CHAIRMAN'S MESSAGE

Dear Shareholders,

I am pleased to present the Sprintex Group 2015 Annual Report and to report some important achievements during the 2015 financial year.

We have seen consistent trends throughout the year with a solid improvement in sales revenue, achieving a growth of more than 30% over the previous year. Our product range has improved and expanded, a focused dealer and distribution network is in place and we have a strong team in place to continue to drive the business forward.

This has been a challenging but significant year for the Sprintex Group.

The Company has managed to complete the product development of the supercharger system for the Chrysler 3.6L V6 Pentastar engine for Jeep Wrangler, and made good progress in finalising the system for models within the Chrysler/Jeep Pentastar range, including Dodge Challenger, Chrysler 300 and Dodge Ram 1500. Coupled with the release of the new 335 Race System for the Toyota FT86/Subaru BRZ/Scion FR-S and Honda CRZ system, this new line-up of supercharger systems creates a solid foundation for the growth of the Company, which also enables us to take advantage of the aftermarket opportunities arising in a number of valuable overseas markets. Our products consistently match and, in most cases, exceed the performance of our competitors, whilst continuing to provide our customers with the increased performance, reliability and quality product they require.

In order to keep the Company's momentum for growth and development, several capital raising initiatives were successfully undertaken and completed during the year. These included:

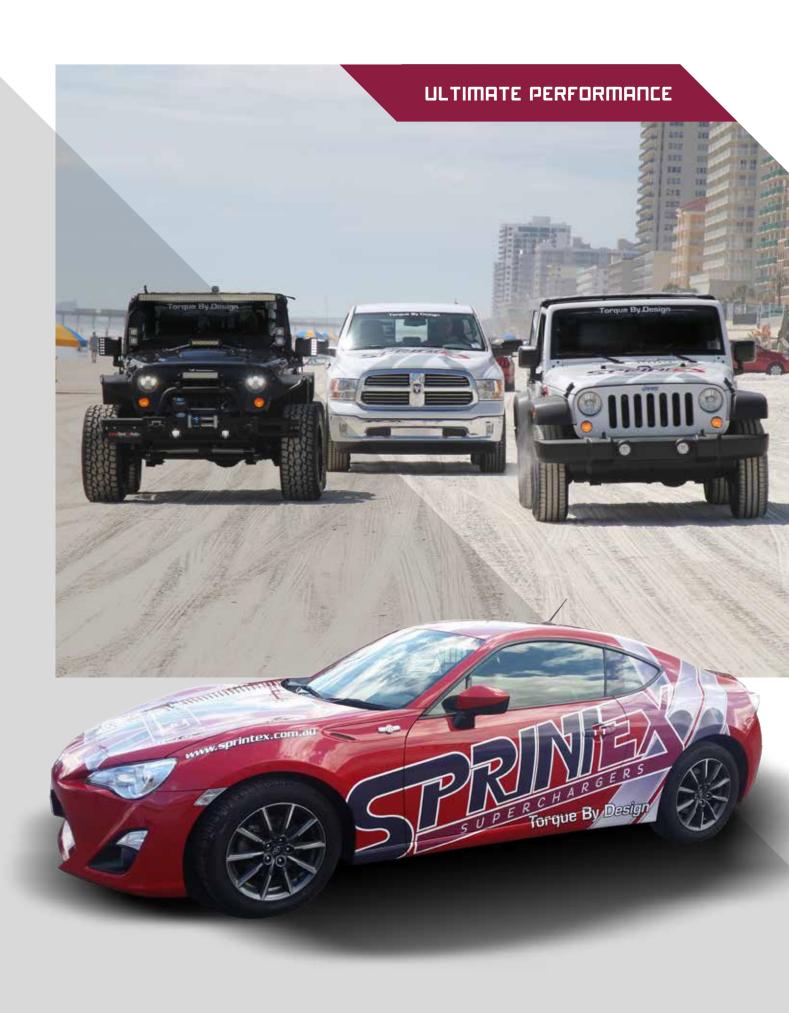

- the conversion of some short term loans to equity, thus relieving the company of the repayment burden;
- the announcement and subsequent completion of a Share Purchase Plan, with the number of applications exceeding our expectations;
- the entitlements offer announced in February 2015 and,
- the placements of shares, some of which have been subscribed to by senior management.

It is apparent that the global automotive industry is facing significant regulatory pressure to reduce fuel consumption and carbon dioxide emissions. Most, if not all, automakers are dedicating resources and efforts on rightsizing engine technology to optimize fuel economy and carbon dioxide emission without compromising (or even improving) vehicle performance. We are expecting substantial growth in China and the USA, two markets in which we have an established presence, compared to the smaller growth expected in the more developed European market. Sprintex is well positioned in both markets as we continue or focus on small and mid-engine range vehicles. Brand awareness is increasing, as more and more Sprintex systems are being installed in customer vehicles. In turn customer feedback, results in increased product development. As Sprintex superchargers provide an affordable option for engine boosting solutions to customers in the aftermarket and automakers alike, that further enhance a vehicle's overall powertrain system, while it is flexible enough to be tailored to meet local market and/or individual model needs. Together with the businesses being built for the sizable aftermarket in North America, Canada, the Caribbean, Asia and the Middle East, we are confident that potential OEM opportunities will deliver long term revenue growth and increase shareholders value in the coming years.

The Board remains positive and excited with the opportunities that lay ahead.

I would also like to take this opportunity to thank all fellow directors, the management team and employees for their invaluable efforts and hard work, dedication and commitment to the Company, and to thank all our shareholders, customers, business associates and professional advisers for their continued support.

Richard John Siemens Chairman

AS AT 30 JUNE 2015

Richard John Siemens

(Non-executive Chairman)

Mr. Siemens was born and raised in Canada, trained as a Chartered Accountant and moved to Hong Kong in 1979. In 1984, he formed Hutchison Telephone Company Limited in partnership with Hutchison Whampoa and Motorola. While Group Managing Director of Hutchison Telecommunications Limited, Mr. Siemens was instrumental in the establishment of other leading companies including AsiaSat (the first satellite company in Asia), STAR TV, Metro Radio (the radio station awarded with the first private radio licence granted by the Hong Kong Government in 25 years) and Hutchison's move into the European wireless business under the brand "Orange". His financial acumen and entrepreneurial leadership is also key to establishing mobile telecommunication businesses across the world led by Distacom Group, a privately-held group of companies in mobile telecommunication business including SUNDAY in Hong Kong, Blu in Italy, Spice in India and Madacom in Madagascar.

During the past three years, Mr. Siemens has been a director of the following listed company:

• e-Kong Group Limited – appointed January 2000, resigned February 2015

David White

(Deputy Chairman and acting CEO)

Mr. White was previously a non-executive director and was appointed to the office of Deputy Chairman on 6 September 2013. Mr. White has over 30 years' experience in managing a variety of companies in the Information and Communications Technologies (ICT) industry, during which he was the Chairman of the Board of Telecom Malagasy, a nationwide telecommunications service provider in Madagascar offering both landline and mobile services, as well as a director of Abiba Software in India and Value Access in Hong Kong.

During the past three years, Mr. White has been a director of the following listed company:

• Tecnotree Corporation – appointed March 2009, retired March 2012

Michael John Wilson

(Non-executive Director)

Mr. Wilson is the owner and managing director of a Perth-based company which supplies engineering, procurement, fabrication and construction services to the oil and gas and resources sector. Mr. Wilson has overseen the growth of the business into a multi-million dollar annual revenue generating operation in the past 18 years. Mr. Wilson has been a major shareholder of Sprintex Limited and Non-executive Director since 2009.

During the past three years, Mr Wilson did not serve as a director of other listed companies.

LEADERSHIP TEAM

AS AT 30 JUNE 2015

Richard John O'Brien

(Independent Non-executive Director)

Mr. O'Brien has significant experience in company financial management and administration, which has been acquired through more than 35 years in senior finance and administration roles – including company secretary and chief accountant with two mining companies. He holds a Bachelor of Business, Post Graduate Diploma in Business and is a Fellow of the Australian Society of CPA's.

During the past three years, Mr. O'Brien did not serve as a director of other listed companies.

Robert Molkenthin

(Company Secretary and Chief Financial Officer)

Mr. Molkenthin has held a variety of positions throughout his career and has over 25 years' experience in Australia and Internationally in a wide range of business environments at all levels in Corporate Finance and business operations and has, more recently, acted as a Consultant to a number of companies in the Real Estate, Legal and Energy markets. Previous experience encompasses capital raising, IPOs and corporate restructuring in the engineering, mining, property and retail sectors.

Tyrone Jones

(Chief Operating Officer)

Mr. Jones joined Sprintex from a background of mechanical engineering followed by 16 years as an aircraft engineer with GE Aviation. Prior to joining Sprintex, Mr. Jones was the Business Leader with GE Aviation On Wing Support in the Middle East and Africa with responsibility for deploying teams to repair aircraft engines across the globe, and established a Quality repair facility under FAR145 lean and introduce six sigma and process improvement with the view to 100% customer satisfaction by improving efficiency and quality.

Jude (Jay) Upton

(Chief Technology Officer)

Mr Upton is a qualified engineer and has over 20 years international automotive engineering experience (specifically on superchargers). He joined the Company in May 2004. Mr Upton is a 5 time National Drag Racing Champion, running a Sprintex equipped Top Fuel Motorcycle. He has competed throughout USA, UK, Europe, Australia and New Zealand exposing the Sprintex name to a wide international audience and has held multiple national records for both fastest times and speed in the Top Fuel Motorcycle category.

CEO REPORT

Operations Review 2015

Sprintex showed solid progress in 2015, building its global footprint, brand awareness and broadening its product range.

New product introduction

Historically Sprintex has launched a new product every eighteen months to two years. In Sept 2014 we successfully launched our Jeep JK V6 3.6lt Pentastar system globally to the market. This has been a well anticipated product introduction giving 55% gains on HP & torque catapulting this system to be best in class system which has challenged rivals well known products in the market place with a huge success. With these hugely popular Chrysler Pentastar platforms which are well suited to forced induction, it came as no surprised when the decision was made to extend our range with a plan to introduce five new Pentastar systems in 2015. Dodge RAM, Challenger, Charger, 300 and Grand Cherokee. Four of the systems have already launched and already created an impact and new interest to a V6 solution of more power and torque rivaling the V8's in the same cars. The Grand Cherokee is the last to launch and will be available from October. This extends our product range to 14 systems covering Honda, BMW, Proton, Toyota, Dodge/Chrysler given a much broader spectrum of product range, with further plans to extend this in 2016. This will put us even further ahead and be the leading solution for V6 applications worldwide.

We were also requested to support applications in the marine industry for the first time with a supercharged rotary engine for a jet ski and a supercharged inboard diesel engine application for small boats. Both these applications are well into development with potential launches in early 2016. This is very exciting for the Sprintex team proving our products adaptability across industries and extending our brand awareness in to new territories.

Finally for 2015 we will also launch our new Sprintex Performance Series (SPS) stage 2 systems which will give further gains from our standard stage 1 system and will also provide a drop in inlet temperature of 7 degrees at wide open throttle. This will take our products even further ahead of our competitors with performance and durability. Cementing the way forward as best in class with our primary range.

Quality Control

During 2014 we were able to continue to build and improve on our quality standards and controls with the re-certification of the Perth facility under ISO 9001-2008 and the new certification of the Malaysian facility also under ISO 9001-2008. This has been continual progress requiring training and support provided to the whole team to improve and control our production lines and at the same time further improve the quality and durability of our finished product giving an improved customer satisfaction and a more seamless process for our end user installing our products on their vehicles. As we still continue to improve our quality process to work within the requirements of TS 16949 in readiness for some of our pipeline OEM opportunities. We continue to monitor and control our process with greater accuracy and understanding, continually making engineering technical improvements to our hardware and tooling as well as our enhanced development gains to further improve our products to a best in class standard. This improvement has shown proven gains on our first time yield with a visible reduction on our reject rate and our KPI's.

After sales service and customer support

At Sprintex we pride ourselves with our after sales service and customer support heritage where we have given a personalized support to our customers and dealers alike. However we feel we can still do better and so have expanded our global support with increased specialists in the USA and Australia who are dedicated to support our customers enquiries and issues to deliver on a solution to make the Sprintex experience seamless and trouble free. This new technical support team are capable of following up on enquiries to deal direct with the customers to help bring any problem to a resolution as quickly as possible. We have also extended our support to our dealers offering on point training at their location where we have also been able to have open days with their customers to share the learning experience and to expand on their product knowledge. This level of support and training has lead us into a new level of dealer. Now selected dealers can undertake such training to become a Sprintex Authorized installer/dealer given a much higher standard of installation which in turn Sprintex will reward for the first time by offering extended warranty agreement to our key dealer's installers who have grown with us and who understand our product and customer needs.

Dealer network and coverage

From 2014 to 2015 we have seen a substantial increase in our dealer footprint throughout the USA, into Canada and the Caribbean. We have also further extended our dealer/distributor network across Australia, Asia and into the Middle East and China. This has come in response to the growing demand for our product globally so our Sales teams have searched for the best dealers and installers to represent Sprintex and be part of the experience. As we continue to grow our network worldwide with new approved dealers to support and streamline the front to back purchase and installation of our product for our customers, always trying to bring our product closer to the customer.

I would like to take this opportunity to thank our Chairman, Richard Siemens and my fellow Directors for their invaluable support. My thanks, also, to our employees, management and, finally to you, our shareholders, for your ongoing support of the company.

S. reliet

David White, Chief Executive Officer

The information appearing on pages 2 to 7 forms part of the Directors' Report for the financial year ended 30 June 2015 and is to be read in conjunction with the following information. Directors were in office for this entire period unless otherwise stated.

Interests in the shares and options of the Company

As at the date of this report, the interests of the Directors in the shares of Sprintex Limited were:

Director	Number of Ordinary Shares
R Siemens	1,876,123,579
M Wilson	412,880,019
R O'Brien	18,798,554
D White	8,080,776
	2,315,882,928

There are no options on issue at the year end or at the date of this report.

Company Secretary and Chief Financial Officer

Robert Molkenthin

Mr Molkenthin has held a variety of positions throughout his career and has over 25 years' experience in Australia and Internationally in a wide range of business environments at all levels in Corporate Finance and business operations and has, more recently, acted as a Consultant to a number of companies in the Real Estate, Legal and Energy markets. Previous experience encompasses capital raising, IPOs and corporate restructuring in the engineering, mining, property and retail sectors.

Dividends

No dividends have been declared or paid to shareholders during the year and at the date of this report.

Principal Activities

The principal activity of Sprintex Limited and the entities it controlled for the financial year ended 30 June 2015 was the manufacture and distribution of the patented range of Sprintex[®] superchargers.

Operating and Financial Review

Group overview

The Company was established in 2003 and listed on the ASX in 2008.

The Group's focus is the development and commercialisation of the Sprintex[®] twin screw supercharger and supercharger systems incorporating the Sprintex[®] twin screw supercharger.

Operations from the Group's facility in Perth, Western Australia were supplemented in January 2013 with the commissioning of a 1,800 sqm production facility in the 'Glenmarie' area of Shah Alam in Selangor State, Malaysia which is jointly-owned with AutoV Corporation, parent of Proreka (M) Sdn. Bhd, a tier 1 automotive component manufacturer and supplier. The Perth operation is now a dedicated research and development facility with volume production being from the Malaysian facility.

Mr Tyrone Jones is employed as Chief Operating Officer by the joint venture company, Proreka Sprintex Sdn. Bhd. It has been agreed that the joint venture will raise a management charge to Sprintex Limited for his services to the Company and other services provided by the joint venture. The exact amounts of this recharge are still under discussion.

The focus of the Group's activities during the year has been:

- 1. Successfully released the supercharger system for the Chrysler 3.6L V6 Pentastar engine for Jeep Wrangler.
- 2. Continued development of the supercharger system for the Dodge Ram.
- 3. Expansion and development of the North American market for the Company's products.
- 4. Released from development the new 335 Race system for the Toyota 86/Subaru BRZ/Scion FR-S.
- 5. Released the Honda CRZ system, and
- 6. Further development and refinement of the supercharger system on additional models within the Chrysler/Jeep Pentastar range.

Business strategies

The Group is focused on developing new superchargers and supercharger systems from its dedicated R&D facility in Perth with manufacturing of products being primarily from the Group's production facility in Malaysia. The expanded range of products is intended to immediately service the needs of the aftermarket sector, where the key drivers are improved performance, while also enabling the Group to showcase its products to original equipment manufacturers with whom the Group is building business relationships, with a view to securing future sales orders.

Operating results for the year

The Company has continued focusing on the development of aftermarket supercharger systems after establishing a production facility in Malaysia in 2013. The financial results reflect this focus, including write-offs of fixed assets and inventory in Perth following the Perth facility being downsized to a dedicated research and development facility, The Company has also been required to continue providing cash support for the operations of the JV in Malaysia:

	2015 \$	2014 \$	Change %
Revenue	1,264,116	969,288	30.42%
Net loss for the year	(6,164,075)	(4,877,023)	(26.39)%

Loss per Share

Basic loss and diluted loss per share for 2015 and 2014 was \$0.0032 and \$0.0053, respectively.

Review of financial condition

Liquidity and capital resources

The Group continued to incur operating losses as a result of the focus on development activities and setting up of its Malaysian facility. These activities were financed by raising capital, sales of products and receipt of Research and Development Incentive grant.

At year end, cash and cash equivalents were \$67,950 compared to \$173,067 at 30 June 2014.

Asset and capital structure	2015 \$	2014 \$
Total borrowings	133,875	2,148,449
Cash and cash equivalents	(67,950)	(173,067)
Net debt	65,925	1,975,382
Total equity	1,709,739	136,603
Total capital	1,775,664	2,111,985
Gearing ratio – net debt over total capital	3.7%	93.5%

Gearing ratio, defined as net debt over total capital, as at 30 June 2015 was 3.7% (2014: 93.5%). The Group's policy for the year ended 30 June 2015 allowed up to 60% of financing to be provided by net debt at any particular time. The Group is currently operating below its stated policy and steps. Management's policies for determining whether fixed or floating rates of interest are entered into are examined on a yearly basis.

Capital raising issues during the year

On 27 August 2014, the Company launched a Share Purchase Plan (SPP). The SPP closed on 18 November 2014 and raised \$297,500, exceeding the Company's expectations.

In October 2014, the Company made a placement of 63,333,333 shares at \$0.003, raising \$190,000 for working capital for the Company.

During the year, the provision by a limited number of shareholders and Directors of short term loans to the Company, enabled the continued development of the Company and its products, the completion of various important projects, enabled the re-establishment of supplier relationships and provided funds for the development of a new direct route to market in the important aftermarket of North America. The conversion of these short term loan amounts of \$3,342,975 into fully paid shares in the Company was voted on and accepted by the shareholders at a General Meeting of the shareholders held in November 2014. This debt conversion was important to the Company as it reduced the level of debt on the Company's balance sheet and freed working capital for the future needs of the Company.

On 24 February 2015, the Company announced a 3 for 5 non-renounceable rights issue to shareholders with registered addresses in Australia and New Zealand. This offer was for approximately 1,383,481,273 new shares at an issue price of \$0.002 to raise approximately \$2,770,000, before costs. The offer closed on 9 April 2015 and valid applications under the Rights Issue totalled approximately 783,000,000, 57% of all shares offered, and raised \$1,568,887, before costs.

Capital expenditure

Property, plant and equipment of \$176,394 (2014: \$133,139) was acquired during the year ended 30 June 2015. These acquisitions related to plant and equipment, including tooling, needed to produce the Group's products. The Group did not have any outstanding capital commitments in respect of acquisition of property plant and equipment contracted for but not provided for in the financial statements.

Profile of borrowings

The profile of the Group's debt finance is as follows:

	2015 \$	2014 \$
Current		
Insurance premium funding	91,408	-
Finance lease liabilities	16,326	29,006
Loans from related parties	-	2,053,129
Convertible notes		26,657
	107,734	2,108,792
Non-current		
Finance lease liabilities	26,141	39,657
	133,875	2,148,449

The Company's debts have decreased over the last year primarily as a result of the conversion to equity of short term loans from entities related to two directors.

Risk management

The Company takes a proactive approach to risk management. The Board is responsible for ensuring that risks, and also opportunities, are identified on a timely basis and that the Company's objectives and activities are aligned with the risks and opportunities identified by the Board.

The Board has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified by the Board. These include the following:

- Board approval of a strategic plan, which encompasses the Company's vision, mission and strategy statements, designed to meet stakeholders' needs and manage business risk.
- Implementation of Board approved operating plans and budgets and Board monitoring of progress against these budgets, including the establishment and monitoring of key performance indicators of both a financial and non-financial nature.
- The establishment of committees to report on specific business risks, including for example such matters as environmental issues and occupational health and safety.
- The Company has mechanisms in place to get access to external professional advice in assisting the discharge of the Board's responsibilities to manage the organisation's financial risks including such matters as the Company's liquidity, currency, interest rate and credit policies and exposures and monitors management's actions to ensure they are in line with Company policy.

Significant Changes in the State of Affairs

Total equity increased from \$136,603 at 30 June 2014 to \$1,709,739 at 30 June 2015. The movement was largely as a result of the conversion of short-term loans to equity, the issue of shares under an entitlements issue and the successful completion of a share purchase plan. Refer to note 18 for further information on movements in equity.

Events Subsequent to Reporting Period

In the interval between the end of the period and the date of this report, in the opinion of the Directors of the Company, no item, transaction or event of a material and unusual nature has occurred which is likely to significantly affect the operations of the Consolidated Entity, or the results of those operations, other than as set out below:

On 10 July 2015, the Company announced that it had secured a short term funding facility of approximately \$1m. The facility has been provided by Future (Holdings) Limited, an unrelated third party, which agreed to provide the facility for a six month period at an interest rate of 9.00% per annum.

Likely Developments and Expected Results

The directors are confident that the 2016 financial year will see an increase in sales of superchargers and aftermarket supercharger systems, supplied from the Malaysian production facility, which was commissioned in January 2013.

Environmental Issues

The Group's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation. However, the Board believes that the Company has adequate systems in place for the management of its environmental requirements and is not aware of any breach of these environmental requirements as they apply to the Company.

Share/Option Information

As at the date of this report, there were 3,750,000 performance rights on issue. Performance right holders do not have any right, by virtue of the option, to participate in any share issue of the Company or any related body corporate.

Indemnification and Insurance of Directors

The Company has entered into an Indemnity, Insurance and Access Deed with each Director and Officer.

Pursuant to the Deed, the Director/Officer is indemnified by the Company against any liability incurred in that capacity as an officer of the Company to the maximum extent permitted by law subject to certain exclusions.

The Company must keep a complete set of company documents until the later of:

- the date which is seven years after the Director/Officer ceases to be an officer of the Company; and
- the date after a final judgment or order has been made in relation to any hearing, conference, dispute, enquiry or investigation in which the Director/Officer is involved as a party, witness or otherwise because the Director is or was an officer of the Company ("Relevant Proceedings").

The Director has the right to inspect and/or copy a company document in connection with Relevant Proceedings during the period referred to above.

Subject to the next sentence, the Company must maintain an insurance policy insuring the Director/Officer against liability as a director and officer of the Company while the Director/Officer is an officer of the Company and until the later of:

- the date which is seven years after the Director/Officer ceases to be an officer of the Company; and
- the date any Relevant Proceedings have been finally resolved.

The Company may cease to maintain the insurance policy if the Company reasonably determines that the type of coverage is no longer available. \$11,107 has been paid by the Company in respect of insurance contract premiums for directors and officers during the year.

Directors' Meetings

The number of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director were as follows:

	Directors' Meetings	Audit Committee
Number of meetings held:	4	1
Number of meetings attended:		
Mr R. Siemens	4	1
Mr D. White	4	n/a
Mr M. Wilson	4	1
Mr R. O'Brien	4	1
Mr S Apedaile*	2	n/a

* Mr S Apedaile resigned on 27 November 2014

Committee membership

As at the date of this report, the Company has an audit committee. Members acting on the audit committee of the board during the year were:

Mr R. O'Brien (Chairman) Mr R. Siemens Mr M. Wilson

Non-audit Services

Tax advising services were provided during the year by the Company's auditor, PKF Mack. No other non-audit services have been provided.

Auditor's Independence Declaration

The auditor's independence declaration for the year ended 30 June 2015 has been received and can be found on the following page.

Remuneration Report (Audited)

This remuneration report, which forms part of the directors' report, outlines the director and executive remuneration arrangements of the Company in accordance with the requirements of the Corporations Act 2001 and its Regulations. The term "key management personnel" refers to those persons having the authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

Details of key management personnel (including the five highest paid executives of the Company)

The directors and other key management personnel in office at any time during the financial year and up to the date of this report were:

Parent Entity Directors

Mr R Siemens	Non-executive Chairman
Mr D White	Deputy Chairman and acting CEO
Mr M Wilson	Non-executive Director
Mr R O'Brien	Independent Non-executive Director
Mr S Apedaile	Non-executive Director (resigned 27 November 2014)

Other Key Management Personnel

Mr T Jones	Chief Operations Officer (appointed 20 December 2014)
Mr R Molkenthin	Chief Financial Officer and Company Secretary
Mr J Upton	Chief Technology Officer
Mr G D Emslie	Consultant to the Board (resigned 31 December 2014)

Remuneration Policy

For the purposes of this report, the term key management personnel encompasses the Directors, Chief Financial Officer and Company Secretary, Chief Operations Officer and Chief Technology Officer.

Each Director of the Company is entitled to such remuneration from the Company as shareholders approve at the annual general meeting, but the total amount provided to all non-executive directors must not exceed in aggregate the amount fixed by the Company in a general meeting.

The Board of Directors of the Company is responsible for determining and reviewing remuneration arrangements for the directors and executives. The Board assesses the appropriateness of the nature and amount of remuneration of executives on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality, high performing director and executive team. Options can be issued as part of director and executive remuneration to encourage the alignment of personal and shareholder interests. The expected outcome of this remuneration structure is:

- Retention and motivation of Directors
- Performance rewards to allow Directors to share the rewards of the success of the Company
- Competitiveness and reasonableness
- Acceptability to shareholders

Non-executive directors with significant shareholdings have not been drawing any fees to assist the Company with preserving cash.

To incentivise the executives with the strategic objectives of the Group to maximise shareholders wealth, the Company is proposing to offer key executives of the Company the ability to acquire shares in-lieu of remuneration. A shareholder resolution for this proposal was passed at a General Meeting held on 11 November 2014. The Board will continue to monitor appropriate incentive schemes, including cash and share ownership plans, for the Company in future years.

The Company has no policy on executives and directors entering into contracts to hedge their exposure to options or shares granted as part of their remuneration package.

Company performance over the last 5 years is as follows:

	Losses \$	Loss per share \$	Share Price \$
2015	6,164,075	0.01	0.001
2014	4,877,023	0.01	0.006
2013	4,776,580	0.01	0.017
2012	5,191,710	0.01	0.015
2011	4,238,296	0.01	0.021

Remuneration Structure

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

Non-Executive Director Remuneration

Objective

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

Structure

The ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. The aggregate remuneration for all non-executive Directors has been set at a maximum amount of \$300,000 per annum.

The amount of aggregate remuneration sought to be approved by shareholders and the fee structure is reviewed annually. All non-executive Directors do not receive retirement benefits.

All Directors are entitled to be paid reasonable travelling, accommodation and other expenses incurred in consequence of their attendance at Board meetings and otherwise in the execution of their duties as Directors.

Executive Directors and other Key Management Personnel Remuneration

As part of its Corporate Governance Policies and Procedures, the Board has adopted a formal Remuneration Committee Charter. Due to the current size of the Company and number of Directors, the board has elected not to create a separate Remuneration Committee but has instead decided to undertake the function of the Committee as a full Board under the guidance of the formal charter.

Structure

While it is intended to achieve the remuneration structure as mentioned in the Remuneration Policy on page 18, due to the current nature and performance of the Company's business operations, the rewards for Directors have no set or predetermined performance conditions or key performance indicators as part of their remuneration.

Other key management personnel

Other key management personnel are remunerated in cash and are entitled to participate in any employee share ownership plans which may be introduced from time to time.

Mr Upton does not have a formal contract.

The remuneration of directors and executives is detailed under the heading "Compensation of Key Management Personnel" below.

Remuneration Report

Options granted and vested during 2014 and 2015

No remuneration options were granted, vested or exercised during the period ended 30 June 2014 or 30 June 2015. No remuneration options lapsed during 2014 or 2015.

During the 2012 year, the Company issued 20,000,000 performance rights to key management personnel ("KMP"). 5,000,000 lapsed upon the resignation of one KMP member in 2012 and 3,750,000 were converted to fully paid ordinary shares upon a hurdle being achieved during the 2013 year. The balance of the performance rights have not vested as the performance hurdles are yet to be achieved. 7,500,000 performance rights lapsed in the 2014 year. 3,750,000 performance rights are still on issue.

(2) Resigned 27 November 2014.

(3) Resigned 31 December 2014.

(c) Loans from Directors

	China Automotive Holdings (Mr R. Siemens)	Mr D. White	Mr M. Wilson	Mr R. O'Brien	Total
Opening Balances	1,852,050	-	208,811	11	2,052,872
Funds provided	1,700,000	124,162	200,000	28,919	2,052,360
Cash repayments	(628,262)	(108,695)	-	-	(736,957)
Converted to equity	(2,898,616)	(16,162)	(400,000)	(28,919)	(3,343,697)
Interest expensed	82,068	696	10,208	710	93,682
Debt forgiven	(107,240)	-	(11,019)	-	(118,260)
Closing Balance	-	-	-	-	-

The Directors advanced funds to the Company during the year to provide thort term liquidity support. These Loans incurred interest at 9% per annum, this is consistent with loans on commercial terms for this type of facility. Pursuant to a resolution passed at a general meeting of shareholders in November 2014, a portion were converted to equity in the Company. A portion of the debt was forgiven by directors. The remaining debt was settled in cash.

(d) Performance rights of key management personnel

The following table shows the movement during the year in the number of performance rights in Sprintex Limited held directly, indirectly or beneficially, by each key management personnel, including their related parties:

Year ended 30 June 2015		Held at 1 July 2014	Received as remuneration	Other changes	Held at 30 June 2015
Directors					
Mr J Upton	Class B	1,250,000	-	-	1,250,000
	Class C	1,250,000	-	-	1,250,000
	Class D	1,250,000	-	-	1,250,000
		3,750,000	-	-	3,750,000

The performance rights were issued for nil cash consideration and each performance right converts into one fully paid ordinary share upon the following vesting conditions being achieved:

CLASS	Condition
Class B Performance Rights	First quarter of positive earnings before interest, taxation, depreciation and amortisation.
Class C Performance Rights	First year of positive earnings before interest, taxation, depreciation and amortisation.
Class D Performance Rights	Second consecutive year of positive earnings before interest, taxation, depreciation and amortisation.

All equity transactions with key management personnel other than arising from the granting of employee shares have been entered into under terms and conditions no more favourable than those the Company would have adopted if dealing at arm's length.

END OF REMUNERATION REPORT

Signed in accordance with a resolution of the Board of Directors.

D. r. let

David White Deputy Chairman and acting CEO Perth 30 September 2015

TORQUE. PERFORMANCE. TECHNOLOGY.

a.com #MOTOTUNED BULLES AN THE LES LES BALLES New Jersey Garden State

The Board of Directors of the Company is responsible for the corporate governance of the Company. The Board guides and monitors the business affairs of the Company on the behalf of the shareholders by whom they are elected and to whom they are accountable.

The Corporate Governance Statement of the Company is structured with reference to the Australian Stock Exchange Corporate Governance Council's (the Council's) "Corporate Governance Principles and Recommendations" ("ASX Principles") which are as follows:

Principle 1	Lay solid foundations for management and oversight
Principle 2	Structure the Board to add value
Principle 3	Promote ethical and responsible decision making
Principle 4	Safeguard integrity in financial reporting
Principle 5	Make timely and balances disclosures
Principle 6	Respect the rights of shareholders
Principle 7	Recognise and manage risk
Principle 8	Remunerate fairly and responsibly

Commensurate with the spirit of the ASX Principles, the Company has followed each of the Recommendations to the extent the Board considered that their implementation was practicable and likely to genuinely improve the Company's internal processes and accountability to external stakeholders. The Corporate Governance Statement contains certain specific information and discloses the extent to which the Company has followed the guidelines during the period. Where a recommendation has not been followed, that fact is disclosed, together with reasons for the departure.

Explanation for Departures from Best Practice Recommendations

Principle 2

Nomination Committee

Recommendation 2.4 requires listed entities to establish a nomination committee. During the year ended 30 June 2015, the Company did not have a separately established nomination committee. However, the duties and responsibilities typically delegated to such committees are included in the responsibilities of the full Board.

Principle 8

Remuneration Committee

Recommendation 8.1 requires listed entities to establish a remuneration committee. During the year ended 30 June 2015, the Company did not have a separately established remuneration committee. However, the duties and responsibilities typically delegated to such committee are included in the responsibilities of the full Board.

With the exception of the departures from the Corporate Governance Council recommendations in relation to the establishment of a nomination committee and remuneration committee as stated above, the corporate governance practices of the Company are compliant with the Council's best practice recommendations.

Board Function

The Board is accountable to the shareholders for the performance of the Company and will have overall responsibility for its operations. Day to day management of the Company's affairs, and the implementation of the corporate strategy and policy initiatives, is delegated by the Board to the Senior Management Team.

The key functions of the Board include:

- approving the strategic direction and related objectives of the Company and monitoring management performance in the achievement of these objectives;
- adopting budgets and monitoring the financial performance of the Company;
- overseeing the establishment and maintenance of adequate internal controls and effective monitoring systems;
- overseeing the implementation and management of effective safety and environmental performance systems;
- ensuring all major business risks are identified and effectively managed; and
- ensuring that the Company meets its legal and statutory obligations.

Structure of the Board

The skills, experience and expertise relevant to the position of director held by each director in office at the date of the annual report is included in the Directors' Report. Directors of the Company are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with – or could reasonably be perceived to materially interfere with – the exercise of their unfettered and independent judgement. In accordance with the definition of independence above, Mr R O'Brien is considered to be independent.

There are procedures in place, agreed by the Board, to enable directors in furtherance of their duties to seek appropriate independent professional advice at the Company's expense.

The terms in office held by each director in office at the date of this report are as follows:

Name	Position	Term in Office
Mr R Siemens	(Non-executive Chairman)	Appointed 29 August 2005
Mr D White	(Deputy Chairman and acting CEO)	Appointed 14 March 2012, Appointed Deputy Chairman 6 September 2013
Mr M Wilson	(Non-executive Director)	Appointed 26 October 2009
Mr R O'Brien	(Independent Non-executive Director)	Appointed 3 March 2010

Performance

The performance of the Board and key executives is reviewed regularly against both measurable and qualitative indicators. During the reporting period, the Board conducted performance evaluations that involved an assessment of each Board member's and key executive's performance against specific and measurable qualitative and quantitative performance criteria. The performance criteria against which directors and executives are assessed are aligned with the financial and non-financial objectives of the Company. KPM whose performance is consistently unsatisfactory may be asked to retire.

Trading Policy

The Company has a formal policy for dealing in the Company's securities by Directors, employees and contractors. This sets out their obligations regarding disclosure of dealing in the Company's securities. The Company's trading policy permits Directors and senior management to acquire securities in the Company at any time other than seven (7) days prior to and two (2) days after the release of the Company's quarterly, half yearly and annual financial results to the ASX and when they have knowledge of price sensitive information.

However Company policy prohibits Directors and senior management from dealing the Company's securities at any time while in possession of price sensitive information. Directors must advise the Board before buying or selling securities in the Company. All such transactions are reported to the Board. In accordance with the provisions of the Corporations Act and the Listing Rules, the Company advises ASX of any transaction conducted by Directors in the securities of the Company.

Audit Committee

The Board has established an Audit Committee, which operates under a charter approved by the Board. It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. The committee's primary responsibilities are to:

- oversee the existence and maintenance of internal controls and accounting systems;
- oversee the management of risk within the Company;
- oversee the financial reporting process;
- review the annual and half-year financial reports and recommend them for approval by the Board of Directors;
- nominate external auditors;
- review the performance of the external auditors and existing audit arrangements; and
- ensure compliance with laws, regulations and other statutory or professional requirements, and the Company's governance policies.

Risk

The Board has identified the significant areas of potential business and legal risk of the Company. The identification, monitoring and, where appropriate, the reduction of significant risk to the Company will be the responsibility of the Board.

To this end, comprehensive practices are in place that are directed towards achieving the following objectives:

- effectiveness and efficiency in the use of the Company's resources;
- compliance with applicable laws and regulations;
- preparation of reliable published financial information.

The Board reviews and monitors the parameters under which such risks will be managed. Management accounts were prepared and reviewed at Board meetings. Budgets were prepared and compared against actual results.

CEO and CFO Certifications

In accordance with section 295A of the Corporations Act, both the acting Chief Executive Officer and Chief Financial Officer have provided a written statement to the Board that:

- their view provided on the Company's financial report is founded on a sound system of risk management and internal compliance and control which implements the financial policies adopted by the Board; and
- the Company's risk management and internal compliance and control system is operating effectively in all material respects.

Remuneration

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and executive team by remunerating directors and key executives fairly and appropriately with reference to relevant employment market conditions. The Company does not link the nature and amount of the emoluments of such officers to the Company's financial or operational performance. The expected outcomes of the remuneration structure are:

- retention and motivation of key executives;
- attraction of high quality management to the Company; and
- performance rewards to allow executives to share in the success of the Company

For a full discussion of the Company's remuneration philosophy and framework and the remuneration received by directors and executives in the current period please refer to the Remuneration Report, which is contained within the Directors' Report on pages 18 to 23.

There is no scheme to provide retirement benefits to non-executive directors.

The Board is responsible for determining and reviewing compensation arrangements for the directors themselves and the executive team.

Shareholder communication policy

Pursuant to Principle 6, the Company's objective is to promote effective communication with its shareholders at all time. The Company is committed to:

- ensuring that shareholders and the financial market are provided with full and timely information about the Company's activities in a balances and understandable way;
- complying with continuous disclosure obligations contained in applicable ASX listing rules and the Corporation Act in Australia; and
- communicating effectively with its shareholders and making it easier for shareholders to communicate with the Company.

To promote effective communication with shareholders and encourage effective participation at general meetings, information is communicated to shareholders:

- Through the release of information to the market via the ASX
- Through the distribution of the annual report and notices of annual general meeting
- Through shareholder meetings and investor relations presentations
- Through letter and other forms of direct communications to shareholders
- By posting relevant information on the Company's website: www.sprintex.com.au

The external auditors are required to attend the annual general meeting and are required to answer any shareholder questions about the conduct of the audit and preparation of the audit report.

Diversity at Sprintex Limited

The Group recognises the value contributed to the organisation by employing people with varying skills, cultural backgrounds, ethnicity and experience and employs people based on their underlying skill sets in an environment where everyone is treated equally and fairly, and where discrimination, harassment and inequity are not tolerated.

14% (2014 – 14%) of the Company's employees are female, none of whom are classified as key management personnel.

1. Corporate information

Sprintex Limited (the "Company") is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange. The Company's registered office is 183 Mulgul Road, Malaga WA 6090.

The consolidated financial statements of the Company as at and for the year ended 30 June 2015 comprise the Company and its subsidiaries (together referred to as the "Group"). The nature of the operations and principal activities of the Group are described in the Directors' Report.

2. Significant accounting policies

a. Statement of compliance

This financial report is a general purpose financial report which complies with Australian Accounting Standards (AASBs) (including Australian Interpretations) as issued by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001 as appropriate for for-profit oriented entities. The financial report also complies with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for land and buildings which have been measured at fair value.

The financial statements were authorised for issue in accordance with a resolution of the directors, on 30 September 2015. The directors have the power to amend and reissue the financial statements.

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities.

Going concern

The Company has net assets of 1,709,739 (2014: 136,603) and net current assets of 507,476 (2014: net current liabilities of 1,177,834) as at 30 June 2015 and incurred a loss of 6,164,075 (2014: 4,877,023) and net operating cash outflow of 2,110,808 (2014: 3,424,904) for the year ended 30 June 2015.

The Company's ability to continue as a going concern and meet its debts and future commitments as and when they fall due is dependent on a number of factors, including:

- delivery of existing and new products through the Company's distribution network to generate sales revenues and positive cash flows;
- the ability of the Company to raise additional financing; and
- the success of the manufacturing facility in Malaysia.

The financial report has been prepared on a going concern basis. In arriving at this position the directors have had regard to the fact that the Company has, or in the directors' opinion will have access to, sufficient cash to fund administrative and other committed expenditure for a period of not less than 12 months from the date of this report.

Should the Company not achieve the matters set out above, there is significant uncertainty whether it will be able to continue as a going concern and therefore whether it will be able to pay its debts as and when they fall due and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.

FOR THE YEAR ENDED 30 JUNE 2015

c. Functional and presentation currency

The financial report is presented in Australian dollars, which is the functional currency and the presentation currency of the Company and its Australian subsidiaries.

d. Application of new and revised Accounting Standards

The following Australian Accounting Standards have been issued or amended and are applicable to the annual financial statements of the Group (or the company) but are not yet effective. The Group has decided against the early adoption of these standards and has not yet determined the potential impact on the financial statements from the adoption of these standards and interpretations.

e. New, revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Any significant impact on the accounting policies of the Group from the adoption of these Accounting Standards and Interpretations are disclosed below. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

The following Accounting Standards and Interpretations are most relevant to the Group:

AASB 2012-3 Amendments to Australian Accounting Standards - Offsetting Financial Assets and Financial Liabilities

The Group has applied AASB 2012-3 from 1 July 2014. The amendments add application guidance to address inconsistencies in the application of the offsetting criteria in AASB 132 'Financial Instruments: Presentation', by clarifying the meaning of 'currently has a legally enforceable right of set-off'; and clarifies that some gross settlement systems may be considered to be equivalent to net settlement.

AASB 2013-3 Amendments to AASB 136 - Recoverable Amount Disclosures for Non-Financial Assets

The Group has applied AASB 2013-3 from 1 July 2014. The disclosure requirements of AASB 136 'Impairment of Assets' have been enhanced to require additional information about the fair value measurement when the recoverable amount of impaired assets is based on fair value less costs of disposals. Additionally, if measured using a present value technique, the discount rate is required to be disclosed.

FOR THE YEAR ENDED 30 JUNE 2015

AASB 2014-1 Amendments to Australian Accounting Standards (Parts A to C)

The Group has applied Parts A to C of AASB 2014-1 from 1 July 2014. These amendments affect the following standards: AASB 2 'Share-based Payment': clarifies the definition of 'vesting condition' by separately defining a 'performance condition' and a 'service condition' and amends the definition of 'market condition'; AASB 3 'Business Combinations': clarifies that contingent consideration in a business combination is subsequently measured at fair value with changes in fair value recognised in profit or loss irrespective of whether the contingent consideration is within the scope of AASB 9; AASB 8 'Operating Segments': amended to require disclosures of judgements made in applying the aggregation criteria and clarifies that a reconciliation of the total reportable segment assets to the entity's assets is required only if segment assets are reported regularly to the chief operating decision maker; AASB 13 'Fair Value Measurement': clarifies that the portfolio exemption applies to the valuation of contracts within the scope of AASB 9 and AASB 139; AASB 116 'Property, Plant and Equipment' and AASB 138 'Intangible Assets': clarifies that on revaluation, restatement of accumulated depreciation will not necessarily be in the same proportion to the change in the gross carrying value of the asset; AASB 124 'Related Party Disclosures': extends the definition of 'related party' to include a management entity that provides KMP services to the entity or its parent and requires disclosure of the fees paid to the management entity; AASB 140 'Investment Property': clarifies that the acquisition of an investment property may constitute a business combination.

f. Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Sprintex Limited ('company' or 'parent entity') as at 30 June 2015 and the results of all subsidiaries for the year then ended. Sprintex Limited and its subsidiaries together are referred to in these financial statements as the 'Consolidated entity' or 'Group'.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the Group. Losses incurred by the Group are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and noncontrolling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

g. Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred in a business combination shall be measured at fair value, which shall be calculated as the sum of the acquisition date fair values of the assets transferred by the acquirer, the liabilities incurred by the acquirer to former owners of the acquiree and the equity issued by the acquirer, and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

FOR THE YEAR ENDED 30 JUNE 2015

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured at fair value as at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in accordance with AASB 139 either in profit or loss or in other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured.

h. Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. This includes start-up operations which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of directors.

Operating segments have been identified based on the information provided to the chief operating decision makers, being the executive management team.

The Company is operating in one segment, being the manufacture and distribution of the patented range of Sprintex[®] superchargers.

i. Foreign currency translation

Transactions in foreign currencies are initially recorded in the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities are retranslated at the rate of exchange ruling at the reporting date. All exchange differences in the financial report are taken to the profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

j. Revenue recognition

Revenue is recognised and measured at the fair value of the consideration received or receivable to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

Sale of Goods

Revenue is recognised when the significant risks and rewards of the goods have passed to the buyer and can be measured reliably. Risks and rewards are considered passed to the buyer at the time of delivery of the goods to the customer.

Interest

Revenue is recognised as the interest accrues using the effective interest method.

Effective interest method is a method of calculating the annualised cost of a financial asset or liability and allocating the interest income or expense over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument to the net carrying amount of the financial asset or liability.

FOR THE YEAR ENDED 30 JUNE 2015

k. Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or

When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

I. Other taxes

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax ("GST") except:

- (a) where the GST on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- (b) Receivables and payables are stated with amounts of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financial activities, which are recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments or contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

m. Loss per share

Basic loss per share

Basic loss per share is determined by dividing net profit after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted loss per share

Diluted loss per share adjusts the figures used in the determination of basic loss per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

FOR THE YEAR ENDED 30 JUNE 2015

n. Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

o. Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity date of twelve months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included within interest-bearing liabilities in current liabilities on the statement of financial position.

p. Trade and other receivables

Trade receivables, which generally have 0-30 day terms are recognised initially at fair value and subsequently measured at amortised cost using effective interest method, less an allowance for impairment.

Collectability of trade receivables is reviewed on an ongoing basis at an operating unit level. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Company will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than 60 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

q. Inventories

Inventories are valued at the lower of cost or net realisable value. Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

Raw materials - purchase cost on a first in, first out basis.

Finished goods and work in progress – cost of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs. Costs are assigned on a first in, first out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

r. Investments and other financial assets

Investments and financial assets in the scope of AASB 139 Financial Instruments: Recognition and Measurement are categorised as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Designation is re-evaluated at each financial year end, but there are restrictions on reclassifying to other categories.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

FOR THE YEAR ENDED 30 JUNE 2015

Recognition and de-recognition

All regular way purchases and sales of financial assets are recognised on the trade date ie the date that the Company commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the market place. Financial assets are derecognised when the right to receive cash flows from the financial assets have expired or been transferred.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired. These are included in current assets, except for those with maturities greater than 12 months after reporting date, which are classified as non-current.

s. Joint arrangements

Joint arrangements are classified as either a joint operation or a joint venture, based on the rights and obligations arising from the contractual obligations between the parties to the arrangement. To the extent the joint arrangement provides the Group with rights to the net assets of the arrangement, the investment is accounted for using the equity method. To the extent the joint arrangement provides the Group with rights to the individual assets and obligations arising from the joint arrangements, the Group with rights to the Group with rights to the Group with rights to the obligations arising from the joint arrangement, the joint arrangement, the joint arrangement provides the Group with rights to the individual assets and obligations arising from the joint arrangements, the Group recognises its share of assets, liabilities, revenues and expenses of the operation.

The Company has an investment in a joint venture. The Company's investment in the joint venture is accounted for using the equity method of accounting as the joint venture provides the Group with rights to the net assets of the joint venture.

Under the equity method, investments in a joint venture are carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Company's share of net assets of the joint venture. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised. After application of the equity method, the Company determines whether it is necessary to recognise any impairment loss with respect to the Company's net investment in joint ventures. Goodwill included in the carrying amount of the investment is tested separately, rather the entire carrying amount of the investment is tested for impairment as a single asset. If impairment is recognised, the amount is not allocated to the goodwill of the joint venture.

The Company's share of the joint venture's profits or losses is recognised in the statement of comprehensive income, and its share of movement in reserves is recognised in reserves. The cumulative movements are adjusted against the carrying amount of the investment. Dividends receivable from joint ventures are recognised in the Company's statement of comprehensive income as a component of other income.

After application of the equity method, the Company determines whether it is necessary to recognise an additional impairment loss on the Company's investment in its joint venture. The Company determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Company calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the "share of profit of joint arrangements" in the consolidated statement of comprehensive income.

When the Company's share of losses of a joint venture equals or exceeds its interest in the joint venture, including any unsecured long-term receivables and loans, the Company does not recognise further losses, unless it has an incurred obligations or made payments on behalf of the joint arrangement.

The reporting dates of the joint venture and the Company are identical and the joint venture's accounting policies conform to those used by the Company for like transactions and events in similar circumstances.

FOR THE YEAR ENDED 30 JUNE 2015

t. Property, plant and equipment

Recognition

Plant and equipment and leasehold improvements are carried at cost, less accumulated depreciation/amortisation and any impairment in value. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation. All other repairs and maintenance are recognised in profit or loss as incurred.

Land and buildings are measured at fair value, based on periodic but at least triennial valuations by external independent valuer who apply the International Valuations Standards Committee's International Valuation Standards, less accumulated depreciation on buildings and less any impairment losses recognised after the date of the revaluation.

Depreciation & amortisation

Depreciation is calculated on a diminishing value basis over the estimated useful life of the asset as follows:

Buildings: 2.5% Building Improvements: 0-30% Plant and Equipment: 15% Engineering Equipment and Software: 15%-37.5% Furniture and Office Equipment: 7.5%-37.5% Motor Vehicles: 18.75% Leasehold Improvements: 30%

The assets' residual values, useful lives and amortisation method are reviewed, and adjusted if appropriate, at each financial year end.

Revaluations of land and buildings

Any revaluation increment is credited to the asset revaluation reserve included in equity, except to the extent that it reverses a revaluation decrement for the same asset previously recognised in profit or loss, in which case the increment is recognised in profit or loss. Any revaluation decrement is recognised in profit or loss, except to the extent that it offsets a previous revaluation increment for the same asset, in which case the decrement is debited directly to the asset revaluation reserve to the extent of the credit balance existing in the revaluation reserve for that asset.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the assets.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These are included in the profit or loss within the statement of profit or loss and other comprehensive income.

Upon disposal or de-recognition, any revaluation reserve relating to the particular asset being sold is transferred to retained earnings.

De-recognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

u. Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum lease payments made under operating leases are charged against profit or loss in equal instalments over the accounting periods covered by the lease term where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item.

The cost of improvements to or on leasehold property is capitalised, disclosed as leasehold improvements and amortised over the shorter of the estimated useful life of the asset or the lease term.

FOR THE YEAR ENDED 30 JUNE 2015

Finance leases

Leases which effectively transfer substantially all of the risks and rewards incidental to ownership of the leased item to the Company are capitalised at the inception of the lease at the fair value of the leased asset, or, if lower, at the present value of the minimum lease payments and disclosed as property, plant and equipment under lease. A lease liability of equal value is also recognised.

Capitalised lease assets are depreciated over the shorter of the estimated useful life of the assets and the lease term. Minimum lease payments are allocated between interest expense and reduction of the lease liability with the interest expense calculated using the interest rate implicit in the lease and recognised directly in net profit.

v. Impairment of non-financial assets other than goodwill

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

At each reporting date, management assess whether there is any indication that an asset may be impaired, where an indicator of impairment exists, management makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less cost to sell and value in use. It is determined for an individual asset, unless the asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset.

w. Goodwill and intangibles

Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the costs of the business combination over the Company's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Company are assigned to those units or groups of units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for the internal management purposes; and is not larger than an operating segment determined in accordance with AASB 8. The Company operates in one cash-generating unit and therefore goodwill was allocated to the Company as a whole.

Impairment is determined by assessing the recoverable amount of the cash-generating unit to which the goodwill related. When the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised.

When goodwill forms part of a cash-generating unit (group of cash-generating units) and an operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this manner is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Impairment losses recognised for goodwill are not subsequently reversed.

FOR THE YEAR ENDED 30 JUNE 2015

Intangibles

Intangible assets acquired separately or in a business combination are initially measured at cost. The cost of an intangible asset acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in profit or loss in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired (see note 2(v) for methodology). The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the amortisation period or method, as appropriate, which is a change in accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in profit or loss in the expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cashgenerating unit level consistent with the methodology outlined for goodwill above. Such intangibles are not amortised. The useful life of an intangible asset with an indefinite life is reviewed each reporting period to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for as a change in an accounting estimate and is thus accounted for on a prospective basis.

Research and development costs

Research costs are expensed as incurred. An intangible asset arising from development expenditure on an internal project is recognised only when the Company can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Following the initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure so capitalised is amortised over the period of expected benefit from the related project.

The carrying value of an intangible asset arising from development expenditure is tested for impairment annually when the asset is not yet available for use, or more frequently when an indication of impairment arises during the reporting period.

Patents

The Company's intangible asset represents acquired intellectual property – patents are amortised over the remaining life on a straight line basis.

x. Trade and other payables

Trade and other payables are carried at amortised cost. Due to their short term nature they are not discounted. They represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

y. Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

FOR THE YEAR ENDED 30 JUNE 2015

z. Borrowing costs

Borrowing costs are recognised as an expense when incurred, except where they are directly attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use or sale), in which case they are capitalised as part of the cost of that asset. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. The Company does not currently hold qualifying assets.

aa. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Company expects some or all of a provision to be reimbursed, for example under and insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Service warranties

Provision is made for the estimated liability on all products still under warranty at reporting date. The amount of the provision is the estimated cash flows expected to be required to settle the warranty obligations and is calculated based on a percentage of sales. The provision is not discounted to its present value as the effect of discounting is not material.

bb. Employee leave benefits

Wages, salaries, annual leave and non-monetary benefits

Provision is made for the employee benefits accumulated as a result of the employee rendering services up to the reporting date. These benefits including on costs due to be settled within one year, together with benefits arising from wages and salaries, annual leave and non-monetary benefits which will be settled after one year, are measured at their nominal amounts based on remuneration rates which are due to be paid when the liability is settled.

Long service leave

Long service leave including on costs, payable later than one year have been measured at the present value of estimated future cash outflows to be made for those benefits using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

Retirement benefit obligations

The Company contributes to various superannuation plans in accordance with and at rates set down by law. Some employees contribute to these plans at differing percentages of their salaries.

The Company's contributions and costs are charged as an expense as incurred.

cc. Share based payment transactions

The Company provides incentives to the key management personnel (KMP) of the Company in the form of share based payment transactions, whereby KMP render services in exchange for shares or rights over shares ("equity settled transactions").

FOR THE YEAR ENDED 30 JUNE 2015

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. An external valuer using Black Scholes model determines the fair value, which takes into account the factors including the option exercise price, the current level and volatility of the underlying share price, the risk-free interest rate, expected dividends on the underlying share, current market price of the underlying share, the expected life of the option, and any barriers associated with vesting.

The fair value of equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the option ('vesting date').

The cumulative expense recognised for equity settled transactions at each reporting date until vesting reflects:

- (a) the grant date fair value of the award,
- (b) the extent to which the vesting period has expired, and
- (c) the number of options that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at reporting date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market condition.

Where the terms of an equity settled option are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of modification.

Where an equity settled option is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the option is recognised immediately. However, if a new option is substituted for the cancelled option, and designated as a replacement option on the date that it is granted, the cancelled and new option are treated as if they were a modification of the original option, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Equity-settled share-based payments transactions with other parties are measured at the fair value of the goods or services received, except where the fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

dd. Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3. Significant accounting estimates, assumptions and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions in relation to assets, liabilities, contingent liabilities, revenue and expenses that affect the reported amounts in the financial statements. Estimations and judgements are continually evaluated by management and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

FOR THE YEAR ENDED 30 JUNE 2015

(a) Significant accounting judgements

The following are the critical judgements that the directors have made in the process of applying the entity's accounting policies and that have the most significant effect of the amounts recognised in financial statements:

Impairment of non-financial assets other than goodwill

The Company assesses impairment of all assets including intangible assets with definite useful lives at each reporting date by evaluating conditions specific to the Company and to the particular asset that may lead to impairment. These include product and manufacturing performance, technology, economic and political environments and future product expectations. If an impairment trigger exists the recoverable amount of the asset is determined. Given the current uncertain economic environment, these assets have been tested for impairment in this financial period.

Taxation

The Company's accounting policy for taxation requires management's judgement in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the statement of financial position. Deferred tax assets, including those arising from un-recouped tax losses, capital losses and temporary differences, are recognised only where it is considered more likely than not that they will be recovered, which is dependent on the generation of sufficient future taxable profits.

Assumptions about the generation of future taxable profits and repatriation of retained earnings depend on management's estimates of future cash flows. These depend on estimates of future production and sales volumes, operating costs, capital expenditure, dividends and other capital management transactions. Judgements are also required about the application of income tax legislation. These judgements and assumptions are subject to risk and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets and deferred tax liabilities in respect of tax losses and temporary differences not yet recognised. In such circumstances, some or all of the carrying amounts of unrecognised deferred tax assets and liabilities may require adjustment, resulting in a corresponding credit or charge to the profit or loss.

(b) Significant estimates and assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are:

Estimation of provisions for obsolete inventory

The Company estimates the recoverable value of inventory by references to expected future selling prices and where these are lower than the cost of the inventory, reduces the value of inventory to the expected selling price less selling cost.

Impairment of goodwill

The Company determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the recoverable amount of the cash-generating units, using a value in use discounted cash flow methodology, to which the goodwill is allocated.

Warranty provision

In determining the level of provision required for product warranties the Company has made judgements in respect of the expected performance of the product, number of customers who will actually use the warranty and how often, and the costs of fulfilling the performance of the service warranty. Historical experience and current knowledge of the performance of products has been used in determining this provision. The related carrying amounts are disclosed in note 17. Any increase or decrease in the provision would affect profit or loss in future years.

Research and Development tax concession

The Company's accounting policy for research and development tax claim requires management's judgement in assessing whether the tax claim is probable. Historical experience of the success of prior years' claims and the quantum of eligible expenditure in the current year have been used in determining the amount recognised in the profit or loss as research and development tax benefit.

FOR THE YEAR ENDED 30 JUNE 2015

4. Segment information

(a) Identification of reportable segments

The Company identifies its operating segments based on the internal reports that are reviewed and used by the executive management team (chief operating decision makers) in assessing performance and in determining the allocation of resources. Operating segments are identified by management based on the similarity of the products produced and sold.

The Company is operating in one segment, being the manufacture and distribution of the patented range of Sprintex® superchargers.

The accounting policies applied for internal reporting purposes are consistent with those applied in the preparation of the financial statements.

(b) Geographic information and major customers

	2015 \$	2014 \$
United States	572,068	297,062
Malaysia	41,253	26,490
Australia	346,148	417,103
Japan	21,344	59,694
Other countries	283,303	168,939
Total revenue	1,264,116	969,288

The revenue information above is based on the location of the customer. During 2015, 12% of sales were to one customer in Australia and 1.6% (2014: 2%) of sales revenues during the year were to the Company's joint venture (see notes 12 and 22).

(c) Location of non-current assets

Non-current assets for this purpose consist of property, plant and equipment. Non-current assets of the Company located in Australia, \$1,201,849 (2014: \$1,333,857). Non-current assets in the USA, \$26,555 (2014: \$20,238).

FOR THE YEAR ENDED 30 JUNE 2015

2015	2014
\$	\$

6. Income tax

(a) Numerical reconciliation between aggregate tax credit recognised in the income statement and tax expense calculated per the statutory income tax rate

Loss before income tax expense	(6,164,075)	(4,877,023)
Income tax calculated at statutory tax rate of 30% (2014: 30%)	(1,849,223)	1,463,107
Government grants exempted from tax	(454,198)	150,377
Tax losses and temporary differences not recognised	2,303,421	(1,613,484)
Aggregate income tax benefit	-	-

The franking account balance at year end was \$Nil (2014: \$Nil)

(b) Unrecognised temporary differences

At 30 June 2015, there are no unrecognised temporary differences associated with the Company's investments in subsidiaries as the Company has no liability for additional taxation should unremitted earnings be remitted (2014: \$nil).

(c) Deferred tax assets and liabilities

At 30 June 2015, the Company has unused tax losses of \$35,997,159 (2014: \$33,119,503) available for offset against future taxable profits. Such losses may be carried forward indefinitely subject to meeting relevant statutory tests.

A net deferred tax asset of \$12,091,779 (2014: \$10,482,055) arises from temporary differences but has not been recognised due to the unpredictability of future profit streams. Deferred income tax at 30 June relates to the following:

	2015 \$	2014 \$
(i) Deferred tax assets		
Provision for unused annual leave	14,987	44,357
Provision for unused long service leave	12,606	39,702
Warranty provisions	32,253	111,320

Research and development	115,348	-
Carry forward revenue losses	10,799,148	9,935,851
Gross deferred tax assets	12,091,779	10,449,868
Deferred tax asset not recognised	(12,091,779)	(10,449,868)
		-

FOR THE YEAR ENDED 30 JUNE 2015

7. Loss per share

The calculation of basic loss per share is based on the net loss from ordinary activities attributable to equity holders of the Company for the year of \$6,164,075 (2014: \$4,877,023) and the weighted average of 1,971,085,232 (2014: 916,900,011) ordinary shares in issue during the year.

The diluted loss per share amount for the year was the same as the basic loss per share, as the Company did not have any share options outstanding (note 18(b)), and the outstanding performance rights are anti-dilutive at 30 June 2015.

Transactions involving ordinary shares or potential ordinary shares that would change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of the completion of these financial statements are disclosed in notes 18 and 26 to the financial statements.

		2015 \$	2014 \$
8.	Remuneration of auditors		
	Auditors of the Company:		
	Audit and review of the financial report	82,500	77,000
9.	Pledged bank deposits		
		2015 \$	2014 \$
	Deposit – fixed term	82,000	82,000
	Deposit – at call	30,000	55,695
		112,000	137,695

Pledged bank deposits at 30 June 2015 represented fixed deposits as follows:

- a term deposit maturing on 31 December 2015 bearing interest at 2.35% per annum of \$30,000 supporting credit card facilities;
- a term deposit maturing on 30 September 2015 bearing interest at 2.25% per annum, pledged against a guarantee in the amount of \$82,000 issued by a bank on behalf of the Company.

Pledged bank deposits at 30 June 2014 represented fixed deposits maturing on 27 September 2014 and bore interest at 3.3% per annum. The deposits were pledged against an operating lease facility granted to the Company (note 23(a)).

		2015 \$	2014 \$
10.	Trade and other receivables		
	Trade receivables	103,847	22,627
	Other receivables	4,170	5,786
	Trade deposits	3,300	153,714
	Prepayments	73,560	7,387
		184,876	189,514

FOR THE YEAR ENDED 30 JUNE 2015

(a) Allowance for impairment loss

Trade receivables are non- interest bearing and are generally on 0-90 day terms. An allowance for impairment loss is recognised when there is objective evidence that an individual trade receivable is impaired.

Movements in the provision for impairment loss were as follows:

	2015 \$	2014 \$
At 1 July	-	108,256
Charge for the year	-	-
Reversal of provision		(108,256)
At 30 June	-	-

The ageing analysis of trade receivables that are neither individually nor collectively considered to be impaired are as follows:

Neither past due nor impaired	25,117	7,752
Less than 1 month past due	37,316	4,326
1 to 3 months past due	34,056	3,814
Over 3 months past due	7,358	6,735
	103,847	22,627

Trade receivables that were neither past due nor impaired relate to a range of customers for whom there was no recent history of default.

Trade receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Company. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there have not been a significant change in credit quality and the balances are still considered fully recoverable. The Company does not hold any collateral over these balances.

(b) Other receivables

Trade deposits represent payments to suppliers with no history of unsatisfactory product quality or delivery default and are considered fully recoverable.

(c) Fair value and credit risk

Due to the short-term nature of the receivables, their carrying value is assumed to approximate their fair value.

(d) Foreign exchange and interest rate risk

Details regarding foreign exchange and interest rate risk exposure is disclosed in note 25.

		2015 \$	2014 \$
11.	Inventories		
	Finished goods – at cost	2,308,153	1,178,454
	Provision for impairment	(895,976)	-
	Total inventories at lower of cost and net realisable value	1,412,177	1,178,454
	*Net of write offs totalling \$618,925.		

FOR THE YEAR ENDED 30 JUNE 2015

12. Investment in a joint venture

Interests in joint venture are accounted for using the equity method of accounting. Information relating to the joint venture is set out below:

				2015 \$	2014 \$
(a)	Investment details				
	Unlisted				
	Proreka Sprintex Sdn. Bhd.	Investment	50% Interest	-	-
	Proreka Sprintex Sdn. Bhd. is a Malays facility in Malaysia which has been licer		,		

(b) Movements in the carrying amount of the Company's investment in a joint venture The Company's investment in the joint venture is considered to be fully impaired.

(c) Loan due from a joint venture

	2015 \$	2014 \$
Proreka Sprintex Sdn. Bhd.	1,253,994	535,753
Provision for impairment (note 12(d))	1,253,994	(535,753)
	-	-

(i) The loan due from the joint venture is interest free.

(d) In view of the losses being incurred by the joint venture, the carrying value of the balances with the joint venture were deemed to be impaired.

(e) Share of interest in a joint venture

Share of assets and liabilities

	2015 \$	2014 \$
Current assets	856,514	509,112

	Provision for employee benefits	91,979	84,058
		200,141	195,378

Movements in the provision for warranty for the Company during the financial year are set out below:

	2015 \$	2014 \$
At 1 July	111,320	160,787
Provision made during the year	653	19,998
Utilisation of provisions	(3,811)	(69,465)
At 30 June	108,162	111,320

Warranty provision

Under the terms of the Company's sales arrangements, the Company will rectify any product defects arising within one year of the date of sale. Provision is therefore made for the present value of the management's best estimate of the expected settlement under these agreements in respect of sales made within the year prior to the reporting date.

		2015 \$	2014 \$
18.	Contributed equity		
	Paid up capital – ordinary shares	51,640,218	43,754,389
	Capital raising costs capitalised	(1,195,518)	(1,085,863)
		50,444,700	42,668,526

(a) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid shares have no par value.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

FOR THE YEAR ENDED 30 JUNE 2015

(b) Guarantees

Other than as disclosed in note 9, no guarantees have been entered into by the Company in relation to the debts of its subsidiaries.

(c) Commitments

Commitments of the Company as at reporting date are disclosed in note 23 to the financial statements.

(d) Tax consolidation

The Company and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2004. The Company is the head entity of the tax consolidated group. The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the broad principles in AASB 112 Incomes Taxes. There is no tax funding agreement in place.

22. Related party disclosures

Key management personnel compensation

The key management personnel compensation is as follows:

	2015 \$	2014 \$
Short-term employee benefits	1,180,630	1,290,127
Share-based payments	40,000	5,433
Total	1,220,630	1,295,560

FOR THE YEAR ENDED 30 JUNE 2015

The financial statements include the financial statements of the Company and the subsidiaries listed in the following table:

	Country of	% Equity Interest		Investment	
Name of Entity	Incorporation	2015	2014	2015	2014
				\$	\$

The ultimate parent.

Sprintex Limited is the ultimate parent, based and listed in Australia. Net loans of \$5,481 were provided to Sprintex USA. There were no transactions with Sprintex Limited and its subsidiaries.

Joint venture in which the entity is a venturer

Proreka Sprintex Sdn. Bhd.

The Group has a 50% interest in the assets, liabilities and net income of Proreka Sprintex Sdn. Bhd.

Loan to joint venture in which the Group is a venturer

The loan to the joint arrangement is interest free and unsecured.

FOR THE YEAR ENDED 30 JUNE 2015

Transactions with key management personnel

Director advances

The Directors advanced funds to the Company during the year to provide short term liquidity support. These loans bore interest at 9% per annum and pursuant to a resolution passed at a general meeting of shareholders in November 2014, were converted to equity in the Company.

Key Management Personnel

25,000,000 fully paid ordinary shares in-lieu of salary at \$0.002 per ordinary share have been issued to key management personnel. These shares have been issued pursuant to a resolution passed at a general meeting of shareholders in November 2014.

23. Commitments

(a) Operating lease commitments

The Company is the lessee in respect of certain property and items of plant and machinery and office equipment held under operating leases. The lease for the property has a term of 10 years from 1 July 2006 and lease payments are increased every year with indexation to reflect market rentals.

At the reporting date, the Group and the Company had outstanding minimum commitments under non-cancellable operating leases, which fall due as follows:

	2015 \$	2014 \$
Within one year	208,023	195,430
After one year but not more than five years	-	186,468
After more than five years	-	-
Total minimum lease payments	208,023	381,898

(b) Finance lease and hire purchase commitments

The Company leases certain plant and equipment under finance leases expiring from 1 to 5 years. At the end of the lease terms the Company owns the equipment outright or has the option to purchase the equipment for the residual amount owing. The Company's obligations under finance leases are secured by the lessors' title to the leased assets.

	2015 \$	2014 \$
Within one year	110,459	32,442
After one year but not more than five years	28,542	45,844
Total minimum lease payments	139,001	78,286
Less: amounts representing finance charges	(5,126)	(9,623)
Present value of minimum lease payments	133,875	68,663
Included in the financial statements as:		
Current interest-bearing liabilities (note 16)	107,734	29,006
Non-current interest-bearing liabilities (note 16)	26,141	39,657
	133,875	68,663

(c) Capital commitments

As at 30 June 2015 and 2014, the Company did not have any outstanding capital commitments in respect of acquisition of property plant and equipment contracted for but not provided for in the financial statements.

FOR THE YEAR ENDED 30 JUNE 2015

(d) Guarantees issued

As at 30 June 2015, the Company had an outstanding guarantee issued in favour of the landlord of leased premises in the amount of \$82,000 (2014: \$82,000). The guarantee is backed by a restricted bank deposit for the same amount and expires on 30 June 2016.

The Company has committed to support the joint venture company, Proreka Sprintex Sdn. Bhd. (see note 12). The amount of this commitment is not yet known. In addition, , the Company's Joint Venture, Proreka Sprintex Sdn. Bhd. (JV) obtained bank financing of 80% of the equipment cost under a facility totalling RM 5 million (approximately \$1.6 million) (Facility). The financing was conditional on each of two of the Malaysia resident directors of the JV, AutoV Corporation Bhd (the Company's joint venture partner) and AutoV Corporation BHD's parent, Globaltec BHD, providing 'an all monies guarantee' to secure the Facility. The Company agreed to provide indemnities totalling half of the limit under the Facility, being a maximum of RM 2.5 million (approximately \$0.8 million), to support the guarantees issued by the aforesaid parties.

24. Capital risk management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. There are no externally imposed capital requirements.

Management are constantly adjusting the capital structure to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, management may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

During 2015 and 2014, no dividends have been paid. The Company does not yet have a dividend policy and payment of future dividends will be dependent upon the future profitability and financial position of the Company.

The capital structure of the Company consists of total debts, which includes the interest-bearing borrowings, and finance lease liabilities as detailed in note 16, cash and cash equivalents and equity attributable to equity holders of the Company, comprising contributed equity, reserves and accumulated losses as disclosed in notes 18 and 19 respectively.

Management monitor capital through the gearing ratio (net debt/total capital). For this purpose the Company defines net debts as total debts as defined above, less cash and cash equivalents. The gearing ratios at 30 June 2015 and 2014 were as follows:

	2015 \$	2014 \$
Total debts	133,875	2,148,449
Less: cash and cash equivalents	(67,950)	(173,067)
Net debt	65,925	1,975,382
Total equity	1,709,739	136,603
Total capital	1,775,664	2,111,985
Gearing ratio - Net debt / total capital	3.7%	93.5%

FOR THE YEAR ENDED 30 JUNE 2015

25. Financial risk management

The Group's and the Company's principal financial instruments comprise receivables, payables, interest bearing borrowings and overdrafts, finance lease liabilities, cash and short-term deposits.

Exposure to credit risk, liquidity risk, interest rate risk and currency risk arises in the normal course of the Group's and the Company's business.

The Group manages its exposure to key financial risks, including interest rate and currency risk in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security. Debt borrowings are driven by balancing cash, short term borrowings and longer term capital financing of the business.

(a) Credit risk

The Group's credit risk is primarily attributable to its trade and other receivables. The Group's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of each financial asset in the statement of financial position after deducting any impairment allowance.

Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. In respect of trade and other receivables, individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customers as well as pertaining to the economic environment in which the customers operate. Trade receivables are due within 0 to 30 days from the date of billing. Debtors with balances that are more than 3 months past due are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers.

Further quantitative disclosures in respect of the Group's exposure to credit risk arising from trade and other receivables are set out in note 10.

(b) Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, finance leases and committed available credit lines. The Group manages its liquidity risk by monitoring the total cash inflows and outflows expected on a monthly basis and monitoring compliance with lending covenants on an ongoing basis.

The following table details the remaining contractual maturities at the reporting date of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates, or if floating, based on rates current at the reporting date) and the earliest date the Group can be required to pay.

Year ended 30 June 2015	Carrying amount	Total contractual undiscounted cash flow	Within 1 year or on demand	More than 1 year but less than 2 years	More than 2 years but Less than 5 years
	\$	\$	\$	\$	\$
Trade and other payables	961,652	961,652	961,652	-	-
Insurance premium funding	91,408	94,348	94,348	-	-
Finance lease liabilities	42,467	47,593	19,051	13,473	15,069
Loans from related entities	-	-	-	-	-

	2,700,443	2,710,466	2,664,622	17,303	28,541

(c) Interest rate risk

The Group's interest rate risk arises primarily from interest bearing financial assets and financial liabilities. Financial instruments issued at variable rates and at fixed rates expose the Group to cash flow interest rate risk and fair value interest risk respectively. The Group's policy is to manage the borrowing structure to match the nature of funding needs and acknowledges that fair value exposure from the Group's fixed rate financial liability is a by-product of the Group's attempt to manage its cash flow volatility arising from interest rate changes. At reporting date, the interest rate profile of the carrying value of the Group's interest bearing financial assets and liabilities are set out in the following tables:

Year ended 30 June 2015	Floating interest rate	Fixed interest rate	Total
	\$	\$	\$
Financial assets			
Cash and cash equivalents	67,950	-	67,950
Pledged bank deposits	-	112,000	112,000
	67,950	112,000	179,950
Financial liabilities

Finance lease liabilities	-	42,467	42,467
Loans from related parties	-	-	-
Convertible notes	-	-	-
	-	133,875	133,875
Net exposure	67,950	(21,875)	46,075

FOR THE YEAR ENDED 30 JUNE 2015

Year ended 30 June 2014	Floating interest rate \$	Fixed interest rate \$	Total \$
Financial assets			
Cash and cash equivalents	173,067	-	173,067
Pledged bank deposits	-	137,695	137,695
	173,067	137,695	310,762
Financial liabilities			
Insurance premium funding	-	-	-
Finance lease liabilities	-	68,663	68,663
Loans from related parties	-	2,053,129	2,053,129
Convertible notes	-	26,657	26,657
	-	2,148,449	2,148,449
Net exposure	173,067	(2,010,754)	(1,837,687)

The interest rates and terms of repayment of the Group's borrowings are disclosed in note 16 to the financial statements.

Cash flow sensitivity analysis for floating rate instruments

An increase of 100 basis points in interest rates at the reporting date would have increased net loss and accumulated losses by \$679 (2014: \$1,730). A decrease of 100 basis points in interest rates will have the same amount but opposite financial effect on net loss and accumulated losses.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the reporting date and had been applied to the exposure to interest rate risk for financial instruments in existence at that date. The 100 basis point increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next annual reporting date based on historical market trend. The analysis is performed on the same basis for 2015. There would be no impact on equity.

(d) Currency risk

The Group is exposed to currency risk primarily through sales and purchases that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily Euros, United States dollars, Swedish Kroner and Malaysian Ringgit. Currently, the Group does not have a policy to manage the currency risk arising from sales and purchases.

All the Group's borrowings are denominated in the functional currency of the entity taking out the loan. Given this, management does not expect that there will be any currency risk associated with the Group's borrowings.

The following table details the Group's exposure at the reporting date to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate.

	2015
	US Dollars
Trade and other receivables	52,419
Cash and cash equivalents	38,551
Trade and other payables	55,883
Overall net exposure	146,853

FOR THE YEAR ENDED 30 JUNE 2015

	2014
	US Dollars
Trade and other receivables	14,799
Cash and cash equivalents	40,978
Trade and other payables	(22,334)
Overall net exposure	33,443

The following table indicates the approximate change in the Group's loss after taxation and accumulated losses in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the statement of financial position date. A positive number below indicates a decrease in net loss for the year and accumulated losses where the AUD weakens against the relevant currency. For a strengthening of the AUD against the relevant currency, there would be an equal and opposite impact on the net loss and accumulated losses, and the balances below would be negative.

	20	015	20	014
	Increase in foreign exchange rates	Effect on loss for the year and accumulated losses \$	Increase in foreign exchange rates	Effect on loss for the year and accumulated losses \$
United States Dollars	3.2%	(39,530)	3.3%	(1,048)

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the reporting date and had been applied to each of the group entities; exposure to currency risk for financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant.

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the next annual reporting date. Results of the analysis as presented in the above table represent an aggregation of the effects on each of the group entities' net loss for the year and accumulated losses measured in the respective functional currencies, translated into AUD at the exchange rate ruling at the statement of financial position date for presentation purposes. The analysis is performed on the same basis for 2014.

(e) Fair value estimation

All financial instruments are carried at amounts not materially different from their fair values as at 30 June 2015 and 2014.

The carrying value of trade and other receivables and payables are assumed to approximate their fair values due to their short term nature. The fair value of financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments, as detailed in notes 16. The directors consider that the change in interest rates will not cause a significant impact on the fair values of the financial liabilities.

No financial instruments are carried at fair value.

26. Events subsequent to reporting period

In the interval between the end of the period and the date of this report, in the opinion of the Directors of the Company, no item, transaction or event of a material and unusual nature has occurred which is likely to significantly affect the operations of the Consolidated Entity, or the results of those operations, other than as set out below:

On 10 July 2015, the Company announced that it had secured a short term funding facility of approximately \$1m. The facility has been provided by Future (Holdings) Limited, an unrelated third party, which agreed to provide the facility for a six month period at an interest rate of 9.00% per annum.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Sprintex Limited, I state that:

- 1. In the opinion of the directors:
 - a. The financial statements, notes and the Remuneration Report in the Directors' Report designated as audited are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*;
 - b. the financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2(a); and
 - c. subject to note 2(b) to the financial statements, there are reasonable grounds to believe that the consolidated entity will be able to pay its debts as and when they become due and payable.
 - d. this declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2015.

Dated at Perth this 29th day of September 2015.

S. relit

David White Deputy Chairman and acting CEO Perth, 30 September 2015
