ASG continues to strengthen ICT leadership position in Australian Utilities

ASG Group (ASX:ASG) have strengthened their foothold as the leading ICT provider in the Utilities space, securing a deal with Victorian energy provider, United Energy and Multinet Gas (UE & MG).

The five year Infrastructure Managed Service deal, with three one year extension options, is worth over \$22 million excluding projects and is based on ASG's New World service offering. The contract was awarded to ASG following a competitive tender process.

This deal follows ASG's recent announcement of over \$50 million worth of work in the Australian Utility sector with Western Power and Synergy Energy in Western Australia.

"Customers have confidence in ASG's deep and intimate knowledge of the Energy sector and our ability to deliver efficient and cost-effective solutions," explained Geoff Lewis, ASG CEO.

"ASG have proven their capabilities at UE & MG and we believe this award is testament to the quality of work that ASG have been delivering. We are very pleased to be chosen to continue as UE & MG's partner for this important new project," said Mr Lewis.
