

## **DTI to Provide Video Surveillance Systems on Siemens Light Rail Vehicles for San Francisco**

**21 October 2015** – DTI Group Ltd (ASX: DTI) ("DTI") is pleased to advise that it has received an initial order from Kratos Public Safety & Security Solutions for the supply of advanced video surveillance systems on 64 new Siemens light rail vehicles (LRV) which are which are being built for the San Francisco Municipal Transportation Agency. Siemens is contracted to deliver an initial 175 LRV, including an option for an additional 85. This is one of the biggest orders ever placed in the United States for LRV.

The scope of works includes connection to DTI's GPS-based video data diagnostic system, wireless data communications infrastructure, and fleet management software suite. Each LRV will be equipped with 22 megapixel IP cameras, 32 channel digital video recorder with 8TB storage, and 4 transit-rated 7" monitors.

This order further builds on DTI's reputation in the United States for providing advanced transit surveillance solutions and services.

The initial order value for the 64 systems is \$1.0 million. The supply is expected to commence in February 2016 with the 64 systems being delivered over a 3-year period.

### **About DTI Group**

DTI provides sophisticated surveillance software, systems and services to the mobile security industry worldwide. DTI's clients are vehicle manufacturers, transit agencies, transit operators, freight operators, law enforcement and taxi organisations which are offered a range of professional solutions and services that encompass on-board recording equipment, fleet management software, back-end mass storage and retrieval facilities and end-to-end managed services.
