Rembrandt Drilling Update

Terrain Minerals Limited (ASX: TMX) ("Terrain" or "the Company") has been informed from the onsite team that due to unforeseen logistical circumstances drilling has been suspended at Rembrandt.

This exploration program which is to follow up on historic shallow, high grade mineralisation is of high importance to Terrain.

The market will be updated on the recommencement of the program.

About Terrain Minerals Limited:

Terrain Minerals Limited (ASX:TMX) is a minerals exploration company with a Western Australian based asset portfolio consisting of:

- Rembrandt (Au)- high grade gold project under option, drilling program to determine extent and tenor of mineralisation at high Monet Prospect currently underway;
- Gimlet (Ni-Cu)- 469km² exploration licence located in the Fraser Range Province. Geophysical targets delineated, ground reconnaissance planned;
- Great Western (Au)- near term development opportunity, resource estimation and economic study process currently being conducted;

Through the combination of the two assets, Terrain has the potential of both near term cash flow and significant exploration upside.
