Review of Operations

On 10 June 2014 the Company announced its conditional acquisition of options over four prospective gold projects located in the Goldfields region of Western Australia.

In December 2014, following lengthy negotiations with several of the project vendors, the Company amended the agreement to focus on the Mr Stirling and Malcolm projects. These projects host a combined existing Inferred JORC Resource of 37,477 oz Au.

The transaction with Cascade Resources Limited was completed on 26 March 2015. Consideration paid by the Company is as follows:

- Issue of 27,272,727 ordinary shares to Cascade Resources, escrowed for 12 months;
- Issue of 6,450,000 ordinary shares to the Project Vendors, escrowed for 12 months;
- Payment of A\$313,300 to Project Vendors.

The Company announced that it had entered into a binding joint venture terms sheet with Cascade Resources in April 2015 (the "JV") on Cascade's Zuleika Gold Project, which consists of 76 tenements covering approximately 120 km² located about 50km northwest of Kalgoorlie. The tenements are 100% owned by Cascade with 2% royalties held by various third parties.

Torian will have a right to earn up to a 49% interest in the project by spending a total of A\$5m over 4 years with a minimum A\$1.25m to be spent in the first year.

The Company's JV agreement with Cascade Resources was subsequently amended:

- On 15 May 2015, an amendment was made to include an additional 37.25 km² tenement package for no additional consideration by Torian;
- On 9 June 2015, an amendment was made to include an additional 11.9 km² tenement package for no additional consideration by Torian;
- On 23 June 2015, an amendment was made to include an additional 4.8 km² tenement package for no additional consideration by Torian.

The Vatovorona project in Madagascar is in care and maintenance while the Company assesses available opportunities.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED 30 JUNE 2015

Note 1: Basis of Preparation

The half-year consolidated financial statements are a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standard AASB 134: Interim Financial Reporting, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australia Accounting Standards.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 31 December 2014 and any public announcements made by Torian Resources Limited and its controlled entities during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001.

The accounting policies have been consistently applied by the entities in the consolidated group and are consistent with those in the 31 December 2014 financial report.

The half-year report does not include full disclosures of the type normally included in an annual financial report.

Reporting Basis and Conventions

The half-year financial report has been prepared on an accrual basis and is based on historical costs modified by the revaluation of non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Note 2: Significant Judgements

As disclosed in Note 5 the Company acquired the Mr Stirling and Malcolm projects on 26 March 2015. There are a number of tenements in relation to this and other transactions where the transfer of ownership is still in the process of being registered with the relevant authority. Management and the Board have exercised their judgement in determining that the transfer of ownership of the respective tenements will take place in the ordinary source of business.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Torian Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations act 2001*, which has been given to the directors of Torian Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's report.
