CHAIRMAN'S LETTER

Dear Shareholder

On behalf of the Board I enclose Regalpoint Resources Limited's Annual Report. It's been another tough, unrelenting year in the resources sector as you would be aware.

Access to capital to fund exploration and development programs continues to be very tight as investors remain cautious during the current economic cycle. Significant volatility in the resources sector has continued and prices for uranium and other commodities have remained too low to justify substantial exploration in the past year. In addition, the regulatory regime in Queensland has become less certain with the change of government who banned uranium mining – a double whammy given the fallout from the Fukushima earthquake.

Within this context, Regalpoint has continued to manage its cash resources very carefully and maintain its core projects with minimum expenditure as we believe these can deliver significant value upside once the market improves. The Non-Executive Directors have once again continued to 'park' their fees to help preserve cash and will continue to do so. We all remain committed to the uranium sector and have expended considerable time, effort and our own resources to support the company and you the shareholders.

Whilst the uranium sector has been challenging over the past few years, we believe the long term fundamentals for the industry remain positive. There is significant global investment forecast in nuclear power generation over the coming years to meet the growing demand for energy, which should result in increased demand for uranium production and underpin the economics for the sector in the years ahead. There are currently over 60 reactors under construction around the world (source: World Nuclear Association) and significantly:

- Japan recently commenced a restart of its reactors under new safety standards following the shutdown after the Fukushima earthquake in 2011; and
- China has over 20 reactors under construction to more than double its nuclear capacity by 2020.

Regalpoint remains strategically positioned to benefit from a positive shift in the uranium cycle with its core portfolio of uranium projects in Australia. The Board believes our uranium strategy will in time deliver value to shareholders, and is currently evaluating some additional uranium project opportunities in Australia to complement our project portfolio.

We are currently undertaking a review of our strategic capital requirements and expect to make an announcement shortly. Thank you for your support of the Company during the past year in what has continued to be a difficult period for the junior resources sector, however we plan and hope for a more positive year ahead.

Hon. Shane L Stone AC PGDK QC FACE FAIM FAICD F FIN
Non-Executive Chairman

OPERATIONAL REPORT

EXPLORATION SUMMARY

In what has remained a challenging environment for participants in the Uranium sector, Regalpoint has continued to carefully manage its financial resources and incrementally progress its portfolio of uranium projects in Australia. The Company has also continued to seek and evaluate new projects with the potential to create near-term value for shareholders, but did not secure any new opportunities during the period.

A comprehensive review of the Company's existing projects highlights significant potential, particularly of the Paroo Range Project near Mount Isa. Two previous drilling programs by the Company at the Skevi Prospect delineated uranium mineralisation in a similar geological setting to those of nearby uranium resources at Valhalla and Skal. Previously outstanding tenement applications at the Paroo Range Project have now been granted and targets within these areas are now being defined. Revised geological interpretations of the Company's Rum Jungle Project, Northern Territory, have identified potential strike extensions of the gold mineralisation at the Highlander Prospect. Regalpoint has relinquished all of its tenements in the King Leopold Project, Western Australia.

PAROO RANGE, QLD (RGU 100%)

Uranium Targets

The Company's Paroo Range Project (EPM16923, 16980, 25464, 25465, 25503) comprises five (5) contiguous granted exploration licences approximately 25km northeast of Mount Isa. The two outstanding applications (EPM25465, 25503) were granted in September 2014 and the project now covers a total of ~363 km² of granted tenure. The Paroo Range Project is immediately east of Paladin Energy's Isa Uranium Joint Venture, which includes a number of defined uranium resources including those at Valhalla, Skal and Bikini. The Company is targeting similar uranium resources where mineralisation is developed in fault-breccia zones associated with albite-haematite alteration within the Eastern Creek Volcanics.

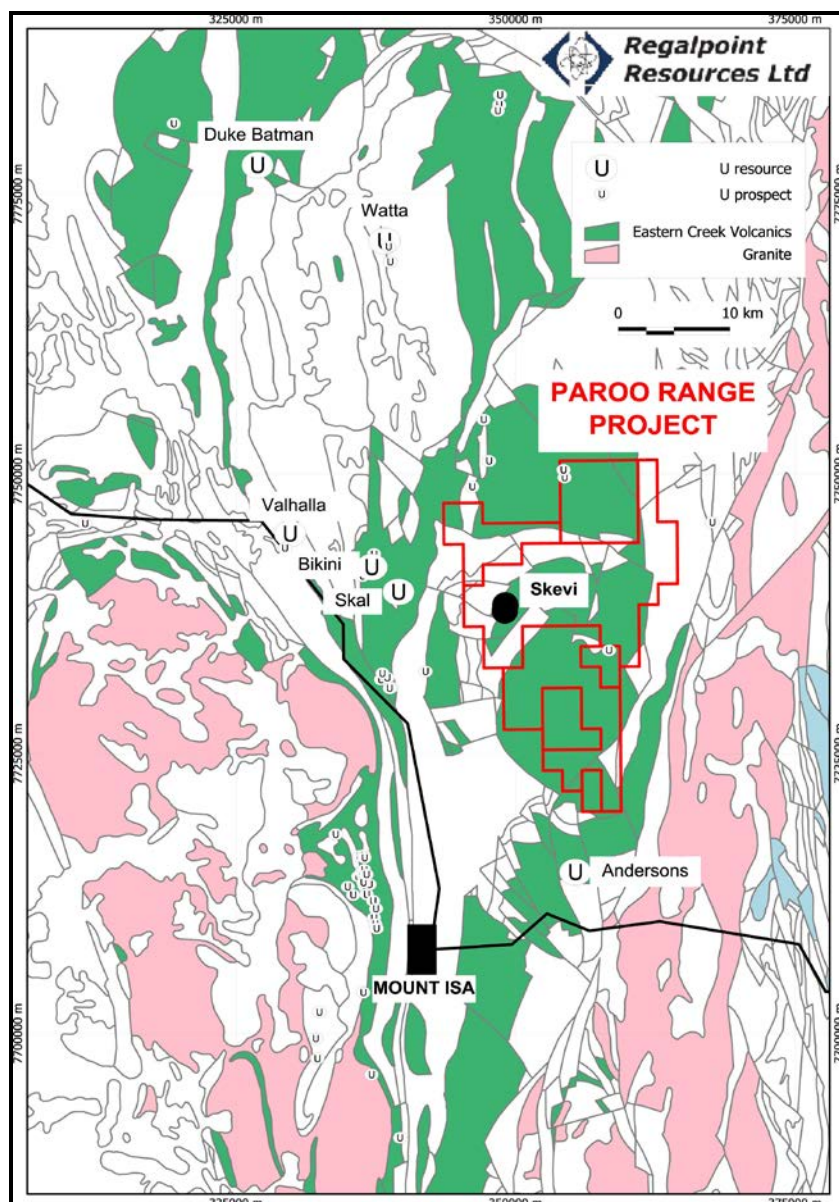

Figure 2: Known uranium prospects in Mount Isa area with exposed extent of Eastern Creek Volcanics

The Company completed an airborne radiometric-magnetic survey over EPM16923 and 16980 in December 2010 and defined a number of robust uranium anomalies. While some of these anomalies had already been explored, a number of new targets were identified. The Skevi Prospect and its northern extension, Thesaurus, were discovered at one of these targets where surface samples returned up to 0.56% U_3O_8 .

RC drilling at the Skevi Prospect identified several discrete mineralised faults spaced 6 to 10 metres apart and extending sub-vertically to depth. The best drill result was 7 metres @ 0.11% U_3O_8 , which included 1 metre @ 0.42% U_3O_8 (PSRC023). The fault zone trends north-south for over 500m and appears to be open in both directions where it is buried by shallow sediments. The geological setting of the uranium mineralisation at Skevi closely resembles that reported at the Valhalla and Skal deposits, where a series of sub-parallel, sub-vertical mineralised lenses within a fault breccia are offset by cross faults.

OPERATIONAL REPORT

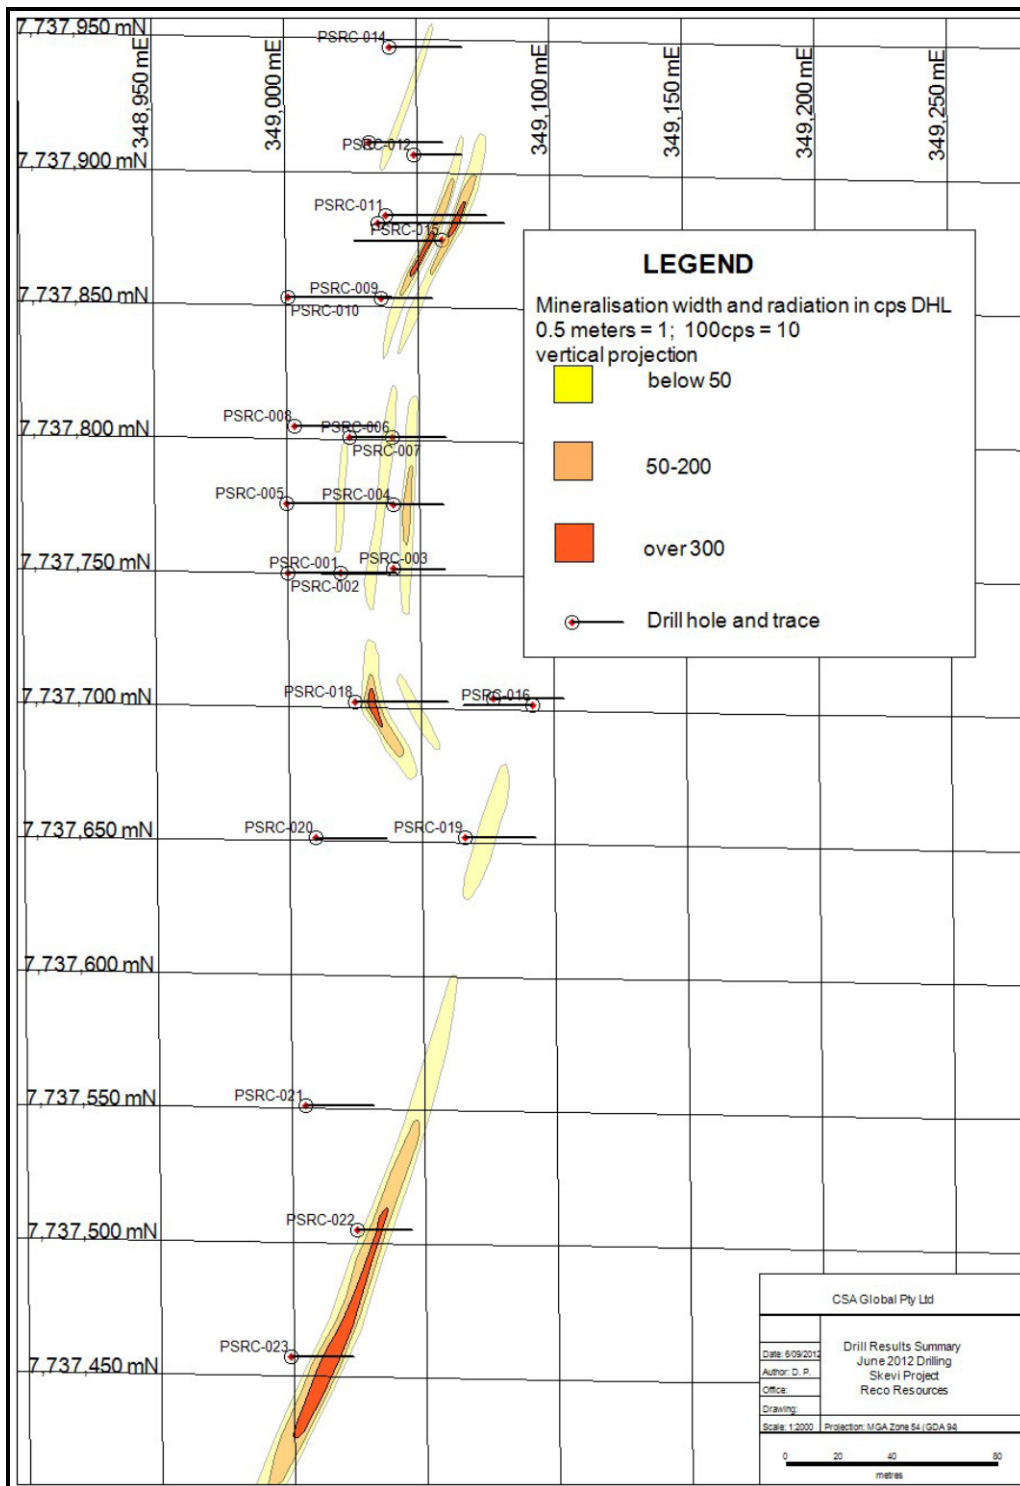

Figure 4: Plan showing drilling of central part of Skevi Prospect

OPERATIONAL REPORT

Figure 5: Geological cross sections showing geometry of the mineralisation and alteration zone

The drilling program confirmed that the mineralisation at Skevi is analogous to that found at the nearby Valhalla and Skal uranium deposits. These deposits are confined to fault zones within metamorphosed basalt and sediments of the Eastern Creek Volcanics. The mineralisation also correlates to zones of strong albite-haematite alteration. For example, the Skal deposit is hosted in a series of mineralized lenses, which are offset by cross-faults and, in particular, is considered as a geological model for the Skevi exploration program.

OPERATIONAL REPORT

Future work at the Skevi Prospect will involve step-out drilling to further constrain the extent of the mineralised envelope, especially to the north towards and around the Thesaurus Prospect, where surface samples returned up to 542ppm U₃O₈. Basic field mapping and sampling are required elsewhere in the project area.

RUM JUNGLE, NT (RGU 100%)

Gold Exploration Target

The Company's Rum Jungle Project is located about 55km south of Darwin in the Batchelor – Adelaide River area where there are numerous uranium, gold and base metal prospects and abandoned mines. The project comprises one granted Exploration Licence (EL26094) of approximately 28km² and one application (EL26098) for approximately 30km².

RGU has completed drilling, sampling and geophysical surveys within EL26094, and has confirmed that the Highlander gold prospect is a high quality target in an under-explored region. No fieldwork was carried out on the Rum Jungle Project during the quarter and future drilling will target the northern extensions of the Highlander gold trend.

Gold mineralisation is associated with gold-pyrite-arsenopyrite-bearing quartz veins. Previous interpretations suggested that these quartz veins intruded along the boundary between the Wildman Siltstone and Whites Formation. Although this major lithological boundary appears important for focussing quartz veins, the Company's costean and drill results suggests that the mineralised quartz veins cut geological contacts. A more likely interpretation is that the quartz veins have formed along axial planar structures related to the regional north-south plunging folds. New targets include regional fold closures and flexures. A number of these have been mapped in EL26094 and future work intends to test them for gold-bearing veins.

KING LEOPOLD, WA (RGU: 100%)

Uranium Targets

The Company reviewed the remaining licences (E80/4264 and E80/4311) and decided that the exploration it had completed had suitably tested the area. The entire project was relinquished.

COMPETENT PERSONS STATEMENT

The information in this report that relates to Exploration Results and Exploration Targets is based on information compiled by Dr Michael Green, who is a Member of the Australian Institute of Geoscientists ("MAIG"). Dr Green is a consultant geologist with Khalkeus Minerals Ltd. Dr Green has sufficient experience relevant to the styles of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Green consents to the inclusion in this report of the matters based on his information in the form and context in which they appear.

The Exploration Results referenced herein for the Paroo Range Project were reported to the ASX on:

- *2 November 2011 [**Significant New Mineralised Zone – Paroo Range (RGU:100%)**] and*
- *17 July 2012 [**Encouraging drill results from Paroo Range**] under the 2004 JORC Code, and*
- *31 January 2014 [**Quarterly activities report for the period ended 31 December 2013**]*

under the 2012 JORC Code. There have been no material changes since these results were reported.

DIRECTORS' REPORT

The Directors present their report together with the financial report of Regalpoint Resources Limited (**Company**) for the financial year ended 30 June 2015 and the Auditor's Report thereon.

DIRECTORS

The names and details of the Directors in office during the financial year and until the date of this report are set out below.

- Hon. Shane L Stone (Non-Executive Chairman)
- Simon Trevisan (Executive Director)
- Bruce McCracken (Executive Director)
- Ian Murchison (Non-Executive Director)

Directors have been in office the entire period unless otherwise stated.

PRINCIPAL ACTIVITIES

The principal activities of the Company during the financial year comprised of mineral exploration in Australia. There were no other significant changes in the nature of the Company's activities during the financial year.

DIVIDENDS PAID OR RECOMMENDED

The Directors of the Company do not recommend the payment of a dividend in respect of the current financial year ended 30 June 2015.

REVIEW OF OPERATIONS

The Company's net loss after providing for income tax for the year ended 30 June 2015 amounted to \$773,871 (2014: \$843,166) including exploration expenditure written off of \$413,068 (2014: \$277,641). At 30 June 2015, the Company has \$78,456 between cash and cash equivalents and investments.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Company during the year.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

Transcontinental Group (TRG) has provided a letter of support to the Company in which TRG confirmed it will provide financial support to Regalpoint if required to enable the Company to carry on its business as a going concern during the 12 month period from the date of signing the annual financial report for the period ended 30 June 2015.

There were no other post reporting date events at the reporting date.

LIKELY DEVELOPMENTS

The Company will continue to pursue its main objective of developing interests in exploration projects.

ENVIRONMENTAL REGULATION

The Company's exploration and mining activities are governed by a range of environmental legislation. As the Company is still in the development phase of its interests in exploration projects, it is not yet subject to the

DIRECTORS' REPORT

public reporting requirements of environmental legislation. To the best of the Directors' knowledge, the Company has adequate systems in place to ensure compliance with the requirements of the applicable environmental legislation and is not aware of any breach of those requirements during the financial year and up to the date of the Directors' Report.

National Greenhouse and Energy Reporting Act 2007

This is an Act to provide for the reporting and dissemination of information related to greenhouse gas emissions, greenhouse gas projects, energy production and energy consumption, and for other purposes. The Entity is not subject to the National Greenhouse and Energy Reporting Act 2007.

DIRECTORS' REMUNERATION

Information about the remuneration of Directors is set out in the Remuneration Report below.

REMUNERATION REPORT (AUDITED)

This report details the nature and amount of remuneration for each Director of Regalpoint Resources Limited and for the other Key Management Personnel. This Remuneration Report outlines the Director and Executive remuneration arrangements of the Company and has been audited in accordance with the requirements of section 308(3C) of the *Corporations Act 2001* and the Corporations Regulations 2001.

For the purposes of this report, Key Management Personnel of the Company are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any Director (whether Executive or otherwise) of the Company. The Entity presently has two Executive Directors, one Non-Executive Director and a Non-Executive Chairman.

Key Management Personnel disclosed in the Report

Names and positions held of Parent Entity Directors and Key Management Personnel in office at any time during the financial year are:

Hon. Shane L Stone	(Non-Executive Chairman)
Bruce McCracken	(Executive Director)
Ian Murchison	(Non-Executive Director)
Simon Trevisan	(Executive Director)
<i>Other Key Management Personnel</i>	
Fleur Hudson	(Company Secretary)

Remuneration Governance

The Remuneration and Nomination Committee provides assistance to the Board with respect to the following:

- (a) Remuneration policies and practices;
- (b) Remuneration of the Executive Officer and Executive Directors;
- (c) Composition of the Board; and
- (d) Performance Management of the Board and of the Executive Officer.

Use of Remuneration Consultants

During the year, the Company has not required or used any remuneration consultants.

Membership and Composition

The minimum number of members required on the Committee is two Directors. At least one member of the Committee must be a Non-Executive Director of the Board.

The Chair of the Committee is to be a Non-Executive Director, nominated by the Board, who may be the Chairman of the Board.

DIRECTORS' REPORT

The Secretary of the Committee shall be the Company Secretary or such other person as nominated by the Board.

Executive Remuneration Policy and Framework

The Remuneration and Nomination Committee is to review and make recommendations regarding the following:

- (a) strategies in relation to executive remuneration policies;
- (b) compensation arrangements for the Executive Director, Non-Executive Directors and other senior executives as appropriate;
- (c) performance related incentive policies;
- (d) the Company's recruitment, retention and termination policies;
- (e) the composition of the Board having regard to the skills/experience desired and skills/experience represented;
- (f) the appointment of Board members;
- (g) the evaluation of the performance of the Executive Director;
- (h) consideration of potential candidates to act as Directors; and
- (i) succession planning for Board members.

Processes

The Committee shall meet as frequently as required to undertake its role effectively and properly. A quorum for the Committee meeting is when at least two members are present. Any relevant employees may be invited to attend the Committee meetings. There were no other Committee meetings during the financial year.

The issues discussed at each Committee meeting as well as the Minutes of each meeting are reported at the next Board Meeting. The Committee Chair shall report the Committee's recommendations to the Board after each meeting.

The Committee reviews, and may recommend to the Board, any necessary action to require at least annually, and recommends any changes it considers appropriate to the Board. The Committee may undertake any other special duties as requested by the Board.

Key Management Personnel Remuneration Policy

The Board's policy for determining the nature and amount of remuneration of Key Management Personnel for the economic entity is as follows:

The remuneration structure for Key Management Personnel is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Company. The contracts for service between the Company and Key Management Personnel are on a continuing basis, the terms of which are not expected to change in the immediate future. There is no scheme to provide retirement benefits, other than statutory superannuation.

The Remuneration Committee determines the proportion of fixed and variable compensation for each Key Management Personnel.

DIRECTORS' REPORT

Non-Executive Director Remuneration Policy

On appointment to the Board, all Non-Executive Directors enter into an agreement with the Company. The Letter of Appointment summarises the Board policies and terms, including remuneration, relevant to the Office of Director.

The Non-Executive Chairman does not receive additional fees for participating in or chairing committees.

Non-Executive Directors do not receive retirement allowances.

The Non-Executive Chairman and Non-Executive Directors have chosen to receive their fees by invoicing the Company. Fees provided to Non-Executive Directors are exclusive of superannuation.

The Non-Executive Directors do not receive performance-based pay.

Fees are reviewed annually by the Board taking into account comparable roles. The current base fees were reviewed with effect from 1 July 2015. The following fees have applied:

	From 1 July 2015	From 1 July 2014 to 30 June 2015	From 1 July 2013 to 30 June 2014
Base Fees			
Non-Executive Chairman	\$72,000	\$72,000	\$72,000
Executive Director	\$72,000	\$72,000	\$58,995
Non-Executive Directors	\$30,000	\$30,000	\$30,000

There are no other additional fees paid to Non-Executive Chairman and Non-Executive Directors for participating in the Audit Committee, Nomination Committee and Remuneration Committee.

Company Performance, Shareholder Wealth and Director and Executive Remuneration

The Remuneration Policy has been tailored to increase goal congruence between Shareholders, Directors and Executives. Each year the Board reviews Directors remuneration and will consider the issue of options as part of the Director's remuneration to encourage the alignment of personal interest and shareholder interests.

Performance based Remuneration

Due to the size of the Company, its current stage of activities and its relatively small number of employees, the Company has not implemented performance-based remuneration for the current year or prior years.

The Company did not have any remuneration limited to performance.

Voting and comments made at the Company's 2014 Annual General Meeting

The Company received more than 99.5% of "yes" votes on its Remuneration Report for the 2014 financial year.

The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

DIRECTORS' REPORT

Notes in relation to the table of related party transactions.

A Company associated with Mr Trevisan provides office space, office equipment, supplies, corporate management and administration services in connection with the operations of the Company and amounts are payable on a monthly basis.

Corporate administration services include those services necessary for the proper administration of a small public Company, including:

- (a) company secretarial and accounting, corporate governance and reporting and administration support, management of the Company's website, management of third party professional and expert service providers including legal, accounting, tax, audit and investment banking, independent technical expert and other services associated with proper administration of a listed public Company;
- (b) operating, marketing, strategic and financial activities required in relation to the Company's Australian mining and exploration projects; and
- (c) provision of 'A' grade office space in a central business district office for the Company's main corporate office including use of IT, photocopying and other office equipment and supplies.

The Company must pay a monthly fee to Transcontinental Investments Pty Ltd (TRG) plus reimbursement each month for certain costs, expenses and liabilities incurred and/or paid by TRG on behalf of the Company during the month.

From 1 July 2014 TRG agreed to charge \$10,000 monthly fee for Administration Services by accruing 100% of the fees without charging any interest or required payment of the full invoice on ordinary terms.

There were no other related party transactions to individual or Directors of the Company during the year ended 30 June 2015.

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of the Court to bring proceedings on behalf of the Entity or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

(a) Indemnification

The Company has agreed to indemnify the current Directors and Company Secretary of the Company against all liabilities to another person (other than the Company or a related body corporate) that may arise from their position as Directors and Company Secretary of the Company, except where the liability arises out of conduct involving a lack of good faith.

The Agreement stipulates that the Company will meet to the maximum extent permitted by law, the full amount of any such liabilities, including costs and expenses.

DIRECTORS' REPORT

(b) Insurance Premiums

During the year ended 30 June 2015, the Company paid insurance premiums in respect of Directors and Officers Liability Insurance for Directors and Officers of the Company. The liabilities insured are for damages and legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the Directors and Officers in their capacity as Directors and Officers of the Company to the extent permitted by the *Corporations Act 2001*. On 31 March 2015, the Company paid an insurance premium of \$6,960 covering the period from 2 March 2015 to 2 March 2016 (2014: \$11,700).

NON-AUDIT SERVICES

The Board of Directors, in accordance with advice from the Audit Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for Auditors imposed by the *Corporations Act 2001*.

The Board and the Audit and Risk Committee have considered the non-audit services provided during the financial year by the Auditor and are satisfied that the provision of those non-audit services during the financial year by the Auditor is compatible with, and did not compromise, the Auditor's independence requirements of the *Corporations Act 2001* for the following reasons:

- (a) all non-audit services were subject to the Corporate Governance procedures adopted by the Company; and
- (b) the non-audit services provided do not undermine the general principals relating to Auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the Auditor's own work, acting in a management or decision-making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

There were no other services provided from BDO Audit (WA) Pty Ltd during the period.

This is the end of the Audited Remuneration Report.

AUDITORS INDEPENDENCE DECLARATION

The Auditors Independence Declaration as required under section 307C of the *Corporations Act 2001* for the year ended 30 June 2015 has been received and can be found on page 27.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2)(a) of the *Corporations Act 2001*.

ROUNDING OF AMOUNTS

The Company is of a kind referred to in Class Order 98/100, issued by Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Class Order to the nearest dollar, or in certain cases, the nearest thousand dollars.

Signed on behalf of the Board of Directors.

Bruce McCracken

Executive Director

Dated at Perth, Western Australia, this 10th September 2015

CORPORATE GOVERNANCE

The Board is responsible for the overall corporate governance of the Company, and it recognises the need for the highest standards of ethical behaviour and accountability. It is committed to administering its corporate governance structures to promote integrity and responsible decision making.

NOTES TO THE FINANCIAL STATEMENTS

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The primary accounting policies adopted in the preparation of the Financial Statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(a) General Information

Regalpoint Resources Limited (**Company**) or (**Entity**) is a public Company listed on the Australian Securities Exchange (ASX ticker: RGU), incorporated in Australia and operating in Australia. The financial report of the Company for the financial year ended 30 June 2015 comprises the Company. The address of the Company's registered office is Level 14, 191 St Georges Terrace, Perth WA 6000, Australia. The Company is primarily involved in the exploration of minerals.

The Company advises that in accordance with ASX Listing Rule 4.10.19 during the financial year ended 30 June 2015 it used its cash and assets that are readily convertible to cash in a way that is consistent with its business objectives.

(b) Basis of Preparation

The financial report is a general-purpose financial report which has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Regalpoint Resources Limited is a for profit entity for the purpose of preparing the Financial Statements.

(i) Compliance with IFRS

The Financial Statements of the Company also comply with International Financial Reporting Standards (IFRSs) and interpretations adopted by the International Accounting Standard Board (IASB).

The Board of Directors' has prepared the financial report on a going concern basis, any additional funding that may be required is anticipated to be obtainable and will allow the Company to continue to fund its operations and further develop their mineral exploration and evaluation assets during the twelve month period from the date of this financial report.

The Financial Statements were approved by the Board of Directors on 24 August 2015.

(ii) Historical cost convention

The financial report has been prepared on an accrual basis and is based on historical costs *modified* by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

All amounts are presented in Australia dollars, unless otherwise noted.

(c) Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Financial Statements requires Management to make judgements, estimates and assumptions that affect the reported amounts in the Financial Statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these

NOTES TO THE FINANCIAL STATEMENTS

estimates. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the Financial Statements are outlined below:

(i) Significant Accounting Judgements

Exploration Expenditure

The write-off and carrying forward of exploration acquisition costs is based on an assessment of an area of interest's viability and/or the existence of economically recoverable reserves. Information may come to light in a later period which results in the asset being written off as it is not considered viable. During the year the Company has impaired (written off) exploration and evaluation expenditure of \$413,068 (2014: \$277,641).

(d) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Board of Regalpoint Resources Limited has assessed the financial performance and position of the Entity, and makes strategic decisions. The Board of Directors which has been identified as being the Chief Operating Decision Maker, who is responsible for allocating resources and assessing performance of the operating segments.

(e) Income Tax Expenses or Benefit

The income tax expense or benefit (revenue) for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax base of assets and liabilities and their carrying amounts in the Financial Statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for all temporary differences, between carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases, at the tax rates expected to apply when the assets are recovered or liabilities settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. Exceptions are made for certain temporary differences arising on initial recognition of an asset or a liability if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit. Deferred tax assets are only recognised for deductible temporary differences and unused tax losses if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

(f) Cash and Cash Equivalents

'Cash and Cash Equivalents' includes cash at bank and in hand, deposits held at call with financial institutions, other short-term highly liquid deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and

NOTES TO THE FINANCIAL STATEMENTS

bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Statement of Financial Position.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

(g) Trade and Other Receivables

Trade debtors are recognised as the amount receivable and are due for settlement within 30 days from the end of the month in which services were provided. Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off against the receivable directly unless a provision for impairment has previously been recognised.

A provision for impairment of receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. Loans granted are recognised at the amount of consideration given or the cost of services provided to be reimbursed.

(h) Revenue Recognition

Revenues are recognised at fair value of the consideration received net of the amount of GST.

Interest Income

Interest income is recognised using the effective interest method. The effective interest method uses the effective interest rate which is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial asset. When a receivable is impaired, the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(i) Comparative Figures

Comparative figures have been adjusted to conform to changes in presentation for the current financial year where required by accounting standards or as a result of changes in accounting policy. The values are included as a consequence of AASB 101 *Presentation of Financial Statements*.

(j) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

(k) Trade and Other Payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the Entity. Trade accounts payable are normally settled within 60 days.

(l) Loans and Borrowings

Loans are recognised at their principal amount, subject to set-off arrangements. Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed.

NOTES TO THE FINANCIAL STATEMENTS

(m) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of GST except where GST incurred on a purchase of goods and services is not recoverable from the Taxation Authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flow on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authorities are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(n) Employee Benefits

Short-term Employee Benefit Obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for accumulating sick leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

Other long-term Employee Benefit Obligations

Liabilities for long service leave and annual leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future salaries and wages levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of government bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

The obligations are presented as current liabilities in the Statement of Financial Position if the Entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

Termination Benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the followings dates:

- (a) when the Company can no longer withdraw the offer of those benefits; and

NOTES TO THE FINANCIAL STATEMENTS

- (b) when the Entity recognises costs for a restructuring that is within the scope of AASB 137 and involves the payment of termination benefits.

In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

Share-based Payments

Share-based compensation benefits are provided to employees of the Company under Employee Option Plan and an Employee Share Scheme.

The fair value of options granted by the Company under Employee Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted, which includes any market performance conditions and the impact of any non-vesting conditions but excludes the impact of any service and non-market performance vesting conditions.

(o) Exploration and Evaluation Expenditure

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made. When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Exploration and evaluation expenditure encompasses expenditures incurred by the Company in connection with the exploration for and evaluation of mineral resources before the technical feasibility and commercial viability of extracting a mineral resource are demonstrable.

Exploration and evaluation expenditure incurred by the Company is accumulated for each area of interest and recorded as an asset if:

- (i) the rights to tenure of the area of interest are current; and
- (ii) at least one of the following conditions is also met:
 - A. the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; and/or
 - B. exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the areas of interest are continuing.

For each area of interest, expenditure incurred on the exploration of tenements throughout Australia is capitalised, classified as tangible or intangible, and recognised as an exploration and evaluation asset. Exploration and evaluation assets are measured at cost at recognition. A provision for unsuccessful

NOTES TO THE FINANCIAL STATEMENTS

exploration and evaluation is created against each area of interest by means of a charge to the Statement of Profit or Loss and Other Comprehensive Income. The recoverable amount of each area of interest is determined on a bi-annual basis and the provision recorded in respect of that area adjusted so that the net carrying amount does not exceed the recoverable amount.

For areas of interest that are not considered to have any commercial value, or where exploration rights are no longer current, the capitalised amounts are written off against the provision and any remaining amounts are charged against profit. Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

(p) Impairment of Assets

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Profit or Loss and Other Comprehensive Income.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Financial Assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Non-Financial Assets

The carrying amounts of the non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset of the Company that generates cash flows that largely are independent from other assets and companies. Impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (company of units) on a pro rata basis.

(q) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation.

Plant and Equipment

Plant and equipment are measured on a cost basis.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected

NOTES TO THE FINANCIAL STATEMENTS

net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to their present values in determining recoverable amounts.

Depreciation

The depreciable amount of all fixed assets is depreciated on a straight-line basis over their useful lives to the economic entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and equipment	11 - 33%
Motor vehicles	20%

(r) Financial Instruments

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

Financial Liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Impairment

At each reporting date, the Entity assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(s) Contributed Equity

Ordinary shares are classified as Equity. Mandatorily redeemable preference shares are classified as Liabilities. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Earnings per share

Basic earnings per share

Basic earnings per share are calculated by dividing:

- (i) the profit or loss attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares;

NOTES TO THE FINANCIAL STATEMENTS

- (ii) by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- (i) the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- (ii) the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

NOTES TO THE FINANCIAL STATEMENTS

(u) New Accounting Standards and Interpretations

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Entity for the year ended 30 June 2015. These are outlined in the table below.

AASB 9 <i>Financial Instruments</i> (December 2010)	AASB 139 <i>Financial Instruments: Recognition and Measurement</i>	<p>AASB 9 (December 2014) is a new Principal standard which replaces AASB 139. This new Principal version supersedes AASB 9 issued in December 2009 & 2010 and includes a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting.</p> <p>AASB 9 is effective for annual periods beginning in or after 01 January 2018. However, the Standard is available for early application. The own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments.</p> <p>The final version of AASB 9 introduces a new expected-loss impairment model that will require more timely recognition of expected credit losses. Specifically, the new standard requires entities to account for expected credit losses from when financial instruments are first recognised and to recognise full lifetime expected losses on more timely basis.</p> <p>Amendments to AASB 9 issued in December 2013 included the new hedge accounting requirements, including changes to hedge effectiveness testing, treatment of hedging costs, risk components that can be hedged and disclosures.</p> <p>These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. The main changes are:</p> <p>(a) Financial assets that are debt instruments will be classified based on:</p> <ol style="list-style-type: none"> (1) the objective of the Entity's business model for managing the financial assets; and (2) the characteristics of the contractual cash flows. <p>(b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income (instead of in profit or loss). NOTES TO THE FINANCIAL STATEMENTS

2. FINANCIAL RISK MANAGEMENT

(a) Overview

The Company has exposure to the following risks from their use of financial instruments:

- (i) Credit risk
- (ii) Liquidity risk
- (iii) Market risk

This Note presents information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk and the management of capital.

Regalpoint Resources Limited's Risk Management Framework is supported by the Board, Management and the Audit and Risk Committee. The Board is responsible for approving and reviewing the Company's Risk Management Strategy and Policy. Management is responsible for monitoring that appropriate processes and controls are in place to effectively and efficiently manage risk. The Audit and Risk Committee is responsible for identifying, monitoring and managing significant business risks faced by the Company and considering the effectiveness of its internal control system. Management and the Audit and Risk Committee report to the Board.

The Board has established an overall Risk Management Policy which sets out the Company's system of risk oversight, management of material business risks and internal control.

The Entity holds the following financial instruments.

	2015	2014
	\$	\$
FINANCIAL ASSETS		
Cash and cash equivalents	78,456	394,345
Trade receivables	2,923	12,035
	81,379	406,380
FINANCIAL LIABILITIES		
Trade and other payable	482,354	272,075
	482,354	272,075

(b) Financial Risk Management Objectives

The overall financial Risk Management Strategy focuses on the unpredictability of the finance markets and seeks to minimise the potential adverse effects on financial performance and protect future financial security.

NOTES TO THE FINANCIAL STATEMENTS

(c) Credit Risk

Credit risk is the risk of financial loss to the Entity if a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and cash equivalents, deposits with banks, financial institutions and trade and other receivables. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.

The Entity does not hold any credit derivatives to offset its credit exposure. The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to historical information about counterparty default rates.

	2015	2014
	\$	\$
Trade receivables		
<i>Counterparties without external credit rating</i>		
Group 1 - new customers (less than 6 months)	2,923	12,035
Group 2 - new customers (more than 6 months) with no defaults in the past	-	-
	2,923	12,035
Cash at bank and short-term bank deposits		
Call Deposit (monthly short-term)	78,456	394,345
	78,456	394,345

Exposure to Credit Risk

The carrying amount of the Entity's financial assets represents the maximum credit exposure. The Entity's maximum exposure to credit risk at the reporting date was:

	2015	2014
	\$	\$
Cash and cash equivalents	78,456	394,345
Trade and other receivables	2,923	12,035
Held to maturity investments	-	-
	81,379	406,380

(d) Liquidity Risk

Liquidity risk arises from the financial liabilities of the Entity and the Entity's subsequent ability to meet their obligations to repay their financial liabilities as and when they fall due.

Ultimate responsibility for Liquidity Risk Management rests with the Board of Directors. The Board has determined an appropriate Liquidity Risk Management Framework for the Management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages

NOTES TO THE FINANCIAL STATEMENTS

liquidity risk by maintaining adequate reserves and continuously monitoring budgeted and actual cash flows and matching the maturity profiles of financial assets, expenditure commitments and liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of discounting is not significant. The following are contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting arrangements:

	Carrying Amount \$	Contractual Cash Flows \$	6 Months or less \$	6-12 Months \$	1-2 Years \$	2-5 Years \$
2015						
Trade and other payables	(482,354)	(482,354)	(482,354)	-	-	-
2014						
Trade and other payables	(272,075)	(272,075)	(272,075)	-	-	-

(e) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and commodity prices that will affect the Entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising return.

Foreign Currency Risk

The Entity has not been exposed to currency risk on transactions that are denominated in a currency other than the respective functional currencies, primarily the Australian dollar (AUD).

The Board does not consider the Company or the Entity is materially exposed to changes in foreign exchange rates. As a result, the Entity does not currently seek to mitigate its foreign currency exposures. The Board believes the reporting date risk exposures are representative of the risk exposure inherent in financial instruments.

Interest Rate Risk

The Entity's exposure to interest rates primarily relates to the Entity's cash and cash equivalents and held to maturity investments. The Entity manages market risk by monitoring levels of exposure to interest rate risk and assessing market forecasts for interest rates.

Profile

At the reporting date the interest rate profile of the Company's and the Entity's interest bearing financial instruments are:

NOTES TO THE FINANCIAL STATEMENTS

Variable Rate Instruments

	2015 \$	2014 \$
Financial Assets	78,456	394,345
Financial Liabilities	-	-
	78,456	394,345

The Entity manages its interest rate risk by monitoring available interest rates while maintaining an overriding position of security whereby the majority of cash and cash equivalents are held in AA-rated bank accounts.

The Entity's exposure to interest rate risk and effective weight average interest rate by maturing periods is set out in tables below:

	Weighted Average Effective Interest Rate	Floating Interest Rate	Fixed Interest Maturing within 1 Year	Non- Interest Bearing	Total
	2015 %	2015 \$	2015 \$	2015 \$	2015 \$
Financial Assets					
Cash and cash equivalents	2.0	78,456	-	-	78,456
Trade and other receivables	-	-	-	2,923	2,923
Total Financial Assets	-	78,456	-	2,923	81,379
Financial Liabilities					
Trade and other payables	-	-	-	482,354	482,354
Total Financial Liabilities	-	-	-	482,354	482,354

Other Market Price Risk

The Entity is involved in the exploration and development of mining tenements for minerals. Should the Company successfully progress to a producer, revenues associated with mineral sales and the ability to raise funds through equity and debt will have some dependence upon commodity prices.

Cash Flow Sensitivity Analysis for Variable Rate Instruments

A change of 100 basis points in interest rates at reporting date would have increased/(decreased) equity and profit or loss by the amounts shown below. The Board assessed a 100 basis point movement as being reasonably possible based on forward treasury rate projections. This analysis assumes that all other variables remain constant.

NOTES TO THE FINANCIAL STATEMENTS

A change of 100 basis points in interest rates would have increased or decreased the Entity's profit or loss by \$785.

	+1% (100 basis points)	-1% (100 basis points)
	2015 \$	2015 \$
Cash and cash equivalents	785	(785)
	785	(785)

Due to their short-term nature, the carrying amounts of the current receivables, current payables and current borrowings are assumed to approximate their fair value. The Company does not have any fair value assets that required disclosure under AASB 13.

3. SEGMENT INFORMATION

Operating segments are reported in a manner that is consistent with the internal reporting to the Chief Operating Decision Maker ('CODM'), which has been identified by the Company as the Chief Executive Officer and other members of the Board of Directors.

Management has determined that the Entity has only one reportable segment, being mineral exploration in Australia. As the Entity is focused on mineral exploration, the Board monitors the Entity based on actual versus budgeted exploration expenditure incurred by area of interest. This internal reporting framework is the most relevant to assist the Board with making decisions regarding the Entity and its ongoing exploration activities, while also taking into consideration the results of exploration work that has been performed to date.

Segment information provided to the Executive Management Committee for the year ended 30 June 2015 is as follows:

	Segments Australia	Total
30 June 2015		
Revenue from external sources	-	-
Reportable segment profit/(loss)	(415,488)	(415,488)
Reportable segment assets	1,497,926	1,497,926

Revenue from external sources	-	-
Reportable segment profit/(loss)	(280,081)	(280,081)
Reportable segment assets	1,736,518	1,736,518

Note: There were no segment liabilities for the year ended 30 June 2015.

(a) Other Segment Information

Segment Revenue

There is no segment revenue from external parties reported to the Executive Management Committee.

NOTES TO THE FINANCIAL STATEMENTS

Reportable Segment Profit/(Loss)

The reportable segment expenditure included exploration expenditure written off of \$413,068 (2014: \$277,641) and expenditure from the operating segments such as segment insurance \$2,420 (2014: \$2,440).

Adjusted Profit/(Loss)

The measure excludes the effects of equity-settled share-based payments and unrealised gains/(losses) on financial instruments. Interest income and expenditure are not allocated to segments, as this type of activity is driven by the central treasury function, which manages the cash position of the Company.

The benefit for tax losses will only be obtained if:

- (a) the Company derives future assessable income of a nature and an amount sufficient to enable the benefit from the deductions for the losses to be realised;
- (b) the Company continues to comply with the conditions for deductibility imposed by Law; and
- (c) no changes in tax legislation adversely affect the ability of the Company to realise these benefits.

NOTES TO THE FINANCIAL STATEMENTS

(b) Foreign Exchange and Interest Rate Risk

Information about the Company's exposure to foreign currency risk and interest rate risk in relation to trade and other receivables is provided in Note 2.

(c) Fair Value and Credit Risk

Due to the short-term nature of the trade receivables the carrying amount is assumed to approximate their fair value. The exposure to credit risk at the end of the reporting period is the carrying amount of each class of receivables mentioned above. Refer to Note 2 for more information on the Risk Management Policy of the Company and the credit quality of the Entity's trade receivables.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Options Expired

There are no options during the year end 30th June 2015.

Capital Management

When managing capital, the Board's objective is to ensure the Entity continues as a going concern as well as to maintain optimal returns to Shareholders and benefits for other Stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available to the Entity.

The Board is constantly adjusting the capital structure to take advantage of favorable costs of capital or high return on assets. As the market is constantly changing Management may issue new shares, sell assets to reduce debt or consider payment of dividends to Shareholders.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position although there is no formal policy regarding gearing levels.

NOTES TO THE FINANCIAL STATEMENTS

The Entity had no formal financing and gearing policy or criteria during the year having regard to the early status of its development and low level of activity. There were no changes in the Entity's approach to capital management during the year. The Entity is not subject to any externally imposed capital requirements.

Signed in accordance with a resolution of the Board of Directors.

Bruce McCracken

Executive Director

Dated at Perth, Western Australia, this 10th September 2015

INDEPENDENT AUDITOR'S REPORT

To the members of Regalpoint Resources Ltd

Report on the Financial Report

We have audited the accompanying financial report of Regalpoint Resources Ltd, which comprises the statement of financial position as at 30 June 2015, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Regalpoint Resources Ltd, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of Regalpoint Resources Ltd is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the company's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2015. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Regalpoint Resources Ltd for the year ended 30 June 2015 complies with section 300A of the *Corporations Act 2001*.
