

**ETFS Commodity Securities Australia Limited (the “Issuer”)**

15 June 2015

Terms used in the announcement have the meaning given to them in the Product Disclosure Statement of the Issuer.

As part of ETF Securities Group’s continuing review of its product offering, the board of directors of the Issuer have in good faith determined that due to the small size of each Class of CSAL Commodity Securities their continued existence is not viable and therefore have determined to redeem all outstanding CSAL Commodity Securities of each Class. This is normal practice in the global ETF industry and follows a similar review and closure of selected products within ETF Securities’ European offering.

Consequently, the Issuer will, in due course be announcing an Early Maturity Date in respect of each Class of CSAL Commodity Securities.

Holders of the CSAL Commodity Securities are not currently required to take any action and a further announcement will be made in due course.
