## REVIEW OF OPERATIONS AND ACTIVITIES

### BASE METAL PROJECTS, WESTERN AUSTRALIA

Metals Australia holds an interest in two base metals projects in Western Australia (Figure 1).

The Manindi zinc-copper project is located around 500 km northeast of Perth, and is being explored by Metals with a view to expanding the existing resources and examining the project's potential.

The Sherlock Bay base metal joint venture project is located in the Pilbara region and is being managed and explored by Australasian Resources Ltd (ARH). The project surrounds ARH's Sherlock Bay nickel deposit.

#### MANINDI ZINC PROJECT

The Manindi Project is an unmined zinc deposit located in the Murchison District of Western Australia, 20 km southwest of the defunct Youanmi gold mine. The project is located on three granted mining licences.

The Manindi base metal deposit is considered to be a volcanogenic massive sulphide (VMS) zinc deposit, comprising a series of lenses of zinc-dominated mineralisation that have been folded, sheared, faulted, and possibly intruded by later dolerite and gabbro. The style of mineralisation is similar to other base metal sulphide deposits in the Yilgarn Craton, particularly Golden Grove at Yalgoo to the west of Manindi, and Teutonic Bore-Jaguar in the Eastern Goldfields.

Figure 1 – Location of the Western Australian base metals projects.

#### JORC 2012 MINERAL RESOURCE ESTIMATE

Work earlier in the year resulted in an upgrade of the mineral resource to JORC 2012 standard as follows.

Table 1 - Manindi JORC 2012 Mineral Resource Estimate.

Category	Resources		Metal Grade			Contained Metal		
	Cut off (Zn%)	Tonnage (t)	Zinc (%)	Copper (%)	Silver (g/t)	Zinc (t)	Copper (t)	Silver (oz)
Measured	0.5	48,785	8.20	0.34	7.22	3,999	166	11,320
Indicated	0.5	172,347	6.26	0.28	4.30	10,781	483	23,805

Note figures may not add up precisely due to rounding.

### **EXPLORATION TARGETS**

A detailed exploration targeting exercise was completed during the year. The aim was to identify robust exploration targets with the potential to host significant tonnages of additional mineralisation and improve the economics of the project. Any increase in the mineral resource estimate would improve the project economics at Manindi.

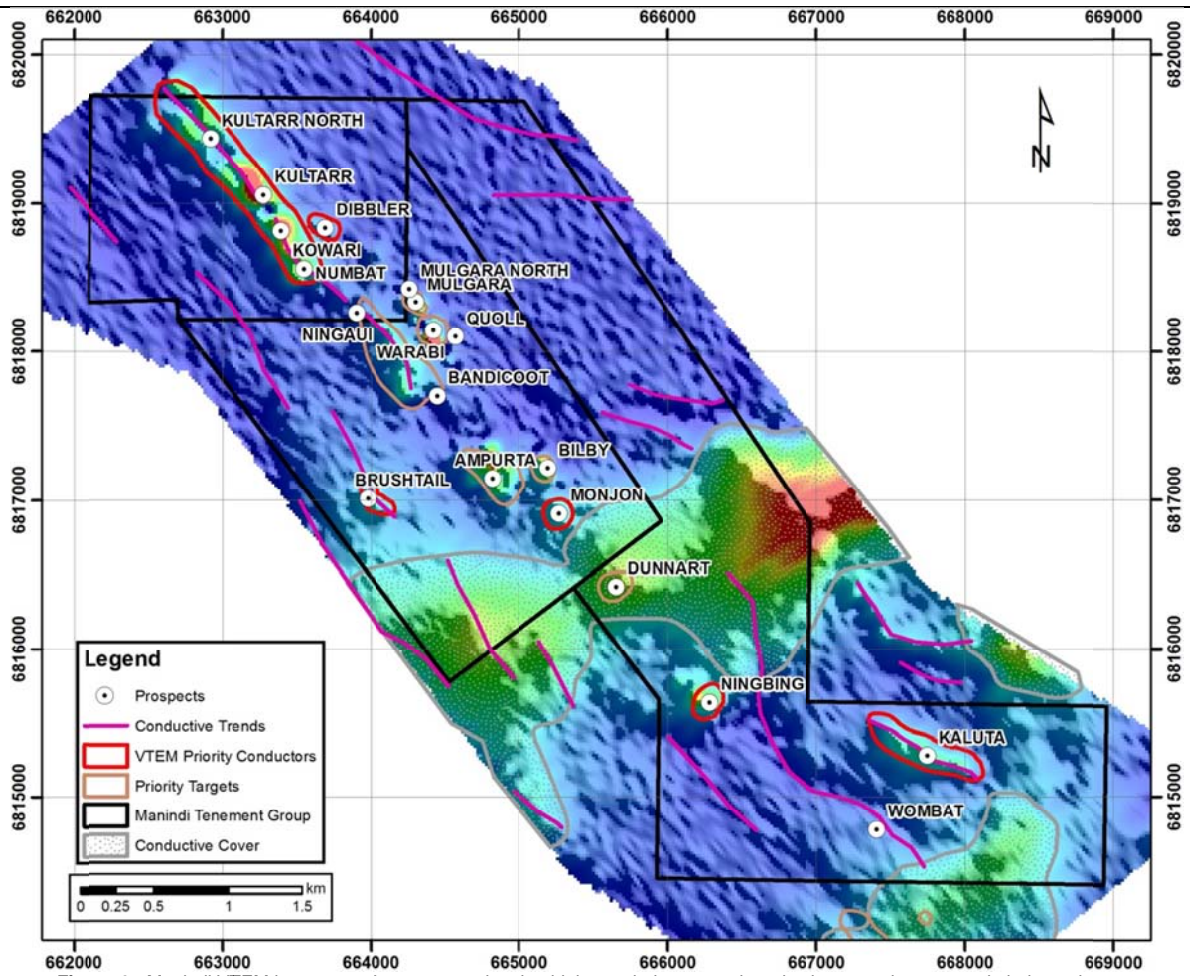

Some time ago, the Company flew a VTEM<sup>1</sup> survey over the Manindi project. The survey confirmed existing anomalies from historic MLTEM<sup>2</sup>, FLTEM<sup>3</sup> and DHTEM<sup>4</sup> surveys and the EM<sup>5</sup> response of the existing deposits, as well as identifying several new untested anomalies. The mineralisation at Manindi consists of massive sulphides with very high pyrrhotite content. Pyrrhotite is highly conductive, making TEM<sup>6</sup> a particularly effective targeting technique for Manindi-style mineralisation.

All EM data, historic and new, were reprocessed and modelled using modern 3D modelling software. The resultant 3D models were combined with existing aeromagnetic, geochemical and geological datasets to generate and rank exploration targets in order of priority.

3D inversion modelling<sup>7</sup> of the aeromagnetic dataset was particularly useful in ranking the TEM conductors. The mineralisation at Manindi is located on the western side of a deep-rooted, strongly magnetic body. TEM conductors located in similar positions either along strike from Manindi, or associated with other similar magnetic bodies received higher rankings (Figure 3).

Drilling at the current Manindi mineral resource has identified four mineralised positions, all of which are open in at least one direction. Most importantly, drilling at the current mineral resource has only tested the mineralisation to a maximum depth of 300m below surface. Recent EM modelling indicates that the conductive bodies extend much deeper than this, particularly beneath Kowari, Kultarr and Numbat where the 2012 FLTEM models extend to over 500m below surface, and are open at depth. These are referred to as “resource extension” targets.

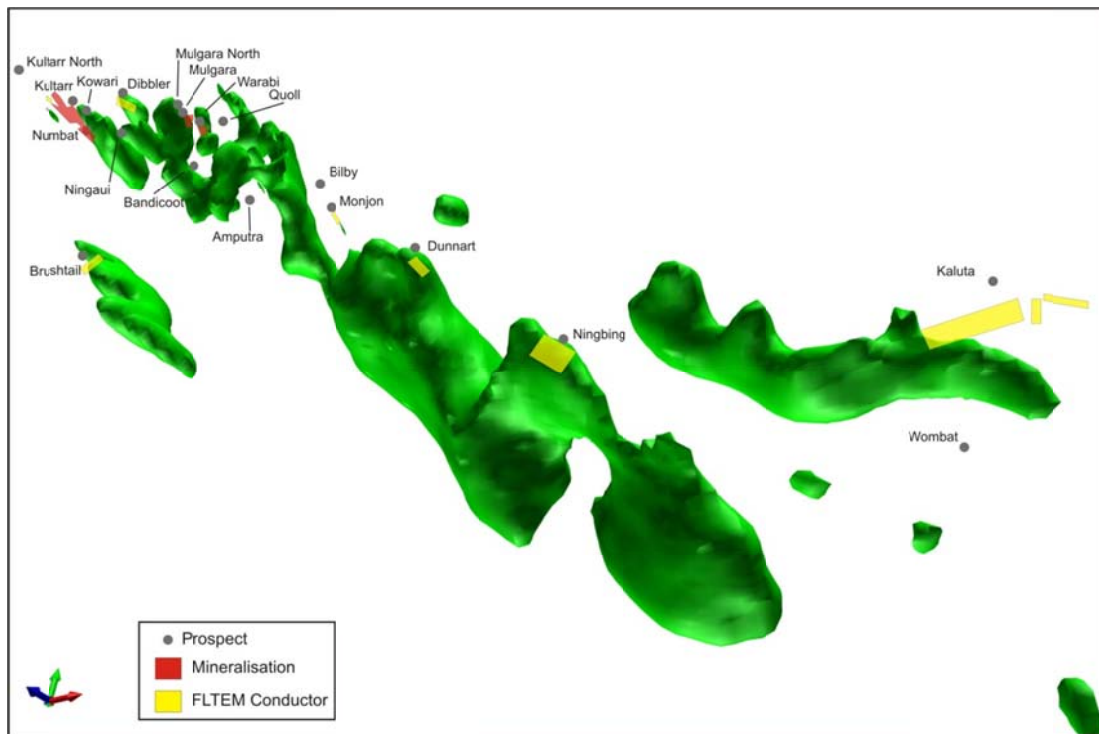

In addition to the resource extension targets, a number of other high priority targets such as Kaluta, Dibbler and Brushtail (see points 1, 4 and 5 below) have not yet been drill tested. These are referred to as “greenfields” targets. Should any of these high-quality targets contain mineralisation, they would substantially increase the Manindi mineral resource estimate and therefore improve project economics.

**Figure 2** - Manindi VTEM imagery and target map showing highest priority targets in red polygons, other targets in beige polygons, conductive trends in pink lines and areas of conductive overburden in grey hatching

The high priority targets in order of ranking (with the highest ranking on top) are as follows:

1. Kaluta (greenfields)
2. Kultarr Deeps and Kultarr North (resource extension)
3. Kowari Deeps (resource extension)
4. Dibbler (greenfields)
5. Brushtail (greenfields)
6. Ningbing (greenfields)
7. Monjon (greenfields)

**Figure 3** - 3D oblique view showing 3D magnetic inversion models in green with mineralisation wireframes in black and FLTEM conductor models in yellow. Note the favourable positions of the highest priority EM conductor models.

Descriptions and proposed follow-up programs for the highest priority exploration targets in order of priority are as follows:

#### 1. Kaluta

This target was identified by the 2012 VTEM survey, and refined by follow-up FLTEM in the same year. Kaluta is a relatively large untested highly conductive body. The 3D model is at least 70m by 600m in surface area. Potential thickness is unknown at this stage, but the tonnage potential is significant. The target starts at just 30m below surface, where it resolves into several discrete bodies then plunges shallowly, at approximately 25 degrees at an azimuth of 290 degrees. It is located close to the Wombat Cu-Ni soil anomaly and is coincident with a deep-rooted magnetic body comparable to the setting of the Manindi mineralisation.

The Kaluta EM anomaly was first identified by Western Mining Corporation (WMC) in 1974. Drill testing was attempted, but modern TEM surveying and 3D processing have confirmed that the conductor was not effectively tested at the time.

Follow-up will involve diamond drill testing followed by DHTEM surveying. DHTEM surveying will be used to determine whether or not the conductor has been effectively intersected, to refine the 3D conductor models, and to provide a vector for future phases of drilling. Future phases of drilling would depend on the discovery of significant mineralisation.

Kaluta is the highest ranked target because it is highly conductive, is potentially large in size, is coincident with a strongly magnetic body with a similar geological setting to the existing Manindi mineral resource, and is completely untested by drilling.

**Figure 4** - Cross section of the Kaluta TEM conductor model showing the 1974 WMC holes which did not intersect the target

## 2. Kultarr Deepes and Kultarr North

Various phases of TEM surveying dating back as far as the 1970s have identified this highly conductive zone, which hosts the Kultarr mineralisation. The 2012 VTEM survey and follow-up FLTEM surveying showed that this zone extends to at least 1,000m vertically below surface. The deepest drilling only tests to a maximum of 300m vertical from surface.

Given its location directly below and along strike from the Kultarr mineralisation, which is also highly conductive, this is a very high priority drill target.

Follow-up will involve a program of deeper drilling followed by DHTM surveying. The DHTM surveying will be used to map out the sulphide mineralisation in detail and target future drilling. This target alone has the potential to greatly increase the Manindi mineral resource.

## 3. Kowari Deepes

This target is similar to Kultarr Deepes but ranks lower because the Kowari and Numbat mineralisation are both of a lower grade than Kultarr. However, given the generally highly segregated and zoned nature of VMS style mineralisation, there is a good chance this conductor represents higher grade zinc and/or copper mineralisation than the adjacent drilled portions of the deposit. The highest grade copper intersected by drilling in the Manindi area, up to 1.27% Cu, occurs at the Kowari prospect.

Follow-up will involve a program of drilling followed by DHTM surveying. The DHTM surveying will be used to map out the sulphide mineralisation in detail and target future drilling.

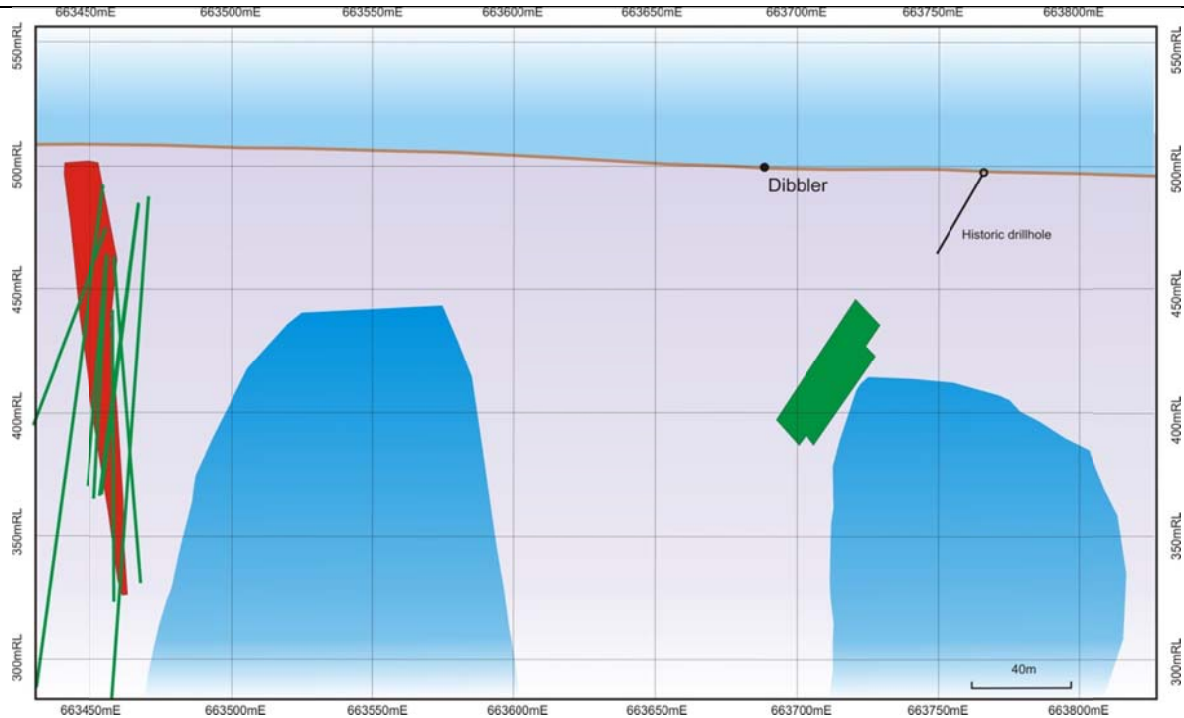

**Figure 5** - Long Section of Kowari and Kultarr showing the high priority target areas. Newexco 2007 DHEM models are in green, 2002 surface EM models are in yellow, 2012 FLTEM models are in light brown and drillhole pierce points are in black dots.

#### 4. Dibbler

This TEM conductor is located 300m east of Kowari, coincident with a magnetic trend similar to, and parallel to the Manindi trend. It may represent a new mineralised horizon lower down in the volcanic sequence to the main Manindi position, or possibly mineralisation remobilised into the footwall gabbro. Although this conductor is relatively small at its top, it may represent the top of a larger body, which develops at depth.

Dibbler was identified by historic EM surveys. A shallow percussion hole was drilled by Esso Exploration and Production Australia INC (Esso) in 1984 over this conductor but modern 3D modelling indicates that the hole failed to intersect its target (Figure 9). The hole was terminated at 39m in +300ppm copper. The Manindi deposits are typically surrounded by an alteration halo containing +250ppm copper, so this is a very positive sign for Dibbler.

Follow-up will involve drilling one hole to intersect the conductor followed by DHEM surveying. If significant mineralisation is intersected, a second phase of drilling will follow.

**Figure 6** - Cross section of the Dibbler TEM 3D model, looking northwest, showing the hole drilled by Esso in 1984, which failed to intersect the target, EM models in green, magnetic inversion models in blue and mineralisation in red. Note the Dibbler position on the 3D magnetic inversion models in comparison to the Kowari-Numbat mineralised position on the left

## 5. Brushtail

Identified by the 2012 VTEM survey and refined by follow-up FLTEM in the same year. This conductor is coincident with a strongly magnetic trend similar to the Manindi trend, the area is undercover and completely unexplored, and may represent a mineralised position higher up in the volcanic sequence to Manindi.

Although the conductor appears to be relatively small at its top, it could represent the top of something larger developing at depth, particularly given the coincidence with a magnetic body. This needs to be confirmed by drilling and DHTEM surveying can determine this.

The fact that this area has never been explored for Manindi-style mineralisation makes Brushtail a very high priority target.

Follow-up will involve drilling of one or two diamond holes followed by DHTEM surveying. If mineralisation is encountered, further drilling and DHTEM surveying may be proposed.

**Figure 7** - Cross section of Brushtail showing the 2012 FLTEM 3D models in green and the 3D magnetic inversion model in blue

## 6. Ningbing

The Ningbing EM conductor is located on the Manindi magnetic trend in a similar stratigraphic position to the Manindi deposits. The 2012 VTEM survey identified the anomaly and FLTEM surveying refined it in the same year. Historic EM had already identified the anomaly but modern 3D modelling indicates that drilling failed to effectively test it.

WMC drilled a single hole over the conductor in 1974 but missed it by about 60m. A second hole was drilled by Plutonic Resources in 1997; this hole was very close to the conductor, but was drilled at a low angle to it and failed to effectively test it. The Plutonic hole intersected a broad zone of +250ppm copper which typically surrounds the Manindi deposits.

Although not particularly large in size at 200m by 50m in extent, this conductor is only 80m from surface and has the potential to add a significant tonnage to the Manindi mineral resource. For comparison Warrabi measures approximately 150m by 65m by 10m thick and contains approximately 152,000t (14%) of the JORC 2012 mineral resource estimate.

**Figure 8** - Cross section of the Ningbing TEM anomaly. The 2002 3D conductor model is edge on in the foreground in darker green and the 2012 FLTEM model is located oblique to section at the back in lighter green. The WMC hole from 1974 is in black on the left and the Plutonic Resources hole from 1997 is in grey on the right. Neither hole effectively intersected either conductor model. Note the association with the magnetic inversion model in blue.

## 7. Monjon

The Monjon EM conductor is similar in style, stratigraphic position and history to Ningbing. The 2012 VTEM and FLTEM surveys identified and refined the target. The anomaly was identified and targeted from historic EM surveys but modern 3D modelling indicates that drilling was ineffective at the time.

Plutonic drilled two holes here in 1997. Drillhole orientation and positioning was not optimal and the conductor was not effectively tested. Narrow zones of weakly anomalous copper up to 480ppm were intersected by the drilling.

Follow-up will involve the drilling of a single hole to intersect the conductor at the correct orientation followed by DHTM surveying. If significant mineralisation is intersected and DHTM provides a vector to more conductive material, a second phase of drilling will be carried out.

**Figure 9** - Cross section through the Monjon TEM conductor shown in green, with the historic drilling that failed to intersect it in grey and the 3D magnetic inversion model in blue

## 8. Other targets

There are several other lower ranking targets at Manindi with the potential to add to the mineral resource. These include:

- **Mulgara/Warabi:** Resource extension opportunities. Pre 2002 EM models extend to at least 150m below deepest drilling at Warabi.
- **Ningai/Bandicoot:** Large EM conductor, only partially tested by drilling. This target needs more systematic drilling on an optimised grid direction.
- **Ampurta:** Medium to large EM conductor only partially tested by drilling. Historic drilling is not systematic and copper grades reach up to 0.8% in places. This target needs further systematic drilling.
- **Dunnart:** Small untested EM conductor on the Manindi magnetic trend. The anomaly is located beneath conductive overburden so it could be larger than EM modelling indicates.
- **Bilby:** Small EM conductor intersected near its edge at a low angle by a single drillhole. No significant mineralisation intersected, but anomalous copper up to 486ppm in the drillhole.

### Glossary of geological/geophysical terms:

**VTEM<sup>1</sup>:** Versatile Transient (time domain) Electromagnetics, a modern airborne EM technique.

**MLTEM<sup>2</sup>:** Moving Loop Transient Electromagnetics, a ground EM technique.

**FLTEM<sup>3</sup>:** Fixed Loop Transient Electromagnetics, a ground EM technique.

**DHTEM<sup>4</sup>:** Down Hole Transient Electromagnetics, a technique using a downhole electromagnetic probe.

**EM<sup>5</sup>:** Electromagnetics, an electrical exploration technique based on the measurement of alternating magnetic fields associated with currents induced in the sub surface.

**TEM<sup>6</sup>:** Transient Electromagnetics, a generalised term.

**3D inversion modelling<sup>7</sup>:** a modern technique of magnetic data processing and interpretation.

**Pyrrhotite:** An iron sulphide mineral.

## METALS AUSTRALIA LTD

### REVIEW OF OPERATIONS

**Figure 10** - Long section of Warabi and Mulgara showing areas for potential resource extensions and the Pre 2002 TEM conductor target. Drillhole pierce points are shown in black dots. Note some holes appear more than once as they intersect multiple discrete mineralised horizons

## SHERLOCK BAY EXTENDED BASE METAL PROJECT

The Sherlock Bay Extended project is composed of two Exploration Licences (E47/1769 and E47/1770), which surround the main Sherlock Bay nickel deposit (wholly owned by Australasian Resources Ltd - 'ARH'). The project is prospective for nickel, copper, silver and gold mineralisation.

The Sherlock Extended Project is a joint venture between Australasian and Metals Australia Ltd (30% interest). Australasian are the managers of the project, with Metals Australia being 'free-carried' through to the completion of a bankable feasibility study and the decision to commence commercial mining.

No significant field work took place on the Sherlock Bay Nickel or Sherlock Extended Project during the year.

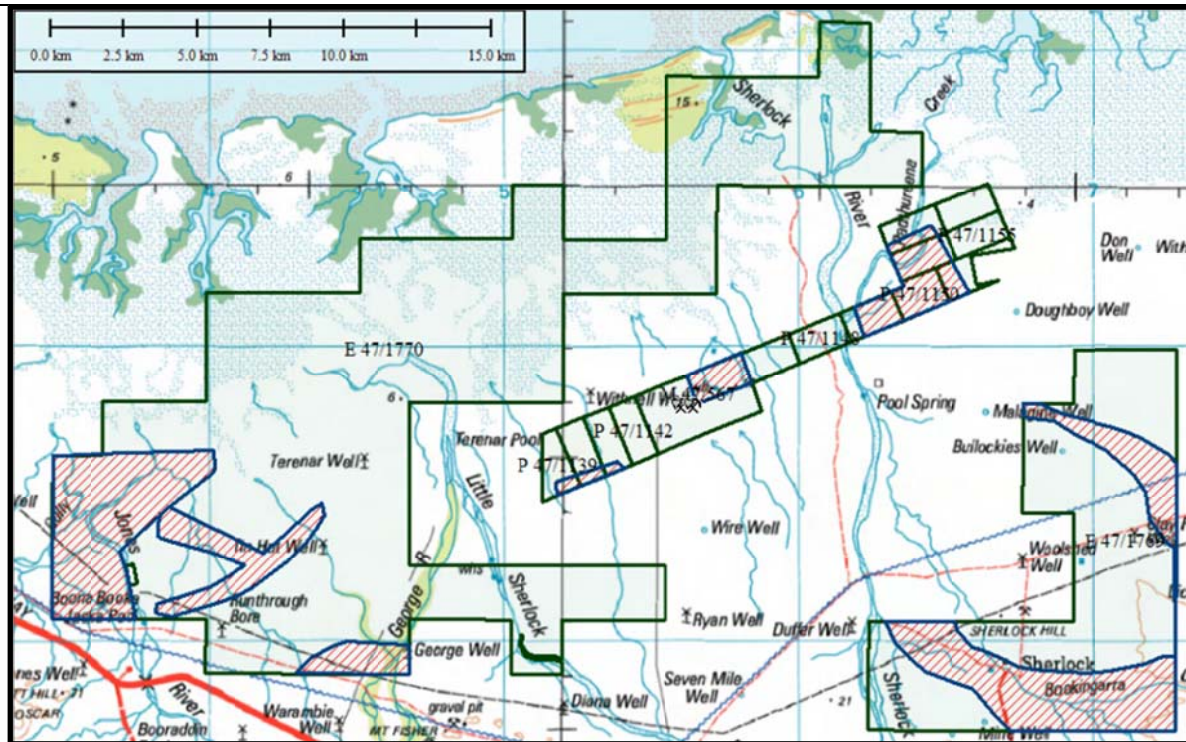

Figure 11 - Areas of exploratory interest set against 1:250,000 topography data

## URANIUM EXPLORATION NAMIBIA

During the September 2014 quarter, Metals conducted a review of all of its recent drilling and exploration at Mile 72 Project north of Swakopmund in Namibia (Figure 1). Results from the September 2013 and June 2014 drilling programs had confirmed the existence of alaskite-hosted uranium mineralisation at Mile 72.

The program identified zones of uranium-enriched schist-granite-alaskite rocks with significant strike extent in the upper 85m at Mile 72.

The strong continuity of the identified mineralised zones is highly encouraging, although the zones intersected thus far appear narrow and the grades variable. Scope remains for wider, duplicated zones to be identified, as well as for the existing zones to become wider in places. The identified zones provide a key starting point for future exploration programs.

The presence of multiple, strike consistent zones is considered highly plausible, as it would explain the significant amounts of uranium that have accumulated on the surface in gypcrete and calcretes at Mile 72. These gypcrete and calcrete deposits recorded some of the highest surface uranium grades of any project globally. Similar significant occurrences of carnotite in sheetwash and weathered bedrock are known in the region, such as at the Aussinanis deposit held by Deep Yellow Limited (ASX:DYL). Deep Yellow have conducted an extensive shallow, close spaced drilling program at Aussinanis and calculated a mineral resource. Processing options exist for the mineralisation, including new low cost upgrading technology such as the U-pgrade™ technology being developed by Marenica Energy (ASX:MEY). The resource and mode of occurrence at Aussinanis are comparable to Mile 72 and analogies are being investigated further by the Metals team.

During 2014, the depressed Uranium market began to turn positive. This was evidenced by an increase in the spot price of U3O8 and positive sentiment surrounding the re-start of reactors in Japan. Metals' holds a positive long term view on Uranium and continues to view its prospects at Mile 72 in perspective to the current low price, but improving, Uranium market.

## METALS AUSTRALIA LTD

### REVIEW OF OPERATIONS

#### FURTHER EXPLORATION IN THE SOUTHEAST TERRANE

Drilling in 2014 effectively sterilised a significant portion of the project area, but allows future exploration to focus on the most prospective areas and possible trap zones in the southeastern terrane. Future programs will be designed and costed to test the area comprehensively to ensure any trap sites are located.

Comparisons with similar shallow occurrences of carnotite in sheetwash and weathered bedrock such as at the Aussinanis deposit will be expanded on by the team to determine the potential for a similar resource at Mile 72, as well as defining the exploration effort required to define it.

#### GOLD PROJECTS, VICTORIA

During the year Metals relinquished its two licenses in Western Victoria, at St Arnaud South (EL5242) and Wedderburn (EL5243). The Company no longer holds licenses in Victoria and will focus its exploration efforts on Western Australia and Namibia.

#### Competent Person Declaration

The information in this report that relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Luke Marshall, who is a full time employee of Golden Deeps Limited, a consultant to Metals Australia Ltd, and a member of The Australasian Institute of Geoscientists. Mr Marshall has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr Marshall consents to the inclusion in the report of the matters based on his information in the form and context in which it appears..

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

#### Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Metals Australia Ltd's planned exploration program and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should," and similar expressions are forward-looking statements. Although Metals Australia Ltd believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

# METALS AUSTRALIA LTD

## DIRECTORS' REPORT

---

The Directors present their report on the consolidated entity consisting of Metals Australia Ltd and its controlled entities for the year ended 30 June 2015.

### DIRECTORS

The following were Directors of Metals Australia Ltd during the financial year and up to the date of this report:

Hersh Solomon Majteles (Chairman)  
Michael Scivolo  
Robert Collins

### PRINCIPAL ACTIVITIES

The principal continuing activities of the consolidated entity are the exploration of mineral deposits and investment.

### RESULTS

The loss of the Group for the financial year after providing for income tax amounted to \$614,287 (2014: \$1,550,222).

### DIVIDENDS

Since the end of the previous financial year, no dividend has been declared or paid by the Company.

### FINANCIAL POSITION

The net assets of the group have decreased by \$533,530 from \$6,302,541 at 30 June 2014 to \$5,769,011 at 30 June 2015.

### SIGNIFICANT CHANGES

There have not been any significant changes in the state of affairs of the Group during the financial year, other than as noted in this financial report.

### LIKELY DEVELOPMENTS

The Group will continue to focus on its exploration activities.

### INFORMATION ON DIRECTORS AND COMPANY SECRETARY

(a) Qualifications, experience and special responsibilities of Directors:

(i) Hersh Solomon Majteles LLB

Mr Majteles is a commercial lawyer and has been in private practice in Western Australia since 1972. He has been a board member of a number of publicly listed companies involved in the mining, resources, energy and biotech sectors for over twenty five years. Mr Majteles is also a Director of Blaze International Limited, Prime Minerals Limited, Power Resources Limited, and Chairman of Promesa Limited.

(ii) Michael Scivolo B. Com, FCPA

Mr Scivolo has extensive experience in the fields of accounting and taxation in both corporate and non-corporate. He was a Director of South East Asia Resources Ltd until 29 November 2013, and is a Director of Blaze International Limited, Prime Minerals Limited, Power Resources Limited, Sabre Resources Ltd and Golden Deeps Limited.

# METALS AUSTRALIA LTD

## DIRECTORS' REPORT

(iii) Robert Collins

Mr Collins has served on a number of ASX listed industrial and mining company boards, and owned a large accounting practice serving the corporate sector. He is currently a Non-Executive Director of Golden Deeps Limited, Blaze International Limited, Prime Minerals Limited and Power Resources Limited.

(b) The Company Secretary was in office for the entire period, and his qualifications and experience are as follows:

Norman Grafton FCIS, FCSA

Mr Grafton has extensive experience in both Australian and international commerce, having previously been based in Singapore, Papua New Guinea and Jamaica. Prior to returning to Australia, he was Director of Finance and Company Secretary of the largest agro-industrial operation in Jamaica, on secondment from a major UK firm of corporate managers.

(c) Relevant interests of Directors in shares and options of the Company at the date of this report:-

Name	Ordinary Shares	Options
H S Majteles	2,950,000	-
M Scivolo	25,000	-
R Collins	-	-

(d) Directors' interest in contracts:-

No Director has an interest, whether directly or indirectly, in a contract or proposed contract with the Company.

<b>Total</b>	<b>3,325,000</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>3,325,000</b>

No person entitled to exercise the option had or has any right by virtue of the option to participate in any share issue of any other body corporate.

Directors receive a fixed fee (plus statutory superannuation where appropriate), with executive directors being remunerated for any professional service conducted for the Company. Directors did not receive any benefits in the form of share-based payments during the year under review.

There are no retirement schemes for any directors or any loans or any other type of compensation.

Board policy on the remuneration for this exploration Company is influenced by comparing fees paid to directors in other companies within the exploration industry, and then set at a level to attract qualified people, to accept the responsibilities of Directorship. No Director, executive or employee has an employment contract.

Being an exploration company, with no earnings, a relationship is yet to be established between an emolument policy and the Company's performance. During the year the Company did not engage remuneration consultants to review its existing remuneration policies.

# METALS AUSTRALIA LTD

## DIRECTORS' REPORT

---

At the last AGM shareholders voted to adopt the remuneration report for the year ended 30 June 2013. The Company did not receive specific feedback at the AGM regarding its remuneration practices.

### END OF REMUNERATION REPORT

#### ANALYSIS OF MOVEMENT IN OPTIONS

No options were held by any Company Director during the reporting period, and no options were granted to Directors during the year under review.

#### MEETINGS OF DIRECTORS

The following table sets out the number of meetings of the Company's Directors held during the year ended 30 June 2015 and the number of meetings attended by each Director:

Name	Eligible to attend	Attended
H S Majteles	4	4
M Scivolo	4	3
R Collins	4	4

The Company does not have a formally appointed audit committee as all Directors are involved in all activities of the Company and the size and scope of operations does not warrant its formation.

#### RETIREMENT, ELECTION AND CONTINUATION IN OFFICE OF DIRECTORS

Mr Scivolo retired by rotation as a Director at the Annual General Meeting on 28 November 2014 and was re-elected.

At the forthcoming Annual General Meeting, Mr Majteles retires by rotation as a Director and offers himself for re-election.

#### ENVIRONMENTAL ISSUES

The Company's objective is to ensure that a high standard of environmental care is achieved and maintained on all properties. There are no known environmental issues outstanding.

#### EVENTS SUBSEQUENT TO BALANCE DATE

No matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the consolidated group, the results of these operations, or the state of affairs of the consolidated group in future years.

#### INDEMNIFYING OFFICER OR AUDITORS

No indemnities have been given, or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the entity.

#### OPTIONS

As at the date of this report, the unissued ordinary shares of Metals Australia Ltd under option are as follows:

Grant Date	Listed/ Unlisted	ASX Code	Date of expiry	Exercise Price	Number under option
2 September 2013	Unlisted	MLSAK	31 August 2016	\$0.02	50,000,000

Option holders do not have any rights to participate in any issues of shares or other interests in the company or any other entity.

# METALS AUSTRALIA LTD

## DIRECTORS' REPORT

---

With the exception of the above, there have been no unissued shares or interest under option of any controlled entity within the group during or since the reporting date.

For details of options issued to directors and executives as remuneration, refer to the Remuneration Report.

### PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

### AUDITOR'S INDEPENDENCE DECLARATION

A copy of the independent auditor's declaration as required by section 307c of the *Corporations Act 2001* is set out on page 54.

### DIRECTORS' BENEFITS

Except as detailed in note 6, no Director of the Company has received or become entitled to receive during or since the end of the previous financial year, any benefit (other than a benefit included in the aggregate amounts of emoluments received or due and receivable by Directors shown in the accounts or the fixed salary of a full time employee of the Company or of a related corporation) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member or with a company in which he has a substantial financial interest.

### AUDIT COMMITTEE

No Audit Committee has been formed as the Directors believe that the Company is not of a size to justify having a separate Audit Committee. Given the small size of the Board, the Directors believe an Audit Committee structure to be inefficient.

### NON AUDIT SERVICES

The Board of Directors, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons;

- All non-audit services are reviewed and approved by the Directors prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- The nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

During the year under review, Grant Thornton also provided services in relation to taxation matters. Details of the amounts paid and payable to the auditor of the company, Grant Thornton Audit Pty Ltd and its related entities for audit and non-audit services provided during the year are set out in Note 5 to the Financial Statements.

This report is made in accordance with a resolution of the Directors.

.....  
M Scivolo Director

NOTES TO THE FINANCIAL STATEMENTS

---

**1. CORPORATE INFORMATION**

The financial report of Metals Australia Ltd and its subsidiaries Karrilea Holdings Pty Ltd and Metals Namibia (Pty) Ltd (the Group) for the year ended 30 June 2015 was authorised for issue in accordance with a resolution of the Directors on 25 September 2015.

Metals Australia Ltd is a company incorporated and domiciled in Australia, limited by shares which are publicly traded on the Australian Securities Exchange.

The nature of the operations and principal activities of the Group are mineral exploration and investment.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of Preparation**

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards, Australian Accounting Interpretations and complies with other requirements of the law, as appropriate for for-profit oriented entities. The financial report has also been prepared on an accruals basis and on a historical cost basis, except for financial assets and liabilities, which have been measured at fair value.

The financial report is presented in Australian Dollars.

The financial statements of the Company and Group have been prepared on a going concern basis which anticipates the ability of the Company and Group to meet its obligations in the normal course of the business. It is considered that the Company should obtain sufficient funds from capital raising to enable it to meet its obligations. If the Company is unable to continue as a going concern then it may be required to realise its assets and extinguish its liabilities, other than in the normal course of business and amounts different from those stated in the financial statements.

**(b) Statement of compliance**

The financial report complies with Australian Accounting Standards and International Financial Reporting Standards (IFRS).

**(c) New and Amended Accounting Standards adopted by the Group**

A number of new or amended standards became applicable for the current reporting period, however, the Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards. Information on these new standards which are relevant to the Group is presented below.

**AASB 2012-3 *Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities***

AASB 2012-3 adds application guidance to AASB 132 to address inconsistencies identified in applying some of the offsetting criteria of AASB 132, including clarifying the meaning of “currently has a legally enforceable right of set-off” and that some gross settlement systems may be considered equivalent to net settlement.

AASB 2012-3 is applicable to annual reporting periods beginning on or after 1 January 2014 and has been adopted in this financial report. The adoption of these amendments has not had a material impact on the Group as the amendments merely clarify the existing requirements in AASB 132.

NOTES TO THE FINANCIAL STATEMENTS

---

**AASB 2013-3 Amendments to AASB 136 – Recoverable Amount Disclosures for Non-Financial Assets**

These narrow-scope amendments address disclosure of information about the recoverable amount of impaired assets if that amount is based on fair value less costs of disposal.

When developing IFRS 13 *Fair Value Measurement*, the IASB decided to amend IAS 36 *Impairment of Assets* to require disclosures about the recoverable amount of impaired assets. The IASB noticed however that some of the amendments made in introducing those requirements resulted in the requirement being more broadly applicable than the IASB had intended. These amendments to IAS 36 therefore clarify the IASB's original intention that the scope of those disclosures is limited to the recoverable amount of impaired assets that is based on fair value less costs of disposal.

AASB 2013-3 makes the equivalent amendments to AASB 136 *Impairment of Assets* and is applicable to annual reporting periods beginning on or after 1 January 2014. The adoption of these amendments in this financial report has not had a material impact on the Group as they are largely of the nature of clarification of existing requirements.

**AASB 2014-1 Amendments to Australian Accounting Standards (Part A: Annual Improvements 2010-2012 and 2011-2013 Cycles)**

Part A of AASB 2014-1 makes amendments to various Australian Accounting Standards arising from the issuance by the IASB of International Financial Reporting Standards *Annual Improvements to IFRSs 2010-2012 Cycle* and *Annual Improvements to IFRSs 2011-2013 Cycle*.

Among other improvements, the amendments arising from *Annual Improvements to IFRSs 2010-2012 Cycle*:

- clarify that the definition of a 'related party' includes a management entity that provides key management personnel services to the reporting entity (either directly or through a group entity)
- amend AASB 8 *Operating Segments* to explicitly require the disclosure of judgements made by management in applying the aggregation criteria

Among other improvements, the amendments arising from *Annual Improvements to IFRSs 2011-2013 Cycle* clarify that an entity should assess whether an acquired property is an investment property under AASB 140 *Investment Property* and perform a separate assessment under AASB 3 *Business Combinations* to determine whether the acquisition of the investment property constitutes a business combination.

Part A of AASB 2014-1 is applicable to annual reporting periods beginning on or after 1 July 2014. The adoption of these amendments has not had a material impact on the Group as they are largely of the nature of clarification of existing requirements.

**(d) New Accounting Standards for Application in Future Periods**

New and revised accounting standards and amendments that are currently issued for future reporting periods that are relevant to the Group include:

**AASB 9 Financial Instruments**

AASB 9 introduces new requirements for the classification and measurement of financial assets and liabilities. These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139.

**NOTES TO THE FINANCIAL STATEMENTS**

---

The effective date is for annual reporting periods beginning on or after 1 January 2018.

The entity is yet to undertake a detailed assessment of the impact of AASB 9. However, based on the entity's preliminary assessment, the Standard is not expected to have a material impact on the transactions and balances recognised in the financial statements when it is first adopted for the year ending 30 June 2019.

**AASB 14      *Regulatory Deferral Accounts***

AASB 14 permits first-time adopters of Australian Accounting Standards who conduct rate-regulated activities to continue to account for amounts related to rate regulation in accordance with their previous GAAP. Accordingly, an entity that applies AASB 14 may continue to apply its previous GAAP accounting policies for the recognition, measurement, impairment and derecognition of its regulatory deferral account balances. This exemption is not available to entities who already apply Australian Accounting Standards.

The effective date is for annual reporting periods beginning on or after 1 January 2016.

When AASB 14 becomes effective for the first time for the year ending 30 June 2017, it will not have any impact on the entity.

**AASB 15      *Revenue from Contracts with Customers***

AASB 15 replaces AASB 118: Revenue, AASB 111 Construction Contracts and some revenue-related Interpretations. In summary, AASB 15:

- establishes a new revenue recognition model;
- changes the basis for deciding whether revenue is to be recognised over time at a point in time;
- provides a new and more detailed guidance on specific topics (eg multiple element arrangements, variable pricing, rights of return and warranties); and
- expands and improves disclosures about revenue.

When this Standard is first adopted for the year ending 30 June 2018, there will be no material impact on the transactions and balances recognised in the financial statements.

**AASB              *2014-3 Amendments to Australian Accounting Standards – Accounting for Acquisitions of Interests in Joint Operations***

This amendment impacts on the use of AASB 11 when acquiring an interest in a joint operation.

The effective date is for annual reporting periods beginning on or after 1 January 2016.

When these amendments are first adopted for the year ending 30 June 2017, there will be no material impact on the transactions and balances recognised in the financial statements.

**(e) Basis of consolidation**

The Group financial statements consolidate those of the Parent Company and all of its subsidiaries as of 30 June 2015. The Parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. All subsidiaries have a reporting date of 30 June.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

**NOTES TO THE FINANCIAL STATEMENTS**

---

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of (a) fair value of consideration transferred, (b) the recognised amount of any non-controlling interest in the acquiree, and (c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (i.e. gain on a bargain purchase) is recognised in profit or loss immediately.

Associates are those entities over which the Group is able to exert significant influence but which are not subsidiaries.

**(f) Interest in joint venture operation**

The Group's interest in any joint venture operation is accounted for by recognising the Group's assets and liabilities from the joint venture, as well as expenses incurred by the Group and the Group's share of income earned from the joint venture, in the consolidated financial statements.

**(g) Foreign currency translation**

Both the functional and presentation currency of Metals Australia Ltd and its Australian subsidiary is the Australian Dollar (A\$). The functional currency of the Namibian subsidiary is the Namibian Dollar (N\$). Cash remittances from the parent entity to the Namibian subsidiary are sent in Australian dollars and then converted to Namibian dollars using the applicable rate of exchange. Monetary assets and liabilities denominated in the foreign currency are retranslated at the rate of exchange at the reporting date.

Transactions in foreign currencies are initially recorded in the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date.

All differences in the consolidated financial report are taken to the Statement of Profit or Loss and Other Comprehensive Income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

**NOTES TO THE FINANCIAL STATEMENTS**

---

As at the reporting date the assets and liabilities of any overseas subsidiaries were translated into the presentation currency of Metals Australia Ltd at the rate of exchange ruling at the reporting date, and the Statement of Profit or Loss and Other Comprehensive Income is translated at the weighted average exchange rates for the period.

The exchange differences arising on the retranslation are taken directly to a separate component of equity.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the Statement of Profit or Loss and Other Comprehensive Income.

**(h) Property, plant and equipment**

Plant and equipment is stated at cost less accumulated depreciation and any impairment in value.

Depreciation is calculated on a straight-line basis over the estimated useful life of the asset as follows:

- Plant and equipment – over 3 to 5 years

*Impairment*

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the statement of comprehensive income in the period the item is derecognised.

**(i) Goodwill**

Goodwill on acquisition is initially measured at cost being the excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised.

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

As at the acquisition date, any goodwill acquired is allocated to each of the cash-generating units

NOTES TO THE FINANCIAL STATEMENTS

---

expected to benefit from the combination's synergies.

Impairment is determined by assessing the recoverable amount of the cash-generating unit to which the goodwill relates.

Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation.

Goodwill disposed of in this circumstance is measured on the basis of the relative values of the operation disposed of and the portion of the cash-generating unit retained.

**(j) Impairment of non-financial assets**

At each reporting date, the Group assesses whether there is any indication that a non-financial asset may be impaired. Where an indicator of impairment exists, the Group makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

**(k) Investments and other financial assets**

Financial assets in the scope of AASB 139 *Financial Instruments: Recognition and Measurement* are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end.

All regular way purchases and sales of financial assets are recognised on the trade date, i.e. that date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the market place.

*(i) Financial assets at fair value through profit or loss*

Financial assets classified as held for trading are included in the category "financial assets at fair value through profit or loss". Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term with the intention of making a profit. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

*(ii) Held-to-maturity investments*

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold to

NOTES TO THE FINANCIAL STATEMENTS

---

maturity. Investments intended to be held for an undefined period are not included in this classification. Investments that are intended to be held-to maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

*(iii) Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payment that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

*(iv) Available-for-sale-investments*

Available-for-sale-investments are those non-derivative financial assets that are designated as available-for-sale or are not classified as any of the three preceding categories. After initial recognition, available-for-sale investments are measured at fair value with gains or losses being recognised as a separate economic component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in profit or loss.

The fair values of investments that are actively traded in organised financial markets are determined by reference to quoted market bid prices at the close of business on the reporting date. For investments with no active market, fair values are determined using valuation techniques. Such techniques include: using recent arm's length market transactions; reference to the current market value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible and keeping judgemental inputs to a minimum.

**Fair value**

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

**Impairment**

At the end of each reporting period, the Group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

**(I) Exploration and Evaluation Expenditure**

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development, or sale, of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made. When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to

**NOTES TO THE FINANCIAL STATEMENTS**

---

carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on a discounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

**(m) Trade and other receivables**

Trade receivables, which generally have 30-90 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts.

An allowance for doubtful debts is made when there is objective evidence that the Group will not be able to collect the debts. Bad debts are written off when identified.

**(n) Cash and cash equivalents**

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

**(o) Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit or Loss and Other Comprehensive Income net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**(p) Share-based payment transactions**

*(i) Equity settled transactions:*

The Group provides benefits to Directors and consultants of the Group in the form of share-based payments whereby personnel render services in exchange for shares.

The cost of these equity-settled transactions was measured by reference to the fair value of the equity instruments at the date on which they were granted. The fair value was determined using the Black Scholes formula.

NOTES TO THE FINANCIAL STATEMENTS

---

In valuing equity-settled transactions, no account was taken of any performance conditions, other than conditions linked to the price of the shares of Metals Australia Ltd (market conditions). The cost of equity-settled transactions was recognised, together with the corresponding increase in equity, on the date of grant of the options.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

*(ii) Cash settled transactions:*

The Group does not provide benefits to employees in the form of cash-settled share based payments.

Any cash-settled transactions would be measured initially at fair value at the grant date using the Black-Scholes formula taking into account the terms and conditions upon which the instruments were granted. This fair value is expensed over the period until vesting with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to and including the settlement date with changes in fair value recognised in profit or loss.

**(q) Revenue**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

*Sale of goods*

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and can be measured reliably. Risks and rewards are considered passed to the buyer at the time of delivery of the goods to the customer.

*Interest*

Revenue is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

*Dividends*

Revenue is recognised when the shareholders' right to receive the payment is established.

**(r) Income tax**

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax credits and unused tax losses can be utilised:

**NOTES TO THE FINANCIAL STATEMENTS**

---

- except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and,
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the Statement of Comprehensive Income.

**(s) Other taxes**

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

**(t) Trade and other payables**

Trade and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

**(u) Contributed equity**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**(v) Earnings per share**

Basic earnings per share is calculated as net profit/(loss) attributable to members of the parent, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

**NOTES TO THE FINANCIAL STATEMENTS**

---

Diluted earnings per share is calculated as net profit/(loss) attributable to members of the parent, adjusted for:

- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

**(w) Comparatives**

Comparatives are reclassified where necessary to be consistent with the current year's disclosures.

**(x) Going Concern**

The financial report has been prepared on the basis of going concern, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. During the period, the Group has reported a net loss of \$614,287 and a net cash outflow from operating activities of \$254,452 and from investing activities of \$259,105.

The Directors will continue to monitor the capital requirements of the Group, and this includes additional capital raisings in future periods as required.

In addition to planned capital raisings, the following initiatives are in place-

- A shareholder of the Company has agreed to provide cash advances to the Company until a capital a capital raising has been completed. At this date, \$50,000 has been received by the Company under this arrangement.
- The Company's largest creditor has deferred settlement of all outstanding invoices at balance date for a period of twelve months, and has agreed to defer settlement of all current invoices until the Company has sufficient available cash resources.

The Directors recognise that the above represents a material uncertainty as to the Group's ability to continue as a going concern, however, they are confident that the Group will be able to continue its operations into the foreseeable future.

Should the Group be unable to obtain the funding as described above, there is a material uncertainty as to whether the Group will be able to continue as a going concern, and therefore, whether it will be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different from those stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that may be necessary should the Group be unable to continue as a going concern.

**3. Significant Accounting Judgments, Estimates and Assumptions**

In applying the Group's accounting policies, management continually evaluates judgments, estimates and assumptions based on experience and other factors, including expectations of future events that may have an impact on the Group. All judgments, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgments, estimates and assumptions. Significant judgments, estimates and assumptions made by management in the preparation of these financial statements are outlined below:

- (i) *Significant accounting judgments include:*

**NOTES TO THE FINANCIAL STATEMENTS**

---

(a) Classification of and value of investments

The Group has decided to classify investments in listed securities as “held for trading” investments and movements in fair value are recognised directly in the Statement of Profit or Loss and Other Comprehensive Income. The fair value of listed shares has been determined by reference to published price quotations in an active market.

(b) Provision in and loans to subsidiaries

Investments in and loans to subsidiaries are fully provided for until such time as subsidiaries are in a position to repay loans.

(c) Exploration expenditure

The Group capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded. Such capitalised expenditure is carried at the end of the reporting period at \$5,951,296.

(ii) *Significant accounting estimates and assumptions include:*

(a) Share-based payment transactions

The Group measures the cost of equity-settled transactions with Directors, employees and consultants by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using the Black Scholes formula.

The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact expenses and equity.

The Group measure the cost of cash-settled share-based payments at fair value at the grant date using the Black-Scholes formula taking into account the terms and conditions upon which the instruments were granted.

(b) Provision for rehabilitation

Where applicable, the Group makes provision for material restoration obligations. The amount recognised includes the cost of reclamation and site rehabilitation after taking into account any restoration works which are carried out during exploration. The provision for rehabilitation costs is determined from an estimate of future costs which may be incurred in rehabilitating exploration sites.

(c) Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience as well as manufacturers’ warranties (for plant and equipment) and turnover policies (for motor vehicles). In addition, the condition of assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful life are made when considered necessary.

### Summary of Options Granted

The following table sets out the number (No.) and weighted average exercise price (WAEP) of, and movements in, share options granted during the year:

	2015 No.	2015 WAEP (cents)	2014 No.	2014 WAEP (cents)
Outstanding at beginning of year	50,000,000	2.00	233,435,767	2.87
Granted during the year	-	-	50,000,000	2.00
Exercised during the year	-	-	(2,025,000)	1.00
Expired during the year	-	-	(231,410,767)	2.88
Forfeited during the year	-	-	-	-
<b>Outstanding at the end of the year</b>	<b>50,000,000</b>	<b>2.00</b>	<b>50,000,000</b>	<b>2.00</b>

As at the year end, there was one class of unlisted options, exercisable at 2 cents per option at any time up to their expiry date of 31 August 2016.

The remaining contractual life of the options outstanding at year end was 1.17 years.

### Capital Management

Management controls the capital of the group in order to maintain a good debt to equity ratio, and to ensure that the group can fund its operations and continue as a going concern. The group's debt and capital includes ordinary share capital, supported by financial assets. There are no externally imposed capital requirements. Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include distributions to shareholders and share issues.

There have been no changes in the strategy adopted by management to control the capital of the group since the prior year.

<b>Net Financial Assets</b>	<b>78,724</b>	<b>593,641</b>	<b>(261,311)</b>	<b>(18,624)</b>	<b>(182,587)</b>	<b>575,017</b>

#### Reconciliation of Financial Assets to Net Assets

	Consolidated	
	2015	2014
	\$	\$
Net financial assets	(182,587)	575,017
Exploration and evaluation expenditure	5,951,296	5,716,868
Plant & equipment	303	10,656
<b>Net assets</b>	<b>5,769,011</b>	<b>6,302,541</b>

#### (b) Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets is the carrying amount of those assets, net of any provision for doubtful debts, as disclosed in the Statement of Financial Position and notes to the financial report.

The consolidated entity does not have any material credit risk exposure to any single debtor or group of debtors under financial instruments entered into by the consolidated entity.

#### (c) Net Fair Values

The carrying amount of financial assets and financial liabilities recorded in the financial statements represent their respective net fair values determined in accordance with the accounting policies disclosed in Note 2 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

(d) Financial Risk Management

The Group's financial instruments consist mainly of deposits with recognised banks, investments in bank bills up to 90 days, accounts receivable and accounts payable, and loans to subsidiaries. Liquidity is managed, when sufficient funds are available, by holding sufficient funds in a current account to service current obligations and surplus funds invested in bank bills. The Directors analyse interest rate exposure and evaluate treasury management strategies in the context of the most recent economic conditions and forecasts. The main risks the Group is exposed to through its financial instruments are the depository banking institution itself, holding the funds, and interest rates. The Group's credit risk is minimal, as being an exploration company, no goods are sold, or services provided, for which consideration is claimed.

(e) Liquidity Risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages the risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

(f) Sensitivity Analysis

Interest Rate Risk, Foreign Currency Risk and Price Risk

The group has performed sensitivity analysis relating to its exposure to interest rate risk, foreign currency risk and price risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

*Interest Rate Sensitivity Analysis*

At 30 June 2015, the effect on profit/(loss) and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

	<b>Consolidated</b>	
	<b>2015</b>	<b>2014</b>
	<b>\$000</b>	<b>\$000</b>
Change in profit/(loss)		
- Increase in interest rate by 2%	2	12
- Decrease in interest rate by 2%	(2)	(12)
Change in equity	2	12
- Increase in interest rate by 2%	(2)	(12)
- Decrease in interest rate by 2%		

*Foreign Currency Risk Sensitivity Analysis*

There is minimal foreign currency risk as insignificant balances of foreign currency are held.

# METALS AUSTRALIA LTD

## NOTES TO THE FINANCIAL STATEMENTS

### Price Risk Sensitivity Analysis

The table below reflects an undiscounted contractual maturity analysis for financial liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

Consolidated Group	Within 1 Year		1 to 5 Years		Over 5 Years		Total	
	2015 \$	2014 \$	2015 \$	2014 \$	2015 \$	2014 \$	2015 \$	2014 \$
<i>Financial Liabilities - Due for Payment</i>								
Trade and other payables	394,595	110,248	-	-	-	-	394,595	110,248
Total expected outflows	394,595	110,248	-	-	-	-	394,515	110,248
<i>Financial Assets - Cash Flows Realisable</i>								
Cash and cash equivalents	78,724	193,641	-	-	-	-	78,724	193,641
Bank deposits over 3 months	-	400,000	-	-	-	-	-	400,000
Receivables	66,282	27,281	-	-	-	-	66,282	27,281
Financial assets through profit or loss	-	-	67,002	64,343	-	-	67,002	64,343
Total anticipated inflows	145,006	620,922	67,002	64,343	-	-	212,008	685,265
Net (outflow)/inflow on financial instruments	(249,589)	510,674	67,002	64,343	-	-	(182,507)	575,017

### Price risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices largely due to demand and supply factors for commodities.

The Group is also exposed to securities price risk on investments held for trading or for medium to longer terms. Such risk is managed through diversification of investments across industries and geographical locations.

#### Financial Instruments Measured at Fair Value

The financial instruments recognised at fair value in the Statement of Financial Position have been analysed and classified using a fair value hierarchy reflecting the significance of the inputs used in making the measurements. The fair value hierarchy consists of the following levels:

- quoted prices in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

**22. Operating Segments****Segment Information****Identification of reportable segments**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (Chief Operating decision makers) in assessing performance and determining the allocation of resources. As the Group is focused on mineral exploration, the Board monitors the Group based on actual versus budgeted exploration expenditure incurred by area of interest. The internal reporting framework is the most relevant to assist the Board with making decisions regarding the Group and its ongoing exploration activities, while also taking into consideration the results of exploration work that has been performed to date.

The Company is managed on the basis of area of interest. Operating segments are therefore determined on the same basis.

**Segments**

The three reportable segments are as follows:

- (i) Western Australian Base Metal Projects;
- (ii) Victorian Gold Projects (to July 2014); and
- (iii) Namibian Uranium Projects.

**Basis of Accounting for purposes of reporting by operating segments***Accounting Policies Adopted*

All amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

There are no inter-segment transactions. Segment assets are clearly identifiable on the basis of their nature. Segment liabilities include trade and other payables and the provision for rehabilitation.

*Unallocated items*

Corporate costs are not considered core operations of any segment.

*Comparative information*

This is the first reporting period in which AASB 8: Operating Segments has been adopted. Comparative information has been restated to conform to the requirements of the Standard.

**23. Commitments**

(i) Mining Tenements

As part of ongoing activities, the consolidated entity is required to commit to minimum expenditures to retain its interest in its Western Australian mining tenements. Over the next five years this amounts to \$790,000, as follows:

Year Ending 30 June	Amount \$
2016	158,000
2017	158,000
2018	158,000
2019	158,000
2020	158,000
	<u>790,000</u>

EL 5242 and 5243 in Victoria were relinquished in July 2014.

(ii) Management Agreement

The Company has an agreement with a management service company for the provision of services at \$255,000 per annum plus CPI. Charges are at commercial terms in accordance with the Deed of Variation to Facilitation and Management Agreement entered into on 18 October 2012 for a five year term.

**24. Contingent Liabilities**

No contingent liability exists for termination benefits under service agreements with directors or persons who take part in the management of the company. There were no contingent liabilities as at 30 June 2015.

**25. Subsequent Events**

No matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the consolidated group, the results of these operations, or the state of affairs of the consolidated group in future years.

### DIRECTORS' DECLARATION

---

1. In the opinion of the Directors of Metals Australia Ltd (the "Company"):

- (a) the financial statements and notes set out on pages 20 to 48, and the remuneration disclosures that are contained in pages 16 to 18 of the Remuneration Report in the Directors' Report, are in accordance with the Corporations Act 2001, including:
  - (i) giving a true and fair view of the Group's financial position as at 30 June 2015 and of its performance, for the financial year ended on that date;
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
  - (iii) complying with International Financial Reporting Standards as disclosed in Note 2.
- (b) the remuneration disclosures that are contained in page 16 to 18 of the Remuneration Report in the Directors' Report comply with Australian Accounting Standard AASB 124 Related Party Disclosures; and
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

2. The Directors have been given the declaration required by Section 295A of the Corporations Act 2001 from the Chief Financial Officer for the financial year ended 30 June 2015.

Signed in accordance with a resolution of the Directors:

M Scivolo  
DIRECTOR

Dated this thirtieth day of September 2015

## **Independent Auditor's Report To the Members of Metals Australia Ltd**

### **Report on the financial report**

We have audited the accompanying financial report of Metals Australia Ltd (the "Company"), which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

### **Directors' responsibility for the financial report**

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001. The Directors' responsibility also includes such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, the financial statements comply with International Financial Reporting Standards.

### **Auditor's responsibility**

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

Grant Thornton Audit Pty Ltd ACN 130 913 594  
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Independence**

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

### **Auditor's opinion**

In our opinion:

- a the financial report of Metals Australia Ltd is in accordance with the Corporations Act 2001, including:
  - i giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
  - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

### **Emphasis of matter**

Without qualifying our opinion, we draw attention to Note 2(x) to the financial report which indicates that the consolidated entity incurred a net loss of \$614,287 and incurred cash outflows from operating and investing activities of \$513,557 during the year ended 30 June 2015. These conditions, along with other matters as set forth in Note 2 (x), indicate the existence of a material uncertainty which may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the financial report.

### **Report on the remuneration report**

We have audited the remuneration report included in pages 16 to 18 of the directors' report for the year ended 30 June 2015. The Directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

**Auditor's opinion on the remuneration report**

In our opinion, the remuneration report of Metals Australia Ltd for the year ended 30 June 2015, complies with section 300A of the Corporations Act 2001.

## **CORPORATE GOVERNANCE STATEMENT**

Metals Australia Ltd ACN 008 982 474 ("the Company") has adopted systems of control and accountability as the basis for the administration of corporate governance. Some of these policies and procedures are summarised below.

The following additional information about the Company's corporate governance practices is set out on the Company's website at [www.metalsaustralia.com.au](http://www.metalsaustralia.com.au) :

### **Principle 1 – Lay solid foundations for management and oversight**

#### **Responsibilities of the Board**

The Board is responsible for the following matters:

- ensuring the Company's conduct and activities are ethical and carried out for the benefit of all its stakeholders;
- development of corporate strategy, implementation of business plans and performance objectives;
- reviewing, ratifying and monitoring systems of risk management, codes of conduct, internal control system and legal and regulatory compliance;
- the appointment of the Company's Corporate Manager, Chief Executive Officer (or equivalent), Chief Financial Officer, Company Secretary and other senior executives;
- monitoring senior executives' performance and implementation of strategy;
- determining appropriate remuneration policies;
- allocating resources and ensuring appropriate resources are available to management;
- approving and monitoring the annual budget, progress of major capital expenditure, capital management, and acquisitions and divestitures; and
- approving and monitoring financial and other reporting.

#### **Diversity**

The Company recognises and respects the value of diversity at all levels of the organisation.

Due to the size and scale of the Company's activities, most managerial and geological services are provided by the Corporate Manager and the Company no direct employees.

When the level of activity permits, the Directors will ensure that women are fairly considered and the Company's aim will be to promote a culture which embraces diversity through ongoing education, succession planning, director and employee selection and recognising that skills are not gender specific.

The Company recognises that the mining and exploration industry is intrinsically male dominated in many of the operational sectors and the pool of women with appropriate skills is limited in some instances. The Company also recognises that diversity extends to matters of age, disability, ethnicity, marital/family status, religious/cultural background and sexual orientation. Where possible, the Company will seek to identify suitable candidates for positions from a diverse pool.

As at the date of this report, the Company has no women appointed to the Board, or to senior management.

# METALS AUSTRALIA LTD

## CORPORATE GOVERNANCE

---

### Chairman

The Chairman is responsible for leadership of the Board and for the efficient organisation and conduct of the Board's business. The Chairman should facilitate the effective contribution of all directors and promote constructive and respectful relations between directors and between the Board and management of the Company. The Chairman is responsible for briefing directors on issues arising at Board meetings and is ultimately responsible for communications with shareholders and arranging Board performance evaluation.

### Corporate Manager

The Corporate Manager is responsible for running the affairs of the Company under authority delegated from the Board. In carrying out its responsibilities the Corporate Manager must report to the Board in a timely manner and ensure all reports to the Board present a true and fair view of the Company's financial condition and operational results.

### Company Secretary

The Company Secretary is responsible for monitoring the extent that Board policy and procedures are followed, and coordinating the timely completion and despatch of Board agendas and briefing material and is accountable directly to the Board on all matters to do with the proper functioning of the Board. All directors are to have access to the Company Secretary.

### Performance Evaluation

The Chairman and/or the Managing Director are responsible for reviewing the performance of each executive at least once every calendar year. During the financial year ended 30 June 2015, an evaluation of the performance of the Board and its members was not formally undertaken. However, a general review of the Board and executives occurs on an on-going basis to ensure that structures suitable to the Company's status as a listed entity are in place.

It is the policy of the Board to conduct evaluation of individual employees' performance. The objective of this evaluation is to provide best practice corporate governance to the Company. During the financial year an evaluation of the performance of the individuals was not formally carried out. However, a general review of the individuals occurs on an on-going basis to ensure that structures suitable to the Company's status as a listed entity are in place.

## Principle 2 - Structure the Board to add value

### Composition of the Board

The Company will ensure that the Board will be of a size and composition that is conducive to making appropriate decisions and be large enough to incorporate a variety of perspectives and skills, and to represent the best interests of the Company as a whole rather than of individual shareholders or interest groups. It will not, however, be so large that effective decision-making is hindered.

### Independent Directors

The Company will regularly review whether each non-executive director is independent and each non-executive director should provide to the Board all information that may be relevant to this assessment. If a director's independence status changes this should be disclosed and explained to the market in a timely fashion.

An Independent Director:

1. is a Non-Executive Director and;
2. is not a substantial shareholder of the Company or an officer of, or otherwise

# METALS AUSTRALIA LTD

## CORPORATE GOVERNANCE

---

associated directly with, a substantial shareholder of the Company;

3. within the last three years has not been employed in an executive capacity by the Company or another group member, or been a Director after ceasing to hold any such employment;
4. within the last three years has not been a principal of a material professional adviser or a material consultant to the Company or another group member, or an employee materially associated with the service provided;
5. is not a material supplier or customer of the Company or another group member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer;
6. has no material contractual relationship with the Company or other group member other than as a Director of the Company;
7. has not served on the Board for a period which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company; and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company; and
8. is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company.

The Company's non-executive directors are all independent and will endeavour to ensure that it has a majority of independent directors at all times, subject to the right of shareholders in general meeting to elect and remove directors.

The Company's current non-executives are:

Hersh Majteles was first appointed on 6 March 1987  
Michael Scivolo was first appointed on 23 July 2012  
Robert Collins was first appointed on 26 February 2014

### **Chairman**

The Chairman should be a non-executive director who is independent and should not be the Chief Executive Officer of the Company. The Chairman's other positions should not be such that they are likely to hinder the effective performance of his role of Chairman of the Company.

### **Independent decision-making**

All directors - whether independent or not - should bring an independent judgment to bear on Board decisions. Non-executive directors are encouraged to confer regularly without management present. Their discussions are to be facilitated by the Chairman, if he is independent, or, if he is not independent, the deputy Chairman. Non-executive directors should inform the Chairman before accepting any new appointments as directors.

### **Independent advice**

To facilitate independent decision making, the Board and any committees it convenes from time to time may seek advice from independent experts whenever it is considered appropriate. With the consent of the Chairman, individual directors may seek independent professional

advice, at the expense of the Company, on any matter connected with the discharge of their responsibilities.

### **Procedure for selection of new directors**

The Company believes it is not of a size to justify having a Nomination Committee. If any vacancies arise on the Board, all directors will be involved in the search and recruitment of a replacement. The Board believes corporate performance is enhanced when it has an appropriate mix of skills and experience.

Prior to the appointment of a director, appropriate checks will be undertaken to determine the suitability of any candidate, and the Board will provide security holders with all material information in its possession, which the Board considers relevant.

In support of their candidature for directorship or re-election, non-executive directors should provide the Board with details of other commitments and an indication of time available for the Company. Prior to appointment or being submitted for re-election non-executive directors should specifically acknowledge to the Company that they will have sufficient time to meet what is expected of them. Re-appointment of directors is not automatic. There are no written agreements with directors.

The Company has reviewed the skill set of its Board to determine where the skills lie and any relevant gaps in skill shortages. The Company monitors any perceived gaps in skills, as well as seeking to identify future suitable Board candidates for positions from a diverse pool.

### **Induction and education**

The Board has an induction programme to enable new directors to gain an understanding of:

- the Company's financial, strategic, operational and risk management position;
- the rights, duties and responsibilities of the directors;
- the roles and responsibilities of senior executives; and
- the role of any Board committees in operation.

Directors will have reasonable access to continuing education to update and enhance their skills and knowledge, including education concerning key developments in the Company and in the industries in which the Company's business is involved.

### **Access to information**

The Board has the right to obtain all information from within the Company which it needs to effectively discharge its responsibilities.

Senior executives are required on request from the Board to supply the Board with information in a form and timeframe, and of a quality that enables the Board to discharge its duties effectively. Directors are entitled to request additional information where they consider such information necessary to make informed decisions.

## **Principle 3: Promote ethical and responsible decision-making**

### **Code of conduct**

The Board has adopted the Code of Conduct set out at Appendix A to promote ethical and responsible decision making by directors, management and employees. The Code embraces

the values of honesty, integrity, enterprise, excellence, accountability, justice, independence and equality of stakeholder opportunity.

The Board is responsible for ensuring that training on the Code of Conduct is provided to staff and officers of the Company.

The Board is responsible for making advisers, consultants and contractors aware of the Company's expectations set out in the Code of Conduct.

### **Policy for trading in Company securities**

The Board has adopted a policy on trading in the Company's securities by directors, senior executives and employees set out in Appendix B.

The Board is responsible for ensuring that the policy is brought to the attention of all affected persons and for monitoring compliance with the policy.

### **Principle 4: Safeguard integrity in financial reporting**

#### **Audit and Risk Management**

The Company believes it is not of a size to justify having a separate Audit and Risk Management Committee. Ultimate responsibility for the integrity of the Company's financial reporting rests with the full Board. Given the small size of the Board, the directors believe an Audit and Risk Management Committee structure to be inefficient. All directors share responsibility for ensuring the integrity of the Company's financial reporting and appropriate Board processes have been implemented to perform the following audit and risk management functions:

- external audit function:
  - review the overall conduct of the external audit process including the independence of all parties to the process;
  - review the performance of the external auditors;
  - consider the reappointment and proposed fees of the external auditor; and
  - where appropriate seek tenders for the audit and where a change of external auditor is recommended arrange submission to shareholders for shareholder approval;
- reviewing the quality and accuracy of published financial reports;
- reviewing the accounting function and ongoing application of appropriate accounting and business policies and procedures;
- reviewing and imposing variations to the risk management and internal control policies designed and implemented by Company management; and
- any other matters relevant to audit and risk management processes.

The Company's Risk Management Policy ensures that the Board as a whole is responsible for the oversight of the Company's risk management and control framework. The objectives of the Company's Risk management strategy are to:

- identify risks to the Company;
- balance risk to reward;

# METALS AUSTRALIA LTD

## CORPORATE GOVERNANCE

---

- ensure regulatory compliance is achieved; and
- ensure senior executives, the Board and investors understand the risk profile of the Company.

The Board monitors risk through various arrangements including:

- regular Board meetings;
- share price monitoring;
- market monitoring; and
- regular review of financial position and operations.

The Company's Risk Management Policy is considered adequate for addressing and managing risk. It is intended that the Board will annually review the following categories of risks affecting the Company as part of the Company's systems and processes for managing material business risks:

- operational matters,
- financial reporting,
- sovereignty and
- market-related risks.

### **Principle 5: Make timely and balanced disclosure**

#### **Disclosure Policy**

The Board has adopted a Disclosure Policy for ensuring timely and accurate disclosure of price-sensitive information to shareholders through the ASX set out in Appendix D.

The Disclosure Policy ensures that:

- all investors have equal and timely access to material information concerning the Company including its financial position, performance, ownership and governance; and
- Company announcements are subjected to a vetting and authorisation process designed to ensure they are:
  - released in a timely manner;
  - factual and do not omit material information; and
  - expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions.

The Company respects the rights of its shareholders and to facilitate the effective exercise of those rights the Company is committed to making it easy for shareholders to participate in shareholder meetings of the Company. The Company also makes available a telephone number and email address for shareholders to make enquiries of the Company.

Shareholders are given the opportunity to receive communications electronically.

**The Company's website includes the following:**

- Corporate Governance policies, procedures, charters, programs, assessments, codes and frameworks;
- Names and biographical details of each of its directors and senior executives;
- Constitution;
- Copies of annual, half yearly and quarterly reports;
- ASX announcements;
- Copies of notices of meetings of security holders;
- Media releases;
- Overview of the Company's current business, structure and history;
- Details of upcoming meetings of security holders;
- Summary of the terms of the securities on issue;
- Historical market price information of the securities on issue;
- Contact details for the share registry and media enquiries;
- Share registry key security holder forms.

**Principle 6: Respect the rights of shareholders**

**Communication with Shareholders**

The Board is committed to open and accessible communication with holders of the Company's shares and other securities. Disclosure of information and other communication will be made as appropriate by telephone, mail or email.

The Company's website will also be used to provide additional relevant information to security holders. The Board considers the following to be appropriate features for the Company's website:

- placing the full text of notices of meeting and explanatory material on the website;
- providing information about the last three years' press releases or announcements plus at least three years of financial data on the website; and
- providing information updates to security holders on request by email.

**General Meetings**

The Company is committed to improving shareholder participation in general meetings. In order to achieve that objective, the Company has adopted guidelines of the ASX Corporate Governance Council for improving shareholder participation through the design and content of notices and through the conduct of the meeting itself.

The external auditor is invited to attend every AGM for the purpose of answering questions from security holders relevant to the audit.

**Principle 7: Recognise and manage risk**

**Creation and implementation of Company risk management policies**

It is the responsibility of the Corporate Manager to create, maintain and implement risk management and internal control policies for the Company, subject to review by the Board.

The Corporate Manager must report to the Board on an annual basis regarding the design, implementation and progress of the risk management policies and internal control systems.

**Audit and Risk Management**

As referenced with respect to Principle 4, the Board has not established an Audit and Risk Management Committee for the reasons given above.

Due to the nature and size of the Company's operations, and the Company's ability to derive substantially all of the benefits of an independent internal audit function, the expense of an independent internal auditor is not considered to be appropriate.

The Company has considered its economic, environmental and social sustainability risks by way of internal review and has concluded that it is not subject to material economic, environmental and social sustainability risks.

**Review by the Board**

The Board will review the effectiveness of implementation of the risk management system and internal control system at least annually.

When reviewing risk management policies and internal control system the Board should take into account the Company's legal obligations and should also consider the reasonable expectations of the Company's stakeholders, including security holders, employees, customers, suppliers, creditors, consumers and the community.

**Corporate Manager**

The Corporate Manager is required annually to state in writing to the Board that the Company has a sound system of risk management, that internal compliance and control systems are in place to ensure the implementation of Board policies, and that those systems are operating efficiently and effectively in all material respects.

**Verification of financial reports**

The Corporate Manager and Chief Financial Officer are required by the Company to state the following in writing prior to the Board making a solvency declaration pursuant to section 295(4) of the Corporations Act:

- that the Company's financial reports contain a true and fair view, in all material respects, of the financial condition and operating performance of the Company and comply with relevant accounting standards; and
- that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and that the system is operating effectively in all material respects in relation to financial reporting risks.

**Principle 8: Remunerate fairly and responsibly**

**Director and senior executive remuneration policies**

The Company's remuneration policy is structured for the purpose of:

# METALS AUSTRALIA LTD

## CORPORATE GOVERNANCE

---

- motivating senior executives to pursue the long-term growth and success of the Company; and
- demonstrating a clear relationship between senior executives' performance and remuneration.

The Board's responsibility is to set the level and structure of remuneration for officers (including but not limited to directors and secretaries) and executives, for the purpose of balancing the Company's competing interests of:

- attracting and retaining senior executives and directors; and
- not paying excessive remuneration.

Executive directors' remuneration is structured to reflect short and long-term performance objectives appropriate to the Company's circumstances and goals.

Executive directors' and senior executives' remuneration packages involve a balance between fixed and incentive-based pay, reflecting short and long-term performance objectives appropriate to the Company's circumstances and goals.

Non-executive directors' remuneration is formulated with regard to the following guidelines:

- non-executive directors are normally remunerated by way of fees, in the form of cash, non-cash benefits, superannuation contributions or equity, usually without participating in schemes designed for the remuneration of executives;
- non-executive directors are not provided with retirement benefits other than superannuation.

Executives and non-executive directors are prohibited from entering into transactions or arrangements which limit the economic risk of participating in unvested entitlements.

No director is involved in setting their own remuneration or terms and conditions, but if such a case were to arise, the relevant director would be required to absent himself from the full Board discussion.

### **Remuneration Committee**

The Company believes it is not of a size to justify having a Remuneration Committee and that it has Board processes in place which raise the issues that would otherwise be considered by a committee.

## ***Appendix A – Code of Conduct***

### **Introduction**

This Code of Conduct sets out the standards with which the Board, management and employees of the Company are encouraged to comply when dealing with each other, the Company's shareholders and the broader community.

### **Responsibility to shareholders**

The Company aims:

- to increase shareholder value within an appropriate framework which safeguards the rights and interests of shareholders; and
- to comply, with openness and integrity, the systems of control and accountability which the Company has in place as part of its corporate governance.

### **Responsibility to clients, employees, suppliers, creditors, customers and consumers**

The Company will comply with all legislative and common law requirements which affect its business.

### **Employment practices**

The Company will employ the best available staff with the skills required to carry out the role for which they are employed. The Company will ensure a safe workplace and maintain proper occupational health and safety practices.

### **Responsibility to the community**

The Company recognises, considers and respects environmental, native title and cultural heritage issues which may arise in relation to the Company's activities and will comply with all applicable legal requirements.

### **Responsibility to the individual**

The Company recognises and respects the rights of individuals and will comply with applicable laws regarding privacy and confidential information.

### **Obligations relative to fair trading and dealing**

The Company will deal with others in a way that is fair and will not engage in deceptive practices.

### **Business courtesies, bribes, facilitation payments, inducements and commissions**

Corrupt practices are unacceptable to the Company. It is prohibited for the Company or its directors, managers or employees to directly or indirectly offer, pay, solicit or accept bribes or any other corrupt arrangements.

### **Conflicts of interest**

The Board, management and employees must report any situations where there is a real or apparent conflict of interest between them as individuals and the interests of the Company. Where a real or apparent conflict of interest arises, the matter must be brought to the attention of the Chairman in the case of a Board member, the Corporate Manager in the case of a member of management and a supervisor in the case of an employee, so that it may be considered and dealt with in an appropriate manner.

### **Compliance with the Code of Conduct**

Any breach of compliance with this Code of Conduct is to be reported directly to the Chairman.

**Periodic review of Code**

The Company will monitor compliance with this Code of Conduct periodically by liaising with the Board, management and staff. Suggestions for improvements or amendments to this Code of Conduct can be made at any time to the Chairman.

***Appendix B – Policy for trading in Company securities***

**Introduction**

The Company recognises and enforces legal and ethical restrictions on trading in its securities by relevant persons within and external to the Company. The terms of this securities dealing policy apply to the Company's directors, Corporate Manager, senior executives, employees and consultants (Relevant Persons).

**Communication**

This policy will be communicated to all Relevant Persons and will be placed on the Company website.

**Trading restrictions**

Trading by Relevant Persons in the Company's securities is subject to the following limitations:

- No trading in Company securities shall take place during the two weeks preceding release of each quarterly report, half-yearly financial report, and annual financial report of the Company.
- No trading in the Company's securities shall take place, directly or indirectly, where it is known, or ought reasonably to have been known by the person intending to trade, that information exists which has not been released to the ASX and where that information is of a type that could reasonably be expected to encourage buying or selling were that information known by others.
- No trading shall take place in Company securities unless prior notice is given to the Chairman (and approval is obtained from the Chairman).

**Hardship**

During a period specified in the above paragraphs, Relevant Persons may, after obtaining the Chairman's consent, trade the Company's securities to the extent reasonably necessary to avoid or ameliorate documented hardship and suffering or as required by other extenuating circumstances.

**Directors' trading and disclosures**

Within twenty four hours of a director being appointed to the Board, resigning or being removed from the Board, or trading in the Company's securities, full details of the director's notifiable interests in the Company's securities and changes in such interest must be advised to the Company Secretary so that a record is kept within the Company and so that necessary ASX notifications will occur.

All directors must notify the Company Secretary of any margin loan or similar funding arrangement entered into in relation to the Company's securities and any variations to such arrangements, including the number of securities involved, the circumstances in which the lender can make margin calls, and the right of the lender to dispose of securities.

### ***Appendix C - Disclosure Policy***

#### **Disclosure requirements**

The Company recognises its obligations pursuant to the continuous disclosure rules of the ASX Listing Rules and the Corporations Act to keep the market fully informed of information which may have a material effect on the price or value of the Company's securities.

Subject to certain exceptions (in ASX Listing Rule 3.1A), the Company is required to immediately release to the market information that a reasonable person would expect to have a material effect on the price or value of the Company's securities.

#### **Responsibilities of directors officers and employees**

The Board as a whole is primarily responsible for ensuring that the Company complies with its disclosure obligations and for deciding what information will be disclosed. Subject to delegation, the Board is also responsible for authorising all ASX announcements and responses of the Company to ASX queries.

Every director, officer and employee of the Company is to be informed of the requirements of this policy and must advise the Corporate Manager, Chairman or Company Secretary as soon as possible (and prior to disclosure to anyone else) of matters which they believe may be required to be disclosed.

#### **Authorised Disclosure Officer**

The Board has delegated its primary responsibilities to communicate with ASX to the following Authorised Disclosure Officer:

- the Company Secretary or
- in the absence of the Company Secretary, the Corporate Manager is authorised to act in that capacity by the Board.

#### **Responsibilities of Authorised Disclosure Officer**

Subject to Board intervention on a particular matter, the Authorised Disclosure Officer is responsible for the following:

- monitoring information required to be disclosed to ASX and coordinating the Company's compliance with its disclosure obligations;
- ASX communication on behalf of the Company, authorising Company announcements and lodging documents with ASX;
- requesting a trading halt in order to prevent or correct a false market;
- providing education on these disclosure policies to the Company's directors, officers and employees; and
- ensuring there are vetting and authorisation processes designed to ensure that Company announcements:
  - are made in a timely manner;
  - are factual;
  - do not omit material information; and
  - are expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions.

An Authorised Disclosure Officer, who is responsible for providing contact details and other information to ASX to ensure such availability, must be available to communicate with the ASX at all reasonable times.

### Measures to avoid a false market

In the event that ASX requests information from the Company in order to correct or prevent a false market in the Company's securities, the Company will comply with that request. The extent of information to be provided by the Company will depend on the circumstances of the ASX request.

If the Company is unable to give sufficient information to the ASX to correct or prevent a false market, the Company will request a trading halt.

If the full Board is available to consider the decision of whether to call a trading halt, only they may authorise it, but otherwise, the Authorised Disclosure Officer may do so.

### ASX announcements

Company announcements of price sensitive information are subjected to the following vetting and authorisation process to ensure their clarity, timely release, factual accuracy and inclusion of all material information:

- The Authorised Disclosure Officer must prepare ASX announcements when required to fulfil the Company's disclosure obligations.
- Proposed announcements must be approved by the Corporate Manager or in his absence, urgent announcements may be approved by any other person expressly authorised by the Board.
- Announcements must first be released to the ASX Announcements Platform before being disclosed to any other private or public party (such as the media). After release of the announcement, it must be displayed on the Company's website, following which the Company can then release such information to media and other information outlets.
- Wherever practical, all announcements must be provided to the directors, Corporate Manager and Company Secretary prior to release to the market for approval and comment.

### Confidentiality and unauthorised disclosure

The Company must safeguard the confidentiality of information which a reasonable person would expect to have a material effect on the price or value of the Company's securities. If such information is inadvertently disclosed, the Authorised Disclosure Officer must be informed of the same and must refer it to the Chairman and Corporate Manager as soon as possible.

### External communications and media relations

The Chairman, Corporate Manager and Company Secretary are authorised to communicate on behalf of the Company with the media, government and regulatory authorities, stock brokers, analysts and other interested parties or the public at large. No other person may do so unless specifically authorised by the Chairman or the Corporate Manager.

All requests for information from the Company must be referred to the Authorised Disclosure Officer for provision to the Chairman and the Corporate Manager.

### Breach of Disclosure Policy

Serious breaches of the Company's Disclosure Policy may be treated with disciplinary action, including dismissal, at the discretion of the Board.

Where the breach is alleged against a member of the Board, that director will be excluded from the Board's consideration of the breach.
