Rision signs international fast food giant

The Directors of Reclaim Industries Limited ("RCM") are pleased to announce that Rision Pty Ltd ("Rision") has signed an MOU with internationally renowned fast food franchise, Pizza Hut Israel.

Under the MOU, Rision will rollout its cloud-based HR employment management products with Pizza Hut Israel at over 71 locations throughout Israel. Pizza Hut Israel is an international leader in the fast food industry and is recognised for introducing technology across other brands within the YUM Restaurants International group.

Rision's platform has been designed to solve many of the HR challenges faced by businesses hiring contingent and shift workers, across a diverse range of industries including the fast food and franchise sectors.

Pizza Hut Israel Chairman Udi Shami said: "We are proud to deploy this revolutionary technology and we look forward to using the innovative shift scheduling and job matching solution, which is a welcome addition in the international fast food industry."

Rision's Global Strategy Officer, Steven Salsberg said: "After launching with North American and Australian companies in the hospitality, hotel and cleaning industries, Rision is now pleased to enter the Israeli market with a well respected Western fast food brand Pizza Hut.

"Udi Shami's history as a technology innovator for the fast food industry makes him and Pizza Hut Israel the perfect clients to trial Rision's products in another language and country. Many North American and global companies test technology innovation in Israel and we are excited about embarking on this endeavour."

Rision's Managing Director, Kate Cornick said: "We know that Rision's products will benefit the fast food sector, and the agreement with Pizza Hut Israel demonstrates that we can successfully deliver our solution to a franchise organisation with over 800 employees. We are looking forward to scaling the business and attracting further fast food corporations, as well as expanding our business into other industries."

The terms of the MOU between Pizza Hut Israel and Rision include:

- Pizza Hut Israel to trial and implement the Rision platform including Roster, TimeSheet, LastMinute and JobMatch, with the aim of introducing the technology elsewhere across the fast food industry internationally.

- Pizza Hut Israel will have free usage of the Rision platform for a limited term. At the end of the initial term of free access, Pizza Hut Israel will automatically convert to Rision's fee schedule.

About Rision Pty Ltd

Rision is a company focused on IT solutions for the human resources industry.

Rision's enterprise grade, patented technology enables job seekers, employers and human resources departments/recruitment firms to interact in a transparent, efficient and user-friendly way that drives improved work practices and productivity. Job seekers more easily find work in locations and at times that suit their availability. Employers manage the human resources needs of their employees, and gain valuable business intelligence on workforce productivity. HR departments/recruiters manage and grow their casual candidate databases, and better service their internal clients/customers.

Rision's technology has applications across a broad range of industries including hospitality, fast food, retail, event management, nursing, security, gaming and governments.
