## **QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDING 31 DECEMBER 2014**

Dourado Resources Limited ('**Dourado**') presents the following overview of activities for the December 2014 quarter.

### Corporate

It was with great sadness that Dourado announced the death of executive director, Peter Del Fante.

Peter was a founding director of Dourado as well respected as a member of the mineral and resources community and will be greatly missed by us all.

Subsequent to the quarter end, Mr Peter Wall was appointed to the board of Dourado.

### *Capital Raising*

Dourado continues to seek investors to complete the placement of \$3M as approved at the 2014 annual general meeting.

### *Projects and Opportunities*

The Company is now seeking to maximise shareholder wealth through a capital raising to undertake work on its existing exploration projects, as well as discussion, negotiation and assessment of other projects and opportunities in various sectors.

The Board of Dourado Resources Limited has been approached to transact on a number of resource and non-resource based projects including one technology based business. The Board is considering these opportunities but at this stage all discussions are preliminary and non-binding. The Company will provide the appropriate ASX disclosure if and when negotiations proceed.

### Exploration

#### *Mooloogool Project*

Dourado has carried out geochemical field work in recent months on the most northern tenement in the Mooloogool group of

tenements. Field investigations have included mapping and surface sampling of some areas.

The base metal assay results already announced are encouraging but the Company is yet to announce the gold results before planning further work.

It is intended to expand this initial work through to a drilling program over some targets within the project area once capital raising is completed. A number of new targets have also been identified and further geophysical work is also being considered to enhance potential targets.

Some tenements have already been relinquished and all targets are currently being re-investigated.

#### *Other Projects*

Dourado is continually reassessing all its other projects to prioritise and consolidate its exploration ground to use and conserve funds efficiently. The Garden Gully project was sold during the last quarter and further areas may be relinquished.

The following tenement summary is provided in accordance with ASX Listing Rule 5.3.3.

<b>Tenement Location</b>	<b>Tenement Licence Number</b>	<b>Interest held as at 30 September 2014</b>	<b>Interest held as at 31 December 2014</b>	<b>Interest acquired or disposed of</b>
