Going concern

The Group had a net current asset deficiency at 30 June 2020 of \$1,988,054 (30 June 2019: deficiency of \$1,539,156) and had a cash outflow from operating and investing activities of \$934,230 for the year ended 30 June 2020 (30 June 2019: net cash outflow of \$1,409,244). As at 30 June 2020 the company had cash and cash equivalents of \$197,563 (2019: \$28,821). The net current asset deficiency is largely due to the convertible notes (amounting to \$1,037,179 as at 30 June 2020) being classified as current as they are due for repayment within 3 months of when the Company receives a redemption notice.

Notwithstanding the above the directors consider they have a reasonable basis to prepare the financial statements on a going concern basis after having regard to the following:

- On 20 August 2019 the Group raised \$195,000 by the issue of 15,000,000 fully paid ordinary shares at an issue price of A\$0.013 per share.
- On 18 September 2019 the Group received \$100,000 by way of an interest-bearing loan. The loan attracts interest of 10% per annum and, per the loan agreement was repayable by 9 December 2019. The lender, a director of the Company, has since agreed not to seek repayment of the loan until the Group has the funds to do so and such repayment will not place the Group in a position where it would be unable to pay its debts as and when they fall due. The Group expects to repay this loan by funds received from an expected capital raising or alternative funding arrangements.

- On 25 November 2019 the Group received A\$200,000 by way of an interest-bearing loan. The loan attracts interest of 10% per annum and, per the loan agreement was repayable by 15 January 2020. The lender, a director of the Company, has since agreed not to seek repayment of the loan until the Group has the funds to do so and such repayment will not place the Group in a position where it would be unable to pay its debts as and when they fall due. The Group expects to repay this loan by funds received from an expected capital raising or alternative funding arrangements.
- On 3 January 2020 the Group received A\$700,000 from an overseas investor as a subscription for 70,000,000 fully paid ordinary shares at an issue price of A\$0.01 per share. The Directors believe that they will be able to raise additional funding as required, however if they are unable to do so there is significant uncertainty whether the Group will be able to

continue as a going concern and therefore whether it will be able to pay its debts as and when they fall due and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.
