COMPANY PROFILE

Rey Resources Limited (“Rey” or “Company”) is an ASX-listed company (ASX: REY) focused on exploring and developing energy resources in Western Australia’s Canning Basin.

Rey holds 100% interest in (and is Operator of) EP487 (the “Derby Block”) and 40% interest in two prospective Canning Basin petroleum exploration permits - EP457 and EP458 (the “Fitzroy Blocks”). Rey also holds 100% interest in EP104, Retention Licence R1 and Production Licence L15 (together the “Lennard Shelf Blocks”).

Rey has participated and completed a series of exploration works on these permits, including two deep conventional oil wells in Canning Basin, more than 100km of new seismic line acquisition, 2300+km vintage seismic line reprocessing and multiple regional geology studies. Rey has planned integrated exploration activity for future Canning Basin development.

Rey also holds coal tenements in the Canning Basin, some contiguous with the Fitzroy Blocks, including those hosting the major Duchess Paradise Coal Project.

Rey has an experienced Board and management team and is committed to continue developing its energy assets to deliver maximum value to its shareholders.

CHAIRMAN'S MESSAGE

Dear Shareholders,

It is my pleasure to deliver Rey's Annual Report for the year ended 30 June 2020. We continually focus on maximising the value of our coal and oil and gas exploration projects in the Canning Basin in Western Australia during the year.

During the first half of the financial year ended 30 June 2020, we were positively seeking appropriate method to achieve reproduction in a low production costs from West Kora-1 in L15 as well as reviewing its commercial value especially after termination of the farmout agreement with Doriemus in Feb 2020 due to its failing to spend agreed expenditure in the project. We also completed most of the site cleaning work for West Kora except for one tank with oil and oily water. All other development works planned for EP487 and R1 were also in progress.

However, due to COVID-19 Rey slowed down the progress of all planned works since early 2020 aiming at keeping all staff in good healthy standing and to help stopping community spreading of the virus.

During the year, as a strategical consideration of maintaining good relationships with traditional owners and focusing on current proposed mining area development, we surrendered one tenement of Duchess Paradise Project which is not included in the current Mining Lease Application. The surrender will have no effect to the completed stage 1 Definitive Feasibility Study update.

I would like to thank all shareholders for their support and understanding. I also thank our staff and management team for their work over the past year and look forward to the next exciting year.

Min Yang
Non-executive Chairman

BUSINESS PERFORMANCE AND OUTLOOK

OIL & GAS

1. Canning Basin – the Fitzroy Blocks (EP457 and EP458)

1.1 Background

Equity interests in the Fitzroy Blocks (EP457 and EP458) are currently:

Rey (Rey Oil & Gas Pty Ltd)	40%	(including 6.66% free carried to production)
Buru	60%	(Operator)

Rey holds a total 40% participating interest in the two blocks, but only has a 33.336% funding obligation until commercial production. This is due to a Funding Agreement whereby Buru Energy Ltd free carries 6.664% of Rey's 40% participating interest.

The Fitzroy Blocks (comprising a combined area in excess of 5,000 kilometres²) are located over parts of the southern flank of the Fitzroy Graben. The Fitzroy Blocks straddle three major trends:

- the Ungani conventional oil trend (“Ungani Trend”);
- the Laurel Basin-Centred Gas Accumulation, conventional and unconventional gas; and
- the Goldwyer oil and gas unconventional shale.

The Ungani Trend includes identified leads and prospects in an area of prospectivity of at least 120 kilometres by 40 kilometres (over one million acres or 4,800 kilometre²). This extends diagonally, north-west to south-east, across the Fitzroy Blocks. The conventional dolomite reservoir oil discovery by Buru in 2011 at Ungani (located 15 kilometres north-west of EP457) on the trend running through the Fitzroy Blocks is a significant regional discovery event. Commercial production was established by Buru at Ungani in mid-2015.

Although Prospective (recoverable) Resources of the Laurel Formation within the Fitzroy Blocks have not been assessed by drilling to date, the formation extends across part of the Fitzroy Blocks. A wet gas accumulation has been identified immediately east of the Fitzroy Blocks which has the characteristics of a Basin-Centred Gas Accumulation.

The Goldwyer Shale Formation is characterised as a thick, regionally extensive organic rich “Bakken” shale analogue. The play type is regarded as highly prospective and clearly extends across part of the Fitzroy Blocks, although is believed to be at considerable depth.

1.2 Work program during the year

After the left of Frack Ban, the government announced in July 2019 that the implementation of Government’s response to the Independent Scientific Panel Inquiry into Hydraulic Fracture Stimulation in Western Australia has commenced and is continuing and will have decisions be made by end of 2020. The operator, Buru Energy, lodged the 12 months suspension and extension application to Department of Mines, Industry Regulation and Safety (“DMIRS”) on 17 March 2020 for EP457 and EP458 in consideration of the uncertainty of implementation in future. The application was approved on 19 April 2020.

During the year, Buru discussed a new budget with Rey to cover the proposed 500km 2D seismic reprocessing and general geology studies. The new budget has been approved by Rey.

Rey also build a new strategic relationship with Buru for the farmout of future drilling and seismic work in Fitzroy Block. However, the farmout progress was delayed due to the current health crisis.

2. Canning Basin - the Derby Block (EP487)

2.1 Background

The Derby Block (EP487) is a large petroleum exploration permit of approximately 5,000 kilometre². It occurs to the north-west of Rey's interests in the Fitzroy Blocks. The Derby Block is considered to be predominantly a Wet Laurel Basin Centred Gas play ("BCG") which is regionally extensive throughout the Canning Basin and has been the subject of exploration in the Canning Basin by other parties in 2015, resulting in encouraging flow tests by Buru Energy at Valhalla and Asgard (please refer various BRU ASX releases including releases dated 20 January 2016 and 18 April 2016).

Rey is holding 100% of the equity interest in the Derby Block through the following subsidiaries:

Rey Lennard Shelf Pty Ltd	50%
Rey Derby Block Pty Ltd	50%

2.2 Work program during the year

Following the letter received from DMIRS about suggestion of EP487 commitment work changes on 9 August 2019, a formal 12-month suspension and extension application was lodged to DMIRS in September 2019 to reflect the suggestions. On 13 November 2019, an approval letter was received to suspend and extend the current permit year to December 2020.

During the financial year, Rey is preparing the pre-drilling work for the commitment well. However, due to the travel ban caused by COVID-19, the preparation was delayed and Rey expects the drilling work will not be completed before the due date. Therefore, a notice letter regarding COVID-19 impact on drilling has been prepared in July 2020 and submitted to DMIRS. The impact should meet the force majeure ground for permit suspension and extension and Rey prepares to lodge a formal application in September 2020.

3. Lennard Shelf Blocks – EP104, R1 and L15

3.1 Background

Rey holds 100% interest in the Lennard Shelf Blocks which comprises EP104, a Retention Lease (R1) and one Production License (L15). The Lennard Shelf Blocks are situated north of Rey's existing interests in the Canning Basin petroleum exploration license EP487 and covering a total area of approximately 1,145 km² and considered prospective for conventional oil and tight gas.

3.2 Work Program during the year

In February 2020, Rey terminated the Farmout Agreement with Doriemus for L15 due to its failing to spend the agreed expenditure in West Kora-1. Rey is positively seeking appropriate method to achieve the reproduction from West Kora-1 with low production costs. However, this has been delayed due to the current pandemic issue.

In October 2019, a work variation and suspension application was lodged with DMIRS to change the committed geochemical survey from cover the whole area with large distance of each sampling point to reasonable density that focus on the identified Anderson trap. The application was approved by DMIRS on 23 June 2020. The work was completed on 22 August 2020. The sampling will be delivered to laboratory for analysis soon. Rey also completed a geotechnical study and engineering study for the Point Tornment-1 in R1. A simulation and commercial study is planned to be carried out very soon to value the contingency gas resources in Point Tornment-1 before due date in October 2020.

Rey lodged a formal suspension and extension letter to DMIRS for EP104 to reflect their commitment work revision suggestions on 9 August 2019. The application was approved on 13 November 2019 that no works is required in permit year 3 and year 5.

COAL

The Duchess Paradise Coal Project (“Duchess Paradise Project”) is a proposed bituminous thermal coal operation of up to 2.5 million tonnes per annum in the Canning Basin, north Western Australia. A Definitive Feasibility Study (“DFS”) of the Project was completed in June 2011.

After about one year negotiation, Rey entered into an Access Deed with Hancock Prospecting on 8 November 2019 for the Mining Licence Application. With the execution of the Access Deed, all objectors of the Mining Lease Application have been removed. An official notice letter has been sent to Warden’s Court and this is under assessment by Karratha Mining Registrar for recommendation. Rey also have been contacted by DMIRS in February 2020 to follow up the negotiation with Native Title. By the date of this annual report, Rey has re-started the negotiation process with Nyikina Mangala people.

During the reporting period, Rey surrendered one tenement, E04/1386, of Duchess Paradise Project in June 2020. The surrender will provide Rey more flexibility to negotiate a heritage protection agreement with Native title as well as allow Rey to focus more on the development within Mining Licence Application area. E04/1386 located at south east corner of M04/453 application with total area of 16.27km². Minor of current inferred resources of Duchess Paradise Project extended in to this tenement.

CORPORATE

On 17 July 2019, the Company entered into a third loan agreement with Wanyan Liu (“Liu”), pursuant to which a further loan facility of up to \$3 million (“Third Liu Loan) has been granted by Liu. The Third Liu Loan will mature on 31 December 2021 with interest accruing at the rate of 12% per annum.

On 31 December 2019, the Company agreed with ASF Group Limited (“ASF”) to reduce the facility amount for the \$3.8 million loan facility (“ASF Loan”) to \$2 million and to extend the maturity date of the ASF Loan to 31 March 2020. The maturity date of the ASF Loan was further extended to 31 October 2021 prior to the end of the financial year.

The Company also announced on 25 June 2020 that Liu agreed to increase the second loan facility granted in April 2019 from \$3 million to \$5 million (“Second Liu Loan”) and to extend the maturity date of the Second Liu Loan from 31 December 2020 to 31 October 2021.

As at the balance sheet date, the Company had a total of \$3.74 million remaining loan facilities available for draw down, which represents \$3.28 million available under Second Liu Loan and Third Liu Loan and \$0.46 million available under ASF Loan.

Subsequent after the financial year end on 8 July 2020, the Company announced the extension of the on-market buyback program for a further 12 months from 23 July 2020. During the year ended 30 June 2020, a total of 28,000 shares were bought back at a cost of \$7,880.

ANNUAL RESERVES AND RESOURCES STATEMENT

Mineral Resources and Ore Reserves Comparison

The Company reviews its coal Mineral Resources and Ore Reserves at least annually in accordance with ASX Listing Rule 5.21. The date of reporting is 30 June each year to coincide with the release of the Company's Annual Report. If there are any material changes to its coal Mineral Resources and/or Ore Reserves over the course of the year, the Company is required to promptly report these changes as they occur.

Rey surrendered the tenement of E04/1386 during the reporting period which may affect the inferred JORC resources of Duchess Paradise P1-seam that was first reported to ASX on 28 October 2014 (at which time the Mineral Resources were updated in accordance with JORC 2012 and found not to have materially changed since reported in accordance with JORC 2004 on 6 April 2011 and 6 June 2011 respectively). The Company is reviewing the effects on surrendered tenement to JORC resources with a third party. An updated JORC resources in accordance with JORC 2012 is expected to be reported to ASX once the assessment work is completed.

As announced on 20 September 2017, the Company withdrew its Ore Reserves for the Duchess Paradise P1-seam, as first reported in 2011. During the year the Company continued to progress a review with a focus on updating the economic and financial model as well as consider the effects on the surrendered tenement.

As a result, the Company is not in a position to report the outcome of its annual review of Ore Resources and Reserves in this Annual Report.

Oil and Gas Resources and Reserves

The Company reviews its Oil and Gas Reserves and Contingent Resources at least annually in accordance with ASX Listing Rule 5.39 and 5.40. The date of reporting is 30 June each year to coincide with the release of its Annual Report. If there are any material changes to its Oil and Gas Reserves and Contingent Resources over the course of the year, the Company is required to promptly report these changes as they occur.

EP487 (Derby Block)

An estimate of the gross Prospective Potential Recoverable Resource estimate (Tcf gas recoverable) of the BCG play in the Derby Block (onshore portion) was provided by independent consultant 3D Geo in June 2017. The Company's 100% interest in these Prospective Potential Recoverable Resources (unrisked, probabilistic estimate) of the Derby Block BCG play is provided in Table 2 below.

Prospective Potential Recoverable Resources SPE PRMS (2011) ³				
		P90 ¹	P50 ¹	P10 ²
Gas in place	Tcf ¹	68.0	169.6	412.9
Recoverable Gas	Tcf ¹	9.4	28.4	81.1
Recoverable Condensate	MMbbl ²	239	707	2,066
Recoverable BOE	MMBOE ⁴	1,852	5,283	15,096

Table 2: Rey Resources' 100% attributable interest in the gross Prospective Potential Recoverable Resources estimate of the Laurel BCG in EP487 (estimate prepared by 3D-GEO June 2017).

¹ Tcf- trillion cubic feet.

² MMbbl- million barrels.

³ SPE PRMS (2011) - Society of Petroleum Engineers Petroleum Resource Management System (2011).

⁴ MMBOE- million barrels oil equivalent. Calculated using ratio of 6.22 billion cubic feet of gas equivalent to 1 million barrels of crude oil.

Prospective Resources are the estimated quantities of petroleum that may be potentially recovered by the application of a future development project and relate to undiscovered accumulations. These estimates have both an associated risk of discovery and a risk of development. Further exploration, appraisal and evaluation is required to determine the existence of a significant quantity of potentially moveable hydrocarbons.

In August 2020, Rey reviewed the resources of EP487 with a third party consultant, 3D Geo. The results showed that no adjustment is required to the resources of EP487 initially released in June 2017.

L15

A review of Rey's oil Reserves and contingent Resources for the West Kora Oilfield in L15 and Point Torment Gas Discovery in R1 was conducted by Rey in August 2020. The review showed no changes are required. Detailed Resources of R1 and Reserves of West Kora Oilfield in L15 and and Point Torment Gas Discovery in R1 are listed in Table 3 below:

Table 3: Estimated Remaining Petroleum Reserves and Contingent Resources West Kora Oilfield

		1P	2P	3P
West Kora Oilfield Recoverable Oil	Mstb ¹	67	238	593
		1C	2C	3C
West Kora Oilfield Recoverable Contingent Resources	Mstb	13.2	60.7	226.4
Point Torment Gas Discovery Recoverable Contingent Resources	BCF ²	2.41	4.725	8.42

¹ Mstb – Thousand stock tank barrels of oil.

² BCF – billion cubic feet

(Point Torment Gas Resources in R1 was initially estimated by Energetica Consulting in September 2015, refer to Key ASX releases dated on 30 September 2015. West Kora oilfield reserves and contingent resources in L15 was estimated by ERCE in May 2019, refer to Doriemus ASX releases dated on 9 May 2019)

Governance Arrangements and Internal Controls

The Company ensures that its quoted Resources and Reserves are subject to good governance arrangements and internal controls. The Resources and Reserves reported have been generated by independent external consultants who are experienced in best practice modelling and estimation methods. The consultants have also undertaken reviews of the quality and suitability of the underlying information used to generate the applicable estimations. In addition, Rey management carries out regular reviews of internal processes and external contractors that have been engaged by the Company.

Competent Persons Statements

Oil and Gas Reserves and Resources

The oil and gas technical information quoted in this Annual Report has been compiled and/or assessed by Mr Keith Martens who is a self-employed consulting professional geologist, and a continuous Member of the Petroleum Exploration Society of Australia since 1999. Mr Martens has a BSc degree in geology/geophysics and has over 35 years' experience in the petroleum industry.

The oil and gas Reserves and prospective Resources quoted in this Annual Report has been compiled and/or assessed by Mr. Keven Asquith who is a qualified petroleum reserves and resources evaluator. Mr Asquith is Director of 3D-GEO Pty Ltd and has over 30 years of geotechnical experience in the Petroleum Industry, as well as seven years of Project Management in the Government Sector. His experience includes four years at ESSO Resources Canada, 16 years at BHP Petroleum in Melbourne and the 11 years consulting at 3D-GEO. Keven has an Honours BSc in Geology and a Diploma in Project Management. He has been a member of the American Association of Petroleum Geologists for over 30 years.

The Company confirms that the form and context in which the information is presented has not been materially modified and it is not aware of any new information or data that materially affects the information included in the relevant market announcements, as detailed in the body of this announcement. The Oil and Gas section of this Annual Mineral Resources and Reserves Statement is based on and fairly represents information and supporting documentation prepared by competent persons and has been approved as a whole by Mr Martens. Mr Martens has consented to the inclusion in this report of the matters based on the information in the form and context in which they appear.

DIRECTORS' REPORT

The Directors of Rey Resources Limited (“Rey”, “Rey Resources” or “the Company”) present their report together with the consolidated financial statements of the Company and its controlled entities (“the Group”) for the financial year ended 30 June 2020.

1. DIRECTORS

The Directors of the Company at any time during or since the end of the financial year are:

Ms Min Yang	Non-Executive Chairman
Mr Wei Jin	Managing Director
Mr Geoff Baker	Non-Executive Director
Mr Dachun Zhang	Independent Non-Executive Director
Dr Zhiliang Ou	Independent Non-Executive Director (<i>Resigned 8 April 2020</i>)
Mr Louis Chien	Alternate Director to Non-Executive Chairman, Ms Min Yang

Details of Directors' qualifications, experience, special responsibilities and directorships of other listed companies can be found on pages 12 to 14.

2. INFORMATION ON DIRECTORS AND OFFICERS

Directors	Designation and Independence status	Experience, expertise and qualifications	Directorships of other listed companies during the last three years	Special responsibilities during the year
Current				
Min Yang Appointed on 13 September 2012	Chairman Non-Executive	Min Yang has extensive business connections and has over 30 years of hands-on experience dealing with private and state-owned enterprises in the Asia-Pacific region. Over the years, Ms Yang has proven her unique business insight and expertise in the identification, incubation and realisation of real asset investment opportunities.	<ul style="list-style-type: none"> ASF Group Limited (September 2005, ongoing) ActiveEX Limited (May 2012, ongoing) Key Petroleum Limited (January 2014, ongoing) BSF Enterprise PLC (appointed 5 September 2018, ongoing) 	<ul style="list-style-type: none"> Non-Executive Chairman Member, Audit and Risk Management Committee
Wei Jin Appointed Non-Executive Director on 2 December 2013. Appointed Managing Director on 1 July 2016.	Managing Director	Wei Jin holds PhD in Science from China University of Geosciences. He has over 20 years' professional experience covering exploration, mineral industry construction and operation, as well as international mineral trading activities in Australia, China, Russia and Mongolia.	None	<ul style="list-style-type: none"> Member, Audit and Risk Management Committee
Geoff Baker Appointed on 13 September 2012	Director Non-Executive	Qualifications – BCom, LLB, MBA For the past 35 years Geoff Baker has been active in Asia and China working in law and conducting an advisory practice in assisting companies doing business in the region. As an experienced lawyer qualified to practice in Australia and Hong Kong, Mr Baker provides valuable assistance to international operations and in particular to the negotiation, structuring and implementation of joint venture and commercial agreements.	<ul style="list-style-type: none"> ASF Group Limited (November 2006, ongoing) ActiveEX Limited (appointed February 2013. Resigned June 2017 and re-appointed August 2017, ongoing) Key Petroleum Limited (January 2014, ongoing) BSF Enterprise PLC (appointed 5 September 2018, ongoing) 	<ul style="list-style-type: none"> Member, Audit and Risk Management Committee

He has 20+ years of corporate experience based in Australia, the United States and Singapore and has held various engineering and finance leadership positions within The Procter & Gamble Company (P&G). He has managed organisations across the Americas, Europe and Asia-Pacific, and is currently a director of ASX listed ASF Group Limited.</p> <p>Mr Chien holds a Master of Business Administration in finance from Kelley School of Business, Indiana University, and two bachelor degrees in Architecture, all attained in the United States.</p>	<ul style="list-style-type: none"> • ASF Group Limited (May 2015, ongoing) • ActivEX Limited (appointed Alternate Director to Ms Min Yang on 20 April 2020, ongoing) 	<p>None</p>

3. COMPANY SECRETARY

Mr William Kuan was appointed to the position of Company Secretary on 1 July 2020. Mr Kuan holds a Master Degree in International Accounting. He is a Fellow of CPA Australia and an Associate of The Chartered Governance Institute (ICSA) in the UK and The Hong Kong Institute of Chartered Secretaries (HKICS). Mr Kuan has extensive experience in accounting, corporate finance and company secretarial areas. He is currently a Director and Company Secretary of ASF Group Limited, a substantial shareholder of the Company. Prior to joining ASF, he was company secretary for a number of diverse Hong Kong listed companies.

4. DIRECTORS' ATTENDANCE AT MEETINGS

The number of Directors' meetings and number of meetings attended by each of the Directors of the Company during the financial year are:

Director	Meetings	
	A	B
Min Yang	3	3
Wei Jin	3	3
Geoff Baker	3	3
Dachun Zhang	3	3
Zhiliang Ou (<i>Resigned 8 April 2020</i>)	3	3
Louis Chien	-	3

A - Number of meetings attended.

B - Number of meetings held during the time the Director held office.

The Company has established an Audit and Risk Management Committee, comprising one Executive and three Non-Executive Directors, with independent Non-Executive Director Mr Dachun Zhang as Chair. The number of Audit and Risk Management Committee meetings and number of meetings attended by each of the members of the Committee during the financial year are:

Director	Meetings	
	A	B
Min Yang	2	2
Wei Jin	2	2
Geoff Baker	2	2
Dachun Zhang	2	2

A - Number of meetings attended.

B - Number of meetings held during the time the Director held office.

5. DIRECTORS' INTERESTS IN SECURITIES IN REY RESOURCES LIMITED

The relevant interest of each Director in the ordinary shares of Rey Resources Limited at the date of this report is set out as below:

	Ordinary shares	Options over ordinary shares	Performance Rights
Min Yang	200,000	Nil	Nil
Geoff Baker	200,000	Nil	Nil
Dachun Zhang	777,414	Nil	Nil
Wei Jin	200,000	Nil	Nil
Louis Chien	Nil	Nil	Nil

6. REMUNERATION REPORT – AUDITED

This remuneration report outlines the Director and executive remuneration arrangements for Rey Resources in accordance with the requirements of the *Corporations Act 2001* and its associated Regulations. The information in the report has been audited as required by Section 308(3C) of the Act.

6.1 Principles of compensation

For the purpose of this report Key Management Personnel (“KMP”) are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any Director (whether executive or otherwise) of the Company. The officers listed as KMP below are included in the report. The report will provide an explanation of Rey Resources’ remuneration policy and structure, details of remuneration paid to KMP (including Directors), an analysis of the relationship between Company performance and executive remuneration payments, details of share-based payments, key terms of executive employment contracts and details of independent external advice received in relation to KMP remuneration, if any.

2020 Key Management Personnel

The KMP of Rey Resources during the year ended 30 June 2020 were:

Non Executive

Min Yang	Non-Executive Chairman (appointed 13 September 2012)
Geoff Baker	Non-Executive Director (appointed 13 September 2012)
Dachun Zhang	Independent Non-Executive Director (appointed 1 July 2013)
Zhiliang Ou	Independent Non-Executive Director (appointed 22 September 2016 and resigned on 8 April 2020)
Louis Chien	Alternate Director to Ms Min Yang (appointed 11 January 2016)

Executive

Wei Jin	Managing Director (appointed Non-Executive Director 2 December 2013, appointed Managing Director 1 July 2016)
---------	---

6. REMUNERATION REPORT – AUDITED (continued)

6.1 Principles of compensation (continued)

Remuneration policy

The successful performance of the Company is dependent on the quality and performance of Directors and executives, so the focus of the remuneration policy is to attract, retain and motivate highly competent people to these roles.

Four broad principles govern the remuneration strategy of the Company:

1. To set demanding levels of performance for KMP and to align their remuneration with the achievement of clearly defined targets.
2. To provide market competitive remuneration and conditions in the current market for high quality Directors and executives.
3. To align remuneration with the creation of shareholder value and the achievement of Company strategy, objectives and performance.
4. To be able to differentiate reward based on performance, in particular acknowledging the contribution of outstanding performers.

The Company seeks to provide fixed remuneration at the median level of the markets in which it competes for talent, and to provide the opportunity for a higher than median level of variable reward for those individuals who make an outstanding contribution to the success of the business.

The Board is responsible for matters relating to the remuneration of the Directors, senior executives and employees of the Company, including making recommendations in relation to the remuneration framework of the Company and the fees and remuneration paid to Directors and executives.

The Board seeks independent remuneration advice from time to time, and refers to relevant market survey data for the purposes of external comparison. Further details have been included in section 6.5.

Hedging policy

The Company's Securities Trading Policy prohibits all Directors and employees from entering into arrangements to protect the value of unvested Long Term Incentive ("LTI") awards. The prohibition includes entering into contracts to hedge their exposure to unvested share rights and options awarded as part of their remuneration package.

6. REMUNERATION REPORT – AUDITED (continued)

6.1 Principles of compensation (continued)

Executive remuneration components

Executive remuneration is structured so that it supports the key remuneration principles outlined above, and is intended to motivate executives towards achievement of the annual objectives and longer term success of the Company. A Total Fixed Remuneration (“TFR”) is paid which considers external market comparisons and individual performance. Performance linked compensation is available through the short term and long term incentive plans outlined below.

Fixed remuneration

Executives receive an annualised TFR from which they must have deducted statutory superannuation. They may elect to salary sacrifice further superannuation contributions and other benefits such as a motor vehicle. Accommodation assistance and medical insurance may be provided for employees from overseas or interstate where it is necessary to be able to attract key talent. A review of TFR is undertaken each year and reflects market movements and individual performance.

Short term incentive

The objective of the short term incentive (“STI”) plan is to align the achievement of the Company’s annual targets with the performance of those executives who have key responsibility for achieving those targets.

Long term incentive

Executives are eligible to participate in the Rey Resources Limited Executive Incentive Rights Plan (“EIRP”), which was first adopted by shareholders on 23 November 2011 and most recently re-approved at the Company’s 2018 Annual General Meeting. The EIRP aligns the reward of the participants with the long term creation of shareholder value.

The EIRP enables participants to be granted rights to acquire shares subject to the satisfaction of certain vesting conditions which will be determined by the Board from time to time. Subject to adjustments for any bonus issues of shares and capital reorganisations, one share will be issued on the exercise of each right which vests or becomes exercisable. No amount is payable by employees in respect of the grant or exercise of rights.

The EIRP has been designed to deliver benefits based on the value of shares when performance and service conditions are satisfied. The benefits may be provided in cash or a combination of cash and shares.

6. REMUNERATION REPORT – AUDITED (continued)

6.1 Principles of compensation (continued)

Relationship between Company performance and remuneration

The objective of the Company's remuneration structure is to reward and incentivise the executives so as to ensure alignment with the interests of the shareholders. The remuneration structure also seeks to reward executives for their contribution in a manner that is appropriate for a company at this stage of its development. As outlined elsewhere in this Report, the remuneration structure incorporates fixed, annual at risk and long term incentive components.

For shareholders, the key measure of value is Total Shareholder Return ("TSR"). Other than general market conditions, the key drivers of value for the Company and a summary of performance are provided in the table following.

At this stage in the development of the Company, successful execution of the below drivers is the mechanism through which shareholder wealth will be created.

The only relevant financial measure at this point is the Rey share price for which the history is presented below. Absolute TSR performance is the basis for long term incentive awards under the EIRP.

	2020	2019	2018	2017	2016
Rey Closing Share Price as at 30 June	0.31	0.31	0.32	0.2	0.145*

* Adjusted for 5 into 1 share consolidation

Consequences of performance on shareholder wealth

	2020	2019	2018	2017	2016
Loss (\$'000)	(1,880)	(8,923)	(1,049)	(559)	(3,998)
Dividends declared	-	-	-	-	-
Total shareholder return (TSR)%	0%	(3%)	60%	38%	(72%)

Non-Executive Director fees

The policy on Non-Executive Director ("NED") fees is to apply a remuneration framework in order to attract and retain highly capable NEDs and also in accordance with governance best practice. A fixed annual fee is paid in cash.

An aggregate fee limit for NED fees of \$400,000 was approved at the 2010 Annual General Meeting and no change is currently proposed.

NED fees comprise a fixed annual fee, with no participation in any performance rights plan.

The original annual cash fees payable to each NED were as follows: Ms Yang \$48,000 per annum payable to her related entity, Luxe Hill Limited; Mr Baker \$60,000 per annum payable to his related entity, Gold Star Industry Ltd; Mr Zhang \$25,000 per annum payable to his related entity, AMI Corporation Pty Ltd. From April 2020, fees paid to each NED were reduced by 50% of the original fees.

6. REMUNERATION REPORT – AUDITED (continued)

6.2 Directors' and executive officers' remuneration

The table below sets out the remuneration of the Group's KMP for the years ended 30 June 2019 and 30 June 2020.

	Short Term Benefits			Post-employment Benefits	Other Long Term employee benefit ¹	Share Based Payments	Termination Benefits	Total
	Cash salary/ Fees	Annual Incentive	Non-monetary	Super	LSL & AL	Rights /Options	Termination Payments

¹ In accordance with his contract Wei Jin does not accrue long term employee benefits.

6.3 Equity instruments

No share rights were granted during the financial year.

No options and rights over ordinary shares in the Company were granted during the financial year.

6. REMUNERATION REPORT – AUDITED (continued)

6.4 Key employment contract

The table below summarises the key contractual provisions of the executive KMP.

Name and Position	Contract Term	Termination by Company	Termination by Executive
Wei Jin	Ongoing	3 months' notice or payment in lieu.	3 months' notice or payment in lieu.

Non-Executive Directors are engaged by a letter of appointment for a term as stated in the Constitution of the Company. They may resign from office by notice to the Chairman. Non-Executive Directors receive annual fees. There are no post-employment benefits other than statutory superannuation.

6.5 Remuneration Consultant

The Board may seek advice on remuneration matters for the KMP and Non-Executive Directors from independent external advisors. Such advisors are appointed and directly engaged by the Chairman.

No external advisors were engaged on remuneration matters for the 2020 financial year.

6.6 Movements in share holdings

Movements in shares

The movement during the reporting period in the number of ordinary shares in the Company held by each KMP, including their related parties, is as follows:

2020	Held at 1 July 2019	Received as compensation	Received on exercise of options/rights	Other changes	Held at 30 June 2020
Directors					
Min Yang ¹	200,000	-	-	-	200,000
Geoff Baker ²	200,000	-	-	-	200,000
Wei Jin ³	200,000	-	-	-	200,000
Dachun Zhang ⁴	777,414	-	-	-	777,414
Zhiliang Ou	-	-	-	-	-
Louis Chien	-	-	-	-	-
Total	1,377,414	-	-	-	1,377,414

1. The shares are held by Luxe Hill Ltd, of which Min Yang is a director and shareholder.
2. The shares are held by Gold Star Industry Ltd, of which Geoff Baker is a director and shareholder.
3. The shares are held by Renown Capital Holdings Ltd, of which Wei Jin is a director and shareholder.
4. The shares are held by Greenhouse Investment (VIC) Pty Ltd ATF AMF Superannuation Fund. Dachun Zhang is a director of Greenhouse Investment (VIC) Pty Ltd and a beneficiary of the AMF Superannuation Fund.

6. REMUNERATION REPORT – AUDITED (continued)

6.7 Movements in Option holdings

No KMP held or were issued options during the 2020 reporting period.

6.8 Movement in Share right holdings

No KMP held or were issued share rights during the 2020 reporting period.

7. PRINCIPAL ACTIVITIES

The principal activity of Rey Resources is exploring for and developing energy resources in Western Australia's Canning Basin. The Company holds 40% interest in petroleum permits EP457 & 458 in joint venture with Buru Energy Limited, 100% interest in the Derby Block EP487 and petroleum exploration permit EP104, retention licence R1 and production licence L15. Rey also holds 100% interests in Duchess Paradise Coal Project.

8. RESULTS FOR THE YEAR AND REVIEW OF OPERATIONS

During the year, Rey Resources continued its strategy of exploring and developing energy resources in Western Australia's Canning Basin, with particular focus on its oil and gas assets.

Oil and Gas

Fitzroy Blocks (EP457 & EP458)

After the left of Frack Ban, the government announced in July 2019 that the implementation of Government's response to the Independent Scientific Panel Inquiry into Hydraulic Fracture Stimulation in Western Australia has commenced and is continuing and will have decisions be made by end of 2020. The operator, Buru Energy, lodged the 12 months suspension and extension application to DMIRS on 17 March 2020 for EP457 and EP458 in consideration of the uncertainty of implementation in future. The application was approved on 19 April 2020.

During the year, Buru discussed a new budget with Rey to cover the proposed 500km 2D seismic reprocessing and general geology studies. The new budget has been approved by Rey.

Rey is also building a new strategic relationship with Buru for the farmout of future drilling and seismic work in the Fitzroy Block. However, the farmout progress was delayed due to the current pandemic crisis.

Derby Block (EP487)

Following the letter received from DMIRS about suggestion of EP487 commitment work changes on 9 August 2019, a formal 12-month suspension and extension application was lodged to DMIRS in September 2019 to reflect the suggestions. On 13 November 2019, an approval letter was received to suspend and extend the current permit year to December 2020.

During the financial year, Rey is preparing the pre-drilling work for the commitment well. However, due to the travel ban caused by COVID-19, the preparation was delayed and Rey expects the drilling work will not be completed before the due date. Therefore, a notice letter regarding COVID-19 impact on drilling has been prepared in July 2020 and submitted to DMIRS. The impact should meet the force majeure ground for permit suspension and extension and Rey prepares to lodge a formal application in September 2020.

8. RESULTS FOR THE YEAR AND REVIEW OF OPERATIONS (continued)

Lennard Shelf Blocks (EP104, R1, L15)

In February 2020, Rey terminated the Farmout Agreement with Doriemus for L15 due to its failing to spend the agreed expenditure in West Kora-1. Rey is positively seeking appropriate method to achieve the reproduction from West Kora-1 with low production costs. However, this has been delayed due to the current pandemic issue.

In October 2019, a work variation and suspension application was lodged with DMIRS to change the committed geochemical survey from cover the whole area with large distance of each sampling point to reasonable density that focus on the identified Anderson trap. The application was approved by DMIRS on 23 June 2020. The work was completed on 22 August 2020. The sampling will be delivered to laboratory for analysis soon. Rey also completed a geotechnical study and engineering study for the Point Torment-1 in R1. A simulation and commercial study is planned to be carried out very soon to value the contingency gas resources in Point Torment-1 before due date in October 2020.

Rey lodged a formal suspension and extension letter to DMIRS for EP104 to reflect their commitment work revision suggestions on 9 August 2019. The application was approved on 13 November 2019 that no works is required in permit year 3 and year 5.

Coal

Duchess Paradise Project

After about one year of negotiations, Rey entered into an Access Deed with Hancock Prospecting on 8 November 2019 for the Mining Licence Application. With the execution of the Access Deed, all objectors of the Mining Lease Application have been removed. An official notice letter has been sent to Warden's Court and this is under assessment by Karratha Mining Registrar for recommendation. Rey also have been contacted by DMIRS in February 2020 to follow up the negotiation with Native Title. By the date of this annual report, Rey has re-started the negotiation process with Nyikina Mangala people.

During the reporting period, Rey surrendered one tenement, E04/1386, of Duchess Paradise Project in June 2020. The surrender provides Rey more flexibility to negotiate a heritage protection agreement with native title as well as allow Rey to focus more on the development within Mining Licence Application area. E04/1386 located at south east corner of M04/453 application with total area of 16.27km². Minor of inferred resources of Duchess Paradise Project extended in to this tenement.

Corporate

On 17 July 2019, the Company entered into a third loan agreement with Wanyan Liu ("Liu"), pursuant to which a further loan facility of up to \$3 million ("Third Liu Loan) has been granted by Liu. The Third Liu Loan will mature on 31 December 2021 with interest accruing at the rate of 12% per annum.

On 31 December 2019, the Company agreed with ASF Group Limited ("ASF") to reduce the facility amount for the \$3.8 million loan facility ("ASF Loan") to \$2 million and to extend the maturity date of the ASF Loan to 31 March 2020. The maturity date of the ASF Loan was further extended to 31 October 2021 prior to the end of the financial year.

8. RESULTS FOR THE YEAR AND REVIEW OF OPERATIONS (continued)

The Company also announced on 25 June 2020 that Liu agreed to increase the second loan facility granted in April 2019 from \$3 million to \$5 million (“Second Liu Loan”) and to extend the maturity date of the Second Liu Loan from 31 December 2020 to 31 October 2021.

As at the balance sheet date, the Company had a total of \$3.74 million remaining loan facilities available for draw down, which represents \$3.28 million available under Second Liu Loan and Third Liu Loan and \$0.46 million available under ASF Loan.

Subsequent after the financial year end on 8 July 2020, the Company announced the extension of the on-market buyback program for a further 12 months from 23 July 2020. During the year ended 30 June 2020, a total of 28,000 shares were bought back at a cost of \$7,880.

Financial review

Net loss of the consolidated entity consisting of Rey Resources Limited (the “Company”) and the entities it controlled (the “Group”) after income tax for the year ended 30 June 2020 was \$1,880,000, a decrease of approximately 79% compared with the loss of \$8,923,000 for the last year.

Losses for the year was mainly attributed to the following:

- impairment of exploration assets of \$692,000; and
- finance costs of \$709,000, which was principally interest accrued for the loans granted by ASF and Liu.

In January 2020, the Company disposed of all its shareholding of 53,056,027 shares in Norwest Energy NL (ASX:NWE) for \$0.005 per share for a total consideration of \$265,280 (before costs).

During the year, \$1,198,000 (2019: \$1,537,000) in exploration expenditure was capitalised, of which \$1,100,000 related to oil and gas exploration (2019: \$1,385,000).

9. DIVIDENDS

No dividend has been paid or declared by the Company during the financial year ended 30 June 2020 (2019: nil) and the Directors do not recommend the payment of a dividend in respect of the financial year ended 30 June 2020.

10. SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than as noted elsewhere in this report, there have been no significant changes in the state of the affairs of the Company up to and including the date of this report.

11. LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

Future information about the likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

12. PERFORMANCE RIGHTS OVER UNISSUED SHARES

Performance rights on Issue

As at the date of this report there were no performance rights on issue.

Performance rights vested, forfeited or lapsed

No performance rights were vested and converted to shares during the year.

13. OPTIONS OVER UNISSUED SHARES

Options on Issue

During the financial year and as at the date of this report there are no options on issue.

14. ENVIRONMENTAL DISCLOSURE

The Group's operations are subject to various laws governing the protection of the environment in areas such as protection of water quality, waste emission and disposal, environmental impact assessments, exploration rehabilitation and use of ground water. In particular, some operations are required to be licensed to conduct certain activities under the environmental protection legislation in the state in which they operate and such licences include requirements specific to the subject site.

So far as the Directors are aware, there have been no material breaches of the Company's licences and all exploration and other activities have been undertaken in compliance with the relevant environmental regulations.

15. INDEMNITIES AND INSURANCE

The Company had a Directors' and Officers' Liability Insurance ("D&O Insurance") which insure the Directors and officers of the Company against liabilities incurred in the performance of their duties. However, the D&O Insurance expired on 31 May 2020 and, due to the pandemic and the recent tough insurance markets, the Company is still in the course of securing a new D&O Insurance for the Company.

16. SUBSEQUENT EVENTS

On 27 August 2020, the Company repaid \$1,540,000 of the loan principal due to ASF.

No other matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

17. PROCEEDINGS ON BEHALF OF THE COMPANY

At the date of this report, there are no proceedings brought on behalf of the Company under section 237 of the *Corporations Act 2001*.

18. ROUNDING

The Group is of a kind referred to in Australian Securities and Investments Commission (ASIC) Class Order 2016/191. In accordance with that Class Order, amounts contained in the consolidated financial statements and Directors' report have been rounded off to the nearest one thousand dollars, unless specially stated to be otherwise.

19. NON-AUDIT SERVICES

There were no non-audit services provided by ShineWing Australia during this financial year.

20. AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is set out on page 27 and forms part of the Directors' report for the financial year ended 30 June 2020.

Signed in accordance with a resolution of Directors.

A handwritten signature in black ink, appearing to read 'Min Yang', with a stylized flourish at the end.

Min Yang
Non-Executive Chairman
Sydney, Australia
28 September 2020

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the directors of REY Resources Limited

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2020 there have been:

1. No contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit, and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

Notes to the consolidated financial report

For the year ended 30 June 2020

1. REPORTING ENTITY

Rey Resources Limited (the “Company”) is a company domiciled in Australia. The address of the Company’s registered office is Suite 2, 3B Macquarie Street, Sydney NSW 2000. The consolidated financial statements of the Company as at and for the financial year ended 30 June 2020 comprise the Company and its subsidiaries (together referred to as “Rey Resources” or the “Group”). The Group is a for-profit entity and is primarily involved in mineral and oil and gas exploration and project evaluation.

2. BASIS OF PREPARATION

(a) Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (including the Australian Interpretations) adopted by the Australian Accounting Standards Board (“AASB”), and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (“IFRS”) and interpretations issued by the International Accounting Standards Board (“IASB”). The accounting policies detailed below have been consistently applied to all of the years presented unless otherwise stated.

The consolidated financial statements were authorised for issue by the Board of Directors on 28 September 2020.

The outbreak of the Novel Coronavirus (“COVID-19”) was declared as a ‘Global Pandemic’ by the World Health Organisation on 11 March 2020, developments throughout 2020 has caused great uncertainty for the oil, gas and coal industry and the global and Australian economy. This uncertainty has created risks and conditions that the Group has not encountered before. As a result, there has been a continual assessment of the impacts of COVID-19 on the financial statements arising from this major global risk.

(b) Going concern

The consolidated financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the year ended 30 June 2020 the Group incurred a loss after tax of \$1,880,000 and incurred operating and investing cash outflows of \$1,305,000. As at 30 June 2020 the Group had cash of \$175,000, available standby loan facilities from ASF Group Limited of \$460,000 and Wanyan Liu of \$3,280,000, a net working capital deficiency of \$646,000 and net assets of \$25,586,000 as at 30 June 2020.

The Group has prepared a cashflow forecast for the period to 30 September 2021. The cashflow forecast reflects:

- The need to raise additional funding during the forecast period;
- That ASF Group Limited and Wanyan Liu will not call their loans owing from the Group in advance of the loan maturity date; and
- The need to defer or farm out the Group’s share of certain petroleum interests to meet committed and forecast expenditures.

Notes to the consolidated financial report

For the year ended 30 June 2020

2. BASIS OF PREPARATION (Continued)

Rey is pursuing funding alternatives in the form of debt and equity, including discussions with existing shareholders, and with third parties for farmout certain petroleum interests.

The Directors believe that sufficient funding will be sourced, the repayment of loans extended, the loans will not be recalled and farm out parties will be sourced in the timeframes required and therefore the adoption of the going concern basis of preparation is appropriate. The requirement to raise the necessary funding to meet its commitments and secure farm out parties, or defer expenditure, is a material uncertainty that may cast significant doubt as to whether the Group will be able to continue as a going concern.

These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern and to be able to pay its debts as and when they fall due, and therefore the Group may be unable to realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the consolidated financial statements.

(c) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis.

(d) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191 dated 10 July 1998 and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest thousand dollars unless otherwise stated.

(e) Critical accounting estimates and judgements

The Directors evaluate estimates and judgements incorporated into these consolidated financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group. The resulting accounting estimates will, by definition, seldom equal the related actual results.

Following is a summary of the key assumptions concerning the future, and other key sources of estimation and accounting judgements at the reporting date that have not been disclosed elsewhere in these consolidated financial statements.

(i) *Exploration and evaluation expenditure*

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgement in determining whether it is likely that future economic benefits are likely, which may be based on assumptions about future events or circumstances. Estimates and assumptions may change if new information becomes available. If after expenditure is capitalised information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalised is written off in the profit and loss in the period when the new information becomes available.

Notes to the consolidated financial report

For the year ended 30 June 2020

2. BASIS OF PREPARATION (Continued)

(ii) Impairment of assets

The determination of fair value and value in use requires management to make estimates and assumptions about expected production and sales volumes, coal prices (considering current and historical prices, price trends and related factors), foreign exchange rates, coal resources and reserves, operating costs, closure and rehabilitation costs and future capital expenditure. These estimates and assumptions are subject to risk and uncertainty; hence there is a possibility that changes in circumstances will alter these projections, which may impact the recoverable amount of the assets. In such circumstances, some or all of the carrying amount of the assets may be further impaired or the impairment charge reduced with the impact recorded in the statement of profit or loss.

(iii) Rehabilitation

The rehabilitation provision has been created based on managements' internal estimates and assumptions relating to the current economic environment, which management believes is a reasonable basis upon which to estimate the future liability.

These estimates are reviewed regularly to take into account any material changes to the assumptions, however actual rehabilitation costs will ultimately depend upon the future market prices for the necessary decommissioning works and the timing of when the rehabilitation costs are incurred. Timing is dependent upon when the mines ceases to produce at economically viable rates, which in turn, will depend upon future oil and gas prices, which are inherently uncertain.

(iv) Income taxes

The Group is subject to income taxes in Australia. Significant judgement is required in determining the provision for income taxes. There are transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Group estimates its tax liabilities based on the Group's understanding of the tax law. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of Rey Resources Limited and its subsidiaries.

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

(ii) Transactions eliminated on consolidation

Intercompany transactions, balances and unrealised gains and expenses on transactions between companies of the Group are eliminated in preparing the consolidated financial statements.

(iii) Loss of control

On the loss of control, the Group de-recognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently that retained interest is accounted for as an equity accounted investee or as a financial asset depending on the level of influence retained.

(iv) Joint arrangements

Joint arrangements are defined as the contractually agreed sharing of control of an arrangement, which exists only when decisions about relevant activities require unanimous consent of the parties sharing control. These arrangements may be accounted for as a joint venture or a joint operation.

A joint venture, which is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than the rights to its assets and obligation for its liabilities. Interest in joint ventures is accounted for using the equity method.

A joint operation is an arrangement in which the parties with joint control have rights to the assets and obligations for the liabilities relating to that arrangement. In respect of its interest in a joint operation, a joint operator the Group recognises its relative share of its assets, liabilities, revenues and expenses.

(b) Foreign currency

Transactions in foreign currencies are translated to Australian dollars being the functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency differences arising on retranslation are recognised in profit or loss.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Non derivative financial instruments

(i) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

The Group has two types of financial assets: amortised cost and Fair Value Through Profit or Loss ("FVTPL") in accordance with AASB 9. Refer Note 22 for summary of the classification of the Group's financial assets and financial liabilities.

(iii) Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

(iv) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any tax effects.

(d) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income/other expenses in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The estimated depreciation rates for the current and comparative years are as follows:

Class of Fixed Asset	Depreciation Rate
Equipment	8% - 33%

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(e) Exploration and development assets

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest.

At the end of each reporting period, the capitalised exploration and evaluation expenditure is assessed for impairment. This expenditure is only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

An exploration and evaluation asset is recognised in relation to an area of interest if the following conditions are satisfied:

- (a) The rights to tenure of the area of interest are current;

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) At least one of the following conditions is also met:

- (i) the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; and
- (ii) exploration and evaluation activities in the area of interest have not at the end of the reporting period reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, the exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining tenements or mine development assets. Then the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

Costs of the site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs are determined using estimates of future costs, current legal requirements and technology on an undiscounted basis. Any changes in the estimates for costs are accounted on a prospective basis. In determining the costs of site restoration, there may be uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation.

(f) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised immediately in profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units, "CGUs"). For the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to CGUs that are expected to benefit from the synergies of the combination.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(i) Non-derivative financial assets

In assessing collective impairment the Group uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(g) Employee benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance sheet date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-cost. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

(i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Share-based payment transactions

The grant date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

(h) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(i) Income tax

Income tax expense comprises current and deferred tax. Current and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.
- temporary differences related to investments in subsidiaries and associates and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

The Company and its wholly-owned Australian resident entities are part of a tax-consolidated group. As a consequence, all members of the tax-consolidated group are taxed as a single entity. The head entity within the tax-consolidated group is Rey Resources Limited. Current income tax expense / benefit, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the 'separate taxpayer within the group' approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Earnings per share

The Group presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise share options and share performance rights granted to employees.

(k) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating results are reviewed regularly by the Group's Chief Operating Decision maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

(l) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(m) Other income

Other income primarily relates to sundry deposits and recognised on receipt in the bank account or when the right to receive payment is established.

(n) Finance income and finance costs

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

(o) Determination of fair values

Share-based payment transactions

The fair value of the Directors' performance rights is measured using Monte Carlo Sampling. The fair value of the executive rights is measured with reference to the share price at grant date. The fair value of the employee share options are measured using the Black-Scholes formula. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

Notes to the consolidated financial report

For the year ended 30 June 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Changes in significant accounting policies

(i) New and amended standards adopted by the Group

The new standards and interpretations that are applicable for the first time for the year ended 30 June 2020 are:

- AASB 16 *Leases*
- AASB 2017-7 *Amendments to Australian Accounting Standards - Long-term Interests in Associates and Joint Ventures*;
- Interpretation 23 *Uncertainty over Income Tax Treatments*; and
- AASB 2018-1 *Amendments to Australian Accounting Standards - Annual Improvements 2015-2017 Cycle*.

These standards, amendments and interpretations did not affect any of the amounts recognised in these consolidated financial statements.

(ii) Early adoption of standards

No new Australian Accounting Standards and Interpretations that have been issued but are not yet effective have been applied in the preparation of these consolidated financial statements. Such standards are not expected to have a material impact on the Group's financial statements on initial application.

(iii) New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2020 reporting years and have not been early adopted by the Group.

There are no standards that are not yet effective and that would be expected to have a material impact on the Group's consolidated financial statements in the current or future reporting years and on foreseeable future transactions.

Net deferred tax asset	-	-	-	-

Tax losses

At 30 June 2020, the Group has tax losses arising in Australia of \$83,721,067 (2019: \$81,407,675) that are available for offset against future taxable income. The Group has not recognised a deferred tax asset in relation to these tax losses (other than an offset to the deferred tax liability) as realisation of the benefit is not regarded as probable. Additionally, the ability of the Group to utilise these tax losses will depend on whether the Group is determined to pass the Australian Tax Office rules of continuity of ownership test, or failing that, the same business test.

Tax consolidation

Rey Resources Limited and its 100% owned Australian resident subsidiaries formed a tax-consolidated Group with effect from 1 July 2009. The first consolidated income tax return for the Group was filed for the tax year ended 30 June 2010. Rey Resources Limited is the head entity of the tax-consolidated group.

Notes to the consolidated financial report

For the year ended 30 June 2020

8. LOSS PER SHARE

<i>in thousands of dollars</i>	2020	2019
Earnings		
Earnings used in calculating basic and diluted earnings per share attributable to the owners of the company	(1,880)	(8,923)
Number of ordinary shares	2020	2019
Weighted average number of ordinary shares outstanding during the year used in calculating basic and diluted loss per share	212,176,887	212,364,928
Basic loss per Share (cents per share)	(0.89)	(4.2)
Diluted loss per Share (cents per share)	(0.89)	(4.2)

Calculation of loss per share

Basic loss per share is calculated as loss for the period attributable to shareholders of \$1,880,000 (2019: \$8,923,000) divided by the weighted average number of ordinary shares of 212,176,887 (2019: 212,364,928). The diluted loss per share for the year ended 30 June 2020 and 2019 was the same as the basic loss per share as there were no dilutive instruments outstanding.

9a. CASH AND CASH EQUIVALENTS

<i>in thousands of dollars</i>	2020	2019
Cash at bank and in hand	175	28
Cash and cash equivalents	175	28

The Group's exposure to interest rate risk and a sensitivity analysis for financial assets and liabilities are disclosed in note 22.

Notes to the consolidated financial report

For the year ended 30 June 2020

12. FINANCIAL ASSETS

<i>in thousands of dollars</i>	2020	2019
Investment in Norwest Energy NL at fair value as at 1 July	106	159
Changes in fair value of investment	159	(53)
Disposal of investment	(265)	-
	-	106

The financial asset at FVTPL is an investment in Norwest Energy NL. Fair value represents the market value of the financial assets at balance date. On 5 June 2015, Rey subscribed for \$250,000 of Norwest Energy NL (Norwest) shares at a price of \$0.004712 per share. This financial asset is initially measured at fair value plus transaction costs that are directly attributable to its acquisition or issue. These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. In January 2020, the Company disposed of all its shareholding of 53,056,027 shares in Norwest Energy NL (ASX:NWE) for \$0.005 per share for a total consideration of \$265,280 (before costs)/\$264,405 (after costs).

13. EXPLORATION AND EVALUATION EXPENDITURE

Impairment ^{1,2}	(692)	(7,450)
Others	14	-
	36,432	35,912

1. Exploration and evaluation expenditure recognised in Duchess Paradise is held solely by the Group. Tenement E04/1386 was surrendered during the year and was fully impaired.

Notes to the consolidated financial report

For the year ended 30 June 2020

13. EXPLORATION AND EVALUATION EXPENDITURE (Continued)

2. Exploration and evaluation expenditure recognised on EP457 and EP458 tenements under joint venture agreement with Buru Energy Limited. This amount includes the Group's proportionate share of exploration assets held by the respective joint venture entities. On 28 March 2019, the Company increased its current interests in each of the EP457 & EP458 permits from 25% to 40% for a total cash consideration of \$480,000. An impairment of \$7,450,000 was made as a result of revaluation of EP457 & EP458 to their fair value. The Group utilized a third party valuation expert who applied the VALMIN code to determine the fair value of EP457 and EP458.

3. Acquisition costs and the exploration and evaluation expenditure recognised on EP104, R1 and L15 which are held solely by the Group.

4. Exploration and evaluation expenditure recognised on EP487 which is held solely by the Group.

Management expect to extend the right of tenure for tenements approaching expiry.

14. TRADE AND OTHER PAYABLES

in thousands of dollars

Unsecured liabilities

Sundry payables and accrued expenses

	2020	2019
	67	110
	67	110

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 22.

15. EMPLOYEE BENEFITS

in thousands of dollars

Employee benefits

Current

Non-current

	2020	2019
	5	16
	-	-
	5	16

16. PROVISION

in thousands of dollars

Restoration provision (L15, R1)

	2020	2019
	3,272	2,952
	3,272	2,952

The restoration provision relates to the West Kora 1 well and disused production facilities in Production License L15, which was estimated based upon converting the well to a water well following confirmation from the pastoral lease owner and removing the tank farm and restoring the site back to its original condition.

The provision has been calculated on an assumption that management expects that the cash out flow will not be incurred until approximately 2029.

Notes to the consolidated financial report

For the year ended 30 June 2020

17. ISSUED CAPITAL

<i>in thousands of dollars</i>	2020	2019
212,160,439 (2019: 212,188,439) fully paid ordinary shares	86,589	86,597
	86,589	86,597

The Company does not have a limited amount of authorised capital and issued shares do not have a par value.

Ordinary shares participate in the proceeds on winding up of the parent entity in proportion to the numbers of shares held.

Movements in shares on issue

	2020		2019	
	Number	\$'000	Number	\$'000
On issue at beginning of the year	212,188,439	86,597	212,405,266	86,663
Share buy back	(28,000)	(8)	(216,827)	(66)
On issue at the end of the year	212,160,439	86,589	212,188,439	86,597

During the year ended 30 June 2020, a total of 28,000 shares were bought back at a cost of \$7,880 and cancelled. On 8 July 2020, the Company announced the extension of the on-market buyback program for a further 12 months from 23 July 2020.

18. COMMITMENTS

Exploration expenditure commitments

The commitments are required in order to maintain the Group's interests in good standing with the DMIRS. It includes commitment for both mineral exploration tenements and also the company's share in petroleum exploration permits in which it has joint venture interests. These obligations may be varied from time to time, subject to approval by the DMIRS.

<i>In thousands of dollars</i>	Mineral	Petroleum	Total
Year 1	139	684	823
Year 2-5	34	8,513	8,547
Total	173	9,197	9,370

Notes to the consolidated financial report

For the year ended 30 June 2020

20. JOINT OPERATION INTERESTS

Joint venture agreements have been entered into with third parties. Details of joint venture agreements are disclosed below. These are accounted for as joint operations.

Assets employed by these joint ventures and the Group's expenditure in respect of them is brought to account initially as capitalised exploration expenditure (refer note 13) and disclosed distinctly from capitalised exploration costs incurred on the Group's 100% owned projects.

Rey/Buru Joint Venture

On 18 March 2013, the Company entered into an agreement with Buru Energy Limited ("Buru") and Mitsubishi Corporation pursuant to which the Company acquired an additional 15% interest in exploration permits EP457 and EP458 in the Canning Basin, Western Australia.

On 10 December 2018, the Company announced that, pursuant to a transaction entered into between Buru and Diamond Resources (Barbwire) Pty Limited ("DRB") whereby Buru will increase its interests in these permits from 37.5% to 60%, Rey (via its wholly owned subsidiary Rey Oil and Gas Pty Limited) has exercised its pre-emptive rights under the permit joint operating agreements and entered into a parallel agreement with DRB to increase its current interests in each of the EP457 and EP458 permits from 25% to 40% for a total cash consideration of \$480,000.

The current interest in the two exploration permits, known as "The Fitzroy Blocks", are:

Rey Oil and Gas Pty Limited	40%	(of which a 6.66% interest is free carried to production)
Buru Fitzroy Pty Limited	60%	(Buru Energy Limited, operator)

The total amount of the Group's capitalised exploration and evaluation expenditure under this joint venture agreement at the reporting date was \$4,370,000 (2019: \$4,134,000).

Notes to the consolidated financial report

For the year ended 30 June 2020

21. RELATED PARTIES

(a) Parent entity

The ultimate parent entity within the Group is Rey Resources Limited.

(b) Subsidiaries

Interests in subsidiaries are set out in note 19.

(c) KMP compensation

Disclosures relating to compensation of the KMP compensation comprised:

Individual Directors and executives compensation disclosures

<i>in dollars</i>	2020	2019
Short term benefits	263,122	307,000
Post-employment benefits	13,941	16,530

21. RELATED PARTIES (Continued)

1. An unsecured loan of \$3.8 million ("ASF Loan") was granted by ASF Group Ltd, a substantial shareholder of the Company, with maturity date on 31 December 2019 and interest bearing at 12% per annum. On 31 December 2019, the Company announced that it has agreed with ASF to reduce the facility amount from \$3.8 million to \$2 million and to extend the maturity date of the loan facility from 31 December 2019 to 31 March 2020. The Company further announced on 25 June 2020 that the maturity date was further extended to 31 October 2021.

As at 30 June 2020, an aggregate of \$1.54 million of ASF Loan had been drawn down.

2. An unsecured loan of \$500,000 was granted by Wanyan Liu ("Liu"), a substantial shareholder of the Company, with maturity date on 31 March 2021 and interest bearing 12% per annum ("First Liu Loan"). On 18 April 2019, the Company entered into another loan agreement with Liu for the granting of \$3 million additional loan ("Second Liu Loan"), with maturity date on 31 December 2020 and interest bearing at 12% per annum payable quarterly by cash. On 17 July 2019, the Company entered into a new loan agreement with Liu pursuant to which Liu agreed to grant a further loan facility of \$3 million ("Third Liu Loan") to the Company maturing 31 December 2021 and interest bearing 12% per annum. On 25 June 2020, the Company announced that Liu has agreed to increase the Second Liu Loan from \$3 million to \$5 million and extend the maturity date from 31 December 2020 to 31 October 2021.

As at 30 June 2020, the First Liu Loan had been fully drawn down. \$3 million and \$1.72 million had been drawn down under the Second Liu Loan and the Third Liu Loan respectively.

Notes to the consolidated financial report

For the year ended 30 June 2020

22. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS

Categories of financial instruments

The Group's financial instruments consist mainly of cash and cash equivalents, trade and other receivables, investment, trade and other payables, and loan and borrowings.

The totals for each category of financial instruments, measured in accordance with AASB 9 as detailed in the accounting policies to these financial statements, are as follows:

in thousands of dollars

	2020	2019
FVTPL		
-Investment ¹	-	106
Financial assets measured at amortised cost		
- Cash and cash equivalents	175	28
-Trade and other receivables	18	20
Total financial assets	193	154
Financial liabilities measured at amortised cost		
Trade and other payables	67	110
Total financial liabilities	67	110

- On 5 June 2015, the Company subscribed for \$250,000 of Norwest Energy NL (ASX:NWE) shares at a price of \$0.004712 per share on 5 June 2015. In January 2020, the Company disposed of all its shareholding of 53,056,027 shares in NWE for \$0.005 per share for a total consideration of \$265,280 (before costs).

Trade and other receivables: analysis of age of financial asset

The aging of trade and other receivables at the reporting date that were not impaired was as follows:

	2020	2019
Neither past due nor impaired	18	20

Financial risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

The Group does not use any form of derivatives for speculative purposes. The Group is not at a level of exposure that requires the use of derivatives to hedge its exposure.

The main risks the Group is exposed to through its financial instruments are liquidity risk and market risk which includes interest rate risk.

Notes to the consolidated financial report

For the year ended 30 June 2020

22. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's cash and cash equivalents, and trade and other receivables.

The carrying amount of financial assets represents the maximum credit exposure.

The Group limits its exposure to credit risk in respect of cash and cash equivalents and other deposits with banks by only dealing with reputable banks with high credit ratings.

In respect of trade and other receivables, the Group has no significant concentration of credit risk with respect to any single counter party or group of counter parties. The Group is not exposed to any significant credit risk as there were no trading operations during the year.

At 30 June 2020 and 30 June 2019, there was no impairment loss allowance and there were no receivables past due but not impaired.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate cash reserves from funds raised in the market, by continuously monitoring forecast and actual cash flows and ensuring that adequate uncommitted funding is available and maintained.

The following are the expected maturities of financial assets and the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

2020 in thousands of dollars	Carrying amount	Expected / contractual cash flows	6 months or less	6-12 months	1-2 years	2-5 years	More than 5 years
Financial liabilities							
Trade and other payables	67	67	67	-	-	-	-
Loans from shareholders	7,701	7,792	181	680	6,931	-	-
	7,768	7,859	248	680	6,931	-	-
2019 in thousands of dollars	Carrying amount	Expected / contractual cash flows	6 months or less	6-12 months	1-2 years	2-5 years	More than 5 years
Financial liabilities							
Trade and other payables	110	110	110	-	-	-	-
Loans from shareholders	5,534	6,188	2,827	180	3,181	-	-
	5,644	6,298	2,937	180	3,181	-	-

Notes to the consolidated financial report

For the year ended 30 June 2020

22. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Currency risk

The Group is not exposed to currency risk at the reporting date because the Group holds no financial assets or liabilities denominated in foreign currency.

Interest rate risk

The Group is exposed to interest rate risk which is the risk that a financial instrument's fair value or future cash flows will fluctuate as a result of changes in market interest rates on interest-bearing financial instruments.

At the reporting date, the Group had the following mix of financial assets exposed to interest rate risk.

in thousands of dollars

Variable rate instruments

Cash and cash equivalents

	2020	2019
	175	28
	175	28

At the reporting date, the Group had a total of \$10.5 million term loan facilities from shareholders. Due to the fixed interest rate of the loans, the Group is not exposed to interest rate fluctuations.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased or decreased profit or loss by \$0 (2019: \$374).

Fair values

The Group's share investment measured at fair value at the end of the reporting period on a recurring basis and categorised into Level 1 fair value hierarchy as defined in AASB 13 *Fair value measurement*. The fair value of the share investment is measured using unadjusted quote price on the Australian Securities Exchange.

During the year ended 30 June 2019 and 20, there were no transfers between Level 1 and Level 2 or transfer into or out of Level 3.

Except for the share investment, the carrying amounts of other financial assets and financial liabilities are assumed to approximate their fair values due to their short-term nature.

Notes to the consolidated financial report

For the year ended 30 June 2020

23. OPERATING SEGMENTS

The Group operates in two segments, mineral exploration and development and petroleum exploration in one geographical location, Western Australia. The consolidated financial results from these segments are equivalent to the financial statements of the Group.

C. Parent entity contingencies

As at 30 June 2020 and 2019, there are no contingent liabilities of the parent entity.

D. Parent entity capital commitments

As at 30 June 2020 and 2019, the parent entity has not entered into any material contractual agreements for the acquisition of property, plant or equipment.

E. Parent entity guarantees in respect of the debts of its subsidiaries

As at 30 June 2020 and 2019, there are no guarantees entered into by the parent entity.

Directors' Declaration For the year ended 30 June 2020

The Board of Directors of Rey Resources Limited declares that:

- (a) The consolidated financial statements and the accompanying notes are in accordance with the *Corporations Act 2001*, including:
- giving a true and fair view of the financial position as at 30 June 2020 and performance of the Group for the financial year ended on that date; and
 - complying with Australian Accounting Standards (including the Australian Accounting Interpretations), the *Corporations Regulations 2001* and other mandatory professional reporting requirements.
- (b) The Directors draw attention to note 2(a) of the consolidated financial statements, which includes a statement of compliance with the International Financial Reporting Standards.
- (c) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has received the declaration by the Managing Director and Financial Controller required by Section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2020.

Signed in accordance with a resolution of the Directors.

Min Yang
Non-Executive Chairman
Sydney, Australia
28 September 2020

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF REY RESOURCES LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Rey Resources Limited (the "Company") and its subsidiaries (the "Group") which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying consolidated financial statements of the Group are in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the consolidated financial statements in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(b) in the consolidated financial statements, which indicates that the Group incurred a net loss of \$1,880,000 and had operating and investing cash outflows totalling \$1,305,000 for the year ended 30 June 2020. The Group's current liabilities exceeded current assets by \$646,000 as at 30 June 2020. As stated in Note 2(b), these conditions, along with other matters as set forth in Note 2(b), indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the matter was addressed during the audit
<p>Exploration and Evaluation Expenditure (Note 13)</p> <p>As at 30 June 2020, the Group has \$36 million exploration and evaluation expenditure (E&E Expenditure) capitalised as assets.</p> <p>The E&E Expenditure must be assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount in accordance with AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>.</p> <p>E&E Expenditure was a key audit matter due to the size of the balances, being 99% of the Group's total assets. And the level of judgement required to be applied to prepare the impairment assessment.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Evaluating the Group's accounting policy to recognise E&E Expenditure using the criteria in the accounting standard AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>; • Reviewing the position paper, prepared by management, to identify if any impairment indicators have been identified for the E&E Expenditure and whether the carrying value is appropriate; • Assessing independently if there are facts, circumstances or impairment indicators which suggest that the carrying amount of the Group's E&E Expenditure may exceed its recoverable amount in accordance with AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>; • Considering whether the Group's right to explore in the relevant exploration areas is valid. This included obtaining and assessing relevant documentation such as contracts and legal documents on the Group's rights to explore; • Considering the Group's intention to continue to carry out exploration and evaluation activity in the relevant exploration area which included assessment of the Group's cash-flow forecasts and the strategy of the Group; • We obtained project and corporate budgets and evaluate the Group's ability to fund continued E&E activities and its capacity to secure additional funding when necessary; • We tested the Group's additions to E&E Expenditure for the year by evaluating a statistical sample of recorded expenditure for consistency to underlying records, the capitalisation requirements of the accounting standard; • Testing the mathematical accuracy of the cash flow models used in the impairment test; • Assessing the discount rates, commodity prices and other key assumptions to internal and external data, with involvement from our valuation specialists; and • Evaluating the adequacy of the related disclosures in the financial statements including those made with respect to judgements and estimates.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2020, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them, all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 16 to 22 of the directors' report for the year ended 30 June 2020.

In our opinion, the Remuneration Report of Rey Resources Limited for the year ended 30 June 2020 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

ASX ADDITIONAL INFORMATION

Additional Shareholder Information

Additional information required by the Australian Securities Exchange Listing Rules and not disclosed elsewhere in this Annual Report is set out below. The information was current as at 22 September 2020.

Corporate Governance Statement

ASX Listing Rule 4.10.3 requires ASX listed companies to report on the extent to which they have followed the Corporate Governance Principles and Recommendations (“ASX Principles”) released by the ASX Corporate Governance Council. The ASX Principles require the Board to consider the development and adoption of appropriate corporate governance policies and practices founded on the ASX Principles. For the 2020 financial year and to the date of this report, the Company followed and reports against the 3rd Edition of the ASX Principles. The Company’s 2020 Corporate Governance Statement is available from the Company’s website at <http://reyresources.com/corporate/corporate-governance/>
