ASX Market Announcements

ZYBER APPOINTS KEY ADVISOR AND EXPANDS SENIOR MANAGEMENT TEAM

Highlights

- High level sales executive from TELUS (Canada's second largest telco), Paul Assaly, is the first appointment to the Company's advisory board
- Assaly brings extensive experience and contacts within the North American Enterprise market to drive Zyber's sales and market strategy
- Two additional senior management hires, with Tony Louie as Sales Lead and Karim Noorani as Product Manager
- The three appointments add significant capabilities to fast-track commercialization of Zyber's security solutions

Dourado Resources Limited (ASX: DUO) is pleased to announce that Zyber Secure Mobile Solutions Inc (Zyber) has significantly strengthened its management capability with the appointment of Paul Assaly to its Advisory Board. Mr. Assaly will join the Advisory Board effective November 1, 2015.

Mr. Assaly is the first of a number of key appointments to the Zyber advisory board and he brings over 20 years of expertise in sales, marketing and contract negotiation in the North American enterprise market.

His role on the Advisory Board will be to assist Zyber in its sales and market strategy across the information security market, estimated by Gartner to reach \$US86 billion by 2016.

Mr. Assaly is currently one of the most senior sales executives with the second largest Canadian telecommunications services company TELUS and was recently awarded TELUS's most prestigious National Leadership Award in Sales and Marketing, *TELUS Executive of the Year*. He has been with TELUS for over nine years and is responsible for some of TELUS' largest accounts.

Prior to TELUS, Mr. Assaly worked for Bell Canada, Canada's largest Telecommunications Company, Alcatel/Lucent and various start-ups in the technology sector.

"Secure enterprise file sharing and mobile content management is critical to enabling the workforce of large companies globally. That said, Zyber is creating a product to help large enterprise to become mobile but NOT at the expense of security," said Mr. Assaly.

"This is truly unique and solves a major issue in reducing risk in a collaborative and mobile environment. I'm looking forward to working with the Zyber team."

Further, Zyber is pleased to announce that it has strengthened the senior management team with two key hires. Tony Louie will take up the role of Sales Lead for the Company from November 1, 2015 and Karim Noorani will be Zyber's Product Manager as of October 28, 2015.

Mr. Louie is a seasoned sales and business development professional with a strong track record spanning 25 years at some of the world's top technology companies like Cisco Systems, AT&T, NCR and TELUS.

In Mr. Louie's nine-year career at Cisco, he was consistently rated as the top performer covering industries like service providers, enterprise, commercial and channel partners.

Mr. Noorani is a certified project management professional (PMP) with more than two decades of experience in delivering large scale software projects.

For the last seven years, Mr. Noorani has been working on IT projects for TELUS and has held quality assurance management roles with a number of organizations like Cogent Health Solutions and E-xact Transactions.

"I am delighted to have such high caliber professionals join the Zyber team, particularly given their expertise in the Canadian telco market which is a key industry for Zyber's unique security solutions," said Jason Tomkinson, Chairman of Zyber.

"Zyber's secure managed file sharing solutions received customer validation from TELUS and the latest company appointments will allow us to accelerate the commercialization of our technology in the enterprise space in North America."

Clay Epstein, CEO
