Notes:

- The Company notes that the Prospectus refers to proposed expenditure on ELA 7324 and ELA 7325 (**Tenement Applications**). The proposed budgets for each tenement (including the Tenement Applications) are specified on page 85 of the Prospectus. For the purposes of complying with Listing Rule 1.3.2, the amounts committed to the Tenement Applications have been excluded due to the fact that these Tenement Applications have not yet been granted. Further, the Company has reviewed its proposed expenditure commitments and has determined to re-allocate \$1,000,000 previously committed to the Tenement Applications and instead commit this expenditure to EL 5443 (which is a tenement held by the Company and is a high priority target within the Company's exploration program). This re-allocation represents a decrease of \$250,000 per year across each of the Tenement Applications (each proposed expenditure item for those Tenement Applications are to be reduced on a pro rata basis). As such, the Company's revised two-year proposed exploration budget will be as set out below:

Licence	Name	Year 1	Year 2	Total*
RL 7051	WILDWOOD	\$912,200	\$1,760,674	\$2,672,874

TOTAL*		\$7,172,263	\$8,020,737	\$15,193,000

* some figures have been rounded.

- These are operating expenses that are non-administrative in nature and are directly linked to the Company's proposed exploration programme. These are items such as vehicles, field equipment (including computers and software), and core yard equipment.

As set out above, in accordance with Section 2.4 on Page 27 of the Prospectus, the Company's objectives are as follows:

- (a) fund NSM's expenditure commitments and operating costs in relation to exploration costs on its tenements;
- (b) meet NSM's general working capital requirements, including potential new acquisitions;
- (c) meet NSM's corporate overhead and administrative costs; and
- (d) pay the costs of the Offer.

The above table (and accompanying notes) is a statement of the Company's current intentions. Investors should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including operational and development activities, regulatory developments, and market and general economic conditions. In light of this, the Board reserves its right to alter the way the funds are applied.

5. Tenements

The Company confirms:

- (a) that there are no legal, regulatory, statutory or contractual impediments to NSM entering RL 7051, EL 5443, EL 6156 (and, subject to their grant, ELA 7324 and ELA 7325) and carrying out exploration activities such that NSM will be able to spend its cash in accordance with its commitments for the purposes of Listing Rule 1.3.2(b).
- (b) all conditions precedent to the Glenorchy Agreement have been satisfied.

The Company notes that ELA 7324 and ELA 7325 have not yet been granted (and there is no guarantee that they will be granted). Accordingly, NSM is not currently able to enter these application areas to carry out exploration activities or spend its cash on these applications until such time as the tenements are granted.

6. ASX Waiver

The Company has received from ASX a waiver from Listing Rule 1.1 Condition 12 to the extent necessary to permit NSM to have on issues 1,942,000 performance rights with a nil exercise price on condition that the material terms and conditions of the performance rights are clearly disclosed in the Prospectus.
