## **VMS SPECIALIST APPOINTED TO ACCELERATE YOUANMI EXPLORATION**

---

The Board of Venus Metals Corporation Ltd ('Venus') is pleased to announce the appointment of geological consultant Mr Tim Putt to co-ordinate the Company's base metal exploration programs in the Youanmi Terrane of Western Australia.

Mr Putt has worked extensively on Volcanogenic Massive Sulfides ('VMS') in the Murchison Province of Western Australia, as well as base metal exploration in Southern Africa. Mr Putt led the team that identified and acquired Metals Australia Ltd's Manindi Zinc-Copper deposit in the Youanmi intrusive complex which abutts Venus' granted tenements at Youanmi.

Mr Putt, said:

*"Venus has assembled an impressive ground holding at Youanmi covering two recognised volcanogenic massive sulphide trends. The Manindi & Pincher Well Trends host extensive zinc-copper mineralisation and have the potential to host significant base metal deposits".*

Mr Putt has been a member of the mining & exploration community for over 20 years, having worked in Australia, Africa and the Pacific with both junior explorers and major mining houses. He has worked in various technical and corporate roles ranging from project generation and development to active mining operations.

Mr Putt is a Member of the Society of Economic Geologists & a Member of the Australian Institute of Geoscientists, and is qualified as a Competent Person, in range of commodities (including copper, lead & zinc), as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves".

Venus Metals looks forward to working closely with Mr Putt with the aim of moving the Company's projects at Youanmi towards discovery based exploration.
