

21 January 2015

APPOINTMENT OF CHIEF OPERATING OFFICER

Anatolia Energy Limited (the "Company" or "Anatolia") is pleased to announce that it has appointed Tom Young as Chief Operating Officer. Tom was formally Vice President of Operations for Cameco Resources, Inc., responsible for the Smith Ranch Highland and Crowe Butte ISR uranium mines in the United States. Cameco Corporation is the world's largest uranium producer operating six uranium mines globally. Tom has extensive experience in the development and operations of ISR uranium well-fields and plants, and will oversee the development of the Company's flagship Temrezli uranium project in central Turkey.

Tom has a M.Sc. Environmental Science and Engineering from the Colorado School of Mines, an MBA from the University of Denver and a B.Sc. Mining Engineering from the Colorado School of Mines, in addition to being licensed Professional Engineer in the State of Colorado.

Since mid 2012, Tom has been working with TetraTech overseeing the development of the Pre Feasibility Study on the Temrezli uranium project, giving him unique insight into the project.

The Company's Interim CEO & MD, Mr Paul Cronin said:

"Through Tom's involvement in the PFS, he has acquired detailed knowledge of our projects and people. His decision to join our team is a strong endorsement of the Temrezli uranium project. Tom's unique skills and experience will enable Anatolia to transition Temrezli to its development phase, and create a great platform for building a first class operating team. I am thrilled that Tom has accepted our offer, and look forward to working with him, during this very exciting phase in our Company's future."
