Dear Sir/Madam

RECOMMENCEMENT OF OPERATIONS AT SURDA MINE

India Resources Limited (IRL) is pleased to advise that operations at the Surda copper mine have recommenced following discussions with all stakeholders including Hindustan Copper Limited (HCL), employees, creditors, Axis Bank and local authorities.

In accordance with recommencement planning, HCL has now paid 25 million INR (A\$0.5 million) as foreshadowed in the previous announcement made on 21 May 2015.

Initial production has exceeded expectations with 850 tonnes per day of ore being hoisted. We now anticipate production will normalise earlier than expected. IRL is targeting 1,150 tonnes per day in July 2015 and 1,250 tonnes per day in August 2015. Production will not be restricted by environmental limits this year as we can still produce up to 400,000 tonnes of ore in the 6.5 months of production this year (around 2,000 tonnes per day).

Yours faithfully

Arvind Misra
Managing Director
