New Research Report on Ram Resources

Ram Resources Limited (**Ram or the Company**) (ASX: RMR) is pleased to advise that equity research firm Beer & Co has published a new commissioned research report.

Highly regarded analyst Pieter Bruinstroop focuses on Ram's imminent maiden drilling program at its Fraser Range South project in WA, including the promising targets it has identified. These targets, which are based on extensive VTEM and soil sampling, sit within 2 km of Sirius Resources' key Crux and Centauri prospects.

The research report can be read on the Company's webpage at www.ramresources.com.au
