Premiere Eastern Energy Limited is a leading integrated supply chain manager of petrochemical products in the PRC based in the Guangdong Province, PRC. As an integrated supply chain manager, it engaged in the wholesale distribution of petrochemical products including sourcing, storage, shipping, sales and distribution and after-sales services of petrochemical products in the PRC.

The Group's products can be grouped into 2 major classes of product; namely Refined Petroleum and Other Petrochemicals. Refined Petroleum comprised mainly the various grades of gasoline and diesel oil used mainly by automobiles. The Group's Other Petrochemicals comprised of mixed aromatics, C5 non aromatics, fuel oil, naphtha and MBTE, used mainly for gasoline blending.

The Group procures its supply of Refined Petroleum and Other Petrochemicals mainly from petroleum refineries and their authorised distributors in the resource-rich northern regions of the PRC. It distributes these products to the more economically developed southern coastal cities in the PRC, which has huge demands for fuel and energy and rely on the petroleum resources from the northern PRC regions. The Group also aggregates orders from its customers in order to procure these products from suppliers at more favourable terms through economies of scale.

Beneficial ownership allows the Group to use the facilities at their own discretion and for their own purposes. The strategic location near the Longkou harbor enables it to expediently and economically store Refined Petroleum intermediately for shipment to its customers located in the southern PRC cities.
