RESULTS

The loss for the half year after tax was \$214,332 (2010: \$222,276).

During the financial year, the Company raised \$210,000 via the issue of the Series B Convertible Notes. These funds were used for due diligence purposes with respect to an oil fields acquisition in the USA.

BACKGROUND TO THE VOLUNTARY ADMINISTRATION

On 9 April 2009, the Directors of the Company appointed Martin Jones, Andrew Saker and Darren Weaver as Joint and Several Administrators of the company.

On 11 September 2009, Power Knight Pte Ltd ("Power Knight"), the secured creditor of Natural Fuels Pty Ltd ("NFPL") notified NFPL and NFL that they were exercising their rights under the Convertible Loan Facility Deed dated 23 April 2008 and the Debenture Document dated 13 May 2008 and appointed a Receiver and Manager.

At a reconvened second meeting of creditors of Natural Fuel Limited held on 20 October 2009, creditors resolved that Natural Fuel Limited execute a Deed of Company Arrangement ("DOCA") pursuant to Part 5.3A of the Corporations Act on the terms proposed by NRG Capital Pty Ltd as detailed in the Second Administrators' Report to Creditors dated 12 October 2009.

On 23 October 2009, upon the application of Rotary Engineering Limited a creditor of NFPL, the High Court of Singapore Ordered the compulsory winding up of NFPL and the Appointment of a Liquidator.

Variation of Deed of Company Arrangement ("DOCA")

In a circular to Creditors dated 17 June 2010, the Administrators has advised that the effect of NRG submissions of their recapitalisation plan to ASX being unsuccessful , the Company is required to comply with the requirements of Chapters 1 and 2 of the Listing Rules, before it could be reinstated on the ASX. This has resulted in a proposed variation to the initial DOCA.

BACKGROUND TO THE VOLUNTARY ADMINISTRATION (CONT'D)

The proposed variation has the effect of amending the principal features of the Recapitalisation Proposal as follows:

- | | |
|---|--|
| (a) Consolidation of Capital | Consolidation of existing issued capital of the Company on a 1 for 700 basis |
| (b) Reduction of Capital | The capital of the Company to be reduced by applying an amount being a portion of the accumulated losses of the Company against the Share capital which is considered permanently lost |
| (c) Satisfaction of Admitted Unsecured Creditors Debt | The issue of 400,000 new shares to the Admitted Unsecured Creditors in full and final satisfaction of their debt |
| (d) Capital Raising | The issue of up to 2.5 million new shares in the Company at a price of 10 cents each to raise up to \$250,000 and the issue of convertible notes raising an additional \$250,000 |

At a meeting held on 29 June 2010, the Creditors resolved that the Company vary the DOCA in terms materially consistent with NRG's varied DOCA proposal.

A shareholder meeting was held on 16 August 2010 at which various resolutions were passed to provide for the company to raise additional capital, including the consolidation and reduction of capital on a 1 for 700 basis. This has been effected with a record date of 24 August 2010.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

STATEMENT OF COMPLIANCE

The interim financial statements are a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

These half-year financial statements do not include full disclosures of the type normally included in an annual financial statement. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Company as in the full financial statements.

It is recommended that these half-year financial statements be read in conjunction with the annual financial statements for the year ended 30 June 2011 and any public announcements made by Bridge Global Capital Management Limited (formerly Natural Fuel Limited) during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

BASIS OF PREPARATION

These half-year financial statements have been prepared on a historical cost basis, except for the revaluation of certain financial instruments. Cost is based on the fair value of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim financial statements, the half-year has been treated as a discrete reporting period.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements except for the adoption of the following new and revised Accounting Standards.

ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Company.

Management anticipates that all of the relevant pronouncements will be adopted in the Company's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements.

IFRS 9 / AASB 9 Financial Instruments (effective from 31 December 2013)

AASB 9 introduces new requirements for the classification and measurement of financial assets and liabilities. It was further amended by AASB 2010-7 to reflect amendments to the accounting for financial liabilities.

These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. The main changes are described below.

- (a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows.
- (b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument.

BRIDGE GLOBAL CAPITAL MANAGEMENT LIMITED (formerly Natural Fuel Limited)
NOTES TO THE FINANCIAL STATEMENTS

(c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases.

(d) Where the fair value option is used for financial liabilities the change in fair value is to be accounted for as follows:

(i) The changes attributable to changes in credit risk are presented in other comprehensive income (OCI).

(ii) The remaining change is presented in profit or loss.

If this approach creates or enlarges an accounting mismatch in the profit or loss, the effect of the changes in credit risk are also presented in profit or loss.

Management have yet to assess the impact that this amendment is likely to have on the financial statements of the Company, although any impact is not expected to be significant.

AASB 1054 Additional Australian Disclosures (effective from 30 June 2012)

This Standard is as a consequence of phase 1 of the joint Trans-Tasman Convergence project of the AASB and FRSB.

This Standard sets out the Australian-specific disclosures for entities that have adopted Australian Accounting Standards. This Standard contains disclosure requirements that are additional to IFRSs.

This Standard, with AASB 2011-01, relocates all Australian specific disclosures from other standards to one place and revises disclosures in the following areas:

- (a) Compliance with Australian Accounting Standards
- (b) The statutory basis or reporting framework for financial statements
- (c) Whether the financial statements are general purpose or special purpose
- (d) Audit fees
- (e) Imputation credits
- (f) Reconciliation of net operating cash flow to profit

This Standard is not expected to have a significant impact on the entity.

AASB 2011-3 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements [AASB 124] (effective from 30 June 2014)

The Standard makes amendments to AASB 124 Related Party Disclosures to remove individual key management personnel disclosure requirements.

The Standard makes amendments to remove the individual key management personnel disclosure requirements, as these are considered to be more in the nature of corporate governance and are generally covered in the Corporations Act and disclosed within the Directors and/or Remuneration Report. This Standard is not expected to have an impact on the entity.

AASB 12 Disclosure of Interests in Other Entities (effective from 31 December 2014)

AASB 12 includes all disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. New disclosures have been introduced about the judgements made by management to determine whether control exists, and to require summarised information about joint arrangements, associates and structured entities and subsidiaries with non-controlling interests.

AASB 12 combines the disclosure requirements for subsidiaries, joint arrangements, associates and structured entities within a comprehensive disclosure standard. It aims to provide more transparency on 'borderline' consolidation decisions and enhance disclosures about unconsolidated structured entities in which an investor or sponsor has involvement.

BRIDGE GLOBAL CAPITAL MANAGEMENT LIMITED (formerly Natural Fuel Limited)
NOTES TO THE FINANCIAL STATEMENTS

There are some additional enhanced disclosures centred around significant judgements and assumptions made around determining control, joint control and significant influence, however, this Standard is not expected to have an impact on the entity.

AASB 13 Fair Value Measurement (effective from 31 December 2013)

AASB 13 establishes a single source of guidance under AASB for determining the fair value of assets and liabilities. AASB 13 does not change when an entity is required to use fair value, but rather, provides guidance on how to determine fair value under AASB when fair value is required or permitted by AASB. Application of this definition may result in different fair values being determined for the relevant assets.

AASB 13 has been created to:

- establish a single source of guidance for all fair value measurements;
- clarify the definition of fair value and related guidance; and
- enhance disclosures about fair value measurements (new disclosures increase transparency about fair value measurements, including the valuation techniques and inputs used to measure fair value).

AASB 12 combines the disclosure requirements for subsidiaries, joint arrangements, associates and structured entities within a comprehensive disclosure standard. It aims to provide more transparency on 'borderline' consolidation decisions and enhance disclosures about unconsolidated structured entities in which an investor or sponsor has involvement. This Standard is not expected to have a significant impact on the entity.

GOING CONCERN

The financial report has been prepared on a going concern basis which assumes the commercial realisation of the future potential of the Company's assets and discharge of liabilities in the normal course of business, on the basis of its new business activities as at the signing date of this report.

On 7 September 2010, after the end of the 2010 financial year, the DOCA was wholly effectuated with control of the company reverted back to the Directors. In the intervening period since this date, the Company has undertaken due diligence on a number of new business opportunities, funded via the issue of Convertible Notes Series A, B, and C.

The Company is in the process of finalising a raising of up to \$6 million through the issue of 30 million shares at \$0.20 per share, with a minimum subscription of \$2,000,000 and plans to issue a replacement prospectus on 13 February 2015 so as to enable it to finalize the acquisition of Bridge Global Securities and complete the re-compliance obligations necessary for the Company to recommence trading on the ASX.

At the date of this report the Company has enough capital to satisfy the ASX net tangible assets ("NTA") test and the Prospectus minimum subscription requirements.

The Directors believe that, with the acquisition of Bridge Global Securities Pty Ltd and the associated significant capital raising associated with this new business investment, it is appropriate to prepare the financial statements on the going concern basis

BRIDGE GLOBAL CAPITAL MANAGEMENT LIMITED (formerly Natural Fuel Limited)
