3. COMPANY STATEMENT

Dear Shareholder

I am writing on behalf of the Board of Arrowhead Resources Limited (formerly Gippsland Limited) to seek your support for the renounceable rights issue to raise \$1.43 million to principally fund the Company to identify, assess and secure a new resource project as the Company's core focus.

The Board acknowledges and regrets the tumultuous nature of the past 8 months for all stakeholders. In February 2015 we released a new development plan supported by a financing offer for the Company's 50% interest in the Abu Dabbab Tantalum-Tin-Feldspar Project (the **Project**) in Egypt. In April 2015 and the following months the apparent expropriation of our interests in the Project by the Government of Egypt became clear. To date, despite our best efforts, we have still not had any meaningful responses to enable us to open a dialogue with our former Egyptian partner. We plan to continue the fight to win compensation for the apparent expropriation of our interest in the Project.

In response to this situation the Board took a pragmatic approach to implement a two staged strategy of firstly restructuring the Company's significant debt which had accumulated over the past 2 years and then recapitalising the Company to give it the financial capacity to seek new opportunities and prosecute the case in Egypt. This rights issue is the final step of the second stage, recapitalisation process.

The debt restructure and recapitalisation process is structured to be attractive to new investors but also recognises the adverse situation for current Shareholders and creates an opportunity for them to maintain their positions in a new-look, restructured Company which many have been associated with and supported for many years. The Company is fortunate to have secured the support of CPS Capital Group Pty Ltd, a boutique broker with specialist expertise in the junior resources sector, which has agreed to fully underwrite the \$1.43 million raising.

Arrowhead is now looking to the future. That future cannot be reliant on the outcome of a legal process in off-shore jurisdictions; a process it does not control no matter how strong we might consider our legal claim against Egypt to be. Taking a counter-cyclical approach, the Board considers that it is now a very prospective time to be searching out new mining development opportunities.

A "target project" framework has been compiled on the basis of preferred commodities, project status and location as well as possible future financing opportunities as the project advances. This was released to ASX on 17 August 2015, as we considered it important to demonstrate that a disciplined assessment process is in place whilst remaining opportunistic. The key focus is to find a project that will build Shareholder value and gain support and interest from the resource investment community. Given the limited initial funding available the ideal transaction would be for a staged earn-in structure which would preserve the capital structure of the Company whilst further development work is undertaken prior to any further financing requirements. Whilst it is very exciting that already we are assessing several projects – largely from approaches to the Company – to date, no individual opportunity has been advanced to any significant stage.

This Prospectus clearly sets out the risks of any investment in the Company and principally, subject to the successful completion of this Offer, that revolves around our ability to finalise a sensible new acquisition in a reasonable period of

time. In my opinion, this is an excellent time to be scouring for new projects and we consider that there are some interesting, high quality opportunities around.

The Company operates far leaner than previously but it has managed to retain top quality technical and commercial skills such as Geological Consultant, Dr John Chisholm and Chief Financial Officer and Company Secretary, Mr Rowan Caren. As well, Mr Ayman Ayyash with his 10 year involvement in Tantalum Egypt JSC and the Abu Dabbab Project, has been retained to pursue our claims in Egypt.

Leading Arrowhead into this next phase I am very appreciative of their ongoing enthusiasm and participation to grow Arrowhead and generate Shareholder value.

The Directors of Arrowhead urge you to consider seriously backing the new management group and the acquisition strategy by supporting this final step of the restructure process.

Michael Rosenstreich
Chairman and Managing Director

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a **Relevant Member State**) with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**), an offer of the Shares described in this document may not be made to the public in that Relevant Member State prior to the publication of a prospectus in relation to the Shares approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that, with effect from and including the Relevant Implementation Date, an offer of the Shares may be offered to the public in that Relevant Member State at any time:

- (a) to any legal entity that is authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities; or

Each purchaser of the Shares described in this document located within a Relevant Member State will be deemed to have represented, acknowledged and agreed that it is a "qualified investor" within the meaning of Article 2(1)(e) of the Prospectus Directive. For the purposes of this provision, the expression an "offer to the public" in any relevant member state means the communication in

any form and by any means of sufficient information on the terms of the Offer and the Shares to be offered so as to enable an investor to decide to purchase or subscribe for the Shares, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

The total consideration of the Offer made by the Company in the European Economic Area (in which area the Offer is only being made to eligible Shareholders who have registered addresses in the United Kingdom) shall be less than €5,000,000 in aggregate. Any applications for Shortfall Shares made by eligible Shareholders who have registered addresses in the United Kingdom may only be made on the condition that the Directors have a complete discretion to scale-back any such applications on a pro-rata basis to ensure that the total sum for which such Shareholders may subscribe for in Shortfall Shares when aggregated with the total sum for which such Shareholders have already subscribed under the Offer does not exceed a threshold of €5,000,000. Therefore, in accordance with section 85 and schedule 11A of FSMA, this document does not constitute an approved prospectus for the purposes of the United Kingdom's Prospectus Rules and contains no offer of transferable securities to the public within the meaning of sections 85 and 102B of FSMA or otherwise. This document has not been, and will not be, approved or examined by or filed with the FCA or by any other regulatory authority which could be a competent authority for the purposes of the Prospectus Rules.

4.4 Risk factors

Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

4.5 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of our Company, the Directors and our management.

5. DETAILS OF THE OFFER

5.1 The Offer

The Offer is being made as a renounceable entitlement issue of seven (7) Shares for every one (1) Share held by Shareholders registered at the Record Date at an issue price of \$0.01 per Share. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus and assuming all Entitlements are accepted, a maximum of 142,845,087 Shares will be issued pursuant to this Offer to raise \$1,428,451.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 8 for further information regarding the rights and liabilities attaching to the Shares.

The purpose of the Offer and the intended use of funds raised are set out in Section 6.1.

The total consideration of the Offer made by the Company in the European Economic Area, in which area the Offer is only being made in the United Kingdom, under the Offer (including the option for Eligible Shareholders with registered addresses in the United Kingdom to make applications for any Shortfall Shares) will be less than €5,000,000 in aggregate (assuming full subscription for Shares by Eligible Shareholders and on the condition that any applications for Shortfall Shares made by Eligible Shareholders with registered addresses in the United Kingdom will be scaled-back on a pro-rata basis to ensure that the €5,000,000 threshold is not exceeded – this condition has been set to ensure that the Company is not required to produce an approved prospectus in the United Kingdom pursuant to section 85 of FSMA). The issue of a prospectus in the United Kingdom would considerably increase the costs of the Offer and it would take much longer to complete, as any such prospectus would require prior approval by the United Kingdom's Financial Conduct Authority.

5.2 Minimum subscription

There is no minimum subscription.

5.3 What Eligible Shareholders may do

The number of Shares to which Eligible Shareholders are entitled is shown on the accompanying personalised Entitlement and Acceptance Form. Eligible Shareholders may:

- (a) take up all of their Entitlement (refer to Section 5.4);

- (c) take up a proportion of their Entitlement and sell the balance on ASX (refer to Section 5.6);
- (d) take up a proportion of their Entitlement and allow the balance to lapse (refer to Section 5.7);

- (f) allow all or a proportion of their Entitlement lapse (refer to Section 5.9).

5.4 Taking up all of your Entitlement

Should you wish to accept all of your Entitlement, then applications for Shares under this Prospectus must be made on the Entitlement and Acceptance Form which accompanies this Prospectus or by completing a BPAY® payment, in accordance with the instructions referred to in this Prospectus and on the Entitlement and Acceptance Form. Please read the instructions carefully.

Please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided and attach a cheque for the Application Monies indicated on the Entitlement and Acceptance Form.

5.5 Selling all your Entitlement on ASX

If you wish to sell all of your Entitlement on ASX, provide instructions to your stockbroker regarding the Entitlement you wish to sell on ASX. Trading of Entitlements will commence on ASX on 2 November 2015 and will cease on 12 November 2015.

There is no guarantee that an Eligible Shareholder will be able to sell all or any part of their Entitlement on ASX or that any particular price will be paid for the Entitlements sold on ASX.

5.6 Taking up a proportion of your Entitlement and selling the balance on ASX

If you wish to take up only part of your Entitlement, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish to take up and follow the steps in Section 5.4, or make a payment by BPAY in accordance with Section 5.12.

Subsequently, provide instructions to your stockbroker regarding the proportion of your Entitlement you wish to sell on ASX and follow the steps in Section 5.5.

5.7 Taking up a proportion of your Entitlement and allowing the balance to lapse

If you wish to take up only part of your Entitlement and allow the balance to lapse, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish to take up and follow the steps in Section 5.4. If you take no further action, the balance of your Entitlement will lapse and you will have forfeited any potential benefit to be gained from taking up or selling that part of your Entitlement.

5.8 Selling all or a proportion of your Entitlement other than on ASX

You may elect to transfer all or a proportion of your Entitlement to another person other than on ASX. If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

If you are a Shareholder on the issuer sponsored sub-register and you wish to transfer all or a proportion of your Entitlement to another person other than on ASX, forward a completed standard renunciation and transfer form (obtainable from the Share Registry) and the applicable transferee's cheque for the Shares

they wish to subscribe for payable to "**Arrowhead Resources Limited – Share Issue Account**" and crossed "**Not Negotiable**" to the Share Registry (by delivery or by post at any time after the issue of this Prospectus and on or before the Closing Date) at the following address:

Deliver to:

Security Transfer Registrars Pty Ltd
770 Canning Highway
Applecross WA 6153
AUSTRALIA

Or by post to:

Security Transfer Registrars Pty Ltd
PO Box 535
Applecross WA 6953
AUSTRALIA

If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESS sub-register you must engage your CHESS controlling participant (usually your stockbroker). If the transferee wants to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf. The Application Monies for Shares the transferee of the Entitlement wants to acquire must be received by Share Registry in accordance with Section 5.4.

5.9 Allow all or part of your Entitlement to lapse

Shareholders should be aware that their Entitlement may have value. Entitlements are renounceable, which enable Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement on ASX.

If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, the Offer to you will lapse.

5.10 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application Monies by BPAY® will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law.

5.11 Payment by cheque/bank draft

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "**Arrowhead Resources Limited – Share Issue Account**" and crossed "**Not Negotiable**".

Completed Entitlement and Acceptance Forms must be accompanied by a cheque drawn on an Australian bank or bank draft made payable in Australian currency, made payable to "**Arrowhead Resources Limited – Share Issue Account**" and crossed "**Not Negotiable**" and lodged and received at any time after the issue of this Prospectus and on or before the Closing Date at the Company's Share Registry (by delivery or by post) at:

Deliver to:

Security Transfer Registrars Pty Ltd
770 Canning Highway
Applecross WA 6153
AUSTRALIA

Or by post to:

Security Transfer Registrars Pty Ltd
PO Box 535
Applecross WA 6953
AUSTRALIA

Your completed Entitlement and Acceptance Form and cheque must reach the Company's share registry no later than 5:00 pm (WST) on the Closing Date.

If you wish to pay via BPAY®, payment may be made in accordance with Section 5.12.

5.12 Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form and the representations outlines in Section 5.10; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your application monies.

Make sure that you use the specific Biller Code and unique Customer Reference Number (CRN) on your personalised Entitlement and Acceptance Form. If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. Do not use the same CRN for more than one of your Shareholdings. This can result in your Application Monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any application in respect of your remaining Shareholdings will not be valid).

It is your responsibility to ensure that your BPAY® payment is received by the share registry by no later than 4:00 pm (WST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any application monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

5.13 Payment by UK Shareholders

In order to provide Shareholders with a registered address in the United Kingdom with the maximum opportunity to participate in the Offer, bank account details will be provided upon request. Please contact the Company via email at info@gippslandltd.com or the Company's Share Registry on +61 8 9315 2333 for those details.

Please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided and attach a confirmation of the electronic funds transfer for the Application Monies indicated on the Entitlement and Acceptance Form.

Completed Entitlement and Acceptance Forms and the accompanying confirmation of the electronic funds transfer must be lodged and received by Share Registry in accordance with Section 5.11.

5.14 Lead Manager and Underwriter

In addition to acting as Lead Manager to the Offer, the Underwriter has agreed to fully underwrite the Offer. Refer to Section 9.1 for details of the terms of the underwriting.

The Offer will be sub-underwritten by Mr John Kenny (or an entity associated with Mr Kenny) (**Kenny Associated Entity**). This Kenny Associated Entity has agreed with the Underwriter to sub-underwrite, on arm's length fair market terms, on a priority basis, 13,000,000 Underwritten Shares which totals a sub-underwriting commitment of \$130,000. Refer to Section 9.2 for details of the sub-underwriting arrangement.

5.15 Effect on control of the Company

The Underwriter is not presently a shareholder of the Company and is not a related party of the Company for the purpose of the Corporations Act.

The Underwriter has agreed to use its best endeavours to allocate the Shortfall Shares to sub-underwriters such that neither the Underwriter nor any of its sub-underwriters will individually have a voting power in the Company in excess of 20%. The Underwriter has entered into a priority sub-underwriting agreement with the Kenny Associated Entity has agreed to sub-underwrite the Offer up to \$130,000 (13,000,000 Shares). The Kenny Associated Entity will not acquire an interest greater than 20% if it is required to subscribe for its full sub-underwriting commitment. Other than the Kenny Associated Entity, the sub-underwriters appointed by the Underwriter will not be related parties of the Company.

Notwithstanding that the Offer is fully sub-underwritten, the number of Shares that may be held by the Underwriter and its voting power under several scenarios are set out in the table below.

Event	Shares held by Underwriter	Voting power of Underwriter
Date of Prospectus	Nil	0.00%
Completion of Entitlement Issue	Nil	0.00%
Fully subscribed	Nil	0.00%
75% subscribed (less the Kenny Associated Entity's sub-underwriting commitment) ¹	22,711,272	13.91%
50% subscribed (less the Kenny Associated Entity's sub-underwriting commitment) ¹	58,422,544	35.79%
0.00% subscribed	142,845,087	87.50%

Note:

1. Assumes that the Kenny Associated Entity takes up its full sub-underwriting commitment of \$130,000 (13,000,000 Shares).

The number of Shares held by the Underwriter and its voting power in the table above show the potential effect of the underwriting of the Offer. However, it is unlikely that no shareholders, other than the Underwriter, will take up entitlements under the Offer. The underwriting obligation and therefore voting power of the Underwriter will reduce by a corresponding amount for the amount of entitlements under the Offer taken up by the other shareholders.

Further, the Underwriting Agreement gives the Underwriter the right to enter into sub-underwriting agreements to pass on some or all of its obligations to subscribe for the Shortfall under the Underwriting Agreement. The Underwriter has advised the Company that it has entered into a number of sub-underwriting agreements with its clients to take up the Shortfall. Accordingly, it is unlikely that the Underwriter will be obliged to subscribe for all of the Shortfall, as these obligations are likely to be passed on to the sub-underwriters.

The Underwriter has advised the Company that the following sub-underwriters may potentially hold voting power of 5% or more in the Company as a result of their respective sub-underwriting agreements. The voting power post Offer is calculated on the basis that each sub-underwriter takes up all of the sub-underwriting commitment pursuant to that party's sub-underwriting agreement.

Sub-Underwriter	Current Holding	Current Voting Power	Entitlement Under the Offer	Sub-Underwritten Shares	Holding Post Offer	Voting Power Post Offer
Kenny Associated Entity ¹	51,659	0.25%	361,613	13,000,000	13,413,272	8.22%

Notes:

1. In addition, as approved by Shareholders at the General Meeting, following completion of the Offer, (the Company will issue a further 9,600,000 Shares to VentureWorks JDK Pty Ltd (an entity associated with John Kenny) or its nominee in satisfaction of outstanding amounts owing to VentureWorks JDK Pty Ltd. Following the issue of these Shares, Mr John Kenny (via his associated entities) will hold a relevant interest in up to 23,013,272 Shares and will have voting power of up to 12.06% (assuming the Kenny Associated Entity, is required to take up its full sub-underwriting commitment).

In the event that the Underwriting Agreement is terminated and not all Shareholders accept their full Entitlement, the Shortfall procedure set out in Section 5.17 shall apply.

5.16 Dilution

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 87.5% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus). Examples of how the dilution may impact Shareholders is set out in the table below:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	5,000,000	24.50%	35,000,000	5,000,000	3.06%
Shareholder 2	1,000,000	4.90%	7,000,000	1,000,000	0.61%
Shareholder 3	500,000	2.45%	3,500,000	500,000	0.31%
Shareholder 4	150,000	0.74%	1,050,000	150,000	0.09%
Shareholder 5	40,000	0.20%	280,000	40,000	0.02%
Total	20,406,229		142,843,600		

Note:

- The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

5.17 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.01 being the price at which Shares have been offered under the Offer.

The first \$130,000 of the Shortfall will be issued to the Kenny Associated Entity of Mr John Kenny in accordance with a sub-underwriting agreement between the Underwriter and the Kenny Associated. Refer to Sections 9.1 and 9.2 for details of the terms of the Underwriting Agreement and the sub-underwriting arrangement.

Eligible Shareholders who wish to subscribe for Shares above their Entitlement are invited to apply for additional Shares under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form.

Investors who are not Shareholders of the Company can apply for Shortfall Shares by completing the Shortfall Application Form accompanying this Prospectus.

Eligible Shareholders with a registered address in the United Kingdom may apply for Shortfall Shares subject to the condition that any such applications will be scaled-back on a pro-rata basis to ensure that the maximum amount of the Offer being made under the Offer to Shareholders with a registered address in the European Economic Area is less than the €5,000,000 threshold above which a prospectus approved by the FCA would be required.

The Shortfall to the Offer is to be issued at the absolute discretion of the Directors in consultation with the Underwriter and as such there is no guarantee that any Shortfall Shares applied for will be issued to Eligible Shareholders.

5.18 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of

the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

5.19 Issue of Shares

Shares issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Shares issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all Application Monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Shares issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Shares issued under the Shortfall Offer as soon as practicable after their issue.

5.20 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia, New Zealand or the United Kingdom.

The Offer is being made in New Zealand pursuant to the Securities Act (Overseas Companies) Exemption Notice 2013.

However, pursuant to ASX Listing Rule 7.7, the Company has appointed a nominee, CPS Capital Group Pty Ltd, to sell the Entitlements to which Ineligible Shareholders are entitled. The nominee will have the absolute and sole discretion to determine the timing and price at which the Entitlements may be sold and the manner of any such sale.

Any interest earned on the proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee may sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds.

Neither the Company nor the nominee will be subject to any liability for failure to sell the Entitlements or to sell them at a particular price. If, in the reasonable opinion of the nominee, there is no viable market for the Entitlements of the Ineligible Shareholders, or a surplus over the expenses of the sale cannot be obtained the Entitlements that would have been offered to the Ineligible Shareholders, then those Entitlements will be allowed to lapse. The Shares not taken up will form part of the Shares to be taken up by the Underwriter pursuant to the Underwriting Agreement.

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

The offer of Shares under the Offer made in this Prospectus is only being made in the United Kingdom to persons who are of a kind described in Article 43(2) of the United Kingdom's Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (members and creditors of certain bodies corporate).

6.6 Proposed Director

Subject to the successful completion of the Offer, it is proposed that Mr Jason Peterson will be appointed as a director of the Company. Following Mr Peterson's appointment, Mr Rowan Caren will step down as a Director, but will remain as Company Secretary and Chief Financial Officer of the Company.

Mr Jason Peterson

Proposed Non-Executive Director

Mr. Peterson has more than 20 years of experience in the financial advisory sector, which he obtained by working in both local and international stockbroking companies such as Patersons Securities Limited, Tolhurst Group, and Merrill Lynch. Mr Peterson specialises in corporate structuring, capital raisings, corporate and strategic advice to small and medium size companies and reverse takeovers. Mr Peterson holds a Bachelor of Commerce degree from Curtin University in Australia and a Graduate Diploma of Finance from FINSIA (Financial Services Institute of Australia)/SDIA (Securities & Derivatives Institute of Australia). 7. RISK FACTORS

7.1 Introduction

The Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company specific

(a) New project

The Company has stated that its core short to medium term objective is to secure a new project. Projects may be located in Australia or overseas. Should a suitable new business opportunity be identified, it will then need to be assessed for its technical, legal and commercial suitability. Whilst the Directors consider that there are attractive business and project acquisition opportunities available there is no certainty that the Company will be able to complete a transaction to secure a new project interest in a reasonable period of time or that such new business or project will be successful. Identification of a business or project can take considerable time and consume significant cash resources.

Furthermore, notwithstanding that an acquisition may proceed upon completion of due diligence, the risks associated with operating a new business or project will also apply.

(b) Additional requirements for capital

The Company's capital requirements depend on numerous factors. The Company will from time to time require further funding to develop its projects. Market conditions which are then generally prevailing will impact on the price or cost at which the Company will be able to raise such funds and no assurance can be given that such funding will be available on terms acceptable to the Company. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programs as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(c) **Potential for significant dilution**

Upon implementation of the Offer, assuming all Entitlements are accepted the number of Shares in the Company will increase from 20,406,441 Shares currently on issue to 163,251,528 Shares. This means that each Share will represent a significantly lower proportion of the ownership of the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the prospectus being lodged of \$0.031 is not a reliable indicator as to the potential trading price of Shares following completion of the Offer.

(d) **Going concern**

The Company's auditor, Deloitte Touche Tohmatsu, has issued a 'disclaimer of opinion' on the Company's annual financial report for the year ended 30 June 2015. The 'disclaimer of opinion' was due to their inability to obtain all accounting and statutory records of the Company's Egyptian subsidiaries (Tantalum Egypt JSC and Nubian Resources JSC), in relation to transactions and balances for the period commencing 1 July 2014 through to the 31 March 2015. Therefore, the Directors have prepared the financial report to the best of their knowledge based on the limited information available to them at the time of preparation of the financial report. As the available accounting and statutory records are not adequate to permit the application of necessary audit procedures, Deloitte Touche Tohmatsu was unable to obtain all information and explanations to form an opinion on the composition of the loss from discontinued operations recognised in the statement of profit or loss and other comprehensive income and the cash inflows and outflows relating to these subsidiaries reflected in the statement of cash flows for the year ended 30 June 2015.

Additionally, the auditor issued the following emphasis of matter paragraph in respect of a material uncertainty regarding the consolidated entity's and Company's continuation as going concerns:

"We draw attention to Note 2(c) in the financial report which indicates that the consolidated entity has incurred net losses of \$12,608,813 (2014: \$5,849,058) and experienced net cash outflows from operations of \$1,470,482 (2014: \$2,387,941) and net cash outflows from investing activities of \$1,855,136 (2014: \$481,441) for the year ended 30 June 2015. These conditions, along with other matters set out in Note 2(c), indicate the existence of a material uncertainty that may cast significant doubt about the Company and the consolidated entity's ability to continue as going concerns and therefore, whether they will realise their assets and extinguish their liabilities in the ordinary course of business."

Notwithstanding the 'going concern' emphasis of matter included in the financial report, the Directors consider that upon the successful completion of the fully subscribed Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital needs of the Company.

The Company is confident that it will raise sufficient funding to meet its minimum expenditure commitments and repay its debts as and when they fall due. However, as set out in Sections 9.4 and 9.5, in the event that the Company does not successfully complete the Offer, then the Company's outstanding debts owing to Gandel Metals Pty Ltd, Ian Gandel and VentureWorks JDK Pty Ltd will not be extinguished (and therefore will be repayable on or before 30 November 2015). Further, if the Offer is not successful, the Company may not have sufficient funds to repay the Celtic Loan when it falls due on 15 December 2015. A failure to complete the Offer (or raise funds through alternative funding sources) will be materially adverse to the Company and will result in there being significant uncertainty as to whether the going concern basis is appropriate.

(e) **Significant Level of Borrowings**

As at 30 September 2015, the Company has loans payable to Gandel Metals Pty Ltd (**Gandel Metals**), a company associated with Ian Gandel (a former director of the Company), of \$3,500,046 (including interest) (**Gandel Loans**). As announced on 28 August 2015, the repayment date of the Gandel Loans has been extended to 30 November 2015.

In addition, Ian Gandel resigned as a director of the Company with effect from 14 April 2015. Mr Gandel is owed \$159,609 in deferred director's fees and reimbursements of expenses (**Gandel Deferred Director Fees**).

Further, Ventureworks JDK Pty Ltd (**VentureWorks**), an entity associated with Mr John Kenny (a Director of the Company) is owed \$136,000 in deferred fees (**Kenny Deferred Fees**).

Subject to and conditional on successful raising of not less than \$1,200,000 (before expenses) pursuant to the Offer and as approved by Shareholders at the General Meeting, Gandel Metals, Ian Gandel and VentureWorks have agreed to extinguish in full all of the debts owed to them by the Company (save for \$180,000 payable to Gandel Metals and \$96,000 payable to VentureWorks which will be satisfied via the issue of Shares following completion of the Offer), including but not limited to the Gandel Loans, the Gandel Deferred Director Fees, the Kenny Deferred Fees and all director fees and all interest that shall accrue up until the date of extinguishment.

In addition, the Company entered into a binding terms sheet pursuant to which Celtic Capital provided the Celtic Loan to the Company (refer to Section 9.6 for further details). The Celtic Loan was drawn down on the 21 August 2015 to meet general corporate costs until the completion of the Offer and is intended to be repaid from proceeds of the Offer.

In the event that the Offer is not successfully completed, the debts owing to Gandel Metals, Ian Gandel and VentureWorks will not be extinguished and the Celtic Loan will not be repaid. The Company will need to raise additional capital by no later than 30 November 2015 or renegotiate the terms of the outstanding debts.

(f) **Dispute regarding Abu Dabbab Project**

Since late March 2015, the Company has been prevented from implementing its development and capital raising plans for the Abu Dabbab Project. The Egyptian Company for Mineral Resources (**ECMR**), which is the Company's 50% equity partner in Tantalum Egypt JSC (**TE**), the joint venture entity through which the Abu Dabbab Project is to be developed, alleges that the Company has abandoned the project. The Company has been advised that as of 27 July 2015, ECMR is seeking to have the Project Exploitation Licences removed from TE. Further details of the dispute are set out in Section 10.1.

The Company rejects ECMR's allegations in their entirety and denies that it has at any time abandoned the project. The Company has repeatedly attempted to engage with ECMR to resolve the matter so as to be able to proceed to develop the Abu Dabbab Project with ECMR as joint venturers through TE. ECMR has not responded positively to the Company in this regard.

Consequently, the Company has taken the view that it is highly unlikely that it will be able to regain access to the Abu Dabbab Project or its other interests and assets in Egypt. The Directors believe that the Company will likely need to seek recourse under Egyptian or international law.

However, there are uncertainties in relation to the outcome of any such claim due to the Egyptian and/or international legal jurisdiction. Any litigation, whether or not it is successful, could result in significant expense to the Company and cause a distraction to management and may impact adversely on the Company's operations, financial performance and financial position.

(g) **Foreign Jurisdictions**

The Company had mining and exploration interests in Egypt and Eritrea. The Egyptian interests are now the subject of a legal dispute (refer Section 7.2(f) above) and the Eritrean interests have been forfeited (refer to Section 7.2(k) below). However, the Company is actively searching for new exploration and mining ventures both in Australia and internationally. Any international assets or projects in which the Company may acquire an interest may potentially create new exposures to foreign jurisdictions.

Any foreign mining investments which the Company has or may enter into are subject to the risks normally associated with the conduct of business in foreign countries. The occurrence of one or more of these risks could have a material and adverse effect on the Company's profitability or the viability of its affected foreign operations, which could have a material and adverse effect on the Company's future cash flows, earnings, results of operations and financial condition.

Risks may include, among others, civil disturbances and terrorist actions, arbitrary changes in laws or policies of particular countries, labour disputes, invalidation of governmental orders and permits, uncertain political and economic environments, sovereign risk, war (including in neighbouring states), the failure of foreign parties to honour contractual relations or obligations, corruption, foreign taxation, delays in obtaining or the inability to obtain necessary governmental permits, opposition to

mining from environmental or other non-governmental organisations, limitations on foreign ownership, limitations on the repatriation of earnings, limitations on mineral exports, instability due to economic under-development, inadequate infrastructure and increased financing costs. These risks may limit or disrupt the Company's operations, restrict the movement of funds or result in the deprivation of contractual rights or the taking of property by nationalisation or expropriation without fair compensation.

(h) **Title to Mineral Rights**

The acquisition and retention of title to mineral rights is a detailed and time consuming process. Title to, and the area of, mineral resources claims may be disputed or challenged. Should the Company's rights to explore for, mine, produce and sell under its mineral licenses not be honoured or be unenforceable for any reason, or if any material term of the licenses is unilaterally changed or not honoured, including the boundaries, the Company's ability to explore and produce mineral product or metals in the future would be materially and adversely affected, and this would have a material and adverse effect on the Company's financial performance and results of operations.

(i) **Government Policy**

Resource industry profitability can be affected by changes in government policy in Australia, Egypt or any other jurisdiction in which the Company may operate in the future relating to mineral exploration and production, all of which is beyond the control of the Company.

(j) **Political and Economic Stability in Egypt**

Political instability in Egypt and the broader Middle East has continued since 2011. There has been tension in the region which may result in a less stable political situation in the Middle East and in Egypt in particular which could have a material adverse effect on the Company.

The Company was conducting exploration and development activities in Egypt until a dispute with its partner ECMR which emerged in late March 2015. Resolution of that dispute appears destined for both international and Egyptian legal proceedings. Given the ongoing political instability in Egypt, there are uncertainties as to whether the dispute with ECMR will be heard and the outcome of any such litigation.

(k) **Eritrea and Political Risk**

The Company's activities in Eritrea are now focussed on winding down and ceasing operations in country. This process remains subject to sovereign risks, which may impede the completion of that process or result in the impairment or loss of part or all of the Company's interest in its assets there. These risks and uncertainties vary from time to time and include such matters as terrorism, hostage taking, military repression, extreme fluctuations in currency exchange rates, high rates of inflation, labour unrest, the risks of war or civil unrest, expropriation and nationalisation, renegotiation or nullification of existing concessions, licenses, permits and contracts, illegal mining, changes in taxation policies, restrictions on foreign exchange and repatriation, and changing political conditions, currency controls and governmental regulations that favour or require the awarding of contracts to local

contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.

Changes, if any, in mining or investment policies or shifts in political attitude in Eritrea or any other relevant jurisdiction in which the Company operates may adversely affect the Company's operations or profitability.

Operations in Eritrea, or any other jurisdiction in which the Company may operate in the future, may be affected in varying degrees by government regulations with respect to, but not limited to, restriction on production, price controls, export controls, currency remittance, income and other taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and mine safety. Failure to comply strictly with applicable laws, regulations and local practices relating to mineral right and tenure, could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interest. The occurrence of these various factors and uncertainties cannot be predicted and could have an adverse effect on the Company's operations or profitability in varying degrees.

Under Eritrean mining law, expenditure commitments entered into by a tenement holder with respect to tenement are mandatory. Failure to expend funds in accordance with a commitment may result in a liability to the Eritrean government to the extent of the unexpended portion of the expenditure commitment, or forfeiture of the tenement/s. The Company was advised by the Eritrean Ministry of Energy and Mines (**Mines Ministry**) on 19 August 2015 that the Adobha Exploration Licence and the Gerasi South Exploration Licences had been terminated. The Company has been advised that the Mines Ministry will waive the unexpended portion of the expenditure commitments and there is no remaining liability in relation to the unexpended portion of the expenditure commitments. The Directors are of the view that the consolidated entity has no further obligations in relation to these licences.

(l) **History of Operating Losses**

The Company's operations have sustained operating losses during recent fiscal years. There is no guarantee that the Company will be profitable.

7.3 General risks

(a) **Share Market Conditions**

As the Company is a company listed on ASX and the Deutsche Börse, its share price is subject to numerous influences, which may affect both the trend in the share market and the share prices of individual companies.

The future success of ASX and the Deutsche Börse and liquidity in the market for the Shares cannot be guaranteed. In particular, the market for the Shares may be, or may become, illiquid and therefore the Shares may be or may become difficult to sell.

The market price of the Shares may be subject to fluctuations in response to many factors, including variations in the operating results of the Company, divergence in financial results from analysts' expectations, changes in earnings estimates by stock market analysts, general economic conditions, legislative changes in the Company's and other events and factors outside of the Company's control. In addition, stock markets have from time to time experienced extreme price and volume fluctuations, which, as well as general economic and political conditions, could adversely affect the market price for the Shares. Quotation on ASX and the Deutsche Börse should not be taken as implying that there will be a liquid market for the Shares.

(b) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(c) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(d) **Operational Risk**

By its nature, the business of exploration, mineral development and production which the Company undertakes contains risks. Prosperity depends on the successful exploration and/or acquisition of reserves, design and construction of efficient processing facilities, competent operation and management and efficient financial management. For its part, exploration is a speculative endeavour, while mining operations can be hampered by force majeure circumstances and cost overruns from unforeseen events.

(e) **Environmental Risks**

Exploration and mining programmes impact on the environment. These impacts are minimised by the Company's application of best practice principles.

(f) **Commodity Prices**

The prices that the Company may obtain for mineral commodities (particularly tantalum, feldspar, tin, gold and base metals) may fluctuate due to market conditions. Commodity prices are affected by a number of factors which are beyond the control of the Company. Such factors include supply and demand fluctuations for tantalum, feldspar, tin, gold and base metals, technological advancements, forward selling activities and other macro-economic factors. Commodity prices have fluctuated widely in recent years, and future serious price declines could cause continued development of, and commercial production from, the Company's properties to be impracticable or uneconomic.

(g) **Mineral Resource and Reserve Estimates**

There is no certainty that the mineral resources or any future ore reserve attributable to the Company will be realised. Until mineral resources or ore reserves are actually mined and processed, the quantity of mineral resources and ore reserve grades must be considered as estimates only. In addition, the quantity of ore reserves may vary depending on, among other things, metal prices and currency exchange rates. Any material change in the quantity of ore reserves, mineral resources, grade or stripping ratio may affect the economic viability of the properties. In addition, there can be no assurance that metal recoveries in small scale laboratory tests will be duplicated in larger scale tests under on-site conditions or during production.

(h) **Government Actions and Legal Risk**

The impact of actions by governments may affect the Company's activities including such matters as access to lands and infrastructure, compliance with environmental regulations, taxation and royalties.

The introduction of new legislation or amendments to existing legislation by governments, developments in the existing common law in any jurisdiction which governs the Company's operations or contractual obligations, could impact adversely on the assets, operations and the financial performance of the Company.

(i) **Insurance**

The Company's business is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes or slowdowns, unusual or unexpected geological conditions, ground or slope failures, cave-ins, changes in the regulatory environment or laws, and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties or production facilities, personal injury or death, environmental damage to the Company's properties or the properties of others, delays in development or mining, monetary losses and possible legal liability.

Although the Company maintains insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with its operations. The Company may also be unable to maintain insurance to cover these risks at economically feasible premiums. Insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. Losses from these events may cause the Company to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

(j) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

(k) **Litigation Risks**

The Company is exposed to possible litigation risks including tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.

(l) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

7.4 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus.

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

8. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

8.1 General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

8.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

8.3 Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

8.4 Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

8.5 Shareholder liability

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

8.6 Transfer of shares

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

8.7 Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

8.8 Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

8.9 Alteration of constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

10. ADDITIONAL INFORMATION

10.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings or legal disputes and the Directors are not aware of any legal proceedings pending or threatened against the Company, other than as set out below.

Dispute with ECMR

As detailed in Section 7.2(f) above, since late March 2015, the Company has been prevented from implementing its development and capital raising plans for the Abu Dabbab Project. The Egyptian Company for Mineral Resources (ECMR), which is the Company's 50% equity partner in Tantalum Egypt JSC (TE), the joint venture entity through which the Abu Dabbab Project is to be developed, alleges that the Company has abandoned the project. ECMR has indicated to the Company that it is seeking ways to dissolve TE and reissue the Project Exploitation Licences to a third party, although no formal notice to that effect has been received by the Company.

The Company rejects ECMR's allegations in their entirety and denies that it has at any time abandoned the project. The Company has repeatedly attempted to engage with ECMR to seek clarification and to resolve the matter so as to be able to proceed to develop the Abu Dabbab Project with ECMR as joint venturers through TE. To date, ECMR has not responded to the Company's requests. As a result of ECMR's unwillingness to engage with the Company, the Company has suspended further funding into TE.

Consequently, following legal advice, the Board believes that it is highly unlikely that it will be able to regain access to the Abu Dabbab Project or its other interests and assets in Egypt. The Company will likely need to seek recourse under Egyptian or international law.

Further details of the dispute are set out in the Company's ASX Announcement "Egyptian Asset Expropriation Update" dated 17 August 2015.

Potential dispute with former director

On 20 July 2015, the Company advised Mr Jon Starink, who at the time was a director of the Company, that the Board had formed the preliminary view that his employment should be summarily terminated. Mr Starink was required to address a number of matters that informed the Board's preliminary view and to show cause as to why his employment should not be summarily terminated. Mr Starink did not respond to the show cause letter before he resigned as a director of the Company on 31 July 2015.

Mr Starink has claimed that non-payment of his salary for the months of May and June 2015 constituted a repudiation of his employment agreement, which repudiation he accepted. The Company denied having repudiated his employment agreement.

Mr Starink has threatened to commence legal action in respect of contractual and statutory entitlements and damages for breach of his employment agreement, wrongful dismissal and/or a breach of the general protection provisions under the *Fair Work Act 2009* (Cth) arising from the repudiation of his employment agreement. However, as at the date of this Prospectus, no

proceedings have been issued. The Company will vigorously defend any action brought by Mr Starink and may also seek to counter-claim against Mr Starink.

10.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable.
