MACA receives Letter of Intent to Award Wodgina Mining Contract

MACA Limited (ASX:MLD) is pleased to announce that it has received a Letter of Intent from Atlas Iron Limited (ASX:AGO) in relation to its Wodgina DSO project in the Pilbara region of Western Australia. This follows on from the successful resumption of mining and crushing at Abydos in early May.

MACA will provide open pit mining services including drilling and blasting, and loading and hauling. Mobilisation to site will commence immediately with operations to begin next week. The project will utilise existing fleet and will not require any capital expenditure.

Operations Director Geoff Baker said "We are pleased to continue our long term relationship with Atlas Iron, by now working at the Wodgina project. The project will utilise otherwise idle plant and equipment and ensure we can maintain continued employment for our people."

The Wodgina project is expected to generate revenues in excess of \$4.2 million per month with duration of approximately 17 months. The project is part of a wider contractor collaboration agreement which provides for potential profit sharing as detailed in today's announcement by Atlas Iron Limited.
