Corporate and Finance

At Quarter end Moly Mines had \$69.8M in cash, down from \$70.4M at the end of the December 2014 quarter.

The Board continues to review M&A opportunities, primarily in gold and copper. A number of potential opportunities have been identified by the new Board members.

The Annual Financial Report was released to the market on 30th March 2015.

Board & Executive Changes

There were no Board or management changes during the Quarter.

The appointment of Graeme Kininmonth as Acting CEO was extended for 12 months until 30th March 2016. There were no significant changes in the conditions of employment.

Securities on Issue

During the Quarter there was no change to the number of ordinary shares on issue.

	Balance 31 December 2014
Ordinary shares	384,893,989
Options	
- EIG Warrants	4,832,157
- Employee options	6,833,320
Total	11,665,477
Diluted Total	396,559,466

The shares of the company remain suspended from official quotation by ASX. Moly remains an ASX listed entity and provided it is able to recommence operations of a level adequate to justify, in the opinion of the ASX, quotation of Moly's securities in the future, Moly will be able to again seek quotation of its shares.

MOL withdrew the Application to Cease to be a Reporting Issuer in Canada after analysis of the register indication that Canadian based beneficial ownership of shares was greater than 2%.

Operations

The Spinifex Ridge Molybdenum / Copper Project remains on care and maintenance.

Rehabilitation work at Spinifex ridge continued during the Quarter, with activities largely complete by quarter end. All of the pits have been closed and the waste dumps have been battered down to their final shape and seeded.

The site will transition to Care and Maintenance during the June Quarter, retaining infrastructure assets for potential future use.

Negotiations continue with MRL to determine the final payment calculation for the iron ore sale based on final tonnes and grade of ore at site.
