

Activities Report for the quarter ended 30 September 2015

Project Activity Tennant Creek

During the quarter the Company continued discussions regarding Joint Venture proposals for Juno and Nobles Nob tenements, both of which are located in the Tennant Creek Project. Several parties have indicated strong interest in investing into both projects. The Joint Venture option has been pursued as capital raising is difficult in this market.

The Company continued its analysis of the geophysical gravity and structural ground based mapping. This has provided the Company with several new prospective drilling targets on both Nobles Nob and Juno tenements.

A drilling program has been designed for the two most promising targets located within the Nobles Nob area. The Company had previously received written approval of the amended Mine Management Plan for the Tennant Creek Project from the Northern Territory Department of Mines and Energy.

The drilling program will be implemented upon successful fundraising.

Zambia

The Company did not proceed with the acquisition of the Manganese project in Zambia after the completion of due diligence.

Desktop work has continued on the Lakeshore, Tangerey and Menara Projects and the Company is seeking Joint Venture partners on these projects.

Corporate

The Company completed the Share Purchase Plan and issued 27,900,000 shares on 8 October 2015. These shares were issued at \$0.005 cents per share and raised a total of \$139,500.

The Company will proceed with a sale of unmarketable parcels of shares after the Annual General Meeting which is to be held on 30 November 2015.

The Company is continually seeking opportunities to maximise the value of its assets. This includes discussing potential farm-ins with joint venture partners, raising capital and looking for new projects.
