

## ASX ANNOUNCEMENT | COVATA LIMITED

### COVATA AND NSC GLOBAL ANNOUNCE FIRST JOINT CUSTOMER PROJECT WITH T-SYSTEMS SUBSIDIARY OF DEUTSCHE TELEKOM

**SYDNEY and LONDON – 4 December 2014 – Covata Limited (ASX:CVT) and reseller partner NSC Global today announced its first major joint project, which delivers on the companies' existing partnership, inked earlier this year. The project advances the European go-to-market strategy for the Covata Platform and marks the first major milestone in working towards a contractual agreement with T-Systems, a subsidiary of German based ICT Company Deutsche Telekom.**

Covata Limited (Covata) and NSC executives, working within an existing agreement, have formed a tighter partnership to sell the Covata Platform and provide ongoing support and development of Safe Share and future products across Europe.

Covata recently opened an office in London and NSC have confirmed they will be putting additional sales, marketing, technical and operational support behind the delivery of the Covata Platform as a service throughout the region.

**Yaseen Khan, CEO NSC Global, said,** "At NSC we focus on providing the highest quality products and services to solve key challenges businesses are facing and we believe that the Covata Platform and the Safe Share product will provide immense value as more businesses migrate their practices into the cloud."

**Trent Telford, Covata Founder and CEO affirmed,** "Our strategic partnership with NSC Global allows us to execute our vision of delivering game-changing enterprise security solutions to global marketplaces. The T-Systems market place will place Safe Share squarely in front of one of the largest enterprise customer bases in Europe. European companies are increasingly looking towards non-U.S. software companies to provide Software as a Service domiciled on EU soil. This deal will deliver secure file sharing to those European enterprises."

T-Systems has officially approved Safe Share for review to be distributed in their marketplace, a major milestone towards a reselling partnership. Additionally, a contract has been executed to acquire the necessary infrastructure to proceed with deployment.

T-Systems currently services the top 400 customers of Deutsche Telekom, including Shell, MAN and DHL. The companies enterprise cloud market focuses on large corporations, multinational companies, public and health sector organisations.
