1-PAGE TALENT ASSESSMENT PLATFORM AVAILABLE ON THE ADP MARKETPLACE

1-Page Limited (“1-Page”) (ASX: 1PG), the enterprise cloud-based talent acquisition platform revolutionizing the way companies hire talent is pleased to announce the availability of the 1-Page Talent Assessment Platform on ADP’s Marketplace.

As a result, ADP customers can rely upon a proven, highly efficient, easily managed and reliable interface between ADP and 1-Page. ADP serves more than 625,000 clients in more than 100 countries.

ADP Marketplace is a new cloud-based Human Capital Management app store designed to help employers dynamically manage an ecosystem of business applications from ADP and world-class partners. This enables companies of all sizes to extend the value of their workforce solutions seamlessly across their entire organizations via a secure, single-sign-on process. 1-Page’s Talent Assessment Platform joins an ever-growing line-up of critical applications that enable employers to optimize decision-making by seamlessly integrating their workforce data securely via ADP APIs.

The 1-Page Talent Assessment Platform has previously only been available directly through 1-Page.com or through a reseller. ADP customers can now use the platform as a standalone or as a single employee reporting platform through their ADP account. The integration of the 1-Page Talent Assessment Platform with the ADP Marketplace will benefit all segments of ADP’s client base, from small businesses to large enterprises.

Commenting on the significance of the Marketplace agreement, Jeff Mills, 1-Page Chief Revenue and Operations Officer said, *“We believe it is paramount that we partner with a leading global Human Capital Management company like ADP. A well-executed API integration provides 1-Page with tremendous global reach through ADP’s conduit directly connecting our products to where their customers live.”*

“Whether you’re a small business or a global enterprise, integrating data and workflows across applications is critical to effectively managing your organization. Yet, most organizations today are still hampered by islands of information that are stuck inside HR and other business systems,” said Don Weinstein, Senior Vice President, Product Management, ADP.

“The ADP Marketplace will help clients simplify managing their workforces by providing real-time integration with other key enterprise applications and reducing deployment times with pre-built integrations. The solution 1-Page is offering is a great fit for what the Marketplace was built to do.”

About ADP

Employers around the world rely on ADP® (NASDAQ: ADP) for cloud-based solutions and services to help manage their most important asset - their people. From human resources and payroll to talent management to benefits administration, ADP brings unmatched depth and expertise in helping clients build a better workforce. A pioneer in Human Capital Management

(HCM) and business process outsourcing, ADP serves more than 625,000 clients in more than 100 countries.

1-Page Talent Assessment Platform

The 1-Page Talent Assessment Platform is a disruptive, patented, HR tool enabling companies to individually rank and prioritize candidates for employment positions based on their ability to solve real-time business challenges and achieve strategic objectives. Leveraging candidates' solutions, sent in the format of one-page job proposals, the platform applies new predictive data to rank the most suitable candidates for the interview.

By streamlining the recruiting process and identifying candidates while displaying the greatest desire and capability for the role, 1-Page greatly reduces talent acquisition costs and significantly increases employment retention rates for enterprises, especially those with large staffing requirements.
