Review of Operations

ACTIVITIES

On the 29th May 2014 shareholders resolved to accept El Nino Pty Ltd's A\$3 million offer to purchase Emu's shareholding in Superkolong Pty Ltd, and thus dispose of its interest in the Kimberley diamond operation. These funds were to be received by Emu in quarterly instalments. The final payment was received in June 2015.

During the year E30/462 located north of Southern Cross, WA, was granted. This exploration licence covered several untested airborne electromagnetic targets within a greenstone sequence that to the south hosts several nickel deposits. No explanation for these targets could be established from surface prospecting so to resolve their nature, two of the targets were drilled. The holes intersected a sequence of amphibolite grade rocks containing variable amounts of magnetite. Within the interpreted positions of the electromagnetic targets these holes intersected pyrrhotite sufficient to explain the airborne responses.

As stated in the quarterly reports since mid-2014, Emu is continuing to investigate new projects in Australia and in various jurisdictions overseas. To date, many hundreds of projects have been assessed but none acted on. This search is ongoing with the prospects for success dampened by the sheer number of small exploration companies, who have found themselves in a similar predicament to EMU, competing for the same project pool. This situation is further heightened by the reducing pool of available projects that will be supported by the capital markets, as investors lift the hurdle as to quality of the projects they will support in a fundraising. In short, more companies are chasing fewer projects.

So, we have added to our short term investment policy, that of identifying investment opportunities in other companies with good projects and sound, proven management. To that end, Emu has taken minor, short-term positions in listed entities. The level of these positions might increase over time.

COMPETENT PERSON'S STATEMENT

The details in this report pertaining to exploration results, mineral resources and mineral reserves are based upon information compiled by Mr Greg Steemson, Managing Director of Emu NL. Mr Steemson is a Fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM) and has sufficient experience in the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (JORC Code). Mr Steemson consents to the inclusion in this report of the matters based upon his information in the form and context in which they appear.

For the purposes of this Report, "the Group" is comprised of Emu NL and its wholly owned subsidiary Emu Blue Pty Ltd.

Directors' Report

Your directors submit their report on the consolidated entity (referred to hereafter as the Group) consisting of Emu NL and the entities it controlled (namely Emu Blue Pty Ltd) at the end of, or during, the year ended 30 June 2015.

DIRECTORS

The names and details of the Company's directors in office during the year and until the date of this report follow. Each Director was in office for this entire period unless otherwise stated.

Names, qualifications, experience and special responsibilities

Peter Thomas, (Non-Executive Chairman)

Mr Thomas, 58, having served on ASX listed company boards for some 30 years, has been a non-executive director of Emu NL since 29 August 2007.

For over 30 years until June 2011, he ran a legal practise on his own account specialising in the delivery of wide ranging legal, corporate and commercial advice to listed explorers and miners.

Listed company directorships - past three years

- Magnetic Resources NL (resigned July 2013)
- Meteoric Resources NL (resigned September 2014)

Listed companies - current

 Non-executive Director Image Resources NL (since 19 April 2002) and Non-executive Chairman Middle Island Resources Limited (since 2 March 2010).

Greg Steemson, (Managing Director)

Mr Steemson is a graduate of the University of Queensland and the University of Utah and is a qualified geologist and geophysicist. He has 40 years of experience over a wide range of geographies and commodities including gold, base metals, iron ore, diamonds, coal, mineral sands, phosphate, uranium and rare earth elements. He has operated in many different jurisdictions throughout the world and at most levels of the mineral industry from green-fields exploration to resource and project development through to mining. Mr Steemson was a founding director of Sandfire Resources NL and Allied Gold Limited. He was a director of Allied Gold Limited, Carbine Resources Limited, Mineral Commodities Limited and Nord Pacific Limited.

Gavin Rutherford, (Non-Executive Director)

Mr Rutherford has a background in agribusiness where he held for many years both national and international sales and management positions in international organisations before he successfully migrated into the mining services sector in 1996.

COMPANY SECRETARY

Dennis Wilkins, B.Bus, AICD, ACIS

Mr Wilkins is the founder and principal of DWCorporate Pty Ltd a leading privately held corporate advisory firm servicing the natural resources industry. Since 1994 he has been a director of, and involved in the executive management of, several publicly listed resource companies with operations in Australia, PNG, Scandinavia and Africa. From 1995 to 2001 he was the Finance Director of Lynas Corporation Ltd during the period when the Mt Weld Rare Earths project was acquired by the group. He was also founding director and advisor to Atlas Iron Limited at the time of Atlas' initial public offering in 2006.

Since July 2001 Mr Wilkins has been a running DWCorporate Pty Ltd where he advises on the formation of, and capital raising for, emerging companies in the Australian resources sector. Mr Wilkins is currently a non-executive director of Key Petroleum Ltd since 5 July 2006, Shaw River Manganese Ltd since 30 June 2015, TSX listed Mawson West Ltd since 3 August 2015, and an alternate director of Middle Island Resources Ltd since 1 May 2010. Within the last three years, Mr Wilkins has been a former director of ASX listed companies Enterprise Metals Ltd (resigned 15 November 2011), Minemakers Ltd (resigned 4 December 2012), Duketon Mining Ltd (resigned 18 November 2014) and A1 Consolidated Gold Ltd (resigned 11 May 2015).

Fiona Lawe Davies was joint company secretary from the beginning of the financial year until her resignation on 1 November 2014.

Interests in the shares and options of the Company and related bodies corporate

As at the date of signing this report, the relevant interests of the directors in the shares and options of Emu NL were:

	Ordinary Shares	Contributing Shares
Peter Thomas	5,701,993	19,848,918
Greg Steemson	5,913,627	19,536,211
Gavin Rutherford	876,379	876,379

PRINCIPAL ACTIVITIES

The principal activities of the Group during the year were (i) to explore its tenement interests in Western Australia, and (ii) assess and pursue mineral property acquisition opportunities globally.

DIVIDENDS

No dividends were paid or declared during the year. No recommendation for payment of dividends has been made.

OPERATING AND FINANCIAL REVIEW

Finance Review

The Group began the financial year with a cash reserve of \$752,943.

During the year, total exploration expenditure incurred by the Group amounted to \$246,754 (2014: \$225,905). In line with the Group's accounting policies, all exploration expenditure is expensed as incurred. Other expenditure incurred, net of revenue, amounted to \$296,831 (2014: \$624,416). The share of the Group's (Emu and its wholly owned subsidiary, Emu Blue Pty Ltd) net loss of the former joint venture entity (Itakane Trading 243 (Pty) Ltd), accounted for using the equity method, during the 2014 financial year was \$701,598. This resulted in an operating loss after income tax for the year ended 30 June 2015 of \$543,585 (2014: \$1,551,919).

At 30 June 2015 cash assets available totalled \$2,655,097.

Operating Results for the Year

Summarised operating results are as follows:

	2015	
	Revenues	Results
	\$	\$
Revenues and losses for the year from ordinary activities before income tax expense	240,927	(543,585)
Shareholder Returns		
	2015	2014
Basic loss per share (cents)	(0.7)	(2.1)

Risk Management

The board is responsible for ensuring that risks, and also opportunities, are identified on a timely basis and that activities are aligned with the risks and opportunities identified by the board.

The Group believes that it is crucial for all board members to be a part of this process, and as such the board discharged the obligations of the risk management committee.

The board has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified by the board. These include the following:

- Board approval of a strategic plan, which encompasses strategy statements designed to meet stakeholders' needs and manage business risk.
- · Implementation of board approved operating plans and budgets and board monitoring of progress against these budgets.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than as disclosed in this Annual Report, no significant changes in the state of affairs of the Group occurred during the financial year.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

No matters or circumstances, besides those disclosed at note 22, have arisen since the end of the year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

In order to make (or to secure the right to make) one or more acquisitions and to further its existing projects, the Group may undertake capital raisings. Emu's focus is on making further mineral resource related acquisitions to accrete value to shareholders without triggering a requirement to dilute equity capital save when absolutely necessary to make strategic acquisitions. In addition Emu will pursue resource equity investments consistent with the sentiments expressed in the Review of Operations above.

Other than as set out above, likely developments in the operations of the Group and the expected results of those operations in future financial years have not been included in this report as the directors believe, on reasonable grounds, that the inclusion of such information would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Group is subject to significant environmental regulation in respect to its activities.

The Group aims to ensure the appropriate standard of environmental care is achieved, and in doing so, that it is aware of and is in compliance with all environmental legislation. The directors of the Company are not aware of any breach of environmental legislation for the year under review.

REMUNERATION REPORT

The information provided in this remuneration report has been audited as required by section 308(3C) of the Corporations Act 2001.

Policy principles used/to be used to determine the nature and amount of remuneration

Remuneration Policy

The remuneration policy of Emu NL has been designed to align key management personnel objectives with shareholder and business objectives by providing a fixed remuneration component. The board of Emu NL believes the remuneration policy for the year under review was appropriate and effective to attract and retain suitable key management personnel to run and manage the Group. Consideration has and will continue to be given to offering specific short and long term incentives including, specifically, equity remuneration.

The remuneration policy, setting the terms and conditions for the executive directors and other senior executives (if any), was developed by the board. In general in respect of the year under review, executives received a base salary (which was based on factors such as experience) and superannuation. The board will review executive packages as and when it considers it appropriate to do so in accordance with its remuneration policy and by reference to the Group's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.

The board may exercise discretion in relation to approving incentives, bonuses and equity remuneration. The policy is to reward executives for performance that results in long-term growth in shareholder wealth.

The executive directors and executives receive, where required by law, a superannuation guarantee contribution required by the government of Australia, which was 9.5% for the 2015 financial year but are not entitled to receive any other retirement benefits.

All remuneration paid to directors and executives is "valued" at the cost to the Group and expensed. Where applicable, options granted as equity remuneration are ascribed a "fair value" in accordance with Australian Accounting Standards.

The board's policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities, albeit that the non-executive directors are currently remunerated at the lower end of the market rate range. The board determines payments to the non-executive directors and policy is to effect reviews of remuneration annually, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting (currently \$250,000). Fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and are able to participate in any equity remuneration arrangements.

Company performance, shareholder wealth and key management personnel remuneration

There is no relationship between the financial performance of the Company for the current or previous financial year and the remuneration of the key management personnel. Remuneration is set having regard to market conditions and to encourage continued services of key management personnel.

Use of remuneration consultants

The Group did not employ the services of any remuneration consultants during the financial year ended 30 June 2015.

Voting and comments made at the Company's 2014 Annual General Meeting

The Company received approximately 99% of "yes" votes on its remuneration report for the 2014 financial year. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices other than from the board and the company secretary.

Details of remuneration

Details of the remuneration of the directors and the key management personnel of the Group are set out in the following table.

The key management personnel of the Group include only the directors as per page 5 above, and previous non-executive director, Mr George Sakalidis, until his resignation on 8 November 2013.

Written Service agreements

Greg Steemson, Managing Director:

A consulting agreement has been executed between the Company and Mr Steemson's nominated associated entity under which Mr Steemson delivers consulting services to the Company. Major provisions of the agreement are as follows:

- Term of agreement Effective from 1 December 2012, with no fixed term and may be terminated by either party on two months' notice or, at the Company's election, payment of the 2 months' notice period in lieu of notice.
- Monthly fee from the beginning of the financial year of \$30,000, reduced to \$22,000 effective 1 January 2015, paid to Mr Steemson's nominated associated entity.

Messrs Thomas and Rutherford do not have employment contracts with the Company save to the extent that the Company's constating documents comprise the same.

Share-based compensation

Equity may be issued to key management personnel as part of their remuneration. The Group has a formal policy requiring key management personnel to limit their exposure to assuming risk in relation to their securities via margin facilities and the like.

No equity based remuneration was granted to or vested in key management personnel during the year.

Equity instruments held by key management personnel

Share holdings

The numbers of shares in the Company held during the financial year by each director of Emu NL and other key management personnel of the Group, including their personally related parties, are set out below. No shares were granted as compensation during the reporting period.

2015	Received during the					
	Balance at	period on the Other changes				
	start of the period	exercise of options	during the period	Balance at end of the period		
Ordinary shares fully paid						
Peter Thomas	5,501,993	-	200,000	5,701,993		
Greg Steemson	5,713,627	-	200,000	5,913,627

Greg Steemson	-	-	-	-	-	-	-
Gavin Rutherford	_	_	_	_	_	-	_

All vested options are exercisable at the end of the year.

Loans to key management personnel

There were no loans to key management personnel during the year.

End of audited Remuneration Report

DIRECTORS' MEETINGS

During the year the Company held seven meetings of directors. The attendance of directors at meetings of the board were:

	Directors	Meetings
	A*	B**
Peter Thomas	7	7
Greg Steemson	7	7
Gavin Rutherford	7	7

Notes

The full Board discharged the functions of the audit, remuneration, risk and nomination committees regularly and during the course of ordinary director meetings.

SHARES UNDER OPTION

Unissued ordinary shares of Emu NL under option at the date of this report are as follows:

Grant date	Expiry date	Exercise price (cents)	Number of options	
27 June 2011 21 December 2015		42.66	82,736	
Total number of options outstan	ding at the date of this report		82,736	

No option holder has any right under the options to participate in any other share issue of the Company or any other entity.

INSURANCE OF DIRECTORS AND OFFICERS

During or since the financial year, in accordance with each director's Deed of Indemnity, Insurance and Access with Emu NL, the Group has paid premiums insuring all the directors of Emu NL against all liabilities incurred by the director acting directly or indirectly as a director of the Company to the extent permitted by law, including legal costs incurred by the director in defending proceedings, provided that the liabilities for which the director is to be insured do not arise out of conduct involving a wilful breach of the director's duty to the Company or a contravention of sections 182 or 183 of the *Corporations Act 2001*.

The total amount of insurance contract premiums paid is \$6,697 (2014: \$8,074).

^{*}A – Number of meetings attended.

^{**}B - Number of meetings held during the time the director held office during the year.

Directors' Report (continued)

NON-AUDIT SERVICES

The following non-audit services were provided by the entity's auditor, Somes Cooke or associated entities. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- All non-audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor:
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

Somes Cooke or associated entities received or are due to receive the following amounts for the provision of non-audit services:

	2015	2014
	\$	\$
Tax compliance services	13,000	2,500
Total remuneration for non-audit services	13,000	2,500

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 10.

Signed in accordance with a resolution of the directors.

Notes to the Consolidated Financial Statements

30 JUNE 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below. The financial statements are for the consolidated entity consisting of Emu NL and its subsidiary. The financial statements are presented in the Australian currency. Emu NL is a no liability company, domiciled and incorporated in Australia. The financial statements were authorised for issue by the directors on 29 September 2015. The directors have the power to amend and reissue the financial statements.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Emu NL is a for-profit entity for the purpose of preparing the financial statements.

(i) Compliance with IFRS

The consolidated financial statements of the Emu NL Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(ii) New and amended standards adopted by the Group

The Group has adopted all of the new and revised Standards and Interpretations issued by the AASB that are relevant to their operations and effective for the current annual reporting period.

New and revised Standards and amendments thereof and Interpretations effective for the first time for the annual reporting period commencing 1 July 2014 that are relevant to the Group include:

- AASB 2013-3 Amendment to AASB 136 Recoverable Amount Disclosures for Non-Financial Assets; and
- AASB 2014-1 Amendments to Australian Accounting Standards.

The adoption of all the new and revised Standards and Interpretations has not resulted in any changes to the Group's accounting policies, and has no effect on the amounts reported for the current or prior years. However, the above standards have affected the disclosures in the notes to the financial statements.

(iii) Early adoption of standards

The Group has not elected to apply any pronouncements before their operative date in the annual reporting period beginning 1 July 2014.

(iv) Historical cost convention and going concern basis

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of selected noncurrent assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. These financial statements have been prepared on the going concern basis.

(b) Principles of consolidation

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from tis involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position respectively.

(ii) Joint ventures

Under AASB 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group previously had an interest in a joint venture (note 10) which was accounted for using the equity method (see (iii) below), after initially being recognised at cost in the consolidated statement of financial position.

30 JUNE 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity-accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Emu NL.

When the Group ceases to have control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly controlled entity or associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the full Board of Directors.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Emu NL's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. They are deferred in equity if they are attributable to part of the net investment in a foreign operation.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of profit and loss and other comprehensive income are translated at average exchange rates (unless that is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

(e) Revenue recognition

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial assets.

30 JUNE 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(f) Income tax

The income tax expense or revenue for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries and associated operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(g) Leases

Leases where a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

(h) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(i) Cash and cash equivalents

For statement of cash flows presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

(j) Investments and other financial assets

Classification

The Group classifies its financial assets in the following categories: loans and receivables; and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are recognised initially at fair value and subsequently at amortised cost less impairment. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the statement of financial position.

30 JUNE 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(ii) Available-for-sale financial assets

Available-for-sale financial assets, comprising marketable equity securities, are non-derivatives that are either designated in this category or not classified in any other category. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss as gains and losses from investment securities.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

Loans and receivables are carried at amortised cost using the effective interest method.

Available-for-sale financial assets are subsequently carried at fair value. Changes in the fair value of securities classified as available-for-sale are recognised in other comprehensive income.

Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. If there is evidence of impairment for any of the Group's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in the statement of profit and loss and other comprehensive income.

If there is objective evidence of impairment for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in profit or loss.

(k) Plant and equipment

All plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss and other comprehensive income during the reporting period in which they are incurred.

Depreciation of plant and equipment is calculated using the reducing balance method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives or, in the case of leasehold improvements and certain leased plant and equipment, the shorter lease term. The rates vary between 20% and 40% per annum.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(h)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss and other comprehensive income.

(1) Exploration and evaluation costs

All exploration and evaluation expenditure is expensed to the statement of profit and loss and other comprehensive income as incurred. That the carrying value of mineral assets, as a result of the operation of this policy, is zero does not necessarily reflect the board's view as to the market value of those assets.

(m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured, non-interest bearing and are paid on normal commercial terms.

30 JUNE 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(n) Employee benefits

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(o) Share-based payments

The Group may provide benefits to employees (including directors) of the Group, and to vendors and suppliers, in the form of share-based payment transactions, whereby employees render services, or where vendors sell assets to the Group, in exchange for shares or rights over shares ('equity-settled transactions'), refer to note 25.

The cost of equity-settled transactions with employees is measured by reference to the "fair value" (not market value) at the date at which they are granted. The "fair value" is determined in accordance with Australian Accounting Standards. The Directors do not consider the resultant value as determined in accordance with Australian Accounting Standards (such as by the Black-Scholes European Option Pricing Model) necessarily represents market value. In the case of the share options issued, in the absence of reliable measure of the goods or services received, AASB 2 Share Based Payments prescribes the measurement of the fair value of the equity instruments granted. The Black-Scholes European Option Pricing Model is an industry accepted method of valuing share options. Other models may be used.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of options that, in the opinion of the directors of the Group, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market condition.

Where an option is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the option is recognised immediately. However, if a new option is substituted for the cancelled option, and designated as a replacement option on the date that it is granted, the cancelled and new option are treated as a modification of the original option.

(p) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(q) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(r) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

30 JUNE 2015

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(s) New accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2015 reporting periods. The Group's assessment of the impact of these new standards and interpretations is set out below. New standards and interpretations not mentioned are considered unlikely to impact on the financial reporting of the Group.

AASB 9: Financial Instruments, AASB 2009-11 Amendments to Australian Accounting Standards arising from AASB 9, AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2010), AASB 2012-6 Amendments to Australian Accounting Standards – Mandatory Effective Date of AASB 9 and Transition Disclosures and AASB 2013-9 Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments, AASB 2014-1 Amendments to Australian Accounting Standard: Part E Financial Instruments, 2014-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2014), AASB2014-8 Amendments to Australian Accounting Standards arising from AASB 9 (December 2014) – Application of AASB 9 (December 2009) and AASB 9 (December 2010) (effective from 1 January 2018)

AASB 9 replaces the multiple classification and measurement models in AASB 139 Financial instruments: Recognition and measurement with a single model that has only two classification categories: amortised cost and fair value.

Classification of debt assets will be driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. A 'simple' debt instrument is measured at amortised cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument solely represent payments of principal and interest.

All other financial assets, including investments in complex debt instruments and equity investments, must be recognised at fair value.

All fair value movements on financial assets are taken through the income statement, except for equity investments that are not traded, which may be recorded in the income statement or in reserves.

For financial liabilities that are measured under the fair value option entities will need to recognise the part of the fair value change that is due to changes in their own credit risk in other comprehensive income rather than profit or loss.

The new hedge accounting rules that were released in December 2013 align hedge accounting more closely with common risk management practices. As a general rule, it will be easier to apply hedge accounting going forward. The new standard also introduces expanded disclosure requirements and changes in presentation.

In December 2014, the AASB made further changes to the classification and measurement rules and also introduced a new impairment model. With these amendments, AASB 9 is now complete. The changes introduce:

• a third measurement category (FVOCI) for certain financial assets that are debt instruments; and

a new expected credit loss (ECL) model which involves a three-stage approach whereby financial assets move through the three stages as their credit quality changes. The stage dictates how an entity measures impairment losses and applies the effective interest rate method. A simplified approach is permitted for lease and trade receivables. On initial recognition, entities will record a day-1 loss equal to the twelve month ECL (or lifetime ECL for trade receivables), unless the assets are considered impaired.

For financial years commencing before 1 February 2015, entities can elect to apply AASB 9 early for any of the following:

- the own credit risk requirements for financial liabilities;
- classification and measurement (C&M) requirements for financial assets;
- C&M requirements for financial assets and financial liabilities; or

The full current version of AASB 9 (C&M requirements for financial assets and liabilities and hedge accounting).

After 1 February 2015, the new rules must be adopted in their entirety.

Based on the financial assets and liabilities currently held, the Group does not anticipate any impact on the financial statements upon adoption of this standard. The Group does not presently engage in hedge accounting.

None of the other amendments or Interpretations are expected to affect the accounting policies of the Group.

(t) Critical accounting judgements, estimates and assumptions

The preparation of these financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are:

Taxation

Balances disclosed in the financial statements and the notes thereto related to taxation are based on the best estimates of the directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

Environmental issues

Balances disclosed in the financial statements and notes thereto are not adjusted for any pending or enacted environmental legislation and the directors understanding thereof. At the current stage of the Group's development and its current environmental impact, the directors believe such treatment is reasonable and appropriate.

30 JUNE 2015

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Share-based payments

Share-based payment transactions, in the form of options to acquire ordinary shares, are valued using the Black-Scholes option or other recognised pricing model. Models use assumptions and estimates as inputs.

The Directors do not consider the resultant value as determined by, say, the Black-Scholes European Option Pricing Model is in anyway representative of the market value of the share options issued, however, in the absence of reliable measure of the goods or services received, AASB 2 *Share Based Payments* prescribes the measurement of the fair value of the equity instruments granted. The Black-Scholes European Option Pricing Model is an industry accepted method of valuing equity instruments. Other recognised models may be used

2. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group.

Risk management is carried out by the full Board of Directors as the Group believes that it is crucial for all board members to be involved in this process. The full Board of Directors has responsibility for identifying, assessing, treating and monitoring risks and reporting to the board on risk management.

(a) Market risk

(i) Foreign exchange risk

As all operations are currently within Australia, the Company is not exposed to any material foreign exchange risk.

(ii) Price risk

The Group is exposed to equity securities price risk. This arises from investments held by the Group and classified in the statement of financial position as available-for-sale. Given the current level of operations, the Group is not currently directly exposed to commodity price risk.

The Group's equity investments are publicly traded on the ASX, with the investments being made for strategic purposes identified by the Board of Directors. The price risk is monitored by the Board and evaluated in accordance with these strategic outcomes. The Board does not currently intend on making any additional investments.

Sensitivity analysis

At 30 June 2015, if the value of the equity instruments held had increased/decreased by 15% with all other variables held constant, post-tax loss for the Group would not have changed and equity would have been \$9,105 higher/lower as a result of gains/losses on equity securities classified as available-for-sale (2014: \$1,500 higher/lower).

(iii) Interest rate risk

The Group is exposed to movements in market interest rates on cash and cash equivalents. The Group's policy is to monitor the interest rate yield curve out to six months to ensure a balance is maintained between the liquidity of cash assets and the interest rate return. The entire balance of cash and cash equivalents for the Group \$2,655,097 (2014: \$752,943) is subject to interest rate risk. The weighted average interest rate received on cash and cash equivalents by the Group was 3.1% (2014: 2.6%).

Sensitivity analysis

At 30 June 2015, if interest rates had changed by -/+ 100 basis points from the weighted average rate for the year with all other variables held constant, post-tax loss for the Group would have been \$16,261 lower/higher (2014: \$7,413 lower/higher) as a result of lower/higher interest income from cash and cash equivalents.

(b) Credit risk

The maximum exposure to credit risk at balance date is the carrying amount (net of provision for impairment) of those assets as disclosed in the statement of financial position and notes to the financial statements. Credit risk arises from cash and cash equivalents.

All surplus cash holdings within the Group are to be invested with financial institutions with a minimum "A" rating.

The Group credit risk management policy requires weekly reporting to the Board as to where funds are invested, the term of the investment and current interest yield.

30 JUNE 2015

2. FINANCIAL RISK MANAGEMENT (cont'd)

(c) Liquidity risk

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring sufficient cash and marketable securities are available to meet the current and future commitments of the Group. Debt and equity funding are options open to the Company. The Board of Directors constantly monitor the state of equity markets in conjunction with the Group's current and future funding requirements, with a view to ensuring the Group has adequate funds available.

The financial liabilities of the Group are confined to trade and other payables as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 12 months of the reporting date.

(d) Fair value measurements

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. All financial assets and financial liabilities of the Group at the balance date are recorded at amounts approximating their fair value.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. All of the Group's available-for-sale financial assets are publicly traded on the ASX and are classified as level 1 on the AASB 7 *Financial Instruments: Disclosures* hierarchy.

The carrying value, less impairment provision, of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

3. SEGMENT INFORMATION

The Group has identified that it operates in only one segment based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Group's principal activity is mineral exploration.

4. REVENUE

	Consolidated	
	2015	2014
	\$	\$
From continuing operations		
Other revenue		
Interest from banks and financial institutions	51,137	19,261
Interest from loan to jointly controlled entity	-	$(85,358)^{(1)}$
Interest from loan to El Nino	165,427	26,436
Exchange differences realised on disposal of foreign operations	-	13,443
Net gain on disposal of plant and equipment	-	15,273
Net gain on sale of available-for-sale financial assets	14,200	-
Foreign exchange gains	10,163	-
	240,927	(10,945)

⁽¹⁾ To satisfy South African Reserve Bank (SARB) regulations, during the 2014 financial year the Group was required to provide credit notes for interest previously charged on the loan to IT243 at the contracted rate, and re-issue invoices using SARB approved interest rates. These amendments have resulted in a net expense been recognised against interest income in 2014.

5. EXPENSES

Loss before income tax includes the following specific expenses:

Defined contribution superannuation expense	10,110	12,272
Minimum lease payments relating to operating leases	43,645	44,909
Impairment losses on loan to jointly controlled entity	-	45,510
Foreign exchange losses	-	85,967
Net loss on sale of available-for-sale financial assets	-	45,755

	2015	2014	
	\$	\$	
9. NON-CURRENT ASSETS - RECEIVABLES			
Loan to El Nino		500,000	
		500,000	

The loan to El Nino represents the balance owing on the consideration receivable under the Share (and Claims) Purchase Agreement (**Sale Agreement**) entered into between the Group and El Nino Mining Proprietary Limited (**El Nino**) whereby the Group disposed of its 50% shareholding in, and loans to, IT243. Total consideration was \$3,000,000 and was paid in six equal instalments, with the first instalment of \$500,000 received by the Group after satisfaction of all conditions precedent on 29 May 2014 The second instalment, with accrued interest, was received by the due date of 31 July 2014, with the remaining instalments paid quarterly from this date. Other terms of the Sale Agreement, amongst other things, were:

- 1. The instalments were partially secured by Euro 600,000 (or Rand equivalent) which was held in escrow pending full payment but reducing in line with the value of instalments outstanding.
- 2. All of El Nino's obligations were guaranteed by its parent company, Batla Minerals (SA), listed on Euronext (Marche Libre) in France.
- 3. Instalments outstanding shall attract interest calculated and compounded daily at the annual rate of 12%.
- 4. Should El Nino not pay all the instalments and interest, in addition to other rights that the Group may have (including to sue for the entire amounts outstanding), the shares and balance of the Group's loan account shall revert to the Group for no consideration.

10. NON-CURRENT ASSETS - INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

Interest in jointly controlled entity – Itakane Trading 243 (Pty) Ltd (IT243)

During the 2014 financial year the Group disposed of its 50% shareholding in, and loans to, IT243 through the Sale Agreement with El Nino as described in note 9. At the date of disposal the carrying value of the investment had been reduced, after recognising the Group's share of IT243's 2014 financial period losses, to a balance of \$13,443 which comprised the Group's share of accumulated foreign exchange differences. This amount was recognised in the profit or loss during the 2014 financial year.

exchange differences. This amount was recognised in the profit of loss during the 2014	illialiciai year.

(d) Ordinary fully and partly paid shares

Ordinary shares (which includes the contributing (or partly paid) shares) entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held, regardless of the amount paid up thereon.

On a show of hands every holder of fully paid ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote for each fully paid share and in respect of a partly paid share, a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

At 30 June 2015 there were 35,652,856 ordinary contributing (or partly paid) shares on issue partly paid up to 3 cents, on which a further 3 cents was outstanding.

(e) Capital risk management

The Group's objectives when managing capital is to safeguard its ability to continue as a going concern and to take advantage of organic and acquisitive mineral property opportunities, so that it may strive to provide returns for shareholders and benefits for other stakeholders.

Debt and equity funding options are open to the Group. The working capital position of the Group at 30 June 2015 and 30 June 2014 are as follows:

	Consolidated		
	2015	2014	
	\$	\$	
Cash and cash equivalents	2,635,316	732,829	
Trade and other receivables	25,983	41,757

Available-for-sale financial assets	(24,450)	(8,400)	
Share-based payments reserve		120,650	
	(24,450)	112,250	

(b) Nature and purpose of reserves

(i) Available-for-sale financial assets reserve

Changes in the fair value and exchange differences arising on translation of investments, such as equities, classified as available-for-sale financial assets, are recognised in other comprehensive income, as described in note 1(j) and accumulated in a separate reserve within equity. Amounts are reclassified to profit or loss when the associated assets are sold or impaired.

30 JUNE 2015

16. RESERVES (cont'd)

(ii) Share-based payments reserve

The share-based payments reserve is used to recognise the grant date fair value of options issued.

17. DIVIDENDS

No dividends were paid during the financial year. No recommendation for payment of dividends has been made.

18. REMUNERATION OF AUDITORS

	Consolidated	
	2015	2014
	\$	\$
During the year the following fees were paid or payable for services provided by the aunon-related audit firms:	ditor of the Company, it	s related practices and
Audit and review of financial reports	21,200	36,000
Tax compliance services	13,000	2,500
Total remuneration	34,200	38,500

19. CONTINGENCIES

There are no material contingent liabilities or contingent assets of the Group at the reporting date.

20. RELATED PARTY TRANSACTIONS

(a) Parent entity

The ultimate parent entity within the Group is Emu NL.

(b) Subsidiaries

Interests in subsidiaries are set out in note 21.

(c) Key management personnel compensation

Short-term benefits	390,000	460,667
Post-employment benefits	7,234	9,312
	397,234	469,979

Refer to the Remuneration Report contained in the Directors' Report for the details of the remuneration paid or payable and the share and option holdings in relation to each of the Group's key management personnel for the year ended 30 June 2015.

(d) Loans to related parties

Emu NL has an unsecured, interest free loan with its wholly owned subsidiary totalling \$104,379 payable at 30 June 2015 (2014: \$2,587,241 receivable). An impairment assessment is undertaken each financial year by the respective lender at that point in time to determine the ability of the borrower to repay the amount outstanding. When objective evidence of impairment exists, the lending entity is to recognise an allowance for the impairment loss.

The Group had provided loans to its formerly jointly controlled entity, IT243, that were disposed of during the 2014 reporting period (refer to note 9 for details).

30 JUNE 2015

20. RELATED PARTY TRANSACTIONS (cont'd)

Itakane Trading 243 (Pty) Ltd (former jointly controlled entity)	Expenses on-charged	-	(2,780)

There were no balances outstanding at reporting date in relation to the above transactions, and the transactions were made on normal commercial terms and conditions and at market rates.

Other transactions with key management personnel

The Group is party to a Lease Agreement with Mr Peter Thomas, Chairman, whereby Mr Thomas has agreed to provide the Group with office accommodation for a fee of \$4,200 per month, terminable at will by either party on one month's notice, which commenced on 1 January 2013. Fees paid during the year totalled \$43,645 (2014: \$44,909), and there was nil outstanding at the reporting date (2014: nil).

21. SUBSIDIARIES

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1(b):

Name	Country of Incorporation	Class of Shares	Equity Holding ⁽¹⁾	
			2015	2014
			%	%
Emu Blue Pty Ltd	Australia	Ordinary	100	100

⁽¹⁾ The proportion of ownership interest is equal to the proportion of voting power held.

22. EVENTS OCCURRING AFTER THE BALANCE SHEET DATE

No events or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

Weighted average number of ordinary shares used as the denominator in		
calculating basic and diluted loss per share	75,346,712	74,732,411

(c) Information on the classification of options

As the Group has made a loss for the year ended 30 June 2015, all options on issue are considered antidilutive and have not been included in the calculation of diluted earnings per share. These options could potentially dilute basic earnings per share in the future.

25. SHARE-BASED PAYMENTS

Options issued to employees

The Group may provide benefits to employees (including directors) and contractors of the Group in the form of share-based payment transactions, whereby, for instance, options to acquire ordinary shares may be issued as an incentive to improve employee and shareholder goal congruence. The exercise price of options so issued and outstanding at 30 June 2015 is 42.66 cents with an expiry date of 21 December 2015.

Options granted carry no dividend or voting rights. When exercisable, each option is convertible into one ordinary fully paid share of the Company with full dividend and voting rights.

Set out below are summaries of the options granted:

bet out out of all summands of the options granted	Consolidated				
	2	015	2	014

Directors' Declaration

In the directors' opinion:

- (a) the financial statements comprising the statements of comprehensive income, statements of financial position, statements of changes in equity, statements of cash flows and accompanying notes set out on pages 12 to 31 are in accordance with the *Corporations Act 2001*, including:
 - complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Company's and the consolidated entity's financial position as at 30 June 2015 and of their performance for the financial year ended on that date;
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (c) the remuneration disclosures included in the Directors' Report (as part of the audited Remuneration Report), for the year ended 30 June 2015, comply with Section 300A of the *Corporations Act 2001*; and
- (d) a statement that the attached financial statements are in compliance with International Financial Reporting Standards has been included in the notes to the financial statements.

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

Greg Steemson

Business Consultants

Independent Auditor's Report To the members of Emu NL and its controlled entity

Report on the Financial Report

We have audited the accompanying financial report of Emu NL and its controlled entity, which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entity it controlled at the year's end or from time to time during the financial yea.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Opinion

In our opinion:

- (a) the financial report of Emu NL and its controlled entity is in accordance with the *Corporations Act* 2001, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 8 of the directors' report for the year ended 30 June 2015. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Emu NL and its controlled entity for the year ended 30 June 2015 complies with section 300A of the *Corporations Act 2001*.
