

20 January 2015, PERTH

Quarterly Activities Report: December Quarter 2014

Volta Mining Limited (Volta, the Company) (ASX: VTM), is pleased to present its quarterly activities report for the period 1 October 2014 to 31 December 2014.

Key Points

- » The Company continues to consider acquisition opportunities, as they arise, both within the resource sector and non-resource sector, to complement its existing shareholder value creation strategy of iron ore exploration.
- » The company has relinquished the licences associated with the Mbombo Iron Ore Project in Gabon, West Africa.

Pilbara Region Iron Ore Projects - Update

During the quarter the Company undertook statutory rehabilitation of the drill sites in relation to the drilling programme which was completed in August 2014 at the Hancock Ranges Iron Ore Project. For full details of the drilling programme undertaken please refer to ASX announcement on 27 August 2014.

Mbombo Iron Ore Project, Gabon - Update

During the quarter, the Company relinquished all licences associated with the Mbombo Iron Ore Project in Gabon, West Africa.

Full ASX releases are available on the ASX website (www.asx.com.au) or Volta Mining's website (www.voltamining.com.au).

About Volta Mining Limited

Volta Mining Limited (ASX: VTM) is an iron ore company based in Perth, Australia with current interests in the acquisition, exploration and development of iron ore assets in Australia.

Volta Mining strengthened its iron ore portfolio in the Pilbara region of Western Australia with the acquisition of the entire issued share capital of Pilbara Commodities, in January 2014. Pilbara Commodities held a 100% interest in a number of exploration licences including the prospective Hancock Ranges Iron Ore Project. Volta is focused on progressing the exploration and development of its Pilbara project area.

Volta Mining listed on the ASX on 19 October 2011.
