

RESIGNATION OF MANAGING DIRECTOR AND BOARD CHANGES

ASX: PXG

Phoenix Gold Limited (**ASX: PXG**) ("**Phoenix**" or the "**Company**") announces that Mr Jon Price has given notice of his resignation as Managing Director of Phoenix, effective today 8 May 2015.

The Company also advises that Mr Dale Rogers has assumed the role of Executive Chairman and Mr Ian Gregory, Phoenix's Company Secretary, has been appointed to the Board as an independent Non-Executive member.

Mr Price was a founding director of Phoenix and has played a lead role in developing Phoenix into an established Western Australian gold company.

Executive Chairman, Mr Rogers said, "The Board would like to acknowledge the contributions that Jon has made in establishing and building Phoenix into a WA focused gold company with an enviable resource position.

"Despite the disappointing performance of the Kintore mine, the recently announced strategic alliance with Evolution Mining Ltd and the inherent future value of the Licence to Mine and Ore Sale Agreement with Norton Goldfields, leaves Phoenix well placed to maximise value from both the Kunanulling and Zuleika gold shears.

As Executive Chairman Mr Rogers will receive a base salary of \$257,600 per annum (excluding superannuation entitlements). The salary reflects a recent initiative by the Board to reduce senior employee pay levels by approximately 20% in response to the difficult market conditions currently being experienced in the mining sector.

Mr Price will be paid a severance package in accordance with his contract.

ENDS

About Phoenix

Phoenix Gold Ltd is an emerging Australian exploration and development company with an extensive land holding on the Zuleika and Kunanalling shear zones northwest of Kalgoorlie in Western Australia, home to some of Australia's richest gold deposits.

Kalgoorlie-based Phoenix is aiming to significantly grow its JORC-classified resources, complete definitive feasibility studies on core projects and to continue aggressive exploration.

The 100% owned Castle Hill gold project is emerging as a flagship asset with the potential to become a multi-million ounce gold mine with excellent metallurgy and close to all major infrastructure. Castle Hill is one of many well-endowed gold systems within Phoenix's portfolio.

With a balanced mix of exploration (new discoveries and extensions) and development of a sustainable production profile, Phoenix aims to grow a significant gold company for the benefit of all stakeholders.

Qualification Statements

The information in this report that relates to Ore Reserves relating to Castle Hill is based on information compiled by Mr Glenn Turnbull who is a Fellow of the Institute of Material, Minerals and Mining. Mr Glenn Turnbull is a full time employee of Golder Associates Ltd and has sufficient experience which is relevant to the engineering and economics of the types of deposits which are covered in this report and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Glenn Turnbull consents to the inclusion in this report of matters based on his information in the form and context in which it appears.

8th May 2015

The information in this report that relates to Ore Reserves other than Castle Hill is based on information compiled by Mr William Nene who is a member of The Australian Institute of Mining and Metallurgy. Mr William Nene is a full time employee of Goldfields Mining Services Pty Ltd and has sufficient experience which is relevant to the engineering and economics of the types of deposits which are covered in this report and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 edition of the 'Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. William Nene consents to the inclusion in this report of matters based on his information in the form and context in which it appears.

The information in this report that relates to Mineral Resource Estimation for Castle Hill Stage 1 and 3 is based on information compiled by Mr Brian Fitzpatrick, Senior Consulting Geologist for Cube Consulting. Mr Fitzpatrick is a Member of the Australasian Institute of Mining and Metallurgy and is also an accredited Chartered Professional Geologist. Mr Fitzpatrick has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral resources and Ore Reserves" (JORC Code). Mr Fitzpatrick consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

The information in this report that relates to Mineral Resource Estimation for Red Dam and Burgundy is based on information compiled by Dr Sia Khosrowshahi Principal Consulting Geologist for Golder Associates Pty Ltd. Dr Khosrowshahi is a Member of the Australasian Institute of Mining and Metallurgy. Dr Khosrowshahi has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral resources and Ore Reserves" (JORC Code). Dr Khosrowshahi consents to the inclusion in this report of the matters based on their information in the form and context in which it appears. The information in this report that relates to Exploration Results and other Resources are based on information compiled by Ian Copeland who is an employee of the company and fairly represent this information. Mr Copeland has sufficient experience of relevance to the styles of mineralization and the types of deposits under consideration, and the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Copeland consents to inclusion in this report of the matters based on his information in the form and context in which it appears.
