Directors

The names and particulars of the directors of the Company during or since the end of the financial period are:

Stephen Zurhaar Non-Executive Chairman

Vincent Goss Executive Director

Ranko Matic Non-Executive Director

Review of operations for the period

The profit of the consolidated entity after providing for income tax amounted to \$3,871,380 (2013: \$314,878).

Sales revenue for the period was \$26.4 million up 11.6% from the levels achieved in the previous corresponding period. Whilst revenues were below expectations for the half due to tighter market conditions, increasing services and minor capital works tender opportunities across all of Valmec's markets underpin Management's expectations for a stronger second half.

Whilst underlying EBITDA for 31 December 2014 was also stronger at \$2.1 million, Net Profit after Tax of \$3.8m was achieved on the back of acquisition gains from the Exterran (Australia) Pty Ltd ("Exterran") acquisition.

With the recent completion of the Exterran acquisition delivering Valmec new capabilities in field and workshop maintenance, spare parts, engineering and operations support to the power, oil and gas sector, Valmec is ideally positioned to capitalise on the expected growth in this sector. Even though the completion of this transaction only just occurred in December 2014, the Company has already commenced tendering for a variety of sales and service opportunities where Valmec can deliver value through the asset or project lifecycle.

Whilst we expect to see some challenges for contractors in the short term as larger construction opportunities reduce, Valmec's ability to scale and diversify its projects mix, will continue to hold it in good stead. Tendering continues on a number of oil and gas, resources and infrastructure projects across Australia and the volume of opportunities for Valmec is only expected to increase as potential clients gain a better understanding of our lean contracting and concept to operations' capabilities.

Health and Safety

Valmec achieved a significant safety performance milestone during the period. In October 2014, the Company recorded over 500,000 hours being worked without a lost time injury (LTI) being recorded.

The Company's focus on safety leadership and ongoing communication of its key HSE messages across all of its operations has no doubt contributed to this milestone that our Team is proud of, and committed to extending further.

Events after the Reporting Period

There has not been any matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

Auditors Declaration

The auditor's independence declaration under s 307C of the *Corporations Act 2001* has been received and is included within this half-year financial report.

Rounding of Amounts

The Company is an entity to which ASIC Class Order 98/100 applies and, accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars.
