2020. The technical and financial information in this report that relates to the EGP has been previously reported by the Company in compliance with JORC 2012 in various releases between 23 January 2018 and 4 August 2020. The technical and financial information in this report that relates to the TGP has been previously reported by the Company in compliance with JORC 2012 on 7 May 2020. The Company confirms that it is not aware of any new information or data that materially affects the information included in these earlier market announcements.

Auditor's Independence Declaration

Section 307C of the *Corporations Act 2001* requires the auditors, HLB Mann Judd, to provide the directors of the Company with an Independence Declaration in relation to the review of the interim financial report. This Independence Declaration is set out on the following page and forms part of this directors' report for the half-year ended 30 June 2020.

This report is signed in accordance with a resolution of the Board of Directors made pursuant to s.306(3) of the *Corporations Act 2001*.

Alan Campbell

Non-Executive Chairman Perth, 9 September 2020

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the review of the consolidated financial report of Manas Resources Limited for the half-year ended 30 June 2020, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the Corporations Act 2001 in relation to the review;
 and
- b) any applicable code of professional conduct in relation to the review.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The interim financial report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This condensed interim report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 31 December 2019 and any public announcements made by Manas Resources Limited during the half-year and up to the date of this report in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

Basis of preparation

The interim report has been prepared on a historical cost basis. Cost is based on the fair value of the consideration given in exchange for assets. The Company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim report, the half-year has been treated as a discrete reporting period.

Going Concern

The interim financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlements of liabilities in the ordinary course of business. At balance date, the Group had a working capital surplus of \$6,369,612. The Board of the Group considers that based on its assessment of cash flow that it is appropriate to prepare the financial statements on a going concern basis.

Significant accounting judgments and key estimates

The preparation of interim financial reports requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the company financial report for the year ended 31 December 2019.

Standards and Interpretations

The accounting policies and methods of computation adopted in the preparation of the interim financial report are consistent with those disclosed in the Group's 2019 annual financial report for the financial year ended 31 December 2019, except for the following:

New and amended standards adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. There was no material impact from adopting the new or amended Accounting Standards and Interpretations.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Manas Resources Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Manas Resources Limited ("the company") which comprises the condensed consolidated statement of financial position as at 30 June 2020, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory notes, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Manas Resources Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
