

31 March 2015

Issue of Placement Shares

Cauldron Energy Limited (**ASX: CXU**) ("Cauldron" or the "Company") is pleased to advise that further to its ASX announcement dated 30 December 2014, the Company has received the final instalment of A\$0.47 million in funding (before capital raising costs) from Chinese investor Starry World Investment Ltd (**Starry World**) pursuant to a share placement agreement entered into last year (**Share Placement Agreement**) (refer ASX announcement dated 1 July 2014 for further details).

Cauldron is very pleased to confirm that Starry World has now fulfilled its A\$4 million funding commitment under the Share Placement Agreement (\$1m million received in the September 2014 quarter; \$2.53 million received in the December 2014 quarter; \$0.47 million this ASX announcement), and is a significant shareholder of the Company (13.5% interest).

The funding will be used towards defining the economics of the high grade uranium zone recently identified at Bennet Well (ASX announcement dated 2 December 2014) and to conduct field leach trials at the Bennet Well project (contingent on Government approvals). If successful, feasibility studies will follow for the assessment of economic uranium production. This process was mapped out by Worley Parsons in a study commissioned by Cauldron in late 2014. The study indicated uranium production potential at Bennet Well by 2018/19.

The Company expects the growth of the Bennet Well JORC uranium resource in the Yanrey Region of Western Australia will occur in tandem with this project development process. The Company aims to use the new understanding of the high grade uranium mineralisation or intellectual property (**IP**) gained in the recent drilling to identify further high-grade resources in Cauldron's 'in-situ leach (**ISL**) uranium' areas at Yanrey. The Company's goal of establishing world class ISL uranium region on its landholding in the Yanrey area is firmly on track.

The Company intends to pursue its plans in:

- Argentina, where the political winds of change are proving a potential opportunity for Cauldron at Rio Colorado; and
- South Australia, where the greenfield indicators for a deep massive sulphide find require geophysical definition followed by a drill campaign once justified.

Attached is an Appendix 3B of Cauldron for the issue and quotation of 3,983,061 fully paid ordinary shares (**Placement Shares**). The Company has used its capacity under Listing Rule 7.1 to issue the Placement Shares to Starry World.

Cauldron gives notice pursuant to Section 708A(5)(e) of the Corporations Act.

The Placement Shares were issued without disclosure to the recipient under Part 6D.2, in reliance on Section 708A(5) of the Corporations Act.
