¹ Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

CORPORATE GOVERNANCE STATEMENT

Medibio Overview

The Board of Directors ("Board") is responsible for the overall corporate governance of Medibio and has adopted as a guiding principle that it act honestly, conscientiously and fairly in accordance with the law and in the interests of the shareholders with a view to building sustainable value for them, the Company's employees and other stakeholders in the Company.

The Board has adopted a suite of governance materials which are available in the Corporate Governance section of the Company's website: http://www.medibio.com.au/index.php/about/corporate-governance.

The governance materials have been prepared and adopted on the basis that corporate governance procedures can add to the performance of the Company and the creation of shareholder value, and help to engender the confidence of the investment market.

This statement sets out the material governance principles and processes adopted by the Board. The Board supports the Corporate Governance Principles and Recommendations, 3rd edition as released by the ASX Corporate Governance Council ("ASX Principles or "ASXCGC"). The Board considers and applies these recommendations to the extent there is sound reason to do so given the circumstances of the Company.

The Board is responsible for the management of the affairs of the Company and its subsidiaries including:

- strategic and financial performance;
- executive management;
- audit and risk management;
- strategic planning;
- corporate governance; and
- performance evaluation.

Below is an overview of Medibio's compliance with ASXGC principles:
