The preliminary final report has been prepared in accordance with the Australian Securities Exchange Listing Rules as set out in Appendix 4E and in accordance with the measurement and recognition (but not disclosure) requirements of the Australian Accounting Standards, Corporations Act 2001 and other pronouncements of the Australian Accounting Standards.

As such, this preliminary final report does not include all the notes of the type included in an annual financial report and accordingly, should be read in conjunction with the annual report for the year ended 30 June 2014 and with any public announcement made by Mobilarm Limited during the reporting period in accordance with the disclosure requirements of the Corporations Act 2001.

The accounting policies and methods of computation are the same as those adopted in the most recent annual financial report.

The accounting policies and methods of computation are the same as those adopted in the annual financial report for the year ended 30 June 2014.

The financial report is presented in Australian Dollars and all values are rounded to the nearest dollar.

#### (b) Going Concern

This report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Company has incurred a net loss after tax for the year ended 30 June 2015 of \$807,086 (2013: \$63,392) and experienced net cash outflows from operating activities of \$2,149,970 (2014: \$1,052,788). As 30 June 2015, the Company had net assets of \$5,356,542 (2014: \$5,666,639).

Notwithstanding the above, the ability of the Company to continue as a going concern is reliant on:

- increased cash flows from operations, and/ or
- the raising of funds through a debt or equity issues.

The Directors have reviewed the business outlook and plans of the company and believe that the Company will achieve increased cash flows from operations to sustain its ability to continue as a going concern, which will also make the raising of funds more achievable if needed. The Company started a rental program during the previous year. The Company has spent considerable operating cash flows to build up stock for this program but is looking to derive long-term cash inflows from the program. Net rental revenues increased from \$169,173 in the previous year to \$831,498. The Company has also expanded its service portfolio to increase the business resulting in a total increase in revenues of \$875,873 during the year. The Company is also focused on long term cost savings to continue to improve its operating results.

Should the entity not achieve the matters set out above, there is significant uncertainty whether the entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at amounts stated in the financial report.

The financial report does not include any adjustments that may be necessary if the Company is unable to continue as a going concern.
