### **Our Company**

We are a designer, manufacturer and supplier of innovative injectable drug delivery systems that can enhance and differentiate the injectable drugs, biologics and vaccines, or collectively injectable therapies, of our pharmaceutical and biotechnology customers. We have a broad portfolio of proprietary product platforms, including pre-filled syringes, drug reconstitution delivery systems, auto-injectors, wearable injectors, ocular delivery systems and other novel injectable drug delivery systems. Products within each platform are highly differentiated from competitors' products with a series of innovative features designed to optimize the safe, simple and convenient administration of an injectable therapy. We sell our products directly to pharmaceutical and biotechnology companies who incorporate them into the drug-device combination product that is supplied pre-filled and ready for administration by end-users such as health-care providers or patients. Products within each of our platforms can be customized by us to address specific customer, therapy, patient and/or commercial requirements. As of September 30, 2014, we had 15 active programs with multiple customers across all product platforms.

### **Recent Developments**

On January 15, 2015, we entered into a definitive global strategic agreement with AbbVie, Inc., or AbbVie, for the customization of our injectable drug delivery systems for use with AbbVie's drug portfolio. Under this global strategic agreement, we were selected by AbbVie as a preferred partner for the customization of innovative, differentiated drug delivery systems. In addition, pursuant to the agreement, AbbVie is required to pay us \$5 million by March 1, 2015 for the exclusive right to negotiate with us to form and enter into a mutually-agreeable commercial supply agreement. If consummated, we expect such commercial supply agreement to include exclusive access for particular indications to the Unifill Finesse™ prefilled syringe and the LISA™ reusable auto-injector for confidential target therapies within AbbVie's drug portfolio for the treatment of autoimmune diseases, as well as associated exclusivity fees.

We are currently finalizing our financial results for the second quarter ended December 31, 2014. While complete financial information and operating data are not available, based on information currently available, we estimate that as of December 31, 2014 we had approximately \$10.8 million of cash and cash equivalents (including restricted cash) and we estimate that our revenue was \$5.4 million for the second quarter ended December 31, 2014. These preliminary estimates have been prepared by, and are the responsibility of, our management. Our independent registered public accounting firm, KPMG LLP, has not audited or reviewed, and does not express an opinion with respect to, these estimates. Our actual cash and cash equivalents (including restricted cash) as of December 31, 2014 and our actual revenue for the second quarter ended December 31, 2014 may differ from these estimates due to the completion of our closing procedures with respect to the second quarter ended December 31, 2014, final adjustments and other developments that may arise between now and the time the financial results for the quarter are finalized. We expect to complete our closing procedures with respect to the second quarter ended December 31, 2014 after this offering is consummated. Accordingly, our consolidated financial statements as of and for the second quarter ended December 31, 2014 will not be available until after this offering is completed.

## RISK FACTORS

*Investing in our common stock involves a high degree of risk. Before investing in our common stock, you should carefully consider the risks described below, together with all of the other information contained in this prospectus supplement and the accompanying prospectus and incorporated by reference herein and therein, including from our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q. Some of these factors relate principally to our business and the industry in which we operate. Other factors relate principally to your investment in our securities. The risks and uncertainties described therein and below are not the only risks facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also materially and adversely affect our business and operations.*

*If any of the matters included in the following risks were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially and adversely affected. In such case, you may lose all or part of your investment.*

**The exercise of options and warrants and other issuances of shares of common stock or securities convertible into or exercisable for shares of common stock following this offering will dilute your ownership interests and may adversely affect the future market price of our common stock.**

Sales of our common stock in the public market, either by us or by our current stockholders, or the perception that these sales could occur, could cause a decline in the market price of our securities. As of September 30, 2014, other than 2,509,811 shares of unvested restricted stock, all shares of our common stock held by our current stockholders who are not affiliates may be immediately eligible for resale in the open market either in compliance with an exemption under Rule 144 promulgated under the Securities Act of 1933, as amended, or the Securities Act, or pursuant to an effective resale registration statement that we have previously filed with the SEC. Such sales, along with any other market transactions, could adversely affect the market price of our common stock.

In addition, (i) 3,922,411 shares of our common stock were issuable to our employees and directors upon the exercise of outstanding stock options as of September 30, 2014, at a weighted average exercise price of \$4.73 per share, of which options to purchase 2,060,907 shares of our common stock were then exercisable, (ii) 2,050,003 shares of our common stock were issuable to persons other than our employees and directors upon the exercise of outstanding stock options and warrants as of September 30, 2014, at a weighted average exercise price of \$4.85 per share, of which options and warrants to purchase 1,050,003 shares of our common stock were then exercisable, (iii) 4,000,000 shares of our common stock were issued to our Chairman of the Board of Directors and Chief Executive Officer on November 14, 2014 under the Non-Plan Based Restricted Stock Award, (iv) we have agreed to issue 695,000 shares of our common stock to our incoming Senior Vice President and Chief Financial Officer on February 23, 2015, his expected first day of employment with us, to other new hires and to certain other current employees under the Stock Incentive Plan, (v) 2,721,042 shares of our common stock were issued to our employees since September 30, 2014, (vi) an aggregate of 8,207,725 shares of our common stock were reserved for future grants of stock options and other stock-based awards under the Stock Incentive Plan as of the date of this prospectus supplement, and (vii) an aggregate of                      shares representing the CDIs sold in the Australian private placement. The exercise of options and warrants at prices below the market price of our common stock could adversely affect the price of shares of our common stock. Additional dilution may result from the issuance of shares of our common stock in connection with collaborations or manufacturing arrangements or in connection with other financing efforts.

Any issuance of our common stock that is not made solely to then-existing stockholders proportionate to their interests, such as in the case of a stock dividend or stock split, will result in dilution to each stockholder by reducing his, her or its percentage ownership of the total outstanding shares. Moreover, if we issue options or warrants to purchase our common stock or restricted stock in the future and those options or warrants are exercised you may experience further dilution. Holders of shares of our common stock have no preemptive rights that entitle them to purchase their pro rata share of any offering of shares of any class or series.

**You will suffer immediate and substantial dilution in the securities you purchase.**

The public offering price of \$        per share of our common stock is substantially higher than the pro forma net tangible book value per share of our outstanding shares immediately after this offering. As a result, investors purchasing securities in this offering will incur immediate and substantial dilution of approximately \$        per share of common stock, or approximately    % of the public offering price. Accordingly, existing stockholders will benefit disproportionately from this offering. If we raise additional capital through the sale of equity, including convertible securities, your percentage of ownership will be diluted. You may also experience additional dilution if stock options or warrants to purchase our shares are exercised or we issue additional shares of restricted stock at less than the offering price. As of the date of this prospectus supplement, we have reserved 8,207,725 shares of our common stock for issuance under our Stock Incentive Plan.

**We have broad discretion in the use of the net proceeds of this offering and, despite our efforts, we may use the proceeds in a manner that does not improve our operating results or increase the value of your investment.**

We currently anticipate that the net proceeds from the sale of our common stock will be used for investments in our plant, equipment, systems and personnel to further develop our manufacturing and operational capabilities to satisfy current and future customer orders and general corporate purposes, including working capital, acquisitions and other business opportunities. However, we have not determined the specific allocation of the net proceeds among these potential uses. Our management will have broad discretion over the use and investment of the net proceeds of this offering, and, accordingly, investors in this offering will need to rely upon the judgment of our management with respect to the use of proceeds, with only limited information concerning our specific intentions. These proceeds could be applied in ways that do not improve our operating results or increase the value of your investment. Please see the section entitled “Use of Proceeds” on page S-8 of this prospectus supplement for further information.

Before deciding to purchase our securities, you should carefully consider the risk factors discussed and incorporated by reference in this prospectus supplement and the accompanying prospectus and in the registration statement of which this prospectus supplement and the accompanying prospectus form a part.

## USE OF PROCEEDS

We estimate that the net proceeds from the sale of the shares of common stock that we are offering will be approximately \$       million, or approximately \$       million if the underwriters exercise in full their option to purchase up to       additional shares of common stock, based on the public offering price of \$       per share and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We intend to use the net proceeds from the sale of the shares of common stock offered hereby for investments in our plant, equipment, systems and personnel to further develop our manufacturing and operational capabilities to satisfy current and future customer orders and general corporate purposes, including working capital, acquisitions and other business opportunities.

As of the date of this prospectus supplement, we cannot specify with certainty all of the particular uses for the net proceeds to us from this offering. Accordingly, our management will have broad discretion in the application of these proceeds.

Pending the use of the net proceeds, we intend to invest the net proceeds in short-term, interest-bearing instruments and investment grade securities.

## DILUTION

Purchasers of common stock in this offering will experience immediate dilution to the extent of the difference between the public offering price per share of common stock, and the net tangible book value per share of common stock immediately after this offering.

Our net tangible book value as of September 30, 2014 was approximately \$(13.7) million, or \$(0.12) per share of common stock. Net tangible book value per share is determined by dividing total tangible assets less total liabilities, by the aggregate number of shares of common stock outstanding as of September 30, 2014. After giving effect to the sale by us of        shares of common stock at the public offering price of \$        per share of common stock and after deducting the underwriting discounts and commissions and estimated offering expenses, our net tangible book value as of September 30, 2014 would have been approximately \$        million, or \$        per share of common stock. This represents an immediate increase in net tangible book value of \$        per share to our existing stockholders and an immediate dilution of \$        per share of common stock issued to the new investors purchasing securities in this offering.

The following table illustrates this per share dilution:

Public offering price per share of common stock .....	\$
Net tangible book value per share as of September 30, 2014 .....	\$(0.12)
Increase per share attributable to new investors .....	<u>\$</u>
As adjusted net tangible book value per share after this offering .....	\$
Dilution per share to new investors purchasing our common stock in this offering .....	<u><u>\$</u></u>

If the underwriters exercise in full their option to purchase up to        additional shares of common stock in this offering at the public offering price of \$        per share, the as adjusted net tangible book value per share after the offering would be \$        per share, representing an increase in the net tangible book value of \$        per share to existing stockholders and immediate dilution in net tangible book value of \$        per share to new investors purchasing our common stock in this offering.

The above discussion and table are based on 109,502,837 shares of common stock outstanding as of September 30, 2014, and do not include:

- 3,922,411 shares of our common stock issuable to our employees and directors upon the exercise of stock options outstanding as of September 30, 2014, at a weighted average exercise price of \$4.73 per share, of which options to purchase 2,060,907 shares of our common stock were then exercisable;
- 2,050,003 shares of our common stock issuable to persons other than our employees and directors upon the exercise of stock options and warrants outstanding as of September 30, 2014, at a weighted average exercise price of \$4.85 per share, of which options and warrants to purchase 1,050,003 shares of our common stock were then exercisable;
- 4,000,000 shares of our common stock issued to our Chairman of the Board of Directors and Chief Executive Officer on November 14, 2014 under the Non-Plan Based Restricted Stock Award;
- 695,000 shares of our common stock that we have agreed to issue to our incoming Senior Vice President and Chief Financial Officer on February 23, 2015, his expected first day of employment with us, to other new hires and to certain other current employees under the Stock Incentive Plan;
- 2,721,042 shares of our common stock issued to our employees since September 30, 2014;
- an aggregate of 8,207,725 shares of our common stock reserved for future grants of stock options and other stock-based awards under the Stock Incentive Plan as of the date of this prospectus supplement; and
- an aggregate of        shares representing the CDIs sold in the Australian private placement.

To the extent that options or warrants are exercised, new options are issued under our Stock Incentive Plan or we issue additional shares of common stock in the future, there may be further dilution to investors participating in this

offering. In addition, we may choose to raise additional capital because of market conditions or strategic considerations, even if we believe that we have sufficient funds for our current or future operating plans. If we raise additional capital through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

## UNDERWRITING

Subject to the terms and conditions set forth in the underwriting agreement, dated January , 2015, among us and Jefferies LLC and Piper Jaffray & Co., as the representatives of the underwriters named below and the joint book-running managers of this offering, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the respective number of shares of common stock shown opposite its name below:

<b>UNDERWRITERS</b>	<b>NUMBER OF SHARES</b>
Jefferies LLC .....	
Piper Jaffray & Co. ....	
Total .....	

The underwriting agreement provides that the obligations of the several underwriters are subject to certain conditions precedent such as the receipt by the underwriters of officers' certificates and legal opinions and approval of certain legal matters by their counsel. The underwriting agreement provides that the underwriters will purchase all of the shares of common stock if any of them are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated. We have agreed to indemnify the underwriters and certain of their controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of those liabilities.

The underwriters have advised us that, following the completion of this offering, they currently intend to make a market in the common stock as permitted by applicable laws and regulations. However, the underwriters are not obligated to do so, and the underwriters may discontinue any market-making activities at any time without notice in their sole discretion. Accordingly, no assurance can be given as to the liquidity of the trading market for the common stock, that you will be able to sell any of the common stock held by you at a particular time or that the prices that you receive when you sell will be favorable.

The underwriters are offering the shares of common stock subject to their acceptance of the shares of common stock from us and subject to prior sale. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

### Commission and Expenses

The underwriters have advised us that they propose to offer the shares of common stock at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers, which may include the underwriters, at that price less a concession not in excess of \$ per share of common stock. After the offering, the public offering price and concession to dealers may be reduced by the representatives. No such reduction will change the amount of proceeds to be received by us as set forth on the cover page of this prospectus supplement.

The following table shows the public offering price, the underwriting discounts and commissions that we are to pay the underwriters and the proceeds, before expenses, to us in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	PER SHARE		TOTAL	
	WITHOUT OPTION TO PURCHASE ADDITIONAL SHARES	WITH OPTION TO PURCHASE ADDITIONAL SHARES	WITHOUT OPTION TO PURCHASE ADDITIONAL SHARES	WITH OPTION TO PURCHASE ADDITIONAL SHARES
Public offering price .....	\$	\$	\$	\$
Underwriting discounts and commissions paid by us .....	\$	\$	\$	\$
Proceeds to us, before expenses .....	\$	\$	\$	\$

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$395,000. We have also agreed to reimburse the underwriters for certain of their expenses in an amount up to \$25,000 in the aggregate.

### Listing

Our common stock is listed on The NASDAQ Global Market under the trading symbol "UNIS." Our common stock is also listed on the ASX in the form of CDIs under the trading symbol "UNS."

### Option to Purchase Additional Shares

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase, from time to time, in whole or in part, up to an aggregate of \_\_\_\_\_ additional shares of common stock from us at the public offering price set forth on the cover page of this prospectus supplement, less underwriting discounts and commissions. If the underwriters exercise this option, each underwriter will be obligated, subject to specified conditions, to purchase a number of additional shares of common stock proportionate to that underwriter's initial purchase commitment as indicated in the table above.

### No Sales of Similar Securities

We and each of our executive officers and directors have agreed, subject to specified exceptions, not to directly or indirectly:

- sell, offer to sell, contract to sell or lend any shares or related securities currently or hereafter owned either of record or beneficially (as defined in Rule 13d-3 under the Exchange Act of 1934, as amended, or the Exchange Act), or
- effect any short sale, or establish or increase any "put equivalent position" (as defined in Rule 16a-1(h) under the Exchange Act) or liquidate or decrease any "call equivalent position" (as defined in Rule 16a-1(b) under the Exchange Act) of any shares or related securities, or
- pledge, hypothecate or grant any security interest in any shares or related securities, or
- in any other way transfer or dispose of any shares or related securities, or
- enter into any swap, hedge or similar arrangement or agreement that transfers, in whole or in part, the economic risk of ownership of any shares or related securities, regardless of whether any such transaction is to be settled in securities, in cash or otherwise, or
- publicly announce the intention to do any of the foregoing for a period of 90 days after the date of this prospectus supplement without the prior written consent of Jefferies LLC and Piper Jaffray & Co.

This restriction terminates after the close of trading of the common stock on and including the 90th day after the date of this prospectus supplement. However, subject to certain exceptions, in the event that either:

- during the last 17 days of the 90-day restricted period, we issue an earnings release or material news or a material event relating to us occurs, or
- prior to the expiration of the 90-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 90-day restricted period,

then in either case the expiration of the 90-day restricted period will be extended until the expiration of the 18-day period beginning on the date of the issuance of an earnings release or the occurrence of the material news or event, as applicable, unless Jefferies LLC or Piper Jaffray & Co. waive, in writing, such an extension.

Jefferies LLC and Piper Jaffray & Co. may, in their sole discretion and at any time or from time to time before the termination of the 90-day period release all or any portion of the securities subject to lock-up agreements. There are no existing agreements between the underwriters and any of our stockholders who will execute a lock-up agreement, providing consent to the sale of shares prior to the expiration of the lock-up period.

### **Stabilization**

The underwriters have advised us that they, pursuant to Regulation M under the Exchange Act, may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in the United States in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the common stock at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either “covered” short sales or “naked” short sales.

“Covered” short sales are sales made in an amount not greater than the underwriters’ option to purchase additional shares of our common stock in this offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares of our common stock or purchasing shares of our common stock in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares.

“Naked” short sales are sales in excess of the option to purchase additional shares of our common stock. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares of our common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of shares of common stock on behalf of the underwriters for the purpose of fixing or maintaining the price of the common stock. A syndicate covering transaction is the bid for or the purchase of shares of common stock on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering. Similar to other purchase transactions, the underwriters’ purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriters to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the common stock originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member. Neither we, nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. The underwriters are not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

The underwriters may also engage in passive market making transactions in our common stock on The NASDAQ Global Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our common stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker’s bid, that bid must then be lowered when specified purchase limits are exceeded.

## **Electronic Distribution**

A prospectus supplement and the accompanying prospectus in electronic format may be made available by e-mail or on the web sites or through online services maintained by one or more of the underwriters or their affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of shares of common stock for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations. Other than this prospectus supplement and the accompanying prospectus in electronic format, the information on the underwriters' web sites and any information contained in any other web site maintained by any of the underwriters is not part of this prospectus supplement or the accompanying prospectus, has not been approved and/or endorsed by us or the underwriters and should not be relied upon by investors.

## **Other Activities and Relationships**

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the underwriters or their respective affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The underwriters and their respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the common stock offered hereby. Any such short positions could adversely affect future trading prices of the common stock offered hereby. The underwriters and certain of their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

## **EXPERTS**

The consolidated balance sheets of the Company as of June 30, 2014 and 2013, and the related consolidated statements of operations and comprehensive loss, stockholders' equity, and cash flows for each of the years in the three-year period ended June 30, 2014, included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2014 and the effectiveness of the Company's internal control over financial reporting as of June 30, 2014 have been audited by KPMG LLP, an independent registered public accounting firm, as set forth in their reports thereon, included therein, and incorporated herein by reference. Such consolidated financial statements are incorporated herein by reference in reliance upon such reports given on the authority of such firm as experts in accounting and auditing. KPMG LLP's report on the consolidated financial statements dated September 15, 2014 contains an explanatory paragraph that states that the Company has incurred recurring losses from operations and has limited cash resources, which raise substantial doubt about its ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of that uncertainty.

The term “selling stockholders” includes the stockholders listed below and their transferees, pledgees, donees, assignees or other successors. We are paying all of the expenses in connection with such registration and the sale of the shares, other than selling commissions and the fees and expenses of counsel and other advisors to the selling stockholders. Information concerning the selling stockholders may change from time to time, and any changed information will be set forth if and when required in prospectus supplements or other appropriate forms permitted to be used by the SEC. Except as otherwise disclosed herein, to our knowledge, none of the selling stockholders is a broker-dealer and/or affiliated with a broker-dealer. The selling stockholders in the following table acquired or will acquire their shares upon exercise of warrants issued to them in December 2010 and August 2012 for services they provided to us in connection with the development of our new manufacturing facility. These warrants are exercisable at \$5.30 per share.

Unless otherwise indicated, the selling stockholders have sole voting and investment power with respect to their shares of common stock. All of the information contained in the table below is based solely upon information provided to us by the selling stockholders or otherwise known by us. In addition to the shares offered hereby, which represent such shares of our common stock issuable upon exercise of previously issued warrants by the respective selling stockholders, the selling stockholders may otherwise beneficially own our shares of common stock as a result of, among others, open market purchases, which information is not obtainable by us without undue effort and expense. The selling stockholders may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time or from time to time since the date on which the information regarding the shares beneficially owned was last known by us, all or a portion of the shares beneficially owned in transactions exempt from the registration requirements of the Securities Act.

For the purposes of the following table, the number of shares of our common stock beneficially owned has been determined in accordance with Rule 13d-3 under the Exchange Act, and such information is not necessarily indicative of beneficial ownership for any other purpose. Under Rule 13d-3, beneficial ownership includes any shares as to which a selling stockholder has sole or shared voting power or investment power and also any shares which that selling stockholder has the right to acquire within 60 days of the date of this prospectus through the exercise of any stock option.

Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If we and/or the selling stockholders, if applicable, use underwriters in the sale, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including:

- at a fixed public offering price or prices, which may be changed;

Unless otherwise stated in a prospectus supplement, the obligations of the underwriters to purchase any securities will be conditioned on customary closing conditions and the underwriters will be obligated to purchase all of such series of securities, if any are purchased.

We and/or the selling stockholders, if applicable, may sell the securities through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the securities and any commissions we pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

We and/or the selling stockholders, if applicable, may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities from Unilife at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

In offering the shares covered by this prospectus, the selling stockholders, and any broker-dealers and any other participating broker-dealers who execute sales for the selling stockholders, may be deemed to be “underwriters” within the meaning of the Securities Act in connection with these sales. Any profits realized by the selling stockholders and the compensation of such broker-dealers may be deemed to be underwriting discounts and commissions.

Underwriters and agents may be entitled under agreements entered into with Unilife and/or the selling stockholders, if applicable, to indemnification by Unilife and/or the selling stockholders, if applicable, against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the underwriters or agents may be required to make. Underwriters and agents may be customers of, engage in transactions with, or perform services for Unilife and its affiliates in the ordinary course of business.

Each series of securities will be a new issue of securities and will have no established trading market other than the common stock which is listed on the Nasdaq Global Market. Any underwriters to whom securities are sold for public offering and sale may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. The securities, other than the common stock, may or may not be listed on a national securities exchange.

## **EXPERTS**

The consolidated financial statements of Unilife Corporation as of June 30, 2014 and 2013 and for each of the years in the three-year period ended June 30, 2014 and management's assessment of the effectiveness of internal control over financial reporting as of June 30, 2014 have been incorporated by reference herein and in the registration statement in reliance upon the reports of KPMG LLP, independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.
