About Wolf Minerals

Wolf Minerals is a dual listed (ASX: WLF, AIM: WLFE) specialty metals company. With global demand for tungsten rising and future global production expected to be constrained, Wolf Minerals is developing the third largest global tungsten resource at its Hemerdon project, located in the South West of England. The Company has strong cornerstone investors and project finance and environmental permitting in place. Wolf has also secured all major contracts for the project, with GR Engineering appointed as the EPC contractor and CA Blackwell being awarded the Mining contract. Production is expected to commence in mid-2015.
