ASX Release

ASX Code: TSV

New Research Report on Transerv

Transerv Energy (ASX: TSV) is pleased to advise that Breakaway Research has initiated coverage on the Company, publishing an extensive research report.

The report focuses on the two-well program now underway at Transerv's Warro project in WA, noting that "Warro is the largest undeveloped onshore gas field in Australia".

The Breakaway Research reports says:

- Warro is a "giant gas field" with an estimated 8-10 trillion cubic feet of gas in place
- The field is located near key infrastructure 200km from Perth
- Alcoa is funding the drilling program now underway

The Breakaway research report can be viewed at www.transerv.com.au
