Amcom Shareholders should seek independent financial, taxation or other professional advice before making any decision regarding the Scheme.

Forward looking statements

Certain statements in this Scheme Booklet, including statements relating to Amcom's or Vocus' plans, intentions or expectations of future costs relate to the future and are forward looking statements or information. These forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors that could cause the actual results, performance or achievements of Amcom or Vocus to be materially different from future results, performance or achievements expressed or implied by such statements. Such material risks, uncertainties and other important factors include, among other things, general economic conditions, exchange rates, interest rates, the regulatory environment, competitive pressures, selling price and market demand.

Assumptions upon which forward looking statements related to the Scheme are based include, without limitation: (a) that Amcom Shareholders will approve the Scheme; (b) that the Court will approve the Scheme; and (c) that all other Conditions to the completion of the Scheme will be satisfied or waived. Many of these assumptions are based on factors and events that are not within the control of Amcom or Vocus and may not prove to be correct.

Factors that could cause actual results to vary materially from results anticipated by such forward looking statements include, but are not limited to: the parties' ability to consummate the Scheme; the Conditions to the completion of the Scheme, including the receipt of Amcom Shareholder approval, or Court approval on the terms expected or on the anticipated schedule; the parties' ability to meet expectations regarding the timing of completion; and accounting and tax treatments of the Scheme and the factors identified under Section 7 of this Scheme Booklet, as well as in Amcom's recent annual, half-yearly financial reports, which are available from Amcom's website at www.amcom.com.au.

Without limiting the generality of the other provisions of this cautionary statement, the Independent Expert's Report appearing as Annexure A of this Scheme Booklet may contain or refer to forward looking information and is subject to certain assumptions, limitations, risks and uncertainties as described herein and therein.

Other than as required by law, neither Amcom nor Vocus nor any other person gives any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward looking statements in this Scheme Booklet will actually occur. Amcom Shareholders are cautioned about relying on any such forward looking statements. The forward looking statements in this Scheme Booklet reflect views held only at the date of this Scheme Booklet. Additionally, statements of the intentions of Vocus reflect its present intentions as at the date of this Scheme Booklet and may be subject to change. Forward looking statements are made as at the date of this Scheme Booklet and neither Amcom nor Vocus undertakes to publicly update or revise any forward looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law.

Estimates, targets and forecasts

Unless otherwise indicated, all references to estimates, targets and forecasts and derivatives of the same in this Scheme Booklet are references to estimates, targets and forecasts by management of either Amcom or Vocus (as applicable). Management estimates, targets and forecasts are based on views held only at the date of this Scheme Booklet, and actual events and results may be materially different from them.

Each of Amcom and Vocus believe that any forecast attributed to it in this Scheme Booklet has been made on reasonable grounds. However, readers are cautioned that the estimates, targets and forecasts are subject to a variety of factors that are likely to cause actual results to vary from them, and such variations may be material. Forward looking information generally involves risks and uncertainties as described above, which are in many instances beyond Amcom and Vocus' control, including amongst other things, global economic conditions, specific market conditions, regulatory developments, exchange rates, interest rates and regulatory changes. A description of certain risks are set out in Section 7 of this Scheme Booklet.

These could cause actual events and results to vary significantly from those included in or contemplated by such statements.

Any estimates, targets or forecasts reflect certain assumptions by Amcom and/or Vocus which assumptions may differ with respect to future events, economic, competitive and regulatory conditions, financial market conditions and future business decisions, including a continuation of existing business operations on substantially the same basis as currently exists, all of which assumptions are difficult to predict and many of which are beyond Amcom and Vocus' control. Accordingly, there can be no assurance that any estimate, forecast or target is indicative of Amcom and Vocus' future performance or that actual events and results would not differ materially from them.

Letter from the Chairman of Amcom

Dear Amcom Shareholder,

On behalf of the Amcom Directors, I am pleased to provide this Scheme Booklet to you which sets out the details of the proposed combination between Amcom Telecommunications Limited and Vocus Communications Limited and matters relevant to your vote on the Scheme.

On 17 December 2014, Amcom and Vocus announced that they had entered into a Scheme Implementation Agreement, subject to certain conditions, under which Vocus will acquire the outstanding 90% of shares that it does not own in Amcom.

If the Scheme is approved, Amcom Shareholders will receive 0.4614 New Vocus Shares for each Amcom Share owned. Based on Vocus' pre approach share price, the offer represents an implied value of \$2.45 for each Amcom Share. This represents a significant premium of:

- 31.7% based on Amcom's pre approach closing share price; and
- 28.7% based on Amcom's pre approach 30 day VWAP.

The Scheme brings together two highly complementary businesses and creates a national telecommunications infrastructure provider, enhancing and diversifying Amcom's current WA, SA and NT focused business with the addition of Vocus' East Coast and New Zealand focused business.

The combination is expected to realise c.\$13-15 million p.a. of cost synergies by the end of FY2017 as well as significant revenue synergies through cross selling of an expanded product offering across an enhanced distribution platform. If the Scheme is implemented, Amcom Shareholders will own 51.6% of the Combined Group and will therefore enjoy more than half of the value associated with these synergies.

The Amcom Directors appointed PwCS to prepare an Independent Expert Report on the Scheme. The Independent Expert concluded that the Scheme is in the best interests of Amcom Shareholders, in the absence of a Superior Proposal.

The Amcom Directors have considered the advantages and disadvantages of the Scheme and unanimously recommend that you vote in favour of the Scheme, in the absence of a Superior Proposal. Each Amcom Director intends to vote in favour of the Scheme in relation to the Amcom Shares held or controlled by them, in the absence of a Superior Proposal.

The Scheme can only be implemented if approved by Amcom Shareholders at the Scheme Meeting to be held at 11.00 am (Perth time) on 6 May 2015 at the Duxton Hotel, 1 St Georges Terrace, Perth, Western Australia.

Your vote is important and I strongly encourage you to read this Scheme Booklet carefully and cast an informed vote on the Scheme at the Scheme Meeting. If you are unable to attend the Scheme Meeting in person, I encourage you to vote by completing the enclosed personalised Proxy Form and returning it to Amcom's Share Registry so that it is received no later than 11.00 am (Perth time) on 4 May 2015.

If you have any questions regarding the Scheme or this Scheme Booklet you should contact Amcom's shareholder information line on 1800 992 673 (within Australia) or +61 1800 992 673 (outside of Australia) Monday to Friday between 7.00 am and 4.30 pm (Perth time). You should also consult your legal, investment, taxation or other professional adviser.

On behalf of the Amcom Directors I would like to take this opportunity to thank you for your ongoing support and I look forward to your participation at the Scheme Meeting.

Yours sincerely,

Tony Grist
Chairman
Amcom Telecommunications Limited

Letter from the Chairman of Vocus

Dear Amcom Shareholder,

On behalf of the Vocus Board and management, it is my pleasure to present the compelling opportunity to participate in the combination of Vocus and Amcom, which brings together two highly complementary businesses with unique assets to create a major national telecommunications infrastructure provider.

The Scheme has been unanimously recommended by the Amcom Board and each Amcom Director has also indicated that they intend to vote their shares in favour of the Scheme in the absence of a Superior Proposal. The Independent Expert has concluded that the Scheme is in the best interests of Amcom Shareholders, in the absence of a Superior Proposal.

Vocus has a proven track record of achieving strong shareholder returns and the combination of Amcom and Vocus will create a company optimally positioned to capitalise on the evolving opportunities in the telecommunications sector.

Specifically, the combination offers the following key benefits:

- Accretion – the transaction is expected to be earnings and cash flow accretive in the first full financial year following completion
- Cost synergies – cost-outs estimated to be c.\$13-15 million p.a. by the end of FY2017 have been identified, with the potential to create substantial value for all shareholders
- Revenue enhancement opportunities – significant cross-selling opportunities via the provision of an expanded product suite to the respective Vocus and Amcom customer bases
- Enlarged data network and data centre footprint – a national fibre infrastructure footprint including c.2,800 on-net buildings in Australia, a c.4,250km fibre network in New Zealand and 22 data centres over 17 sites across Australia across and New Zealand
- Enhanced growth platform – an improved financial and operational profile to drive future growth, benefitting from earnings diversification, superior competitive positioning, complementary business divisions and additional scale

Amcom has been a great WA success story and Vocus is excited to combine the strength of Amcom and its personnel with Vocus.

Further details of the benefits of the combination to Amcom Shareholders are provided in the "Reasons to vote in favour of the Scheme" Section on page 14 of this Scheme Booklet.

If the Scheme is approved, three Amcom Directors will be appointed to the Combined Group's board as representatives of existing Amcom Shareholders. Tony Grist, the Amcom Chairman, will be appointed as Deputy Chairman and a further two Amcom nominees, Paul Brandling and Anthony Davies, will also join the Combined Group's board as Non Executive Directors.

As an Amcom Shareholder, your vote is important to ensure that the Scheme is implemented and the benefits of the combination can be realised.

This Scheme Booklet provides important information in relation to the transaction, and on behalf of the Vocus Board, I encourage you to read it carefully and vote in favour of the Scheme at the Scheme Meeting to be held on 6 May 2015.

As Chairman of the Vocus Board, I am excited by the future of the Combined Group and I look forward to welcoming you as a shareholder of Vocus on the successful implementation of the Scheme.

Yours sincerely,

David Spence
Chairman
Vocus Communications Limited

What you should do

Step 1: Read this Scheme Booklet

You should read this Scheme Booklet carefully in its entirety, including the reasons to vote in favour of or against the Scheme, before making any decision on how to vote on the Scheme Resolution.

Answers to various frequently asked questions about the Scheme are set out in Section 2 of this Scheme Booklet. If you have any additional questions in relation to this Scheme Booklet or the Scheme please consult your financial, legal or other professional adviser or contact Amcom's shareholder information line on 1800 992 673 (within Australia) or +61 1800 992 673 (outside of Australia) Monday to Friday between 7.00 am and 4.30 pm (Perth time).

Step 2: Vote on the Scheme at the Scheme Meeting

Vote on the Scheme at the Scheme Meeting by doing one of the following:

- (a) **Vote in person** - attend the Scheme Meeting in person at the Duxton Hotel, 1 St Georges Terrace, Perth, Western Australia on 6 May 2015 at 11.00 am (Perth time).
- (b) **Vote by proxy** - complete and return the Proxy Form in accordance with the instructions set out on the Proxy Form so that it is received by the Share Registry by no later than 11.00 am (Perth time) on 4 May 2015.
- (c) **Vote by corporate representative** - an Amcom Shareholder or proxy who is a body corporate may vote at the Scheme Meeting by having their corporate representative attend the Scheme Meeting in person and vote on their behalf. The authorised corporate representative will be admitted to the Scheme Meeting upon providing, at the point of entry to the Scheme Meeting, written evidence of their appointment, their name and address and the identity of their appointer.
- (d) **Vote by attorney** - an Amcom Shareholder may vote at the Scheme Meeting by having their fully authorised attorney attend the Scheme Meeting in person and vote on their behalf. Amcom Shareholders wishing to vote by attorney at the Scheme Meeting must, if they have not already presented an appropriate power of attorney to Amcom for notation, deliver to Amcom's Share Registry the original instrument appointing the attorney or a certified copy of it by 5.00 pm (Perth time) on 5 May 2015.

In order for the Scheme to proceed, the Scheme must be approved by:

- (a) unless the Court orders otherwise, a majority in number (more than 50%) of Amcom Shareholders present and voting at the Scheme Meeting (in person or by proxy, corporate representative or attorney); and
- (b) at least 75% of the total number of votes which are cast at the Scheme Meeting.

If the Scheme is not approved by the Requisite Majorities of Amcom Shareholders at the Scheme Meeting, the Scheme will not proceed.

Please refer to Section 3 of this Scheme Booklet for further information on how to vote at the Scheme Meeting.

Step 3: Participate in the proposal

If you are eligible and wish to participate in the Scheme you will need to ensure that you do not sell your Amcom Shares prior to 7.00 pm (Perth time) on 21 May 2015, being the Record Date. Otherwise, you do not need to do anything to participate in the Scheme.

Ineligible Overseas Shareholders

An Amcom Shareholder will be an Ineligible Overseas Shareholder if their address as shown in the Amcom Share Register is a place outside of Australia and its external territories or New Zealand.

Ineligible Overseas Shareholders will not receive New Vocus Shares under the Scheme. Instead, the New Vocus Shares that would have otherwise been allotted and issued to Ineligible Overseas Shareholders under the Scheme will be issued to the Sale Nominee. Vocus will then procure that the Sale Nominee sell those New Vocus Shares on-market.

Unless Vocus is satisfied that the laws of an Ineligible Overseas Shareholder's country of residence (as shown in the register of Amcom Share Register) permit the issue of New Vocus Shares to the Ineligible Overseas Shareholders either unconditionally or after compliance with terms which Vocus reasonably regards as acceptable and practical, Vocus will be under no obligation under the Scheme to issue, and will not issue, any New Vocus Shares to Ineligible Overseas Shareholders, and instead will issue the New Shares that would otherwise have been issued to the Ineligible Overseas Shareholders to the Sale Nominee.

Vocus will procure that as soon as reasonably practicable and in any event no more than 15 Business Days after the Implementation Date, the Sale Nominee sell those New Vocus Shares on-market in such manner, at such price and on such other terms as the Sale Nominee determines in good faith. Settlement of the net proceeds (after deducting any applicable brokerage, stamp duty and other selling costs and taxes) of New Vocus Shares sold will occur on a T+3 basis into an account controlled by Vocus. After the last sale of those New Vocus Shares, Vocus will then remit the portion of the proceeds it receives from the sale of the New Vocus Shares by the Sale Nominee to each Ineligible Overseas Shareholders in accordance with their entitlement. Each Ineligible Overseas Shareholder will receive, for each New Vocus Share to which they would otherwise have been entitled, an amount equivalent to the average price per New Vocus Share obtained by the Sale Nominee (after deducting any applicable brokerage, stamp duty and other selling costs and taxes). This means that the amount received by an Ineligible Overseas Shareholder may be more or less than the amount actually received by the Sale Nominee for the sale of the New Vocus Shares that the Ineligible Overseas Shareholder would otherwise have been entitled to receive under the Scheme.

The portion of the proceeds attributable to each Ineligible Overseas Shareholder will be paid as soon as reasonably practicable by cheque in Australian dollars and sent by prepaid post (at the risk of the Ineligible Overseas Shareholder) to the address recorded in the Amcom Share Register at the Record Date.

Any fractional entitlement of the Scheme Shareholder to a part of a New Vocus Share will be rounded up or down to the nearest whole number of New Vocus Shares (rounded up if the fractional entitlement is equal to or greater than one half, and rounded down if the fractional entitlement is less than one half).

Further information

Further information relating to details of the resolution are contained in the Notice of Scheme Meeting (which is set out in Annexure F of this Scheme Booklet).

Amcom Shareholders who have any questions or require further information in relation to this Scheme Booklet or the Scheme should contact Amcom's shareholder information line on 1800 992 673 (within Australia) or +61 1800 992 673 (outside of Australia) Monday to Friday between 7.00 am and 4.30 pm (Perth time). Amcom Shareholders should seek independent financial, taxation or other professional advice before making any decision regarding the Scheme.

Reasons to vote in favour of the Scheme

This Section should be read in conjunction with the "Reasons to vote against the Scheme" Section on page 19 of this Scheme Booklet which describes the disadvantages associated with the Scheme and the reasons to vote against the Scheme, and the "Other considerations relevant to your vote of the Scheme" Section on page 21 of this Scheme Booklet which sets out other relevant considerations.

The Amcom Directors believe the Scheme is in the best interests of Amcom Shareholders and recommend that Amcom Shareholders vote in favour of the Scheme, in the absence of a Superior Proposal, for the reasons outlined below.

1. The Amcom Directors unanimously recommend that you vote in favour of the Scheme, in the absence of a Superior Proposal

The Amcom Directors have assessed the merits of a combination between Amcom and Vocus and unanimously recommend that you vote in favour of the Scheme at the Scheme Meeting to be held on 6 May 2015, in the absence of a Superior Proposal.

In making their recommendation, the Amcom Directors have considered the advantages and disadvantages of the Scheme, including the information contained in:

- (a) the "Reasons to vote in favour of the Scheme" Section on page 14 of this Scheme Booklet;
- (b) the "Reasons to vote against the Scheme" Section on page 19 of this Scheme Booklet;
- (c) Section 7 of this Scheme Booklet (Risk factors); and
- (d) Annexure A of this Scheme Booklet (Independent Expert's Report).

Each of the Amcom Directors intend to vote all of the Amcom Shares held or controlled by them as at the Voting Record Date in favour of the Scheme, in the absence of a Superior Proposal.

Further details of the interests of the Amcom Directors are contained in Section 10.1 of this Scheme Booklet.

2. The Independent Expert has concluded that the Scheme is in the best interests of Amcom Shareholders, in the absence of a Superior Proposal

The Amcom Directors appointed PwCS as the Independent Expert to prepare a report providing an independent assessment of the Scheme and an opinion as to whether the Scheme is in the best interests of Amcom Shareholders.

The Independent Expert has assessed the underlying value of Amcom Shares to be in the range of \$1.99 and \$2.41 per Amcom Share with a midpoint value of \$2.20, and the value implied by the Scheme Consideration to be in the range of \$2.65 and \$2.77 per Amcom Share with a midpoint value of \$2.71. As the value implied by the Scheme Consideration is above the estimate of the underlying value of the Amcom Shares, the Independent Expert has concluded that the Scheme is fair and in the best interests of Amcom Shareholders, in the absence of a Superior Proposal.

A full copy of the Independent Expert's Report is set out in Annexure A of this Scheme Booklet. The Amcom Directors encourage you to read the Independent Expert's Report in its entirety before making a decision as to whether or not to vote in favour of the Scheme.

3. The Scheme Consideration represents a significant premium to Amcom Shares based on undisturbed prices

The Scheme Consideration represents a significant premium over historical trading prices of the Amcom Shares. Based on the closing price of Vocus Shares of \$5.31 on 24 October 2014, being the last trading day prior to the announcement of Vocus' approach, the implied value of the Scheme Consideration is \$2.45 per Amcom Share, which represents a 31.7% premium to the closing price of Amcom Shares on 24 October 2014. This does not include value for Amcom's HY2015 dividend of 5 cents per Amcom Share and the synergies which Amcom Shareholders will benefit from as a result of the combination (see below).

The Scheme Consideration also represents:

- (a) A c.28.7% premium based on Amcom and Vocus 30 day VWAPs to 24 October 2014; and
- (b) A c.27.4% premium based on Amcom and Vocus 60 day VWAPs to 24 October 2014.

Source: IRESS. IRESS has not consented to the use of any trading data in this Scheme Booklet.

4. The Scheme Consideration implies a valuation for Amcom Shares significantly in excess of comparable precedent transactions and broker valuations

The Scheme Consideration implies an Amcom EV/EBITDA (FY2014) multiple of 14.0x⁽¹⁾, a significant premium to selected precedents transactions, as shown in the chart below.

¹ Based on implied value of the Scheme Consideration of \$2.45 per Amcom Share, diluted shares outstanding of c.270.6m, net cash of c.\$7m and FY14 underlying EBITDA of c.\$46.7m

The implied value of Amcom Shares by the Scheme Consideration is also 15% above average broker valuations of Amcom Shares of \$2.12 per Amcom Share. The broker valuations are based on Amcom broker reports published prior to Vocus' approach and use methodologies commonly used to value companies in the Information, Communication and Technology sector⁽²⁾.

5. The combination of Amcom and Vocus is highly complementary and is expected to generate significant cost and revenue synergies

The combination of Amcom and Vocus brings together two highly complementary businesses, and is expected to offer the following key benefits:

- (a) **Creates an enhanced telecommunications infrastructure footprint across Australia and New Zealand, enhancing and diversifying Amcom's current Western Australia, South Australia and the Northern Territory focused business**

Amcom's Western Australia, South Australia and the Northern Territory business will complement Vocus' east coast and New Zealand business, creating a national fibre network and data centre footprint. The enhanced footprint will include over 3,000km of fibre connecting to c.2,800 on-net buildings in Australia, c.4,250km of fibre network in New Zealand and 22 data centres across Australia and New Zealand. The Combined Group will also have significant customer diversity, with over 3,700 customers across Australia and New Zealand in the wholesale, corporate and government sectors.

- (b) **The Combined Group is likely to have a significantly enhanced growth profile and an improved base to pursue further growth initiatives**

The Combined Group's enhanced distribution network, broader market reach and compelling product offering is likely to offer increased opportunities to drive and diversify sales growth. The Combined Group will have a truly national network with presence in all Australian and New Zealand capital cities, providing the ability to bid for new business that neither company would have been positioned to pursue on a standalone basis.

The Combined Group will have an enhanced market capitalisation of \$1.3 billion, positioning the company as a significant player in the Information, Communication and Technology sector and S&P ASX 200 Index and providing increased market presence as well as financial capacity to pursue further acquisitions and growth initiatives.

- (c) **The enhanced scale of the Combined Group is likely to improve competitive positioning**

The enhanced scale of the Combined Group is likely to result in meaningful cost benefits through expected supply savings, scale/volume discounts and efficiencies associated with spreading fixed costs across the combined entity's expanded base (that is, economies of scale and leveraging fixed cost base). This is expected to lower the Combined Group's cost base and improve its competitive positioning.

² Based on discounted cash flow valuations of \$1.89 - \$2.38 per Amcom Share published by 6 brokers during 13-14 August 2014, being the most recent research reports available to Amcom prior to 24 October 2014 (i.e. the date Vocus announced the purchase of a 10.0% stake in Amcom). Credit Suisse Emerging Companies excluded due to advisory role with Vocus. The average broker valuation is included in this Scheme Booklet solely as an indication of market views as to the value of Amcom Shares. The Amcom Directors do not adopt or endorse any of the broker valuations or the average valuation. The Independent Expert Report provided in Annexure A of this Scheme Booklet contains a valuation of Amcom which values Amcom at \$1.99 – \$2.41 per Amcom Share. Broker valuations do not include a premium for control.

The combination of Amcom and Vocus is expected to generate c.\$13-15m of annualised cost synergy benefit by the end of FY2017. Key drivers of these cost synergies include:

- (i) Vocus assuming provision of Amcom's IP Transit requirements (\$2million);
- (ii) rationalisation of duplicate network infrastructure (\$3million);
- (iii) Removal of duplicate company costs (\$5-7million); and
- (iv) Aggregation and economies of scale in relation to input supplies (\$3million).

In addition to cost synergies, there are expected to also be significant revenue synergies associated with the combination, including:

- (i) Cross-selling of combined product suite (that is, Amcom selling on Vocus' east coast and New Zealand network and Vocus selling on Amcom's Western Australia, South Australia and the Northern Territory network);
- (ii) Vocus sale of enhanced Unified Communications product offering (for example, IP Tel, ACC); and
- (iii) Internet sales opportunities to Amcom customers, leveraging Vocus capacity.

As Amcom Shareholders will own approximately 51.6% of the Combined Group following implementation of the Scheme, more than half of any benefits from these synergies will flow to Amcom Shareholders, providing greater value than the premium alone.

6. Amcom's share price is more likely to fall than rise, in the near-term, if the Scheme is not implemented and no Superior Proposal emerges

Since the last trading day prior to the announcement of Vocus' approach on 27 October 2014, Amcom's share price has risen 45.7% up to \$2.71 on 27 March 2015, being the last practicable trading day prior to the date of this Scheme Booklet.

Given the many factors that are likely to affect the price of Amcom Shares, the Amcom Directors are unable to predict the price at which Amcom Shares will trade in the future, however, the Amcom Directors consider that, in the absence of the implementation of the Scheme and in the absence of a Superior Proposal, or speculation regarding an alternative proposal, the price of Amcom Shares is more likely to fall than rise from current levels.

7. Since the announcement of the Scheme, no Superior Proposal has emerged

Since the initial announcement of the Scheme on 17 December 2014 and up to the date of this Scheme Booklet, no Superior Proposal has emerged and the Amcom Directors are not aware of any Superior Proposal that is likely to emerge.

8. Amcom Shareholders may be eligible for CGT rollover relief

If the Scheme is implemented, Amcom Shareholders may be eligible for scrip-for-scrip CGT rollover relief on the disposal of Amcom Shares in exchange for New Vocus Shares.

The benefit of applying scrip-for-scrip rollover relief upon receiving New Vocus Shares will depend primarily on the individual circumstances of each Amcom Shareholder and all Amcom Shareholders are advised to obtain independent professional taxation advice in respect of the Scheme.

Further detail regarding the general Australian tax consequences of the transaction is contained in Section 9 of this Scheme Booklet.

Reasons to vote against the Scheme

This Section summarises the reasons identified by the Amcom Directors as to why you may consider voting against the Scheme.

The Amcom Directors consider that the potential disadvantages of, and other reasons to vote against, the Scheme outlined below are outweighed by the potential advantages of, and other reasons to vote in favour of, the Scheme (set out in the "Reasons to vote in favour of the Scheme" Section on page 14 of this Scheme Booklet) and that the Scheme is in the best interests of Amcom Shareholders, in the absence of a Superior Proposal, but believe that Amcom Shareholders should take the potential disadvantages of, and other reasons to vote against, the Scheme set out below into consideration when deciding whether or not to vote in favour of the Scheme.

1. You may hold a different view to the Amcom Directors and the Independent Expert in relation to the Scheme

Notwithstanding the unanimous recommendation of the Amcom Directors and the conclusions of the Independent Expert, you may believe that the Scheme is not in your best interests.

There is no obligation to follow the recommendation of the Amcom Directors or to agree with the opinion of the Independent Expert.

2. You may believe there is the potential for a Superior Proposal to be made in the future

You may believe that a Superior Proposal, which is more attractive for Amcom Shareholders than the Scheme, could emerge in the foreseeable future. Implementation of the Scheme will mean that existing Amcom Shareholders will not receive the benefit of any such proposal.

Since the announcement of the Scheme on 17 December 2014 and up to the date of this Scheme Booklet, the Amcom Directors have not received or become aware of a Superior Proposal and have no basis for believing that a Superior Proposal will emerge.

The Amcom Directors note that the Scheme Implementation Agreement prohibits Amcom from soliciting Competing Proposals, however, Amcom is permitted to respond to any Competing Proposals should the Amcom Directors determine that failing to do so would likely constitute a breach of their fiduciary or statutory duties. Further details of the key terms of the Scheme Implementation Agreement are provided in Section 8.8 of this Scheme Booklet.

3. You may believe it is in your best interests to maintain your current investment and risk profile

While Vocus operates a telecommunications business with a number of similar product and asset characteristics as Amcom, the operational profile, size, debt profile, dividend distribution policy and geographic exposure of the Combined Group will be different to that of Amcom on a standalone basis⁽³⁾. It is possible that you may wish to maintain an interest in Amcom as a standalone company because you are seeking an investment in a publicly listed company with the specific characteristics of Amcom.

One of the benefits of the Scheme is the potential for the Combined Group to realise the synergies, as detailed in Section 6.1 of this Scheme Booklet. However, you may believe that the integration of Amcom and Vocus may be more difficult or take more time than currently anticipated and there is a risk that the expected synergies may not be realised within the anticipated timeframe or to their full extent. Failure to achieve targeted synergies within the anticipated timeframe may have an adverse effect on the operations, financial performance and position of the Combined Group, and the value of Vocus Shares.

³ Refer to Section 6.2 and 6.6 for further information on Combined Group dividend policy and Combined Group financials respectively.

Further details of the risks associated with Vocus and the Combined Group are set out in Section 6.1 of this Scheme Booklet. Amcom Shareholders are encouraged to read this Section carefully and in its entirety.

Vocus Shares trade on the ASX. Accordingly, if you receive New Vocus Shares under the Scheme, and you do not wish to hold them after the Implementation Date, you will have the option to sell them on the ASX.

4. The value of the Scheme Consideration is not certain and will depend on the price at which New Vocus Shares trade on the ASX after the Implementation Date

If the Scheme is implemented, Amcom Shareholders will receive the Scheme Consideration of 0.4614 New Vocus Shares in respect of each Amcom Share they hold on the Record Date. The value of New Vocus Shares received by Amcom Shareholders on implementation of the Scheme will depend on the price at which Vocus Shares trade on the ASX as at the Implementation Date.

Following implementation of the Scheme, the price of Vocus Shares may rise or fall based on market conditions and the Combined Group's financial and operational performance. If the price of Vocus Shares falls, the value of the New Vocus Shares received as Scheme Consideration will decline. If the price of Vocus Shares increases, the value of the New Vocus Shares received as Scheme Consideration will increase.

Further, in circumstances where Amcom Shareholders do not intend to continue to hold their New Vocus Shares, there is a risk that a significant number of Amcom Shareholders may seek to sell their New Vocus Shares, which may adversely impact the price of Vocus Shares.

Accordingly, there is no guarantee as to the future value of the Scheme Consideration to be received under the Scheme.

5. The potential tax consequences pursuant to the Scheme may be adverse to your own financial position

If the Scheme proceeds, there may be tax consequences for you as an Amcom Shareholder which may include tax payable on any gain in the disposal of your Amcom Shares.

A general guide to the taxation implications of the Scheme is set out in Section 9 of this Scheme Booklet. This guide is expressed in general terms and you should seek independent professional advice regarding the tax consequences applicable to your own circumstances.

Other considerations relevant to your vote on the Scheme

You should also take into account the following additional considerations in deciding whether to vote in favour of, or against, the Scheme.

1. The Scheme may be implemented even if you vote against the Scheme or you do not vote at all

You should be aware that even if you do not vote, or vote against the Scheme, the Scheme may still be implemented if it is approved by the Requisite Majorities of Amcom Shareholders and the Court. If this occurs, your Amcom Shares will be transferred to Vocus and you will receive the Scheme Consideration even though you did not vote on, or voted against, the Scheme.

2. Implications for Amcom if the Scheme is not implemented

If the Scheme does not proceed, Amcom Shareholders will not receive the Scheme Consideration.

If the Scheme is not approved or all outstanding Conditions are not satisfied or waived, the Scheme will not proceed. In that case, Amcom Shareholders will not receive the Scheme Consideration, Amcom will continue to operate as it does currently and Amcom Shares will remain listed on the ASX.

If the Scheme is not implemented, the advantages of the Scheme described in the "Reasons to vote in favour of the Scheme" Section on page 14 of this Scheme Booklet will not be realised.

Amcom has incurred significant costs in respect of the Scheme. These costs include those incurred to conduct negotiations with Vocus, retention of advisers, provision of information to Vocus, facilitating Vocus' access to due diligence, engagement of the Independent Expert and preparation of this Scheme Booklet. If the Scheme is not implemented, then Amcom expects to incur total costs relating to the Scheme of approximately \$5 million.

3. Conditionality of the Scheme

The implementation of the Scheme is subject to a number of Conditions which are summarised in Section 8.8 of this Scheme Booklet and set out in section 3.1 of the Scheme Implementation Agreement (a copy of which is set out in Annexure C of this Scheme Booklet). If the Conditions are not satisfied or waived (as applicable), the Scheme will not proceed and Amcom Shareholders will not receive the Scheme Consideration.

4. Warranty by Scheme Shareholders about their Amcom Shares

Each Scheme Shareholder is deemed to have warranted to Amcom that all their Scheme Shares (including any rights and entitlements attaching to those shares) will, at the date of the transfer of them to Vocus, be fully paid and free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind. Refer to Section 8.6 of this Scheme Booklet for further information.

5. Exclusivity

Amcom and Vocus have entered into certain arrangements which restrict the ability of Amcom to enter into discussions with potential rival bidders (subject to various exceptions) and require Amcom to provide Vocus with certain rights in respect of matching any alternative offers, if they arise. Exclusivity arrangements also apply which restrict Vocus in a similar manner. Refer to Section 8.8(c) of this Scheme Booklet for further information.

6. Break fees

A break fee of \$4 million is payable by Amcom to Vocus and a break fee of \$4 million is payable by Vocus to Amcom in certain circumstances. Refer to Section 8.8(f) of this Scheme Booklet for further information.

1. Summary of the Scheme

1.1 Background

On 27 October 2014, Amcom and Vocus announced that Vocus had acquired a 10% interest in Amcom. Amcom also confirmed on that date that Vocus had outlined to Amcom a confidential, conditional, incomplete and non-binding proposal to combine the businesses of Amcom and Vocus.

On 17 December 2014, Amcom and Vocus announced that they had entered into a Scheme Implementation Agreement, subject to certain Conditions, under which Vocus would acquire the outstanding 90% of Amcom shares that it does not own. The transaction is to be effected by way of a scheme of arrangement between Amcom and its shareholders.

A summary of the key terms of the Scheme Implementation Agreement can be found in Section 8.8 of this Scheme Booklet and a complete copy of the Scheme Implementation Agreement is set out in Annexure C of this Scheme Booklet.

If the Scheme is approved by Amcom Shareholders and by the Court, and all other Conditions are satisfied or waived, Amcom will become a Subsidiary of Vocus and an application will be made to delist the Amcom Shares from the ASX.

If the Scheme is not approved, the Scheme will not proceed and Amcom will continue as a standalone entity listed on the ASX (see Section 1.10 of this Scheme Booklet).

A copy of the Scheme is set out in Annexure D of this Scheme Booklet.

1.2 Amcom Director's recommendation

The Amcom Directors believe that the Scheme is attractive and in the best interests of Amcom Shareholders and recommend that Amcom Shareholders vote in favour of the Scheme, in the absence of a Superior Proposal.

1.3 Voting intentions of the Amcom Directors

Each of the Amcom Directors intend to vote all of the Amcom Shares held or controlled by them as at the Voting Record Date in favour of the Scheme, in the absence of a Superior Proposal.

Details of the relevant interests of each Amcom Director in Amcom Shares are set out in Section 10 of this Scheme Booklet.

1.4 Independent Expert's conclusion

PwCS, the Independent Expert, has concluded that the Scheme is in the best interests of Amcom Shareholders, in the absence of a Superior Proposal.

The Independent Expert has assessed the underlying value of the Amcom Shares to be in the range of \$1.99 and \$2.41 per Amcom Share with a midpoint value of \$2.20, and the value implied by the Scheme Consideration to be in the range of \$2.65 and \$2.77 per Amcom Share with a midpoint value of \$2.71. As the value implied by the Scheme Consideration is above the estimate of the underlying value of the Amcom Shares, the Independent Expert has concluded that the Scheme is fair and in the best interests of Amcom Shareholders, in the absence of a Superior Proposal.

A full copy of the Independent Expert's Report is set out in Annexure A of this Scheme Booklet. The Amcom Directors encourage you to read this report in its entirety before making a decision as to whether or not to vote in favour of the Scheme.

1.5 Scheme Consideration

If the Scheme proceeds, Amcom Shareholders registered as Amcom Shareholders on the Amcom Share Register at the Record Date will be entitled to receive 0.4614 New Vocus Shares for every Amcom Share held at 7.00 pm (Perth time) on the Record Date.

If the number of Scheme Shares held by a Scheme Shareholder is such that the aggregate entitlement of that Scheme Shareholder to New Vocus Shares is not a whole number, then the entitlement in each case must be rounded up or down to the nearest whole number (rounded up if the fractional entitlement is equal to or greater than one half, and rounded down if the fractional entitlement is less than one half).

The Scheme Consideration will not be adjusted by any interim or special dividend declared by Amcom or Vocus prior to implementation, subject to an agreed cap of \$0.05 per Amcom Share for Amcom and \$0.063 per Vocus Share for Vocus.

Ineligible Overseas Shareholders will not be issued New Vocus Shares. Instead, the New Vocus Shares that would otherwise have been issued to Ineligible Overseas Shareholders will be issued to a Sale Nominee who will sell those New Vocus Shares in accordance with the "What you should do" Section on page 12 of this Scheme Booklet and account to Vocus the net proceeds from that sale. Vocus will then remit the portion of proceeds it receives from the Sale Nominee to each Ineligible Overseas Shareholder in accordance with their entitlement. See the "What you should do" Section on page 12 of this Scheme Booklet for further details in respect of Ineligible Overseas Shareholders.

1.6 Key steps to implement the Scheme

The key steps to implement the Scheme are as follows:

- (a) Amcom Shareholders will vote on whether to approve the Scheme at the Scheme Meeting. Each Registered Shareholder at the Voting Record Date is entitled to vote at the Scheme Meeting.
- (b) If the Scheme is approved by the Requisite Majorities at the Scheme Meeting, Amcom will apply to the Court for orders approving the Scheme on the Second Court Date.
- (c) If the Court approves the Scheme, and all Conditions to the Scheme have been satisfied or waived, Amcom will lodge with ASIC an office copy of the Court orders approving the Scheme in accordance with section 411(10) of the Corporations Act;
- (d) It is expected that suspension of trading in Amcom Shares on the ASX will occur from close of trading on the Effective Date;
- (e) On the Implementation Date, Amcom Shareholders will receive 0.4614 New Vocus Shares for every Amcom Share held on the Record Date; and
- (f) At a time after the Implementation Date to be determined by Vocus, Amcom will apply to the ASX for termination of official quotation of Amcom Shares and to have itself removed from the official list of the ASX.

Section 8 of this Scheme Booklet contains further details of the Scheme, including the approvals required in order for the Scheme to proceed.

1.7 Conditions

The Scheme is subject to a number of Conditions. These Conditions are summarised in Section 8.8 of this Scheme Booklet and are set out in full in clause 3.1 of the Scheme Implementation Agreement which is Annexure C of this Scheme Booklet.

As at the date of this Scheme Booklet, Amcom and Vocus are not aware of any circumstances that would cause the outstanding Conditions not to be satisfied or waived.

1.8 Treatment of Amcom Performance Rights

As at the date of this Scheme Booklet, Amcom has 4,185,000 Amcom Performance Rights on issue. The Amcom Performance Rights were issued pursuant to the Amcom Performance Rights Long Term Incentive Plan.

The Amcom Performance Rights Long Term Incentive Plan is designed to provide an incentive and reward structure aligned with longer term Amcom Shareholder value creation.

The Executive Directors and such other persons as the Amcom Board, in its discretion, determines are entitled to participate in the Amcom Performance Rights Long Term Incentive Plan, Non-Executive Directors are not eligible to participate.

The Amcom Performance Rights enable the participant to receive Amcom Shares. No amount is payable upon the grant or the issue of an Amcom Share following the vesting of an Amcom Performance Right. These rights cannot be transferred without Amcom Board approval and will be forfeited if vesting conditions are not satisfied by the end of the vesting period. Amcom uses relative Total Shareholder Return and employment retention as the vesting hurdles and in the case of the Amcom Performance Rights belonging to 'Tranche F' a target Amcom Share price. Participants will have full entitlements attaching to ordinary shares when converted. Further details of the Amcom Performance Rights Long Term Incentive Plan are set out in Amcom's 2014 Annual Report.

The Amcom Performance Rights Plan Rules provide that, upon the occurrence of a change of control, the Amcom Board has a broad discretion in determining how unvested Amcom Performance Rights will be dealt with.

With respect to the Amcom Performance Rights belonging to 'Tranche F' other than those held by Amcom's Chief Executive Officer (**Additional Performance Rights**), if a company (**Acquiring Company**) obtains control of Amcom as a result of the change of control, and both Amcom and the Acquiring Company agree:

- (a) 50% of the Additional Performance Rights will vest and a corresponding number of Amcom Shares will be issued; and
- (b) subject to Amcom obtaining any necessary approvals, 50% of the Additional Performance Rights will lapse and the Additional Performance Rights holder will be provided with performance rights in the Acquiring Company on substantially the same terms and subject to the same conditions as the Additional Performance Rights.

If Amcom and the Acquiring Company do not agree to the terms outlined in paragraph (b) above, or any necessary approvals have not been obtained, 100% of the Additional Performance Rights vest.

In accordance with the terms of the Scheme Implementation Agreement, the Amcom Board has determined that:

- (a) a total of 2,605,000 Amcom Performance Rights, comprising 1,025,000 Amcom Performance Rights belonging to 'Tranche D', 1,060,000 Amcom Performance Rights belonging to 'Tranche E' that are held by Amcom senior executives and key management, and 520,000 Amcom Performance Rights belonging to 'Tranche F' that are held by Amcom's Chief Executive Officer, will vest;
- (b) 790,000 Amcom Performance Rights belonging to 'Tranche F', being 50% of the Additional Performance Rights, will vest; and

- (c) subject to Amcom obtaining any necessary approvals, 790,000 Amcom Performance Rights belonging to 'Tranche F', being the remaining 50% of the Additional Performance Rights, will either be acquired by Vocus or cancelled for consideration which must comprise of such number of performance rights in Vocus to be calculated by multiplying the Adjusted Merger Ratio by the number of Additional Performance Rights held by that Amcom Performance Rights Holder and, subject to certain exceptions set out in Section 8.8(g) of this Scheme Booklet, be on terms no less favourable than the terms of the Additional Performance Rights.

In respect of those Amcom Performance Rights that vest, Amcom Shares will be issued such that the holders of those Amcom Shares are entitled to participate in the Scheme on the same basis as all other holders of Amcom Shares. Holders of those Amcom Shares will also be entitled to receive the dividend payment on the Amcom Shares outlined in Section 4.13 of this Scheme Booklet.

The holders of Amcom Performance Rights will be entitled to vote at the Scheme Meeting in respect of any Amcom Shares they hold at the date of the Scheme Meeting. The holders of those Amcom Performance Rights will not be entitled to vote at the Scheme Meeting with respect to their Amcom Performance Rights because those Amcom Performance Rights will only vest following approval of the Scheme by Amcom Shareholders at the Scheme Meeting.

With respect to paragraph (c) above, if any necessary approvals have not been obtained by the second Court hearing for the Scheme, but the Scheme proceeds, the Amcom Board has determined that the remaining 50% of the Additional Performance Rights will vest and those Amcom Performance Rights Holders will be issued a corresponding number of Amcom Shares on the date of a "change of control" of Amcom (as determined by the Amcom Board) in accordance with the terms of the Amcom Performance Rights belonging to 'Tranche F'. In such an event, those Amcom Performance Rights Holders will not receive Vocus Performance Rights.

Further details regarding the treatment of the Amcom Performance Rights are set out in Section 8.8(g) of this Scheme Booklet.

1.9 Taxation implications

A general guide to the taxation implications of the Scheme for certain Amcom Shareholders is set out in Section 9 of this Scheme Booklet. This guide is expressed in general terms and is not intended to provide taxation advice in respect of the particular circumstances of any Amcom Shareholder.

1.10 If the Scheme does not proceed

If the Scheme does not proceed, Amcom Shareholders will retain their Amcom Shares, Amcom will continue to operate as a standalone entity, listed on the ASX and Amcom Shareholders will not receive the Scheme Consideration.

Amcom will continue to focus on its current business plan and growth strategy. Amcom Shareholders will remain exposed to the risks of Amcom, as discussed in Section 7 of this Scheme Booklet.

1.11 Your choices as an Amcom Shareholder

As an Amcom Shareholder you have the following four options in relation to your Amcom Shares:

(a) **Vote in favour of the Scheme at the Scheme Meeting**

Your Amcom Directors unanimously recommend that, in the absence of a Superior Proposal, you vote in favour of the Scheme. The reasons for your Amcom Directors' unanimous recommendation are set out in the "Reasons to vote in favour of the Scheme" Section on page 14 of this Scheme Booklet.

(b) **Vote against the Scheme at the Scheme Meeting**

If, despite your Amcom Directors' unanimous recommendation and the conclusion of the Independent Expert, you do not support the Scheme, you may vote against the Scheme at the Scheme Meeting.

4.8 Litigation

Except as outlined below, as at the date of this Scheme Booklet, Amcom is not aware of any material contractual disputes or litigation matters in respect of Amcom, including with its customers or other third parties.

On 10 October 2014, Dallas Buyers Club Inc (**DBC**) filed an application in the Federal Court for preliminary discovery against Amnet, a Subsidiary of Amcom. Amnet is one of several ISPs who are respondents to the application. The application requests that the Court make an order that Amnet disclose the personal information of its customers to DBC who DBC allege have infringed the copyright in their film. The Judge has reserved his decision and it is anticipated that a judgement will be handed down in or around mid-April.

5. Information on Vocus

The Vocus Information contained in this Section 5 has been prepared by Vocus and is the responsibility of Vocus (except to the extent that the Vocus Information is based on information about Amcom, for which Amcom takes responsibility). Amcom and Amcom's Directors and officers do not assume any responsibility for the accuracy or completeness of this information (except to the extent that the Vocus Information is based on information about Amcom).

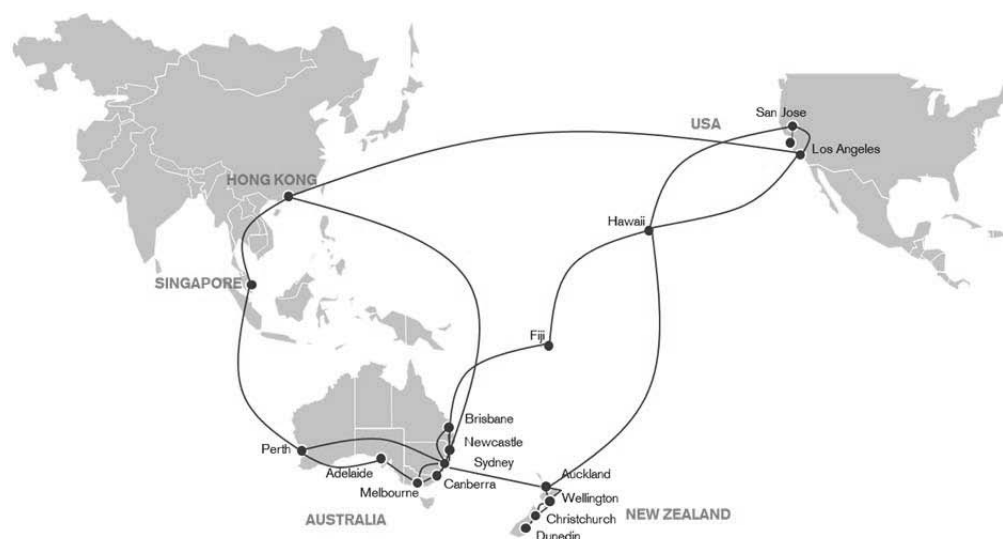

5.1 Overview

(a) Introduction

Vocus is a leading provider of integrated telecommunications services, including dark fibre and Ethernet, Internet and data centre facilities.

Vocus owns and operates approximately 690km of metro fibre in Australia and over 4,250km of intercity fibre in New Zealand. Vocus' metro fibre network currently connects over 1,250 buildings in capital cities.

In addition to its fibre network, Vocus owns submarine cable capacity connecting Australia to Singapore, New Zealand and the United States, along with data centre facilities in Auckland, Sydney, Melbourne, Newcastle and Perth.

Note: map for illustrative purposes only and not a complete representation of Vocus' entire infrastructure network

Launched in 2008, Vocus initially provided Internet and voice services. As part of its integrated product strategy, Vocus acquired data centre providers E3 Networks in 2010 and Perth iX in 2011, dark fibre provider Digital River in 2011, New Zealand data centre provider Maxnet in 2012 and integrated fibre and data centre provider Ipera Communications in 2012. These acquisitions enabled Vocus to evolve into a highly scalable business leveraged to demand for data and high speed connectivity.

More recently, Vocus acquired the Bentley Data Centre from ASG Group in August 2014 and further expanded its New Zealand presence with the acquisition of FX Networks in September 2014. Following the acquisition of FX Networks, Vocus is now one of the largest telecommunications infrastructure operators in New Zealand.

The graphs below demonstrate Vocus' historical organic and acquired revenue, and underlying EBITDA⁽⁴⁾ growth from FY2011 to CY2014 as Vocus continues to implement its integrated product offering.

5.2 Corporate structure

The diagram below provides an overview of the Vocus Group structure:

*Vocus is a 50% joint venture partner with Spark New Zealand Trading Limited in Connect 8 Limited.

5 Spark New Zealand Limited is New Zealand's largest telecommunications company with a market capitalisation of ~A\$5.3 billion as at 27 March 2015.

All entities are 100% owned and incorporate in Australia except for:

- (a) Vocus (New Zealand) Holdings Limited;
- (b) Vocus (New Zealand) Limited;
- (c) FX Networks Limited; and
- (d) Data Lock Limited,

which are all 100% owned and incorporated in New Zealand.

Additionally, Vocus is a 50% joint venture partner with Spark New Zealand Trading Limited in Connect 8 Limited, a New Zealand incorporated entity.

Vocus Blue Pty Limited is a wholly-owned Subsidiary of Vocus which holds the shares as trustee for the beneficiaries of the Vocus Loan Funded Share Plan (see Section 5.7 of this Scheme Booklet).

5.3 Vocus' business

Vocus provides four main services to cater for the connectivity and data centre hosting requirements of its customers:

- (a) **Internet:** provision of internet bandwidth that is used for internet connectivity for businesses, ISP and other telecommunications companies;
- (b) **Fibre and Ethernet:** infrastructure that allows customers to establish a private, fast and secure connection to link their entire enterprise and/or to its data centres in order to run ultra-fast software solutions;
- (c) **Data Centres:** specialised premises where Vocus customers can host their IT equipment and infrastructure; and
- (d) **Voice:** voice network that allows telephone calls coming from any telephony user worldwide to be connected to a user on the Vocus voice network and vice versa.

Vocus acquired a Project Services construction division as part of the FX Networks acquisition in September 2014. This business designs and constructs long-haul fibre networks on behalf of third parties and was subsequently sold into an equal joint venture with Spark New Zealand Trading Limited.

Vocus product overview

During the six months ended 31 December 2014 (HY2015) there were no customers of Vocus which contributed greater than 5% of external revenue (compared to one customer contributing 11.5% of revenue for the prior corresponding six months ended 31 December 2013 (HY2014)).

(a) **Internet**

Vocus is an independent aggregator and manager of internet capacity in Australia and New Zealand, providing wholesale bandwidth and wholesale DSL services to ISPs, along with the provision of internet access to enterprise customers.

Vocus provides internet primarily through capacity on two undersea cables:

- (i) **Southern Cross Cable:** cable connecting Australia and New Zealand to the USA; and
- (ii) **Sea-Me-We 3 Cable:** cable connecting Australia and Singapore and onward to Europe.

Other cable systems are also leased as required by Vocus on a periodic basis to provide connectivity to customers.

International cable network

Note: map for illustrative purposes only and not a complete representation of Vocus' entire infrastructure network

Vocus operates the third largest IP Transit backbone in Australia behind Telstra and Optus and is fully integrated with the other Vocus businesses providing strong cross sales capability.

The majority of Vocus' Internet revenue is generated via purchased capacity on submarine cables (via a share of physical ownership or through indefeasible rights of use (IRU)) which is then subleased to its wholesale and enterprise customers. Once capacity has been purchased, Internet is a low maintenance business which requires little in the way of ongoing maintenance capital expenditure.

There are significant barriers to entry to lay undersea cable in Australia and New Zealand. Given the high upfront capital costs, Vocus expects limited incremental capacity to be added to submarine cable capacity over the near term with additional capacity likely to become available only through the expansion of existing cables.

Vocus continually assesses its customers' needs and the international IP transit market. In February 2015, Vocus entered into an agreement with Southern Cross Cables Limited for a long-term purchase program of submarine cable capacity with capacity allocated and made available to Vocus in annual allotments from December 2015 to December 2021. The capacity purchase program costs a total of US\$58,500,000 paid over a six year period from 31 December 2015 which Vocus intends to fund out of its cash flow and existing facilities. This capacity purchase program agreement will significantly increase Vocus' current capacity on the Southern Cross Cable.

(b) Fibre and Ethernet

Vocus entered the Australian domestic fibre market through the acquisition of Digital River Networks' fibre assets in May 2011, which included c. 59km of fibre infrastructure connected to 50 on-net buildings. By 31 December 2014, through a combination of organic growth and accretive acquisitions, this has increased to 687km with over 1,250 connected buildings. This steady growth has resulted in Vocus establishing one of the most connected networks in Australia, which in turn is expected to secure Vocus' continued growth into the future.

Data centres connected	43	43	59	82	93
On-net buildings	50	147	651	1,035	1,270

6 Vocus entered the fibre services market in May 2011 when it acquired the fibre assets of Digital River Networks Pty Ltd.

Vocus' Fibre & Ethernet division comprises two products:

- (i) **Dark Fibre:** secure point-to-point connectivity to clients at multi-gigabit speeds, facilitating the direct connection of two offices or offices with data centres. Dark Fibre services are available in major metropolitan cities in Australia and New Zealand; and
- (ii) **Ethernet:** metropolitan, intercity and international point-to-point or point-to-multipoint connectivity at speeds from 10Mbps to 10Gbps. Ethernet services are available to connect sites across Australia, New Zealand, Singapore, Hong Kong and the USA.

Customer contracts are typically 24 to 60 months in duration with low churn rates, and there are minimal additional costs to service customers once a site is connected to the Vocus network.

Vocus has invested heavily in its fibre network since the acquisition of Digital River Networks in 2011 as a result of strong customer demand for high speed connectivity services. Vocus targets network density rather than fibre distance to maximise the number of addressable customers per kilometre of fibre. Fibre capacity is expected to be added to Vocus' network on increased customer demand.

Vocus New Zealand fibre network

Vocus also owns a high quality intercity fibre optic network consisting of over 4,250km of modern fibre optic cable covering the North and South Islands of New Zealand, with an additional ~2,000km under third party leases.

Vocus' New Zealand network is connected to 17 major data centres and to 26 of 33 Ultra-Fast Broadband ("UFB") (the New Zealand equivalent of the Australian National Broadband Network) Candidate Areas and all major population centres.

Vocus is only one of three intercity networks in New Zealand and provides high-speed bandwidth capable of transferring data and voice at speeds up to 100Gbps.

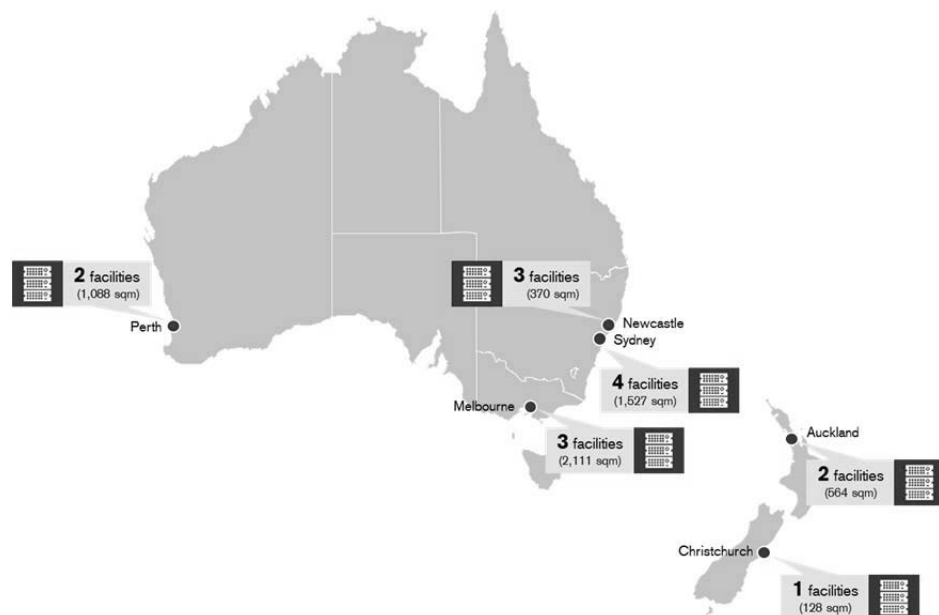

Note: map for illustrative purposes only and not a complete representation of Vocus' entire infrastructure network

Vocus has a comparative advantage over other cable providers in New Zealand as a provider of ducted fibre optic cables. Vocus' competitors' cables are typically not ducted and they therefore may experience significant potential costs in replacing their cables or expanding their capacity as this requires the re-digging of trenches.

(c) Data Centres

Vocus' data centres provide colocation services to the telecommunications industry and enterprise customers through the provision of purpose built facilities with power, cooling and security. Together with the recent EDC acquisition, Vocus will operate fifteen data centres across eleven sites, including two sites in New Zealand.

Data Centre locations⁷

⁷ Includes Vocus' acquisition of the two data and business continuity centres of EDC which is expected to complete in April 2015.

Vocus operates in a different market segment from large pure data centre players and focuses specifically on CBD (or near CBD) locations.

Vocus offers data centre space to customers typically on fixed term contracts. Vocus has not historically experienced material levels of customer data centre churn as moving data centres can lead to higher operational risk and significant costs.

Vocus' data centre revenue is generated by charging a fee for housing the customer's IT equipment and infrastructure in one of Vocus' fifteen facilities across Australia and New Zealand. Data centre services provide strong leads to bundle Vocus' other services such as fibre and Internet connectivity at a compelling price for its customers.

The typical fee structure for Vocus data centre customers is either:

- (i) fee per rack of equipment with power costs included in the fee; and
- (ii) fee based on the caged floor area (generally for larger customers) with the power billed separately.

Although Vocus' view is that data centre volume requirements will grow, data centre rates are expected to slightly decline over the short-term largely due to the introduction of additional supply into the marketplace. However, pricing is underpinned by property lease costs and as a result, there is likely to be little elasticity with regard to pricing.

Key drivers of data centre growth include corporates moving their information technology and telecommunications infrastructure off-premises. The reasons for doing this potentially include:

- (i) tighter operating budgets and the need to manage energy costs more efficiently;
- (ii) greater requirements for data storage and analytical solutions; and
- (iii) comparative speed and efficiency benefits to accessing the enterprise's data and applications when stored remotely.

In February 2015, Vocus entered into an agreement to acquire two data centres and business continuity operations of Enterprise Data Corporation Pty Ltd (EDC) in Sydney and Melbourne for a total purchase price of \$23,500,000. Vocus intends to fund the EDC acquisition out of its cash flow and existing facilities. This acquisition is expected to complete in April 2015 and is subject to usual conditions precedent. The acquisition of EDC will increase Vocus' data centres to fifteen across eleven sites and will add the complementary business continuity services to Vocus' suite of solutions for corporate customers.

Vocus works as an interconnect carrier with its voice network primarily providing the ability to route calls to/from Vocus clients to both national and international destinations. Vocus provides wholesale voice services primarily to VoIP service providers, the calling card industry and resellers. An emerging market for Vocus is the provision of voice services to corporates.

(e) **Project Services**

As part of the FX Networks acquisition in September 2014, Vocus acquired a construction division in New Zealand which deploys fibre for both third parties and for internal purposes when required. The construction business includes machinery and manpower capability to install fibre optic cable.

In February 2015, Vocus divested this business into a joint venture with Spark New Zealand Trading Limited, called Connect 8 Limited. Under the terms of the joint venture, Spark New Zealand will acquire 50% of Connect 8 Limited for an upfront payment and agreed level of annual construction spend. Vocus and Spark New Zealand Trading Limited will be equally represented on the Connect 8 Limited board and receive equal distributions of profits.

Connect 8 Limited will continue to construct fibre optic and telecommunications assets for Vocus, Spark New Zealand Trading Limited and other telecommunication providers in New Zealand.

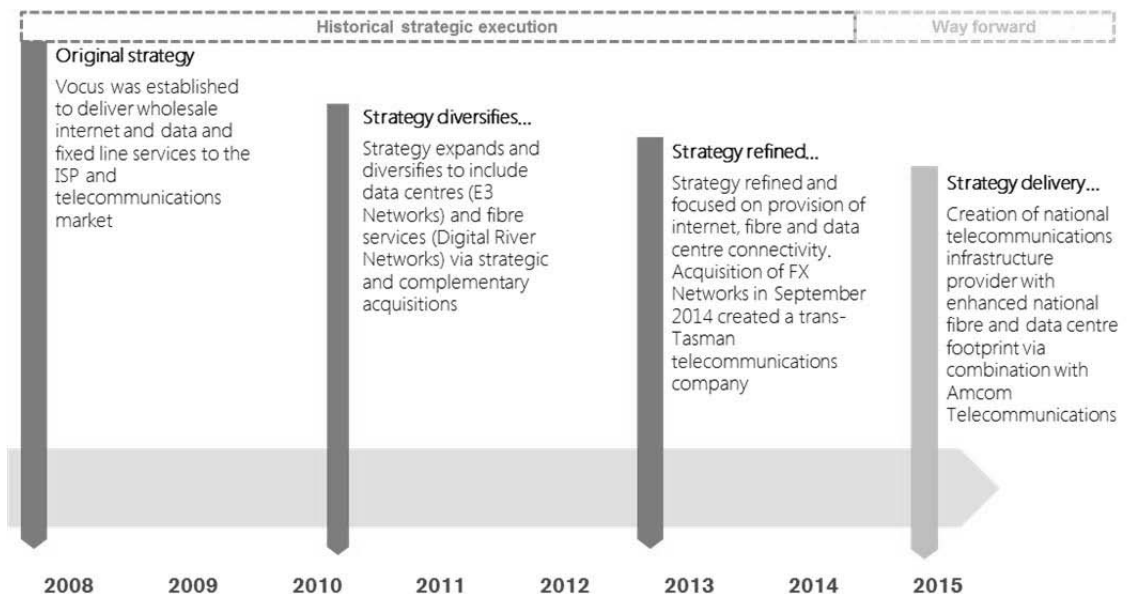

5.4 Vocus strategy

The telecommunications sector in both Australia and New Zealand is highly competitive with a considerable number of wholesale and retail service providers. Vocus seeks to differentiate itself by owning key infrastructure and bundling Internet connectivity, fibre and data centre products and providing superior service delivery to its customers.

Vocus' strategy to maximise Vocus Shareholders' value is supported by the following telecommunication industry dynamics:

- (a) increasing data requirements: increase in data demand and requirements for reliable data delivery at high speeds for government, corporate and enterprise customers; and
- (b) increasing IT outsourcing trends: increase in co-location services as government, corporate and enterprise customers move to cloud based IT solutions. Co-location typically requires the purchase of two Vocus products including rack space in a data centre and a data connection (fibre) to connect the data source to the office.

Evolution of Vocus' strategy

Vocus has focused on executing an integrated telecommunications services product offering across Internet, fibre and Ethernet and data centres. The historic success of Vocus' strategy is illustrated in the charts below which demonstrate the changing composition of Vocus' earnings as it increases its exposure to higher margin and annuity revenue streams.

Vocus considers that the trend in cloud computing and data outsourcing will continue and intends to ensure that it is well positioned to benefit from the resulting demand for Internet, fibre and data centre capacity whilst maximising operational efficiencies. In order to achieve this Vocus has the following objectives:

- continue to expand its existing customer base and product penetration increasing operational leverage and utilisation of its assets;
- continue to evaluate strategic acquisitions where complementary to Vocus' current business;
- offer adjacent high margin products that are leveraged to the increased trends in data demand;
- focus on sales and building the brand in the corporate market;
- continue to expand its network driven by customer demand; and
- focus on automation of workflow to reduce service delivery costs and increase customer satisfaction by improving its internal systems and customer interface processes.

5.10 Financing arrangements

Vocus has historically adopted a diversified capital management and treasury policy to safeguard its ability to continue as a going concern, so that it can provide returns to Vocus Shareholders, support growth initiatives and to maintain an optimum capital structure to reduce its overall cost of capital.

Vocus has primarily financed itself with the operating cash flows from its business, the issue of equity, bank loans, finance leases and IRU contractual payment obligations. Vocus aims to continue to finance itself and any additional network build requirements primarily through its positive cash flows.

Vocus currently has a multi-currency term and revolving facility with CBA. The facilities have total limits of A\$70,600,000 and NZ\$77,600,000 and also contain provisions permitting additional facilities subject to agreed terms totalling \$30,000,000. The facilities were established to assist in funding the acquisition of FX Networks Limited, refinance its USD denominated IRU liabilities assist with capital expenditure, future acquisition requirements, working capital requirements and provide a natural hedge against Vocus' NZD denominated assets.

In July 2014, Vocus repaid its USD denominated IRU liabilities. The repayment locked in the USD exchange rate for the USD IRU liability and enabled Vocus to benefit from an early repayment discount in relation to its existing capacity purchases.

Vocus monitors its capital on the basis of the gearing ratio⁽⁹⁾. Vocus' gearing ratio for FY2014 and for HY2015 is set out below:

A\$000's	FY2014 (30-Jun-14)	HY2015 (31-Dec-14)
Current borrowings	7,907	10,109
Non-current borrowings	41,931	105,225
Total borrowings	49,838	115,334
Cash and cash equivalents	(44,557)	(39,101)
Net debt	5,281	76,233
Total equity	137,124	211,245
Total capital	142,405	287,478
Gearing ratio	4%	27%

⁹ This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less 'cash and cash equivalents' as shown on the Vocus statement of financial position. Total capital is calculated as 'total equity' as shown on the Vocus statement of financial position (including non-controlling interest) plus net debt.

5.11 Litigation

Except as outlined below, as at the date of this Scheme Booklet, Vocus is not aware of any material contractual disputes or litigation matters in respect of Vocus, including with its customers or other third parties.

A claim has been brought against FX Networks Limited, a Subsidiary of Vocus, in New Zealand by one of its customers seeking specific performance of a commercial agreement entered into in 2009 (which pre-dates Vocus' ownership of FX Networks Limited) under which FX Networks purportedly agrees to supply two fibre pairs to that customer. If the claim is successful, FX Networks Limited would be required to supply the relevant fibre pairs to the customer for the amount of consideration set out in that agreement. FX Networks maintains the contract was terminated for material breach by the customer in 2011.

5.12 Vocus historical and pro forma historical financial information

The historical financial information in this Section has been derived from Vocus' financial statements for the financial years ended 30 June 2013 and 30 June 2014, which were audited by Deloitte Touche Tohmatsu and interim financial statements for the six months ended 31 December 2014, which were reviewed by Deloitte Touche Tohmatsu.

(a) Basis of preparation

The historical and Pro Forma Historical Financial Information of Vocus is in an abbreviated form and does not contain all the disclosures, presentation, statements or comparatives that are usually provided in an annual report prepared in accordance with the Corporations Act.

The Pro Forma Historical Financial Information of Vocus has been prepared in accordance with the recognition and measurement principles contained in the Australian Accounting Standards.

The Pro Forma Historical Financial Information of Vocus has been prepared in a manner consistent with the recognition and measurement principles contained in Australian Accounting Standards, other than it reflects (a) the exclusion of certain transactions that occurred in the six month period ended 31 December 2014; and (b) the impact of certain events or transactions as if they occurred on or before 1 July 2014.

Vocus' recent statutory historical consolidated income statements, historical consolidated statements of financial position and historical consolidated cash flow statements are disclosed in the annual financial report for the financial years ended 30 June 2013 and 30 June 2014 and in the interim financial report of Vocus for the six months ended 31 December 2014, all of which can be found on the Vocus website at www.vocus.com.au or the ASX website at www.asx.com.au.

This Section contains the following Vocus financial information:

- (i) historical consolidated income statements for the financial years ended 30 June 2013 and 30 June 2014 and the six months ended 31 December 2014;
- (ii) historical consolidated statement of financial position as at 31 December 2014;
- (iii) the pro forma historical consolidated income statement for the six months ended 31 December 2014; and
- (iv) the pro forma historical consolidated statement of financial position as at 31 December 2014 (collectively, (iii) and (iv) are referred to as "Vocus Pro Forma Historical Financial Information").

During the six months ended 31 December 2014, Vocus undertook the following acquisitions:

- (i) acquisition of the Bentley Data Centre in Perth from ASG Group Limited in August 2014; and
- (ii) acquisition of FX Networks Limited in September 2014.

Subsequent to 31 December 2014, Vocus entered into certain agreements in February 2015 as follows:

- (i) divestment of Vocus' New Zealand Construction division which Vocus acquired as part of the FX Networks Limited acquisition into a joint venture called Connect 8 Limited with Spark New Zealand Trading Limited;
- (ii) acquisition of the Sydney and Melbourne data centre and business continuity assets of Enterprise Data Corporation Pty Ltd; and
- (iii) long-term purchase program for submarine cable capacity with Southern Cross Cables Limited over a six year period.

In order to illustrate the financial effects of the above, Vocus has presented a pro forma historical consolidated income statement for the six months ended 31 December 2014 that has been adjusted as if the following transactions and agreements were effective from 1 July 2014:

- (i) the Bentley Data Centre acquisition;
- (ii) the FX Networks Limited acquisition (including net finance costs incurred as a result of the acquisition) less contributions from Vocus' New Zealand Construction division given Vocus' divestment of the Construction division to Connect 8 Limited; and
- (iii) the acquisition of the Sydney and Melbourne data centre and business continuity assets of Enterprise Data Corporation Pty Ltd.

It should be noted that Vocus' historical consolidated income for the six months ended 31 December 2014 has not been adjusted for the expected forecast positive financial contribution as an equal joint venture partner in Connect 8 Limited.

Vocus has also presented a pro forma historical consolidated statement of financial position as at 31 December 2014 to illustrate the financial effect of the below transactions which occurred subsequent to 31 December 2014:

- (i) the acquisition of the Sydney and Melbourne data centre and business continuity assets of Enterprise Data Corporation Pty Ltd; and
- (ii) the divestment of Vocus' New Zealand Construction division which Vocus acquired as part of the FX Networks Limited acquisition into a joint venture called Connect 8 Limited with Spark New Zealand Trading Limited.

As Vocus' long-term purchase program for submarine cable capacity with Southern Cross Cables Limited does not constitute an asset or liability until the purchases occur, a pro forma adjustment to the historical consolidated statement of financial position in relation to this program has not been made as at 31 December 2014.

The Vocus historical and Vocus Pro Forma Historical Financial Information presented in this Section 5.12 is an abbreviated form and does not represent complete financial statements and should therefore be read in conjunction with the financial statements for the respective periods, including the description of accounting policies contained in those financial statements and the notes to those financial statements. A full description of Vocus' accounting policies can be found in its annual financial report for the financial year ended 30 June 2014. No substantial or material changes are expected to those policies. In particular:

- (i) Vocus follows and is in full compliance with Australian Accounting Standards;
- (ii) Vocus matches revenue and expenses and does not capitalise expenses unless it has a life and economic benefit greater than the period in question;
- (iii) no material inventories exist and goodwill impairment testing is performed periodically;
- (iv) no off-balance sheet transactions or vehicles exist other than the Southern Cross IRU purchase program commitment (see Section 5.3); and
- (v) IRU assets are amortised on a straight-line basis over their economic life presently out to November 2030.

The financial information below relates to Vocus on a standalone basis only and accordingly does not reflect any impact of the Scheme except for the following:

- (i) the costs incurred in relation to the Scheme for the six months ended 31 December 2014, totalling \$530,000, have been included in Vocus' interim financial statements for the six months ended 31 December 2014 under the line item 'Acquisition and integration costs'.

5.14 Vocus risk factors

Risk factors relating to Vocus and its business are discussed in Section 7 of this Scheme Booklet.

(c) **Dealings in the previous four months**

On 24 October 2014, Vocus acquired a Relevant Interest in 26,639,915 Amcom Shares (representing approximately 10% of the issued and outstanding Amcom Shares, calculated on a non-diluted basis) as a result of:

- (i) the acquisition on market of 13,186,000 Amcom Shares on 23 October 2014 at a price of \$1.94 per Amcom Share; and
- (ii) a physically-settled equity swap transaction dated 24 October 2014.

Vocus' entry into the physically-settled equity swap transaction followed the termination on 24 October 2014 of cash-settled equity swap transactions which occurred during the period from 18 August 2014 to 23 October 2014 and which gave Vocus an economic interest in 13,453,915 Amcom Shares at reference prices between \$1.87 and \$2.06 per Amcom Share. Vocus intends to settle the physically settled equity swap prior to the Implementation Date in accordance with its terms.

(d) **Benefits during the previous four months**

Except as disclosed in paragraph (c), neither Vocus nor any of its Associates, during the period of four months before the date of this Scheme Booklet, gave, or offered or agreed to give, a benefit to another person where the benefit was likely to induce the other person, or an Associate of the other person, to:

- (i) vote in favour of a Scheme; or
- (ii) dispose of Amcom Shares,

and where the benefit is not being offered to all Amcom Shareholders.

(e) **Interests of Vocus Directors**

As at the date of this Scheme Booklet, the Vocus Directors do not hold any Amcom Shares and do not otherwise have a Relevant Interest in Amcom Shares, either directly or indirectly.

5.16 Vocus dividend

As at the date of this Scheme Booklet, Vocus does not have a formal dividend policy. Historically, the Vocus Board has elected to reinvest the profits of Vocus into its various businesses to support growth initiatives.

The Vocus Board has acknowledged that yield in addition to Vocus' capital growth is important for Vocus Shareholders. As such, Vocus declared its first fully franked dividend in February 2013 and has increased and maintained the payment of dividends since this date whilst preserving the flexibility to continue to reinvest in the business if required.

A summary of Vocus' historical fully franked declared dividends can be found below:

	<u>Dividend type (cents)</u>			Total
	Final	Interim	Special	
FY2013	0.6	0.4	-	1.0
FY2014	1.0	0.8	-	1.8
HY2015		1.2	5.1	6.3

For the half year ending 31 December 2014, Vocus has declared the following dividends:

- (a) an interim HY2015 dividend of 1.2 cents per Vocus Share; and
- (b) a one-off special dividend of 5.1 cents per Vocus Share conditional on the Scheme becoming Effective.

5.17 Rights and liabilities attached to New Vocus Shares

The Vocus Shares issued as consideration under the Scheme will be issued as fully paid ordinary shares and will rank equally with all issued ordinary shares of Vocus from the date of their allotment.

The New Vocus Shares will have the same rights and liabilities attaching to them as existing Vocus Shares by virtue of Vocus' constitution, the Corporations Act and the common law. A broad summary of those rights is set out below.

(c) **General meetings**

Each holder of Vocus Shares is entitled to receive notice of and to attend and vote at all meetings of members of Vocus. They are entitled to be present and vote at meetings in person, or by proxy, attorney or authorised representative.

Vocus shareholders are also entitled to call a general meeting.

(d) **Voting**

Each Vocus Share confers the right to vote at general meetings. On a show of hands, each Vocus shareholder has one vote. On a poll, each member has one vote for each fully paid share held by the member and a fraction of a vote proportional to the amount paid on each partly-paid share.

(e) **Dividends**

Vocus shareholders are entitled to receive dividends declared in respect of ordinary shares in proportion to the number of Vocus Shares they hold.

The directors may declare dividends as and when they see fit.

(f) **Transfer of Vocus Shares**

A Vocus shareholder may transfer all or any of the shares held by the member to a third party, subject to formal requirements.

The Vocus board may refuse to register a transfer of shares in any circumstances permitted by the ASX Listing Rules. The Vocus board must refuse to register a transfer during an applicable escrow period (except as permitted by the ASX Listing Rules or the ASX) or in circumstances where it is required to do so by the ASX Listing Rules.

(g) **Non-marketable parcels**

As permitted by the ASX Listing Rules, the Vocus constitution confers the power on Vocus to dispose of non-marketable parcels of Vocus Shares. Vocus must not sell a non-marketable parcel unless it has given 42 days' written notice to the shareholder of its intention to sell the shares. The shareholder may ask Vocus to exempt their shares, in which case Vocus will not sell the parcel. If Vocus does sell the shares, the proceeds of the sale are remitted to the shareholder.

(h) **Winding-up**

Each Vocus Share confers on its holder the right to participate equally in the distribution of the assets of Vocus in a winding up, subject only to any amounts unpaid on the share.

If Vocus is wound up, the liquidator may, with the sanction of a special resolution, divide among the members in kind all or any of Vocus' assets and for that purpose determine how the liquidator will carry out the division between the members. The liquidator may also vest all or any of Vocus' assets in a trustee on trusts determined by the liquidator for the benefit of the contributories.

(i) **Variation**

The rights and liabilities attached to the Vocus Shares may, unless their terms of issue state otherwise, only be varied or cancelled:

- (i) with the written consent of holders of such shares with at least 75% of the votes in the class; or
- (ii) with the sanction of a special resolution passed at a meeting of the class of holders holding shares in the class.

The rights and liabilities attaching to Vocus Shares (including New Vocus Shares) are governed by the Corporations Act and Vocus' constitution. A copy of Vocus' constitution is available on the ASX announcements platform or shareholders may request a copy from Vocus on (02) 8999 8999 or by email at info@vocus.com.au.

5.18 Publicly available information

As an ASX listed company and a "disclosing entity" under the Corporations Act, Vocus is subject to regular reporting and disclosure obligations. Among other things, these obligations require Vocus to announce price sensitive information to the ASX as soon as Vocus becomes aware of information, subject to some exceptions. Vocus has complied with its continuous disclosure obligations at all times.

Pursuant to the Corporations Act, Vocus is required to prepare and lodge with ASIC and the ASX both annual and half-yearly financial statements accompanied by a statement and report from the Vocus directors and an audit or review report.

Copies of each of these documents can be obtained (free of charge) by contacting Vocus on (02) 8999 8999 or by email at info@vocus.com.au.

ASIC also maintains a record of documents lodged with it by Vocus, and these may be obtained from, or inspected at, any office of ASIC. Information is also available on Vocus' website at www.vocus.com.au.

Vocus' continuous disclosure notices to the ASX after the lodgement with the ASX of its financial statement for the year ended 30 June 2014 on 28 October 2014 and before the lodgement for registration of this Scheme Booklet by ASIC are listed in the table below.

6. Profile of the Combined Group

The Vocus Information contained in this Section 6 has been prepared by Vocus and is the responsibility of Vocus (except to the extent that the Vocus Information is based on information about Amcom, for which Amcom takes responsibility). Amcom and Amcom's Directors and officers do not assume any responsibility for the accuracy or completeness of this information (except to the extent that the Vocus Information is based on information about Amcom).

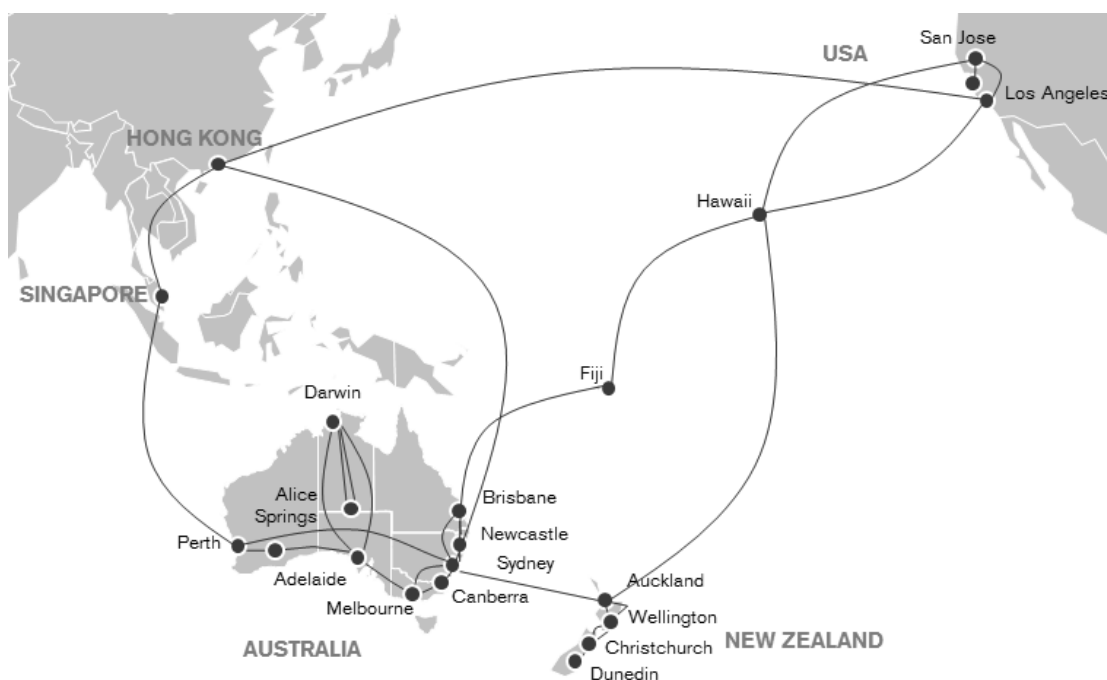

6.1 The Combined Group

Implementation of the Scheme will result in the combination of two geographically diverse and highly complementary businesses to create a leading trans-Tasman telecommunication infrastructure provider.

The combination will mean that Amcom, with its core customer base in Western Australia, South Australia and the Northern Territory, and Vocus, with its core customer base in New South Wales, Victoria, Queensland, the Australian Capital Territory and New Zealand will have metro fibre assets connecting c.2,800 buildings, over 4,250 km of intercity fibre and over 22 data centres across 17 sites in Australia and New Zealand.

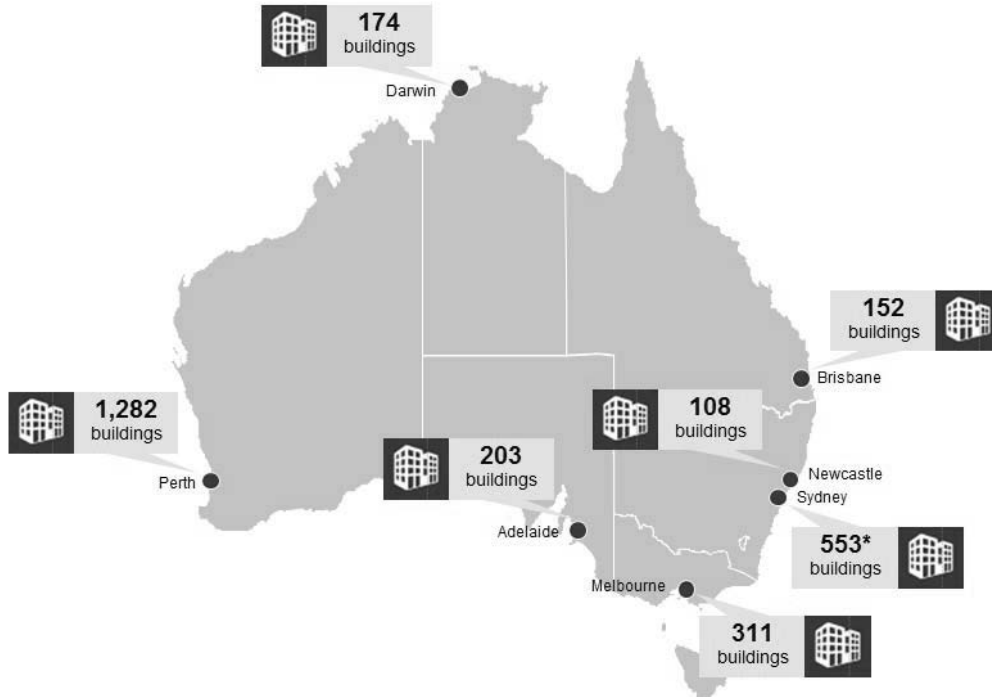

Supported by this extensive infrastructure network, the Combined Group will provide high performance, high availability and highly scalable communications solutions to wholesale, corporate and government customers.

Combined Group's telecommunications infrastructure

Note: map for illustrative purposes only and not a complete representation of the Combined Group's entire infrastructure network

Combined Group's on-net buildings

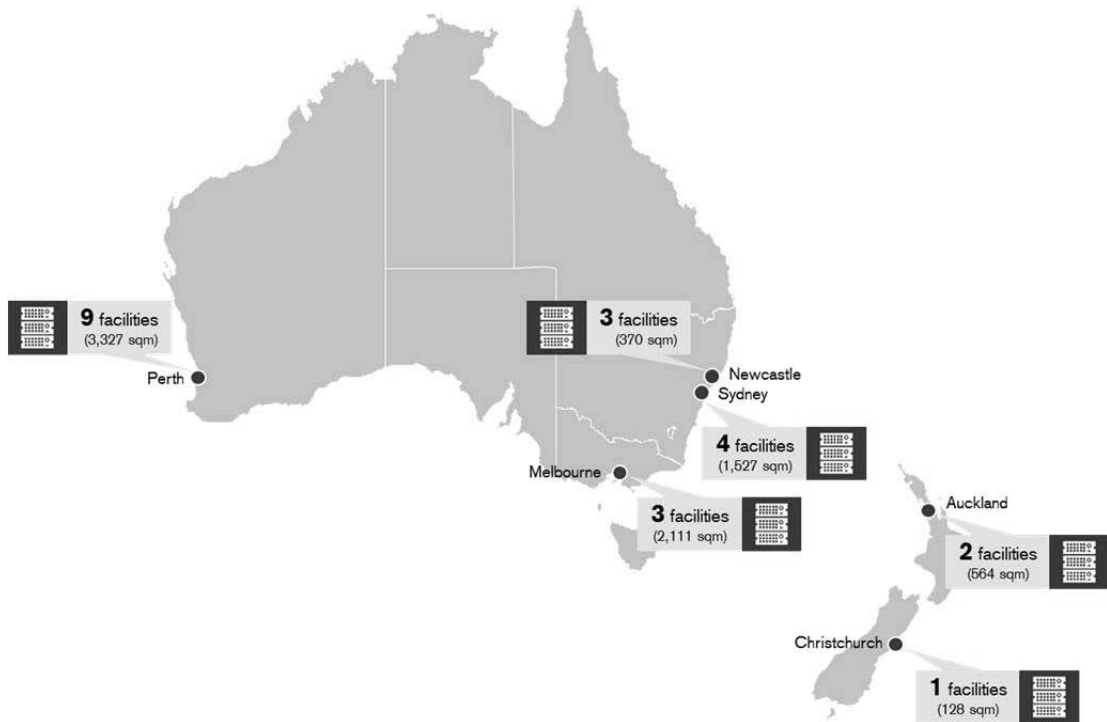

* includes Woollongong

Note: as at December 2014

The scale of the Combined Group's network and product suite presents an enlarged addressable market inclusive of wholesale, corporate and government enterprises across Australia and New Zealand.

The addition of Amcom's complementary business to Vocus is expected to provide the Combined Group with a national network enhancing its ability to offer product and services to its combined 3,700+ customers. As an example, Amcom's Unified Communications products are expected to provide Vocus the ability to offer these services across the Australian and New Zealand network.

Combined Group's data centres¹⁰

In addition to the compelling combined product offering, the Vocus and Amcom Directors believe the Combined Group will generate significant value for all shareholders, with identifiable cost-out opportunities and potential revenue synergies.

Cost synergies

The annualised cost synergies have been estimated by Vocus and Amcom management teams at \$13 million - \$15 million p.a., to be realised by the end of FY2017.

These synergies are expected to be realised through complementary infrastructure and operations, including:

- (a) Vocus assuming provision of Amcom's IP Transit requirements (\$2 million);
- (b) rationalisation of duplicate network infrastructure (\$3 million);
- (c) removal of duplicate company costs (\$5-7 million); and
- (d) aggregation and economies of scale in relation to input supplies (\$3 million).

Revenue synergies

The Combined Group may also realise revenue enhancement opportunities through:

- (a) sales of Vocus' Internet products to existing Amcom customers;
- (b) the sale of Amcom's hosted telephony and Unified Communications products to Vocus' Australian customer base;
- (c) providing the Amcom Unified Communications product to the New Zealand market;
- (d) enhanced distribution of Vocus' fibre product via Amcom channel partners; and

¹⁰ Includes Vocus' acquisition of the two data and business continuity centres of EDC which is expected to complete in April 2015.

- (e) a combined national and international network with a presence in all Australian and New Zealand capital cities along with presences in Asia and the USA.

Vocus has had a successful track record of integrating assets and business however the achievement of any synergies is not certain. There is a risk that synergies may not be realised at all or not realised to their full extent, or that they may be realised over a longer period of time than anticipated. Further detail regarding these risks is in Section 7.

6.2 Vocus' intentions following implementation of the Scheme

This Section 6.2 sets out Vocus' intentions in relation to:

- (a) the continuation of the business of Amcom;
- (b) any major changes to the business of Amcom, including any redeployment of the fixed assets of Amcom;
- (c) members of the Combined Group's board of directors;
- (d) the future employment of the present employees of Amcom;
- (e) the intended dividend policy for the Combined Group;
- (f) removal of Amcom from the ASX; and
- (g) other Vocus intentions for the Combined Group,

if the Scheme is implemented.

The statements of intention made in this Section 6.2 are based on the information concerning Amcom and the circumstances affecting the business of Amcom that are known to Vocus at the date of this Scheme Booklet. Final decisions on these matters will only be made in light of all material information, facts and circumstances at the relevant time if the Scheme is implemented. Accordingly, it is important to recognise that the statements set out in this Section 6.2 are statements of current intention only, which may change as new information becomes available or circumstances change.

(a) **General review of the business of Amcom**

If the Scheme is implemented, Vocus intends to continue the business of Amcom largely in its current form. Vocus intends to collaborate with Amcom's staff and existing management team to optimise Amcom's prospects and operating performance.

In order to achieve these outcomes, Vocus intends to undertake a review of Amcom's business to verify (or to identify any deviation from) Vocus' understanding of the information, facts and circumstances concerning Amcom's assets, strategies and operations as at the date of this Scheme Booklet. Vocus will then work with Amcom's staff and management team to determine how to further develop the Combined Group's business in order to maximise its operating performance.

While Vocus does not have any specific intentions in relation to this review or its outcomes, the review may identify opportunities to optimise capital requirements and returns and other opportunities to improve the business.

(b) **Business integration**

Vocus has no current intention to make significant changes to any parts of Amcom, nor redeploy any of Amcom's fixed assets or transfer any of Amcom's current businesses or material assets.

Vocus' and Amcom's existing Australian businesses share some common requirements in terms of infrastructure and operations. Through the integration of these businesses, Vocus expects to achieve increased efficiency and synergy benefits over time.

(c) **Members of the Combined Group's board of directors**

In accordance with the Scheme Implementation Agreement, Vocus intends to appoint three persons nominated by Amcom (being Mr Tony Grist as Deputy Chairman and Mr Paul Brandling and Mr Anthony Davies as Non Executive Directors) to its board so that the Vocus board of the Combined Group comprises three Amcom nominees and five Vocus nominees (see Section 6.3 below for further information). Amcom is also required to procure the resignation of the directors of Amcom and its subsidiaries (other than the three Amcom nominees appointed to the board of the Combined Group) and to appoint persons nominated by Vocus to those positions.

(d) **Future employment of the present employees of Amcom and incentive plans**

Vocus intends to retain the services of Amcom's employees, including its senior management and operational management teams. There may be some redundancies as a result of the operational and strategic review described above, however this number is not expected to be material and Vocus will endeavour to minimise the disruption (if any) to Amcom and its employees. Vocus intends that the remuneration arrangements will continue to attract and retain employees. Vocus will evaluate the future management and administrative requirements of Amcom following completion of the general operational review described above.

Vocus expects there to be significant value and knowledge in the existing staff of Amcom. Vocus plans to draw on the management expertise of both its and Amcom's existing businesses to ensure that the businesses and cultures are integrated and operated effectively following implementation of the Scheme. In particular, Vocus intends that Mr Clive Stein (the current CEO of Amcom) will continue with the Amcom business for a period following implementation of the Scheme to ensure a smooth transition. Overall, the key operational responsibilities held by Amcom's management are expected to be largely unchanged, however, final decisions regarding the structure of the Vocus and Amcom businesses (including in respect of any potential duplication between existing corporate and administrative functions) will be made following implementation of the Scheme.

As at the date of this Scheme Booklet, Amcom has 4,185,000 Amcom Performance Rights on issue. Please see Section 1.8 for details of the treatment of these Amcom Performance Rights under the Scheme.

The remuneration arrangements of employees, the terms of any new incentive plans and the employees who will be entitled to participate in those plans will be determined by Vocus after implementation of the Scheme, in consultation with Amcom's management team.

(e) **Dividend policy for the Combined Group**

If the Scheme is implemented, Vocus intends that the Combined Group's board of directors will determine the dividend policy of the Combined Group having regard to its profits, its financial position and an assessment of the capital required to grow its businesses. Accordingly, there is no guarantee that the Combined Group will continue to pay dividends in line with Amcom's historical dividend policy, although it is Vocus' current intention that the Combined Group will continue to pay a dividend consistent with its continued balance and focus between an increasing yield and deriving capital growth.

Historically, Amcom and Vocus have maintained different dividend policies. During the previous three financial years, Amcom paid an annual dividend in the range of 43% to 68%⁽¹¹⁾ of net profit after tax, while Vocus has paid an annual dividend in the range of nil% to 15%⁽¹²⁾ of net profit after tax and reinvested the remainder of its profits for growth.

(f) **Removal of Amcom from the official list of the ASX**

Once the Scheme has been implemented, Vocus intends to procure that Amcom apply for termination from the official quotation on the ASX of Amcom shares and apply to have itself removed from the official list of the ASX.

Vocus intends to remain listed on the ASX.

(g) **Other intentions for the Combined Group**

Other than as set out in this Section 6.2, if the Scheme is implemented, it is Vocus' present intention to:

- (i) continue the business of Amcom in substantially the same manner as presently conducted;
- (ii) not make any major changes to the business of Amcom nor redeploy the fixed assets of Amcom; and
- (iii) continue the employment of the present employees of Amcom.

6.3 Combined Group's board of directors and senior management

(a) **Combined Group's board of directors**

Under the Scheme Implementation Agreement, Vocus has agreed to do all things necessary to procure that the board of directors of the Combined Group following the Scheme is comprised of five nominees of Vocus and three nominees of Amcom acceptable to the parties, acting reasonably. Vocus' and Amcom's current intention is that the board of directors of the Combined Group following the Scheme will be comprised as follows:

Name	Position
David Spence	Non Executive Chairman
Tony Grist	Non Executive Deputy Chairman

11 Amcom dividend payout ratio calculated by dividing total dividends per share declared for the financial year divided by Amcom basic earnings per share.

12 Vocus dividend payout ratio calculated by dividing total dividends per share declared for the financial year divided by Vocus basic earnings per share.

Name	Position
James Spenceley	Chief Executive Officer
Jon Brett	Non Executive Director
John Murphy	Non Executive Director
Stephen Baxter	Non Executive Director
Paul Brandling	Non Executive Director
Anthony Davies	Non Executive Director

(b) **Combined Group senior management**

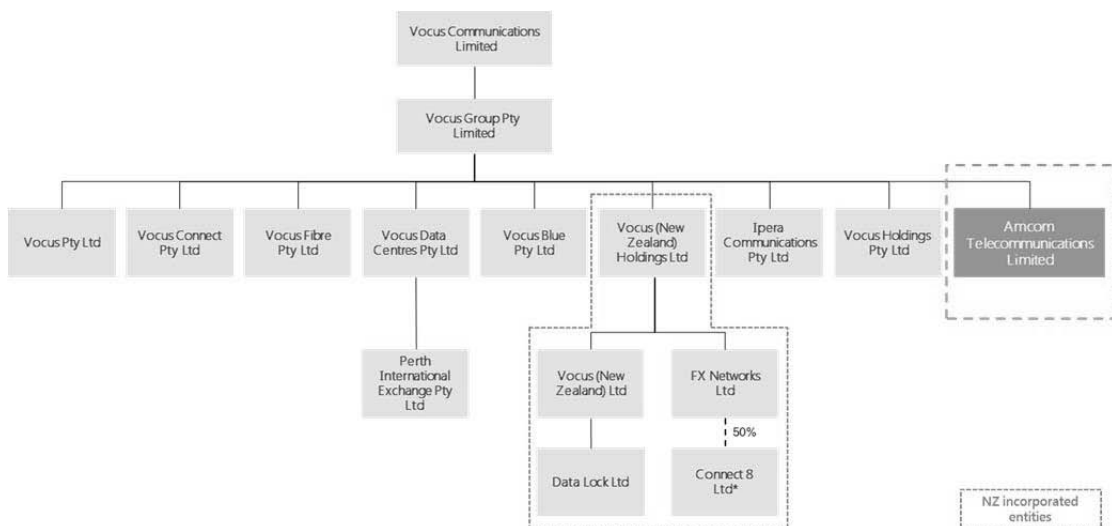

Mr James Spenceley will be the Chief Executive Officer and Mr Richard Correll will be the Chief Financial Officer of the Combined Group.

The remaining members of the Combined Group’s senior management team have not been finalised as at the date of this Scheme Booklet and will be determined by the Combined Group’s board following completion of, and having regard to the outcomes of, the general operational review described above.

It is expected that the Combined Group’s senior management team will be comprised of individuals from both Vocus’ senior management team in Section 5.5 and Amcom’s senior management team in Section 4.4.

6.4 Corporate structure following implementation of Scheme

Vocus' corporate structure following implementation of Scheme is set out below.

*Vocus is a 50% joint venture partner with Spark New Zealand Trading Limited in Connect 8 Limited.

It is intended that Amcom and its Related Bodies Corporate will be acquired by Vocus Group Pty Limited as illustrated by the proposed Combined Group corporate structure above.

6.5 Capital structure and financing arrangements following implementation of Scheme

(a) Capital structure

Vocus' capital structure will remain unchanged as a result of the Scheme, other than for the issue of:

- (i) New Vocus Shares to Scheme Shareholders in accordance with the Scheme and Deed Poll; and
- (ii) Replacement Vocus Performance Rights in accordance with the terms of the Scheme Implementation Agreement.

The table below sets out Vocus' capital structure before the Scheme and the estimated capital structure after the Scheme:

Capital structure following implementation of the Scheme

Vocus	
Vocus Shares outstanding	105,441,949
Vocus Options outstanding	340,500
Fully diluted shares outstanding	105,782,449

New Vocus Shares and Replacement Performance Rights	
plus: New Vocus Shares to be issued	112,191,363 ¹³
plus: Replacement Performance Rights to be issued	364,506
New Vocus Shares and Replacement Performance Rights	112,555,869

Vocus capital structure following implementation of the Scheme

Vocus Shares outstanding	217,633,312
Vocus Options outstanding	340,500
Replacement Performance Rights	364,506
Fully diluted shares outstanding	218,338,318

(b) Financing arrangements

If the Scheme is implemented, Vocus expects that there will be material changes to the Combined Group's financing arrangements as new facilities will be established and used to pay down both Vocus' and Amcom's existing facilities, including Vocus' current multi-currency term and revolving facility. Vocus' committed and to be established syndicated financing facilities will see it complete its acquisition of Amcom, the refinancing of the relevant debt of both Amcom and Vocus and include available capital expenditure and working capital facilities totalling approximately \$40 million.

Vocus expects that if the Scheme is implemented, its existing debt facilities with CBA will be terminated and replaced with new syndicated facilities. The new syndicated facilities will have increased total facility limits compared to Vocus' existing facilities with CBA. As a result of the syndications process, Vocus expects that new banking relationships will be established with both domestic and international banks. Vocus intends that the new facilities will also be used to refinance Amcom's existing bank facilities and both Vocus' and Amcom's existing finance leases (in whole or in part).

¹³ The number of New Vocus Shares that are expected to be issued as consideration under the Scheme, subject to rounding of each individual Scheme Shareholder's entitlement to the nearest whole number of New Vocus Shares.

Other than as set out above, Vocus does not expect to require any further capital following implementation of the Scheme. However, any further debt or capital raisings will be circumstantially considered as possible future growth initiatives may require funding based on the magnitude of the opportunity.

6.6 Combined Group Pro Forma Historical Financial Information following implementation of the Scheme

(a) Basis of preparation

This Section 6.6 contains the Combined Group Pro Forma Historical Financial Information comprising the Combined Group pro forma historical consolidated income statement for the six months ending 31 December 2014 and the Combined Group pro forma historical consolidated Statement of Financial Position as at 31 December 2014. The Combined Group Pro Forma Historical Financial Information has been prepared to provide Amcom Shareholders with an indication of the historical consolidated Income Statement and Historical consolidated financial position of the Combined Group and the illustrative financial effect on the Combined Group if the Scheme is implemented. It does not illustrate the financial information that may be contained in future Vocus financial statements when the Scheme is implemented.

The Combined Group Pro Forma Historical Financial Information has been prepared in a manner consistent with the recognition and measurement principles contained in Australian Accounting Standards, other than it reflects (a) the exclusion of certain transactions that occurred in the six month period ended 31 December 2014; and (b) the impact of certain events or transactions as if they occurred on 31 December 2014.

The Combined Group Pro Forma Historical Financial Information set out in this Section should be read in conjunction with the risk factors set out in Section 7 of this Scheme Booklet, other information contained in this Scheme Booklet and the accounting policies of Vocus as disclosed in its most recent annual and half yearly financial reports. A preliminary assessment of the Vocus and Amcom accounting policies has not identified any material differences.

The Combined Group Pro Forma Historical Financial Information contained in this Section 6.6 has been derived from:

- (i) Historical financial statements of Amcom; and
- (ii) The Vocus Pro Forma Historical Financial Information, comprising the historical consolidated Income Statement of Vocus for the six months ended 31 December 2014 and the historical consolidated Statement of Financial Position of Vocus as at 31 December 2014, and adjusted for the effects of pro forma adjustments described in Sections 5.12(b) and 5.12(c) of the Scheme Booklet.

It is presented in an abbreviated form and does not contain all of the presentation and disclosures that are usually provided in an annual report prepared in accordance with the Corporations Act.

Ernst & Young Transaction Advisory Services Limited has been engaged as the Investigating Accountant to prepare an Independent Limited Assurance Report on the Amcom Historical Financial Information, as set out in Sections 4.9(b) and 4.9(c) and the Combined Group Pro Forma Historical Financial Information, as set out in Sections 6.6(b) and 6.6(c). The Independent Limited Assurance Report is set out in Annexure B. Amcom Shareholders should note the scope and limitations of the Independent Limited Assurance Report.

(i) **Assumptions regarding capital structure**

The Combined Group's Pro Forma Historical Financial Information has been prepared on the assumption that Vocus will own 100% of Amcom following implementation of the Scheme.

The merger ratio for each Amcom Share is 0.4614 for each Vocus Share. The table below shows the calculation of the number of Vocus Shares to be issued and the value of the purchase consideration.

Amcom Shares currently on issue	266,399,148
Amcom Shares to be issued upon vesting of Amcom Performance Rights as a result of the Scheme	2,605,000
Projected Amcom Shares on issue	269,004,148
Less: Amcom Shares currently owned by Vocus	26,639,915
Projected Amcom Shares on issue subject to the Scheme	242,364,233
Exchange ratio	0.4614
New Vocus Shares to be issued*	111,826,857
Vocus Share price	\$6.07
Scheme Consideration	\$678,789,023

* The New Vocus Shares to be issued in the table above excludes 790,000 Amcom Performance Rights belonging to 'Tranche F' that require various approvals prior to vesting. The table in Section 6.5(a) of this Scheme Booklet assumes that these Amcom Performance Rights will vest prior to implementation of the Scheme, and therefore will result in 364,506 New Vocus Shares being issued.

For the purposes of preparing the Combined Group Pro Forma Historical Financial Information a Vocus Share price of \$6.07 has been used being the closing Vocus Share price on 18 February 2015.

(ii) **Sources of information and pro forma adjustments**

The Combined Group Pro Forma Historical Financial Information presented in this Section 6.6 has been derived from the following sources:

- A. for Amcom, the historical consolidated Income Statement for the six months ended 31 December 2014 and the historical consolidated Statement of Financial Position as at 31 December 2014 as presented in Sections 4.9(b) and 4.9(c) respectively of this Scheme Booklet; and
- B. for Vocus, the pro forma historical consolidated Income Statement for the six months ended 31 December 2014 and the pro forma historical consolidated Statement of Financial Position as at 31 December 2014 as presented in Sections 5.12(b) and 5.12(c) respectively of this Scheme Booklet.

The following pro forma adjustments have been included in the combined pro forma historical consolidated Income Statement as if the Scheme had occurred on 30 June 2014:

Note A: Elimination of \$300,000 of revenue arising on transactions between Amcom and Vocus which occurred on an arm's length basis in the ordinary course of business.

Note B: Elimination of \$900,000 of Scheme transaction costs to the extent they are included in the standalone Income Statements of Vocus and Amcom on the basis Scheme transaction costs are non-recurring.

Note C: Elimination of (\$18,900,000) of Vocus' gain on total return swap for Amcom Shares (net of tax) to the extent this was included in the Historical Income statement of Vocus.

Note D: Recognition of the depreciation and amortisation arising from the increase in the value of property, plant and equipment, and recognition of customer contracts noted in Section 6.6(c) Note E and Note G.

Note E: Recognition of the income tax expense for the pro forma adjustment in Section 6.6(b) Note D above.

Transactions not included in the Combined Group pro forma historical consolidated income statement

The Combined Group pro forma historical consolidated income statement does not include a number of one-off items directly attributable to the Scheme:

1. Transaction costs incurred by Amcom post 31 December 2014 of \$10.1 million which will be treated as pre-acquisition expenses.
2. Transaction costs incurred by Vocus post 31 December 2014 estimated at \$17.0 million which will be expensed.

3. Approximately \$2.3 million of additional share payment expenses incurred by Amcom as a direct result of the accelerated vesting of Amcom Performance Rights due to the Scheme resulting in a change of control and the vesting of 2,605,000 Amcom Performance Rights.
4. Synergy benefits have not been included as an assessment of integration and any costs to be incurred to achieve the synergies has not yet been undertaken. On this basis the costs of integrating Amcom and Vocus have also not been included.
5. Following implementation of the Scheme, Amcom and its 100% subsidiaries will join the Vocus tax consolidated group. As a result of the tax consolidation regime, the existing tax base of Amcom's assets will be reset which may have an impact on income tax expense. A detailed analysis of the consequences of joining the Vocus tax consolidated group will be undertaken following implementation, and have not been included in the Combined Group pro forma historical combined income statement.

Pro forma adjustments to the combined group pro forma historical consolidated statement of financial position as at 31 December 2014

The following pro forma adjustments have been made for the purposes of illustrating the Combined Group pro forma historical statement of financial position as if the Scheme had occurred on 31 December 2014:

Note A: Total transaction costs of \$27.5 million have been included as an increase in payables and accounted as follows:

1. \$10.1 million of transaction costs incurred by Amcom have been included as a pre-acquisition expense and eliminated on consolidation; and
2. \$17.0 million of transaction costs incurred by Vocus will be expensed.

Note B: Decrease in tax payable of \$1.2 million to reflect the transaction costs incurred by Amcom.

Note C: Increase in deferred tax liability of \$19.4 million to reflect the customer contracts, offset by a \$1.9 million deferred tax benefit as a result of the Amcom transaction costs.

Note D: Decrease in financial assets of \$16.5 million to eliminate the increased value of Vocus' investment in Amcom, based on an Amcom Share price of \$2.93 at 31 December 2014. The existing beneficial holding that Vocus has in 26,639,915 Amcom Shares is not carried in the standalone Vocus statement of financial position as the total return swap is yet to be settled. A pro forma adjustment has been made to the Combined Group pro forma statement of financial position that assumes the total return swap is gross settled at 31 December 2014 at a share price of \$2.80 per Amcom Share or \$74.6 million using borrowings. A \$3.4 million loss on the change in fair value of the Amcom Share price from 31 December 2014 to 18 February 2015 has been recognised as an expense in the period.

Note E: Increase in fair value of Amcom's property, plant and equipment of \$28 million.

Note F: The purchase price accounting for the acquisition has been determined on a provisional basis by the Amcom directors who have undertaken a fair value assessment of the carrying values of Amcom's net assets and as a result have made the following provisional adjustments summarised in the table below resulting in the recognition of \$518.4 million of goodwill arising from the implementation of the Scheme. Subsequent to implementation Vocus will undertake this assessment, which by its nature requires judgement. Accordingly, that allocation may give rise to material differences in values allocated to the statement of financial position items and may also give rise to fair value being allocated to other statement of financial position line items.

	\$m

Add: Up lift - property, plant and equipment	28.0
Add: Recognition of customer contracts	64.6
Less: Associated deferred tax	-19.4
Less: Transaction costs net of tax (Amcom)	-8.6
Adjusted Amcom net assets	235.0
Scheme consideration	678.8
Pro forma consideration 10% existing stake	74.6
Aggregate purchase consideration	753.4
Goodwill arising	518.4

Note G: Increase in other intangibles of \$64.6 million to recognise value of Amcom customer contracts.

Note H: Decrease in contributed equity of \$151.5 million to reflect the elimination of Amcom's share capital, this is offset by an increase to contributed equity for the Scheme Consideration of \$678.8 million. Scheme Consideration has been calculated based upon a Vocus Share price of \$6.07 and a merger ratio of 0.4614 New Vocus Shares per Amcom Share, such that Vocus will issue 111,826,857 New Vocus Shares for a Scheme Consideration value of \$678.8 million. The vesting of 2,605,000 Amcom Performance Rights due to the change of control arising from the implementation of the Scheme has been included in the calculation of Scheme Consideration as the resulting Amcom Shares will participate in the Scheme.

Note I: This adjustment eliminates the Amcom reserves at 31 December 2014.

Note J: This adjustment eliminates the \$20.7 million of Amcom retained profits at 31 December 2014, and decreases retained profits for the \$17 million of transaction costs incurred by Vocus.

Transactions not included in the Combined Group pro forma historical consolidated statement of financial position as at 31 December 2014

Following implementation of the Scheme, Amcom and its 100% subsidiaries will join the Vocus tax consolidated group. As a result of the tax consolidation regime, the existing tax base of Amcom's assets will be reset which may have an impact on current and deferred tax balances recognised in relation to Amcom's assets. A detailed analysis of the consequences of joining the Vocus tax consolidated group will be undertaken following implementation, and have not been included in the Combined Group pro forma historical consolidated statement of financial position.

A preliminary assessment of the Vocus and Amcom accounting policies has not identified any material differences, as such the Combined Group Pro Forma Historical Financial Information does not include any impact of aligning Amcom and Vocus accounting policies.

6.7 Forecast financial information for the Combined Group

Amcom and Vocus have given careful consideration as to whether a reasonable basis exists to produce reliable and meaningful forecast financial information. The Amcom Board and Vocus Board have concluded that, as at the date of this Scheme Booklet a reasonable basis does not exist for providing forecasts that would be sufficiently meaningful and reliable as required by applicable law, policy and market practice, and that the inclusion of such forecasts could be potentially misleading.

The financial performance of the Combined Group in any period will be influenced by various factors that are outside the control of Vocus and that cannot, at this time, be predicted with a high level of confidence. In particular the financial performance of Combined Group will be affected by:

- (i) the timing and level of network expansion in response to data demand;
- (ii) prevailing exchange rates, especially the AUD:USD and AUD:NZD exchange rates, which are subject to material change from time to time;
- (iii) the extent of opportunities, benefits and costs that are associated with combining Vocus and Amcom;
- (iv) changes in respect of existing operations and the provision of services to customers and the overall customer profile;
- (v) impacts of purchase price allocation;
- (vi) timing and quantum of realised synergies;
- (vii) change in the regulatory environment and the potential impact of the National Broadband Network initiative; and
- (viii) integration of recently acquired businesses for both Amcom and Vocus.

Amcom and Vocus do not have an established practice of issuing financial forecasts given the potential impact of the considerations shown above.

6.8 Other material information

Except as set out in the Scheme Booklet, there is no information material to the making of a decision in relation to the Scheme, being information that is within the knowledge of any Amcom or Vocus director at the time of lodging of this Scheme Booklet with ASIC for registration, which has not been previously disclosed to Amcom Shareholders.

7. Risk factors

Amcom Shareholders should be aware that there are a number of risks, both general and specific, associated with the Scheme.

This Section outlines:

- (a) risks specific to the Scheme and the creation of the Combined Group (see Section 7.1 of this Scheme Booklet);
- (b) risks specific to the Combined Group (see Section 7.2 of this Scheme Booklet);
- (c) risks specific to Amcom (see Section 7.3 of this Scheme Booklet); and
- (d) general investment risks (see Section 7.4 of this Scheme Booklet).

The information set out in Sections 7.1 and 7.2 of this Scheme Booklet was prepared by Vocus and Vocus is responsible for the information contained in those Sections. Amcom and Amcom's Directors and officers do not assume any responsibility for the accuracy or completeness of this information (except to the extent that those Sections are based on information about Amcom, for which Amcom takes responsibility).

The outline of risks in this Section 7 is a summary only and should not be considered exhaustive. No assurances or guarantees are given in relation to the future performance of, profitability of, or potential payment of dividends by any of, Amcom, Vocus or the Combined Group. These risk factors do not take into account the investment objectives, financial situation, position and particular needs of any Amcom Shareholder.

You should carefully consider the risk factors discussed in this Section 7, as well as the other information contained in this Scheme Booklet before voting on the Scheme.

7.1 Risks specific to the Scheme and the creation of the Combined Group

(a) Market value of Scheme Consideration

Under the terms of the Scheme, Amcom Shareholders will receive 0.4614 New Vocus Shares for each Amcom Share they hold. The value of the Scheme Consideration that would be realised by individual Amcom Shareholders will be dependent on the price at which New Vocus Shares trade on the ASX after the Scheme Implementation Date.

For Ineligible Overseas Shareholders, the value of the consideration they will receive will depend on the price realised by the Sale Nominee in respect of the sale of New Vocus Shares attributable to the Ineligible Overseas Shareholders.

Some of Amcom's Shareholders may not intend to continue to hold the New Vocus Shares received under the Scheme and may wish to sell them on the ASX soon after the Implementation Date. In addition, the Sale Nominee will sell New Vocus Shares on the ASX as soon as reasonably practical after the Implementation Date. There is a risk that such sales may exert downward pressure on the price of Vocus Shares in the short term.

In any event, there is no guarantee regarding the market price of the Vocus Shares before the Scheme Meeting or after the Implementation Date. Future market prices may either be above or below current or historical market prices. Information about the current trading prices of Vocus Shares may be obtained from asx.com.au.

In providing services to Vocus in connection with the sale of New Vocus Shares to which the Ineligible Overseas Shareholders would otherwise have been entitled, the Sale Nominee is not acting as agent or sub agent of any Ineligible Overseas Shareholder.

(b) **Integration and synergies**

This Scheme Booklet details potential cost and revenue synergies that Vocus reasonably expects may be obtained over time through the integration of Vocus and Amcom. Achievement of synergies is not certain. There is a risk that synergies may not be realised at all or not realised to their full extent, or that the cost and revenue synergies may be realised over a longer period of time than anticipated. There is also a risk that implementation and other one-off costs may be substantial or greater than reasonably anticipated. This could have a material adverse impact on the Combined Group's financial position and performance.

The transition of information systems and data, technical, financial and legal information and resources may not proceed smoothly and may divert management's attention from managing Vocus' business. There is a risk that revenue streams or operations could be disrupted or that costs associated with the transition may be greater than expected, which could adversely affect the Combined Group's financial position and performance.

(c) **Change of control**

Some contracts to which Amcom or Vocus or their subsidiaries are party may contain change of control provisions that could be triggered by entry into the Scheme Implementation Agreement, the Scheme, the acquisition of Amcom Shares or the issue of New Vocus Shares following the implementation of the Scheme or the delisting of Amcom. If such a provision is triggered, this may allow the counterparty to demand immediate or earlier repayment of monies, review, adversely modify or terminate the contract. If a counterparty to any such contract were to demand immediate or earlier repayment of borrowed monies, terminate or seek to renegotiate the contract this may have an adverse effect on the Combined Group, depending on the relevant contract.

(d) **Accounting revisions may be required**

Amcom has particular accounting policies and methods which are fundamental to how it records and reports its financial position and results of operations. The directors of Amcom may have exercised judgement in selecting and applying certain accounting policies or methods which might have been reasonable under the circumstances yet might have resulted in reporting materially different outcomes than would have been reported under Vocus' policies and methods.

While no material differences between Amcom and Vocus policies and methods have been identified to date, there remains some uncertainty associated with the extent of any impact of such differences. The integration of Amcom's accounting functions may lead to revisions of these accounting policies, which may adversely impact on the Combined Group's reported results of operations and/or financial position and performance.

(e) **Impairment of goodwill and other intangibles**

The financial statements of the Combined Group will be prepared in conformity with Vocus' current accounting standards. To the extent goodwill or other intangibles that have an indefinite life including goodwill, are not subject to amortisation, they are reviewed annually for impairment. Individual assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an individual asset may not be recoverable. Changes to the carrying amounts of intangible assets of the Combined Group could have an adverse impact on the reported financial performance of the Combined Group and, depending on the extent of the impact, could affect the amount of distributions paid by the Combined Group.

(f) **Change in risk and investment profile**

Amcom Shareholders, other than the Ineligible Overseas Shareholders, will receive New Vocus Shares in exchange for their Amcom Shares. An investment in Vocus is not an identical substitute for an investment in Amcom as the Combined Group will have a different risk and investment profile.

Amcom Shareholders who receive New Vocus Shares will be exposed to risk factors relating to Vocus and certain risks relating to the Combined Group. In some cases those risks are different or additional to those of Amcom. See Section 7.2 of this Scheme Booklet for details of the risks relating to the Combined Group.

The investment profile of Amcom Shareholders who receive New Vocus Shares will also change. The operational profile, capital structure and size of the Combined Group will be different to that of Amcom on a standalone basis.

These changes in risk and investment profile may be considered a disadvantage by some Amcom Shareholders.

7.2 Risks specific to the Combined Group

(a) **Ultra Fast Broadband**

The New Zealand Government is rolling out Ultra-Fast Broadband (**UFB**) over the medium term. All telecommunication retail service providers will have equivalent access to acquiring wholesale services on the UFB, which are intended to create a more level competitive playing field in the industry. This new competitive environment with the UFB may enable the entrance of new competitors in the market which could have an adverse impact on the future financial performance of the Combined Group if it is unable to effectively compete against the new competitors.

(b) **Exchange rates**

Vocus undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations. Foreign exchange risk arises from transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. Vocus has managed its exposure to the currency risk associated with the United States Dollar and New Zealand Dollar by active monitoring of the currency risk from period to period. Vocus is prepared to enter into foreign exchange contracts and cash flow hedge accounting to protect cash flows over a defined period under its foreign exchange risk management policy. However there can be no assurance that the Combined Group will be able to hedge such exposure on acceptable terms in the future or that any exchange rate hedging will be effective or will not result in an adverse financial impact arising from the inability to benefit from a favourable movement in exchange rates.

(c) **Network operation and earthquake risk**

There has historically been significant seismic activity across the New Zealand markets in which the Combined Group will operate. Although Vocus believes that its infrastructure is sufficiently robust to withstand such events, it is possible that a future earthquake might cause damage or disruption to the Combined Group's network and impair its ability to provide its products and services resulting in significant disruption to the Combined Group's business and its customers.

(d) **Risks specific to Amcom**

Each of the risks specific to Amcom set out in Section 7.3 of this Scheme Booklet may continue to be relevant to Amcom and Vocus as part of the Combined Group.

7.3 Risks specific to Amcom

The risk factors in this Section 7.3 are existing risks relating to Amcom's business and the industry in which it operates. These risks will continue to be relevant to Scheme Shareholders if the Scheme is not implemented and Scheme Shareholders retain their current investment in Amcom.

(a) **Access to capital**

Amcom relies on both equity capital and debt funding. The ability of Amcom to raise funds on favourable terms depends on a number of factors including general economic, capital market and credit market conditions. An inability to obtain the necessary funding for Amcom or a material increase in the cost of funding (e.g. through an increase in interest rates or increased costs of capital) may have an adverse impact on Amcom's financial performance and financial position, its ability to refinance debt, its ability to grow and diversify, or its ability to pay dividends to investors.

(b) **Competition**

Amcom operates in a competitive Information, Communication and Technology market. In particular, Amcom competes against telecommunications companies which have considerable scale and market power. The size and financial strength of some of Amcom's competitors can make it difficult for Amcom to compete effectively in the telecommunications market. Amcom's financial performance and operating margins could be adversely affected if the actions of competitors or potential competitors become more effective, or if new competitors enter the market and Amcom is unable to counter these actions.

(c) **National Broadband Network**

The Australian Federal Government is rolling out a National Broadband Network (**NBN**) which is planned to cover approximately 93% of premises across Australia over the next decade. All telecommunication retail service providers will have equivalent access to acquiring wholesale services on the NBN, which is intended to create a more level competitive playing field in the industry. This new competitive environment with the NBN may enable the entrants of new competitors in the market which could have an adverse impact on the future financial performance of Amcom if it is unable to effectively compete against the new competitors.

(d) **Carrier Licence**

Amcom has a carrier licence under the *Telecommunications Act 1997* (Cth). This licence is essential for Amcom to operate as a carrier of telecommunications infrastructure and if that licence is lost it would severely restrict the ability of Amcom to operate. The Amcom Directors have no reason to believe that the licence will be revoked or have conditions attached to it that would be capable of impacting adversely on Amcom's operations.

(e) **Relationship with suppliers**

Amcom's ability to provide its telecommunication services and products is highly dependent on securing network infrastructure and other equipment, as well as network-related and other significant support services from third party suppliers.

The business of Amcom would be materially impacted if any of those suppliers were unable to provide services as contracted or made a decision to supply services on unfavourable terms. If Amcom's suppliers failed to supply the services, or changed terms to be less favourable than those currently offered to Amcom, this change might materially impact the financial performance of Amcom.

(f) **Reliance on key personnel**

Amcom's growth and profitability may be limited by the loss of key executive management personnel, the inability to attract new suitably qualified personnel or by increased compensation costs associated with attracting and retaining key personnel.

(g) **Network operation and information technology risks**

Any material damage or disruption to Amcom's network or information technology services will impair Amcom's ability to provide products and services and result in significant disruption to the business and Amcom's customers.

This disruption could arise as a result of events which are beyond Amcom's control, such as telecommunications network failure, failure of other carrier/supplier equipment networks, improper or negligent operation of Amcom's systems by employees, consultants, unauthorised physical or electrical access, general network failure and/or natural disasters.

In addition, Amcom could be adversely impacted by electronic attacks and other forms of cybercrime, such as attempts by hackers to gain access to or damage Amcom's systems and databases. This could cause failures, faults and billing issues and problems for Amcom's customers. While Amcom employs security measures and undertakes regular system and network maintenance, no assurance can be given that Amcom's servers and network will be adversely impacted by malicious viruses or hackers.

Any damage to Amcom's network operation and/or information technology systems could adversely affect Amcom's reputation, operations and financial performance.

(h) **Sustainability of growth**

The continued growth in sales and profitability of Amcom is dependent on a number of factors, including Amcom's ability to win new customers on a profitable basis and to retain and grow revenues from existing customers. This organic growth is conditional upon the continued improvements in performance of Amcom's various sales channels, the ongoing achievement of sales objectives by Amcom's existing sales teams and the provision of a consistent high quality customer service experience. If any of these growth factors were negatively impacted and growth was impaired then the financial performance and reputation of Amcom's business would be negatively impacted.

(i) **Operating costs**

Amcom's ability to operate profitably is dependent on a combination of the scalability of its operations and the costs of its operating structure. Amcom's ability to maintain a relatively low cost operating structure is not guaranteed and there is no assurance that these low operating costs can be maintained. While Amcom has consistently delivered improvements in operating margins through, among other things, reducing operational expenses by implementing business efficiency initiatives, there is no guarantee that these improvements can be maintained.

(j) **Technology changes**

The Information, Communication and Technology industry is constantly evolving with new technologies and products which could act as substitutes for the products and services offered by Amcom. There is no guarantee that Amcom can effectively keep up with changes in technological developments and failure to keep pace with changes in technology could result in Amcom finding it increasingly difficult to compete in its chosen target segments.

Whilst the Amcom Directors have no reason to believe that any of the products and services supplied by Amcom will become obsolete, investors should be aware of the pace at which technological change in the Information, Communication and Technology industry can be implemented. If there are new or improved products that are superior, or perceived to be by the market to be superior to those of Amcom then this may adversely impact on the Amcom's ability to compete in its chosen market segments.

(k) **Information technology**

The Information, Communication and Technology industry is heavily dependent on technology for the delivery of various services made available to customers. Amcom has invested significantly in the development of management information and other information technology systems designed to maximise the efficiency of Amcom's operations. Should these systems not be adequately maintained, secured or updated, system failures may negatively impact on Amcom's performance.

(l) **Security or privacy of data**

The protection of customer, employee, third party and company data is critical to Amcom's operations. Amcom has access to a significant amount of customer, employee and third party information, including through its database of customers.

The legal and regulatory environment surrounding information security and privacy is increasingly complex and demanding. Customers, employees and third parties such as suppliers also have high expectation that Amcom will adequately protect their personal information. A breach of customer, employee, third party or company data could attract significant media attention, damage Amcom's customer or supplier relationships and reputation and ultimately result in lost sales, penalties or litigation. This could have a material adverse effect on Amcom's future financial performance and position.

(m) **Contractual risk**

The business of Amcom has a dependence on its counterparties and their ability to meet their contractual obligations pursuant to the agreements entered into with Amcom.

The ability of Amcom to achieve their stated objectives will depend upon the performance of counterparties to each of those agreements, of their respective obligations under those agreements. If any counterparty defaults in performance of their obligations it may be necessary for Amcom to seek a legal remedy. There can be no guarantee that a legal remedy will be ultimately granted on appropriate terms.

The Amcom Directors currently have no reason to believe that any of the parties which Amcom has contracted with will not meet and satisfy their obligations under their respective agreements.

(n) **Customer risk**

There are a number of customers which proportionately account for a significant amount of Amcom's revenue and margins. There is a risk that a customer may change to another provider, may reduce their volume or may not renew their contracts in the normal course of business. This will have a material adverse impact on the revenue and profitability of Amcom.

(o) **Regulatory risk**

Amcom operates in an increasingly regulated industry with strong penalties existing for non compliance with regulations, including fines and undertakings that may include customer redress and restrictions on future marketing of services. Amcom's future growth prospects are heavily reliant on its ability to market its services through its various sales channels, so any regulatory change, event or enforcement action which would restrict those activities would have a material adverse impact on Amcom's growth and future financial performance.

Companies operating within the Information, Communication and Technology industry are subject to various laws and regulations. Amendments to current laws and regulations governing operations or more stringent implementation thereof could have a substantial adverse impact on Amcom and cause increases in expenses, capital expenditures or costs.

Failure to comply with applicable laws, regulations, agreements and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital operations or compensation for those suffering loss or damage by reason of the activities and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations.

(p) **Credit risk**

Amcom has customers which pay in arrears which means that Amcom bears the risk of those customers defaulting on their payment obligations. This results in a loss of revenue for Amcom to the extent that those debts are irrecoverable and also creates additional expenses for Amcom in seeking to enforce these obligations.

7.4 **General risks**

(a) **General equity market risks**

As an entity with listed ordinary shares on the ASX, the market prices of Amcom Shares and Vocus Shares are influenced by a variety of general business cycles and economic and political factors in Australia, including economic growth, interest rates, exchange rates, inflation, employment levels, changes in government fiscal, monetary and regulatory policy in relevant jurisdictions and changes to accounting or financial reporting standards.

(b) **Economic conditions**

Economic conditions, both domestic and global, may affect the performance of Amcom or Vocus. Adverse changes in such things as global and country-by-country economic growth, the level of economic activity and inflation, interest rates, exchange rates, government policy (including fiscal, monetary and regulatory policies), general consumption and consumer spending, employment rates and industrial disruption, amongst others, are outside the control of Amcom or Vocus and may result in material adverse impacts on the business and operating results of Amcom or Vocus.

(c) **Share market conditions**

There are risks associated with an investment in financial products quoted on a stock exchange. Share price movements could affect the value of any investment in Amcom or Vocus.

The performance of Amcom or Vocus and the price at which Amcom Shares or Vocus Shares may trade on the ASX may be determined by a range of factors. These include movements in the local and international equity and bond markets and general investor sentiment in those markets, recommendations by brokers and analysts, inflation, interest rates, exchange rates, general economic conditions and outlooks, changes in government, fiscal, monetary and regulatory policies, global geo-political events and hostilities and acts of terrorism, the announcement of new technologies and changes in the supply of and demand for relevant stocks. Certain of these factors could affect the trading price of shares, regardless of operating performance.

(d) **Government policy and legislation**

Amcom or Vocus may be affected by change to government policies and legislation, including those relating to the Information, Communication and Technology industry.

(e) **Operational risks**

The operations of Amcom or Vocus may be affected by various factors not within its control, including operational and technical difficulties. These difficulties could also result in the operation of its business experiencing business interruption, monetary losses and possible legal liability. Amcom or Vocus may be subject to liability for accidents, outages or system's failure and corruption against which it cannot insure or which it may elect not to insure because of premium costs or for other reasons, or in amounts which exceed policy limits.

(q) **Litigation risk**

As with any company, Amcom or Vocus is exposed to the risks of litigation which may have a material adverse effect on its financial position. Amcom or Vocus could become exposed to claims or litigation by a person alleging they are owed fees for services, or by employees, regulators, competitors or other third parties. To the extent that such claims or litigation are not covered by insurance, an adverse outcome in litigation or the cost of initiating or responding to potential or actual claims or litigation may have a material adverse impact on financial performance.

Other than as set out in Section 4.8 of this Scheme Booklet, as at the date of this Scheme Booklet, Amcom is not aware of any material contractual disputes or litigation matters in respect of Amcom, including with its customers or other third parties.

Other than as set out in Section 5.11 of this Scheme Booklet, as at the date of this Scheme Booklet, Vocus is not aware of any material contractual disputes or litigation matters in respect of Vocus, including with its customers or other third parties.

(f) **Taxation risks**

A change to the current taxation regime may affect Amcom or Vocus and Amcom Shareholders or Vocus Shareholders. Personal tax liabilities are the responsibility of each individual investor in Amcom or Vocus. Amcom and Vocus are not responsible for taxation or penalties incurred by investors in Amcom or Vocus.

(g) **Accounting standards**

Australian accounting standards are set by the Australian Accounting Standards Board (**AASB**) and are outside the Amcom Directors' and Vocus Directors' and Amcom's and Vocus' control. Changes to accounting standards issued by AASB could materially adversely affect the financial performance and position reported in Amcom's or Vocus' financial statements.

8. Implementation of the Scheme

All dates referred to in this Section 8 are indicative only. The actual dates on which events are referred to in this Section 8 occur will depend upon the time at which the Conditions to the Scheme are satisfied or, if applicable, waived. The Conditions are summarised in Section 8.8 of this Scheme Booklet. Amcom has the right to vary all dates subject to the approval of such variation by Vocus, the Court and the ASX where required. Any variation to the dates referred to in this Section 8 will be announced to the ASX and published on Amcom's website.

8.1 Scheme Meeting

In accordance with an order of the Court on 30 March 2015, Amcom Shareholders will be asked to approve the Scheme at the Scheme Meeting to be held at the Duxton Hotel, 1 St Georges Terrace, Perth, Western Australia on 6 May 2015 commencing at 11.00 am (Perth time). The Notice of Scheme Meeting is set out in Annexure F of this Scheme Booklet.

At the Scheme Meeting, Amcom Shareholders will be asked to consider and, if thought fit, to pass a resolution approving the Scheme. For the Scheme to be approved by Amcom Shareholders, votes "in favour" of the Scheme must be received:

- (a) from a majority in number of Amcom Shareholders who vote at the Scheme Meeting (in person or by proxy) (the **Headcount Test**); and
- (b) in respect of at least 75% of the total number of Amcom Shares voted on the resolution to approve the Scheme.

If the Scheme is not approved by Amcom Shareholders at the Scheme Meeting by reason only of the non-satisfaction of the Headcount Test, Amcom may apply to the Court for the Court to exercise its discretion to disregard the Headcount Test and make orders approving the Scheme.

8.2 Second Court Date

If the Scheme is approved by the Requisite Majorities of Amcom Shareholders, and all other Conditions to the Scheme (other than approval by the Court) and any other conditions to be imposed by the Court under section 411(6) of the Corporations Act have been satisfied or waived, Amcom will apply to the Court for orders approving the Scheme following the Scheme Meeting. The date on which the Court hears Amcom's application in relation to the Scheme is the Second Court Date. The Second Court Date is expected to be on or around 13 May 2015 and is open to all Amcom Shareholders.

If the Scheme is not approved by the Requisite Majorities of Amcom Shareholders at the Scheme Meeting, the Scheme will not proceed and Amcom will not apply to the Court for any orders in connection with the Scheme.

The Court has discretion whether or not to approve the Scheme under section 411(4)(b) of the Corporations Act and may refuse to approve the Scheme even if the Scheme is approved by the Requisite Majorities of Amcom Shareholders.

The Corporations Act and the relevant Court rules provide a procedure for Amcom Shareholders to oppose the approval by the Court of the Scheme. Any Amcom Shareholder who wishes to oppose the approval of the Scheme at the Second Court Date may do so by filing with the Court and serving on Amcom a notice of appearance in the prescribed form together with an affidavit on which the Amcom Shareholders will seek to rely at the Second Court Date. The notice of appearance and affidavit must be served on Amcom at least one Business Day before the Second Court Date. Any change to the Second Court Date will be announced through the ASX and published on Amcom's website.

ASIC will be asked to issue a written statement that it has no objection to the Scheme. ASIC would not be expected to issue such a statement until shortly before the Second Court Date. If ASIC does not produce a written statement that it has no objection to the Scheme, the Court may still approve the Scheme provided it is satisfied that section 411(17)(a) of the Corporations Act is satisfied.

8.3 Effective Date

If the Court approves the Scheme, Amcom will lodge with ASIC an office copy of the Court order approving the Scheme. Amcom intends to lodge this with ASIC on the Business Day following receipt of the orders, expected to be 14 May 2015. The Scheme comes into effect on the date on which Amcom lodges the Court order approving the Scheme with ASIC. This date is referred to in this Scheme Booklet as the Effective Date.

If the Scheme has not become Effective by 31 May 2015 or such later date as Amcom and Vocus agree in writing, the Scheme Implementation Agreement will lapse and be of no further force or effect, unless otherwise agreed by both Amcom and Vocus.

8.4 Record Date

Amcom Shareholders will be entitled to receive the Scheme Consideration if they are registered as the holders of Amcom Shares on the Record Date. The Record Date is currently expected to be 7.00 pm (Perth time) on 21 May 2015.

8.5 Transfer of Amcom Shares and issue of New Vocus Shares

On the Implementation Date, subject to the provision of the Scheme Consideration, all Amcom Shares held by Scheme Shareholders will be transferred to Vocus without any further action required by Scheme Shareholders. Amcom will enter the name of Vocus into the Amcom Share Register in respect of the Amcom Shares. Amcom will then become a wholly owned Subsidiary of Vocus.

Subject to the Scheme becoming Effective, Vocus will:

- (a) allot and issue the New Vocus Shares to Scheme Shareholders (other than Ineligible Overseas Shareholders) in accordance with the Scheme on such terms such that each New Vocus Share will rank equally in all respects with each existing Vocus Share;
- (b) do everything reasonably necessary to ensure that the New Vocus Shares are approved for official quotation on the ASX and that trading in the New Vocus Shares commences by the first Business Day after the Implementation Date; and
- (c) ensure that on issue, each New Vocus Share is fully paid and free from any Encumbrance.

As from the time at which the Scheme Consideration is provided, all share certificates and holding statements for Scheme Shares will cease to have any effect other than as evidence of entitlement to Scheme Consideration.

8.6 Warranty by Scheme Shareholders about their Amcom Shares

Under the Scheme each Scheme Shareholder is deemed to have warranted to Amcom, in its own right and for the benefit of Vocus that all their Scheme Shares (including any rights and entitlements attaching to those shares) will, at the date of the transfer of them to Vocus be fully paid and free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind, and that they have full power and capacity to sell and to transfer their Scheme Shares to Vocus under the Scheme. If the warranty is breached, Scheme Shareholders may be liable to pay to Vocus any amounts paid by Vocus to acquire clear title to their Scheme Shares.

8.7 Suspension of trading in Amcom Shares

It is expected that suspension of trading in Amcom Shares on the ASX will occur from close of trading on the Effective Date. This is expected to occur on 14 May 2015.

On a date after the Implementation Date to be determined by Vocus, Amcom will apply for termination of the official quotation of Amcom Shares on the ASX and to have itself removed from the official list of the ASX.

8.8 Key terms of Scheme Implementation Agreement

Amcom and Vocus entered into the Scheme Implementation Agreement on 17 December 2014. The Scheme Implementation Agreement sets out the steps required to be taken by Amcom and Vocus to give effect to the Scheme. Key terms of the Scheme Implementation Agreement are summarised below and the agreement is set out in full at Annexure C of this Scheme Booklet. The following is a summary only and is qualified in its entirety by the full text of the Scheme Implementation Agreement.

(a) Conditions

The implementation of the Scheme is subject to the satisfaction or waiver of the following Conditions:

- (i) all Regulatory Approvals required to implement the Scheme are granted or obtained and those Regulatory Approvals have not been withdrawn, cancelled or revoked;
- (ii) no temporary restraining order, preliminary or permanent injunction, restraint or prohibition issued by any court or other Regulatory Authority of competent jurisdiction remains in effect as at 8.00 am on the Second Court Date that prohibits the completion of the Scheme;
- (iii) the Scheme is approved by Amcom Shareholders at the Scheme Meeting by the Requisite Majorities under section 411(4)(a)(ii) of the Corporations Act;
- (iv) the Scheme is approved by the Court in accordance with section 411(4)(b) of the Corporations Act either unconditionally or on conditions that do not impose unduly onerous obligations upon either party (acting reasonably);
- (v) the ASX approving the official quotation of the New Vocus Shares;
- (vi) the Independent Expert concluding in the Independent Expert's Report that in its opinion the Scheme is in the best interest of Amcom Shareholders and the Independent Expert does not change or publicly withdraw this conclusion prior to 8.00 am on the Second Court Date;
- (vii) no Amcom Material Adverse Change or Vocus Material Adverse Change occurs between the date of the Scheme Implementation Agreement and 8.00 am on the Second Court Date;
- (viii) no Amcom Prescribed Occurrence or Vocus Prescribed Occurrence occurs between the date of the Scheme Implementation Agreement and 8.00 am on the Second Court Date;
- (ix) the Amcom Warranties and Vocus Warranties being true and correct in all material respects on the date of the Scheme Implementation Agreement and at 8.00 am on the Second Court Date;

- (x) before 8.00 am on the Second Court Date, Amcom and Vocus have not breached any material provision of the Scheme Implementation Agreement to a material extent in the context of the Scheme taken as a whole;
- (xi) before 8.00 am on the Second Court Date, arrangements have been put in place and all necessary Regulatory Approvals, consents and waivers have been obtained so that all Amcom Performance Rights outstanding as at the date of the Scheme Implementation Agreement will either vest or have lapsed before the Record Date or, in the case of Additional Performance Rights, legally binding agreements to acquire or cancel the Additional Performance Rights for consideration have been executed by each of the holders of those Additional Performance Rights.

The status of the regulatory Conditions for the Scheme is set out in Section 10.8 of this Scheme Booklet.

As far as Amcom is aware, immediately before the date of this Scheme Booklet no circumstances have occurred which will cause any of the Conditions not to be satisfied or to become incapable of satisfaction. These matters will continue to be assessed until 8.00 am on the Second Court Date.

Amcom will inform Amcom Shareholders of the status of the Conditions prior to the Scheme Meeting through a publicly available announcement.

The Conditions summarised above are set out in full in clause 3.1 of the Scheme Implementation Agreement (a copy of which forms Annexure C of this Scheme Booklet).

(b) **Conduct of business**

Subject to certain exceptions, up to and including the Implementation Date, Amcom and Vocus must conduct and must cause each of its Subsidiaries to conduct their business in the ordinary and usual course and in substantially the same manner as previously conducted.

Subject to certain exceptions, on and from the Effective Date, each party must (and must cause each of its Subsidiaries to) afford to the other party reasonable access to its records and reasonable co-operation for the purpose of implementation of the Scheme, Vocus obtaining an understanding of the operations of Amcom's business and any other purpose which is agreed between the parties.

Subject to certain exceptions, on and from the Effective Date, Amcom must (and must cause each of its Subsidiaries to) promptly provide Vocus with any information reasonably requested by Vocus.

(c) **Exclusivity**

(i) **No shop**

During the Exclusivity Period, each of Amcom and Vocus must not, and must use its best endeavours to ensure that its Authorised Persons do not, except with the prior written consent of the other party, solicit, invite or encourage any Competing Proposal or initial discussions with any third party with a view to obtaining any expressions of interest, offer or proposal from any person in relation to a Competing Proposal.

(ii) **No talk and no due diligence**

Subject to certain exceptions, during the Exclusivity Period, each of Amcom and Vocus must not and must ensure that its Authorised Persons do not, except with the prior written consent of the other party:

- A. participate in any negotiations in relation to a Competing Proposal or which may reasonably be expected to lead to a Competing Proposal;
- B. enter into any relevant agreement in connection with a Competing Proposal; or
- C. provide any information to a third party for the purposes of enabling that party to make a Competing Proposal.

(iii) **Amcom notice of Competing Proposal**

- A. within 2 Business Days of receipt of a Competing Proposal (or written proposal which may reasonably be expected to lead to a Competing Proposal), provide written notice to Vocus of the identity of the party or parties involved in the proposal and the material terms of that proposal (**Amcom Competing Proposal Notice**); and
- B. provide Vocus with updates of any material developments in relation to any such proposal.

If Amcom gives Vocus an Amcom Competing Proposal Notice, Amcom agrees that it will not, unless the expiration of the 3 Business Days following receipt of the Amcom Competing Proposal Notice by Vocus, enter into any legally binding agreement with respect to the Competing Proposal or publicly recommend the Competing Proposal.

If Amcom gives Vocus an Amcom Competing Proposal Notice, Vocus will have the right, but not the obligation, at any time until the expiration of 3 Business Days following receipt of the notice to offer to amend the terms of the Scheme or proposal any other transaction (**Vocus Counterproposal**).

The Amcom Board must review the Vocus Counterproposal in good faith and in what the Amcom Board considers is required to comply with its fiduciary and statutory duties, to determine whether the Vocus Counterproposal is more favourable to Amcom Shareholders than the Competing Proposal.

If the Amcom Board determines in good faith that the Vocus Counterproposal is more favourable to the Amcom Shareholders then:

- A. if the Vocus Counterproposal contemplates an amendment to the Scheme, the parties must enter into a deed amending the Scheme Implementation Agreement in relation to the Scheme and reflecting the Vocus Counterproposal; and

- B. if the Vocus Counterproposal contemplates any other transaction, Amcom must make an announcement as soon as reasonably practicable recommending the Vocus Counterproposal, in the absence of a more favourable proposal, and the parties must pursue implementation of the Vocus Counterproposal in good faith.

(iv) **Vocus notice of Competing Proposal**

During the Exclusivity Period, Vocus must:

- A. within 2 Business Days of receipt of a Competing Proposal (or written proposal which may reasonably be expected to lead to a Competing Proposal), provide written notice to Amcom of the identity of the party or parties involved in the proposal and the material terms of that proposal (**Vocus Competing Proposal Notice**); and
- B. provide Amcom with an update of any material developments in relation to any such proposal.

If Vocus gives Amcom a Vocus Competing Proposal Notice, Amcom will have the right, but not the obligation, at any time until the expiration of 3 Business Days following receipt of the notice to offer to amend the terms of the Scheme or proposal any other transaction (**Amcom Counterproposal**).

The Vocus Board must review the Amcom Counterproposal in good faith and in what the Vocus Board considers is required to comply with its fiduciary and statutory duties, to determine whether the Amcom Counterproposal is more favourable to Vocus Shareholders than the Competing Proposal.

If the Vocus Board determines in good faith that the Amcom Counterproposal is more favourable to the Vocus Shareholders then:

- A. if the Amcom Counterproposal contemplates an amendment to the Scheme, the parties must enter into a deed amending the Scheme Implementation Agreement in relation to the Scheme and reflecting the Amcom Counterproposal; and
- B. if the Amcom Counterproposal contemplates any other transaction, Vocus must make an announcement as soon as reasonably practicable recommending the Amcom Counterproposal, in the absence of a more favourable proposal, and the parties must pursue implementation of the Amcom Counterproposal in good faith.

(d) **Representations, warranties and indemnities**

- B. subject to certain exceptions, at any time prior to the Second Court Date, any director of Amcom publicly withdraws or adversely modifies or qualifies their recommendation of the Scheme or recommends or supports a Competing Proposal, does not recommend in the Scheme Booklet that Amcom Shareholders approve the Scheme or makes any public statement to the effect that the Scheme is not, or is no longer, recommended;

(g) **Amcom Performance Rights**

If the Court makes an order under section 411(1) of the Corporations Act directing Amcom to convene the Scheme Meeting, Amcom must:

- (i) procure that the Amcom Board resolves that, subject only to the Requisite Majorities of Amcom Shareholders approving the Scheme at the Scheme Meeting:

8.9 Deed Poll

Vocus has entered into the Deed Poll in favour of the Scheme Shareholders under which it has undertaken to pay to each Scheme Shareholder the Scheme Consideration in accordance with the terms of the Scheme.

The Deed Poll may be relied upon by any Scheme Shareholder, despite the fact that they are not a party to it, and each Scheme Shareholder appoints Amcom as its agent to enforce their rights under the Deed Poll against Vocus.

If the Scheme becomes Effective:

- (a) Amcom Shareholders will be deemed to have authorised Amcom to do and execute all acts, matters, things and documents on the part of each Amcom Shareholder necessary to implement the Scheme, including (without limitation) executing, as agent and attorney of each Amcom Shareholder, a share transfer or transfers in relation to their Amcom Shares; and
- (b) Amcom undertakes in favour of each Amcom Shareholder to enforce the Deed Poll against Vocus on behalf of and as agent and attorney for the Amcom Shareholders.

8.10 Confidentiality Agreement

Amcom and Vocus entered into a Confidentiality Agreement on 8 November 2014 for the purpose of undertaking a period of reciprocal confirmatory due diligence on an exclusive basis in relation to the Scheme.

The Confidentiality Agreement contains a standstill restriction which provides that a recipient of confidential information (Vocus or Amcom, as the case may be) must not, and must procure that its Related Bodies Corporate do not, during the period starting on the date of the Confidentiality Agreement and ending on the date that is 6 months after the date of the Confidentiality Agreement:

- (a) acquire any securities of the other party or any options or other right to acquire securities of the other party;

A restricted party may do any of the things referred to above in certain circumstances, including pursuant to offers made under a takeover bid where the board of directors of the other party has announced that it recommends a takeover bid or scheme of arrangement, pursuant to a formal written agreement between the parties or with the other parties prior written consent, or pursuant to the Scheme.

The Confidentiality Agreement terminates on the date which is the earlier of:

- (a) the date of completion of the Scheme (or the date of completion of any other agreed merger between Amcom and Vocus); and
- (b) the date which is 12 months from the date of the Confidentiality Agreement.

The Confidentiality Agreement contains others terms and conditions which are standard for a document of this nature.

9. Tax implications of the Scheme

9.1 Overview

The following tax comments are based on the tax law in Australia in force as at the date of this Scheme Booklet. Australian tax laws are complex. This summary is general in nature and is not intended to be an authoritative or complete statement of all potential tax implications for each Amcom Shareholder and Amcom Performance Rights Holders (**Investors**). The precise implications of ownership or disposal will depend upon each Investor's specific circumstances. Investors should seek their own professional advice on the taxation implications of holding or disposing of the Amcom Shares, Amcom Performance Rights, New Vocus Shares and Replacement Performance Rights taking into account their specific circumstances.

The following information is a general summary of the Australian income tax implications for Investors who are Amcom Shareholders on the Record Date with no trading restrictions and Amcom Performance Rights Holders. These comments do not apply to Investors that hold Amcom Shares or Amcom Performance Rights on revenue account or as trading stock, Investors who are Ineligible Overseas Shareholders, Investors who are banks, insurance companies or taxpayers that carry on a business of trading in shares. These comments do not apply to Investors who are exempt from Australian income tax or Investors subject to the Taxation of Financial Arrangements (**TOFA**) regime in Division 230 of the *Income Tax Assessment Act 1997 (ITAA97)*. Investors who are subject to the TOFA regime should obtain their own tax advice as to the implications under the TOFA regime (if any).

9.2 Implications for Australian tax resident Amcom Shareholders

(a) CGT on disposal of Amcom Shares

The disposal of Amcom Shares to Vocus in exchange for New Vocus Shares will give rise to a capital gains tax (**CGT**) event for Amcom Shareholders at the time of disposal.

Broadly, subject to the CGT rollover relief discussed below:

- (i) A capital gain will arise for Amcom Shareholders where the market value of the New Vocus Shares received as consideration is greater than their cost base in the Amcom Shares; or
- (ii) A capital loss will arise for Amcom Shareholders where the market value of the New Vocus Shares received as consideration is less than their cost base in the Amcom Shares.

Any capital losses may be offset against other capital gains made by the Amcom Shareholder in the year of disposal, or alternatively carried forward for offset against future capital gains (subject to satisfaction of any relevant loss recoupment rules).

Amcom Shareholders that are individuals, trusts or complying superannuation funds may be entitled to utilise the CGT discount provisions to reduce any capital gain arising where they have held their Amcom Shares for at least 12 months (excluding the acquisition date and disposal date). The discount rate for individuals and trusts is 50%, and the discount rate for complying superannuation funds is 33 1/3%.

Where Amcom Shareholders are not entitled to CGT rollover relief or choose not to apply it, the first element of the cost base of the New Vocus Shares acquired will be equal to the market value of the New Vocus Shares received by the shareholder, and the acquisition date will be the Implementation Date.

(b) **CGT rollover relief**

Amcom Shareholders who make a capital gain by exchanging their Amcom Shares for New Vocus Shares in accordance with the steps outlined in this Scheme Booklet may be entitled to disregard the capital gain by choosing to obtain rollover pursuant to the scrip for scrip rollover provisions in subdivision 124-M of ITAA97.

In order to access the scrip for scrip rollover provisions, a number of requirements must be satisfied. Based on the Scheme, these requirements should be satisfied, and accordingly Amcom Shareholders should be entitled to choose rollover relief to disregard any capital gain arising on the exchange of Amcom Shares for New Vocus Shares.

The way in which individual Amcom Shareholders prepare their respective income tax returns is sufficient evidence of making a choice to obtain rollover relief and such a choice must be made by the day the individual Amcom Shareholders lodge their particular income tax return.

Where an Amcom Shareholder elects to apply CGT rollover relief:

- (i) Any capital gain which would otherwise arise upon the disposal of the Amcom Shares will be disregarded;
- (ii) The acquisition date for the New Vocus Shares will be the acquisition date of the original Amcom Shares; and
- (iii) The first element of the cost base of the New Vocus Shares acquired by the Amcom Shareholder will be equal to the cost base of the shareholder's Amcom shares, and will be apportioned on a reasonable basis across the New Vocus Shares.

(c) **Dividend received by Australian resident Amcom Shareholders prior to Scheme implementation**

Amcom announced on 20 February 2015 that it would declare and pay a fully franked HY2015 dividend of 5 cents per Amcom Share prior to the Implementation Date.

The implications for Australian resident Amcom Shareholders who receive the fully franked dividend are as follows:

- (i) The dividend will not be included as part of the consideration under the Scheme;
- (ii) The dividend will be included in the Amcom Shareholder's assessable income;
- (iii) For Amcom Shareholders who satisfy the 45 day rule, any franking credits will be included in the Amcom Shareholders' assessable income and they will be entitled to a tax offset; and
- (iv) For Amcom Shareholders who do not satisfy the 45 day rule, any franking credits will not be included in the Amcom Shareholders' assessable income and they will not be entitled to a tax offset.

For the purposes of the 45 day rule, Amcom Shareholders are expected to cease holding Amcom Shares 'at-risk' on the Record Date of the Scheme.

9.3 Implications for Australian tax resident Amcom Performance Rights Holders

(a) **Income tax treatment for Amcom Performance Rights Holders on the accelerated vesting of Amcom Performance Rights (excluding Additional Performance Rights)**

The accelerated vesting of the Amcom Performance Rights under the Scheme will give rise to a deferred taxing point under the Employee Shares Scheme Rules (**ESS Rules**).

Where the Implementation Date occurs within 30 days of the accelerated vesting date, the deferred taxing point date will be the time at which the Amcom Performance Rights Holder:

- (i) Disposes of their Amcom Shares prior to the Implementation Date; or
- (ii) If not disposed of prior to the Implementation Date, the Implementation Date.

The amount subject to tax under the ESS Rules will be the fair market value of the Amcom Shares at the deferred taxing point date. This will be the tax cost base of the New Vocus Shares that are held on capital account.

The CGT event involving the scrip for scrip exchange outlined at section 9.2 is disregarded.

(c) **Income tax treatment for Amcom Performance Rights Holders on the Additional Performance Rights**

The income tax treatment of the Additional Performance Rights fall into two categories:

- (i) **Accelerated Vesting:** which are not subject to a 'real risk of forfeiture' (due to a general expectation (as evidenced by the Amcom Board endorsement of the Scheme) that Amcom Shareholders will approve the acquisition at the Scheme Meeting).

For Amcom Performance Rights Holders subject to Accelerated Vesting of Additional Performance Rights, the fair market value of the underlying Amcom Shares at the date of grant of the Additional Performance Rights, being 17 December 2014, will be subject to tax at marginal tax rates in the year of grant under the ESS Rules.

There will be no tax implications for Amcom Performance Rights Holders subject to accelerated vesting of Additional Performance Rights, at vesting. The Amcom Shares acquired on vesting will be subject to the same tax outcomes and choices as those noted above in section 9.2.

- (ii) **Replacement Performance Rights:** which are subject to a 'real risk of forfeiture' (as 100% will be forfeited if the taxpayer resigns within 6 months of the Implementation Date and 50% will be forfeited if the taxpayer resigns within 12 months of the Implementation Date).

The Replacement Performance Rights acquired by Amcom Performance Rights Holders under the Scheme will be, for the purposes of the ESS Rules, treated as a continuation of the Additional Performance Rights that have been replaced.

Therefore, under the ESS Rules the deferred taxing point for the Replacement Performance Rights should be the date they vest, assuming no restrictions prevent the Amcom Performance Rights Holders from disposing of the Vocus Shares at this time (e.g. insider trading restrictions).

If the Vocus Shares are sold within 30 days of vesting, the date of sale becomes the deferred taxing point (and no further capital gains tax implications arise).

9.4 GST

The acquisition, redemption or disposal of Amcom Shares, Amcom Performance Rights, New Vocus Shares or Replacement Performance Rights should not be subject to GST.

However, Investors may not be entitled to claim full input tax credits in respect of GST on expenses they incur that relate to the acquisition, redemption or disposal of Amcom Shares, Amcom Performance Rights, New Vocus Shares or Replacement Performance Rights (e.g. lawyers' and accountants' fees).

Investors should seek their own advice on the impact of GST in their own particular circumstances.

This payment includes any payment in lieu of notice that Amcom elects to make and is subject to compliance with Part 2D.2 of the Corporations Act and the ASX Listing Rules.

If, following implementation, any such engagement is terminated, the relevant executive will have such entitlements (including in respect of compensation for loss of office) as are contemplated by their employment contract.

The dollar value attributable to the Amcom Performance Rights held by Mr Stein (once vested) is \$2,898,000. This figure has been calculated by multiplying the number of Amcom Performance Rights held by Mr Stein, multiplied by \$2.76 (Amcom's closing share price on 24 March 2015). Dear Directors

Proposed scheme of arrangement between Amcom Telecommunications and Vocus Communications

Introduction

1. On 17 December 2014, Amcom Telecommunications Limited (Amcom) and Vocus Communications Limited (Vocus) jointly announced that they had entered into a Scheme Implementation Agreement (SIA) under which Vocus will acquire the outstanding 90% of shares in Amcom it does not already own via a Scheme of Arrangement (the Scheme) pursuant to Part 5.1 of the Corporations Act 2001 (Corporations Act).
2. Under the Scheme, eligible shareholders of Amcom, other than Vocus or a related body corporate of Vocus (collectively the Scheme Shareholders), will receive 0.4614 Vocus shares for each Amcom share (the Scheme Consideration). The Scheme Consideration will not be adjusted by the interim or special dividend declared by Amcom or Vocus, subject to an agreed dividend cap of 5 cents per share for Amcom and 6.3 cents per share in respect of Vocus.
3. The directors of Amcom have engaged PricewaterhouseCoopers Securities Limited (PwC Securities) to prepare an independent expert's report setting out whether, in its opinion, the Scheme is in the best interests of the Scheme Shareholders and to state reasons for that opinion.
4. This letter contains a summary of the opinion and main conclusions of PwC Securities and is extracted from the full independent expert's report, a copy of which (including this summary letter) will accompany the Scheme Booklet.

Our conclusion

The Scheme is in the best interests of the Scheme Shareholders

5. Our assessment of the Scheme has been undertaken in accordance with the principles of Australian Securities and Investments Commission (“ASIC”) Regulatory Guide 111, Content of expert reports (RG 111). In the context of a Scheme, what is in the best interests of members is judged in all the circumstances of the Scheme. Comparing the value of the shares being acquired and the value of the consideration paid is only one element of the assessment.
6. We consider the Scheme to be in the best interests of the Scheme Shareholders on the basis that it is both fair and reasonable, an approach which is considered consistent with RG111. The reasons for our opinion are set out below and should be read in conjunction with our detailed report which sets out our scope and findings.

The Consideration offered under the Scheme is fair

7. We have assessed the fair market value of an Amcom share (on a controlling interest basis) as at the date of this report to be in a range from \$1.99 to \$2.41 with a preferred (midpoint) value of \$2.20. The Scheme Consideration has been assessed to have a fair value in a range of \$2.65 to \$2.77 with a midpoint value of \$2.71 per Scheme Share. On the basis that our assessed value of the Scheme Consideration is above our valuation range for a fully paid ordinary share in Amcom, we consider that it is fair.

The Scheme is reasonable

8. In accordance with RG111.11, we consider that the Scheme is reasonable on the basis that it is fair. In addition, we consider the Scheme to be reasonable for the following reasons.

The offer is at a premium to Amcom ordinary share prices before the announcement of the proposed Scheme

9. The 30 day and 90 day VWAP of an Amcom share prior to the announcement to the ASX on 27 October 2014 of Vocus’ acquisition of a 10% interest in Amcom and its intention to make a “confidential, conditional, incomplete and non-binding proposal to merge with Amcom” was \$1.94 and \$1.95, respectively.
10. As we have assessed the value of the Scheme Consideration to be in the range of \$2.65 to \$2.77 per Scheme Share this implies that a premium for control of approximately 36% to 43% has been included in Vocus’ offer when compared to the historical 30 and 90 day VWAP of Amcom prior to Vocus’ initial investment in Amcom.

Continued exposure to the risks and rewards of Amcom’s business

11. If the Scheme is approved, as the Scheme Consideration is in the form of scrip in the new combined Vocus and Amcom entity, Scheme Shareholders will continue to share in any benefits and risks associated with being an investor in Amcom. In addition, we note that the combined Vocus and Amcom entity will have a more diversified service offering and a wider customer base, potentially reducing risk for shareholders.

Access to revenue and cost synergies

12. There are likely to be significant synergies available from combining the Amcom and Vocus businesses in which Scheme Shareholders will participate through the consideration they will receive, being shares in the combined business.
13. The Directors of both Amcom and Vocus have stated that they believe the combined group will be able to realise cost synergies on a pre-tax basis of approximately \$13 million to \$15 million per annum (by the end of FY17) and also capitalise on increased revenue opportunities arising from the ability to access the expanded customer base and the optimisation of the merged entity's fibre networks.

Ability to share in premium for control if Vocus is subsequently acquired

14. As the Scheme Shareholders will receive scrip in Vocus they still retain the potential benefit of sharing in any premium for control that may be paid by a potential acquirer of Vocus subsequent to the Scheme being approved.

The new Vocus shares are likely to have a greater level of liquidity and institutional coverage

15. Vocus shares have a greater level of liquidity than Amcom shares and are represented in the S&P ASX200 Index. The increased size of the combined business is likely to attract even greater institutional coverage.

If the Scheme is not accepted, the Amcom share price is likely to fall

16. The Amcom share price increased significantly on the announcement of the Scheme and has traded in a range of \$2.63 to \$2.99 since then (based on closing share prices). We consider that in the absence of the Scheme, an alternative proposal or speculation concerning an alternative proposal, the Amcom share price is likely to reduce from current levels. In the medium and longer term, Amcom's share price will reflect the market's assessment of Amcom's ongoing business model, operating performance as well as general movements in financial markets.

Unanimous Board recommendation

17. Amcom's Board of Directors has indicated its unanimous recommendation in favour of the Scheme, in the absence of a superior proposal emerging and subject to the independent expert finding the Scheme in the best interests of Scheme Shareholders.

No alternative proposals have been received

18. The directors of Amcom have advised us that to the best of their knowledge the proposal from Vocus is the only proposal available to Amcom shareholders at the date of this report.
19. We cannot exclude the prospect of an alternative proposal or offer on better terms emerging. In the event that an alternative proposal or offer on better terms emerges before the closure of the Scheme, Scheme Shareholders will be entitled to reject the Scheme and pursue other opportunities.

Other matters

20. The decision to accept or not to accept the Scheme is a matter for individual Scheme Shareholders based on each shareholder's view as to value, their expectations about future market conditions and their particular circumstances including risk profile, liquidity preference, investment strategy, portfolio structure and tax position. In particular, taxation consequences may vary from shareholder to shareholder. If in any doubt as to the action they should take

in relation to the Scheme, Scheme Shareholders may wish to obtain personal financial product advice from the holder of an Australian Financial Services Licence to assist in this assessment.

21. This independent expert's report has been prepared solely for the benefit of the Directors of Amcom and for the benefit of the Scheme Shareholders. Neither PwC Securities nor its employees, officers and agents undertake responsibility to any person, other than the Directors of Amcom or the Scheme Shareholders, in respect of the independent expert's report, including any errors or omissions howsoever caused.
22. Amcom has indemnified PwC Securities, PwC and its employees, officers and agents against any claim, liability, loss or expense, cost or damage, including legal costs on a solicitor client basis, arising out of reliance on any information or documentation provided by Amcom, which is false and misleading or omits any material particulars or arising from a failure to supply relevant documentation or information.
23. Our assessment was completed using available information as at 24 February 2015. We have reviewed publicly available information subsequent to 24 February 2015 to the date of this letter and do not consider this to alter our opinion that the Transaction is in the best interests of the Scheme Shareholders. This letter must be read in conjunction with the full independent expert's report attached.

1 *Overview of the Scheme and basis of assessment*

Overview of the scheme

24. On 17 December 2014, Amcom Telecommunications Limited (Amcom) and Vocus Communications Limited (Vocus) jointly announced that they had entered into a Scheme Implementation Agreement (SIA) under which Vocus will acquire the outstanding 90% of shares in Amcom it does not already own via a Scheme of Arrangement (Scheme) pursuant to Part 5.1 of the Corporations Act 2001 (Corporations Act).
25. Vocus and Amcom announced that the strategic rationale for the transaction is to combine two complementary but geographically diverse businesses to create a major national telecommunications provider with substantial cost and revenue synergies.
26. Under the Scheme, eligible shareholders of Amcom, other than Vocus or a related body corporate of Vocus (collectively the Scheme Shareholders), will receive 0.4614 Vocus shares for each Amcom share. The Scheme Consideration will not be adjusted by any interim or special dividend declared by Amcom or Vocus prior to implementation, subject to an agreed dividend cap of 5 cents per share for Amcom and 6.3 cents per share in respect of Vocus.
27. Amcom has a total of approximately 266.4 million shares and 4.2 million performance rights on issue. Of these, approximately 26.6 million shares are held by Vocus (equal to 10.0 % of the issued ordinary share capital of Amcom). Vocus has a total of approximately 105.4 million shares and approximately 0.3 million share options on issue.
28. In respect of the Amcom performance rights on issue, under the Scheme:
 - All Amcom performance rights belonging to Tranche D, Tranche E and those belonging to Tranche F that are held by Amcom's Chief Executive Officer will vest; and
 - 50% (or 790,000) of the 1,580,000 performance rights belonging to Tranche F that were issued on 17 December 2014 (the Additional Performance Rights) will vest (collectively the Vesting Amcom Performance Rights).
29. Amcom shares will be issued in respect of Vesting Amcom Performance Rights, as referred to above, no later than the business day immediately prior to the second court date relating to the Scheme.
30. In respect of the remaining 50% of the Additional Performance Rights, these are to be either acquired by Vocus or cancelled for consideration as prescribed in Section 14.2 of the SIA on or before the business day immediately prior to the second court date.
31. Based on the respective number of shares on issue and assuming the Scheme is completed, the Scheme Shareholders' collective interest in the combined Vocus and Amcom entity (the Merged Group) will be approximately 51.6% (after adjusting for Vocus' existing 10% shareholding in Amcom).
32. The Scheme is subject to the satisfaction of a number of conditions which are set out in full in the Scheme Booklet to be sent to shareholders by Amcom. The shareholders of Amcom are to consider a resolution seeking approval of the Scheme at a general meeting of Amcom shareholders that is expected to be held in April 2015 (Scheme Meeting).

33. The Scheme is subject to the following key conditions:
- An independent expert concluding that the Scheme is in the best interests of the shareholders of Amcom (excluding any shares held by Vocus or a related body corporate under section 50 of the Corporations Act);
 - The Scheme being approved by the requisite majority of Amcom shareholders at a meeting convened pursuant to section 411(1) of the Corporations Act in respect of the Scheme;
 - No material adverse change in Vocus or Amcom from the date of the SIA to the second court hearing;
 - Approval by the court under Section 411(4)(b) of the Corporations Act; and
 - All regulatory approvals being obtained by the second court hearing.
34. Other elements of the Scheme include:
- Amcom and Vocus have agreed to certain exclusivity restrictions including no-talk, no-shop and no-due diligence provisions;
 - A break-fee of \$4 million (exclusive of GST) is payable by Amcom to Vocus in certain circumstances including if any Amcom Director changes adversely or withdraws the recommendation in favour of, or voting intentions in relation to, the Scheme or if before the Scheme becomes effective, a third party announces a superior proposal and, as a result, acquires an economic interest in at least 50% of the issued share capital of Amcom;
 - A break-fee of \$4 million (exclusive of GST) is payable by Vocus to Amcom in certain circumstances including if a third party announces a superior proposal and, as a result, acquires an economic interest in at least 50% of the issued share capital of Vocus, a competing proposal is publicly recommended by or supported by a majority of the Vocus Board;
 - Immediate notification of competing proposals, and Vocus and Amcom both having the right to amend the terms of the Scheme or to propose any other transaction; and
 - An end date of 31 May 2015 (unless extended by written agreement of Amcom and Vocus).
35. Amcom has agreed to propose the Scheme to the Amcom shareholders and the Directors of Amcom have unanimously recommended that Scheme Shareholders vote in favour of the Scheme in the absence of a superior proposal and subject to the independent expert concluding that the Scheme is in the best interests of the Scheme Shareholders.
36. The directors of Amcom have engaged PricewaterhouseCoopers Securities Ltd (PwC Securities) to prepare an independent expert's report setting out whether, in its opinion, the Scheme is in the best interests of the Scheme Shareholders and to state reasons for that opinion.

Basis for our assessment

37. The proposed merger of Amcom and Vocus is to be effected by a members' scheme of arrangement (being the Scheme). Schemes of arrangement are governed by Section 411 of the Corporations Act 2001 (Cth) (Corporations Act) and Schedule 8 of the Corporations Regulations. Before the Scheme can proceed, it must be considered and approved by the shareholders and the Court.
38. Clause 8303 of Part 3 of Schedule 8 requires that, in the circumstances where the party proposing a scheme holds more than 30% of the issued capital of the company the subject of the scheme, the explanatory statement provided to shareholders is to be accompanied by a report from an independent expert stating whether, in the expert's opinion, the scheme is in the best interests of members of the company subject to the scheme and setting out the reasons for that opinion.
39. Vocus and its related parties do not hold an interest of more than 30% in the issued capital of Amcom and have no common directors. Accordingly, there is no requirement under the Corporations Act for an independent expert's report to be prepared in connection with the proposed scheme. Nevertheless, the SIA contains a condition precedent that an independent expert's report is obtained providing that, "the Scheme is in the best interests of Amcom Shareholders" (being Amcom shareholders other than Vocus and its associates). We have therefore been requested to prepare an independent expert's report stating whether, in our opinion, the Scheme is in the best interests of the Scheme Shareholders and to set out reasons for that opinion.
40. Section 606 of the Corporations Act (s606) provides a general prohibition to any person increasing their relevant interest in the issued voting securities of a listed company from 20% or below to more than 20%. However there are various exceptions to this prohibition including those set out in Section 611 of the Corporations Act (s611) including court approved schemes of arrangement.

Our approach

41. This report has been prepared in accordance with the Corporations Act and Australian Securities and Investments Commission (ASIC) Regulatory Guide 111, Content of expert reports (RG111).
42. We have prepared this independent expert's report for the purpose of stating, in our opinion, whether or not the Scheme is in the best interests of the Scheme Shareholders, and to set out reasons for that opinion.
43. While there is no definition of "in the best interests of the members" provided in the Corporations Act, relevant guidance is provided in RG111, which is framed largely in terms that relate specifically to control transactions effected by way of a scheme of arrangement.
44. RG111.18 indicates that an expert evaluating a control transaction effected by way of a scheme of arrangement should undertake a form of analysis substantially the same as "fair and reasonable" reports for takeover offers under Section 640 of the Corporations Act. In this context, RG111.18-22 indicates that assessment of whether a proposal is "in the best interests of the members" for reports on control transactions prepared for the purposes of Section 411 should be evaluated by reference to whether the proposal is "fair and reasonable" and should also include an opinion on this basis.
45. RG111 discusses the separate concepts of "fair" and "reasonable" to be applied by an independent expert assessing an offer. An offer is regarded as "fair" if the value of the offer price or consideration is equal to or greater than the value of the securities the subject of the offer. An offer is "reasonable" if it is "fair" or despite not being "fair", but after considering other significant factors, shareholders should accept the offer in the absence of any higher bid before the close of the offer.
46. RG111.30-31 requires that the assessment of fairness of a control transaction under Section 640 of the Corporations Act compares the value of scrip consideration (allowing for a minority interest discount) to the value of the securities being given up assessed on a controlling interest basis assuming 100% of the securities were available for sale. The Regulatory Guides reflect ASIC's underlying philosophy that the premium for control of a company be shared by all members of that company.

47. However, RG111.31 also requires the expert to assess whether a scrip takeover is in effect a “merger of entities of equivalent value when control of the merged entity will be shared equally between the bidder and the target”. In such circumstances, the expert may use an equivalent approach to valuing the securities of the ‘bidder’ and the ‘target’.
48. We have given particular consideration as to whether the Scheme should be assessed as a takeover of Amcom by Vocus or as a merger of the two entities. To determine whether the Scheme is a merger of equals or a control transaction, we have considered the following factors:
- The relative interests in the Merged Group of the Amcom shareholders and existing Vocus shareholders;
 - The mix of the members of the Board of the Merged Group;
 - The mix of the senior management of the Merged Group;
 - Whether any shareholder from either company will be in a position to control or significantly influence the Merged Group, or if the shareholder register of the Merged Group will be relatively open after the Scheme;
 - Whether entering into the Scheme reduces the opportunity for Amcom shareholders to receive a takeover offer for their shares in the Merged Group; and
 - The intentions of the Board and management of Amcom and Vocus on entering into the Scheme.
49. Upon completion of the Scheme, Amcom shareholders will hold approximately 51.6% of the Merged Group and there will be no individual shareholder with a shareholding of sufficient size to exert significant influence over the Merged Group. However, Vocus will have 5 out of 8 Board members, Vocus’ chairman will be the Merged Group’s chairman and Vocus’ existing CEO and CFO will continue in these roles under the Merged Group structure. Having regard to these factors, we consider that the Scheme should be evaluated as a control transaction.
50. Accordingly, our assessment of the value of Amcom’s ordinary shares is assessed on a controlling interest basis and our assessment of the consideration to be paid under the Scheme reflects the value of a Vocus share post-transaction on a non-controlling minority interest basis.
51. In evaluating the reasonableness of the Scheme, we have considered other significant factors for Scheme Shareholders in relation to the Scheme, including the potential synergies that may arise as a result of the proposed transaction, the likelihood of another offer being received on better terms and the likely position of shareholders if the Scheme is rejected.
52. Fair market value is defined as the price which would reasonably be negotiated by an informed, willing but not anxious purchaser and an informed, willing but not anxious seller acting at arm’s length and within a reasonable timeframe.

2 *Industry overview*

Introduction

62. Telecommunications companies are predominantly engaged in operating, maintaining or providing access to company owned or third party network infrastructure for the transmission of voice, data and video. The industry has evolved as increased data volumes, faster and more reliable data transmission and the emergence of cloud based services have increased the demand for data centres and web hosting infrastructure and services.
63. This section of the report provides an overview of the main sectors of the telecommunications industry in which Amcom and Vocus operate, comprising:
 - Telecommunication Services and Resellers;
 - Internet Service Providers (ISPs); and
 - Data Centres and Hosting Infrastructure.

Telecommunication Services and Resellers

Overview

64. Telecommunications services can be broadly defined as operating, maintaining or providing access to network infrastructure for the transmission of voice, data and video. Telecommunications resellers purchase network capacity from network owners and resell it via their own distribution channels.
65. Telecommunications industry participants can be categorised into two distinct groups:
 - Major telecommunications services companies, such as Telstra, Optus and to a lesser extent Vodafone, which generally operate across the whole of the industry (“the majors”); and
 - Smaller scale telecommunications companies which include TPG, M2, Amcom, Vocus, Macquarie Telecom and Nextgen that provide high speed data connectivity to corporate customers, Government departments and ISPs through establishment and ownership of their own fibre networks and also as resellers of network capacity purchased from the majors.
66. Telstra is the largest provider of telecommunications services in Australia with IBISWorld¹ estimating its market share of the Telecommunications Services industry revenue to be over 46%, followed by Optus at approximately 20% and Vodafone with almost 8% of industry revenue.
67. Key success factors in this industry are generally considered to include:
 - Having access to or ownership of an extensive distribution network, via an extensive infrastructure (data) network. Networks facilitate the physical transfer of data over “point-to-point” or “point-to-multipoint” communication channels and are needed to transmit data between office buildings around cities and across different states or countries, link offices to data centres and provide corporate/Government data recovery services. Data can be transferred over fibre optic cables, Hybrid-Fibre Coaxial (HFC) cables, copper wires, wirelessly and via storage media;
 - Economies of scale which enable a company to reduce the cost of doing business;

¹ IBISWorld, “Telecommunications Services in Australia”, October 2014

- Having a broad range of service/product offerings as traditional products and markets are in decline;
- Understanding the regulatory environment and the potential impact of Government policy; and
- Undertaking technical research and development to ensure the organisation has access to the latest technology and delivers a secure, reliable and cost efficient service to its customers.

Historical performance and industry outlook

68. The chart below shows the revenue of the Telecommunications Services industry in Australia over the last three financial years and forecast revenue over the next five years to FY20 (as provided by IBIS World):

Figure 1: Telecommunications – Historical and forecast industry revenue

Source: IBISWorld "Telecommunications Services in Australia", October 2014

69. Our high level comments in relation to the historical performance and outlook for this industry are as follows:

- Demand for and use of telecommunications services has increased over the last three years. However, the replacement of traditional wired services with wireless services has created intense industry competition and resulted in a challenging trading environment. IBISWorld estimates that revenue from wired telecommunications services will have declined by an annualised 1.5% over the last five years and that industry revenue in FY15 will total \$41.5 billion;
- Wireless services have significantly increased due to faster and more reliable mobile connectivity (principally via third generation (3G) networks) and the rapid take-up of smart devices. The next generation of mobile technology (4G) has, and will continue to, enable significant enhancements to the range and quality of wireless services able to be offered;
- Concurrently with the growth in wireless services, telecommunications providers have focused on implementing price cuts to improve and/or retain market share. In turn, more competitive pricing has benefited consumers and has led to an increased use of telecommunications services and profitability has increased largely due to economies of scale driving unit costs lower;
- Annual industry revenue is forecast by IBISWorld to decrease marginally over the next five years to FY20 to \$40.4 billion. However, subsector growth within the industry is expected through advances in technology (infrastructure and applications), the expansion of network coverage, including the rollout of the National Broadband Network (NBN) and continued expansion of wireless 4G networks; and
- As next generation networks provide expanded coverage, new telecommunications applications for the utility, transport, health, education, commerce and retail sectors will be developed and adopted, creating

new revenue streams. Advances in network infrastructure will also enable emerging services such as VoIP (Voice over Internet Protocol), IPTV (Internet Protocol Television) and mobile tethering to become more widely adopted, providing increased competition between organisations in this industry and ISPs.

Internet Service Providers

Overview

70. ISPs primarily provide internet access to businesses, households, educational and healthcare institutions and Government departments. The ISP industry also includes organisations which provide internet-reliant services, which include VoIP and IPTV and a range of other services.
71. Internet services are provided through dial-up public switched telephone networks (PSTNs), integrated services digital networks (ISDNs) or via broadband and wireless application protocols.
72. The most common form of fixed broadband connection is via a digital service line (DSL). DSLs use the extra capacity that phone lines do not use for traditional services. This connection system has been the most popular option for subscribers that have dropped narrowband connections over the past five years.
73. Other forms of access include fibre, satellite and fixed-wireless networks. Fibre optic (fibre) networks are expected to grow significantly over the next five years as the NBN continues to be rolled out. Fibre networks are superior to other infrastructure currently in place but are costly and time-consuming to establish.
74. Organisations in the ISP industry include entities that either own or lease the telecommunications infrastructure. As with the Telecommunications Services industry, the ISP industry is considered to have a high degree of concentration with IBISWorld² estimating Telstra has a 48% market share of industry revenue with iiNet, TPG and Optus each having an approximate 10% market share of industry revenue.
75. The relatively high fixed-cost nature of the industry has encouraged consolidation in the industry as entities try to achieve economies of scale required to lower the cost of service delivery and enable them to effectively compete with Telstra.
76. Key success factors in this industry are generally considered to include:
 - Ownership of, or access to, required broadband infrastructure with sufficient capacity;
 - Economies of scale to lower cost of delivery and compete for market share;
 - Loyal and diverse customer base to retain market share in what is considered to be a relatively commoditised industry;
 - Diverse range of products and services to diversify revenue streams and to differentiate from other market participants; and
 - Ability to quickly adopt new technology as the need/desire for the latest internet based applications and services continues to develop at a rapid pace.

Historical performance and outlook

77. The chart below shows the revenue of the ISP industry in Australia over the last three financial years and forecast revenue over the next five years to FY20 (as provided by IBIS World):

² IBISWorld, "Internet Service Providers in Australia", September 2014

Figure 2: Internet Service Providers – Historical and forecast industry revenue

Source: IBISWorld, "Internet Service Providers in Australia", September 2014

78. In regards to the historical performance and forecast outlook for this industry, we make the following high-level observations:
- ISPs have historically been one of the fastest growing industries in the technology sector. However, market saturation for fixed broadband has caused revenue growth to slow over the past three years. Growth in revenue over the last three years has been largely due to consumers and businesses upgrading to higher-use and larger revenue generating broadband connections. Despite prices for services falling, fixed broadband subscribers generate higher average revenue per user compared with dial-up connections due to faster access, increased frequency of usage and greater amounts of data downloaded;
 - Growth in revenue is beginning once again as the number of technologies relying on online and real-time access is increasing. Infrastructure is also being upgraded which in turn leads to more consumers and businesses upgrading existing services. This growth reflects how entrenched the internet is for consumers and businesses alike. IBISWorld estimates that industry revenue in FY15 will be \$4.9 billion;
 - Over the next five years industry revenue is expected to continue to grow through increased internet usage and subscriber growth and IBISWorld forecasts that annual industry revenue will reach \$6.5 billion by FY20;
 - Anticipated growth in revenue over the next five years is also expected to be supported by the rollout of the NBN which will encourage subscribers to upgrade their connections to make the most of improved speed and reliability;
 - Total average revenue per user for entry level broadband is projected by IBISWorld to be on a declining trend, but it is anticipated that this decline will be offset by consumers moving to fast broadband technologies, such as ADSL2+ (asymmetric digital subscriber lines), VDSL (very high bit rate digital subscriber lines) or fibre; and
 - As broadband speeds and quality of service increases, the business market is expected to adopt VoIP services to capitalise on potential cost savings. This has the potential to transform the wider telecommunications services industry as the distinction between ISPs and telecommunication carriers is diminished.

Data Centres and Hosting Services

Overview

79. Data centre services principally provide computer data and electronic information physical storage and retrieval services. Industry participants provide electronic information storage services, such as cloud services, which enables users to upload, download, back-up and access files and systems over the internet.
80. Cloud computing allows businesses to have a central server that holds all required applications in a virtual space that all employees can access. This reduces the implied IT cost per employee, speeds up the sharing of information in a business and allows access to all information from mobile sites or mobile devices. The rapid adoption of cloud computing has been facilitated by improved network performance and capacity, the rise in smart devices and the need/desire to access data from various platforms, across multiple devices and across locations.
81. The increasing prominence of cloud computing has enabled businesses to reduce their storage and IT costs as such services can be outsourced and scaled up or down, based on demand. This is in contrast with businesses historically maintaining their own servers, which involves considerable upfront and ongoing capital expenditure. As a result, outsourced data centre space has grown over the past five years as cloud computing offers users a more cost effective option.
82. This industry also includes the provision of web hosting infrastructure. Many businesses do not have the available capital or resources to internally manage website or intranet infrastructure. While web hosting service providers enable users to access files and information online, data centres manage the servers that back up and store data from various files to complete operating systems.
83. Although select web hosting providers are often vertically integrated and maintain some data centre facilities, there is a trend of hosting providers acquiring data centre space from carrier-neutral providers to complement their existing data centre capacity. A carrier-neutral data centre is a facility that permits interconnection between several hosting providers, as it not owned by any single network provider and therefore does not compete directly with them.
84. Data centre locations and capacity have increased over recent years, with larger industry players such as IBM investing in data centres as a means of promoting their cloud based services. Other significant industry participants in Australia include Fujitsu, NextDC, Telstra, TPG and Macquarie Telecom.
85. Market share concentration is expected to fluctuate in the future as data storage and processing is increasingly sent offshore, larger players acquire smaller players and international players (such as Digital Realty, Rackspace and Amazon) invest in establishing operations in Australia. It is also anticipated that smaller operators will face increasingly difficult competitive conditions, as larger operators aggressively pursue market share.
86. Key success factors in this industry are generally considered to include:
 - Access to the latest available and most efficient communications and data and information transfer technology;
 - Undertaking technical research and development into new data processing products and applications that result in improved labour productivity and customer service;
 - Market reputation, including the ability to offer reliable and, importantly, secure services;
 - Good management and marketing skills which are considered necessary for the ability to win new contracts or tender for services. In addition, Government bodies and health sector customers generate substantial demand for data storage and experience with contracting with these types of institutions is considered an advantage; and
 - Economies of scale to lower cost of delivery and compete for market share.

Historical performance and outlook

87. The chart below shows the revenue of the data centre industry in Australia over the last three financial years and forecast revenue over the next five years to FY20 (as provided by IBIS World³):

Figure 3: Data Centres – Historical and forecast industry revenue

88. In regards to the historical performance and outlook for this industry, we make the following high-level observations:

- Revenue generated from the data centre industry in Australia has grown significantly over the past three years. IBISWorld estimates that industry revenue will increase by an annualised 9.1% over the five years to FY15 to \$0.6 billion;
- The outsourcing of IT responsibilities has had a positive influence on the industry and the emergence of cloud computing has allowed expenditure to shift from capital in nature to operational expenditure;
- Future industry growth is anticipated to be driven by increased data usage and expansion of cloud computing related services. Further, the rollout of the NBN and continued expansion of 4G networks is seen as further supporting future growth in cloud computing and industry revenue over the next five years. IBISWorld forecast that the industry will continue to grow at a fairly consistent rate over the next five years and that industry revenue will reach approximately \$0.9 billion by FY20; and
- Over the next five years, the security of data is likely to be an important issue as businesses become more dependent on third party storage of commercially sensitive business information. Depending on the holding location of the data, which increasingly could be global, the regulations governing privacy may be different to those in a client's own country.

IT Services

Overview

89. The IT services industry comprises a wide range of services and typically comprises such services as:

- IT consultancy services, which includes system integration, IT security and general IT infrastructure design;
- Licensing and maintenance outsourcing where a third party manages the software and hardware contractual arrangements for another entity; and
- Outsourcing/managed services which is the management of an organisation’s internal IT system.

90. The chart below shows historical and forecast revenue growth of IT services:

Figure 4: IT Services – Historical and forecast industry revenue

Source: Amcom Information

91. The IT services industry has remained relatively steady over the two years to 2013, however ICT forecast that the IT Services industry will continue to grow over the next three years at a fairly moderate but consistent rate to that achieved in 2014.
92. It is expected that the demand for IT services will continue to expand as businesses become increasingly more reliant on their IT systems and organisations have to deal securely with larger and larger amounts of data and technology continues to rapidly change. However, the impact of this on IT Services businesses will ultimately depend of the user’s choice as to the degree to which these services are outsourced compared to the cost of developing these skills within the business.

3 Overview of Amcom

Profile of Amcom

93. Amcom is a telecommunications and IT related services company headquartered in Perth, Western Australia and predominantly operates in Perth where it owns fibre infrastructure and data centres. It also has operations in Sydney, Melbourne, Brisbane, Adelaide and Darwin.
94. The organisation was originally listed under the name of International Mineral Resources NL on the Australian Securities Exchange (ASX) in 1994 and changed its name to Fibertel after it was awarded a telecommunications carrier licence in 1998 before subsequently changing its name to Amcom in 2000.
95. Amcom has grown significantly since that time via a series of strategic acquisitions and through organic growth as the industry has expanded. In November 2014, Amcom announced an East Coast Expansion Strategy which included the acquisition of 180 kilometres of fibre network and long term lease agreements for network access to approximately 200 buildings in Sydney.
96. Amcom's key customers consist of blue chip corporates, Government agencies, higher education and research institutions and other telecommunications providers.
97. Amcom operates through three business segments, being:
 - Telecommunications;
 - Hosted and Cloud Services; and
 - IT Services.

Telecommunications

98. Amcom's Telecommunications business unit contributed 55% of Amcom's total FY14 revenue (and 83% of total EBITDA). This business unit comprises of Data Networks and Amnet broadband. The Data Networks division provides high-speed fibre connections and internet services predominantly to corporate and government entities whilst Amnet provides ADSL services to residential consumers.
99. Amcom's Data Networks provides the following services and products:
 - IP VPN services which provides network access across an ISP's infrastructure or the internet to provide remote offices or individual users with secure access to their organisation's network;
 - Ethernet services for multi-point connectivity (E-lan) and point-to-point connectivity (E-line) technology in metropolitan area networks;
 - Dark Fibre, a point-to-point connectivity solution providing a secure way to deliver high speed data applications; and
 - Internet.

Hosted and Cloud Services

100. Amcom’s Hosted and Cloud Services business unit contributed 20% of Amcom’s total FY14 revenue (and 13% of total EBITDA).
101. Amcom’s Hosted and Cloud Services business unit provides the following services:
- Data Centres which provide businesses with an ‘off-site’ environment to host their IT equipment. As at 31 December 2014, Amcom owned 7 facilities with a capacity of 650 racks;
 - Cloud solutions either through a dedicated or shared cloud as well as Amazon Web Services (AWS) which is a dedicated private connection that can be utilised for moving large volumes of data;
 - Amcom Cloud Collaboration (ACC), which is based on a collaboration with Cisco Hosted Collaboration Solution, providing the ability for people to communicate through real-time applications such as telephony, video conferencing and ‘Presence’ (a tool that shows the availability of a person) as well as the ability to access these services on mobile devices; Recently the University of Melbourne adopted this solution which will allow approximately 13,000 users access to a unified communications solution;
 - Amcom IP Tel, utilising the Broadsoft platform, which provides a full featured hosted telephony solution to Amcom’s customers which eliminates the need to deal with isolated phone systems at different offices and provides functions such as instant messaging, Presence, email and browser integration options; and
 - SIP Lines (Session Initiation Protocol) which are an alternative to existing phone services, providing telecommunications utilising the internet as opposed to the traditional copper lines.

IT Services

102. Amcom’s IT Services business unit contributed 26% of Amcom’s total FY14 revenue (and 4% of total EBITDA) and comprises of the following service offerings:
- Infrastructure integration, security consulting, IT consulting and system design;
 - Network management, IT service management, voice and data solutions; and
 - License management solutions for software and hardware arrangements.
103. We have shown below the split of revenue and earnings by business unit for the year ended 30 June 2014 which shows that Amcom’s Telecommunications business units generated approximately 55% of FY14 revenue and over 83% of operating EBITDA (before allocation of corporate overheads):

106. In relation to the historical financial performance of Amcom, we note:

- Revenue has increased from \$157.5 million in FY13 to \$170.1 million in FY14 as a result of strong demand for fibre based communication products from Government and corporate customers. The increase in revenue was also attributable to the hosted and cloud services segment where revenue grew by \$7.5 million, including revenue from the acquisition of Global Networks AMC Data Centre Pty Ltd completed in 2013 and aCure Technology Pty Ltd also completed in 2013;
- The table below summarises Amcom’s key operating expenses for the three financial years ended 30 June 2014 and for the six months to 31 December 2014:

Operating costs (AUD millions)	FY12	FY13	FY14	HY15
Network costs and cost of hardware sold	55.6	61.3	64.8	27.7
Labour	33.7	40.1	40.4	19.5
Occupancy	3.7	4.5	6.7	3.5
Other expenses	9.4	11.5	11.5	6.9
Total	102.5	117.5	123.4	57.6

Source: Amcom Annual Reports and Appendix 4D

- The network costs and cost of hardware sold is the largest component of the expenses (approximately 50% of total expenses) in both FY14 and HY15. Given the increased utilisation of Amcom’s existing fibre network additional costs associated with deriving new revenue is lower. This operational leverage has resulted in the growth in FY14 EBITDA to increase at a higher rate than revenue growth;
- Occupancy expense has increased by 49% to \$6.7 million during FY14. This was largely as a result of the addition of data centre leases held by acquired companies (aCure Technology and Global Networks AMC Data Centre Pty Ltd);
- The EBITDA margin has increased steadily over the three year period to FY14 and has continued to improve in the half year to December 2014 reflecting the benefits of operational leverage whereby Amcom is able to utilise its fibre network more efficiently with the increase in customer numbers.
- The Amcom East Pty Ltd acquisition was immaterial to the 31 December 2014 results;
- Abnormal items reported in FY12 relate to:
 - An impairment charge of \$5.0 million for network infrastructure following the discontinuance of legacy data and voice products and associated network assets which were considered obsolete. In addition, goodwill in respect of Amnet was written down by \$2.8 million due to declining revenue and margins as a result of intense competition in the residential broadband market; and
 - In-specie distribution of Amcom’s 20.4% shareholding in iiNet Ltd to shareholders by way of an in-specie distribution of \$71.0m. The realised profit of this distribution to Amcom shareholders was \$18.6 million; and
- Abnormal items reported in FY14 and HY15 relate to acquisition and integration expenses.

Telecommunications

108. Amcom’s Telecommunications business is the largest operating unit for Amcom, generating \$43.4 million or 83% of total FY14 EBITDA.

109. We have shown below the historical annual revenue and EBITDA generated by the Telecommunications business unit.

Figure 6: Telecommunications Revenue and EBITDA

Source: Amcom Annual Reports and Appendix 4D

110. In relation to chart set out above, we note that:

- Revenue increased by 11% between FY12 to FY13 and EBITDA margins (pre–corporate overheads) also increased slightly from 43% to 45% in this period. This was due to growth in all of Amcom’s core markets and Amcom’s established network helped to improve margins as the utilisation of Amcom’s network improved;
- For the period from FY13 to FY14, revenue increased with growth of 12%. EBITDA margins (pre–corporate overheads) also continued to improve by 2% to 47% in FY14. This growth was due to 300 new Government and corporate customers that Amcom had signed to its data services and its increase in cross selling new capabilities to data network customers; and
- HY15 has again seen continued growth in the Telecommunications business unit with revenue for the half-year of \$49.8 million and an EBITDA margin (pre- corporate overheads) of 46% for the period. This is an 11% increase in revenue when compared to the six months ended 31 December 2013 while maintaining a consistent EBITDA margin of 46%.

Hosted and Cloud Services

111. Amcom’s Hosted and Cloud Services business is the second largest operating unit, generating \$6.7 million or 13% of Amcom’s total FY14 EBITDA (pre-corporate overheads).
112. We have shown below the historical annual revenue and EBITDA (pre-corporate overheads) generated by Amcom’s Hosted and Cloud Services business unit.

Figure 7: Hosted and Cloud Services Revenue and EBITDA

Source: Amcom Annual Reports and Appendix 4D

113. In relation to chart set out above, we note that:

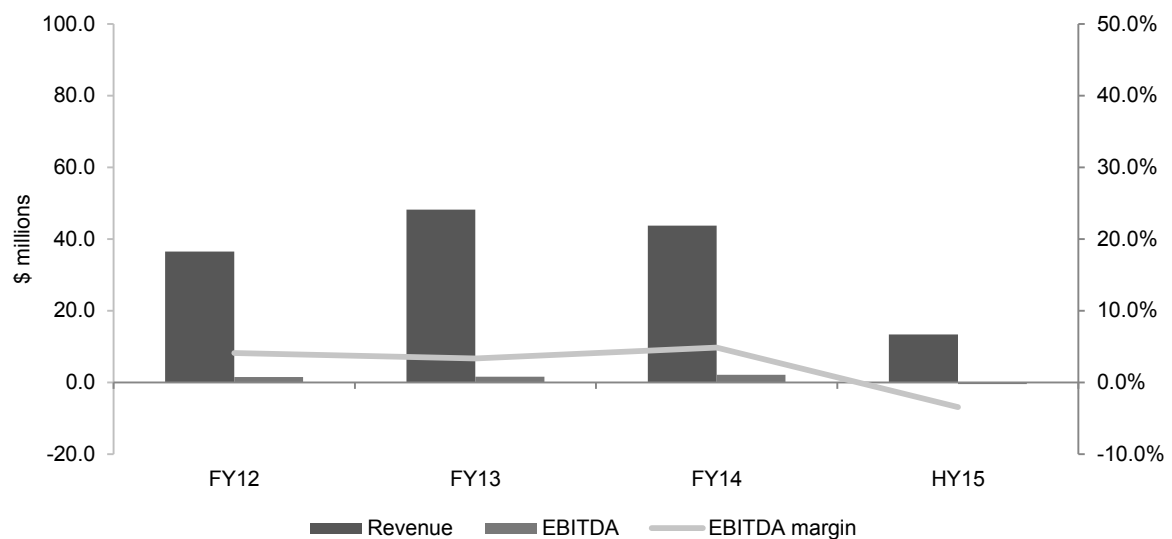

- Revenue increased from \$23.7 million in FY12 to \$25.9 million in FY13 (or by 9%) and there was a significant improvement in the EBITDA margin (pre-corporate overheads) during this time which increased from 14% in FY12 to 22% in FY13. This growth was driven by Amcom’s acquisition of aCure Technology Pty Ltd and Amcom’s partnership with Cisco Systems to create ACC. Both of these initiatives enhanced Amcom’s cloud capacity and technology;
- In FY14 revenue further increased to \$33.4 million and EBITDA margins (pre-corporate overheads) declined slightly to 20%. Earnings growth was lower than revenue growth as Amcom was investing in its capabilities; and

- For the six months to 31 December 2014, revenue from the Hosted and Cloud business unit was \$17.4 million. This is a 9% increase when compared to the half year to December 2013. The EBITDA margin has also improved when compared to the half year to December 2013 increasing from 19% to 23%.

IT Services

114. Amcom’s IT Services business unit was created by the acquisition of Amcom L7 Solutions Pty Ltd in November 2011 which contained an IT Services division. In FY14, the IT Services business unit contributed 4% to Amcom’s total EBITDA (pre-corporate overheads), making it Amcom’s smallest business segment.
115. This business unit is largely a consulting business which is employee intensive and therefore, a lower margin business. It has not achieved EBITDA margins (pre-corporate overheads) above 5% over the period from FY12 to 31 December 2014.

Figure 8: IT Services Revenue and EBITDA

Source: Amcom Annual Reports and Appendix 4D

116. In relation to chart set out above, we note that:
 - Revenue has increased from \$36.5 million in FY12 to \$48.2 million in FY13, a 32% increase in revenue. Revenue growth in FY13 is reflective of a full year of operation of the business unit within the Amcom group. EBITDA margins (pre-corporate overheads) declined slightly from 4% in FY12 to 3% in FY13;
 - Revenue has decreased by 9% in FY14 to \$43.7 million. However, there was an improvement in EBITDA margins from 3% in FY13 to 5% in FY14 as a result of Amcom focusing its IT service offerings towards existing customers in its Telecommunications and Hosted and Cloud Services business units which assisted improving margins; and
 - For the six months to 31 December 2014, there has been a significant decline in revenue when compared to the 6 months to December 2013 from the IT Services business unit. Revenue has declined from \$22 million to \$13.4 million and HY15 has seen a significant decline in earnings from this business unit recording an EBITDA loss of \$0.5 million. Management have attributed the decline in the IT Services business to a slowing Western Australian economy which has reduced customer expenditure on IT services, resulting in lower product sales.

118. A discussion of key balances is set out below:

Net Debt

- Cash and cash equivalents increased over the year to 30 June 2014 to \$31.4 million as a result of increased cash generated from operations and due to the issue of 19.5 million shares at \$2.05 per share in June 2014;
- Since June 2014, Amcom has acquired Amcom East Pty Ltd which involved an initial payment of \$5.6 million at settlement in November 2014, a deferred payment of \$1 million due in May 2015 and committed capital expenditure on additional network construction of \$8.4 million of which \$1.8 million had been incurred by 31 December 2014;
- As at 31 December 2014, Amcom held \$21.7 million of cash and cash equivalents; and
- As at 31 December 2014, Amcom had total interest bearing debt totalling \$37.6 million. The table below summarises the terms and expiry dates of Amcom’s bank and other financing facilities.

Bank Facilities	Terms and expiry dates	Amount Drawn at Dec 14
Commercial Advance	Expiry date of 31 Dec 2017	\$24.0 million
Working Capital	Expiry date of 31 Dec 2015, subject to annual review	\$2.7 million
Cisco Vendor facility	Available to Dec 2015	\$10.9 million

Net working capital

- The net working capital balance for Amcom is broadly neutral throughout the year, with a decrease at the end of each financial year and calendar years as customers use up residual IT budgets. The table below summarises net working capital and net working capital as a percentage of revenue as at 30 June 2012, 2013 and 2014, as well as at December 2014.

Net Working Capital (AUD millions)	Jun-12	Jun-13	Jun-14	Dec-14
Net working capital	(5.8)	(2.0)	(7.2)	(3.6)
Revenue	135.4	157.5	170.1	80.6
Net working capital as a % of revenue	-4%	-1%	-4%	-4%

Source: Amcom Annual Reports and Appendix 4D

Property, plant and equipment

- Amcom’s property, plant and equipment balance as at 30 June 2014 was \$141.0 million and at 31 December 2014 was \$154.7 million. The balance of property, plant and equipment has grown since 30 June 2014 primarily as a result of the Amcom East Pty Ltd acquisition which added \$7.1 million of network assets currently under construction as well as a general increase in customer connections. The property plant and equipment is primarily network infrastructure which represents 95% of the balance. The majority of the network infrastructure (70%) relates to customer connections with the remainder associated with data centres, IT systems and other IT products.

Goodwill

- Amcom’s goodwill balance as at 30 June 2014 was \$48.6 million and was \$54.0 million at 31 December 2014 and has primarily arisen from Amcom’s acquisition in 2010 of IP Systems Pty Ltd, the L7 Solutions Pty Ltd acquisition in 2011 and the aCure Technology Pty Ltd acquisition in 2013;
- Amcom has allocated the goodwill balance to the business units as follows:

Goodwill by segment (AUD millions)	Jun-14	Dec-14
Telecommunications	11.3	16.7
Hosted & Cloud Services	36.2	36.2
IT Services	1.2	1.2
Total	48.6	54.1

Source: Amcom Annual Reports and Amcom management

- The major area of acquisitions has been focused on the Hosted and Cloud Services, driven by the acquisitions of aCure Technology Pty Ltd and L7 Solutions Pty Ltd. The recent increase in Goodwill is attributable to the Amcom East Pty Ltd acquisition in November 2014.

Other liabilities

- Deferred revenue relates to the fee charged for the establishment of fibre services that are only brought to account as revenue over a two year period. This is considered to be part of normal operations as revenue is recognised based on the period of contract and, where deferred to a subsequent period, recognised as deferred revenue.

Statement of cash flows

120. In relation to Amcom's historical cash flows shown above, we note that:

- We have included a discussion on the historical earnings of Amcom and working capital earlier in this section of this report;
- Payments for property, plant and equipment amounted to \$22.6 million in FY14, a 17% increase from FY13. The majority of this relates to Amcom's capitalisation of costs incurred to connect customers to its network infrastructure. The HY15 payment for property plant and equipment also increased when compared to the six months to December 2013 by 46% to \$13.5 million again relating to customer connections and network as well as the FirstPath Dark Fibre Agreement for \$1.8 million and Broadsoft (IP Tel) licences.
- Acquisition payments of \$8.3 million in the six months to 31 December 2014 were primarily driven by the Amcom East Pty Ltd acquisition. In FY14 the costs associated with acquisitions of \$15.3 million primarily a result of the acquisition of aCure Technology Pty Ltd and Global Networks AMC Data Centre Pty Ltd which amounted to \$13.9 million, while in FY12 related to the L7 Solutions Pty Ltd acquisition for \$12.9 million net of cash;
- Net cash provided by financing activities has increased to \$0.1 million in FY14 and \$2.0 million for the half year to December 2014. In FY14 there was a large cash outflow to repay borrowings which was offset by the equity raising undertaken during the year and in HY15 there were additional borrowings of \$27.0 million offset by the repayment of borrowings of \$17.4 million; and
- In December 2013, the Board introduced a Dividend Reinvestment Plan (DRP) as part of the company's ongoing capital management strategy. The DRP allows eligible shareholders to reinvest part or all of their dividends into new Amcom shares. We understand that this has been suspended due to the Scheme and does not apply in respect of the announced FY15 interim dividend of 5 cents per share.

4 Overview of Vocus

Profile of Vocus

131. Vocus is an integrated telecommunications company which provides services to cater for the connectivity and data centre hosting requirements of its customers. Vocus' services include dark fibre and Ethernet, data centres, high speed internet bandwidth and voice connectivity solutions.
132. Founded in 2008, the company is headquartered in North Sydney in New South Wales. Vocus was listed on the ASX in 2010 and was admitted into the S&P ASX200 Index in 2014.
133. Vocus owns, designs, builds and operates extensive fibre networks across Australia and New Zealand. In addition to its fibre network, Vocus owns submarine cable capacity which connects Australia to Singapore, New Zealand and the United States and owns nine data centres in Sydney, Melbourne, Newcastle, Perth, Auckland and Christchurch.
134. Vocus operates five business units, being Internet, Fibre and Ethernet, Data Centres, Voice and the recently established Project Services business unit.

Internet

135. Vocus is an aggregator and manager of internet capacity in Australia and New Zealand which provides wholesale bandwidth and wholesale DSL services to ISPs together with providing internet access to enterprise customers.
136. Vocus also provides IP transit primarily through owned and leased capacity subsea cables. Vocus owns capacity on two subsea cables, being:
 - Southern Cross Cable which connects Australia and New Zealand to the United States and which generates the majority of Vocus' Internet division revenue; and
 - Sea-Me-We-3 Cable which connects Australia to Singapore and onwards to Europe.

Fibre and Ethernet

137. Vocus entered the Australian domestic fibre market through its acquisition in May 2011 of Digital River Networks' fibre assets which included 59 kilometres of infrastructure connected to 50 "on-net" buildings. Vocus now operates approximately 690 kilometres of metro fibre in Australia which connects over 1,200 buildings in major cities and over 4,200 kilometres of intercity fibre in New Zealand.
138. Vocus' Fibre and Ethernet division predominantly provides two products being:
 - Dark Fibre which provides secure, fast speed point-to-point connectivity between offices or offices and data centres; and
 - Ethernet services.
139. The key drivers of Vocus' Fibre and Ethernet division revenue are network utilisation, size of the network and number of customers and buildings connected to the network.

Data Centres

140. Vocus owns and operates data centres or 'co-location facilities' in Sydney, Melbourne, Newcastle, Perth, Auckland and Christchurch. Vocus principally provides data centre related services to other telecommunications companies and medium-sized corporate clients. This business unit was enhanced by Vocus' recent acquisition of two additional data centres from Enterprise Data Corporation (EDC), announced 13 February 2015.

Voice

141. Vocus' voice network allows telephone calls from any telephony user worldwide to be connected to a user on Vocus' voice network. Vocus and the other Australian interconnect carriers connect these calls to each other as part of the Australian voice network.
142. Vocus has commenced a shift towards providing voice services to corporate clients which are being offered as part of a bundled service offering which provides Vocus with higher margins.

Project Services

143. Vocus' Project Services division owns machinery and has the resources to install fibre for third parties and for its own use. The division was established via Vocus' acquisition of the FX Network business which completed in September 2014 (now Vocus New Zealand). In February 2015 this business unit has been sold into an equal joint venture with Spark New Zealand Limited and is expected by Vocus to generate a normalised annual EBITDA of NZ\$2.3 million.

¹ based on the underlying NPAT set out in Appendix 4D which excludes the impact of the accounting gains on total return swaps and other gains and losses.

146. In relation to the financial performance of Vocus set out above, we note that:

- Revenue has grown significantly over the two financial years to FY14. This is due to strong growth in the internet, fibre and Ethernet revenue streams of Vocus, as well as continued underlying industry growth in the Australian and New Zealand markets;
- Revenue growth in FY14 has been supported by expanded data centre facilities, growth in the delivery of internet and fibre and Ethernet services to direct and wholesale customers and full year contribution from Ipera Communications against six months for the prior period;
- Half year December 2014 revenue has grown by 39% over half year December 2013. This is due to the increased delivery of core internet and fibre and Ethernet products over the Vocus network. It also due, in part, to the recently acquired assets which contributed revenues of \$12.8 million during the half year;

- Other gains and losses comprises net foreign currency losses but also includes the net gain of \$0.4 million on disposal of Datalock Limited in FY13 and net gain on Southern Cross refinance transaction of \$0.6 million in FY14. In HY15 other gains and losses include a gain of \$5.5 million made on repayment of Vocus' Indefeasible Right to Use (IRU) obligation, offset by acquisition related costs of \$4.5 million and other losses amounting to \$1.8 million;
- The gain on total return swaps in HY15 relates to Vocus' equity settled total return swaps in relation to the 10% shareholding in Amcom. The gain on this transaction of \$26.9 million relates to the accounting mark to market gain resulting from the increase in Amcom's share price;
- EBITDA margin improved from 27% in FY13 to 34% in FY14 and HY15 as a result of the strong revenue growth exceeding growth in operating expenses due to Vocus' ability to secure more customers on their own fibre network ("on-net") as opposed to leased network fibre and increasing operational leverage and asset utilisation; and
- Whilst Vocus has substantially grown inorganically, the earnings per share have been variable over the last three years. We have assumed that this variability has been accounted for by the market in Vocus' share price.

Business unit analysis

147. The table below summarises the total operating revenue split by Vocus' business units:

Internet

148. The Internet business is the largest operating unit for Vocus, generating \$37.6 million or 41% of total FY14 operating revenue. We have shown below the historical annual operating revenue generated by Vocus' Internet business unit:

Figure 10: Internet revenue

Source: Vocus Annual Reports and Appendix 4D

149. In relation to the chart set above, we note that Vocus has grown revenue year on year as a result of volume growth, increasing from \$20.5 million of operating revenue in FY12 to \$37.6 million in FY14. Although IP transit prices have declined, this has been offset by the higher volumes.

Fibre and Ethernet

150. The Fibre and Ethernet business has increased over the last three years largely through acquisitions to become Vocus’ second largest division in FY14, representing 31% of total operating revenue. Operating revenue has increased from \$5.4 million in FY12 to \$28.2 million in FY14.
151. Its fibre network increased by approximately 200km during FY14 and its network density (buildings connected per km of fibre) remained constant, contributing to increased sales.
152. The table below shows Vocus’ domestic metro network summary and the increase in utilisation from June 2012 to December 2014:

Network Summary (Australian Metro)	Jun-12	Jun-13	Jun-14	Dec-14
Fibre length (km)	173	363	575	687
Network density (buildings per km)	0.8	1.8	1.8	1.8

Utilisation	<5%	8.7%	13.5% ¹	14.5%

Source: Vocus information

¹ Utilisation as at August 2014

153. In July 2014, Vocus acquired 100% of FX Networks a New Zealand fibre provider for an enterprise value of NZD\$115.8 million (approximately AUD\$109.3 million), funded by a mixture of debt and existing cash. Vocus anticipates FX Networks to contribute NZD \$13.5 to \$14.5 million of EBITDA to Vocus’ fibre and Ethernet business unit in the first twelve months post acquisition (excluding transaction and integration expenses).

Data Centres

154. Revenue from the Data Centre business unit represents 20% of Vocus' FY14 operating revenue.
155. The significant growth in revenue from this business unit has been from the acquisition and launch of a number of data centres in FY12 and FY13 and it can be seen from the business unit analysis presented above that revenue is still growing albeit at a slower rate, with Vocus achieving 19% growth in revenue in FY14.
156. The key driver of growth of Vocus' data centres are corporates moving their IT infrastructure off-site to a data centre and cloud based services. Fees are charged either "per rack" of equipment (including power) or by "caged floor area" for large customers (power billed separately).
157. In August 2014, Vocus expanded its data centre presence in Western Australia by acquiring Bentley Data Centre for a purchase price of \$11.7 million. Bentley Data Centre is forecasted by Vocus to contribute \$2.0 million to Vocus' data centre business unit.
158. In February 2015, Vocus acquired the data centres and business continuity operations of EDC for a purchase price of \$23.5 million which will be funded by existing cash resources. The acquisition is forecast to generate annualised EBITDA of approximately \$4.7 million for Vocus' data centre business unit.

Voice

159. In FY14, Vocus' Voice business unit generated 8% of Vocus' operating revenue.
160. From the business unit analysis presented above it can be seen that there has been a slight decline in revenue over the last three years. However in FY15, Vocus anticipates that volumes and revenues from this business unit will grow marginally.

Statement of financial position

161. The summary statement of Vocus' financial position as at 30 June 2014 and as at 31 December 2014 is set out in the following table:

162. A discussion of key balances is set out below:

Net Debt

- Cash balances have increased from \$14.2 million as at 30 June 2013 to \$44.6 million as at 30 June 2014. This was due to increases in cash flows from operating activities and surplus cash from Vocus' capital raising in March 2014;
- Total cash on hand at 31 December 2014 was \$39.1 million and consists of \$2.8 million of cash at bank and \$36.3 million in cash held on deposit; and
- Vocus' total borrowings amounted to \$115.3 million as at 31 December 2014 and comprise of current interest bearing debt of \$10.1 million and non-current interest bearing debt of \$105.2 million.

Net working capital

- The net working capital balance comprises of trade and other receivables net of trade and other payables. Vocus had a negative working capital balance of \$12.4 million as at 31 December 2014.

Other Assets

- Other assets predominantly relates to the equity-settled total return swap contracts that Vocus entered into with the Commonwealth Bank of Australia in relation to its 10% interest in Amcom. The balance relating to this financial asset is based on the mark to market valuation of Amcom shares as at 31 December 2014 (being \$26.9 million) less the amount of gain already received (of \$10.6 million). This balance also includes prepayments of \$3.9 million.

Property, plant and equipment

- Property, plant and equipment balance as at 30 June 2014 was \$63.4 million. This balance is primarily made up of fibre assets representing 54% of the balance at that date. The remaining balance was made up of data centres (\$19.8 million), network equipment (\$6.5 million) and other plant and equipment (\$2.6 million). Property, plant and equipment as at 31 December 2014 increased to \$193.1 million. The significant increase was a result of the two acquisitions during the period of FX Networks and the Bentley Data Centre which contributed \$100.4 million and \$11.4 million respectively in assets acquired (majority fibre assets). The fibre assets represent 66% of the property, plant and equipment balance as at 31 December 2014.

Intangibles

- Vocus' intangibles balance as at 31 December 2014 was \$114.0 million. The table below sets out the breakdown of the intangible assets:

Intangibles (AUD millions)	Jun 14	Dec 14
Goodwill	17.0	47.7
IRU capacity	62.5	60.2
Software	2.7	2.9
Customer contracts	1.3	2.0
Other intangibles	1.4	1.2
Total	84.9	114.0

Source: Vocus Annual Reports and Appendix 4D

- The IRU capacity is a result of Vocus entering in capacity use agreements in relation to its subsea cable assets which are for a defined usage period in return for a negotiated amount paid over the defined payment term. This intangible asset is then amortised over the usage period. The goodwill balance at 30 June 2014 primarily a result of the Perth International Exchange Pty Ltd, Digital River Networks Pty Ltd and Ipera Communications Pty Ltd acquisitions. This balance has increased significantly due to the FX Networks Limited acquisition in September 2014 for total consideration of \$56.9 million. This contributed \$28.6 million to Vocus' goodwill balance.

Statement of cash flows

163. The summary cash flow statements for Vocus for the three financial years ended 30 June 2014 (audited) and for the six months to 31 December 2014 (reviewed) is summarised in the table below:

164. In relation to Vocus' historical cash flows shown above, we note that:

- We have included a discussion on the historical earnings of Vocus earlier in this section of this report;
- In the period to 31 December 2014, net cash flows from operating activities increased by 40% when compared to the 6 months to December 2013, from \$13.0 million to \$21.7 million. Again, a significant portion of this was reinvested into Vocus' network infrastructure to support growth;
- Vocus has consistently made investments in property, plant and equipment. It invested \$11.8 million in FY12, \$16.7 million in FY13 and \$18.3 million in FY14 primarily related to network equipment driven by customer demand. In the six months to December 2014, Vocus made even larger investments due the acquisitions of FX Networks and the Bentley Data Centre which together accounted for \$82.2 million; this was partially offset by net proceeds from the Amcom total return swaps of \$10.6 million;
- There was also a \$31.5 million net cash inflow from financing activities in FY14, primarily driven by an equity placement of \$48.7 million in March 2014 which strengthened Vocus' balance sheet and \$4.0 million in shares issued as consideration for Ipera Communications. In addition, Vocus repaid debt of \$18.2 million (\$6.7 million in FY13). The net cash inflow from financing activities in the period to 31 December 2014 was primarily due to the drawdown on banking facilities to finance acquisitions and the repayment of USD denominated IRU borrowings as well as the issuance of shares as consideration for the FX Networks transaction; and
- Vocus has declared an interim dividend of 1.2 cents for the year ending 30 June 2015 payable on 18 March 2015. In addition a special dividend was also declared of 5.1 cents payable on 13 May 2015, which is conditional on the approval of the Scheme.

5 Valuation of Amcom shares

Valuation summary

174. The value of Amcom has been assessed on the basis of fair market value as described in Section 1 of this report.
175. We have assessed the value of Amcom's ordinary shares on a controlling interest basis to be in the range of \$1.99 to \$2.41 with a preferred (midpoint) value of \$2.20 per share.

Our approach

176. There are a number of commonly adopted methodologies that could be used to assess the value of the underlying business (or enterprise value) of Amcom. Widely accepted methodologies include:
- **Discounted cash flow** – This method indicates the value of a business based on the present value of the cash flows that the business can be expected to generate in the future. Such cash flows are discounted at a discount rate (the cost of capital) that reflects the time value of money and the risks associated with the cash flows;
 - **Capitalisation of future maintainable earnings** – This method involves multiplying an estimation of a level of sustainable earnings (or profits) of a business by a multiple that is reflective of the underlying risks and growth prospects of the business. The estimation of future maintainable earnings is considered a surrogate for the future cash flows of the business and the process of multiplication is referred as the 'capitalisation' of earnings;
 - **Net realisable value of assets** – This approach indicates the market value of the equity of an entity by adjusting the asset and liability balances on the subject company's balance sheet to their market value equivalents. The net assets approach has a number of variants. Typically the approach can be applied using a going concern premise which uses the concept of replacement cost as an indicator of value; and
 - **Market based assessments** – Market based assessments relate to the valuation of a business, shares or assets using observed prices at which comparable businesses, shares or assets have been exchanged in arm's length transactions. This is often the most reliable evidence of market value but in the case of valuation of companies it can be difficult to find directly comparable transactions. For companies whose shares are publicly traded, the relevant share price is considered indicative of the market value of the shares, if there is sufficient liquidity. However, such market prices usually reflect the prices paid for small parcels of shares and as such do not include a premium for control.
177. Each methodology is appropriate in certain circumstances and the decision as to which methodology to apply generally depends on the nature of the business being valued, the maturity of the business, commonly adopted approaches used to value similar businesses and the availability of information.
178. We have selected the capitalisation of future maintainable earnings (CFME) methodology as our primary valuation methodology to assess the underlying value of the equity in Amcom, on a controlling interest basis. In choosing to adopt a CFME approach we have considered a number of factors including:
- The nature of Amcom's operations and the relative maturity of the telecommunications industry;
 - Amcom's earnings profile; and
 - The limited availability and subjectivity in forecast cash flows beyond FY15 and FY16.
179. As the shares in Amcom are listed, we have considered the prices at which Amcom shares have traded on ASX as a cross check to our primary valuation approach.

Valuation assessment

180. The CFME methodology requires consideration of the following factors:

- Assessment of the enterprise value of Amcom which includes:
 - Estimation of normalised earnings having regard to historical and projected earnings, consideration of any abnormal or non-recurring items and other factors including industry risks, specific growth prospects and the general economic outlook; and
 - Determination of an appropriate earnings multiple that reflects the risks inherent in the business.
- Adjustment for the net interest bearing debt in the business and any other assets or liabilities considered surplus; and
- An adjustment to allow for a premium for control.

Assessment of future maintainable earnings

181. The underlying principle of an earnings-based valuation approach is that the value of the business is based on its future maintainable earnings (FME). The estimated FME should reflect an ‘average’ of the current expected earnings with variability around this average and growth factored into the adopted capitalisation multiple.
182. In applying the CFME approach it is common to use earnings before interest depreciation and amortisation (EBITDA) or EBIT as the appropriate level of earnings to capitalise. We have chosen EBITDA as the appropriate measure of earnings as this:
- Eliminates distortions that the differences in depreciation and amortisation policies may cause;
 - Eliminates the effects of gearing and provides a value which is independent of the current funding structure of the company; and
 - Removes the effect of different taxation regimes and taxation benefits that may be available to the company.
183. In determining an appropriate level of FME, we have had regard to the reported historical level of earnings of Amcom and the level of future earnings as contained in Amcom’s most recent FY15 forecast and as anticipated by market commentators in recent broker reports. We have shown this analysis in the table below.

AUD m	Audited FY12	Audited FY13	Audited FY14	Consensus Forecasts FY15

184. We have also considered a number of other factors in our assessment of an appropriate level of FME, including:
- Reported earnings have been adjusted to remove the impacts of one-off and abnormal expenses including costs relating to the aCure Technologies data centres acquisition completed in August 2013, its East Coast expansion strategy and the current transaction with Vocus;
 - The Directors of Amcom have advised that the earnings of Amcom from normal operations for the six months to 31 December 2014 are materially consistent with consensus broker forecasts of FY15 earnings;
 - A range of broker forecasts reviewed contained stand-alone estimated FY15 EBITDA of between \$48.6 million and \$50.3 million, with the average being \$49.6 million (sample included five broker forecasts that were current at 24 February 2015);
 - The revenue and earnings impact resulting from Amcom’s East Coast expansion plans are not expected to be material in FY15; and
 - Amcom has experienced compound annual growth in normalised earnings of 17% from FY12 to FY14 and management expect the annual rate of growth to marginally decline through FY15 and FY16.
185. After consideration of all of the above factors and our analysis, we consider an appropriate estimation of future maintainable EBITDA to be \$49.5 million.

Determination of an appropriate earnings multiple

186. The next step in determining the equity value of Amcom under the CFME approach is to determine an appropriate multiple to capitalise our assessed level of FME.
187. In our assessment of an appropriate earnings multiple we have had regard to the trading multiples of listed companies within the telecommunications industry and the multiples implied by comparable transactions within the industry.

Comparable company analysis

188. We have reviewed Australian listed companies within the broader telecommunications industry and used professional judgment to derive a range of companies that we consider to have comparable (but not identical) operations to that of Amcom. We have then calculated relevant trading multiples to assess an appropriate earnings based multiple to apply to our assessed level of FME for Amcom.

¹ Weighted by reference to Amcom's BU contribution to HY15 earnings

² Vocus multiples calculated as at 24 October 2014. LTM adopts net debt position at 30 June 2014 and the FY15 multiple has been adjusted to reflect the FX Networks and Bentley data centre acquisitions

189. In our consideration of an appropriate earnings multiple derived from comparable company observations we have:

- Considered the predominant nature of each entity's core operations and stratified the comparable companies into three groups, being Telecommunications, Data Centres and related services, and ICT services;
- Further stratified the assessed group of comparable companies by reference to their relative market capitalisations;
- Removed the impact of observations relating to the major telecommunications companies, such as Telstra and Optus as the scale of these businesses are considered to make them less comparable;
- Analysed the historical growth achieved in underlying earnings through to 31 December 2014;

- Considered and discussed with the management of Amcom the future growth prospects of Amcom, in particular those relating to its East Coast expansion plans and ACC;
 - Considered and discussed with the management of Amcom the impact of potential risks to future earnings including:
 - The risk of not being able to capitalise on ACC sales as anticipated;
 - Reputation risks of not being able to deliver secure or reliable services;
 - Potential negative impact from the introduction of superior technology;
 - Impact of potential increased competition (particularly post NBN roll-out); and
 - The potential impact of customer churn on future earnings, in particular the potential impact on future earnings from the loss of Amcom’s customers exposed to falling commodity prices.
 - Considered the relative growth and risk profiles of the remaining companies included in our sample; and
 - Considered the analysis by weighting the average observations for each service category by the relative weighting of each service line’s contribution to Amcom’s forecast FY15 earnings.
190. Based on the above analysis, we have assessed an appropriate range of multiples to be between 9.5 and 10.5 times forward EBITDA. Applying this to our assessed level of FME derives an enterprise or business value of between \$470.3 million and \$519.8 million, on a non-controlling minority interest basis.
191. We note that the observed trading multiples are based on the market price for minority or portfolio shareholdings and do not include a premium for full control. We have considered the application of a control premium later in this Section of our report. A summary of our comparable company analysis is contained in Appendix C.

Comparable transaction analysis

192. In addition to the above comparable company analysis, we also reviewed recent publicly available transaction data since 2012 for the Telecommunications and IT industries to derive implied comparable transaction multiples. The observed transaction multiples have been derived based on the reported historical earnings prior to the transaction.

193. Our analysis indicates a wide range of implied transaction multiples of between approximately 5 and 14 times EBITDA with an average of approximately 9 times EBITDA.
194. This wide range, in part, will be caused by the fact that a number of the transactions identified may implicitly include a premium for control which would have depended on the specific rationale for each deal, such as the ability to combine assets/operations or the facilitation of increased market optimisation. The extent to which this strategic value (and associated control premium) is reflected in the transaction terms may depend on the level of perceived synergies created as well as the alternatives available to the acquirer and target.
195. Considering our comments above, we do not consider the range of transaction based earnings multiples observed to be inconsistent with the range of multiples adopted based on comparable company analysis.

196. In considering the above analysis we have had regard to the circumstances of each transaction. A brief synopsis of each company acquired is contained in Appendix D.

Adjustment for net debt and assessment of surplus assets

197. To assess the equity value of Amcom it is necessary to adjust our assessed enterprise value by the level of interest-bearing debt and the value of assets and liabilities which are held by Amcom at the valuation date which are considered to be surplus (and for which value is not captured in the assessment of enterprise value).

Cash and interest-bearing debt

198. To derive the value of the equity in Amcom we have then adjusted the assessed enterprise value for the level of cash held by Amcom at 31 December 2014 which is considered to be surplus to normal business requirements less the level of interest bearing debt drawn down at that date.
199. The level of cash on hand at 31 December 2014 is \$21.7 million. Amcom believes that approximately \$4 million is considered to be a sufficient level of cash on hand to allow for operating timing differences and the residual cash on hand is considered to be 'surplus' (available for future investment).
200. We have adjusted this surplus cash balance for transaction costs of approximately \$4.3 million which are expected to be incurred in relation to the Scheme regardless of the outcome and for \$6.6 million to be incurred by March 2015 in respect of construction commitments and \$1.0 million in respect of deferred consideration relating to the Amcom East Pty Ltd acquisition.
201. A further adjustment has been made in respect of the interim dividend of 5 cents per share as this dividend will have been paid to Amcom shareholders before completion of the Scheme, consistent with how we have assessed the Scheme Consideration.
202. The level of interest-bearing debt at 31 December 2014 was \$37.6 million. This results in a net debt position being \$45.1 million for the purposes of our assessment.

Other sundry assets and liabilities

203. Based on our review of financial information provided and discussions with Amcom, there are no significant assets or liabilities (including potential off-balance sheet or contingent items) which require separate valuation adjustment.

Control premium

204. We have applied an equity control premium to our assessed minority interest value of the equity in Amcom, as purchasers are normally willing to pay a premium in order to obtain control of a company.
205. A premium for control is applicable when the acquisition for control of a company would give rise to benefits such as:
- Control of the Board of Directors of the company;
 - Control of all the decision making and strategy;
 - Access to cash flows; and
 - Access to tax benefits.
206. Publicly available research indicates that the average equity control premium in Australia for full control has been in the order of 15% to 35%, however this varies widely depending on the circumstances and may, in some circumstances, include an element reflecting a strategic premium paid by purchasers.
207. We have assessed an appropriate premium for control to apply to the minority equity value of Amcom to lie in the range of between 25% and 35% due to there being multiple potential acquirers that would be able to realise significant synergies through an acquisition of Amcom.

Valuation of Amcom

208. Based on the above analysis, we have assessed the value of Amcom's ordinary shares on a controlling interest basis to be in the range of \$1.99 to \$2.41 with a preferred (midpoint) value of \$2.20. Our assessment is based on the controlling interest equity value for Amcom ranging from \$531.4 million to \$640.8 million with a preferred (midpoint) value of \$584.8 million.
209. A summary of the valuation assessment as at the date of this report based on low, high and preferred (midpoint) values is set out below.

210. No adjustment has been made in respect of potential dilution from the possible vesting of Amcom performance rights currently on issue as these rights are predominantly subject to relative total shareholder return (TSR) or absolute share price vesting hurdles which may, or may not, be satisfied. We note that 0.3 million rights (in respect of Tranche D) are only subject to a time based vesting hurdle and will vest on 30 June 2015 however the dilution impact of this is less than 1 cent per share.
211. In addition, if it is assumed that all of the 1 million rights issued as part of Tranche D will satisfy the relative TSR hurdle and vest, our assessed values will only reduce by approximately 1 cent per share.
212. Under an assumption that all performance rights currently outstanding will vest, our assessed value would reduce by approximately 3 cents per share.

Valuation cross-check

213. As noted earlier, as the shares in Amcom are listed, we have considered the prices at which Amcom shares have traded on ASX as a cross check on our primary valuation approach.
214. The 30 day VWAP of an Amcom share prior to the announcement of the Scheme on 17 December 2014 was \$2.36. However, we do not believe it is appropriate to compare this observation to our assessed fair value range as this observation will have been impacted by takeover speculation following Vocus' acquisition of a 10% stake in Amcom together with its announcement to the ASX on 27 October 2014 of its intention to make a "confidential, conditional, incomplete and non-binding proposal to merge with Amcom". We note that the 30 day VWAP of an Amcom share prior to this announcement was \$1.94 and that shares in Amcom traded in a range between \$1.86 and \$2.03 per share over this period.
215. Amcom's ASX announcement on 3 November 2014 pertaining to the next phase of its East Coast expansion strategy also needs to be considered. Amcom's closing share price on 31 October 2014 (being the last trading day immediately prior to the announcement) was \$2.23 per share and the share price increased on 3 November 2014 and closed at \$2.32 on that day, potentially indicating that the market's perception of the underlying equity value had increased by approximately 9 cents per share.

216. Further analysis of movements in Amcom's share price reveals that it increased again over the following three days and closed on 6 November 2014 at \$2.51 but that it subsequently declined to close at \$2.39 on 7 November 2014. The VWAP from 7 November 2014 to 16 December 2014 was \$2.35.
217. It is therefore considered difficult to accurately quantify the potential direct impact that the East Coast expansion announcement by Amcom on 3 November 2014 had on the share price (and the market's perception of the underlying equity value) of Amcom relative to other movements potentially caused by:
 - Continued speculation regarding the transaction with Vocus;
 - Further speculation caused by the acquisition of large parcels of Amcom shares by Value Added Network Pty Ltd, TPG Telecom Limited and an unnamed entity on 5 November and 6 November 2014; or
 - The movement due to general market conditions.
218. The above analysis indicates that the prices at which Amcom shares were trading prior to Vocus' acquisition of a 10% stake in Amcom and its announcement to the ASX on 27 October 2014 of its intention to make a "confidential, conditional, incomplete and non-binding proposal" to merge with Amcom do not appear inconsistent with our preferred (midpoint) valuation assessment of \$2.20 per share (which includes a premium for control but is on an ex-interim dividend basis).
219. We note that Amcom's share price increased significantly after the Scheme was announced and has traded in the range of \$2.63 to \$2.99 (based on closing prices to 24 February 2015 and is cum interim dividend). This movement reflects the terms of the Scheme and movements in the Vocus' share price.

6 *Evaluation of Scheme Consideration*

Assessment of the Scheme Consideration

220. Under the terms of the Scheme, the Scheme Shareholders are offered 0.4614 Vocus shares for every share held in Amcom. To assess the scrip offer under the Scheme, it is necessary to consider the value of a Vocus share post-transaction on a non-controlling minority interest basis.
221. The Vocus shares to be issued to eligible Amcom shareholders as consideration under the Scheme reflect shares in the combined business. The value of a Vocus share post-transaction will reflect the value of the standalone Vocus business, the value of the standalone Amcom business and the value of synergies created as a result of the transaction.
222. In carrying out our assessment of the Scheme Consideration, we have therefore carried out an analysis of Vocus shares since the announcement to the ASX on 27 October 2014 of Vocus' intention to make a "confidential, conditional, incomplete and non-binding proposal" to merge with Amcom and since the announcement of the Scheme on 17 December 2014 to understand the market's perception of value of the merged entity.
223. In a scrip offer, it is considered reasonable to value the shares being offered by reference to market prices. Although share prices reflect minority trades in the underlying company, these prices are effectively the cash equivalent of the Vocus offer to an eligible Amcom shareholder. The Vocus share price is the amount that a Scheme Shareholder could realise in the immediate or foreseeable future through the subsequent sale of the Vocus shares issued as Scheme Consideration.
224. It is expected that in the long run Vocus' share price will fluctuate in response to general market movements, changes in the telecommunications industry and future events specific to Vocus and/or the Merged Group. A fully informed market makes an assessment on value incorporating all available information on a company's prospects, future earnings and risks. Assuming no abnormal circumstances, the share market typically provides an objective measure of the fair market value of shares in a listed company. This assumption is supported by the following considerations:
- The ASX Listing Rules impose continuous disclosure obligations on listed companies with the objective of keeping markets fully informed;
 - Vocus shares are actively traded, with monthly volumes during the 12 months to 31 December 2014 averaging approximately 4.4 million shares or 7.3% of the total issued capital;
 - Vocus is represented in the S&P ASX200 Index; and
 - There are a number of Australian telecommunications companies against which Vocus' performance may be benchmarked.
225. Based on publicly available information, there is no reason to believe that there is a material mispricing of Vocus shares by the market. We therefore believe it is reasonable to assume that the market share price represents an unbiased estimate of value and is the best guide to valuing Vocus shares for the purpose of assessing the Scheme Consideration.
226. As a cross check to our market based assessment, we have also considered the underlying value of the post-transaction Vocus business, inclusive of potential synergies, based on publicly available information.

Analysis of Vocus share price

227. The share price performance and traded volume of Vocus shares from 1 September 2014 to 24 February 2015 are shown in the graph below.

Figure 13: Vocus share price and trading volume
1 Sept 2014 – 24 Feb 2015

Source: Capital IQ and PwC Securities analysis

228. Vocus’ share price increased immediately following the announcement on 27 October 2014 from \$5.44 to \$5.90 per share on 28 October 2014 and increased further following the announcement of the Scheme on 17 December 2014 from \$5.71 to \$6.35 per share on 23 December 2014. We note that Vocus’ share price has remained in a range (based on closing share prices) of between \$5.87 and \$6.48 per share to the date of this report.

229. The table below shows the 30 day and 90 day VWAP of a Vocus share prior to the announcement made on 27 October 2014 together with the VWAP from 18 December 2014 to 24 February 2015.

	Pre 27 October 2014			Post 17 December 2014	
	Close	VWAP		Range	VWAP
		30 day	90 day		
Vocus	\$5.31	\$5.40	\$5.28	\$5.87 - \$6.48	\$6.07

Source: Capital IQ and PwC Securities analysis

230. The above analysis shows that the VWAP of a Vocus share since the Scheme’s announcement to 24 February 2015 to be \$6.07. We also note that the 5 day VWAP of a Vocus share to 24 February 2015 is \$5.80 (reflecting intra-day trades at prices below the reported closing share prices). Both of these measures of share value are significantly above the 30 and 90 day VWAPs of Vocus prior to the announcement to the ASX on 27 October 2014 of \$5.40 and \$5.28 respectively. In our view this uplift in share price reflects the market’s outlook for the combined entity and the market’s perception of the additional value able to be realised from cost, capital expenditure and revenue synergies resulting from the transaction.

231. Having regard to the factors outlined above, we consider that it is reasonable to adopt a value per Vocus share of between \$5.80 (being the 5 day VWAP to 24 February 2015) and \$6.07 (being the VWAP since 17 December 2014) on a non-controlling minority interest basis to evaluate the Scheme Consideration. We have then adjusted this range by 6.3 cents to allow for the interim dividend of 1.2 cents per share and special dividend of 5.1 cents per share which is to be paid only to pre-transaction Vocus shareholders to derive an assumed value per Vocus share of between \$5.74 and \$6.01.
232. This equates to an implied Scheme Consideration price of between \$2.65 and \$2.77 with a preferred (midpoint) value of \$2.71 per Scheme Share based on the Scheme Consideration ratio of 0.4614 Vocus shares for every 1 Amcom share.

Valuation cross-check

233. As a cross check to our market based assessment, we have also considered the underlying value of the aggregated Vocus business, including potential synergies resulting from the transaction.

Indicative value of the equity in Vocus

234. As a cross-check to our market-based evaluation of the Scheme Consideration, we have assessed the underlying enterprise and equity value of Vocus using the CFME methodology, being a consistent basis to our assessment of the value of Amcom in Section 5 of this report.
235. In determining an appropriate level of FME we have had regard to the reported historical level of earnings of Vocus and the level of future earnings as forecast by market commentators in recent broker reports. After consideration of these factors, we consider an appropriate estimation of FME for Vocus based on the average of broker FY15 forecasts reviewed to be approximately \$52.1 million. We have then adjusted this estimate to reflect a normalised full year contribution from Vocus' recent acquisition of EDC which is estimated to contribute an annualised EBITDA of \$4.7 million and Vocus' announced joint venture with Spark New Zealand which is expected to contribute normalised EBITDA of approximately NZ\$2.3 million (to the extent not included in the broker estimates) to derive an assumed FME for Vocus of \$57.0 million.
236. We have aggregated this with our assessed level of FME in respect of Amcom of \$49.5 million together with the range of anticipated future cost related synergies announced to the market of between \$13 million and \$15 million per annum (pre-tax).
237. In the announcements made to the ASX on 17 December 2014 concerning the Scheme, both Amcom and Vocus made reference to the transaction giving rise to significant cost and revenue synergies. However, only annualised anticipated future cost synergies on a pre-tax basis of between \$13 million and \$15 million were quantified which related to synergies driven by complementary infrastructure and operations, including:
- The rationalisation of duplicated and optimisation of network infrastructure;
 - The removal of duplicated corporate overheads;
 - Aggregation and economies of scale leading to reduced supplier costs; and
 - The removal of duplicated corporate overheads.
238. Applying a midpoint of \$14 million in respect of anticipated future cost synergies derives an implied FME for the Merged Group of \$120.5 million.
239. We have then applied a range of earnings multiples of between 11.5 and 12.5 times EBITDA to our assessed FME for the combined business. This range is based on professional judgment, having regard to the range of multiples observed in our analysis as set out earlier in this report.
240. We consider an earnings multiple in the range of between 11.5 and 12.5 times EBITDA to be appropriate to apply to the assessed FME of the combined business and note that this multiple is higher than that assessed for Amcom on a stand-alone basis to allow for the increased size of Vocus post-transaction and the additional value expected to result from anticipated capital expenditure and revenue synergies.

241. The combination of Amcom and Vocus is considered highly complementary and is anticipated to generate significant capital expenditure and revenue synergies from:
- Expanded national fibre network and an expanded geographical footprint of data centres with Amcom primarily exposed to Perth, Adelaide and Darwin and Vocus exposed to the larger East Coast markets;
 - Customer groups are materially different with Amcom more exposed to Government entities, large higher education and research institutions and corporates (whilst Vocus is more focused on wholesale clients);
 - An expanded service offering (such as Vocus providing internet capacity to Amcom and Vocus able to sell Ethernet first mile and telephony services such as Amcom’s IP Tel and ACC);
 - An improved competitive position due to a lower cost base and improved economies of scale;
 - An enlarged (national/international) sales force; and
 - Not having to incur future capital expenditure as the merged network infrastructure mitigates the need to individually establish new networks.
242. We have then derive an implied value for the equity in Vocus post-transaction by adjusting the indicative enterprise value by an assumed level of net debt and surplus assets and liabilities.
243. Net debt has been calculated by aggregating the level of net debt assumed in our assessment of the value of Amcom with the level of cash less interest bearing debt held by Vocus at 31 December 2014 (adjusted for the purchase consideration in respect of the EDC acquisition of \$23.5 million). Net debt has also been adjusted for interim and special dividends to be paid to Vocus shareholders prior to the Scheme taking effect and an additional level transaction costs to be incurred by Vocus and Amcom, estimated at an additional \$20.0 million. A further adjustment of \$4.0 million has been made to reflect the level of cash on hand to allow for normal operating timing differences.
244. We have also made an adjustment to reflect the settlement of the equity total return swaps (relating to Vocus’ 10% interest in Amcom) of \$50.6 million plus the mark-to-market gain on shares received as at 31 December 2014 of \$10.6 million. No adjustment has been made in respect of possible taxation implications of the aforementioned swap agreement as we understand that no gain will have been realised.
245. Based on our review of publicly available financial information relating to Vocus there may be assets or liabilities on the balance sheet of Vocus as at 31 December 2014 which may require separate valuation adjustment if additional details were known. However, in the absence of such information being provided, we do not believe such adjustments would have a material impact to our indicative cross-check.

Summary of the indicative value of the equity in Vocus post-transaction

246. Based on the above, we have assessed the indicative value of the equity in Vocus as set out below.

1 Assessed FME for Vocus based on consensus of broker FY15 forecasts adjusted for annualised contribution from Vocus acquisition of EDC and its joint venture with Spark New Zealand.

2 Based on the number of Scheme Shareholder shares and the number of shares to be issued in respect of the Vesting Amcom Performance Rights multiplied by the Scheme Consideration ratio of 0.4614. No further adjustment has been made in respect of the potential dilution of the 0.3 million outstanding options over Vocus shares or for the 0.8 million Amcom performance rights to be converted to Vocus rights if the Scheme is approved as this is considered immaterial. We note that if such adjustments were made, our preferred value per Vocus share would reduce by approximately 1 cent and correspondingly our evaluation of the Scheme Consideration would decrease by 0.4614 multiplied by this difference.

247. As shown in the summary above, for the purpose of our cross-check of our assessed value of the Scheme Consideration, we have assessed the indicative value of Vocus' ordinary shares (post-transaction) on a minority interest basis to be in the range of \$5.23 to \$5.89 with a midpoint value of \$5.56. This assessment is considered to be broadly consistent with our assessed value per share for Vocus of between \$5.74 and \$6.01 adopted to evaluate the Scheme Consideration based on the observed prices at which Vocus' shares have traded since the announcement of the Scheme.
248. We note that the implied low end value of a Scheme Share of \$2.41 derived from our cross-check analysis would still support our opinion of the Scheme being in the best interests of the Scheme Shareholders, being above the midpoint of our assessed value of an Amcom share on a controlling basis of \$2.20.

7 *Our assessment of the Scheme and conclusion*

Assessment of fair

249. We have assessed the fair market value of an Amcom share to be in a range of \$1.99 to \$2.41 with a preferred (midpoint) value of \$2.20 on a controlling interest basis.
250. We have assessed the value of a Vocus share to be between \$5.74 and \$6.01 on a non-controlling or minority interest basis which implies the value of the Scheme Consideration of between \$2.65 and \$2.77 with a preferred (midpoint) value of \$2.71 per Scheme Share based on a Scheme Consideration ratio of 0.4614 Vocus shares for every Scheme Share.
251. On the basis that the consideration under the Scheme exceeds our assessment of the fair market value of an Amcom share, we conclude that the Scheme is fair.

Assessment of reasonableness

252. We also conclude that the Scheme is reasonable on the basis that it is fair.
253. We also note the implications of a number of qualitative issues which are generally considered in assessing reasonableness. These issues broadly comprise:
 - Whether the consideration offered under the Scheme includes a premium for acquiring a 100% controlling interest in Amcom;
 - The likely consequences for Scheme Shareholders if the Scheme is accepted;
 - The likely consequences for Scheme Shareholders if the Scheme is not accepted; and
 - The likelihood of another offer emerging for the shares in Amcom that is better than the current Scheme from the perspective of the Scheme Shareholders.

The offer is at a premium to Amcom ordinary share prices before the announcement of the proposed Scheme

254. The 30 day and 90 day VWAP of an Amcom share prior to the announcement to the ASX on 27 October 2014 of Vocus' acquisition of a 10% interest in Amcom and its intention to make a "confidential, conditional, incomplete and non-binding proposal" to merge with Amcom was \$1.94 and \$1.95 respectively.
255. As we have assessed the value of the Scheme Consideration to be in the range of \$2.65 to \$2.77 per Scheme Share this implies that a premium for control of approximately 36% to 43% has been included in Vocus' offer when compared to the historical 30 and 90 day VWAP of Amcom prior to Vocus' initial investment in Amcom.

Continued exposure to the risks and rewards of Amcom's business

256. If the Scheme is approved, as the Scheme Consideration is in the form of scrip in the new combined Vocus and Amcom entity, Scheme Shareholders will continue to share in any benefits and risks associated with being an investor in Amcom.
257. In addition, we note that the combined Vocus and Amcom entity will have a more diversified service offering and a wider customer base, potentially reducing risk for shareholders.

Access to revenue and cost synergies

258. There are likely to be significant synergies available from combining the Amcom and Vocus businesses in which Scheme Shareholders will participate through the consideration they will receive, being shares in the Merged Group.
259. The Directors of both Amcom and Vocus have stated that they believe the Merged Group will be able to realise future cost synergies of approximately \$13 million to \$15 million per annum and also capitalise on increased revenue opportunities arising from the ability to access the expanded customer base and the optimisation of the combined fibre networks.

Ability to share in premium for control if Vocus is subsequently acquired

260. As the Scheme Shareholders will receive scrip in Vocus they still retain the potential benefit of sharing in any premium for control that may be paid by a potential acquirer of Vocus subsequent to the Scheme being approved.

The new Vocus shares are likely to have a greater level of liquidity and institutional coverage

261. Vocus shares have a greater level of liquidity than Amcom shares and are represented in the S&P ASX200 Index. The increased size of the Merged Group is likely to attract even greater institutional coverage.

Unanimous Board recommendation

262. Amcom's Board of Directors has indicated its unanimous recommendation in favour of the Scheme, in the absence of a superior proposal emerging and subject to the independent expert finding the Scheme in the best interests of Scheme Shareholders.

Prospects of Other Proposals

263. The directors of Amcom have advised us that to the best of their knowledge the proposal from Vocus is the only proposal available to Amcom shareholders at the date of this report.
264. We cannot exclude the prospect of an alternative proposal or offer on better terms emerging. In the event that an alternative proposal or offer on better terms emerges before the closure of the Scheme, Scheme Shareholders will be entitled to reject the Scheme and pursue other opportunities.

If the Scheme is not accepted

- Amcom will continue to operate as an ASX listed company with its current spread of shareholders and no controlling shareholding block;
 - Shareholders will retain their shares in Amcom and continue to fully share in any benefits and risks associated with being an investor in Amcom;
 - The Scheme Consideration will not be paid;
 - Amcom will incur transaction costs of approximately \$4.3 million; and
 - Amcom may be liable to pay Vocus a break fee of \$4 million which will apply in the event of certain circumstances described in the SIA.
265. In our opinion, if the Scheme is not accepted, the Amcom share price is likely to fall.
266. The Amcom share price increased significantly on the announcement of the Scheme and has traded in a range of \$2.63 to \$2.99 since then (based on closing share prices). We consider that in the absence of the Scheme, an alternative proposal or speculation concerning an alternative proposal, the Amcom share price is likely to reduce from current levels. In the medium and longer term, Amcom's share price will reflect the market's assessment of Amcom's ongoing business model, operating performance as well as general movements in financial markets.

Conclusion

267. On the basis that our assessed value of the Scheme Consideration is above our valuation range for an ordinary share in Amcom on a controlling interest basis, we consider that the Scheme is fair.
268. We consider that the Scheme is reasonable on the basis that it is fair. The Scheme is also considered to be reasonable due to the reasons stated above, in the absence of a higher bid.
269. In conclusion, we therefore consider the Scheme is in the best interests of the Scheme Shareholders on the basis that it is both fair and reasonable.

- (a) (**Regulatory Approvals**) before 8.00am on the Second Court Date, all Regulatory Approvals required to implement the Scheme are granted or obtained (including, but not limited to, ASIC and ASX having issued or provided such consents, waivers or approvals or having done such other acts which Amcom and Vocus agree are reasonably necessary to implement the Scheme), either unconditionally or on conditions that do not impose unduly onerous obligations upon either party (acting reasonably), and those Regulatory Approvals have not been withdrawn, cancelled or revoked;

3.2 Benefit and waiver of conditions precedent

- (a) The Conditions in clauses 3.1(b) and 3.1(o) are for the benefit of each party and any breach or non-fulfilment of them may only be waived (if capable of waiver) with the written consent of both parties, which consent either party may give or withhold in its absolute discretion.
- (b) The Conditions in clauses 3.1(g), 3.1(i), 3.1(k) and 3.1(m) are for the sole benefit of Vocus and any breach or non-fulfilment of them may only be waived by Vocus giving its written consent.
- (c) The Conditions in clauses 3.1(f), 3.1(h), 3.1(j), 3.1(l) and 3.1(n) are for the sole benefit of Amcom and any breach or non-fulfilment of them may only be waived by Amcom giving its written consent.
- (d) A party entitled to waive a Condition pursuant to this clause 3.2 may do so in its absolute discretion subject to the provision of written notice to the other party. Any waiver of a Condition by a party for whose benefit the condition applies must take place on or prior to

8.00am on the Second Court Date. The Conditions in clauses 3.1(a), 3.1(c), 3.1(d) and 3.1(e) cannot be waived.

- (e) If a party waives the breach or non-fulfilment of any of the Conditions in clause 3.1, that waiver will not preclude it from suing the other party for any breach of this agreement including without limitation a breach that resulted in the non-fulfilment of the Condition that was waived.
- (f) Waiver of a breach or non-fulfilment in respect of one Condition does not constitute;
 - (i) a waiver of breach or non-fulfilment of any other Condition resulting from the same event; or
 - (ii) a waiver of breach or non-fulfilment of that Condition resulting from any other event.

3.3 Best endeavours

- (a) Amcom and Vocus will use their respective best endeavours to procure that each of the Conditions is satisfied as soon as reasonably practicable after the date of this agreement or continues to be satisfied at all times until the last time they are to be satisfied (as the case may require).
- (b) Without limiting clauses 3.4 and 3.5 below, each of Amcom and Vocus must:
 - (i) promptly apply for all relevant Regulatory Approvals and provide the other party with a copy of all applications for Regulatory Approvals;

 - (iii) respond to all requests for information in respect of the applications for Regulatory Approvals at the earliest practicable time;
 - (iv) provide the other with all information and assistance reasonably requested in connection with the applications for Regulatory Approvals;

 - (vi) so far as it is able, allow the other and its Authorised Persons the opportunity to be present and make submissions at any meetings with any regulatory body relating to the Regulatory Approvals in respect of the Scheme.

3.4 Notifications

Each of Vocus and Amcom must:

- (a) keep the other promptly and reasonably informed of the steps it has taken and of its progress towards satisfaction of the Conditions;
- (b) promptly notify the other in writing if it becomes aware that any Condition has been satisfied; and
- (c) promptly notify the other in writing if it becomes aware that any Condition is or has become incapable of being satisfied (having regard to the respective obligations of each party under clause 3.3) and where a party is entitled to waive that Condition upon receipt or delivery of such a notice (as applicable) that party must notify the other party in

accordance with clause 3.2 as soon as possible (in any event before 5.00pm on the Business Day before the Second Court Date) as to whether the party waives the non-fulfilment of the Condition.

3.5 Certificate

On the Second Court Date:

- (a) Vocus and Amcom will provide a joint certificate to the Court confirming whether or not the Conditions set out in clauses 3.1(a), 3.1(b) and 3.1(c) have been satisfied or waived in accordance with the terms of this agreement;
- (b) Amcom will provide a certificate to the Court confirming whether or not the Conditions set out in clauses 3.1(f), 3.1(g), 3.1(i), 3.1(k), 3.1(m) and 3.1(o) have been satisfied or waived in accordance with the terms of this agreement;
- (c) Vocus will provide a certificate to the Court confirming whether or not the Conditions set out in clauses 3.1(e), 3.1(h), 3.1(j), 3.1(l) and 3.1(n) have been satisfied or waived in accordance with the terms of this agreement;
- (d) Amcom will provide a certificate to Vocus confirming whether or not it has breached any of its obligations under this agreement (including a breach of a representation or warranty), and if it has, giving details of such breach; and
- (e) Vocus will provide a certificate to Amcom confirming whether or not it has breached any of its obligations under this agreement (including a breach of a representation or warranty), and if it has, giving details of such breach.

3.6 Scheme voted down

If the Scheme is not approved by Amcom Shareholders at the Scheme Meeting by reason only of the non-satisfaction of the Headcount Test and Amcom or Vocus considers acting reasonably that Share Splitting or some abusive or improper conduct may have caused or contributed to the Headcount Test not having been satisfied then Amcom must:

- (a) apply for an order of the Court contemplated by section 411(4)(a)(ii)(A) of the Corporations Act to disregard the Headcount Test and seek Court approval of the Scheme under section 411(4)(b) of the Corporations Act, notwithstanding that the Headcount Test has not been satisfied; and
- (b) make such submissions to the Court and file such evidence as Counsel engaged by Amcom to represent it in Court proceedings related to the Scheme, in consultation with Vocus, considers is reasonably required to seek to persuade the Court to exercise its discretion under section 411(4)(a)(ii)(A) of the Corporations Act by making an order to disregard the Headcount Test.

3.7 Conditions not capable of being fulfilled

- (a) If:
 - (i) any Condition is not satisfied or (where capable of waiver) waived by the date specified in this agreement for its satisfaction (or an event occurs which would or is likely to prevent a condition precedent being satisfied by the date specified in this agreement);
 - (ii) a circumstance occurs with the result that a Condition is not capable of being fulfilled and, if the Condition is able to be waived by a party under clause 3.2 the party does not waive the Condition within five Business Days after the occurrence of the circumstance; or

- (iii) the Scheme does not become Effective by the End Date,
and neither of the following has occurred:
 - (iv) the Independent Expert opines to the effect that the Scheme is not in the best interest of Amcom Shareholders; or
 - (v) a Superior Proposal has been publicly announced,
then Amcom and Vocus must consult in good faith with a view to determining whether:
 - (vi) the Scheme may proceed by way of alternative means or methods;
 - (vii) to extend the relevant time or date for satisfaction of the Condition;
 - (viii) to change the date of the application to be made to the Court for orders under section 411(4)(b) of the Corporations Act approving the Scheme or adjourning that application (as applicable) to another date agreed by the parties; or
 - (ix) to extend the End Date.
- (b) Subject to clause 3.7(c), if a Condition becomes incapable of being satisfied before the End Date and Amcom and Vocus are unable to reach agreement under clause 3.7(a) within five Business Days of the date on which they both become aware that the Condition has become incapable of being satisfied (or, if earlier, by 8.00am on the Second Court Date), then unless the relevant Condition (where capable of waiver) is waived:
- (i) in relation to the Conditions in clause 3.1(a) or 3.1(c), either Vocus or Amcom may terminate this agreement by giving the other notice within 10 Business Days (or any shorter period ending before 8.00am on the Second Court Date);
 - (ii) in relation to the Conditions in clauses 3.1(e), 3.1(g), 3.1(i), 3.1(k), 3.1(m) and 3.1(o), Vocus may terminate this agreement by giving Amcom notice within 10 Business Days (or any shorter period ending before 8.00am on the Second Court Date); and
 - (iii) in relation to the Conditions in clauses 3.1(f), 3.1(h), 3.1(j), 3.1(l) and 3.1(n), Amcom may terminate this agreement by giving Vocus notice within 10 Business Days (or any shorter period ending before 8.00am on the Second Court Date),
without any liability to any other party by reason of that termination alone.
- (c) A party will not be entitled to terminate this agreement pursuant to clause 3.7(b) if the relevant Condition has not been satisfied as a result of:
- (i) a breach of this agreement by that party; or
 - (ii) a deliberate act or omission of that party which either alone or together with other circumstances prevents that Condition being satisfied.

3.8 Interpretation

For the purposes of this clause 3, a Condition will be incapable of satisfaction, or incapable of being fulfilled if:

- (a) in the case of a Condition relating a Regulatory Approval – the relevant Regulatory Authority makes or has made a final adverse determination in writing to the effect that it will not provide the Regulatory Approval; and
- (b) in all other cases – there is an act, failure to act or occurrence that will prevent the Condition being satisfied by the End Date (and the breach or non-fulfilment that would otherwise have occurred has not already been waived in accordance with this agreement).

4. Scheme structure

4.1 Scheme

- (a) Amcom must, as soon as reasonably practicable after the date of this agreement and substantially in compliance with the Timetable, propose the Scheme under which, subject to the Scheme becoming Effective, all of the Scheme Shares will be transferred to Vocus and the Scheme Shareholders will be entitled to receive, for each Scheme Share held at the Record Date, the Scheme Consideration.
- (b) Amcom must not consent to any modification of, or amendment to, or the making or imposition by the Court of any condition in respect of, the Scheme without the prior written consent of Vocus.

4.2 Scheme Consideration

- (a) Vocus covenants in favour of Amcom, in consideration for the transfer to Vocus of the Scheme Shares held by each Scheme Shareholder under the terms of the Scheme, to provide or procure provision of the Scheme Consideration to each Scheme Shareholder on the Implementation Date and otherwise in accordance with the Scheme.
- (b) Subject to clauses 4.3(b) and 4.3(c) and to the Scheme becoming Effective, at 10.00am on the Implementation Date, the transactions which form part of the Scheme will be implemented in the following sequence:
 - (i) each Scheme Shareholder will receive the Scheme Consideration for each Scheme Share held by that Scheme Shareholder at the Record Date, which is to be issued in the manner set out in clause 4.3; and
 - (ii) in exchange, all existing Amcom Shares at the Record Date will be transferred to Vocus or its nominee.
- (c) In order to facilitate the provision of the Scheme Consideration, Amcom must provide, or procure the provision of, to Vocus or a nominee of Vocus a complete copy of the Amcom register of members as at the Record Date (which must include the name, registered address and registered holding of each Scheme Shareholder as at the Record Date), within one Business Day after the Record Date. The details and information to be provided under this clause must be provided in such form as Vocus, its nominee or Vocus' share registry may reasonably require.

4.3 Allotment and issue of New Vocus Shares

- (a) Subject to clauses 4.3(b) and 4.3(c) and to the Scheme becoming Effective, Vocus must:
 - (i) allot and issue the New Vocus Shares to Scheme Shareholders in accordance with the Scheme on terms such that each Vocus Share will rank equally in all respects with each existing Vocus Share;
 - (ii) do everything reasonably necessary to ensure that the New Vocus Shares are approved for official quotation on ASX and that trading in the New Vocus Shares commences by the first Business Day after the Implementation Date; and
 - (iii) ensure that on issue, each New Vocus Share will be fully paid and free from any mortgage, charge, lien, encumbrance or other security interest.
- (b) Unless Vocus is satisfied that the laws of an Ineligible Overseas Shareholder's country of residence (as shown in the register of Amcom Shareholders) permit the issue of New Vocus Shares to the Ineligible Overseas Shareholder either unconditionally or after compliance with terms which Vocus reasonably regards as acceptable and practical, Vocus will be under no obligation under the Scheme to issue, and will not issue, any New

Vocus Shares to Ineligible Overseas Shareholders, and instead will issue the New Vocus Shares that would otherwise have been issued to the Ineligible Overseas Shareholders to a nominee appointed by Vocus. Vocus will procure that as soon as reasonably practicable and in any event no more than 15 Business Days after the Implementation Date, the nominee sell those New Vocus Shares issued to the nominee on-market in such manner, at such price and on such other terms as the nominee determines in good faith. Promptly after the last sale of those New Vocus Shares, Vocus will procure that the nominee pays to Vocus the net proceeds from that sale (after deducting any applicable brokerage, stamp duty and other selling costs and taxes). Vocus will then remit the portion of the proceeds it receives from the nominee to each Ineligible Overseas Shareholders in accordance with their entitlement.

- (c) Any fractional entitlement of a Scheme Shareholder to a part of a New Vocus Share will be rounded up or down to the nearest whole number of New Vocus Shares (rounded up if the fractional entitlement is equal to or greater than one half, and rounded down if the fractional entitlement is less than one half). The Scheme will contain standard provisions under which Vocus will have the discretion to deem the holdings of two or more Scheme Shareholders to be held by one Scheme Shareholder to prevent any Share Splitting designed to obtain unfair advantage by reference to such rounding.

- (l) **(appeal process)** if the Court refuses to make any orders directing Amcom to convene the Scheme Meeting or approving the Scheme, Amcom and Vocus must:

Vocus must not seek any such determination and must use all reasonable endeavours to ensure that no such determination is made.

13. Exclusivity

13.1 No shop

During the Exclusivity Period, each of Amcom and Vocus must not, and must ensure that its Authorised Persons do not, except with the prior written consent of the other party, solicit, invite or encourage any Competing Proposal or initiate discussions with any third party with a view to obtaining any expressions of interest, offer or proposal from any person in relation to a Competing Proposal.

13.2 No talk and no due diligence

Subject to clause 13.3, during the Exclusivity Period, each of Amcom and Vocus must not and must ensure that its Authorised Persons do not, except with the prior written consent of the other party:

- (a) participate in any negotiations in relation to a Competing Proposal or which may reasonably be expected to lead to a Competing Proposal;
- (b) enter into any relevant agreement in connection with a Competing Proposal; or
- (c) provide any information to a third party for the purposes of enabling that party to make a Competing Proposal.

13.3 Exceptions

13.4 Warranty and undertakings

- (a) Each party warrants as at the date of this agreement:
 - (i) that it has, and its Authorised Persons have, ceased any existing discussions or negotiations with any party which may reasonably be expected to lead to a Competing Proposal; and
 - (ii) that it has requested the return of its confidential information in accordance with the terms of any relevant confidentiality agreement from all third parties conducting due diligence investigations on the Amcom Group or the Vocus Group (as the case may be) prior to the date of this agreement.

- (b) During the Exclusivity Period, without limiting clause 13.3:
- (i) each party must not provide any non-public information to a person in connection with or to directly or indirectly encourage a Competing Proposal unless any non-public information provided to that person is also provided to the other party (unless the information has already been provided to the other party or an Authorised Person of that other party); and
 - (ii) if, after complying with clause 13.4(b)(i):
 - (A) a party provides any non-public information to a person in connection with or to directly or indirectly encourage a Competing Proposal; and
 - (B) the party and that person have not entered into an Acceptable Confidentiality Agreement,
 then Vocus and Amcom acknowledge and agree that the Confidentiality Agreement will be read down such that:
 - (C) the obligations of Vocus under the Confidentiality Agreement are no more onerous in any material respect than the obligations of the proposed bidder; and

- (i) within 2 Business Days of receipt by it or any of its Authorised Persons of any Competing Proposal or written proposal which may reasonably be expected to lead to a Competing Proposal (including any variation of a Competing Proposal made prior to the date of this agreement), provide written notice to Vocus of the identity of the party or parties involved in the proposal and the material terms of that proposal (each an **Amcom Competing Proposal Notice**); and

- (ii) provide Vocus with updates of any material developments in relation to any such proposal.

- (e) If the Amcom Board determines, in good faith and in order to satisfy what the Amcom Board considers to be its fiduciary and statutory duties, that the Vocus Counterproposal is more favourable to Amcom Shareholders than the Competing Proposal, then:
 - (i) if the Vocus Counterproposal contemplates an amendment to the Scheme, the parties must enter into a deed amending this agreement in relation to the Scheme and reflecting the Vocus Counterproposal;
 - (ii) if the Vocus Counterproposal contemplates any other transaction, Amcom must make an announcement as soon as reasonably practicable recommending the Vocus Counterproposal, in the absence of a more favourable proposal, and the parties must pursue implementation of the Vocus Counterproposal in good faith; and
 - (iii) Amcom must not take any of the steps referred to in clause 13.5(b).
- (f) Despite anything in this clause 13.5, each obligation of Amcom under this clause 13.5 does not apply:
 - (i) to the extent it restricts the Amcom Board from taking or refusing to take any action with respect to a Competing Proposal which is or may reasonably be expected to lead to a Superior Proposal (which was not solicited, initiated, invited, facilitated or encouraged (whether directly or indirectly) by Amcom or any of its Authorised Persons in contravention of clause 13.1); and
 - (ii) to the extent that the Amcom Board determines in good faith and after having taken written advice from its legal advisers that complying with such obligation would be likely to involve a breach of the fiduciary or statutory duties owed by any director of Amcom.

13.6 Vocus notice of Competing Proposal

- (a) During the Exclusivity Period, Vocus must:
- (i) within 2 Business Days of receipt by it or any of its Authorised Persons of any Competing Proposal or written proposal which may reasonably be expected to lead to a Competing Proposal (including any variation of a Competing Proposal made prior to the date of this agreement), provide written notice to Amcom of the identity of the party or parties involved in the proposal and the material terms of that proposal (each a **Vocus Competing Proposal Notice**); and

 - (ii) to propose any other transaction,
- which must be submitted to Vocus in writing (each a **Amcom Counterproposal**), and if Amcom does so, the Vocus Board must review the Amcom Counterproposal in good faith and in what the Vocus Board considers is required to comply with its fiduciary and statutory duties, to determine whether the Amcom Counterproposal is more favourable to Vocus Shareholders than the Competing Proposal.
- (e) If the Vocus Board determines, in good faith and in order to satisfy what the Vocus Board considers to be its fiduciary and statutory duties, that the Amcom Counterproposal is more favourable to Vocus Shareholders than the Competing Proposal, then:
- (i) if the Amcom Counterproposal contemplates an amendment to the Scheme, the parties must enter into a deed amending this agreement in relation to the Scheme and reflecting the Amcom Counterproposal;
 - (ii) if the Amcom Counterproposal contemplates any other transaction, Vocus must make an announcement as soon as reasonably practicable recommending the Amcom Counterproposal, in the absence of a more favourable proposal, and the parties must pursue implementation of the Amcom Counterproposal in good faith; and
 - (iii) Vocus must not take any of the steps referred to in clause 13.6(b).

- (f) Despite anything in this clause 13.6, each obligation of Vocus under this clause 13.6 does not apply:
 - (i) to the extent it restricts the Vocus Board from taking or refusing to take any action with respect to a Competing Proposal which is or may reasonably be expected to lead to a Superior Proposal (which was not solicited, initiated, invited, facilitated or encouraged (whether directly or indirectly) by Vocus or any of its Authorised Persons in contravention of clause 13.1); and

5. Scheme Consideration

5.1 Scheme Consideration

Subject to this Scheme becoming Effective, in consideration of the transfer to Vocus of each Scheme Share held by a Scheme Shareholder under this Scheme, Vocus will provide the Scheme Consideration to each Scheme Shareholder for each Scheme Share held by it on the Implementation Date as set out in this clause 5.

5.2 Scheme Consideration

- (a) Amcom will use its best endeavours to procure that, in consideration for the transfer to Vocus of the Scheme Shares held by each Scheme Shareholder under the terms of this Scheme, Vocus will provide or procure provision of the Scheme Consideration to each Scheme Shareholder on the Implementation Date and otherwise in accordance with this Scheme.
- (b) Subject to clauses 5.3(b) and 5.3(c) and to this Scheme becoming Effective, at 10.00am on the Implementation Date, the transactions which form part of this Scheme will be implemented in the following sequence:
 - (i) each Scheme Shareholder will receive the Scheme Consideration for each Scheme Share held by that Scheme Shareholder at the Record Date, which is to be issued in the manner set out in clause 5.3; and
 - (ii) in exchange, all existing Amcom Shares at the Record Date will be transferred to Vocus or its nominee.
- (c) In order to facilitate the provision of the Scheme Consideration, Amcom must provide, or procure the provision of, to Vocus or a nominee of Vocus a complete copy of the Amcom register of members as at the Record Date (which must include the name, registered address and registered holding of each Scheme Shareholder as at the Record Date), within one Business Day after the Record Date. The details and information to be provided under this clause must be provided in such form as Vocus, its nominee or Vocus' share registry may reasonably require.

5.3 Allotment and issue of New Vocus Shares

- (a) Subject to clauses 5.3(b) and 5.3(c) and to this Scheme becoming Effective, Vocus must:

- (i) allot and issue the New Vocus Shares to Scheme Shareholders in accordance with this Scheme on terms such that each Vocus Share will rank equally in all respects with each existing Vocus Share;
 - (ii) do everything reasonably necessary to ensure that the New Vocus Shares are approved for official quotation on ASX and that trading in the New Vocus Shares commences by the first Business Day after the Implementation Date; and
 - (iii) ensure that on issue, each New Vocus Share will be fully paid and free from any mortgage, charge, lien, encumbrance or other security interest.
- (b) Unless Vocus is satisfied that the laws of an Ineligible Overseas Shareholder's country of residence (as shown in the register of Amcom Shareholders) permit the issue of New Vocus Shares to the Ineligible Overseas Shareholder either unconditionally or after compliance with terms which Vocus reasonably regards as acceptable and practical, Vocus will be under no obligation under this Scheme to issue, and will not issue, any New Vocus Shares to Ineligible Overseas Shareholders, and instead will issue the New Vocus Shares that would otherwise have been issued to the Ineligible Overseas Shareholders to a nominee appointed by Vocus. Vocus will procure that as soon as reasonably practicable and in any event no more than 15 Business Days after the Implementation Date, the nominee sell those New Vocus Shares issued to the nominee on-market in such manner, at such price and on such other terms as the nominee determines in good faith. Promptly after the last sale of those New Vocus Shares, Vocus will procure that the nominee pays to Vocus the net proceeds from that sale (after deducting any applicable brokerage, stamp duty and other selling costs and taxes). Vocus will then remit the portion of the proceeds it receives from the nominee to each Ineligible Overseas Shareholders in accordance with their entitlement.
- (c) Any fractional entitlement of a Scheme Shareholder to a part of a New Vocus Share will be rounded up or down to the nearest whole number of New Vocus Shares (rounded up if the fractional entitlement is equal to or greater than one half, and rounded down if the fractional entitlement is less than one half). Vocus may, acting reasonably, deem the holdings of two or more Scheme Shareholders to be held by one Scheme Shareholder to prevent any Share Splitting designed to obtain unfair advantage by reference to such rounding.
- (d) In the case of Scheme Shares held in joint names, any New Vocus Shares to be issued under this Scheme will be issued to and registered in the names of the joint holders and holding statements or notices confirming the issue of the New Vocus Shares will be forwarded to the holder whose name appears first in the Vocus Register as at the Record Date.

6. Entitlement to participate and dealings in Amcom Shares

6.1 Entitlement to participate

Each Scheme Shareholder will be entitled to participate in this Scheme.

6.2 Recognised dealings

For the purposes of determining who is a Scheme Shareholder, dealings in Amcom Shares will be recognised if:

For the purpose of determining entitlements to Scheme Consideration, Amcom must, until the Scheme Consideration has been paid, maintain, or cause the Amcom Registrar to maintain, the Amcom Register in accordance with the provisions of this clause 6 and entitlements to the Scheme Consideration will be determined solely on the basis of the Amcom Register.

6.7 Statements of holding cease to have any effect

After 7.00pm on the Record Date, any share certificate or holding statement for Amcom Shares (other than statements of holding in favour of Vocus and its successors in title) will cease to have any effect as a document of title in respect of those shares and each current entry on the Amcom Register as at 7.00pm on the Record Date will cease to have any effect other than as evidence of entitlement of Scheme Shareholders to the Scheme Consideration (other than the entries in respect of Vocus).

6.8 Provision of Scheme Shareholder's details

As soon as practicable after the Record Date, and in any event at least three Business Days before the Implementation Date, Amcom must ensure that a complete copy of the Amcom Register as at 7.00pm on the Record Date, including details of the names, registered addresses and holdings of Shares for each Scheme Shareholder are available to Vocus in the form Vocus reasonably requires.

7. Quotation of Shares

8.8 Notices

- (a) Where a notice, transfer, transmission application or other communication referred to in this Scheme is sent by post to Amcom, it will not be deemed to be received in the ordinary course of post or on a date other than the date (if any) on which it is actually received at Amcom's registered office or at the office of the Amcom Registrar.
- (b) The accidental omission to give notice of the Scheme Meeting to any Amcom Shareholders, or the on-receipt of such a notice by any Amcom Shareholders, will not, unless ordered by the Court, invalidate this Scheme or the proceedings at the Scheme Meeting.

8.9 Alterations and conditions

If the Court proposes to approve this Scheme subject to any conditions or alterations under section 411(6) of the Corporations Act, Amcom may, by its counsel on behalf of all persons concerned consent to only such of those conditions or alterations to this Scheme to which Vocus has consented, such consent not to be unreasonably withheld or delayed.

 - (i) each Scheme Shareholder will receive the Scheme Consideration for each Scheme Share held by that Scheme Shareholder at the Record Date, which is to be issued in the manner set out in clause 5.3; and
 - (ii) in exchange, all existing Amcom Shares at the Record Date will be transferred to Vocus or its nominee.
- (c) In order to facilitate the provision of the Scheme Consideration, Amcom must provide, or procure the provision of, to Vocus or a nominee of Vocus a complete copy of the Amcom register of members as at the Record Date (which must include the name, registered address and registered holding of each Scheme Shareholder as at the Record Date), within one Business Day after the Record Date. The details and information to be provided under this clause must be provided in such form as Vocus, its nominee or Vocus' share registry may reasonably require.

5.3 Allotment and issue of New Vocus Shares

- (a) Subject to clauses 5.3(b) and 5.3(c) and to this Scheme becoming Effective, Vocus must:

- (i) allot and issue the New Vocus Shares to Scheme Shareholders in accordance with this Scheme on terms such that each Vocus Share will rank equally in all respects with each existing Vocus Share;
 - (ii) do everything reasonably necessary to ensure that the New Vocus Shares are approved for official quotation on ASX and that trading in the New Vocus Shares commences by the first Business Day after the Implementation Date; and
 - (iii) ensure that on issue, each New Vocus Share will be fully paid and free from any mortgage, charge, lien, encumbrance or other security interest.
- (b) Unless Vocus is satisfied that the laws of an Ineligible Overseas Shareholder's country of residence (as shown in the register of Amcom Shareholders) permit the issue of New Vocus Shares to the Ineligible Overseas Shareholder either unconditionally or after compliance with terms which Vocus reasonably regards as acceptable and practical, Vocus will be under no obligation under this Scheme to issue, and will not issue, any New Vocus Shares to Ineligible Overseas Shareholders, and instead will issue the New Vocus Shares that would otherwise have been issued to the Ineligible Overseas Shareholders to a nominee appointed by Vocus. Vocus will procure that as soon as reasonably practicable and in any event no more than 15 Business Days after the Implementation Date, the nominee sell those New Vocus Shares issued to the nominee on-market in such manner, at such price and on such other terms as the nominee determines in good faith. Promptly after the last sale of those New Vocus Shares, Vocus will procure that the nominee pays to Vocus the net proceeds from that sale (after deducting any applicable brokerage, stamp duty and other selling costs and taxes). Vocus will then remit the portion of the proceeds it receives from the nominee to each Ineligible Overseas Shareholders in accordance with their entitlement.
- (c) Any fractional entitlement of a Scheme Shareholder to a part of a New Vocus Share will be rounded up or down to the nearest whole number of New Vocus Shares (rounded up if the fractional entitlement is equal to or greater than one half, and rounded down if the fractional entitlement is less than one half). Vocus may, acting reasonably, deem the holdings of two or more Scheme Shareholders to be held by one Scheme Shareholder to prevent any Share Splitting designed to obtain unfair advantage by reference to such rounding.
- (d) In the case of Scheme Shares held in joint names, any New Vocus Shares to be issued under this Scheme will be issued to and registered in the names of the joint holders and holding statements or notices confirming the issue of the New Vocus Shares will be forwarded to the holder whose name appears first in the Vocus Register as at the Record Date.

6. Entitlement to participate and dealings in Amcom Shares

6.1 Entitlement to participate

Each Scheme Shareholder will be entitled to participate in this Scheme.

6.2 Recognised dealings

For the purposes of determining who is a Scheme Shareholder, dealings in Amcom Shares will be recognised if:

No Amcom Shareholder shall dispose of or purport to agree to dispose of any Amcom Shares or any interest therein after the Close of Trading. Any dealings in Amcom Shares after Close of Trading shall not be recognised by the Amcom Registrar.

6.6 Maintaining the Amcom Register

For the purpose of determining entitlements to Scheme Consideration, Amcom must, until the Scheme Consideration has been paid, maintain, or cause the Amcom Registrar to maintain, the Amcom Register in accordance with the provisions of this clause 6 and entitlements to the Scheme Consideration will be determined solely on the basis of the Amcom Register.

6.7 Statements of holding cease to have any effect

After 7.00pm on the Record Date, any share certificate or holding statement for Amcom Shares (other than statements of holding in favour of Vocus and its successors in title) will cease to have any effect as a document of title in respect of those shares and each current entry on the Amcom Register as at 7.00pm on the Record Date will cease to have any effect other than as evidence of entitlement of Scheme Shareholders to the Scheme Consideration (other than the entries in respect of Vocus).

6.8 Provision of Scheme Shareholder's details

As soon as practicable after the Record Date, and in any event at least three Business Days before the Implementation Date, Amcom must ensure that a complete copy of the Amcom Register as at 7.00pm on the Record Date, including details of the names, registered addresses and holdings of Shares for each Scheme Shareholder are available to Vocus in the form Vocus reasonably requires.

7. Quotation of Shares

7.1 Suspension of trading in ASX

Amcom will apply to the ASX to suspend trading in the Shares on ASX from the Close of Trading.

 - (ii) undertakes not to otherwise attend or vote at any such meetings or sign any such resolutions, whether in person, by proxy or by corporate representative other than pursuant to clause 8.7(b)(i);

 - (iv) acknowledges and agrees that in exercising the powers referred to in this clause 8.7(b), any director, officer, secretary or agent nominated by Vocus may act in the best interests of Vocus as the intended registered holder of the Scheme Shares.

8.8 Notices

- (a) Where a notice, transfer, transmission application or other communication referred to in this Scheme is sent by post to Amcom, it will not be deemed to be received in the ordinary course of post or on a date other than the date (if any) on which it is actually received at Amcom's registered office or at the office of the Amcom Registrar.
- (b) The accidental omission to give notice of the Scheme Meeting to any Amcom Shareholders, or the on-receipt of such a notice by any Amcom Shareholders, will not, unless ordered by the Court, invalidate this Scheme or the proceedings at the Scheme Meeting.

8.9 Alterations and conditions

If the Court proposes to approve this Scheme subject to any conditions or alterations under section 411(6) of the Corporations Act, Amcom may, by its counsel on behalf of all persons concerned consent to only such of those conditions or alterations to this Scheme to which Vocus has consented, such consent not to be unreasonably withheld or delayed.

An Amcom Shareholder who wishes to submit a proxy has the right to appoint a proxy (who need not be an Amcom Shareholder) to represent him, her or it at the Scheme Meeting, other than the chair of the Scheme Meeting, by inserting the name of his chosen proxy in the space provided for that purpose on the Proxy Form.

An Amcom Shareholder entitled to cast two or more votes may appoint two proxies and may specify the proportion or number of votes each proxy is appointed to exercise, but where the proportion or number is not specified, each proxy may exercise half the votes (disregarding fractions). The Amcom Shares represented by proxy will be voted for or against or withheld from voting in accordance with instructions of the Amcom Shareholder on any ballot that may be called for, and if the Amcom Shareholder specifies a choice with respect to any matter to be acted upon, the Amcom Shares will be voted accordingly.

An Amcom Shareholder who has deposited a Proxy Form may revoke it prior to its use, by instrument in writing executed by the Amcom Shareholder or by his, her or its attorney duly authorised in writing or, if the Amcom Shareholder is a company, executed by a duly authorised officer or attorney in compliance with applicable law and deposited at Amcom's Share Registry by 5.00 pm on the last Business Day preceding the day of the Scheme Meeting or with the chair of the Scheme Meeting on the day of, and prior to the start of, the Scheme Meeting. An Amcom Shareholder may also revoke a proxy in any other manner permitted by law.

How to Vote on the Item of Business

All your securities will be voted in accordance with your directions.

Appointment of Proxy

Voting 100% of your holding: Direct your proxy how to vote by marking one of the boxes opposite the item of business. If you do not mark a box your proxy may vote or abstain as they choose (to the extent permitted by law). If you mark more than one box on the item your vote will be invalid on the item.

Voting a portion of your holding: Indicate a portion of your voting rights by inserting the percentage or number of securities you wish to vote in the For, Against or Abstain box or boxes. The sum of the votes cast must not exceed your voting entitlement or 100%.

Appointing a second proxy: You are entitled to appoint up to two proxies to attend the meeting and vote on a poll. If you appoint two proxies you must specify the percentage of votes or number of securities for each proxy, otherwise each proxy may exercise half of the votes. When appointing a second proxy write both names and the percentage of votes or number of securities for each in Step 1 overleaf.

A proxy need not be a securityholder of the Company.

Signing Instructions for Postal Forms

Individual: Where the holding is in one name, the securityholder must sign.

Joint Holding: Where the holding is in more than one name, all of the securityholders should sign.
